

UNEXPECTED TEMPTATION: BILLIONAIRE LOVE STORIES CHAPTER 329

Valentine Regens

I'm happy that I get to sleep for 2 and a half hours while they prepare the bonfire. I charge my body a lot and I feel fresh again. Today's bonfire is only about jamming together , talking and just having a chill night.

Leah talked about Christmas when we were hiking , she's asking me if I want to go to New York to have fun there. Not on Christmas night but on the 28th until New Years eve. I told her that I always have a tradition on Christmas with my family to go to LA so I can't skip Christmas. It's a must list every year.

"Let's go" Leah pulled me out from my tent , I walked out and followed her towards the bonfire. I sit between Harry and Leah , we're jamming to latest music such as Cold Water , This is What You Came Here For , Star Boy , 24K and a lot more.

I really love enjoying time like this and I really love the vibe of it. After jamming to music , we talked about funny stories , horror stories and things like that. We all talk about our future career. Our dreams and jobs and things like that.

My mom said that highschool is the best time of your life because when you go to college.. everything will change and let's not forget that it will make you busier.

"Let's sleep.. I'm sleepy" Leah said and I nodded. Walking to our tent and I lay down inside. Plugging my earphones and playing slow music.. closing my eyes and hoping sleep will come to me..

After a few minutes.. it didn't come to me. I looked at the time and it's 1.43 in the morning. I decided to walk out from my tent and see everyone is already asleep. I remember the place where I went with Joey. I really want to spend time there because the view is so beautiful and it only took 10 minutes to get there.

I walked by myself with slow music blasting in my ears.. Walking here alone is not easy. I slipped a couple of times but I managed to pass it.

As I arrived.. I can't stop admiring the view. The lights and don't forget the moonlight. I sit there and plan to go back in 20 minutes so I can get some sleep. Listening to So Close by John McLaughlin is really making the vibe so warm by listening to his sweet voice.

Suddenly someone poked my shoulder , I quickly turned my body and found Joey smirking. He crashed his lips to mine without any warning. I didn't push him away but I kissed him back.

He slowly leaned forward making me lean back , I ended up laying down on the rock with Joey on top of me. He pulled my earphone and tossed it on the side. I cupped his face and still continue kissing him with the same hunger as him.

"I thought we're never going to do this again" I pushed him and looked into his eyes

"Nah.. Let's make out every dawn" He said and I pushed him. I sit straight and sighed

"Why did you come here?" I asked

"I can't sleep because I've been sleeping the whole bonfire time" He said and I turned to him

"You asshole! I only sleep for 2 and a half hours before the bonfire" I said and he smirked

"I can kiss you until this morning"

"I'm going back.. I need my sleep" I said but he shook his head

"No can't do Valentine.. we're going to make out every dawn when we're here" He said

"Are you crazy?" I asked

"Nah.. so that lips are mine while we're here , get it?" I scoffed

"I can kiss whoever I like , who are you controlling me?"

"Don't pretend that you hate it when you love it Valentine , now come here and sit on my lap" He patted his lap and I rolled my eyes

"No thanks" He put his arm around my waist and pulled me to him. I tried to push it but he's too strong.

"You're making me addict"

"Do you realise that you said that line to me? I'm your enemy"

"Enemy at daylight and lovers at dawn" He smirked and I looked into his brown eyes

"We should stop this Joey , you know it's wrong" I said pushing him while he's pulling me in

"I can't"

"We can , let's make each other piss tomorrow so we can get back to our usual self" I suggested and he just ignored me. He ran the back of his hand to my nose and my cheek.

"I promise to be back to yourself when we got back from here.. but now I can't hold it" He whispered and his eyes landed on my lips

"Let's make a bet" I smirked

"Whoever kiss the other person first lose and the loser has to make the breakfast for tomorrow"

"I thought you won't make a bet with me again" He said and I glared

"Shut up and let's do this.. no rules , we can flirt to each other and try to seduce each other. The first one who kiss the other person lose" I said

"Okay fine because I will make you lose" He said confident

"I don't think so bad boy"

"Let the game begin"
