When I arrived at my apartment I was about to get out of my car when suddenly I noticed something on my side where Lisa was sitting earlier..I saw her simple t-shirt I immediately took it when I touched it I felt it was wet.maybe it because of the rain earlier I smelled her t-shirt I closed my eyes feeling her scent like when I hugged her earlier her scent is like drugs and I'm addicted to it her scent can hypnotize me.. while i smelled her t-shirt there was a sudden knock on my window i opened my eyes and i looked out the window i saw my butler standing outside my car with an umbrella i took my things while i held lisa's t-shirt. well this thing it's already mine!

I went out of my car my Butler immediately supported me until now it was still raining.

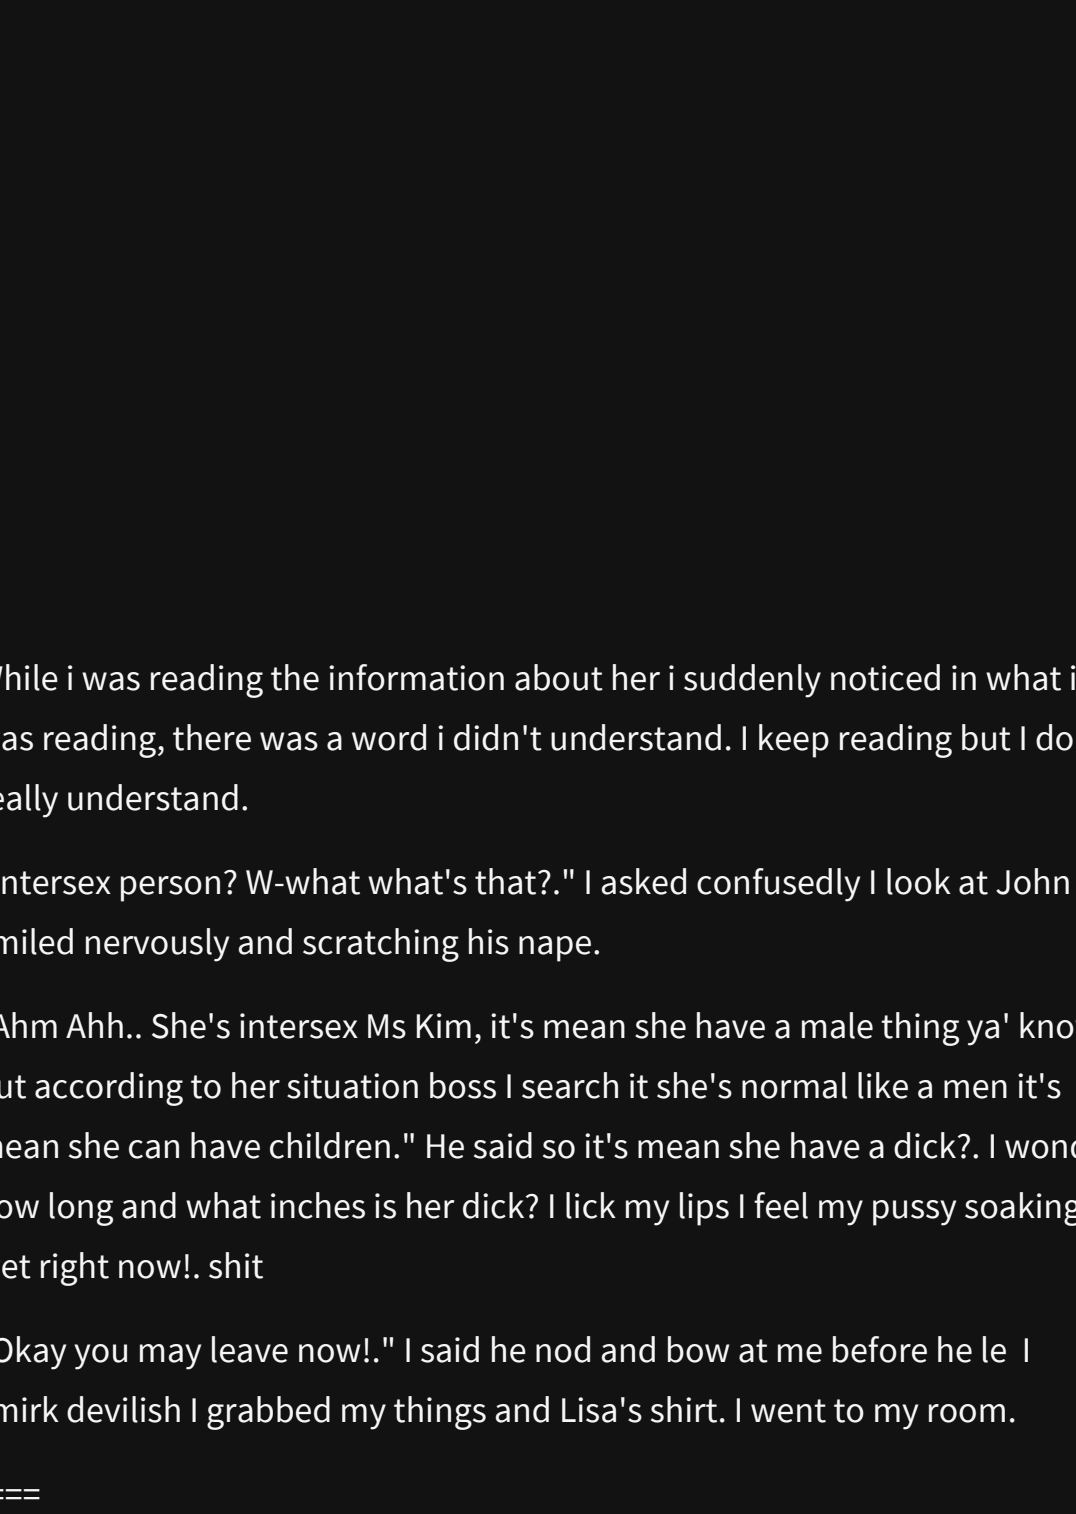

"Ahm Ms Kim, John is already here his waiting for you young lady." He said while his guiding me I just nod as soon we enter inside of my apartment I saw John sitting on the couch he stood up when he saw.

"Good evening Ms Kim, this is the information of Lalisa Manoban." John said he bow at me before he handed the white folder to me I quickly took and opened it. I read the information about her

Lalisa Manoban.

Lalisa Manoban a simple girl who's working student..her families only work on their farm so they can have something to eat every day, Lisa she's working really hard for their family, and she's also who pays for her sister education. Hmm so she's working student huh?. interesting.

In her look she's not obviously poor or simple girl..for me she seems to come from a wealthy family. well it's doesn't matter.

While i was reading the information about her i suddenly noticed in what i was reading, there was a word i didn't understand. I keep reading but I don't really understand.

"Intersex person? W-what what's that?." I asked confusedly I look at John he smiled nervously and scratching his nape.

"Ahm Ahh.. She's intersex Ms Kim, it's mean she have a male thing ya' know but according to her situation boss I search it she's normal like a men it's mean she can have children." He said so it's mean she have a dick?. I wonder how long and what inches is her dick? I lick my lips I feel my pussy soaking wet right now!. shit

"Okay you may leave now!." I said he nod and bow at me before he le I smirk devilish I grabbed my things and Lisa's shirt. I went to my room.

"Good morning Ms Kim your clothes is ready. and the breakfast is ready too." He said and bow at me I nodded my head before I stood up.."I will not eat breakfast here, I will eat outside with my friend of mine." I said in cold tone he nod nervously before he le I just sighed and grabbed my clothes and my things before I went inside the bathroom and do my morning routine.

A er 20 minutes I'm already done fixing myself I'm here in front of the mirror looking at myself I just wanted to make Lisa drool over me. I smirk thinking she will be mine later.. Lisa's POV..

When I got out of the hospital and the rain kept pouring I cursed myself because I forgot my bike at Somi's house and I also didn't have an umbrella.so I took a deep breath and ran away.

It was raining heavily the street lights had gone o well it's already morning but the street still dark and I was walking. Suddenly I heard a sound behind me. I looked back but no one was there. I started walking again. Again I heard a sound. This time I was sure I'd heard a cry of pain. I took my cell-phone and switched on the torch-light and started flashing it around. I noticed that the sound was coming from the le side. I was frightened but I took courage and went towards the sound what I saw gave me goose bumps. A man was lying in a pool of blood and his leg was crushed under a huge tree. On asking he told me that he had stopped under the tree and was waiting for the rain to stop but the rain continued pouring when suddenly out of the dark two men came on a bike. They robbed him of his valuables. When he cried for help they shot him. As if it was not enough a storm started blowing immediately. The old tree could not stand against the raging storm. It was uprooted and his leg was crushed under it as it fell. I immediately called the ambulance because I could not li that tree up. The ambulance arrived within no time. The people came and helped the man out of that painful experience. They li ed the tree with lots of labour put the man in the ambulance and took him to the hospital. I felt happy and contented that I had saved a life.
