

Unlimited Power - The Arcane Path (Completed)

Novel Chapter 391

Chapter 391: 391

While Leon was using Transfer and moving toward New York, he started to wonder about the things he should do now . He suffered a lot inside the galactic snake because he lost his magic items and everything else he had, but because he lost them, he also obtained power and skills that no one would be able to steal from him . Because Leon couldn't rely on anything but himself, he got a lot stronger . . . so he was wondering if he should use monsters and create some mithril in case he needs it .

‘Solving problems in the middle of a battle using that method will be easy . . . but won't I get too lax if something similar happens? Instead of relying on tools, I should use my head to think of ways to prevent troublesome situations instead of thinking of ways to solve them . ‘

Leon was thinking about that while he was flying over Kansas City . . . or at least was left of that place . That wasn't one of the areas that had been recovered by survivors after the monsters appeared, but Leon was worried about the fact that he didn't find any human or civilization along the way . He only saw monsters . . .

‘They are a bit stronger than I remember . . . Anyway, it doesn’t look like they want to put everything on fire . ‘

They had quite a bit of mana, so Leon decided to attack them using Thunder Ray and drain their mana . Although Leon got powerful, his offensive spells didn’t level up in the last months . In the end, Leon needed mana to train them . However, since Leon was in a hurry, he only made a small box of mithril, which weighed one kilogram .

Even though Leon spent one hour doing that, he arrived in New York two hours after leaving Las Vegas . . . his mobility increased a lot thanks to Transfer, but he didn't feel like celebrating that . New York wasn't covered in a forest of monsters, but the place was abandoned . All the bridges had fallen due to the lack of maintenance . Leon couldn't even see the ground or the streets since the grass was pretty tall . Even though a lot of time has passed, Leon noticed some craters . . . those were signs of battles and some big spells had been used to destroy most of the city .

‘Shit . . . all my work had been for naught . ‘

Leon also found a dungeon in the middle of the destroyed city, and the monsters that the place was spawning didn't give Leon time to get angry or sad .

Ghost swords were creatures that were ten meters tall and had the appearance of a massive sword . However, the hilt looked alive, and Leon could see a single glowing eye in the middle of it . Those creatures would be annoying if they get too close, so Leon hit their eyes with Plasma Bullet . Surprisingly, only that wasn't enough to kill them . However, Plasma Arrow did the job .

It was only evident that the monsters got stronger, but Leon wasn't interested in that . If New York had been abandoned and Las Vegas was no more . . . then the chances of Leon finding any survivor in his country were low . He

taught a lot of people how to use Earth Creation, and those people worked to create walls in Las Vegas . . . Still, Leon didn't find a single sign of walls there . The situation was worse than Leon had imagined, and his head was in turmoil .

‘What the hell . . . is the exact same thing I saw in that game . . . ‘

Scylla . . . the monster of Greek mythology . Another woman who was naked on her upper body, she also looked very sexy, and this time wasn't because of an illusion . However, she had three heads of dogs as her upper body, and her legs were tentacles of a massive octopus . . . it was quite the terrifying sight . Regardless, even though the damn beast was on Leon's property, he decided to ignore it since he didn't have time to waste with monsters .

‘No signs of dragons . . . Are all the dragons under the bastard who summoned them to control Earth? Still . . . I can’t help but feel shivers imagining how powerful they will be once they return . . . ‘

A few minutes later, Leon finally found Japan and couldn’t help but frown while looking at it . He looked to one side to the other and only saw one hundred meters tall steel walls protecting the entire country . When Leon approached from above, he confirmed that the walls were thirty meters wide . . . he couldn’t imagine megalodons, Scylla, or krakens even damaging that .

‘It looks like Yuki is doing well . . . but if Japan is safe, why America isn’t? She said that she would give a hand in case something happens to my family and friends . . . ‘

When Leon approached the walls, he felt his mana being drained . . . no, Anti-Mana Field was being used to keep Leon from being wounded by magic attacks . After moving a few meters backward, Leon’s mana stopped decreasing .

‘A barrier that causes magical damage to anyone who touches . . . it looks like the one Donan cast on Miebos . Steel walls and magic barriers . . . Yuki certainly is cautious . She didn’t pass that image to me, though . ‘

‘ . . . Whatever, I will enter Yuki’s palace and ask some questions directly to her . I don’t have time to deal with her underlings . ‘

Ten minutes later, Leon arrived in Tokyo, and he couldn't help but keep frowning while he moved through the country . The whole place looked to be pretty much fine, Leon found dungeons, but no monsters . . . there were several and large farms producing crops and even raising cattle . It was like the monsters never appeared in the first place . . . it was very different from the time Leon crossed the country and only found destruction in some cities .

‘I'm happy for the people of this country, but . . . something is off .‘

The first time Leon visited Tokyo, it looked like the people decided to revive the old imperial days . But now Leon couldn't see any sign of that time . . . the streets were filled with light, and several buildings had massive TVs on their walls . Something was being said on those TVs, Leon could see some soldiers, but as expected, he couldn't understand Japanese . It looked like Tokyo had returned to the time before the monsters appeared . . . which was weird . A lot of time was supposed to have passed since then . The entire country was supposed to have developed much more .

‘Well, maybe they didn't have the chance since they still have to worry about monsters, and they probably don't have the numbers to progress beyond that age of technology . . . or perhaps keep involving their technology would be dangerous .‘

The only building that skill made Leon recall feudal Japan was the imperial palace . However, the building was much larger and taller than the one in his memories . The current palace was fifty meters tall and five hundred meters long . . . it was kind of surprising since it was like several buildings had been put together to create that . Regardless, it looked well-made and majestic . It was obvious considering that it was the palace of the empress . . . or perhaps some descendant .

It was getting dark, so Leon hurried to the main hall where he talked with Makoto several times . Some guards started to shout when they saw him, but Leon ignored them because he couldn't understand their words . Before the guards could draw their swords and run toward Leon, he appeared in the middle of the main hall and saw a fist heading to his face . Before the punch could land, Leon used Transfer again and appeared behind the figure that almost hit him . That was quite surprising since Leon recalled that was a place where the leader of the nation talked with his advisors . . . it wasn't a place to punch someone .

Leon frowned even more because he saw several men and women lying on the floor, they were bleeding from their noses and if they had been punched there . Before Leon could understand what was going on, the figure that almost hit him turned around and attacked him again . Before the fist could land, Leon used Electric Rope and stopped the attacker . . . the figure fell on the floor and started to being electrocuted . . . it was Yuki .

Novel Chapter 393

Chapter 393: 393

Yuki changed a lot since the last time Leon saw her before she looked like a real princess . She was full of herself and stubborn and not very friendly . . . at least that was the first impression he had of her . However, the current Yuki was like that too, but her hair was short, and she didn't look frail at all . She had quite a well-toned body . Yuki looked like someone who had been practicing martial arts for decades .

'You bastard!' Yuki shouted . 'How dare you invade my castle and attack me like this!'

'Your behavior changed quite a bit while I was away . . . ' Leon frowned .
'Why are you shouting? It doesn't look like you are suffering all that much . Ah . . . my Electromancy leveled up quite a bit, so perhaps it is hurting quite a bit . '

Yuki suddenly got up, and even though she was being electrocuted, she managed to find the strength to destroy the electric ropes just by moving her muscles . . . Yuki didn't look like a priest . She looked like a monk of games that had physical strength and could cure herself .

The very moment Yuki freed herself, the imperial guards appeared, but she ignored them and attacked . She was very fast, but not fast enough to fool Leon's eyes, which got used to moving around with Haste and Electric Armor active . Leon used Transfer and dodged her punch .

'Why are you attacking me?' Leon asked . 'I just protected myself . . . We need to talk, Yuki . '

'Don't use my name so leisurely!' Yuki shouted .

Leon sighed . It looked like Yuki became a kid who could only shout while she speaks . Leon noticed while he was using Transfer, Yuki didn't recognize him . . . she wasn't even a bit surprised that someone suddenly invaded her palace and even though he didn't attack her, she didn't want to talk . . . As if she was used to that kind of situation where someone suddenly appears, but unlike Leon, the people who visited her like that wanted to take her life .

'Mmm . . . It looks that you are still using the ring that grants the Zen skill,' Leon said . 'You remember the guy who gave you that, right? It is me, Leon . So, stop this already . '

Yuki didn't even react to Leon's words, so he couldn't help but sigh . Still, for some reason, Leon was starting to get tired . Although he was easily avoiding Yuki's punches, he could feel the pressure of her attacks . Her movements

were simple and didn't consume much of her energy, but Leon could feel it . . . every single punch could explode his head .

‘Your Majesty!’ Someone shouted .

Leon recognized that voice, and when he turned around, he saw Ren armed with a blazing katana . He also looked very battle-hardened and angry . . . just like the first time Leon saw him . It was hard to believe that Ren would remember Leon, but it wasn’t like he had any better option .

‘Hey, Ren . . . You remember me, right?’ Leon asked . ‘Helm me to calm down Yuki here . ‘

‘How dare you! Don’t call her name so leisurely!’ Ren shouted and swung his sword firing a small but powerful wave of flames, but Leon stopped it by using Ice Beam

‘Man . . . when all of you became such hot-blooded fools,’ Leon sighed .

Leon was already tired of that, so he decided to end that quick . After using Transfer and appearing behind Yuki, he grabbed her neck and activated Mana Absorption . In just two seconds, she falls on the floor without able to move a finger . Soon, she would recover thanks to the ring, so Leon decided to take it for the time being .

‘You bastard!’ Ren shouted .

‘Just shut up already . . . ‘ Leon sighed again .

The number of guards was quickly increasing, but Leon quickly defeated them after draining all their mana . Since Ren had the same ring with him, Leon took out to buy a few more minutes . After Leon immobilized the thirteenth soldier, he looked at Ren and Yuki .

Your Majesty! Someone shouted .

Leon recognized that voice, and when he turned around, he saw Ren armed with a blazing katana . He also looked very battle-hardened and angry . . . just like the first time Leon saw him . It was hard to believe that Ren would remember Leon, but it wasn't like he had any better option .

Hey, Ren . . . You remember me, right? Leon asked . Help me to calm down Yuki here .

How dare you! Dont call her name so leisurely! Ren shouted and swung his sword firing a small but powerful wave of flames, but Leon stopped it by using Ice Beam

Man . . . when all of you became such hot-blooded fools, Leon sighed .

Leon was already tired of that, so he decided to end that quick . After using Transfer and appearing behind Yuki, he grabbed her neck and activated Mana Absorption . In just two seconds, she falls on the floor without able to move a finger . Soon, she would recover thanks to the ring, so Leon decided to take it for the time being .

You bastard! Ren shouted .

Just shut up already . . . Leon sighed again .

The number of guards was quickly increasing, but Leon quickly defeated them after draining all their mana . Since Ren had the same ring with him, Leon took out to buy a few more minutes . After Leon immobilized the thirteenth soldier, he looked at Ren and Yuki .

Did you guys finally understand? Leon asked . I could have killed you and your men now . . . Im here to talk not to fight . So, what are guys going to do? Will you shut up and answer my questions, or do you want me to knock down unconscious all the soldiers of this place?

Novel Chapter 394

Chapter 394: 394

Both Ren and Yuki looked at Leon as if he was some trash that was making some unreasonable demands . . . they couldn't see that they had become unreasonably violent and hot-blooded . Regardless, it was evident that they wouldn't be able to damage Leon using normal means, so they stopped their useless struggle .

Yuki was still the empress, but she sat on the floor of the main hall as if she was sitting on a dojo . However, that was actually a dojo . . . Yuki turned the main hall, where she used to receive her advisors in a training area . The people who were bleeding from their noses were her sparring partners . Regardless, Leon sat down too, but just that action made both Ren and Yuki click their tongue . Leon also could hear the dozens of guards around them ranging their teeth .

‘Why are you guys so mad?’ Leon asked .

‘Look at you . . . someone with your appearance invades the palace and even acts as if nothing is wrong with that,’ Ren said . ‘You filthy dog . . . ‘

‘Excuse me for my appearance,’ Leon shrugged . ‘But it has been a very long while since I saw a clothing shop . . . Anyway, how much time has passed?’

‘What kind of question is that?’ Yuki asked, very annoyed . ‘How much time has passed since what?’

‘ . . . Since the monsters appeared . ‘ Leon said .

‘How the hell should I know?’ Yuki raised her voice again .

‘Good grief . . . ‘ Leon massaged his eyebrows . ‘Did you forget how old you are, too?’

‘Hey, Ren,’ Yuki said . ‘How old am I?’

‘You are nine hundred and eighteen years old, Your Majesty,’ Ren answered .

After hearing that, Leon’s mouth stayed open for quite a while . . . Nine hundred years have passed since he disappeared . Yet, Ren and Yuki didn’t look a single day old . . . In the end, despite all his efforts, Leon didn’t return on time . Many years passed, and it wasn’t that surprising that Yuki and Ren forgot about him .

‘Shit, shit . . . I will kill those fucking bastards .’ Leon bit his lips .

‘Mind your language in front of Your Majesty!’ Ren said .

‘Shut the hell up, Ren!’ Leon shouted . ‘ . . . Did you guys forget who gave you those rings too?’

‘Gave? No one gave us anything . We found them,’ Yuki said .

‘ . . . Where did you find it?’ Leon frowned .

‘ . . . Hey, Ren . Where did we find those rings?’ Yuki asked .

‘My apologies, Your Majesty .’ Ren lowered his head . ‘I don’t remember . . . ‘`googletag.cmd.push(function()

‘You forgot where you obtained an item that you have been using for nine hundred years . . . ‘ Leon furrowed his eyebrows . ‘But you didn’t forget her age when Yuki herself forgot . . . that is one hell of platonic love . ‘

Although he was nine hundred and some years old, Ren got embarrassed . Leon couldn’t help but shake his head . He just tried to make fun of him, but he actually stepped on a landmine . Regardless, Leon didn’t have time to waste with that .

‘I was the one who created those rings, you fool,’ Leon said . ‘Still, I guess it can’t be helped considering for how long I disappeared . . . did you guys forgot about Makoto’s death too?’

The next moment, Yuki’s body became a blur, and she attacked Leon . However, he already expected that kind of reaction, Yuki just hit the empty

space and destroyed everything that was on her path . . . even the floor of the dojo . She only stopped after she collided against three of her guards .

‘Don’t use my father’s name as if you know him . . . ‘ Yuki glared at Leon .

Leon felt his mana decreasing . It looked like Yuki learned or obtained a tome that taught her Hateful Gaze . Regardless, the skill didn’t work .

‘I knew him . . . even though you forgot, I was nearby when he died,’ Leon said . ‘Well, forget about it . . . It looks like you also forgot about his sword . ‘

‘My father’s katana . . . where . . . what . . . ‘ Yuki opened her eyes widely once she remembered about it .

‘You gave the katana to me . You said that it was proof that we were allies . . . ‘ Leon sighed . ‘I’m sorry, but I lost it . . . Well, I don’t really have to apologize since you forgot about it . Anyway, what happened to America and the other countries ? Don’t tell me that you forgot that you were allied with them too . ‘

Yuki’s face was full of confusion, but then she got mad again . . . not because of the katana, but because she remembered about those allies .

‘What ? Are you one of them ? ‘ Yuki said, her face was distorted of anger . ‘I made those bastards run away from this planet . I don’t need any weaklings or goody-two-shoes idiots on my side or this planet . ‘

‘You did what?’ Leon frowned .

Leon couldn’t believe how imprudent Yuki had become, she got defeated by Leon with relative ease, and now she was taunting him as if that had never happened . Regardless, it looks like the countries didn’t manage to work together for long after he disappeared and Leon couldn’t understand why . . . Yuki, Ren, Amanda, Hector, Tom, and Sarah just had to negotiate with the Indians and the Chinese . . .

‘You didn’t hear me?’ Yuki frowned . ‘I said that I don’t need the help of such useless people . Since they would only cause problems for me, I made them run away . ‘

‘Explain what happened,’ Leon said .

Before Yuki could explain anything, one of her soldiers appeared with a box on his hands . Yuki smirked when he saw it, and as soon as the soldier opened the box, something flew to her hands .

‘Hah! Why should I?’ Yuki said while she was pointing to Leon, her fists that now were equipped with some gloves .

Both Ren and Yuki looked at Leon as if he was some trash that was making some unreasonable demands . . . they couldn’t see that they had become unreasonably violent and hot-blooded . Chapter 395: 395

Yuki just stalled for time while she was answering Leon's questions . It looked like she became unreasonable enough to try to fight again the man who knocked her down in two seconds, and all that confidence came from two gloves .

Electric Dominance (Thunder)

It grants you the skill: Electric Rush Lv 350 . Health + 1000, Strength + 1000, Speed+ 1000 .

Cost: 200 mana

‘I guess you didn’t grow mentally strong as you did physically, Yuki,’ Leon shrugged . ‘Only a fool would get so confident just by using a weapon . ‘

Yuki’s smirked, her speed increased, but she wasn’t confident because of that . Suddenly, as if her body had become thunder, she disappeared and only left a single small bolt of lightning on her place . Leon’s Anti-Mana Field would probably stop that effect, but it wouldn’t stop Yuki’s momentum . So, instead of running away or try to counter-attack . Leon decided to let her attack . Leon activated Mana Armor and received the punch on his face .

It hadn't been a good idea . The impact made Leon fly backward dozens of meters . Despite that, Leon saw the moment Yuki's fists shot a Thunder Wave toward his body . . . her attacks could use paralyze her targets with that . Leon only stopped when he hit the walls around the palace . Despite the power of the attack, he only suffered a few bruises . . . that been said; he lost half of his mana .

'I guess it is only obvious . . . she has been training and fighting for hundreds of years, after all . '

Leon had to save his mana, and he couldn't use spells regularly since he couldn't give to his enemies the chance to teleport or summon him . So, he changed his strategy a little bit . Yuki attacked again, but Leon dodged her attacks by activating Haste and Electric Armor at the very last moment . He hid behind her to escape from the pieces of the wall she destroyed, and then he pinched her ears .

‘You . . . ‘ Yuki clenched her teeth .

Yuki tried to punch Leon again, but she hit nothing and end up returning to her dojo since she couldn’t stop her momentum like that . In terms of raw speed, Leon couldn’t compare to Yuki . However, by using Haste, Electric Armor, and thanks to Lion’s Pride, Leon could become much faster, but enough to outspeed Yuki . Leon could cover two kilometers in one second if he wanted, but that had a price . . . his skin and clothes would start to burn, and even dust in the air could damage his eyes . So, to evade that kind of problem, Leon decided to use his max speed only to dodge attacks and move a few meters .

Yuki looked at Leon as if she was a vicious dog . It looked like she overwhelmed everyone who tried to mess with her using that kind of attack . Well, it wasn’t surprising since she left a path of destruction whenever she used Electric Rush . Regardless, Leon didn’t have time to waste analyzing her or explaining why her attacks wouldn’t work . It looked like even though she had a lot of mana, she didn’t learn many spells in the past nine hundred years . . . She only used her healing skills and punched everything on the way, since she had a talent for both, she didn’t have to worry about learning spells .

Despite Leon’s explanations, Yuki didn’t give up . She tried to attack him again and again until the whole palace had marks of Electric Rush on the floor . Yuki only stopped when she ran out of mana . Still . . . when Yuki fell on her knees, breathing hard and pale, Ren took her place .

‘So, it is you this time . . . ‘ Leon sighed . ‘This isn’t like I imagined we would see each other again . . . but I guess it can’t be helped . Once I defeat you, you two will answer all my questions, and this time you guys won’t stop until I feel satisfied and if something happens again . . . I’m sorry, but I’m going to break a few of your bones in order to teach you a lesson . ‘

‘Shut up, Invader,’ Ren said . ‘You will pay with your life for threatening our peace . ‘

A red aura enveloped ren’s body, and Leon felt the temperature rising . It looked like he became a fire swordsman, even though leveled up his Fire Resistance a lot inside the snake, he still started to sweat despite the distance between them . Ren charged, he was slower, but even at a distance, he could cause damage . His red katana was so powerful that the air around was vibrating due to the heat . . . Leon couldn’t let that get too close . Anti-Mana Field could decrease Ren’s power, a lot, but Leon couldn’t spend so much mana .

Leon used Ice Beam and froze Ren’s legs, he imagined that Leon would also freeze all his body, but Ren only saw Leon pointing upward .

‘As if I would fall for such a trick . . . ‘ Ren smirked .

‘What about you, Yuki,’ Leon looked at Yuki . ‘What do you think of that ?‘

Yuki frowned, but she didn’t have to worry about falling for any tricks since Ren was in front of her, and he could easily melt that amount of ice . So, she looked upward without a care only to freeze on the spot, and then she broke into a cold sweat . During the day, she people frowned when she saw that

weird stain on the sky, but now at night, Yuki could clearly see an immense snake on fire .

Novel Chapter 396

Chapter 396: 396

Noticing that Yuki was too quiet, even Ren decided to take a peek at the sky, and he also was left speechless . Even Leon was quite surprised that the zombie snake obeyed his thoughts from so far away . . . not only that, it could actually emanate fire from its body on the outer space . That monster was something else, but Leon already knew that since it took him months to kill it .

‘Very impressive, right?’ Leon said . ‘I was inside that thing for only God knows how long . . . and now it is under my command . I didn’t want to use that spell, but some bastards are messing with me, so I don’t have much choice but to use it . Anyway, can we talk now instead of fighting?’

‘That was very funny . . . as if a human being could control something like that,’ Ren smiled nervously .

‘Then how about this . . . ‘ Leon said .

The next moment, the snake started to move around the Earth . Even though it was fast despite its size, it had to move for ten seconds to complete a full lap around the planet . It was hard to be sure, but if the snake was five times longer, it could bite its tail while circling the planet like an ouroboros .

‘That was . . . just a coincidence,’ Ren said .

‘I guess your skepticism has no-limits . . . ‘ Leon frowned . ‘Do I have to make the monster land on the planet for you to understand that I’m not joking ?‘

Yuki, Ren, and the guards were utterly defenseless . They forgot that Leon was a threat, and now they were wide open . Although it was quite sad to be treated like that by his old friends, Leon didn’t have time for that . Yuki, Ren, and the whole of Japan were fine, and that was good, but Leon didn’t have time to celebrate . For some reason, Yuki waged war against the allies from the past, and Leon had to confirm what she did . . . if Maya, Amanda, and his friends died due to her actions . . . Leon wouldn’t be able to forgive her .

‘Asking you this, it is a waste of time . . . ‘ Leon said . ‘Did you guys register what happened over the years ? I believe you two would at least give the order to someone do that . . . ‘

It took a long while before Ren and Yuki could recover from the shock . Despite that, Leon couldn’t make them hurry . So, he just practiced Zen while they stared at the zombie snake as if they were zombies themselves .

That skill wasn't on the level of Meditation, but it was almost as efficient .
Anyway, things got noisy outside the palace . Since Japan recovered itself,
the country was quite well illuminated during the night, so most people only
noticed the zombie snake moving around Earth after the word scattered .

'Yeah, four years after the monsters appeared, I met you two,' Leon
answered . 'For me, only seven years have passed since then, but for you two,
nine hundred years have passed . '

'How exactly you know that?' Ren asked . 'How is that even possible?'

'Because I was summoned to another world and there, I discovered that time
passes ten times faster in different stages of the assimilation,' Leon

explained . ‘The few times the world changed, new dungeons appeared, right ? Some dungeons stopped working entirely because of those changes . . . it is because the amount of mana on the planet increased . I learned that when those events happen, it is a sign that the planet is advancing to the next stage . . . the people of the first planet I visited said that it was a part of the assimilation system and the system has several stages . ‘

Ren and Yuki looked at each other as if they heard the most stupid bullshit . . . even if they were to believe it would take a long while, so they guided Leon to the archives room of the castle . There Leon found Ryoko, Ren’s number one subordinate . . . Although she was a warrior before, it looked like she became more suited to collect intel and register things rather than fight . Regardless, she didn’t recognize Leon either, and she clearly showed her displeasure because someone who looked like a beggar entered her workplace .

‘Ryoko, our . . . guest . . . wants to see the oldest documents we have since the monsters appeared,’ Ren frowned . ‘We need any file directed to America and the events that happened soon after the monsters appeared . Is that enough ?’

‘For the time being, yes,’ Leon answered . ‘But I also want to learn about the biggest events that happened after that . ‘

‘ . . . What are you going to do once you learn about what we did to America ?’ Yuki asked .

‘That will depend . . . unless you have some good reason, I will retaliate,’ Leon said . ‘Even if you had some good reason, I won’t forgive you if you caused the death of my family and friends . ‘

‘What are their names?’ Yuki asked .

‘Amanda, Maya, Hector, Betty, Sasha, Gisela . . . and I guess Lennart, Tom, Sarah, and Pedro da Silva,’ Leon said and then rubbed his chin .

Leon only talked with Pedro one or two times, but he had been quite helpful . As for Lennart, Sarah and Tom, they were a bit close than Pedro, and they also helped Leon in some situations . Still, he was wondering if he would go to attack Ren and Yuki if they died due to their actions .

‘Ah, those guys . . . ‘ Yuki said, visibly displeased . ‘I tried to kill them many times, but they are strong . . . as strong as us . . . We waged war against them, but they survived and fled . ‘

Noticing that Yuki was too quiet, even Ren decided to take a peek at the sky, and he also was left speechless . That was very funny . . . as if a human being could control something like that, Ren smiled nervously .

Then how about this . . . Leon said .

The next moment, the snake started to move around the Earth . Even though it was fast despite its size, it had to move for ten seconds to complete a full lap around the planet . It was hard to be sure, but if the snake was five times longer, it could bite its tail while circling the planet like an ouroboros .

That was . . . just a coincidence, Ren said .

I guess your skepticism has no-limits . . . Leon frowned . Do I have to make the monster land on the planet for you to understand that Im not joking ?

Yuki, Ren, and the guards were utterly defenseless . They forgot that Leon was a threat, and now they were wide open . Although it was quite sad to be treated like that by his old friends, Leon didnt have time for that . Yuki, Ren, and the whole of Japan were fine, and that was good, but Leon didnt have time to celebrate . For some reason, Yuki waged war against the allies from the past, and Leon had to confirm what she did . . . if Maya, Amanda, and his friends died due to her actions . . . Leon wouldnt be able to forgive her .

Asking you this, it is a waste of time . . . Leon said . Did you guys register what happened over the years ? I believe you two would at least give the order to someone do that . . .

It took a long while before Ren and Yuki could recover from the shock . Despite that, Leon couldnt make them hurry . So, he just practiced Zen while they stared at the zombie snake as if they were zombies themselves .

Congratulations! The skill Zen has leveled up .

You obtained 01 status points .

Congratulations! The skill Zen has leveled up .

You obtained 01 status points .

Congratulations! The skill Zen has leveled up .

You obtained 01 status points .

...

That skill wasn't on the level of Meditation, but it was almost as efficient .
Anyway, things got noisy outside the palace . Since Japan recovered itself,
the country was quite well illuminated during the night, so most people only
noticed the zombie snake moving around Earth after the word scattered .

Yeah, four years after the monsters appeared, I met you two, Leon answered .
For me, only seven years have passed since then, but for you two, nine
hundred years have passed .

How exactly you know that? Ren asked . How is that even possible?

Because I was summoned to another world and there, I discovered that time
passes ten times faster in different stages of the assimilation, Leon explained .
The few times the world changed, new dungeons appeared, right? Some
dungeons stopped working entirely because of those changes . . . it is because
the amount of mana on the planet increased . I learned that when those events

happen, it is a sign that the planet is advancing to the next stage . . . the people of the first planet I visited said that it was a part of the assimilation system and the system has several stages .

Ren and Yuki looked at each other as if they heard the most stupid bullshit . . . even if they were to believe it would take a long while, so they guided Leon to the archives room of the castle . There Leon found Ryoko, Rens number one subordinate . . . Although she was a warrior before, it looked like she became more suited to collect intel and register things rather than fight . Regardless, she didnt recognize Leon either, and she clearly showed her displeasure because someone who looked like a beggar entered her workplace .

Ryoko, our . . . guest . . . wants to see the oldest documents we have since the monsters appeared, Ren frowned . We need any file directed to America and the events that happened soon after the monsters appeared . Is that enough ?

For the time being, yes, Leon answered . But I also want to learn about the biggest events that happened after that .

. . . What are you going to do once you learn about what we did to America ? Yuki asked .

That will depend . . . unless you have some good reason, I will retaliate, Leon said . Even if you had some good reason, I wont forgive you if you caused the death of my family and friends .

What are their names ? Yuki asked .

Amanda, Maya, Hector, Betty, Sasha, Gisela . . . and I guess Lennart, Tom, Sarah, and Pedro da Silva, Leon said and then rubbed his chin .

Leon only talked with Pedro one or two times, but he had been quite helpful . As for Lennart, Sarah and Tom, they were a bit close than Pedro, and they also helped Leon in some situations . Still, he was wondering if he would go to attack Ren and Yuki if they died due to their actions .

Ah, those guys . . . Yuki said, visibly displeased . I tried to kill them many times, but they are strong . . . as strong as us . . . We waged war against them, but they survived and fled .

Novel Chapter 397

Chapter 397: 397

‘The first thing registered is the actions of our late emperor, the prince, and Your Majesty Yuki actions,’ Ryoko said . ‘After fighting for a month to clean the area around Tokyo of monsters, we recovered the city and started to rebuild our capital . Eighteen months later, some spies stole water dragon scales from us . . . the prince tried to stop them and died in combat . ‘

‘I already know that,’ Leon said .

‘ . . . I think this is late Emperor’s handwriting . . . it is written here that six months later, the Emperor heard about an American had arrived and started to work with one of his advisors . . . his name was Leon, and the advisor was Ren,’ Ryoko frowned .

‘That did really happen?’ Ren frowned . ‘I don’t remember that . . . ‘

‘What do you remember about Makoto?’ Leon asked .

‘Our Emperor was a good man who would fight on the frontlines to protect his people,’ Ren answered . ‘He was very honest and capable . ‘

‘What else?’ Leon asked . ‘How old was he when he died? What were the powers of his sword?’

‘ . . . I forgot . ‘ Ren looked away .

‘It is obvious that we can’t trust your memories,’ Leon said . ‘You may continue . ‘

‘ . . . The man called Leon worked together with Ren, and then he cleared five dungeons in order to obtain His Majesty cooperation . ‘ Ryoko said . ‘A few months later, Leon returned and brought the people that cause the prince’s death . ‘

‘I thought father disappeared one day and then suddenly returned after finding the killers himself,’ Yuki frowned . ‘Someone must have faked these documents . . . ‘

‘It is said here that Leon and his friends protected a city called Las Vegas from demons . . . a very dangerous race of monsters,’ Ryoko said . ‘This is the last register that was made with His Majesty handwriting . . . I remember now . . . this book was His Majesty diary, and I decided to use it as the first

register when it was decided that I would work here, organizing documents .
,

‘When that happened?’ Leon asked .

‘I think we found these twenty years after the death of His Majesty,’ Ryoko answered .
`.googletag.cmd.push(function()

‘Twenty years . . . I guess the things that happened before I disappeared aren’t written here,’ Leon starts to bit his nails .

‘ . . . No, it is here . . . I registered that His Majesty and Leon disappeared and then he returned several weeks later with princess Yuki,’ Ryoko frowned .
‘She had been kidnapped by someone . . . one of his Majesty advisors . ‘

‘I can’t imagine Your Majesty getting kidnapped either . ‘ Ren nodded .

‘ . . . Continue,’ Leon sighed .

‘It looks like that I wrote that after hearing about a massive monster invasion in Brazil, the man called Leon disappeared, and there is no mention of his return,’ Ryoko said . ‘It looks like Your Majesty, lord Ren and the people of America worked together to find him for quite a while . . . the group searching for him was quite small, but they investigated even the worlds on the other side of the dungeons . ‘

‘Well, well . . . I guess some people missed me,’ Leon shrugged .googletag.cmd.push(function(
{ googletag.display(‘div-gpt-ad-InStory-3’); });

‘I don’t remember doing something like that,’ Yuki said .

‘I don’t remember either,’ Ren said .

‘Most nations of the planet were working together, but China and India didn’t want to become their allies because they thought the other nations didn’t have the means to contribute with them,’ Ryoko explained . ‘Although the person called Leon worked hard to make several countries work together, things didn’t progress after he disappeared . Mostly because his friends were looking for him . . . but they stopped looking after ten years . ‘

‘Well . . . I guess it is only natural . ‘ Leon said after a long sigh .

‘It looked like his friends were forced to stop looking for him because the number of dungeon breaks was increasing,’ Ryoko explained . ‘After a while, it looked like the inhabitants of the nations that were suffering because of dungeon breaks discovered that it wasn’t happening by chance . . . people of their own countries were causing dungeon breaks . ‘

‘What? Why?’ Leon frowned .

‘It is not written here . . . It was impossible to identify the people who caused the dungeon breaks because that their goals were unclear,’ Ryoko said . ‘The most obvious answer would be that they wanted to cause more deaths, but it wasn’t a motive that makes sense . Since it looked like they had no goals and

only wanted to cause destruction and death, people started to refer to them as 'The Fallen . '

'I think I heard something about that a long time ago,' Yuki said .

'Me too,' Ren nodded .

'Can't you do anything but agree with her now ?' Leon frowned .

Although Leon got caught by surprise, he soon understood what their goal was . . . it was to increase the amount of mana Earth could handle . The more mana the planet has, the faster the second stage of assimilation would begin .

'It looks like that the lizard bastard was behind the dungeon breaks, after all . William and the others wouldn't be enough to create the situation he wanted . . . so he probably promised power to random survivors, in exchange they would cause the dungeon breaks . . . it makes sense, only someone powerful or has some useful and rare skills could do such things and still keep their identities hidden . '

'The fallen kept doing that for ten years . . . but then they suddenly disappeared when the world started to change,' Ryoko said . 'New dungeons appeared, and more powerful enemies invaded Earth, while some dungeons stopped working . We call it that . . . the start of the second great war against the monsters .

‘The new species of monsters proved themselves to be much more difficult to deal with,’ Ryoko said . ‘Although many people learned magic over the last three decades, humanity suffered many losses . . . it looks like it was around that time that Your Majesty began to fight up close . Your healing skills were powerful, so you decided to join the frontlines in order to heal as many as you could . ‘

‘Really ? As far as I can remember, I always fought on the frontlines,’ Yuki frowned .

‘It was also around that time that you received your nickname,’ Ryoko added .

‘What nickname ?’ Leon asked .

‘The immortal empress,’ Ryoko answered .

‘Why, you . . . ‘ Ren said, annoyed .

‘I think the beggar sorcerer would suit you,’ Yuki said . ‘The mage who doesn’t take showers would also be good . . . What do you think of the title: swamp creature?’

‘I think you lack creativity, but that is to be expected considering that you punch strangers first and ask questions later,’ Leon frowned . ‘Continue . ‘

‘ . . . Although the new monsters caused some problems, most countries managed to suppress them, those who didn’t receive help from others,’ Ryoko said . ‘However, ten years after they disappeared . . . the fallen returned and cause massive dungeon breaks . The small nations started to fall from those dungeon breaks . Even big countries suffered many losses, so many started to hunt the fallen . ‘

‘That I remember, India and China suffered a lot back then,’ Yuki said .

‘Although they had some survivors who could, to some extent, read the minds of others, they failed in finding those bastards . It was discovered that some people had lapses of memory, so it became clear someone who could erase

memories and control other survivors was using other people to do their dirty work . ‘

Leon clicked his tongue, that would make things much tricky . He already found monsters that could control others using illusions and Donan had the power to erase memories, Leon had no intention of learning that since he didn’t want anyone doing what he wanted to do for him . It was disgusting to erase people’s memories, even using that on enemies . Although he could resist and counter both, it didn’t mean that it couldn’t cause problems .

In the end, it wasn’t that surprising . . . they had the numbers and people could get powerful even without fighting a single monster . So, it was only evident that something would happen sooner or later . ‘Some individuals managed to seize power for themselves in China and India, so both countries were divided into many parts,’ Ryoko said . ‘Those who didn’t want to take part in any more conflict between humans fled to other countries . ‘I am expecting to hear details of this . . . ‘ Leon said .

‘Although many people got kidnapped, many managed to escape and get rescued . . . ‘ Ryoko furrowed her eyebrows . ‘At least that was we thought . . . we ignored those confinements camps for a while because they had unexpected powerful soldiers . In the beginning, we thought that was an alien disease . But after suffering many attacks at the same time several people exploded, we understood that wasn’t a disease . ‘Let me guess, those who seized power to themselves after the unrest in India and China caused that,’ Leon said .

‘Yes, since they have the power to erase memories and control people, we would only notice who was being used by them when it was too late,’ Ryoko

explained . ‘After suffering many losses, Your Majesty decided to exterminate those people and their small kingdoms . ‘

‘I didn’t think you would be able to take such a decision,’ Leon looked at Yuki .

‘I still remember that time,’ Yuki closed her eyes . ‘I endured my anger even when some of my most loyal advisors died, but after seeing kids exploding and survivors losing their friends and relatives in front of them and like that, I made my choice . I will never let terrorists make my people suffer ever again . I decided to crush them to bits, and so I did . ‘

‘So, my other friends didn’t accept your decision,’ Leon said .

‘Gisela, Lennart, and Tom did,’ Yuki said . ‘Gisela and Lennart lost their father in one of those explosions . As for Tom, he lost many of the orphans he and his wife were looking after . The others didn’t . For a while, we worked together and decimated the terrorists . That cost the alliance, though . Sarah, Hector, and Amanda wanted to reach a middle ground, but we couldn’t find one since we lost many people . So, after we destroyed those camps, we didn’t negotiate or worked together in any other aspect . ‘

Leon couldn’t help but wonder what he would do if he were on both sides . . . he wasn’t a patient one, so he wanted to kill the lizard and the shadowy figure . However, Leon didn’t want to sacrifice innocent lives to reach his goals . . . so he couldn’t see himself choosing one or the other option .

‘You said that you worked for a while, but how long exactly?’ Leon asked .

‘I believe Tom, Gisela, and Lennart worked with us for two hundred years,’ Ryoko said after she analyzed some documents . ‘They decided to stop

working with Japan a few years after the start of the third war against the monsters . ‘

‘Why ?‘ Leon asked .

‘Some insurgents started to cause problems again, and since we never confirmed the death of the terrorist’s leaders, we decided to register every single person’s name, status, and skills to avoid criminals from entering our territories,’ Yuki explained . ‘From that moment, onward, Tom, Gisela, and Lennart choose their own paths . They didn’t want to put so many restrictions on their people, and they also thought that it was like they weren’t trusting on their allies . It was for the greater good, but they didn’t accept it . Even though I was the first one to register my skills and status, anyone can access those on our database . Because of that, we can quickly find anyone who is suspicious since the population can inform the authorities if they find anything suspicious . The database is updated using magic, so it is a very efficient way to find criminals before they do anything . ‘

‘You talk as if you are very proud of such spell,’ Leon said . ‘But you attacked me on sight, and that only means that many assassins use that information to attack you frequently . Don’t they use that kind of information to assassinate other humans ?‘

That was kind of amazing, but Leon was wondering why Yuki looked so proud when he was the one who taught her that spell . Regardless, there was

no point in arguing since that was a system that had been implemented a long time ago, and it seemed to be working .

‘What happened afterward that made you wage war against the other countries?’ Leon asked .

‘Three hundred years ago, those explosion incidents started to happen again,’ Yuki answered . ‘Our country was developing well, so we were the focus this time . We knew that no one inside this wall had the skills to do it, so we demanded the other nations look for the culprits and execute them . The other nations took their sweet time giving the answers we wanted, so we started to look for the criminals ourselves . They tried to intervene, saying that we were too rough, and the war started like that . ‘

‘ . . . So, you banished people all over the world from their countries?’ Leon asked after a long sigh . ‘I’m kind of surprised that you succeeded, but I’m also disappointed because you had no right to do that . The terrorists survived because you let your feelings get on the way and didn’t plan everything carefully . So . . . everything outside Japan belongs to monsters now . ‘

‘How dare you . . . ‘ Ren said after he stomped on the ground . ‘Because of Her Majesty’s actions, we solved that problem, and no one is dying from acts of terrorism . Those who agreed with our methods now live in peace inside these walls . There are even more survivors in Australia . Although we still

didn't recover our world from the clutches of monsters, the number of losses we suffered in the last three hundred years is minimal . ' .

'Tell me, do you really believe that you and other nations alone can protect Earth?' Leon asked . 'Didn't you guys notice that I arrived here without letting any of you notice me ? You guys must be daydreaming if you think I'm the only one who can this and if the real enemies are those brain-dead monsters . ' .

Although Ren wanted to retort Leon very much, he couldn't because he was aware that Leon had a point . Until now, the real enemy didn't appear, but everyone knew that sooner or later, something far more dangerous would come . . . in fact, Leon could be considered that something . He defeated one hell of a massive snake, and Ren and Yuki were aware that they couldn't defeat something of that size .

'I'm disappointed in both of you . . . ' Leon sighed . 'But I guess that doesn't mean a thing when neither of you remembers me . I understand your reasoning, I'm a bit unreasonable, but I expected more of you both . Anyway . . . I will look for my family and other friends . If they survived for six hundred years here, I'm sure that they are still alive, and then I will bring them back to Earth because this is our home . I just hope you both don't get on the way of it . . . because I won't be so lenient like I'm now . ' .

So, my other friends didnt accept your decision, Leon said .

Gisela, Lennart, and Tom did, Yuki said . Gisela and Lennart lost their father in one of those explosions . As for Tom, he lost many of the orphans he and his wife were looking after . Because of that, we can quickly find anyone who is suspicious since the population can inform the authorities if they find anything suspicious . The database is updated using magic, so it is a very efficient way to find criminals before they do anything .

You talk as if you are very proud of such spell, Leon said . But you attacked me on sight, and that only means that many assassins use that information to attack you frequently . Dont they use that kind of information to assassinate other humans ?

That was kind of amazing, but Leon was wondering why Yuki looked so proud when he was the one who taught her that spell . Regardless, there was no point in arguing since that was a system that had been implemented a long time ago, and it seemed to be working .

What happened afterward that made you wage war against the other countries ? Leon asked .

Three hundred years ago, those explosion incidents started to happen again, Yuki answered . Our country was developing well, so we were the focus this time . We knew that no one inside this wall had the skills to do it, so we demanded the other nations look for the culprits and execute them . The other nations took their sweet time giving the answers we wanted, so we started to look for the criminals ourselves . They tried to intervene, saying that we were too rough, and the war started like that .

. . . So, you banished people all over the world from their countries ? Leon asked after a long sigh . Im kind of surprised that you succeeded, but Im also disappointed because you had no right to do that . The terrorists survived because you let your feelings get on the way and didnt plan everything carefully . So . . . everything outside Japan belongs to monsters now .

How dare you . . . Ren said after he stomped on the ground . Because of Her Majestys actions, we solved that problem, and no one is dying from acts of terrorism . Those who agreed with our methods now live in peace inside these

walls . There are even more survivors in Australia . Although we still didnt recover our world from the clutches of monsters, the number of losses we suffered in the last three hundred years is minimal .

Tell me, do you really believe that you and other nations alone can protect Earth? Leon asked . Didnt you guys notice that I arrived here without letting any of you notice me? You guys must be daydreaming if you think Im the only one who can this and if the real enemies are those brain-dead monsters .

Although Ren wanted to retort Leon very much, he couldnt because he was aware that Leon had a point . Until now, the real enemy didnt appear, but everyone knew that sooner or later, something far more dangerous would come . . . in fact, Leon could be considered that something . He defeated one hell of a massive snake, and Ren and Yuki were aware that they couldnt defeat something of that size .

Im disappointed in both of you . . . Leon sighed . But I guess that doesnt mean a thing when neither of you remembers me . I understand your reasoning, Im a bit unreasonable, but I expected more of you both . Anyway . . . I will look for my family and other friends . If they survived for six hundred years here, Im sure that they are still alive, and then I will bring them back to Earth because this is our home . I just hope you both dont get on the way of it . . . because I wont be so lenient like Im now .

Novel Chapter 400

Chapter 400: 400

‘There is no liches’ dungeon . . . I guess that bastard is already sucking the mana of too many planets and decide to forget Earth . Still . . . why didn’t he try to teleport me yet? Is he waiting for me to run out of mana?’

That was a very troublesome question that Leon probably would never get out of his head . Anyway, at least not everything was bad news or doubts . The dungeons that Amanda’s group and Gisela’s group used to leave the planet were still active . So, Leon could always find their trail . . . a very cold trail since three hundred years passed since they left Earth .

‘I guess I will leave the zombie snake behind . . . there is also a chance that the shadow bastard isn’t trying to mess with me because of this monster . I will confirm that once I leave Earth again . . . ‘

Leon obviously would start looking for Amanda and Maya first, so he returned to America and went to the hippogryphs dungeon .

‘They look kind of cool . . . I think it would be pretty nice fly on the back of one .‘

Hippogryphs were like Leon imagined, and many games and books portrayed them, they were essentially four-legged eagles . Since Leon would have to deal with them anyways inside the dungeon, he decided to drain their mana and make mithril . Leon didn’t use the mithril box he created earlier, but more mithril wouldn’t disturb him in any way .

Although dealing with them was easy using Plasma Arrows, Leon saved some mana same using Thunder Ray . . . it wasn’t that surprising that flying enemies were weak against electric attacks .

‘I just hope they aren’t moving from one world to the other . . . ‘

‘Well, since the people of Japan reached a point where everyone could use Mana Armor, and they could produce enough steel to surround the entire country, there is a chance that the people of Las Vegas reached a decent point in terms of offensive magic powers . ‘

After Leon completed another small box of mithril, he finally found the purple crystal of the dungeon . He didn't notice anything different until now, so he hesitated a little bit in touching the crystal .

‘Well, here goes nothing .‘

Leon touched the crystal and immediately saw himself at the top of a vast mountain . Although he wanted to analyze the new environment, Leon didn't have the chance because several hippogryphs were already flying toward him . It seemed that like ordinary eagles, they also liked to leave in tall places .

Congratulations! The skill Plasma Arrow has leveled up .

Leon shot several Plasma Arrows, and one-shot kill the monsters, even though those creatures had some mana pool, he couldn't risk himself against so many .

‘This won't help me for the time being, but I guess I should learn Tornado before I forget it .‘

Congratulations! You have learned the skill: Tornado .

Cost: 20 mana per second

While Leon was surveilling the area, he observed how the hippogryphs used that spell . It was pretty simple, and Leon already knew the basics since he knew Sandstorm . Regardless, Leon was in a pretty warm region of the world . Although the mountains didn't have much vegetation, the areas between them were completely green . Even with his Sharp Eyes, Leon couldn't see the end of the mountainous region .

‘Well, it is a different world in a different part of the universe . . . so it wouldn't be weird if I find mountains everywhere . Anyway, I'm not here to analyze the geography of this world . ‘

It would difficult and time-consuming, but Leon was aware that he couldn't move using only Transfer . He would end up drawing the attention of the hippogryphs, and he would waste too much time if he fights every minute . Besides, Leon wouldn't be able to find traces of humans unless he stays close to the ground .

‘This will be a long journey . . . I might as well make good use of every second while I look for them . ‘

Leon got powerful even without using his offensive skills for months, but it was time to resume his practice . Although he couldn't let the bastards cause problems for him again, Leon couldn't live in fear forever .
