THROUGH THE EYES OF MY ALPHA by Cassandra M Chapter 46 NADIA. Riley helped me out of the car, and our gazes both landed on the motorcycle standing just beside where Tristan parked the car, and I couldn't help the gasp of excitement that left my lips. Katarina is here. I dropped Riley's hand without a warning and ran towards the pack house. "Katarina!

" I was shrieking in excitement.

I didn't even know where I would find her, but I just let my feet take me where they wanted to go.

'Careful!

You might fall flat on your face!

' Riley's mind was linked with mine, and I could hear him chuckling at the other end.

I giggled, but I didn't answer him back as my feet hurried towards the big receiving area on the other side of the house.

I was excited to see her.

She was the only part of my old life that I didn't want to throw away.

I found Katarina sitting on the big couch, flipping the pages of a magazine.

I stopped by the entryway, catching my breath before calling her attention.

"See something that you like?

" I asked, hands on my hips, and I watched her head snap in my direction.

It took a while before she started shrieking and hurriedly ran toward me.

"Oh Goddess, Nadia!

I'm so happy to see you!

I thought I would never see you again!

” She blurted out as we hugged each other tightly.

“Ewww!

You reeked of Alpha Riley!

” She pulled away from me, her nose scrunching up as she feigned a gag.

I giggled before anchoring my arms with hers as I walked us to the couch.

“What can I do?

He can’t keep his hands off of me!

” “Awww.

.
.

you liked him!

” She blurted out, and I couldn’t help my cheeks from blushing.

“I do!

” I admitted as I nodded my head, a smile still curled on my lips as I slumped my body down on the couch, taking her along with me.

“You need to tell me the details about how you met him!

D**n girl, maybe I should run away and bump into my mate along the way.

Then I don’t have to go to this stupid Claiming!

” “Wait!

Isn’t the Claiming supposed to be this month already?

Oh, Goddess!

” “This one was canceled.

I had no idea why and I never asked Darwin.

I was just thankful that it was.

Although it will resume after three months.

” Chapter 10 “Oh, Thank Goddess!

But are there still no changes to the plan?

Are you still pushing through with this?

” I asked her, knowing that she didn’t really agree with this but was forced to accept “I can’t do anything.

Darvin is using emotional blackmail, and you know how much I loved my brother.

” “But still, this is not right.

But have you already met this Alpha?

What was his name again?

I forgot.

” “Aeon.

Alpha Aeon.

And no, I haven’t met him yet.

” “So up to now, you still have no idea what he looked like?

” “No.

But Darvin said the engagement party will push through next month, so I will see him by then, I guess.

” CD “Weird.

Are you not even interested in knowing what he looked like?

And him, he didn’t even bother to visit you?

” “Well, Darvin said he saw me already.

But I have a feeling he’s not interested in me, so maybe it’s better that way.

I would rather we keep away from each other’s business than have him hovering over me.

” “Are you not scared if he looked like a monster?”

” She giggled before her hand slapped my forearm lightly.

“You and your descriptions of people.

No, I don't think he looks like a monster.

I was sure I'd seen him before, but maybe I just forgot what he looked like.

” “Was he one of the young Alphas who were in the territory during that Alpha camp?”

” “I think so.

I would have remembered him if he caught my eyes, but apparently, he didn't.

But I wonder how the rest of them are doing now?

” “The rest?”

” “The rest of those young Alphas.

There were too many!

And I remember we sneaked out one time and checked them out.

Tell me who caught your eyes then?

” “Riley.

But it was only once, but he was the only one that stuck in my mind, but I eventually forgot what he looked like.

” “Because he looks totally different now!”

But, d**n, girl!

You ended up with him!

” And then she grinned mischievously.

“Maybe the one that caught my eyes would turn out to be my mate too!

” “And who might that be?”

” “Well, one was Alpha Jacob, but then he's mated, so definitely not him.

” 2.

76 I giggled.

“But he is good looking, but not as good looking as my mate.

” “Whatever!

” She playfully rolled her eyes at me.

“Anyway, I also like Alpha Lucas.

” “Alpha Lucas?

Never heard of him.

” “I don’t even know what pack he belongs to.

And whenever I listen to Darwin, his name never comes up.

But I’m sure that’s his name.

” “Maybe he’s dead.

” “Ouch, you’re a savage!

What if he’s my mate?

Then I will be mateless forever.

” “You have Alpha Aeon, so stop with the drama.

” I giggled as she glared at me.

“But you know what, you will never know or meet Alpha Lucas again because you never attended b***s and galas.

You are an Alpha Female.

You should be going around, flapping your wings, and letting those men fall on their knees.

” “So that’s how you see Alpha Females?

” “Isn’t that how they depict Alpha Females?

Most sought after?

” “Yeah, it’s like we hold the power, but the reality is too far from that.

” She let out a deep sigh, and my heart crushed for her.

We were in the same boat, but I was able to get away.

“I’m sorry.

I just don’t get why Alpha Darvin would want you to be claimed instead of waiting for your mate.

” “Well, I think everyone has given up that I will ever find mine.

I’m 20 already and still mateless.

Almost every female scents their mates once they turn eighteen.

” “I found mine at 21 and he was just from the neighboring pack, so what’s the big deal if you have to wait longer?

It’s not like you’re going to die at 21 and need to be mated before then.

” “Alpha Female.

That’s the reality, everyone wants us mated right away.

” “I wish I could help you.

” “Enough of me.

Let’s get back to you and your mate!

So how’s the scary Alpha?

” She wiggled her brows before she leaned in closer.

“So, is he really scary?

” I shook my head, “In fact, he’s cuddly as a teddy bear.

” “Who’s cuddly as a teddy bear?

” A deep baritone voice erupted into thin air and delicious tingles immediately spread in between my legs.

Our heads tilted to the entryway and saw Riley leaning on his side against the post with his arms crossed against his chest, brows hiking up but his mouth was twitching as if suppressing a smile from forming.

“My pillow.

” I smiled cheekily at him, my cheeks hurting from the wide smile that was plastered on my face.

My Goddess, Riley, looked like a god leaning against the pillars.

“That would be me, right?

You’ve been using my body as a pillow night after night after night.

My eyes widened as I stared at him dumbfounded, hoping he would stop embarrassing me.

“I didn’t know Alpha Riley knew how to make a joke or flirt.

What did you do to him?

” Katarina whispered beside me, but her face showed no emotions.

She was still not comfortable around my mate.

“Got your tongue-tied, my love?

” Oh, f**k me now!

I bit my lower lip and crossed my legs before I opened my mouth.

“I want water, Riley.

” S**t.

What was that?

“Okay.

Give me a second, but Katarina?

Have you seen my Beta?

Was he around when you came in?

” “Oh yes, he was actually the one that picked us up at the border.

He’s with Sofia.

She wanted to go around, and I don’t trust her on her own, so I asked your Beta to come with her.

I hope you don’t mind.

” “No.

It’s okay, I just couldn’t reach his mind.

” He told her before shifting his gaze to me.

“I’ll be back with your water.

Do you want something to drink, Lady Katarina?

Coffee, tea, juice, water?

” “Water will do.

Thank you, Alpha.

” He just nodded his head at her before winking at me as he turned around to get us water.

“What was that?

What did you do to your Alpha?

He actually smiled!

” Her eyes widening as if she was really shocked.

I giggled.

“I told you, he’s cuddly.

” “He’s smitten with you!

” “You think so?

” She nodded her head.

“Amazing, really amazing!

I have never seen that Alpha smile.

And sometimes I wonder why he gets along with Darwin when Darwin smiles all the time.

” “Well, he’s changed a lot from the first time I saw him.

Did you know his wolf bit me right away when he saw me?

” “What?

” “Look.

” I turned around and raised my shirt at the back, just enough for her to see the crescent moon mark that Hunter left on my hipbone area.

“Oh, Goddess!

It’s beautiful!

He didn’t bite you, he marked you.

So he marked you first before the Alpha did?

” “Yes, he did.

Riley told me he was furious because they scented me before in your territory and Hunter thought I was avoiding them.

Riley actually scented me on you, and he asked you to bring him to me, but you dragged him to Trish.

” “Oh no!

So that was it!

Well, if your alpha told me he scented his mate on me, then I would bring him to you.

But he didn’t say anything.

He was just like...” She straightened her posture and puffed her chest before she began talking in a louder voice, imitating Riley’s.

“... who did you spend your day with?

Bring me to her!

" I couldn't stop myself from giggling because it was almost the same as what Riley told me, but she was narrating it better.

"I thought Darwin was furious that I went out again and he asked Alpha Riley to find out where I went.

And of course, I would never bring him to you, otherwise, your plan of running away might be foiled.

So I brought him to Trish instead!

" "At least you made Trish happy that day, for sure.

" "Oh, she was overjoyed and kept blabbing about it for days about how he saw and talked to Alpha Riley in close proximity.

" She giggled before she reached for my hand.

"By the way, Trish was heartbroken, well probably for thirty seconds before she moved on and said she's happy you're mated to Alpha Riley.

" I giggled again because that was Trish.

She has tons of crushes, but she moves on easily when she gets tired of gloating and fanning over them.

Our laughter was interrupted when an older female entered the room with a tray in her hands with pastries and juice, and, of course, water followed by Riley.

"Is it okay if I leave you, ladies, here?"

I will just be at the training ground.

The Gamma needed some assistance.

" He asked as he stopped by the entryway, his hands in his pocket as he stared at me, I nodded my head as I stood up from my seat and walked to where he was standing.

"But you're not leaving the territory?"

" "No.

" He smiled as his hand reached for the stray hairs on my face and tucked them behind my ear.

“Link me if anything.

I have warriors around the pack house, so you have nothing to worry about security.

” “I’m not worried,” I smiled at him.

Chapter 46 I wanted to kiss him, but I didn’t want to make the first move, and besides, Katarina might be looking But it’s been days since we kissed.

“I am.

So make sure you stay inside the house.

Or let me know if you plan to go out.

” He cupped my face, brushing my cheek with his thumb as his soft gaze locked with mine.

O ‘I’m not restraining you from going out.

I just want to make sure you’re well protected.

I don’t want anybody to take you away from me.

’ He sent over our mindlink, and I couldn’t stop the smile from gracing my lips.

“Okay.

And let me know if you’re going somewhere other than the training grounds.

” “Yes, ma’am.

” He chuckled before he leaned in, but stopped midway, and instead brushed his thumb against the corner of my lips.

“I’ll see you later.

” And then he pulled away and turned around.

D**n, it was almost a kiss.

I let out a deep breath before running after him.

“Riley...” He turned around, his brow arched up.

“Yes?

” I stopped in front of him, swallowing hard before I smiled shyly.

“You didn’t kiss me.

” He smiled sheepishly, and I felt my core suddenly start throbbing.

“I’m not sure if I was already allowed to kiss you.

” I rolled my eyes at him, trying to act brave but his stare was making my knees wobble.

I puckered up my lips, urging him to press his lips against mine just for a soft kiss, only to be caught in surprise when his hand snaked on my nape as he pressed my head closer to his, crushing his lips against mine, and drowning me in a smoldering kiss.

THROUGH THE EYES OF MY ALPHA by Cassandra M Chapter 47 BETA DOMINIC

“Where exactly are you taking me?” Sofia turned around abruptly without any warning, and her face bumped directly into my torso. “Ewww! Your sweat!” She grunted as she wiped my sweat off her face, and I couldn’t help but laugh out loud. She was exaggerating.

We have barely walked for thirty minutes now, and although I have sweat, it wasn’t enough to soil my shirt.

“Don’t worry, I showered this morning.

So it’s a fresh sweat.

” I pulled out a handkerchief from my shorts’ back pocket and wiped her face with it, which she didn’t appreciate because she pushed my hand away like it was on fire.

“Don’t touch me.

” If her snarl could kill someone, I would probably be six feet under the ground now.

“You’re too whiny for a seventeen-year-old.

You complained of sweat and now I am taking it off.

You’re still complaining.

” O “I don’t know where you used that cloth.

” She glared at me as she fixed her long wavy locks into a ponytail.

“Excuse me?

” “Never mind.

Where are we now?

And where is that place you wanted to show me?

” “If you don’t complain every five minutes, we’re probably at the meadow by now.

Your complaints are just delaying us every f*****g minute.

” “But you didn’t say it would take a whole day to get there!

” “You’re exaggerating!

It’s not even been one hour yet!

” I was gritting my teeth, regretting the idea that I ever agreed to watch over this kid.

“But I’m tired already.

” “You whine like a human.

” “I don’t have a wolf yet.

So obviously I don’t have the strength as she-wolves have!

And it’s not like we’re threading a straight line.

It’s uphill, I didn’t know we have to climb up...” F**k me!

Why did I forget that she didn’t have a wolf yet?

No wonder she was panting like crazy all the way through.

I let out a deep breath and placed my hands on my hips as I stared at her.

Bringing her here was a bad idea.

What was I thinking?

Chan She just stared back at me, her forehead still creased, arms crossed against her chest.

“We’ll be at the meadow in ten minutes.

Do you want to continue or should we turn around and go back?

” “Will I have a place to rest in the meadow?

I swear my legs are killing me now.

” “Yes, you can rest there.

Would you like to hop on my back so we can go there faster?

” I saw her swallow hard as her eyes widened while a red tint slowly crept onto her cheeks.

“I don’t think that’s appropriate.

” “Come on, kid!

Don’t put any dirty thoughts in your head.

It’s either you hop on my back or start moving your a*s and walk without any complaint.

” “You’re girlfriend won’t mind?

” She asked, her eyes avoiding mine as she bit her lower lip.

I chuckled internally.

Girlfriend?

Yup, I have too many girlfriends who would mind.

“No.

She won’t.

Come now!

” I grunted and motioned with my hand for her to come over.

I wanted to reach the meadow already so I could drink from the clear stream there.

I felt so f*****g thirsty already.

She rolled her eyes before making her way behind me.

I crouched down and waited for her to coil her arms around my neck before I rose up.

Her legs automatically wrapped around my hips, and I felt my body stiffen at the contact.

I raised my hands to hold her lower legs steady because she couldn't grip my body tightly and she might slip down.

But I already wanted to regret this.

What was I thinking when I suggested that I carry her?

She kept quiet while I walked us through the woods, and I was thankful for that because my mind was moving at a fast pace, trying to find answers to my questions.

Janna was the same age as her, but I saw Sofia as if she was younger, a kid.

But now that her body was pressed against mine, it was harder to see and think of her that way.

"Beta Dominic..." She whispered, and her breath was fanning up on my neck, giving me goosebumps.

"Hmmm..." I mumbled my response.

I could already see the meadows ahead of us.

"Katarina mindlinked me.

Your Alpha was looking for you.

She said, your link was turned off.

"Okay.

" I let out a deep sigh and opened my mindlink.

I didn't even notice it was shut off.

'Alpha?

' I sent a message to Alpha Riley.

He was home early.

I hope nothing urgent was needed or I had to turn around with this female on my back.

'Where the f**k are you?

Don't tell me you're f*****g Sofia!

Darvin will f*****g kill you!

' He snarled at me, and I almost laughed aloud if I hadn't remembered I had Sofia on my back.

'Whoah!

Chill.

She's still whole and untouched, at least by me.

And please, I didn't even have those thoughts in my head.

She just wanted to see something aside from traffic and buildings, so I'm taking her to the meadows.

' I chuckled in my head.

'You're back too soon.

Do you need me there now?

' No.

I'm good.

Just don't f*****g touch her.

I don't want any bad blood between me and Darvin.

'Aye, aye, Captain.

But just to assure you, I don't see her that way.

I have Janna, remember?

' I made some calls once I was on the training grounds.

, away from where Nadia could hear me.

I wanted someone to watch Benedict Solange.

I didn't trust him, and I didn't like the way her eyes were raking over Nadia.

And although I trusted Nadia when she said she wanted nothing to do with him, I still couldn't help but feel threatened.

So I needed to know more.

I couldn't help it.

Nadia was still mad at me about Andrea, and then, all of a sudden, after Benedict appeared, she was all over me.

I knew I shouldn't be thinking like this and should learn to trust Nadia wholeheartedly, but I couldn't stop myself from doubting.

Old habits die hard.

But I was trying.

I trusted Nadia.

Goddess knew I wanted to.

But I just needed a little peace of mind, so I was doing this.

"Penny for your thoughts?"

"Nadia's voice snapped me back to the present as she stood beside me.

Her eyes wandered on the training ground as our men slowly dispersed from their group, ready to head home or proceed with their duties.

I smiled at her before I fastened an arm around her waist, pulling her closer to me.

"How was your time with Katarina?"

"Oh, it was lovely!"

I'm glad she took the initiative to come visit me.

I've been wondering for days if I could see here but didn't have the guts to ask you.

"Her voice sounded happy and I was glad she was.

"And why was that?"

Did I ever say no to you?

” “It’s the exact reason, I didn’t want to abuse you.

” Cho “You’re my mate, Nadia.

We just need to talk things through between us.

” “But then if you don’t like something, you get pissed off...” “I’m trying.

” I huffed.

Relationship is f*****g hard.

“I know.

And the last thing I wanted was to tick you off.

” “Wanting to meet up with Katarina is definitely not going to tick me off unless you’re going to make her an excuse to meet someone else.

” “I don’t have anyone to meet up with.

” She leaned her head on my chest while her arms coiled around my body.

“You won’t mind that I invited Katarina and Sofia for dinner?

I asked them to stay a bit longer.

” “No.

Of course not.

But no sleepover.

I don’t think I can handle another night not holding you.

She giggled and squeezed me for a tight hug but didn’t say anything.

“Nadia...” “Are we okay?

About Andrea?

” “I guess we are.

And if there’s anything, I think it should be Andrea we should be saying sorry to.

” “We?

” I asked, my brows furrowing.

“Yes, we.

I wanted to see her too.

Just to give me a piece of mind.

” “Can I tell you something?

But keep an open mind because this has nothing to do with how I felt about Andrea before.

” She nodded her head but kept her silence.

“I’m not sure I’m ready to face her right now.

I know I did her wrong, but I need a little more time so I can face her and Caspian.

” “I understand.

Take your time, but please not for a long time.

I just didn’t want Andrea to spend her days hating you.

” “If your uncle and Elliot apologize to you, will you forgive them?

” “I don’t know.

It’s a different thing.

I can’t explain.

” “Maybe it will be the same thing as Andrea.

Maybe she won’t be able to forgive me.

” “But she was here?

What did she want?

” “She was here with Caspian.

And I didn't get to the part about what they wanted from me because I was too preoccupied trying to throw them out.

I was f*****g terrified you would see them.

"Which I did.

"She added it almost immediately, and it left a sour taste in my mouth.

"I'm sorry, you have to find out that way.

"I pressed my lips to the crown of her head.

I wish I had reacted differently.

Maybe things would have turned out better.

But there's no sense crying over that now.

"Are you not ready to tell her that you have a mate already?

"I'm sure it reached them already, as I wasn't hiding you from anyone.

But to answer your question, I am ready to talk about you, just not ready to talk about my sins.

"She didn't say anything after that.

We just looked at the dispersing crowd in front of us, waving and nodding our heads at the warriors paying their respect while we held on to each other.

"Nadia, about the Luna ceremony.

Have you thought about it?

"I broke the silence.

I've been thinking about this after the calls I made.

Maybe if we could finally have her as my Luna and my official mate through the union, I wouldn't be bothered anymore by Benedict's presence.

"I've been here not even a month yet.

Is it important to have it right away?

” She asked in a low voice, and my heart dropped.

She was still not ready for it.

“No.

I was just wondering why you’re holding off.

”

THROUGH THE EYES OF MY ALPHA by Cassandra M Chapter 48

THROUGH THE EYES OF MY ALPHA by Cassandra M Chapter 48 RILEY “I just don’t feel that I am ready to be a Luna just yet. Give me a little more time, Riley.” Her words keep ringing in my head. I wanted to understand her, but a part of me felt that she didn’t want to be officially a part of me. But I didn’t voice my concern. Maybe she just really needed time to get used to everything.

So I tried my best to shove off any bad thoughts running in my head, especially the one telling me that she didn’t want to stay here for good.

“Do you want more?”

” Nadia asked, snapping me out of my thoughts, and my eyes darted to her, meeting her dark brown eyes before I lowered my gaze to my plate.

I didn’t even notice she had been placing food on my plate.

“More...” I smiled at her and she obliged, placing more meat on my plate before covering it with sauce.

“Thank you,” I told her in a low voice, and she just smiled back at me before placing food on her plate.

Lady Katarina and Lady Sofia stayed for dinner, but my Gamma couple were not with us since it was Gamma Sebastian’s mother’s birthday.

“Riley, we were wondering if you had an idea about Katarina’s claiming?”

” My eyes squinted as I stared at Nadia, forcing the meat into my mouth as I waited for her to continue.

“What do you know about it?”

” I shrugged my shoulders and answered nonchalantly.

“Aeon would be claiming Katarina on the next Claiming.

That’s all I know.

” “Is there a way out?”

” “I seriously have no idea.

I never dwell on the Claiming so I’m no use when it comes to that.

” “Why?”

You’re an Alpha.

You didn’t even think of attending a Claiming if just in case you ended up not having a mate or a Luna?

” “No.

I didn’t consider Alpha Females.

” “And why?”

” Three mouths blurted out the same questions, and I couldn’t help but chuckle.

“I don’t think I needed to explain, but I will explain to just you.

” I winked at Nadia before darting my eyes to the other females around the dining table.

“You both don’t need to know about it.

” My Beta chuckled before he asked Katarina a question.

“Are you having second thoughts?”

” “I actually didn’t want to.

” “Do you think you can help her?”

” Nadia asked me, and I felt useless because I knew I couldn’t.

I shook my head, my lips pursing into a thin line.

"I can't.

This is between Katarina and Darwin.

And Aeon.

I don't meddle with family affairs, especially of another Alpha.

"Maybe your Beta can claim me.

Just for a show.

"Katarina said, her eyes went to my Beta and my Beta's mouth just dropped open.

"Him?

"Sofia asked, her eyes widening as if she was too surprised, and I just watched her forehead crease before her fork pointed at my Beta.

"He has a girlfriend.

You can't just take someone's boyfriend and claim it as yours.

"Sofia!

"Katarina exclaimed in a hushed tone.

"Don't point your fork at someone.

Where are your manners?

"I laughed while my finger was moving in circles on my mate's thigh under the table.

"My Beta doesn't have a girlfriend.

"He told me he has," Sofia answered, her brows furrowing.

"It was a joke.

I didn't know you couldn't tell a joke from a real one.

"Dominic added, snickering in his seat.

"I'm finally convinced you're a terrible person.

” Sofia sneered and I just shook my head at their exchange, my eyes staring at Nadia, who seemed to be amazed looking at them.

“Ouch!

That was straight to the heart.

” “Alpha Riley, did you know that the first time I met Beta Dominic, he told me he was Alpha Jacob?

And I believed him.

You should reconsider him for a Beta post.

I think he’s just making up stories with everything.

” “Well, that’s interesting.

I thought I knew my Beta well.

I didn’t know he lied a lot.

” I answered in a calm tone, but I was doing my best not to laugh because I might offend Sofia.

“Oh, he does.

And Katarina, please, choose someone else.

I don’t think the Beta can make you happy.

” “That’s below the belt already.

” My Beta replied, a playful smile plastered on his lips, and I was under the impression that he enjoyed riling up Sofia’s anger.

“I’m desperate.

I don’t know how to tell Darwin I didn’t want this without putting him in a bad light.

” “Yeah, and then I’m next.

” “You too?

” “Yes, but I hope at least Darwin will give me a chance to choose who will claim me because I’m not going on a blind Claiming.

I would run away.

” “Call me.

I’ll pick you up.

” “You’ll help me?

” “If my Alpha allows me.

” “Then I guess it’s a no.

” “Is there really no way out of this?

” Nadia’s question took my attention away from my Beta and Sofia.

“I had no idea what agreement they had with Aeon’s pack, so I couldn’t really tell,” I answered my mate before shifting my eyes to Katarina.

“But if anything, Aeon is a good man, Lady Katarina.

Maybe give him a chance, get to know him.

” “Well, that’s the problem.

I’ve been betrothed to this Alpha for more than six months now, but I haven’t seen him even once.

It’s either he looked scarv or he’s not interested in “I reckoned it was the latter,” Sofia said in a nonchalant matter.

“Because I’ve heard from my friends that he’s good looking, as in hot, hot!

” “When are you turning eighteen?

” My Beta asked her.

“Four months from now.

And why, should I expect a gift from you?

” He chuckled.

“Too bad, I was thinking since it looked like you’re smitten by Alpha Aeon, maybe you can take Lady Katarina’s place on the Claiming but then you’re not eighteen yet by then.

” My brow raised as I listened to my Beta.

He made it sound like he was teasing the young female, but I could sense the annoyance in his voice.

I felt there was more than what he was trying to show.

And it seemed to me that the young lady had a crush on my Beta too, from the way she was stealing glances at him.

If anything, it would be better if they ended up together, because I was sure that my Beta had no chance with Jacob’s sister.

Three Days After.

NADIA I took my time descending the stairs because I was wearing a midlength-length dress.

I would be having driving lessons with Riley and I know I should be wearing something comfortable, but I wanted to look a little extra today, so I opted for a bright yellow sundress.

‘Are you alone in your office?’

’ I asked him through our mind link, just to make sure I wouldn’t be disturbing him if he had something going on inside his office.

‘Yes.

Just come in.

’ He answered, and I didn’t reply anymore as I made my way to him.

I pushed the door open and my eyes found him sitting on his chair with a phone in his hand, and my eyes rolled automatically, a smile forming on my lips as I walked towards him.

He put the phone down and just watched me approach him.

“Should I be offended that you’re still watching those even if you’re having s*x with me every day?”

” He chuckled and pushed back his chair, opening his arms widely so I could take my place on his lap.

“I just need an extra tip for tonight.

” “Extra tips?

I don't hear myself complaining about what you're doing to me.

” I told him as I pressed my back against his torso.

“But tonight is a full moon.

” “And?

As long as I get to have you inside me, I'll be satisfied.

” “Really?

” He dipped his mouth into the nook of my neck, making me tilt my head to the side, giving him full access as he nibbled and sucked my soft spot while his arms snaked around my waist, pressing our bodies closer before his hand traveled down to my thighs, caressing them gently.

“But your stamina during a full moon is different.

” “So the big, bad Alpha can't keep up with his mate?

” “On stamina, I can.

But I want to try different positions and different strategies, so you won't get bored.

” “Bored?

” I pulled away from him and turned half of my body around, my lips trying to suppress my laughter.

“Boredom is too far from my mind when I get dirty with you, Alpha.

What were you even thinking?

” He smiled sheepishly.

“Because you deserve the best.

” “And I got the best.

” And I mean it.

A red tint started to creep on his cheeks and I found it adorable.

And I wanted to push a little more, "You could just be standing in front of me, with or without your clothes on, and make me wet and h***y in an instant.

" I bit my lower lip.

I was teasing him, but the moment the words came out of my mouth, I felt my slickness gushing out, just picturing my mate naked in front of me.

"You and your mouth.

" He grunted, gritting his teeth, and I knew he was fighting for control.

His d**k was already rock hard under my a*s.

I licked my lips before I answered him.

"Are you complaining about my mouth?

Last night you were all praised for what my mouth was doing to you..." "Nadia..." He cupped my jaw harshly before he pulled me towards him, crushing our lips together and kissing me bruisingly hard as if he wanted to destroy my mouth.

I wrapped my arms around his neck, coiling my fingers in his hair as I kissed back at the same intensity that he was kissing me, my lips trying to fight for dominance even if I knew I could never win over the way he was dominating my mouth.

"Hmmm..." I moaned as his tongue parted my lips and thrust inside my mouth, exploring and savoring all of me.

I felt my core clenching and I was so close to rubbing myself against him, but I knew if we didn't stop, he would end up taking me on his office table again as we did yesterday.

Not that I mind, but it's only ten o'clock in the morning and we just had s*x hours ago.

My p***y was still tender.

I placed my hands on his chest and pushed my body away from him, breaking our kiss.

"No..." His eyes were still closed as he tried to pull me back.

"We have the whole night later.

I need my driving lesson.

” He grunted before he let out a defeated sigh, and I pouted my lips, not liking that I had disappointed him.

“Are you mad?

” “No.

Let’s get to the car and start driving.

” “Wait, no theoretical lessons?

Like parts of the car and safety measures?

” “No.

I don’t have time for that.

” He chuckled as he stood up from his seat, taking me with him.

RILEY.

“I didn’t know driving lessons meant I got to sit on my instructor’s lap on the first day?

” Nadia said, giggling after I positioned her on my lap.

I had chosen my biggest car, pushed the seat back, and adjusted the steering wheel to give us ample space, just enough for her to sit comfortably on my lap.

It’s not really the best car to use for a beginner, but I had no intention of teaching her anything today.

I just wanted my hands on her.

“Well, you’ll be sitting there until you learn how to drive.

” “Riley!

How would I learn?

I don’t even know what I should do, or what to press here.

” “We’ll just play today.

I’ll take care of the pedals, which means acceleration and braking.

Just mind the steering wheel.

”
.

She spun her head around, her eyes widening as she stared at me.

“You’re not taking me seriously.

How would I learn anything if you’re just making me play with this?

” She tapped the steering wheel, and I couldn’t help but chuckle.

“We can start the real lesson tomorrow.

And make sure you wear jeans.

If you wear another dress or skirt, you will end up in my lap again.

Now drive.

” I started the engine and let go of the brake pedal before pressing it again, jolting the car forward and causing Nadia to panic in my lap.

“Wait!

” She let out a deep breath, her hands gripping the steering wheel tightly.

“Okay, now I’m ready.

” A smile etched on my lips as I tapped her hand.

“Relax.

You don’t need to grip it hard.

” Her hold loosened, and I slowly pressed down on the accelerator and moved at a steady pace.

“Riley...” Her voice was soft, but it was laced with worries.

“Just straight ahead... You’re doing great.

” I whispered to her before I licked the space below her ear.

“Not fair!

” She exclaimed, her body stiffening as she tried to hold the wheel steady while my hands grazed over her thighs.

“Hmmm...” I started peppering her neck with soft kisses and I knew she was getting distracted already “Riley.

.

.

You don't fight fair.

” Her voice came out low and raspy.

“I will have Jenny teach me to drive next time.

”

THROUGH THE EYES OF MY ALPHA by Cassandra M Chapter 49

THROUGH THE EYES OF MY ALPHA by Cassandra M Chapter 49 NADIA. Tonight was a full moon, and I stood beside Riley, watching as the male pups about to shift crumbled in agony. I remembered my own shifting, and although Alpha Darvin and his Gamma were there, it did nothing to ease the pain. And I honestly had no idea if I should be doing anything or something to console or help them.

join telegram for latest update This was one of the reasons I didn't want the Luna ceremony yet.

I had no idea what the title entailed or what was needed of me.

All my life, I was just told what I needed to do, and when I did something wrong, I would be punished.

And I didn't want what I had with Riley to end this way.

I didn't want to disappoint him.

I didn't want him to change his mind about me just because I couldn't perform well as a Luna.

So I took learning things seriously.

I had spent my days learning about the pack, how big the territory was, the traditions and customs, and the people.

But somehow, it felt like what I was doing was still not enough.

And I have to do more.

“Shouldn’t we help out?”

At least console them.

” I asked Riley in almost a whisper, my eyes not leaving the male pup who was crouching on the ground holding his stomach.

Riley snaked an arm around my waist and pulled me closer to him before he spoke in a low voice.

“Sebastian and his team are handling that.

Of course, you can help and console the pups, especially if they are females.

But let the males take in all the pain themselves, it would make them tougher.

” I just nodded my head, hooking my arm with his.

And since there were no female pups shifting tonight, I just remained beside the Alpha for the rest of the night, watching as one by one, the male pups shifted into their wolf.

“We will start the run soon.

I’m not sure how it works on your pack, but I will give the signal through a howl and I will be the first one to run.

You, as the Luna, will run after me before the Beta follows you.

The rest of the warriors and the newly shifted pups will follow after him, and lastly, the Gamma will be behind the rest.

And since Jenny is here tonight, she would run with Sebastian.

” “Okay... Should we shift now?”

” I asked him excitedly.

This would be my first run with a pack of wolves, aside from my first run when I shifted at eighteen.

“Yes.

And Nadia, run right away after I ran.

I want you to run beside me, not behind me, okay?

” A wide grin curled on my lips at his words.

He was letting me know that we were equal, and I couldn't help the butterflies fluttering in my stomach.

My hands went to the hem of my shirt and I was about to tug it upward when Riely's hand stopped me.

“What are you doing?

” “Taking my clothes off.

” “Not here, behind the tree.

” “And why not?

You were about to strip off too.

” “Nadia, I'm the Alpha of this pack.

I can't go and hide behind the tree before shifting.

” He told me in a hushed tone, frustration showing on his face, and I couldn't help but feel a little bad for what I was about to say.

“Well, I will be the Luna of this pack.

I can't go...” “Nadia...” His eyes were blazing with fire, and I could see Hunter behind them, and it just made me roll my eyes at him.

“It's not fair you go around naked for everyone to see.

What do you think I feel?

” A low growl vibrated from his chest as everyone's attention turned to us, and I suddenly regretted pushing Riley to his limits.

I smiled at the rest and was about to turn around and make my way behind the tree when I felt my body being hoisted up and placed on my mate's shoulder.

“Riley!

" I hissed at him, but he seemed to be in a trance as he walked us behind one of the big trees.

He placed me back on my feet and let his body hover over me.

His hands pressed against the tree, caging my body in between his arms.

"Don't try to push my patience like that again, Nadia.

I can handle any jokes or games, but not of you being naked in front of other males.

I'm not sharing you or the sight of your body with anyone if I can help it.

You're f*****g mine!

" His face was leaning closer and I could feel his peppermint breath fanning over my face.

Instead of being scared, I could feel myself getting aroused by the anger I saw in his eyes.

"Do you understand that?

" "Yes, Alpha..." I answered.

My throat just suddenly felt dry.

But even after I replied to his words, he was still staring at me with his eyes swirling in black and was not moving from his position.

'Alpha, Luna, we need to start the run, or should we go without you?

' Gamma Sebastian's voice rang in our heads, and Riley pulled away from leaning on the tree.

'We'll be out in seconds.

' Riley answered him as he moved back, giving me ample space.

"Now take off your clothes and shift.

" He ordered me as he took off his shirt and pulled down his shorts, his hard c**k springing free as he did and my throat felt drier.

He was standing naked in front of me and I was gawking at him as if I was just seeing his naked body for the first time.

Arrow was howling in pleasure, and I couldn't stop myself from licking my lips.

"Nadia... shift.

" I gasped for air, embarrassed with my actions before I hurriedly took off my clothes, throwing them where Riley's clothes were and summoning Arrow to surge forward.

And in seconds, I was already on my paws, and Riley followed suit, letting Hunter out.

RILEY.

I howled to the moon, a signal that the full moon run would start, and began padding my paws on the ground as I let Hunter launch us into a run.

Seconds later, Arrow was already running beside me, and I couldn't help but stare at her from time to time.

I was still in awe at how beautiful Nadia's wolf was.

I needed to find out more about her family.

Maybe her father was still alive.

I put the thoughts aside for the time being to enjoy the feel of the wind against my fur and the serenity of the night with Nadia and Arrow's scent swirling around me.

This is life.

And I hope moments like this will never come to an end.

We were running towards the middle of the forest, aiming for the southern border, and I could sense more wolves joining the run, which was an ordinary occasion.

The full moon run would always start with just the rank wolves and the newly shifted pups, but everyone was welcome to join in along the way.

And in no time, the pack of wolves running grew in numbers.

We were almost at the last turn before we headed back when Nadia's heat scent hit me and it came in full force.

I had to control Hunter from growling and stumbling on his paws because he wanted to leap towards Arrow.

'Beta, take the lead.

' I didn't need to explain further as his wolf, Pyro, increased his pace until he was ahead of me and Arrow.

'Slow down, Arrow...' I mind-linked Nadia.

'Riley...' Nadia's voice was panting, and I knew her heat was already starting to cloud her senses.

Arrow slowed down and I nudged her to turn in the other direction from where the other wolves were heading.

And now that we were alone, it was harder to control myself.

Her scent and the smell of the forest were amping up my desire for her, and I knew we wouldn't make it home.

I had to have her right here and now.

When I found the spot where we could stay, Hunter leaped high and caged Arrow on his paws, making them fall and roll over to the ground.

Hunter was hovering on top of Arrow as he began licking her face and neck while I fought my hardest to take over.

There was no way I would let Hunter mate with Arrow before I've had my fill of Nadia tonight.

Arrow shifted and it was now Nadia spread out naked on the forest ground.

A low growl vibrated from Hunter's chest as he swiped his tongue over Nadia's p***y, making my s**y nymph whimper and giggle at the same time so that I couldn't help but chuckle as well.

F**k!

She looked too s**y and innocent at the same time.

I didn't have to force my way out.

Once Hunter was done swiping his tongue over Nadia's core, he gave me back control and shifted to my human form.

I was now hovering over my mate, my hard c**k, pistoning over her mound as her arousal was evident in the air mixed with her sweat heat scent.

"Someone is excited.

” I taunted her.

“Me?

” “I can smell your arousal, Nadia.

” “I’m a female, Riley.

Of course, I have my needs.

” “And I’m a male.

I have my needs too.

Now be a good female and open those legs for me...” I didn’t need more words as my lovely temptress opened her legs wider and pressed them against her naked chest, caging her bouncy b****s.

“Can I f**k you here, baby?

” My hand was already on her p***y, rubbing and opening her wet folds.

She was leaking heavily, and her warm juices were already coating my fingers.

Her eyes were beaming with l**t swirling around them as she nodded her head and licked her lips.

I know I should have been pleasuring her first and doing the f*****g foreplay like I always see in those f*****g videos, but my hormones were raging and I just wanted to bury myself in her, so I threw everything I’d seen and learned in the last few weeks and just did what my body wanted me to.

My hand cupped the back of her head and pressed it closer as I crushed our lips together, and without any warning, I thrust my c**k into her brutally.

Her body jolted and stiffened at my intrusions, and I felt her stretched to her limits, but it didn’t take long before her p***y relaxed around my d**k, and it was only then that I started rocking my hips back and forth, slowly at first before amping up my speed, until I was slamming in and out of her in a deeper and faster stroke.

While my mouth continued assaulting hers, kissing and biting her hard, knowing fully well, that by the time I was done with her lips, they would be swollen.

“Am I hurting you?

” I asked in between our kisses.

“No!

No!

Please don't stop!

” Her cries of pleasure were enough to keep me going, driving me wilder, as I grunted and groaned with every thrust.

“Oh, Riley!

Yes!

” Sweat formed on my forehead, my eyes enjoying the look on her face as she took in everything I was giving her.

“Still f*****g tight, baby...” I hissed before I dipped my head and captured her breast with my mouth, sucking and playing with her hard nipple with my tongue, while I continued to pounce into her.

“Oh, Goddess!

” She moaned loudly and I could sense her body was starting to stiffen, making way for her release, but I didn't stop f*****g her wildly until her body shuddered with the force of her o****m.

A smug grin slowly crept into my mouth, enjoying the ecstasy written on her face and the way her body was squirming under me.

We were just starting.

THROUGH THE EYES OF MY ALPHA by Cassandra M Chapter 50

THROUGH THE EYES OF MY ALPHA by Cassandra M Chapter 50 NADIA. After one round of mind-blowing s*x, we decided it was time to head back to the pack house and continued our tryst in our bedroom. Because as soon as Riley spent himself on me and poured his seeds into my womb, we caught the scent of the wolves approaching and rolled over behind the bushes and hid.

I was pretty sure they might have smelled s*x in the air and sensed our presence when they passed by.

And I couldn't help but giggle as I got more aroused.

The thought of almost being caught was exhilarating.

join telegram for latest update As soon as the pack passed by, we shifted into our wolves and took a different route back home.

We went in by the back door, and as soon as we were in the corridor leading to the stairs, Riley lifted me up off the floor.

His hands cupped my a*s and coiled my legs around his naked waist before crashing our lips and bodies together.

We were kissing and biting, our hands busy tugging hair and skimming over each other's naked bodies as he made our way up to the fourth floor.

Everything about the sexual act was intensified tenfold tonight.

I was salivating for Riley.

I always had, but tonight, like the other full moon nights, I wanted more of him.

We were by the third-floor stairs when loud whimpers and grunts were heard that Riley almost missed a step.

I giggled while clamping my hands over his ears while urging him to move forward and rush to our room.

It was probably the Gamma couple that was satiating their heat and hadn't made it to their room yet.

Riley carried us to our room, kicking the door shut as we entered and allowing me to stand on my own.

And as much as I wanted to dive onto the bed and be eaten whole by my Alpha, we were covered with earth's filth.

So I ran to the bathroom and opened the shower.

Riley went under the shower with me, and in no time, we were already wrapped up with each other as our kisses became heated while the water cascaded down on us.

He pulled me away from kissing him and spun my body around, resting my palms against the tiled walls before he yanked my leg up, opening my core before he palmed and massaged my throbbing p***y, "Riley..." I was moaning in no time.

I closed my eyes, with my lips parted and my head resting on his firm abs as I let his hands touch every part of me.

He positioned his thick c**k behind me, and I knew he was once again ready to plunge into my p***y, but I wanted him in my mouth.

"Wait, babe..." I groaned before I pushed myself off the wall and turned around.

His brow furrowed as a grumble rose from his chest, not liking my action, but I didn't mind him.

I rested my palm against his naked torso before pushing him to the other side of the shower area, resting his back against the tiled walls before I dropped onto my knees.

"Nadia..." He grunted as his hand coiled around his e*****n and started jerking himself.

I tilted my head up and saw him watching me.

I offered him a seductive smile before licking my lips, as I positioned myself near him, preparing myself to pleasure the god before me.

I woke up with a feeling of sparks running through the sides of my body, and I flipped my eyes open to see my mate staring at me.

His fingers were skimming through my skin, touching every part of my body, from the nook of my neck to the valley of my breast to my navel, and everywhere he could reach.

"Good morning, beautiful.

" As he reached for my cheek, he licked his bottom lip, brushing his thumb against the corner of my mouth.

"Good morning, handsome," I greeted him back as he leaned closer and captured my lips, giving me a searing kiss.

"What are your plans for today?"

" He asked me after we kissed, and we just lay there hugging each other.

"Hmmm... I will ask Jenny if we can drive around after breakfast.

I don't have training until the afternoon.

” “You don’t want my help with driving?

” A smirk crossed his face, and I just couldn’t help but roll my eyes at him.

“No.

You basically harassed me while I was trying to learn.

” “Harassed you?

You were tempting me, my love.

I was just a man who couldn’t say no to his female.

” I chuckled and coiled my arms around his neck, my gaze memorizing his prominent jawline and his perfect sculptured nose.

“And you, mister Alpha.

What are your plans for today?

” “Aeon will drop by before lunchtime, and after that, I will...” “Wait!

” I stopped him from talking, “Aeon?

As in Alpha Aeon?

Katarina’s Aeon?

” He chuckled and nodded his head.

“What does he need from you?

” “We’ll just look over the possibility of renewing the alliance.

He’s not yet the Alpha of his pack, but he’s been doing everything for the past years and I would rather discuss things with him than with his father.

” “Hmmm... Is he going to visit Katarina too, since he’s here already?

” “I’m not sure.

” “Maybe you can ask him.

Katarina needs to meet him.

” “Nadia, there are things I couldn’t just walk over with.

I could ask him about Katarina if that bothers you.

” “How about Alpha Jacob?

Will you not be renewing an alliance with him?

Jenny told me there’s bad blood between the two Alphas.

” “There is.

But it’s between them, they need to settle it.

As for our alliance with Jacob, the f****r wanted me to get back on my feet before he conduct business with us, but he has always provided help and back-up if needed.

So we didn’t need any contract to bind us.

” Doggo.

RILEY.

“Go pay the f****r a visit.

It’s been a year.

I’m sure he has calmed down already.

“Man, I’ve tried.

Jacob won’t budge.

Did you know that my car can’t even approach the forest road on the way to his territory?

He has men scouting those areas, and they would stop me right away.

So there’s no f*****g away I would be able to reach him.

” “But are you over her?

” “What do you mean?

Clair?

” I just nodded my head.

“Way over.

It’s not f*****g easy, but what’s a man got to do?

” “Can you f*****g explain to me why you tried to take Clair from him?

” “It wouldn’t be a problem if the f****r told me or everyone else she was his f*****g fated mate!

Two galas, we were there together.

He knew I had my eyes set on Clair, but he didn’t say a f*****g word!

All is fair in love and war unless the female happens to be your fated mate.

So what did I honestly do wrong?

” “Your father did.

You knew that!

” He let out a sigh as he stood up from his seat and walked over to the window, looking at the forest line outside.

“You can’t choose your father, unfortunately.

” I snorted a laugh before I added, “I’m f*****g aware of that.

” “But I keep saying this, and I will keep saying it.

I was not aware of the abduction.

I went to the Claiming, just to intercept Clair.

Because that’s the f*****g privilege of the Claiming.

” “And what if somebody comes at the Claiming and tries to intercept Katarina from you?

” “I’ll give them a good fight.

” “You want her.

” “I don’t know.

” “But why her?

” PA “I needed a Luna or I would be stuck in my father’s shadow for the rest of my life.

After this Clair fiasco, he hasn’t warmed up to me, blaming me for not marking Clair on the spot after I defeated Beta Gavin.

But I would never, ever f*****g force-mark anyone!

I threatened her, but I would never do that.

” I cleared my throat because I was f*****g guilty of the same thing.

I threatened to mark Andrea in front of Caspian, but I never had any intention of doing it.

“I’ve been running our pack for the last three years while my father took all the glory.

I was getting tired of this.

I’m so f*****g close to challenging him for the Alpha post, but I still want to respect him as my father.

But once I had a Luna, he would step down.

So I didn’t need to go that way.

” “But you still didn’t answer my question.

So why choose Katarina?

You picked her and yet you didn’t even have the audacity to visit or get to know her.

” “It’s purely business.

I didn’t want to put any emotions between us.

I was given a list of single Alpha Females and nobody caught my eyes.

” “Except her.

” “No.

Not even her.

The only reason I chose her was that she’s Darwin’s sister.

” “And?

What if she’s Darwin’s sister?

” .

“The agreement is between me and Darwin.

That’s why I didn’t want any emotional attachment.

” A smug smirk was plastered on his face before he pointed a finger at me.

“And you will never know anything about that.

”
