

UNEXPECTED TEMPTATION: BILLIONAIRE LOVE STORIES CHAPTER 250

Chloe Regens

"How can this place is so beautiful?" I said and can't stop admiring the beautiful view. Looking at the beautiful view and wishing that I can live here forever.

"Nature." Zac said beside me and I turned to him.

"I think I know why you like to stay here." I said.

"Yeah.. We can't find this in New York. The air, the view and just everything in here is beautiful." Zac said and I chuckled.

"You often go here?" I asked.

"2 times a week." He showed me his finger.

"I envy you."

"You can visit us everytime, we're here." Zac said and I nodded.

"Will do." I smiled.

We stayed there for 30 minutes and we have to get back because the sky is giving us a hint that it will rain.

"We have to go.. let me lead you guys since a little bit tricky, I think I can't have you in my back Chloe. Do you mind riding with the others?" Zac asked and I nodded. I walked to Ken and he looked at me with a questioning eyes.

"What?"

"Can I ride with you?" I asked.

"You're heavy" He commented and I glared at him. I turned my body but he caught my wrist.

"I'm kidding, geez." He said, I turned to him smiling.

"Help me." I said pointing at the horse. He rolled his eyes and he put his hands on my waist picking me up to help me get on. I got on the horse too but he sat in front of me. I hold on to his jacket because I already feel my heartbeat raising up when he's being so near to me.

"You will fall if you hold Ken like that." Aaron said and I turned to Aaron.

"Hug him, we don't want you to get a scratch." Rose smirked and she went to the front first. I slowly circled my arms to his hips awkwardly. Suddenly Ken held my hand and tighten it.

I gulped nervously as I felt his body stick to mine. I picked the wrong guy.. I regret this. He began to move his horse. I swear he ride crazily. I buried my head to his back.

"You okay?" Ken asked.

"Do you think I'm okay?" I answered but he doesn't slow down the pace. He got more faster than before and I swear I won't ride with Kenneth again.

After riding it for 30 minutes, we arrived back. I guarantee that my face is so pale right now and I might puke. Ken got down first and he helped me to get down.

"You okay?" He asked the same question.

"Do I look okay? You ride it like you're on a race." I said.

"You okay Chloe?" Alissa asked and I shook my head.

"Here drink." Sebastian gave me a bottle of water.

"You're evil." I said after drinking a half of the bottle. I glared at Ken.

"Well you pick the wrong guy."

"Next time I won't pick you." I hissed and he chuckled. He ruffled my hair and laughed.

"I'm sorry okay? Don't be mad kid." That's it. I elbowed his stomach and he groaned.

"I'm not a kid, should I record that and make it as your ringtone so I don't have to repeat it for you?" I bursted and they laughed at Ken.

"Feisty." Albert walked to us.

"Are you on your period?" Ken asked.

"You did not just asked a girl that." Hailey said glaring at Ken.

"Do you want me to elbow you again?" I asked Ken.

"Okay there Chloe, no need to be feisty. I'm joking." Ken said.

"Don't mess with a tiger." Sky patted Ken's shoulder. They all walked to the resting place to take off the safety gear until I was left alone with Ken.

"You're annoying." I commented and he looked at me.

"I'm not.. why are you blaming me?" He asked like there's nothing happen.

"You ride your horse madly, it's like your horse drunk."

"We're going downhill Chloe, I can't control the speed. We made it out here alive is sure a blessing." I pouted and looked at him. He opened his safety gear one by one.

"I'm sorry.. don't be childish and being mad at me when we're on a vacation." He pulled my arms taking off my safety gear.

"Do you want me to punch you right now?" I asked.

"You punch like a girl."

"I'm a girl moron.. what do you think I am?" I asked piss.

"Oh yeah.. You're a girl. You kissed me so you're a real girl." He didn't just brought up the kiss again.

"Don't say that."

"What about that?" He asked innocently as he kneeled in front of me taking off my knee safety gear.

"That.."

"What that? Ohhh the kiss? Our kiss? Our first kiss?" He teased and I smacked his shoulder.

"Don't say that loudly!" I closed his mouth.

"Askdiahlwifuebdowsi" I don't hear what is he saying because I cover his mouth. Suddenly he licked it and I looked at in disgust.

"Disgusting." I commented.

"So you want to repeat the kiss? Or should we go straight to-"

"Don't you dare continue that sentence Ken.. if you dare to contin-"

"Straight to bed.. oops." He continued it! I'm mad.. more than mad to be honest.

"You pervert!" I stomped his feet hard and he groaned in pain. I walked away but he caught my wrist. He ruffled my hair and ran away.

"Hey!"

"What a turtle!" He teased.

I want to kill him.
