Rosé pov..

I'm here at the other table drinking wine while listening to my friend's stories but I can't help but look in lisa's direction I don't know how I'll feel now I just want to enjoy this night so I tried to just ignore them...a er minutes later I'm already tipsy when Suzy suddenly stood beside me.

"I've never seen you show so much skin! You look hot Roseanne." Suzy winked in my direction to which I instantly blushed deeply as they all stared at my skin tight dress that showed o as much legs as it did cleavage.

"I don't know what your talking about because Hyeri always forces me to wear skimpy dresses when we go out drinking?" I crossed my arms, feeling uncomfortable by all the stares.

"You know Rosé." Suzy started. "If you was lesbian I would definitely be ripping that dress of your body right now." She licked her lips to which I instantly grabbed my handkerchief and throw to her face. She caught it and burst out laughing.

"I'm joking, I'm definitely into brunettes." I noticed Hyeri in front of me nodding along with Suzy and I rose my eyebrows in wonder. She'd never mentioned flings with girls but I sometimes thought she was giving subtle hints to that she liked them. I shrugged it o , Hyeri would always tell me when it came to her love life, sometimes too much detail included.

"Let's go." Sana headed out towards the door so we instantly followed, Suzy grabbing her keys of the counter with a frown. I laughed at her and she instantly gave me a glare.
