

## UNEXPECTED TEMPTATION: BILLIONAIRE LOVE STORIES CHAPTER 264

Kenneth Domanco

18 years ago..

"Jump Nic! Crawl! Jump!" My dad shouted.

Ordinary kid when they're 12 years old, they're having fun playing and eating.. basicly enjoying life but I was never like that. When I turn 11, my dad trained me to be a strong kid.

I might be the heir of the most richest and successful billionare but I have a hard childhood. My dad trained their kids to be a really strong people. For what? I don't know at that time.

I'm the youngest, I have 2 sisters and 2 brothers above me. Josh is the first child and he's 20, Marie is the second and she's 19, Cassie is the third and she's 17, Leo is the fourth and he's 16 and I'm 12.

We trained like we're going to get into FBI, since I was 11. I used to run 5 km everyday. For a 12 years old kid that's crazy, I trained in a special arena that my dad design for every each of us.

That's why my siblings have a really nice body and not to mention that they have a really beautiful and handsome face. The fact that we're the Lemiere makes us two times more special than anybody else.

"Nicholas!" I ran 2 times faster reaching the finish line and I immediately fell down as I get to the finish line.

"Good!" My dad said and he reached for my hand picking me up.

"Are we done dad?" I asked and he smiled. He hugged me.

"Do you want more?" He asked and I shook my head. He ruffled my hair and pushed me to get inside the house. I ran inside and threw myself to the sofa.

"Nicho.. come here." My mom called and I sighed. Getting up and walked to the kitchen.

"Yes mom?"

"I made your favorite." She said showing me my favorite chocolate shake, before I can take it. My dad stole it and sipped it.

"Dad!!"

"Adam don't be mean!" My mom smacked my dad's arm and he chuckled. He gave it to me and I glared at my dad.

"Who's turn after this?" My mom asked.

"Cassie."

"She's not home yet, Leo first then." My mom said as she ruffled my hair and then wiping my sweat. My dad pressed the blue button on the wall.

"Leonardo!" He called.

"Yes dad?"

"Let's train." He said.

"It's Cassie's turn now."

"Come down boy." My dad said and a moment after that I heard Leo came down.

"Oh dad.. it's Cassie's turn." Leo protested.

"If you say that again, I'll make you train for 3 hours today." He said seriously.

"Fine, let's go."

My dad trained all of us first and then he trained by himself. My dad gave my mom training too but not as hard as us. I always ask what do I train for but my dad kept saying that it's for my own good and for health.

As the time goes by.. when I turn 13, my dad gave me a gun. A gun, grenade, knife and things like that to train. He always giving me a mindset that this thing only allow when I have emergencies not for fun to bully friends at school.

I found out that not just me and my siblings but all my families who has a Lemiere as their last name train as hard as me. My cousins have the same struggle as I am so I can't protest about my training. I trained everyday except Saturday. My dad takes that time to spend time together as a family.

I know love, I feel it when I was little but they're gone. All my families were killed by Juven, I'm the one and only Lemiere left. After my family was killed, I ran away and almost got killed but I made it.

Going to the secret house and took my box, there's money, passport and all new identity there. I took all my sibling's too and ran away from LA. I ran to Miami and then to New York and changed all my names and things like that. No one survives beside me and I'm completely all alone.

I built my life back up and tried to find my family but none. All of them were dead or maybe creating a new identity like me. I looked for them for years but when I'm 18, I found out that they're all dead and it's just me all alone.

Living in this evil world all alone, trying to get my life back isn't easy. I know I can't be down all the time and I started to remember every little things that my parents said.

I got my life back up and decided to build a new empire that much bigger than my dad's. Building Domanco Company isn't easy, I learn a lot as it goes. I build Domanco to make a revenge in the name of my family Lemiere.

Then Chloe come.. I met her when I'm 20 and yes she's already beautiful when she's 12. She might a little but chubby but she's cute. When it comes to her, I have my protecting instinct 2 times more than I used to. I don't know why I have it.

Meeting her again after 10 years got me shock because she turn to a beautiful woman. Beautiful, proper, educated and lastly sexy. When she's near me, I felt weird and excited. My blood was rushing 2 times faster than usual and I can't be mean to her, I can't be cold like I always use to do to other woman.

She's special.. more than special but I need to control myself before I can't handle it anymore. Not to mention that we kissed before makes it more difficult.

I like the fact when she likes me but I can't be with her. I can't, I will end up risking her life just like my family. My dad is a strong, smart and responsible guy but he loses his family.

I don't want that to happen to me again, I rather see them happy than seeing them experience everything that I experience.

It's a curse that I can't be happy and be an ordinary person because I'm no ordinary.. I'm a Lemiere, since I was born I'm far from ordinary..
