

The Pinnacle of Life – Chapter 1165

“Huh?”

“Alex, what’s wrong?!”

“Master, don’t scare me!”

Cheryl, Anna, Zachary and everyone else rushed to support Alex. They began to bombard him anxiously with concerned questions.

Alex waved his hand. Then, he took out a few pills from his pouch and swallowed them in one gulp.

“It’s fine, I just got a little hurt. It’s not a big problem!”

Previously, he had used the Sword of the Universe from the Dragon’s Bane of Thirty-Six to forcibly cut Shaun’s Firmament Ice Blade into half. He had somewhat underestimated the blade’s power. It was a complete spiritual tool, after all. And, his cultivation was now in the stage of Divine Transcendence, it was still far from being a true master. After breaking the Firmament Ice Blade, he had received the blade’s final counterattack before it died off.

If it hadn’t been for something suddenly trembling and helped Alex to block it off at the time, he would probably have suffered even more severe injuries. When he thought of this, he couldn’t help but turn on his internal vision to look into his own mind palace.

There was a gray bead in there.

It was the Chaos Bead that was pulled out from Ganoderma’s plaque and given to Alex by Guilherme. At that time, Alex tried to place it inside his mind palace. In the end, he had managed to place it inside it without any incident.

It showed that the Chaos Bead was indeed not an ordinary item. Since it could be integrated into his spiritual powers and placed inside his mind palace, it should at least be a piece of spiritual tool! However, he had to wait for the later time to prove if it was an innate spiritual treasure as Guilherme had said.

On the other hand, he could still feel that the Chaos Bead and the bead stored in his upper energy core seemed to have some kind of strange connection!

Unfortunately, he still could not see it for the time being because the mysterious bead was damaged badly. He got his breathing under control for the moment. Alex's injuries had recovered for most part, so he opened his eyes and stood up.

"I'm fine now, don't worry!" Alex said with a smile when he saw Cheryl's concerned gaze.

On the contrary, Zachary and Sky were on the ground in a sorry state, their injuries were no less serious than Alex's.

"Master, Captain Melvis spat blood again just now! That b*stard Shaun Baker, he was just too much! He really had the intention to ruin Captain Melvis!" Anna said angrily. "Captain Melvis was already injured before this. With the addition of these injuries, I'm afraid that it will be more difficult for him to improve his cultivation level in the future."

Alex was startled for a moment. "Captain Melvis was injured previously?"

He hadn't really noticed it before.

Zachary replied, "Sky once had his energy core ruined and all the efforts of his martial arts were in vain. Even his foundation had been injured. Otherwise, with his original talents in martial arts, he definitely wouldn't lose to even Tristan Coleman from the Coleman family of Missouri. But, because of the injuries that one time, I'm afraid it's practically impossible for him to reach the pinnacle once again."

Alex slightly frowned.

He observed Sky with his Third Eye, then felt his pulse. Suddenly, he frowned deeper.

“Cheryl, come and take a look at his situation!” Alex said to Cheryl.

Anna whispered, “Master, you’re the Immortal Doctor! If you can’t even see accurately what’s wrong with him, how could she?”

Alex shook his head. “I’m not the Immortal Doctor, she’s the future Immortal Doctor.”

Anan was shocked. “What do you mean?”

“You’ll know later,” Alex said with a smile.

The Ultimate Book of Medicine handed down by his ancestors was powerful indeed, but it was a huge system. In fact, the most important thing was self-cultivation. The targets of the Ultimate Book of Medicine were mostly aimed at cultivators. However, it was different for the Immortal Doctor’s Legacy. Every generation of the Immortal Doctors would integrate their own experience into the legacy. It could be said that for countless years, the Immortal Doctor’s Legacy was the crystallized power of countless mighty medical practitioners.
