Chapter 521: The Arrogant Red Star Empire Team

At the same time, the earth attribute territory on the other side.

Out of the few territories, the one who felt the most aggrieved was probably the Red Star Empire team from the earth attribute territory.

They were the last to be eliminated, and their last hope had shattered. They had not even fought with the Land of Origin team. Members of the Red Star Empire team still believed that the strength of members of the Land of Origin team was average. They were just lucky to defeat the New World team and the Pan-ocean Community team one after another. They had members of the New World team and the Pan-ocean Community team as prisoners of war. Only then would he be stronger than them.

In other words, to the knowledge of members of the Red Star Empire team, the Land of Origin team was only lucky to have a favorable situation. In terms of strength, the Land of Origin team was inferior to the Red Star Empire team. Naturally, they were not worthy of being the first team to advance.

However, they could not do anything else. The fifth level of the Tower only had one team left, which was the Land of Origin team.

The Red Star Empire team had been eliminated. They had even become the prisoners of war of the Land of Origin team. All their spoils of war had been taken away by the Land of Origin team. They had fought hard on the fifth level of the Tower. But in the end, they had gained nothing. They had done hard work for the Land of Origin team.

At this moment, members of the Red Star Empire team were in low spirits. At the same time, they were filled with resentment towards the Land of Origin team.

“The Land of Origin team is despicable. They took advantage of our difficult situation and destroyed us.”

“That’s right. If we were at our peak, do you think the Land of Origin team would dare to provoke us?”

“They attacked us when we’d just finished fighting the monsters. Also, they had the help of the new world team and the Pan-ocean Community team.”

“That’s right. Boss and the others lost to the opponent’s experts because they were experts from three different teams. Otherwise, they wouldn’t have lost at all.

“I really can’t accept this. Damn it.”

...

Team members of the Red Star Empire team complained, but they could do nothing about it.

Not far away, the captain of the Red Star Empire team, Ye Yifan, also had a gloomy expression.

Ye Yifan had been a proud son of the heavens since he was young and grew up in a place where everyone looked up to him.

Ye Yifan had also been invincible all along the way. He had never met any opponents and had rarely failed.

At this moment, Ye Yifan also found it difficult to accept his defeat. He thought he was strong, and members of the Red Star Empire team were also capable.

He thought his team should be the one to advance to the sixth level, but they would also be able to obtain generous rewards for advancing to the next level of the Tower.

Ye Yifan thought about it carefully. He felt that the strategy of the Land of Origin team was better. They seized the opportunity and had good luck, which led to this situation.

If Ye Yifan led his men to save the Pan-ocean Community team in the wood attribute territory, they would rescue the Pan-ocean Community team. He would have the chance to wipe out the elites of the Land of Origin team and injure the Land of Origin team.

If that were the case, the Land of Origin team would be eliminated. It would be impossible for them to make it this far.

If the Red Star Empire team had joined forces with the European Federation team earlier to deal with the Land of Origin team, they would have succeeded.

Even when he was fighting with Liu Yan and the other experts during the day, Ye Yifan felt he might have a chance if he fought to the death.

Even though Liu Yan had many experts under him, Ye Yifan felt their strength was average.

It was only because Murong Xue's defensive capabilities were too terrifying that she could hold them off.

At that time, they might have a chance if they turned around and broke through in the other direction.

Ye Yifan immediately regretted it. He had the opportunity several times but didn't grasp it, which led to this situation.

If he made another decision, he would at least be able to advance with his team.

The vice-captain of the Red Star Empire team, Sun Wen, saw Ye Yifan's remorseful expression. He then comforted Ye Yifan. "It's okay, captain. Let's go back and make more preparations. With our strength, we'll be able to take first place next year and obtain a generous reward to advance. We were too careless this time. We have no choice."

When Ye Yifan heard this, he nodded slightly and felt slightly better.

Sun Wen glanced at Ye Yifan and didn't say anything else.

Sun Wen was comforting Ye Yifan. He knew that Ye Yifan was proud and arrogant. Ye Yifan would always think the Land of Origin was just lucky.

In reality, Sun Wen knew that the defeat of the Red Star Empire team was inevitable.

It was not that the Red Star Empire team was not strong enough, but that the Land of Origin team was indeed stronger.

Sun Wen had led the ordinary members of the Red Star Empire team to defend the earth attribute territory. He had only fought with the Land of Origin team for a short period.

However, Sun Wen had already keenly noticed that members of the Land of Origin team were different from his team members.

The condition of the Land of Origin was better, and their fighting spirit was stronger. The members had great trust in each other, and they cooperated well.

On the other hand, members of the Red Star Empire team had all received military training before entering the Tower. They were all well-trained, just like an army.

However, members of the Red Star Empire team would only listen to orders. They did not have a good rapport with each other, and their morale was not united.

All in all, Sun Wen thought members of the Red Star Empire team were not as good as members of the Land of Origin team.

Members of the Land of Origin team were not as strong as members of the Red Star Empire team when they had just entered the fifth level of the Tower.

But after experiencing the trial on the fifth level of the Tower, members of the Land of Origin team had grown up.

This kind of growth was what Sun Wen admired the most.

It was not scary for a team to be strong. It was scarier for a team to keep getting stronger.

Sun Wen recalled the various actions of the Land of Origin team since they entered the fifth level of the Tower. He felt that the captain of the team from the Land of Origin was a terrifying person.

The Land of Origin team did not have a good start at the sixth level.

The strength of members of the Land of Origin team was mediocre.

At the start of the trial, the Land of Origin team did not even have a single ally. They were targeted by the four teams from the two major alliances. It was indeed a devastating start.

Chapter 522: Just Lucky

However, under such circumstances, the team captain of the Land of Origin team was able to make the correct decision calmly.

Before the four teams from the two alliances made their move, Liu Yan led the Land of Origin team to take the initiative to attack. Relying on the strength of the powerful sharp knife squad and the carelessness of the Red Star Empire team, they successfully took down the Pan-ocean Community team.

It was also the most crucial operation. It became the smooth start of the Land of Origin team on the trial of the fifth level of the Tower.

This step successfully reversed the situation and destroyed the balance between the two alliances.

As the Pan-ocean Community team was eliminated, the Red Star Empire team lost an ally, leaving the New Continent team to take the lead.

This way, the Land of Origin team survived. They were no longer targeted. Instead, they had an advantageous position.

The Red Star Empire team had lost their allies. They were weak and did not dare to act rashly against any side.

On the other hand, the European Federation team was the strongest. They also tried to take the initiative to attack the Land of Origin team. However, the Land of Origin team found an opportunity.

Finally, Liu Yan had planned for the battle of the monster riot. With the efforts of the Land of Origin team, they quickly eliminated the first four waves of monsters. The Land of Origin team had killed the boss first and obtained a generous boss reward. They had given the team members a certain amount of time to rest and recuperate. Then, they would seize the opportunity to kill the European Federation team and the Red Star Empire team.

As Sun Wen looked back, he felt that the team captain of the Land of Origin, Liu Yan, was an extremely terrifying figure.

He had somewhat perfect decision-making ability. His every decision was the best choice and timely.

In addition, members of the Land of Origin team were also hardworking, which was why they were in such a good situation.

In Sun Wen's opinion, the Land of Origin team deserved the victory. It was not a surprise that the Red Star Empire team lost to the Land of Origin team.

The Red Star Empire team was inferior to the Land of Origin team in all aspects, be it in terms of the strength of their team members, the commanding ability of their captain, or the cohesiveness of their team members.

However, Sun Wen naturally would not say much to Ye Yifan.

Sun Wen knew that Ye Yifan was proud and arrogant. At this time, he had been blinded by failure and could not think calmly. There was no need to say this at this time. He could only wait for Ye Yifan to calm down.

On the other hand, Sun Wen was also a little curious. What kind of person was the captain of the Land of Origin team, Liu Yan?

If there was a chance, Sun Wen wanted to get in touch with this Liu Yan.

It was a pity that Liu Yan and the Land of Origin team were about to head to the sixth level of the Tower. On the other hand, the Red Star Empire team had to return to the lower levels of the Tower. It would be difficult to get in touch with Liu Yan in the future.

Not far away, in the middle of a group of experts.

The rest of the experts all had looks of pity on their faces. The number one assassin of the Red Star Empire team, Luo Wei, had a cold gaze as he recalled the brief exchange with Liu Yan.

Luo Wei rarely failed, and it left a deep impression on him.

Although he had failed before, he had only failed when he faced them head-on.

In concealment, speed, and assassination, Luo Wei had never lost to anyone.

However, he lost to Liu Yan in these aspects.

Luo Wei carefully recalled the process of his fight with Liu Yan and instantly felt terrified.

His concealment could not hide from Liu Yan's perception at all.

On the other hand, Liu Yan's concealment allowed him to avoid Luo Wei's perception. Even when he attacked, Luo Wei did not notice him.

His level of concealment ability was truly too exaggerated.

In terms of speed, Liu Yan crushed Luo Wei. Luo Wei moved before Liu Yan, but Liu Yan caught up with him quickly.

He also lost to Liu Yan in terms of assassination.

Luo Wei knew he would have died from that stab if Liu Yan had not held back.

Luo Wei looked at the deep wound on his shoulder and felt a chill down his spine.

Luo Wei thought about it repeatedly and realized that he had lost to Liu Yan in all aspects.

Even if he were to fight again and knew the battle process in advance, it seemed impossible for him to defeat Liu Yan.

Sun Wen could not help but feel curious. What sort of existence was Liu Yan? How could he be so powerful?

Sun Wen decided to become stronger, so he could defeat Liu Yan the next time they fought!

At this moment, the Will of Tower's voice suddenly sounded.

Its announcement reverberated through the world, allowing all members of the Red Star Empire team to hear it.

The ordinary members of the Red Star Empire team were all surprised when they heard the announcement from the Will of Tower.

He did not expect the Land of Origin team would trigger a hidden condition would be triggered. The Land of Origin team could obtain such a generous additional reward. They could even participate in the ultimate gambling duel.

"The Land of Origin is so comfortable. There's an additional reward."

"3000 attribute points for two attributes. That's too much."

“Team members of the Land of Origin team are so lucky. They’ve improved a lot in an instant.”

“The Land of Origin team is so lucky. Not only did they get first place, but they also triggered a hidden condition.”

“They’re indeed lucky. I’m envious.”

“There’s an ultimate battle. What an interesting rule.”

“I wonder which team they will choose for the duel.”

“It should be the New Continent team or the Pan-ocean Community. They are weak, so the Land of Origin team has a better chance.”

“I think it’s the European Federation team. It’s said that the members of the European Federation team are all injured, and their combat strength is not good.”

“Haha, in any case, they will not dare to choose our team. We are strong and in good condition. They would dare to choose us to crush them.”

“It’ll be interesting if they dare to choose us. If we win, they’ll be able to take away the extra reward. Hahaha!”

...

The members of the Red Star Empire team were all discussing.

When Ye Yifan heard of the announcement of the Will of Tower, he was also surprised.

“The Land of Origin team is lucky. Not only are there additional rewards, but they can also initiate the ultimate gambling duel. They directly chose a weak team and directly expanded their team. It can be said to be extremely smooth.” Ye Yifan could not help but sigh.

An expert at the side laughed and said, “It would be great if they could choose our team. Haha.”

When Ye Yifan heard this, he immediately sneered and said, “Liu Yan would not dare to do that even if he had eight guts. In the previous battle, the Land of Origin team had the help of the New Continent team and the Pan-ocean Community team. Moreover, our team had just finished a battle, so we were all exhausted, and our combat power decreased. For the ultimate gambling duel, the Land of Origin team won’t have any help from the other teams. Our team members have also rested and recovered, so they are strong in combat.”

“That’s right. If the Land of Origin team dares to choose us, they’ll be giving us additional attribute points. They don’t have the guts to do so.” Another expert said with a smile.

Chapter 523: Why Not Take in More Teams?

Sun Wen frowned as he listened to the discussion.

From Sun Wen’s point of view, the strength of the Land of Origin team had already grown. If they were to engage in the ultimate gambling duel, the Land of Origin team had a high chance of winning against the Red Star Empire team.

However, in the eyes of these people, the Land of Origin team was no match for them at all.

Sun Wen shook his head in disappointment.

The Red Star Empire team was strong, so they had some arrogant thoughts.

They didn't know that the other teams had already grown during this time and weren't any weaker than them.

Sun Wen thought about it carefully and felt that this was possible.

The strength of Land of Origin team was stronger than that of the Red Star Empire team.

Given Liu Yan's personality, he might not be the type to pursue safety. He might even choose the Red Star Empire team as the target of the ultimate gambling duel.

Sun Wen couldn't help but remind, "Who knows, the Land of Origin team might choose our team as the target of the ultimate gambling duel. I think all of you should be more serious and not relax anymore. Go and rest early to adjust your condition. If the duel takes place tomorrow, you will be in your best condition."

Upon hearing Sun Wen's reminder, many members of the Red Star Empire team laughed out loud as though they had heard a joke.

"Vice-captain Sun, what are you saying? How could the Land of Origin team dare to choose us?"

"That's right. Their strength isn't even on the same level. How can they beat us without foreign aid?"

"Don't joke around, Vice-captain Sun. The Land of Origin team will not dare to have an ultimate gambling duel with our team."

"I can't wait for the Land of Origin team to have an ultimate gambling duel with us. It's so nice to get an extra reward for free."

"Haha, if I can get that extra reward and leave the fifth level of the Tower, this trip will not be in vain."

"Don't worry, Vice-captain Sun. If the ultimate gambling duel is to take place, the Land of Origin team will not be our match. You can rest assured."

...

Members of the Red Star Empire team were all extremely arrogant.

Captain Ye Yifan also felt that it was impossible. But since Sun Wen had reminded him, it was better to take precautions.

Immediately after, Ye Yifan looked at his team members and said, "Alright, Vice-captain Sun's words make sense. We don't need one more day to relax, so let's all go and rest. If we must carry on with the ultimate bet, we'll be ready. We'll crush the Land of Origin team and leave the fifth level of the Tower with glory!"

Team members of the Red Star Empire team were reluctant. They felt that there was no need to do so.

However, since Captain Ye Yifan had already spoken, no one dared to disobey. They all followed the order and went back to rest.

Luo Wei walked up to Sun Wen and asked, "Vice-captain Sun, is it possible that the Land of Origin team will choose our team for the ultimate gambling duel?"

Sun Wen looked at Luo Wei and nodded, "I think it's possible, and the probability is not low."

When Luo Wei heard this, his face was filled with joy as he nodded, "I believe in Vice-captain Sun's judgment."

With that, Luo Wei left. He couldn't help but feel happy.

Even though he knew he was no match for Liu Yan, Luo Wei wanted to exchange blows with an expert like Liu Yan.

It felt good to fight the expert and grew better!

Sun Wen looked at Luo Wei's back as he left. He couldn't help but feel a little confused. Did he see Luo Wei smile? Wasn't the number one assassin, Luo Wei, always a poker-faced person who never smiled? Was he mistaken?

Sun Wen shook his head and did not overthink. He returned to rest and see which team the Land of Origin team would choose for the duel tomorrow.

At this time, in the fire attribute territory, Liu Yan had gathered all the core members of the Land of Origin team. They sat in a tent and discussed the matters of the ultimate gambling duel.

The ultimate gambling duel was of great importance. If they failed, they would lose the generous additional rewards. If they won, they could expand their team and increase their strength. It was undoubtedly crucial to their development, and they could not afford to be careless.

After they sat down, Zheng Tainan spoke, "This duel is of great importance. If we lose, we'll lose the extra reward. I think it's best to play it safe and find a weaker team for the ultimate gambling duel. The New Continent team or the Pan-ocean Community team will do. We can basically win."

Zheng Tainan was excited about the additional reward. It was an increase of 3,000 points in two attributes. If he cultivated normally, he didn't know how long he need to cultivate and how many times he would have to level up to obtain so many attribute points.

Although there were no other punishments for losing the final battle, the Land of Origin team would lose this incredible buff.

Zheng Tainan naturally hoped to be more secure and not let any accidents happen.

When Liu Qing heard this, he also said, "The New Continent team and the Pan-ocean Community team are relatively weak. With the strength of our team, we should be able to win. The number of people in the New Continent team is smaller, but their strength is good. They also have some new fighting methods that will be of great help to us. The Pan-ocean Community team has more people, but there are no experts. However, their overall strength is still not bad. They have more people, and their growth rate is very high."

Liu Ning shook his head slightly. "We can win the New Continent team and the Pan-ocean Community team, but their strength is weaker. Should we consider the European Federation team? The European Federation team is pretty strong. Most importantly, many of their members are injured. This is a rare opportunity, and we can easily take them down."

Xu Han nodded after hearing their analysis. "The New Continent team, the Pan-ocean Community team, and the European Federation team. With our strength, we can easily defeat any of these three teams. The three teams have their strengths and weaknesses. Overall, the European Federation is stronger. However, the New Continent team and the Pan-ocean Community team have been with us for some time now. They are more familiar with us, and we can cooperate better. Although the European Federation team is quite strong, there will inevitably be some friction after they join us. It will take some time to get used to each other."

When Murong Xue heard this, she asked in confusion, "According to the rules, even though we only have one chance, we can choose multiple teams, right? Why don't you choose more teams? Wouldn't it be better to expand the team?"

Chapter 524: The Attitudes of Every Team

When they heard this, they looked at each other and were tempted.

Recruiting two teams was much better than recruiting one team. It could enhance the strength of their team more.

Correspondingly, if they wanted to recruit one more team, they would have to face more teams in the ultimate gambling duel tomorrow. It would be more challenging, and they might even fail.

At this moment, Liu Yan did not say anything as he listened to their discussion. Instead, he sent out his Purple Wind Falcon.

It was not very convenient to communicate at night on the fifth level of the Tower.

However, this was not a problem for Liu Yan. He had the Purple Wind Falcon. He gave a few letters to the Purple Wind Falcon and asked it to pass them to the other teams. He wanted to know their attitude and thoughts. Then, he could confirm the operation tomorrow.

At this moment, the other members continued to discuss.

Upon hearing Murong Xue's suggestion, Zheng Tainan was the first to voice his objection. "No, even the weakest new world team and the Pan-ocean Community team are weak compared to the other teams. They are not weak at all. We can take them down easily if we deal with one, but if we deal with two, we might lose."

"That's right. If we fail, not only will we not be able to recruit a team, but we will also lose that additional reward. It's such a loss." Liu Qing followed.

Liu Ning also nodded. "It's better to play it safe. Don't let any accidents happen. Just pick a team for the final battle. It'll be fine as long as we win."

Xu Han felt the same way.

Overall, this ultimate battle had to be smooth. No accidents were allowed.

However, Xu Han did want to recruit another team.

After all, the more teams they recruited, the stronger their overall strength would be.

The other four teams had lost to their team, so they were still very confident.

However, the other four teams were also representatives from other continents. The members were the best of the best in their respective continents this year, and they were talented.

If the Land of Origin team could recruit them and bring them to the sixth level of the Tower, they would not be weak when they grew up.

At this time, Luo Qingcheng spoke and analyzed, "I have a different opinion. For example, the New World team and the Pan-ocean Community team. The Pan-ocean Community team has been in contact with us for a long time. They have a good relationship with us no matter how far they are from each other. I don't think they will resist if we choose them, right? We need to consider the other teams' attitudes before we choose them for the ultimate gambling duel."

When they heard this, they finally reacted.

The rules announced by the Will of Tower stated that it would be the final battle, and all members would fight to determine the winner.

But in reality, what if the other teams didn't resist with all their power? Wouldn't the Land of Origin team be able to take them down easily? It was even possible that the other team would not resist and would surrender and join the Land of Origin team. All of this was possible.

"If you put it that way, there is indeed such a possibility."

"Yes, we have a good relationship with the Pan-ocean Community team. They might join us directly."

Previously, many members of the Pan-ocean Community team said that they were envious of the Land of Origin team and wanted to become a member of our team.

In that case, the other teams might not resist us much, especially the Pan-ocean Community team.

"Then, we'll directly choose two teams for the ultimate gambling duel, and the Pan-ocean Community team will surrender directly. We only need to defeat one team, right?"

"Doesn't this mean we'll be able to recruit two teams and double the number of people at once?"

"That's right. This way, our trial on the sixth level of the Tower will be much smoother."

"However, it's hard to say. If the Pan-ocean Community team retaliates, it will be troublesome for us to face two teams. We will likely lose this ultimate gambling duel."

...

The core members of the Land of Origin team had realized the key to the problem, and they started discussing excitedly.

However, there was still no result.

At this time, Allen Smith looked at Liu Yan and asked, "Liu Yan, what do you think?"

When the others heard this, they could not help but look at Liu Yan, curious about his opinion.

Liu Yan looked at them and said, "From what I know, the difficulty of the Tower's sixth level trial will increase several times. We may lose our lives at any time. Since that's the case, we can only take as many risks as possible and strengthen our team. When we reach the sixth level later, we will have a higher chance of surviving and passing the subsequent trials."

When they heard this, they could not help but feel it made sense.

No one knew the situation on the sixth level of the Tower.

However, there were still many people who managed to find out some information about the sixth level of the Tower.

One thing was very clear, and that was that the sixth level of the Tower was a vast world. At the same time, they would encounter humans, beasts, monsters, and alien races from other planets, so it was naturally full of danger.

After all, anyone who could head to the sixth level of the Tower was no ordinary person.

As such, the trial on the sixth level of the Tower would naturally be extremely difficult.

And before entering the sixth level, the Land of Origin team had such an opportunity to increase his strength, so he naturally had to grasp it. Even if he had to take a more appropriate risk, it would be better than taking another risk after entering the Tower's sixth level, as it would be too late to take a look at it at that time.

"What Brother Liu Yan said makes sense." Chu Long couldn't help but nod in agreement. "We have to ensure that we're safe. We should try to recruit as many teams as possible and increase our strength as much as possible."

"It's a pity we can only have one ultimate gambling duel. Otherwise, if we could have had multiple ultimate gambling duels, we could have done it one by one and incorporated all the teams. That would have been wonderful." Xu Han couldn't help but sigh.

Then, Xu Han added, "I've obtained the SS-grade treasure, Azure Frost Pearl, and my strength has increased a lot, especially my area-of-effect control. I think I can barely hold off a team by myself with my control skill."

Allen Smith, who was standing at the side, said, "I've also obtained the SS-grade Dragon-scaled Fiery Armor, and my combat power has increased quite a bit. I might not be able to hold off a team, but I should be able to take down at least half of the team."

When the other people heard this, they were relieved.

The strength of the Land of Origin team increased a lot during this period.

Not only the ordinary members but the strength of the expert members had also increased by a lot.

As for Xu Han and Allen Smith, their combat power had increased.

With the combat power of the two of them, it seemed that it would not be a problem for them to take on two teams in the duel.

“Then we’ll fight three teams. Although it’s a little risky, there are still quite a few opportunities to take it down, right?” Murong Xue couldn’t help but ask.

Chapter 525: No Cooperation, Only Incorporation

The rest of them looked at each other but did not object.

Even Zheng Tainan and the other two, who had always been timid and liked to play things safe, did not voice any objections at this time.

The three of them thought about it carefully and agreed with this logic. Entering the sixth level of the Tower would be risky. They might even lose their lives at any time.

Rather than facing danger on the sixth level of the Tower alone, it was better to take appropriate risks now and improve their strength as much as possible.

It was a rare opportunity to recruit the New Continent team in the ultimate gambling duel.

If they missed this chance, it was very likely that they would never meet again.

“It’s fine to take some risks. We can take down three teams. However, we can only choose the three weaker teams. It’s best not to choose the Red Star Empire team.” Zheng Tainan couldn’t help but analyze.

However, Liu Qing added, “Or maybe just two teams. The European Federation team and the Red Star Empire Team. These two teams are strong, but the European Federation team is seriously injured. I believe we can take them down easily. Then, we’ll focus on dealing with the Red Star Empire team.”

“So, is the New Continent team and the Pan-ocean Community team stronger, or is the Red Star Empire team stronger?” Liu Ning couldn’t help but doubt.

They were still hesitating while Purple Wind Falcon had already returned.

Liu Yan took a few envelopes from Purple Wind Falcon and started to read them.

The surrounding people looked at Liu Yan in confusion, not knowing who he had contacted.

Luo Qingcheng seemed to have guessed the reason and could not help but say in surprise, “Liu Yan, did you contact the other teams? What is their response?”

When the rest of the people heard this, they also began to pay attention.

If they could know the attitudes of the other teams, it would undoubtedly make it easier for them to act and choose their targets.

After Liu Yan finished reading the letters, he raised his head and looked at the others. “The New Continent team is willing to join us, but there are some small conditions. Overall, there are no major problems. The Pan-ocean Community team has no problems. They hope to join us and even asked us to

place their team as the target. They said that they would not resist at all and would directly surrender. The European Federation team is not willing to join us but wants to cooperate with us. They have three conditions. As for the Red Star Empire team, they ignored my letter and didn't even reply. It seems like they have no intention of joining us."

After hearing Liu Yan's description, they knew the attitude of the other four teams, and their expressions became much better.

Just as they had expected, the New Continent team and the Pan-ocean Community team had been with the Land of Origin team for a long time, so they had a good relationship with each other.

In addition, the New Continent team and the Pan-ocean Community team were relatively weak. So, it would be more difficult for them to pass the trial on the fifth level of the Tower on their own. Even if they passed the trial on the fifth level, they might not have had a good result on the sixth level with their strength.

It was better to join the Land of Origin team than to overcome the challenging situation themselves. This way, they would have more opportunities to work together.

Of course, the attitude of the Pan-ocean Community team was better than that of the New Continent team. The Pan-ocean Community team did not have conditions for joining the Land of Origin team. He even asked Liu Yan to welcome them.

Although the attitude of the Pan-ocean Community team was not as good as that of the New Continent team, they were also willing to join the Land of Origin team. They asked for some requirements.

The European Federation team and the Red Star Empire team were both strong teams.

Even if they did not join the Land of Origin team, with the strength of the two teams, they would pass the trial on the fifth level of the Tower next year. They could advance to the sixth level smoothly.

Furthermore, they might even be able to obtain a reward to enter the sixth level of the Tower. They could handle the trial on the sixth level of the Tower well.

Therefore, the European Federation team and the Red Star Empire team did not want to join the Land of Origin team.

However, the European Federation team considered their team members were indeed injured and weaker than the Land of Origin team. They were not a match for the Land of Origin team. If the Land of Origin team were to force the ultimate gambling duel with them, they would lose to the Land of Origin team.

Therefore, the European Federation team put forward several conditions. If Liu Yan agreed, they would be willing to cooperate with the Land of Origin team.

As for the Red Star Empire team, not only were they powerful, but they had also preserved their strength. Naturally, they were unwilling to join the Land of Origin team. Instead, they wanted to make a name for themselves.

After understanding the situation of the other teams, Chu Long couldn't help but say, "Then this is not simple. Since the Red Star Empire team is so against it, let's ignore them. We'll take in the New

Continent team and the Pan-ocean Community team first. After that, we'll talk about the European Federation team."

"We can choose not to agree to the conditions of the European Federation team. If we declare war on the three teams, the New Continent team and the Pan-ocean Community team will surrender. We'll focus on dealing with the European Federation team. They won't be able to resist us at all, so they'll have to join even if they don't want to. If they lose, they won't be able to control themselves in the final battle. Murong Xue also spoke up.

"Yes, it's too troublesome to work together. It's best if there's only one captain in a team, and only one person makes the final decision. Try not to work with the European Federation team." Xu Han nodded in agreement.

The rest of the team members agreed as well. They all felt that a team could only have one leader.

The other conditions of the European Federation team were acceptable, but it was not suitable to cooperate with them.

Especially on the sixth level of the Tower, they would face even more difficult trials. When they encountered danger, they had to make a prompt decision, hesitate, and be sloppy. At this time, the disadvantages of cooperation would inevitably show up.

Therefore, the best way was to prevent the problem before it happened. They would not cooperate with the European Federation team, but take them in!

In any case, the representative team of the Land of Origin currently had enough strength to take in the European Federation team.

They agreed with Murong Xue's suggestion. With this method, they could incorporate the New Continent team, the Pan-ocean Community team, and the European Federation team.

Among them, the New Continent team and the Pan-ocean Community team only needed to agree to some conditions. There was no need for them to fight at all.

Only the European Federation team needed to fight a real battle, but it would not be too difficult.

Chapter 526: One Person VS Tree Teams?

When they entered the fifth level of the Tower, the strength of the European Federation team was stronger than that of the Land of Origin team.

However, as they grew during this period, the strength of the Land of Origin team became stronger than that of the European Federation team.

In terms of top combat power, the experts led by Liu Yan and the others were enough to crush the masters of the European Federation team.

The current state of the European Federation team was not very good. Many of their members were injured, so they were not a match for the Land of Origin team.

They were overjoyed. If everything went smoothly, they would be able to incorporate three teams. It would instantly strengthen the strength of the Land of Origin team.

But at this time, Luo Qingcheng interrupted everyone and said, "I think it's too early to celebrate. The Pan-ocean Community team has agreed to surrender to us. The New Continent team only requested some conditions. However, they might go back on their word if they find out we decide to choose three teams. If the three teams attack us together, we might not hold them back. If we lose, all three teams will receive generous extra rewards."

Xu Han nodded slightly. "Logically speaking, they shouldn't go back on their word. First of all, we've been getting along well with these two teams, and there's no big conflict between us. Second, they've cooperated with us, so they can also get extra rewards. They can even go to the sixth level of the Tower together, which is more beneficial. Of course, we can't know their true nature. It's better to be careful."

"We do need to be careful. We need to pay attention when the time comes. If we can't handle it, we'll gather our forces to deal with the European Federation team first. Although the New Continent team and the Pan-ocean Community team are large in number, their combat strength is relatively average. We still have a chance to deal with them slowly." Chu Long analyzed.

At this moment, Liu Yan, who had been silent all this while, suddenly said, "Let's fight four teams."

The moment Liu Yan's words fell, the surrounding atmosphere fell silent.

They looked at Liu Yan in disbelief.

"Captain, really? Isn't it difficult to carry out the ultimate gambling duel against four teams?" Zheng Tainan couldn't help but question.

Liu Ning chimed in, "That's right. We know you're strong, but the other party isn't weak. They have many people. Isn't this too risky?"

"Boss, let's play it safe!" Liu Ning said helplessly.

Liu Ning felt that only Liu Yan would say something like that. It was too risky to fight four teams in the ultimate gambling duel.

If it were them, the two teams would feel it was risky.

Liu Yan wasn't satisfied with just three teams. He even wanted to recruit all four teams!

Xu Han was also suspicious, "Captain, the New Continent team and the Pan-ocean Community team are still relatively easy to deal with. The European Federation team is not in a good state either. Our team will definitely win. However, the Red Star Empire team has been preserving their strength. Their combat strength is not weak at all. They are about the same as our team. Are you sure you want four teams?"

The others also looked at Liu Yan in confusion.

The strength of the Red Star Empire team was indeed a little strong.

If the Land of Origin team were to fight against the Red Star Empire team alone, they would still have a good chance of winning.

However, it would be too risky if they had to face the other three teams at the same time.

Luo Qingcheng knew Liu Yan's character very well. He was not the kind of person who would talk big.

Since Liu Yan said he wanted to have the ultimate gambling duel against four teams, he must have his reasons.

Luo Qingcheng looked at Liu Yan suspiciously and asked, "Is it because your combat strength has increased that you're so confident to fight four teams? Tell us, what are your chances of success?"

The rest of the people also reacted. Given Liu Yan's personality, since he dared to make such a choice, it meant that he was confident.

Facing the curious people, Liu Yan nodded slightly and said, "I've improved quite a bit recently. I can deal with the European Federation team alone. You should have no problem fighting the Red Star Empire team with our ordinary members, right? As for the New Continent team and the Pan-ocean Community team, if they dare to make a move, I won't say that I can defeat them, but it won't be a problem to hold them back."

Upon hearing Liu Yan's words, everyone was shocked.

One person could deal with the entire European Federation team.

Even though many of the members of the European Federation team were injured, and their overall combat strength had decreased a lot, they were still powerful.

Liu Yan was only one person. On the other hand, the European Federation team had many members, including some experts.

The European Federation team even had a combination skill that could burst out with terrifying power.

Even so, Liu Yan could still take on the entire European Federation team himself!

In addition, Liu Yan could deal with the European Federation team while holding back the New Continent team and the Pan-ocean Community team.

If it were anyone else who said this, no one would believe it at all. They would only think that this person was lying and bragging.

However, this person was Liu Yan. He had always been a man of his word. Furthermore, Liu Yan had done too many impossible things.

At that moment, the crowd did not know they should believe Liu Yan.

But it was Liu Yan. There were no reasons not to trust him.

However, everyone felt that it was too outrageous. A single person couldn't deal with an entire team and hold back the other two teams simultaneously.

At this moment, Liu Yan was too lazy to explain too much as he said, "Alright, it's decided then. All of you go back and get ready. The ultimate gambling duel will start tomorrow morning. I still have some preparations to do."

After saying that, Liu Yan left the tent.

The crowd looked on in confusion as they watched Liu Yan leave.

Everyone looked at each other, not knowing what to say. The scene was silent for a while.

After a while, Xu Han broke the silence, "Alright, everyone, don't think too much. Since Captain Liu has said so, we'll believe him."

When they heard this, they all felt that it made sense.

Although they felt that this was impossible, it was Liu Yan.

After all, Liu Yan had overcome every obstacle.

Because of Liu Yan, the Land of Origin team could make it this far and have a great advantage.

Without Liu Yan, the Land of Origin team would have been eliminated by the other four teams.

Chapter 527: Pre-battle Preparations

"Why are you thinking so much? Let's just fight. Let Liu Yan deal with his own thing. We just need to do our duty." Murong Xue had an indifferent expression on her face.

"Maybe Liu Yan can do it. He's always been a man of his word and never breaks his promises." Luo Qingcheng also supported him.

"I believe in Brother Liu Yan!" Chu Long said with a look of complete trust.

The others looked at each other and didn't have any objections.

"In any case, the worst result is we lose the ultimate gambling duel and the extra reward. However, we can still get the rich reward of first place to enter the sixth level of the Tower." Zheng Tainan had also gradually come to terms with it.

"Yup." Liu Qing nodded. "If it wasn't for Captain, we would have been eliminated long ago. Let's trust Captain."

"If we win, won't we take in four teams, and we can enhance our team strength." Liu Ning asked with anticipation.

The rest of the people were also looking forward to it.

If they did it, the Land of Origin team could recruit four teams at once.

These four teams were the representatives of the other four continents. They were the most outstanding existences among this batch of students from the four continents.

The strength of the representatives from the European Federation and the Red Star Empire was undoubted. They were almost as strong as the Land of Origin team. At most, they were slightly weaker than the Land of Origin team.

Although the strength of the New Continent team and the Pan-ocean Community team was slightly inferior, they were not weak.

On the other hand, members of the New Continent team and the Pan-ocean Community team were weak, mainly due to the lack of resources. They could make it this far meant that they were talented.

However, the members of the New Continent team and the Pan-ocean Community team would receive resources in the future if the incorporation was successful. They could grow quickly and have a lot of room for growth.

Then, everyone dispersed to make their preparations or rest to adjust their state of mind in preparation for the battle tomorrow.

Xu Han left with Allen Smith.

On the way, Xu Han looked at Allen Smith with confusion and asked, "Why didn't you say anything just now? What are your thoughts on this matter?"

"Liu Yan can do it." Allen Smith said indifferently.

Xu Han was confused. He felt Liu Yan could do it but was not 100% sure.

However, Allen Smith was full of confidence that Liu Yan could do it.

"How can you be so sure? What do you see?" Xu Han asked.

Allen Smith thought for a moment, but he shook his head slightly. "I can't say for sure, but I can feel that Liu Yan's aura has changed a lot since he came back today. I can feel that his strength has improved a lot."

Then, Allen Smith left and went back to rest.

Xu Han looked at Allen Smith's back as he left. He thought about what Allen Smith said, and it seemed to be true.

When Xu Han entered the tent, Xu Han could feel that something had changed with Liu Yan.

This change couldn't be seen with the naked eye or sensed with detection skills. It was purely the feeling of an expert in a team.

However, Xu Han was too busy thinking about the ultimate gambling duel and forgot about this thing.

Now that he thought about it carefully, it seemed to be the case.

Xu Han had met Liu Yan in the earth attribute territory, and nothing had changed.

However, by the time Liu Yan returned to the fire attribute territory, his aura had changed.

Xu Han could not figure it out either. He could only conclude that Liu Yan had just completed his breakthrough, which was why he was so confident.

Then, Xu Han went to get ready.

At this moment, in the largest tent in the middle of the temporary camp of the Land of Origin team. Liu Yan sat down and made some preparations.

Liu Yan said he could deal with the European Federation team and even delay the New Continent team and the Pan-ocean Community team. Naturally, Liu Yan had confidence.

Liu Yan's confidence came mainly from the earth and water secret arts that he had recently obtained. His strength had increased by quite a bit.

In addition, he had also activated the tier 3 hidden class, law warlock. It gave Liu Yan a qualitative boost in strength. Naturally, he was confident.

Besides, Liu Yan had other trump cards. They were the Ice and Fire Draconic Wolf and the enchanted puppets!

Ice and Fire Draconic Wolf's potential was SS-grade, which was the same level as the boss, Moonshine Qilin.

Previously, Ice and Fire Draconic Wolf's level was a little low, and its strength could not keep up.

However, Liu Yan had been feeding it the corpses of elite monsters and Moonshine Qilin.

After devouring so many high-tier fierce beasts, Ice and Fire Draconic Wolf's level had increased quite a bit. Its potential of an SS-grade fierce beast had also burst out, and its combat strength had improved substantially.

According to Liu Yan's estimation, Ice and Fire Draconic Wolf's combat power was no longer inferior to the top combat power on the fifth level of the Tower. It might even be able to take on several powerhouses at once.

As for the specifics, he would have to wait until the actual battle tomorrow to test it out.

In addition, Liu Yan also had enchanted puppets.

The enchanted puppets Liu Yan made with the materials he had were still limited in combat power. They couldn't compare to the Ice and Fire Draconic Wolf or the top-tier experts on the fifth level of the Tower.

However, it was far more than enough to deal with ordinary members.

Furthermore, the enchanted puppets were not afraid of getting injured and never getting tired. If their cores were not damaged, they could continue to fight. They were complete fighting machines.

When the same level enchanted puppets against the same level awakened ones of the European Federation team, the enchanted puppets would usually win.

Liu Yan had obtained all the spoils of war from the European Federation team and the Red Star Empire team. Among them was a large pile of various high-grade materials.

With these materials, Liu Yan could make several powerful enchanted puppets, which were undoubtedly very suitable for dealing with the ordinary members of the other teams.

Liu Yan's previous magic puppets consisted of 40 white tier 2 combat puppets of the same combat level, ten red tier 2 combat puppets of the same combat level, and one orange tier 2 combat puppet of the same combat level.

There was also a level 45 substitute puppet and a life substitute puppet. Both were special puppets, so they were naturally not used for combat.

The tier 2 combat-enchanted puppets were previously sent to help the Land of Origin team, the New Continent team, and the Pan-ocean Community team fight the ordinary monsters in the monster riot. Liu Yan had recalled all of them.

Chapter 528 Mutated Half Core Enchanted Puppet!

A couple of days ago, Liu Yan and the other experts were fighting the fourth wave of elite monsters. Liu Yan had no choice but to use the ten red tier 2 combat-enchanted puppets as scapegoats to buy time.

That battle was brutal.

In the end, Liu Yan and the others managed to wipe out the fourth wave of elite monsters.

However, the price was that the ten red tier 2 combat-enchanted puppets were torn to pieces by the elite monsters.

Liu Yan could not help but recall the special core of the enchanted puppet.

The ten red tier 2 combat-enchanted puppets were torn apart, and the rest of the enchanted puppets were destroyed. But one of them, to be precise, half of the core, survived.

At that time, Liu Yan used some materials to help repair it, then put it in his storage ring and let it die.

Liu Yan had been busy fighting the monsters and declaring war on the other teams, so he had forgotten about this.

Liu Yan quickly opened his storage ring and took out the special enchanted puppet.

After taking it out, Liu Yan was a little surprised.

The enchanted puppet was supposed to be on the verge of death. However, it was now absorbing the SS-grade origin stone from the Moonshine Qilin.

At this moment, the half-core of the enchanted puppet had fused with the SS-grade origin stone.

Liu Yan could see the energy in the SS-grade origin stone flowing into the core of the puppet.

Strangely, the originally white core of the enchanted puppet had turned red, similar to a human heart.

Liu Yan could not understand what was going on. Wasn't the core of the enchanted puppets only for supplying energy and storing battle consciousness without sentience and thoughts?

How could this half-core enchanted puppet actively absorb the origin stone?

In the end, Liu Yan could only conclude that the half-core enchanted puppet had mutated for some reason.

Liu Yan didn't know whether to laugh or cry. The precious SS-grade origin stone was gone just like that. Now, he couldn't even take it back.

After all, the red-colored tier 2 combat-enchanted puppet had only used a B-grade origin stone.

This enchanted puppet was lavish to use SS-grade origin stone, which boosted its power by three levels.

“Forget it. I haven’t given you a reward for your sacrifice in that battle. This SS-grade origin stone will be your compensation.” Liu Yan touched the half-core and smiled.

Liu Yan didn’t pay much attention to it. Although SS-grade origin stones were precious, he would still have the opportunity to obtain them in the future. After all, Liu Yan’s strength was strong.

The ten red tier 2 combat-enchanted puppets were torn to pieces to buy Liu Yan some time in the battle against the fourth wave of elite monsters. Otherwise, Liu Yan might have already died.

Immediately after, Liu Yan used his S-grade skill, Omniscient Insight, and was a little surprised.

The energy contained in this half of the core was far more than before.

With the mutation and the power of the SS-grade origin stone, the core of the enchanted puppet had grown by itself. It was truly ridiculous.

Liu Yan flipped through the methods of making an enchanted puppet in his mind. He was surprised to find that the power contained in the half-core far exceeded the power required for a tier 3 enchanted puppet.

The level of this half-core was far above that of tier 3 enchanted puppet!

However, Liu Yan was only capable of making tier 3 enchanted puppets at the moment. Only after he had become proficient in the production of various tier 3 enchanted puppets would he be able to access the memories in his mind and learn the production methods of higher-tier enchanted puppets.

Furthermore, even if Liu Yan could create a tier 4 or higher-tier enchanted puppet, he would not have enough materials.

Although Liu Yan had obtained many loots, including many high-grade materials, he could only mass-produce tier 2 enchanted puppets. He could only produce a few tier 3 enchanted puppets.

The material was not enough for making tier 4 or higher enchanted puppets.

“I’ll make you a tier 3 enchanted puppet for now. When I have enough materials and my manufacturing skills have caught up, I’ll make you a higher-tier enchanted puppet!” Liu Yan put down the half-puppet and said with a smile.

Immediately after, Liu Yan flipped through many high-grade materials and began to craft.

Liu Yan was so focused on his work that he did not notice the flash of light on half red enchanted puppet.

The materials needed to make a tier 3 enchanted puppet were already a lot, and their levels were not low.

With the materials Liu Yan had, he could only make a few.

Liu Yan knew that the mutated core was powerful. Hence, he had chosen the highest quality materials and was willing to create a new tier 3 enchanted puppet.

Initially, it would take a whole day to make a tier 3 enchanted puppet.

However, Liu Yan had mastered the Gold Secret Art, so it was very convenient for him to make these things.

Many of the steps did not even require Liu Yan's hands. He could use Gold Secret Art to control and execute them automatically. He could even carry out multiple steps at the same time.

In less than two hours, Liu Yan had created a new red enchanted puppet!

Liu Yan put mutated half-core into the red tier-3 combat-enchanted puppet.

The chest of the red tier 3 combat-enchanted puppet immediately glowed with a red light. Its eyes glowed with a red light and had a threatening aura.

Seeing this, Liu Yan was satisfied.

A tier 3 combat-enchanted puppet no longer needed to rely on its size to increase its combat power.

At this level, body size was meaningless. The core, the various materials, and the combat awareness stored in it were the most important.

The entire red tier 3 combat-enchanted puppet was the same size as a human and was not enlarged.

It was unlike the tier 2 combat-enchanted puppets that were the size of several people.

According to his memories, Liu Yan knew that the average combat power of a Level-3 combat-enchanted puppet was around level 60.

On the other hand, Liu Yan had only used the best materials possible for the tier 3 red combat-enchanted puppet. Its core was also a mutated enchanted puppet core, which was much more powerful than the average tier 3 enchanted puppet core. In addition, it had been made with SS-grade origin stones.

Overall, Liu Yan estimated that the actual combat power of the red, tier 3 combat-enchanted puppet was far beyond level 60.

At level 60, one would be comparable to most of the top experts on the fifth level of the Tower.

Its combat power was above level 60. It meant that the red tier 3 combat-enchanted puppet would be more powerful than most of the top experts on the fifth level of the Tower!

Chapter 529 Enchanted Puppet Army

Liu Yan believed the red tier 3 combat-enchanted puppet would shine and display its godly might!

Satisfied, Liu Yan put away the red tier 3 combat-enchanted puppet.

Although he had lost a precious SS-grade origin stone, he had obtained a powerful mutated enchanted puppet core in exchange. It was good that Liu Yan could successfully produce this powerful red-colored tier 3 combat-enchanted puppet.

Furthermore, Liu Yan knew that the tier 3 enchanted puppet was still far from being able to unleash the full power of the mutated red enchanted puppet core.

In the future, with sufficient materials and techniques, Liu Yan could create combat-enchanted puppets of tier 4 or higher, which would be of great help to him!

After completing the red tier 3 combat-enchanted puppet, Liu Yan started to make ordinary tier 2 combat-enchanted puppets.

Although he still had enough materials to make two tier 3 combat-enchanted puppets, he did not have enough materials for the core of the enchanted puppets.

Liu Yan looked at the materials and found that the materials were sufficient.

Whether it was the white, red, or orange tier 2 combat-enchanted puppets, Liu Yan could make quite a few of them.

Since that was the case, Liu Yan decided to make the strongest orange tier 2 combat enchanted puppet, which would be of the greatest help to him.

The white and red tier 2 combat-enchanted puppets would be of great help to Liu Yan at the moment. However, he would face even more powerful existences when he reached the sixth level of the Tower. By then, it might not be enough, so he might as well make the most powerful one now.

Immediately after, Liu Yan began to use the Gold Secret Art to make the puppets.

Although Liu Yan had Gold Secret Art, his speed of making the enchanted puppets was much faster.

However, the making of the enchanted puppets was complicated. In addition, Liu Yan still needed to make many of them, so it would naturally take a lot of time.

Liu Yan was busy until dawn before he stopped.

During the crafting process, Liu Yan would use his Fire Secret Art or Flame Blast to charge the SS-grade weapon, Blue Flame Gloves.

The more energy he could charge, the more terrifying his explosive power would be when he used the God's Effect of the SS-grade weapon, Blue Flame Gloves.

Blue Flame Gloves that he had charged with his A-grade Flame Control had terrifying explosive power. It had almost instantly killed the injured Moonshine Qilin.

Now that he was using the SS-grade Flame Blast and the SS-grade Fire Secret Art to charge it, Liu Yan believed that the power of Blue Flame Strike would be even more terrifying.

Liu Yan used his Fire Secret Art to charge it up again before he finally stopped.

After all, it was an orange tier 2 combat enchanted puppet, and the materials required were relatively precious.

Liu Yan's materials had been used up during production.

The remaining materials could only be used to make white or red tier 2 combat-enchanted puppets. It was not enough to make orange tier 2 combat-enchanted puppets.

Liu Yan did a quick count. He had made forty orange tier 2 combat-enchanted puppets in one night!

“There’s so many of them.” Liu Yan was a little surprised. He had unknowingly made so many.

It seemed that the Gold Secret Art was still the most useful. Without it, Liu Yan would have been able to produce two of these orange-colored tier 2 combat-enchanted puppets in a single night.

The forty orange tier 2 combat-enchanted puppets in front of Liu Yan were undoubtedly a terrifying force.

Liu Yan had forty level 40 tier 2 white combat enchanted puppets. Forty-one level 50 orange-colored tier 2 combat enchanted puppets, and a level 45 substitute puppet. A special life-substitute puppet with no combat power could die once in Liu Yan’s place. He had the most powerful red tier 3 combat enchanted puppet above level 60.

The combat strength of Liu Yan’s enchanted puppets was undoubtedly unbelievable.

After all, an orange-colored tier 2 enchanted puppet had the combat power of a level 50.

At this moment, the strongest team on the fifth level of the Tower was the Land of Origin team, followed by the European Federation team, the Red Star Empire team, the New Continent team, and the Pan-ocean Community team.

At the moment, the average combat strength of the Land of Origin team was only around level 44.

On the other hand, the average battle prowess of the members of the European Federation team and the Red Star Empire team was around level 42 or level 43.

The average combat strength of the members of the New Continent team and the Pan-ocean Community team was only at or below level 40. There was a huge difference.

Although Liu Yan’s white tier 2 combat-enchanted puppet was slightly weaker than the team members, it was not afraid of injury or fatigue. Therefore, it could barely deal with one team member. Even if it could not defeat one team member, it could at least block and stall them.

The level-50 orange tier 2 combat enchanted puppet had no problem taking on four or five of the team members at the same time.

In this case, the combat power of the enchanted puppets that Liu Yan had was enough to defeat two teams and stall three teams.

Liu Yan was also surprised by the number of materials he had. He did not expect to produce so many level 50 orange tier 2 combat-enchanted puppets and a red tier 3 combat-enchanted puppet above level 60.

The red tier 3 combat enchanted puppet was a pleasant surprise.

Without the mutated core of the enchanted puppet, Liu Yan would not have been able to make it.

Liu Yan could not help but look forward to the actual battle tomorrow. How strong would the red tier 3 combat-enchanted puppet be?

According to Liu Yan's understanding, apart from Liu Yan himself, the one with the highest combat strength in the Land of Origin team was Allen Smith.

Liu Yan was slightly more powerful than Allen Smith, but not by much.

However, Liu Yan obtained the water and earth secret arts, as well as the initial activation of tier 3 hidden class, law warlock. His strength increased a lot in this short period.

At the moment, Liu Yan didn't know how powerful his combat strength was.

The harvest of enchanted puppets far exceeded Liu Yan's expectations.

With this, even if he were besieged by four teams the next day, he would still be very confident in facing them.

After all, the combat-enchanted puppets were enough to hold off three teams. Liu Yan could use his strength to defeat one team and leave the last one to the Land of Origin team. There would be no problem at all.

Chapter 530 Growing Team, Trusted Teammates

The next morning, the sky had just turned bright.

In the fire attribute territory, members of the Land of Origin team had already gathered.

Members of the Land of Origin team also knew they were about to engage in the ultimate gambling duel.

The core members had kept the goal of this ultimate gambling duel a secret. At this moment, the ordinary members still did not have a clue.

At this moment, members of the Land of Origin team were gathered and waiting. They could not help but discuss in low voices.

"Who do you guys think our target is?"

"I think we should play it safe and choose the New Continent team or the Pan-ocean Community team. Not only can we get the additional rewards, but we can also recruit a team and expand our strength."

"You know our captain is a bold person, right?"

"Last night, I saw a few core members discussing for a long time before finally deciding."

"In my opinion, with our captain's personality, he would choose the strongest crimson star empire team. Although it would be the most difficult, we would have an incredible gain if we successfully incorporate them!"

"Haha, I think Captain Liu will choose more than one team. You all know our captain's personality. He's overbearing and greedy. Since he can take in so many teams, he can't just take in one team!"

“Are we going to take in more teams?”

...

At this moment, Allen Smith, Murong Xue, and the other experts arrived.

At the back, Liu Yan also slowly walked over.

When the team members from the Land of Origin team saw that their captain and the other experts had arrived, they all kept quiet.

When Liu Yan arrived, Xu Han, who was in charge of managing the team, came up to Liu Yan and reported, “All the team members have gathered and are ready.”

Liu Yan nodded slightly. He still handed the team over to Xu Han.

Luo Qingcheng was in charge of the overall command of the team.

After successfully incorporating the four teams, Luo Qingcheng would oversee the overall command. At the same time, she could also sit in the rear and be responsible for a series of logistics matters.

As for the Land of Origin team, Liu Yan handed it over to Xu Han to command. It was more convenient for the battle operation.

Liu Yan believed in Xu Han’s commanding ability. In addition, Xu Han’s profession was also a long-range attack and control, especially his control ability. If Xu Han led the team members of the Land of Origin team to fight, their combat power would undoubtedly be improved by a lot.

At this moment, Liu Yan’s gaze swept across members of the Land of Origin team.

After going through the trial and growth on the fifth level of the Tower, members of the Land of Origin team were no longer the same as before.

When the Land of Origin team had just entered the fifth level of the Tower, their strength was relatively mediocre. They could not compare to the other teams and were a little unconfident.

However, the strength of members of the Land of Origin team had grown. They had even become the most powerful one among the five teams. The faces of these members were naturally brimming with confidence. It was the confidence that came from having strength.

In addition, members of the Land of Origin team were from the two academies on the central rest platform on the third-and-a-half level of the Tower, namely Lighthouse Academy and Gifted Academy.

When they first entered the fifth level of the Tower, there were some conflicts between the team members from different academies. There were no conflicts with Liu Yan’s presence. They wouldn’t really fight, but small conflicts still occurred.

However, after going through a series of trials on the fifth level of the Tower, these team members from different academies experienced the same thing.

They explored huge territories and collected treasure chests together. Besides, they faced difficulties and fought hard together. They also enjoyed success together and shared their gains. They cultivated

together, and their strength would improve. Facing the monster riot together, becoming each other's support, fighting together, leaving their backs to their teammates, leaving their lives to their teammates.

After all these experiences, the estrangement between the team members from the two academies had long disappeared. They had all become comrades and closest brothers.

Although they had occasional quarrels, most of them were just for fun. They would argue today and patch things up tomorrow.

Members of the Land of Origin team had already trusted each other a long time ago. When they were in battle, they would dare to put their lives in the hands of their teammates. After all, they had gone through thick and thin together.

Liu Yan had naturally seen the growth of the team members from the Land of Origin team.

Compared to the growth of their strength, the trust between them, their self-confidence in themselves, and their cooperation in battle were more important to Liu Yan.

After all, there would be plenty of opportunities to grow in strength in the future, and a harmonious and united team was not so easy to form.

Liu Yan looked at members of the Land of Origin team and felt satisfied. He nodded and said, "Not bad. You've improved a lot during this time. I'm satisfied."

When members of the Land of Origin team heard their idol, their captain, Liu Yan's exaggerated words, they all smiled and were satisfied.

All of them had seen Liu Yan's hard work during this period, and they had long wanted to help him out so he could relax a bit.

They had long wanted to perform well and let Liu Yan see their improvement.

This time, the ultimate gambling duel was a team battle. They could finally show their progress in front of Liu Yan so that Liu Yan didn't have to fight alone.

"Captain, you're overpraising us."

"That's right, Captain. Our progress is insignificant compared to yours."

"Captain, don't worry. We'll satisfy you in this battle."

"That's right. Right now, our team is the strongest. We'll crush all the other teams!"

"Captain, tell us who the target team of this ultimate gambling duel is. No matter who it is, we'll crush them."

"Haha, I finally have the chance to show off."

...

Members of the Land of Origin team were all filled with a strong will to fight and wanted to perform well.

When Liu Yan saw this, he could not help but ask with a strange expression, "Good, this time you must perform well. Let me see the results of your cultivation during this period. Let me see your progress! As for the ultimate gambling duel's target, you'll naturally find out in a while!"

Xu Han and the others laughed when they saw this.

"These brats are hyped. I wonder what expressions they'll have when they find out that their captain has chosen all the other four teams as the targets." Xu Han chuckled.

"I guess they'll be in despair?" Murong Xue also teased.
