

Triplets on SM 321

Chapter 321

'Mommy agreed!

The triplets immediately ran next door excitedly. "Uncle Sean, are you free tomorrow? Mommy wants to invite you to the Aqua World with us!"

The triplets were witty. They knew their father would agree if they used their mother's name!

"Sure."

As expected, Sean agreed without hesitation.

The next morning.

Brycen looked at the triplets who were all set and ready to go. "Kids, where are you going looking like this?"

"We're going to Aqua World with mommy and Uncle Sean!" Ben looked up at Brycen. He had already decided on what shoes to wear.

Brycen smiled widely and inched closer to them. "Really? Bring me along!"

Alex put his hands in his pocket and rejected Brycen heartlessly, "No can do. Your legs are injured, so you can't go out.

Claudia nodded as well.

'Why does Uncle Brycen want to be a third wheel? He's so old now. Doesn't he feel awkward?!

"Sean's legs are injured too!" Brycen immediately objected as he thought, 'This reason is too unreasonable!

'Is Uncle Brycen stupid?!'

The triplets looked at him with a complicated stare. "He has an assistant."

"I have Russell too!"

Claudia was speechless. 'Uncle Brycen is too clingy...'

Alex was speechless too. "You're not as handsome as Uncle Sean."

Brycen frowned as he was personally attacked. "How am I not handsome?!'" he asked angrily.

'Isn't Sean the same as me?!'

Both appearance and injury-wise,'

"You're not even on your uncle's side!'" he cried.

Grandpa Dave laughed out loud when he watched the four of them bantering. He quickly stopped Brycen when he saw that he was clueless. "That's enough. They don't want to bring you along, so why are you pestering them?"

Brycen fell silent. He looked at the triplets one more time and walked to Grandpa Dave in sadness

"You're so dense" Grandpa Dave laughed as he poked at Brycen.

Brycen frowned and just watched them leave enviously

Russell could not help but said, "Can't you tell that the triplets are pairing Mr Anderson and Ms. May together?"

Brycen turned to look at him suspiciously, "Really? I didn't know."

"Was that their intention?"

"But how is Sean good enough for Molly? She's out of this world. He doesn't deserve her!"

Brycen was shocked.

Russell was at a loss for words. 'Mr. Anderson is not a bad candidate at all, okay?!

As expected, one can never argue with a brother who was obsessed with his sister.

Meanwhile, Molly and the rest of them arrived at Aqua World, and the triplets immediately lost control of themselves.

Molly looked at them running around and yelled, "Don't run too fast!"

"Besides, we invited Uncle Sean here. You have to be considerate of him." The triplets immediately understood and nodded to Molly. They stopped running and walked slowly with Molly and Sean.

Aqua World was huge with different sections and halls,

They went into an underground hall and saw countless beautiful fishes. Then, they went to the underwater tunnel, which was exceptionally quiet. The fishes that swam past them were swimming peacefully and the whole space was filled with warm blue light, just like a dream.

Tony saw the whole scene and immediately took on the role of a photographer. "Here, I'll take a group picture of all of you!"

Chapter 322

Needless to say, Tony let Molly, who was standing beside him, pushed Sean. He smiled faintly as he got ready to take the photo for them.

The triplets had influenced his mind a long time ago. He took a lot of photos of Sean and Molly together skillfully He was very good at finding the right angle too. A lot of photos that he took made them look like they were very close and harmonious to each other.

The triplets enjoyed themselves while watching him as they planned which photo to put on the desk in their room

After they were done with that they went to watch the beluga whale's performance. They queued to enter the show, and they managed to sit in the first row.

Over time, the venue was filled with audiences. Most of them were parents and their kids. The kids got very excited after they saw the snowy plane in the middle. Suddenly, the exhibit became very lively.

Even the triplets could not sit still anymore. They stood up when the two trainers entered the venue. The male and female trainers were followed by two baby seals. The baby seals waddled their way to the middle of the venue, looking somewhat proud and adorable.

The trainers got into position and took control of the crowd. They would make everybody there engage in their show subtly. All the kids were also very enthusiastic about taking part, and they also cooperated with the trainers and interacted with them.

Half of the snowy plane was a very deep pool. The trainers would take a few fish out occasionally from the bucket to feed the beluga whale that emerged from the water. They would make the two beluga whales make a splash in the water.

At the very last part of the show, the trainers wanted to ask a few audiences to get on stage to interact with the beluga whales. The triplets sat in the first row, and they were picked immediately because of how exceptional they looked

The triplets walked to the side of the pool, and they were extremely happy. The trainers disinfected them before letting them go up the stage.

Molly took out her phone, wanting to take pictures of the triplets. Coincidentally, she got to take a picture of the whale leaping out of the water to kiss Ben. However, she also caught the moment Ben was shocked and terrified by what happened

She thought that it was funny, so she passed her phone to the man sitting beside her subconsciously.. Look how interesting this is?

Sean leaned toward her too. He did not expect it to be an unflattering photo of Ben. He could not help but laugh "Like mother, like son"

They only realized how close they were to each other after Sean said that A chemical reaction suddenly appeared out of thin air

Molly was the first one to back off first. She got further from Sean as her white cheeks turned a little pinkish. Her heart also started thumping like a drum

Urgh What's happening to my heart?

Molly forgot about all her medical knowledge. She became confused by the feeling she was going through as a person who had never fallen in love

Sean saw

blushing and how bashful she looked 'Does she really get shy this easily

He looked at Molly's side profile delightedly, and suddenly, the beluga whale did not excite him anymore. Her tiny nose looked as cute as a pinecone that was covered with snow. He was fighting his urge not to touch it.

Sean felt his palm getting warmer, and it was itchy too. So, he scratched his palm with his fingers placidly.

Sometime later, the triplets and the trainers waved the beluga whales goodbye. They still looked like they did not get enough of the whales after leaving the stage.

They could not stop talking. "The beluga whales' skin was so smooth. It felt so good to touch them!"

Claudia arched her brows and nodded after listening to her brother, "Yeah. They're so cute and active. They kept playing with me too."

She could not forget how the beluga whale held the beach ball up with its head, and it just would not stop passing the ball to her. She laughed out loud because it was just too cute!

"Mommy, Uncle Sean, did you see that?!" The triplets said while looking at them, who were in their seats.

Molly nodded. "Yeah. I took a few photos of you too."

Chapter 323

Everybody left with a smile while talking, but none of them realized that it was already twelve in the afternoon

It was already a little too late to rush back home to cook.

"Let's just have lunch here, okay? Molly asked.

She saw a few restaurants while she was walking in Aqua World, and she thought that those restaurants looked decent.

Sean obviously would have no problem with it, so he agreed, "Yeah, sure." Tony could not help but rant to himself.

'Boss? Can we at least have some decency? You should at least pretend to hesitate and think about it.'

The triplets did not really care about where to eat, and they happened to be hungry too after having so much fun. "No problem, Mommy!"

Molly started to walk toward the restaurant following the direction in her memory after getting their consent. They could still see children happily waving the flag customized by Aqua World on their way there.

After they were done eating, they went to the other zone of Aqua World that they have not been to yet. It was already evening when they went back home.

Tony parked the car and said, "Ms. May, I'll print out all the photos we took, and I'll also send you a copy of everything."

Molly responded while sounding a little exhausted, "Thank you so much for that."

She was feeling tired.

I'm really getting old. I don't have as much energy as the triplets. She did not expect Aqua World to be that huge.

They went back to their own houses. Then, Tony put the camera in front of his boss.

"Boss, do you want to look at the photos first?" He asked with a grin, looking a little pesky. However, he did not care about how he looked at all. He thought that Sean would definitely be happy after seeing the photos.

That being said, he would not have to worry about his year-end bonus anymore! Tony got a little worked up as he thought about that. He forgot everything about his own dignity.

Sean took the camera and started pressing the buttons. He browsed the photos one by one. He saw many pictures of the triplets and a few photos of him and Molly together.

He and Molly took several photos together. Because of the angle, the way they stood and looked at each other made them look like a couple in love.

Perhaps it was how magical the underwater tunnel looked. They were surrounded by blue light, and that somehow made the place feel romantic.

The photo of them leaning into each other to look at the pictures looked particularly natural and aesthetic. It was just brilliant!

Sean was satisfied. Even his tone sounded livelier as he said to Tony. "Print out everything."

Tony smiled as he responded, "Sure."

He told someone at the photographic studio later on the same night

The next day

The photographic studio sent one of their staff to deliver the photos early in the morning Sean kept a copy, and he brought the other copy over when he went next door for lunch

"The photos from Aqua World are here. This copy is for you." Sean put the envelope on the table, and there was a stack of photos inside

"Okay. thank you so much Let's eat first. Molly said

The triplets took the envelope to the living room excitedly right after they were done eating Brycer, who had difficulty walking, also followed them anxiously

Grandpa Dave was the first one to finish his meal. He saw the triplets running hastily from the sofa in the living room. Then, he said warmly. "Slow down, slow down"

Molly looked at them while she was standing beside the dining table She got curious suddenly What kind of photos did we take

Molly approached them with that thought in mind. She was shocked when she saw the photos. Her face turned red immediately, looking like a cherry

When did I even take photos like this?

Chapter 324

Molly looked at that photo, and she took a deep breath. The intimate posture made her blush and she felt very awkward suddenly

It was true that nothing happened between them at all

However, she thought that the photo made them look like they had something going on “Why do I feel like something is wrong?”

The triplets did not feel as awkward as Molly. Instead, they were delighted, and their joy could be seen all over their faces

“Look, this photo looks so good. This photo made it so obvious that Uncle Sean likes us. We need to frame this now!” Alex said while Ben had already started taking action

“I’ll go get a frame!”

Molly saw Ben going to get the frame, and she stopped him right away “We can’t do that. Uncle Sean might not like it.”

Molly could not think of a way to explain to the triplets, so she just used Sean as an excuse

Then, the triplets turned over to Sean. They looked at Sean with their beady and huge eyes innocently as if they were asking him if what Molly said was true

Sean smiled and said to the adorable triplets. “I’m fine with it as long as you guys are happy.”

“Yeah! Uncle Sean said yes! Let’s go get a frame now!” The triplets cheered joyfully

Brycen got jealous after seeing the interaction between Sean and the triplets

“Molly, I want to take pictures with you and the triplets too! I’m going to hang every picture we look all over my room!” Brycen complained loudly

Molly immediately patted his shoulder awkwardly

“Stop fooling around with them!”

Molly felt so awkward that she could not stop scratching the floor with her toes

Sean looked at what Brycen did and what Molly said with a half-smile before chiming in. “Yeah, she’s right.”

Brycen was left speechless

“Why do I hate this man so much?”

It's so obvious that this man has bad intentions for Molly! He's not just a patient! I can tell that this man is up to something bad!"

However, there was nothing Brycen could do about it even though he was actually right. So, he turned around and went somewhere else alone because he did not want to look at their interactions anymore

Im so madr

Sean did not stay very long in Molly's house after looking at the pictures. He had something to do back in the office, so he left with Tony in the afternoon for work

"Boss, we tracked down the goods that were swapped during the fire in the factory. It was transported and hidden in another abandoned factory

11 anything the people who swapped the goods were extraordinarily patient it had been so long since the fire broke out, yet they did not do anything until now!

"They probably didnt want to raise any attention, so nobody ever went there until last night Our men received word that somebody was offering twice the market price to sell those materials."

Sean's eyes turned cold suddenly

"What a way to make money that is

The atmosphere around them turned tense Tony already knew what Sean was going to do as he grieved for those reckless people in his head

Those people were fearless The stolen materials were supposed to assemble high-tech electronics All of them were customized professionally and everything was worth more than one billion

It was not necessarily that everything could be ordered again with money Otherwise, they would not have taken this matter 50 seriously

The value of those materials would increase to more than two billion after they flipped it

However, that would only apply if whoever stole it was brave enough to do that<

Chapter 325

Sean's face darkened as he asked with a flat tone, "Have you retrieved the materials? Are the people involved arrested?"

The incident had been going on for too long. The other party might destroy the evidence and things would not be good for Sean if it did not be resolved soon

Tony dared not to neglect Sean "Yes, they were arrested However, our materials are being held in the police station because of the protocols. I've sent somebody over to take care of the relevant paperwork We should be able to get everything back in a few days if everything goes well!

Tony was furious too 'Those people were just fearless and unscrupulous!

“How dare they mess with my boss? They even tried to make a profit out of our company’s assets! How despicable!

He sent somebody to take care of this as soon as he heard about the news in the morning The company would have suffered an enormous loss of Tony failed to act promptly

Everyone is going to have a difficult time if the boss gets mad!

Sean’s gaze turned cold “Take this very seriously I want to know each and every single thing about what happened. Make sure you look into every single clue and don’t overlook anything.”

“Got it.”

*Also, the business Mr Michael has overseas is losing money, but the exact figure is yet to be discovered They played some trick to cover it up, but I have a feeling that the figure isn’t going to be small.”

That was no reason for Tony to hide that from Sean

When Tony was done reporting, he saw Sean slowly shifting his gaze toward him before he heard Sean ask, “What are you trying to say?”

Sean’s eyes looked deep as he stared at Tony He could not stay calm anymore

“It’s just my assumption for now.” Tony responded as he looked down

“Find out more about it if that’s what you think Don’t wait around Sean said “Get back to work.”

Tony turned around and left Then, he went to do everything Sean ordered him to

Then, the intercom on the table rang Sean pressed a button to answer it “Come to my office.” The person on the other side of the phone said before hanging up right away

That was a call from the chairman’s office, and only Ricky could have access to it

The chairman’s office looked graceful and luxurious Half of the wall was turned into a wine cabinet, and Ricky kept a lot of precious and vintage wine in there A bottle could easily be worth up to a hundred thousand

There was a plushy wool carpet on the floor, but unfortunately, Sean had not felt it in a very long time He went to the side of the sofa while Ricky was reading the documents Ricky only put them down after Sean got nearer to him and started talking

Sean listened to him, but he did not expect Ricky would want to talk to him about the materials

So, he told Ricky everything about what had happened and the way he was going to deal with it without lying

Ricky heard Sean, and he felt a little surprised He felt relieved suddenly as he praised Sean, “Good job.”

Ricky knew that things would be a lot worse if Sean did not act on time

“We’ve got to find out who’s the mastermind!” He continued talking, but he did not mention anything about what Michael did as if he knew nothing

*Of course' Sean moved his eyes, "Dad, Uncle Michael's business overseas seems to be losing money"

He brought it up while maintaining his composure He kept a straight face as usual as he continued Talking Matly. "However, he didnt say anything about it in the meetings recently"

He sounded like he was just talking about a very common thing without the intention of snitching

Ricky understood what Sean was trying to say right away His expression remained the same as he slightly raised his brow is that so? Why don't we go to your grandlather's house to have dinner then? Well know what's really oeing on when we ask him there."

Sean and Ricky's eyes and expressions resembled each other very much, and they looked exactly the same at that moment

"Sure,' Sean responded calmly

Chapter 326

Sean left Ricky's office after they were done talking Suddenly, something popped into his mind He took out his phone and opened his chat with Molly "I'm not going back for dinner tonight. Sean texted Molly

His phone vibrated as soon as he went back to his own office

"Okay,' Molly replied

He stared at the message for a few seconds before putting his phone away, and he continued working Al night, Ricky called him and told him to get ready to leave

Dinner, Anderson Residence.

Everybody sat around the scrumptious delicacies, but the atmosphere did not feel very harmonious as everybody was pulling different ways to remain silent.

Mr Anderson St sal right in the middle He felt genuinely happy when he saw his son coming with his grandson as he said, "Sean, eat more

Sean nodded and took some food to put on his plate, but he did not start eating Instead, he said to his grandfather, "Oh, yes We've already found the lost materials. Everything is being detained in the police station right now, and we're going to get it back after the paperwork has been processed We're still finding the person behind this it's probably the internal personnel of our company, and it won't be long before we find out the truth."

Mr. Anderson Sr looked calm as though he did not hear what Sean said it was hard to see what was going on in his mind

Michael was watching both of them silently When he saw what happened, his expression turned cold. and he took the chance and said, "You're in charge of this all the time You did a really poor job for letting something like this happen."

He looked at Sean mockingly after he said that

Sean ignored him as he stared at the dishes on the table. He knew that Michael was putting him in a difficult position on purpose, so he flatly said, "Uncle Michael, I heard that your business overseas is suffering losses recently. Why didn't we hear anything about it from you at all?"

He subtly brought the subject around to Michael before lifting his head up to look into Michael's eyes directly.

They were separated by the dining table, but they gazed at each other so firmly that it felt like a war between them was going to break out at any time.

Michael's facial expression changed. He lost his tongue after seeing how assertive Sean was. He was not feeling very good, and he was shocked too.

"How did he know about this?"

After that, Mr Anderson Sr. shifted his gaze to Michael as he sternly asked, "What's going on?"

Michael's heart trembled. He looked at his father's intense gaze before swallowing his saliva as he nervously said, "It's nothing. We just made a tiny mistake, but the figure is very small. I'm now doing everything I can to make it right."

His palms would not stop sweating, and he could not help but look elsewhere when he was talking. However, Michael was sitting rather far from Mr Anderson Sr., so Mr Anderson Sr could not notice it as the lighting in the mansion was never very bright.

Mr Anderson Sr was a little angry. He could roughly estimate the money Michael lost, and he figured that his son was just downplaying it. He said sternly, "I told you to be more careful when investing. You shouldn't go right into it just because the numbers on their financial reports looked pretty. It could be a trap that might make you lose all your money?"

Mr Anderson Sr had stepped down for so many years, and usually, he would not bother too much if it was not something big. He would only briefly mention it at most.

So, he did not ask too much about how Michael lost the money, and he thought that it was just because of the natural risk of investing.

However, Sean noticed everything. The more guilty he is, the more suspicious things are.

Michael nodded to agree with what Mr Anderson Sr said as he was scared that Mr Anderson Sr would ask further about what happened. Then, he heard somebody talking.

"Okay. Report the details to us in the meeting tomorrow morning then."

Ricky waited for the right time, and he spoke up.

Michael's face darkened. "They're clearly working together to set me up!"

He only responded after a while. "Sure."

Chapter 327

Michael was already at a big disadvantage before the dinner was over, so he felt very unhappy suddenly. He thought about what Sean did previously before saying to everybody at the table, "Sean, I thought that you were going to get engaged with the heiress of the Noland Family, weren't you?"

He raised his voice and all his relatives looked at him. Everybody knew who he was referring to

Sean heard what he said without reacting. "He's obviously making something out of nothing to mess with

"Sean, I heard that you dumped Abigail Noland, whose family is just as rich as ours, for a lady doctor. She appears to be a famous doctor, but she has three children, right?" Michael pretended to ask those things unwittingly as he put on a confused look

Sean's eyes turned colder. He knew that Michael had been secretly paying attention to his personal life. However, everybody who knew him would know that he did not have any inappropriate relationships with anyone, and he had nothing to hide. So, he was not really bothered by Michael's actions

So, Molly's existence stood out. It caught a lot of people's attention, and they would even investigate her

However, Sean changed his mind. He figured that he could not ignore Michael's actions anymore. Besides, what Michael did was just challenging his limits!

Sean squinted as he started to think

"What is he trying to get from me by saying that?"

He was very angry on the inside, but he looked at Michael calmly anyway and said, "Uncle Michael, did you spend all your time and energy on something like this rather than monitoring your business? Why do you suddenly care so much about me now? You should think about how to fill the financing gap instead if you're so free!"

Suddenly, the atmosphere became very tense and heavy. Their gaze was cold as they looked directly into each other's eyes, and neither of them was planning to back down

Finally, Mr. Anderson Sr. looked up and reached out to get some food from the table. However, he stopped moving and left his arm hanging in the air as he said heedlessly, "Is anyone going to eat? Leave the table if you're not going to have a nice meal. Don't waste the food!"

Sean and Michael only looked away and called it quits after that

Mr. Anderson Sr. looked at both of them before putting the food onto his plate. Then, he asked with his head down, "Sean, I also heard that you broke off the engagement with the Noland Family. Why is that?"

Everybody in Northfolk knew about it, and he was no exception. Besides, Sean was his biological grandson

Mr. Anderson Sr. could not understand why Sean did that because the Noland Family was just as influential, rich, and powerful as the Anderson family

"That kid from the Noland Family actually matches you in a lot of ways." Mr. Anderson Sr. sounded somewhat confident while he said that as if he trusted himself very much.

Sean said without holding back, "A lot of my time is already wasted in my treatment and my work, so I don't want to waste any more time on other people. Putting my love life aside, there are plenty of other people in the family who can carry on the family lineage if that's your concern. However, if I really can't do that as the eldest grandson in the family, there's still Simone"

Simone was Sean's biological younger brother. He was overseas, and he would rarely come back The Anderson family did not really restrain him from doing so because he was not the eldest grand son in the family

However, Sean made his stance very clear in front of everybody to prevent tricky people like Michael from using this matter to give him pressure

He would not care if this happened in the past, but he would never let things like this happen now! A lovely face popped into his mind The May family had already been mistreating her. It would make him look very useless if he allowed even the Anderson family, which had zero relation with her to interfere with her personal life.

He wanted to treat her right!

Chapter 328

11 would leave Molly no choice but to distance herself from him again if something went wrong again

Sean was not going to let that happen!

He said firmly. "Stop riding on my back

Mr Anderson Sr noticed how unhappy and displeased Sean looked The old man heaved a deep sigh.

Sean really had it hard Perhaps we really give him too much pressure

Mr Anderson Sr gave in as that went through his mind He softened his tone and said to Sean "I'm not going to pressure you if you don't like her, but you've got to find a partner anyway It's a tradition for the eldest son's first son of the Anderson family to lead the family This tradition has to keep going, and you can't let Simone replace you even if he's your brother"

Mr Anderson Sr sounded very firm while he said the last sentence

Sean stopped talking as he did not want to argue and turn things ugly with his grandfather However, he was not going to listen to anybody else's opinion on this Nobody could interfere with his decision

What Mr Anderson Sr had said made those present start thinking

Everybody else hated this tradition as a part of the Anderson family

'We share the same last name, and we worked just as hard for the family too Did we only do that so Sean could get married and be in charge

None of those present enjoyed that dinner

The dinner ended Tony hesitated to ask Sean on the way back, but he did it anyway

“Boss, are we going to tip anyone off after you made things clear to them today? Everyone in the Anderson family was very designing Tony knew that because he had interacted a lot with them while he was working for Sean all this time

“We’ve got to tip somebody off to make them give themselves away Keep an eye out for Michael’s family I’m not going to tolerate it if they dare to sell the stolen materials to fill the financing gaps for his business oversea with the exorbitant profit!” Sean said coldly

Tony nodded before he asked Sean about another thing

“Mr Michael mentioned Molly and the triplets Do you think that he has them on his radar? Are they in danger?”

“He wouldn’t dare!” Sean sounded very imposing Tony could feel how authoritative Sean was while he said that

Tony understood how important Molly was to his boss.

Mr Michael better not do anything silly

‘Or things are really going to be really bad for him

Meanwhile, Sean’s parents – Ricky and Alice – left the mansion too Both of them were also thinking about the way Sean reacted when he heard Molly’s name being brought up

Alice was very concerned

“What’s up with our son? I’m sure that he has something with that doctor, or else he wouldn’t talk like that

Alice was not pleased She thought to herself for a moment before asking Ricky. “Did he fall for that doctor?”

However, Ricky did not argue with her. They just understood their son way too way they could know what Sean was thinking by just the slightest reaction

The more Alice thought about it, the more uneasy she felt. She was very worried

*This can’t go on like this. I wouldn’t mind if that woman was an ordinary person who came from an ordinary family, but she has three children. There’s no way that I’m allowing her to be part of our family with those three kids!”

Alice felt very uncomfortable when she thought that her son was going to be not just the stepfather to a kid but three.

“What can you do about it? Abigail is not bad I know that she matches Sean very well, but your son doesn’t like her. He’s an adult. We can’t make decisions for him anymore “Ricky shook his head<

Chapter 329

Ricky knew Sean’s character better than Alice.

"We've got to do something I care about my son even if you don't" Alice glared at Ricky

Ricky kept his mouth shut because he knew that he could not persuade her, and he did not want to argue with Alice either

Alice thought to herself What can I do to solve this while making everybody happy?

Suddenly, she said to Ricky. "How about this? Let's arrange some blind dates for our son with other doctors to replace that woman, Sean wouldn't have a problem with it anymore if any of those doctors could treat his legs. He can also cut that woman off as soon as possible too."

The more Alice thought about that, the more she felt that it was going to work

"You forget it. Whatever floats your boat

Ricky was about to say something, but he gave that idea up as she thought that Alice would not listen to him anyway after seeing how excited she looked

Sean went back to his house He saw Molly sitting on the sofa in the living room as soon as he went through the door Apparently, she was waiting for him

Suddenly, his gloomy mood turned a lot better "Sorry to keep you waiting"

Molly watched the door after she heard noises coming in from that direction She stood up and went upstairs habitually after seeing him, "It's fine Let's start your treatment"

Sean changed his clothes and went to get treated. However, Molly could tell that he was not in a good mood, and he was even feeling a little down

"What's wrong? Work?" Molly asked I rarely saw things that would upset him. Did something very bad happen?

She kept guessing to herself 'He just came back from his grandfather's house Did something happen in his family?

Sean thought for a moment as she stared at those pair of curly and thick lashes. "I'm fine. It's nothing We just lost some materials, but we already got everything back."

Molly nodded as she consoled him, "Don't overwork yourself You've got to look after your health even though you're busy with work. You're recovering now, and we can't afford to make any mistake

She sounded like she was worried about Sean, and she even lifted her head to smile at him after saying that. The light shone on her facial features, and it reflected back to Sean's eyes. The light was so bright that it made Sean squint But he felt a lot better for whatever reason

"Yeah, you too. Have some herbal tea before you leave later" Sean said to her

After the treatment, Sean really watched Molly finish the herbal tea before he let her go back.

After that day. Sean noticed that he had more business meetings to attend compared to the past

Sean realized that Ricky would always say that he was not feeling well. This father of his would tell Sean to attend business meetings on behalf of him very frequently

Sean was fine with it at first, and he would even tell Ricky to look after his own health while attending the meetings

However, he met with the client's daughter, who had nothing to do with the business, two times consecutively. He thought that their daughters had just come for dinner and nothing else, so he did not get suspicious of anything

But he saw the same face that tried to ingratiate herself with him on purpose again. She approached him with an eager expression to speak to him,

Sean did not really listen to her, but he squinted. He noticed that something was wrong, so he kept a distance from her to deal with her reluctantly

He told Sean right after the business meeting ended, "Tony, reject every business meeting from my father from now on

Tony roughly knew what was happening right away after working for Sean for so long 'Sure, boss.'

Chapter 330

Ricky got a text from Tony the next day. He figured that Sean knew what he was trying to do. "How sharp of him.'

No one knew a son better than his own father, and Ricky was no exception. Sean was not a simple person to deal with

Ricky frowned slightly. He had no choice but to do it after Alice told him so Besides, he did not want the Anderson family's rules to be broken either.

He knew that he had to pick a side and give the other up. Ricky pretended to be ignorant as he went to Sean's office personally. He pushed the door opened and went inside

He asked curiously. "What's wrong?"

Sean put down the contract in his hands as he looked right into his father at the door before saying, "You should know better about what you were trying to do. Please knock it off"

They were just standing on the same side together, but they were fighting among themselves now That was just how most wealthy families were They would always put interests first

Ricky walked to his desk and looked at the contract on the table before lifting his gaze back up to Sean He said with a smile, I just want you to expand your connections. You're being too sensitive

Ricky knew that Sean had a lot of work to do, but his health was not in very good condition After all, Ricky would not want to pressure him into doing anything without putting his health into consideration

"Yeah, but that isn't necessary My body can't cope with that ' Sean lowered his voice as he said that The appearance of tiredness was visible on his face. He stopped looking at Ricky and picked up the contract to continue reading it again.

Ricky stayed there silently for a while. He had no idea what to do at the moment. He could not turn a blind eye to his son's hard work, yet he did not know how to explain everything to his wife either

If Alice got unhappy and things got heated, none of them would have a good time

Ricky could not help but feel a little awkward and helpless. He did not say anything else and left.

Sean only put down the contract in his hands after he saw the door shut completely He sat there and started thinking

He would have the smell of perfume on him every night he went back these days He figured there was no way Molly could not notice that.

In fact, he did not do anything, but their relationship was not that clear for him to clarify anything to her yet

Molly would not ask him anything about it, so he would find the chance to bring it up to explain himself indirectly

However, he thought that if he kept saying the same thing. Molly would get suspicious of him to be lying too

He did not want Molly to misunderstand anything. His gaze fell on the door when he thought about that

I'm glad that dad didn't bring it up or force me into doing anything In the evening. Sean left the office early 10 avoid Ricky telling him to attend more business meetings again

When Sean arrived at his door, he planned to get changed before going next door to play chess with Grandpa Dave.

However, he only found out that his mother came after he went in

He met eyes with Alice for a moment before he saw Molly beside her. And there was another strange woman

Sean could not help but frown. This is my house I don't mind Alice coming here without telling me first, but how could she bring a stranger in here?

"How could a random person get into my house?"

"Is this how bad the security of Terahis Grove is now? They're letting just anybody to come in here!"

Sean's face turned grave He shifted his gaze elsewhere after looking at the strange woman for less than a second, as if he did not want to look at her at all He asked Alice. "Mom, why are you here? What's going on?"

Molly gazed at him, looking cold and distant as always. It was hard to tell what she was feeling

However, for whatever reason, Sean could feel that she was in a bad mood
