Although Leon was in a hurry, he decided to return to Japan using Celsius' power . It was better to do that while he can before he forgets about it if something happens . Currently, Leon, Yuki, and the five terrorists were flying on an ice platform created by Celsius . Conveniently enough, only Leon could see Celsius . So, Yuki didn't know about the existence of spirits yet .

'To think I would be used like this . . . ' Celsius clenched her teeth . 'The next time you try to use my powers as a vehicle, I will freeze you to death . '

‘If you don’t like that, you can think of ways to regain your power . You need my mana to grow stronger, right? Feel free to do so whenever you feel like it . . . I won’t force you, but at least train once a week is necessary . ‘

Since no one aside from Leon could see Celsius, no one could hear her either .

‘By the way, Celsius and Sylph, even though you two are working with me, you guys can still give your blessings to other people?’

‘Yes,’ Sylph answered .

‘Obviously,’ Celsius said .

Leon started to wonder why Ilyana didn’t say that . . . she probably had an intermediate fragment of all spirits, after all . Most likely, she didn’t say anything because those spirits could only grant the same powers of lesser spirits like the Efreet and Gnome Leon met on the goblins’ world .

‘Do you guys have to test the people I decided to receive your powers?’

‘No, if you want to give them basic powers, you just need to sacrifice ten thousand points of your mana,’ Celsius answered . ‘Just don’t go throwing around my powers to every single idiot you find . ‘

Leon sighed, being warned like that by a spirit was kind of depressing . Even himself doesn’t intend to give that power to his friends, unless he proves themselves to be trustworthy again .

It was 05:00 PM when Leon and Yuki returned to Tokyo as if Ren had locked the terrorist there, Yuki guided Leon to her palace . Although he wanted to fly in order to level up Celsius, Yuki said to use Transfer in order not to let anyone see the terrorists . . . it looked like Ren did something like that too . Much to Leon’s surprise, on Yuki’s dojo, there was a hidden door that would lead to an underground prison .

‘A prison under the palace ?’ Leon frowned . ‘You are a bit insane, don’t you think ?’

‘My palace is the building most well-guarded of the country,’ Yuki explained . ‘Since that is the case, the most suited place to create a prison is under the palace . ‘

‘I wonder how that makes any sense for you . . . ‘ Leon sighed .

After going down for a few minutes, Leon and Yuki finally reached the bottom of the prison, and the place really looked like a dungeon . There were

no cells, but there was a type of coffins made of mithril that were being used to keep the terrorists locked . Ren was there, keeping his eyes on them and electrocuting them with a spear the moment they were about to wake up .

‘What the hell is this? A torturing chamber?’ Leon frowned . ‘I wouldn’t be able to sleep knowing that such a place lies below my room . ‘

‘Your Majesty! You returned pretty fast!’ Ren ignored Leon’s words .

‘It looked like you already started,’ Yuki said . ‘Did they say something?’

‘No, I didn’t let them stay awake,’ Ren said .

‘Do you guys have any device or magic item that cancels the effect of mana or spells inside a specific area?’ Leon asked .

‘No, wouldn’t that kind of thing be a problem for you?’ Yuki frowned .

‘I wouldn’t sleep soundly at night if I let myself worry about such things,’ Leon answered . ‘Well, it doesn’t matter . There is another way to stop them from using any spells and contact their allies . ‘

Leon started to use Mana Absorption and drained the terrorist's mana, thanks to that . He obtained a few minutes to question them . However, before deciding one to interrogate, Leon analyzed them . They were all men that seemed to be around thirty and forty years old . Three of them had black hair, four were blond, and three had red hair . . . they seemed to be people from all over the world . The only they had in common was their lust of power and the fact that they doomed hundreds of thousands of survivors .

Since they all had the bodies of warriors, Leon decided to choose the one who looked to be the youngest . He was blond and had a scar on his chin . After taking him out of the mithril coffin, Leon used Flamethrower and started to burn his right leg .

‘AAAAAAAAAAAAARRRRRRRRRRRRGGGGGGGGGHHHHHHHHHH!’

The blond terrorist wake up once his flesh started to melt .

The smell of flesh burning made Leon almost puke, but he endured . Much to his surprise, Yuki and Ren looked pretty calm, as if that was something they had seen or done many times . Leon only stopped when the blonde terrorist lost half of his leg . At some point, the pain decreased, but he was still moaning and crying .

‘Who are you working for?’ Leon asked . ‘Where you stayed in the past years?’

‘I-I don't know . . . he didn't say his name to us . ‘ The blond terrorist answered while snort was running to his mouth .

Leon used Flamethrower again and burned the rest of the blond terrorist right leg .

‘You forgot to answer my second question,’ Leon said .

## Novel Chapter 432

Chapter 432: 432

After making an example out of the first terrorist, Leon still burned one of the legs of the other ones . Causing damage without asking anything first was an excellent way to convince them to talk . Unfortunately, in the end, Leon only obtained a few pieces of information . First of all, they never met the harvester who was controlling them . The sneaky bastard only talked directly with their minds and gave them directions . Upon arriving in those places, the terrorists obtained magic items and tomes . They used that to get stronger and become the leaders of small groups of survivors . Now and then, they would hear the voice of the harvester promising them more tomes and magic items . . . as long as they cause a ruckus on Earth .

‘Who are those harvesters?’ Yuki frowned .

‘The guy who summoned me to another world and the bastard who teleported me to the stomach of that massive snake are harvesters,’ Leon explained .

‘Essentially, they are beings who wanted to mess with the progression of the worlds in order to, when the time comes, have a good environment for them .

‘

‘Are you saying that a being of another planet was controlling the terrorists and that being planned to weaken Earth’s defenses?’ Ren asked, surprised .

‘Yes, you guys forgot about it, but one of them caused problems to us before,’ Leon said . ‘Regardless, their goal wasn’t just to cause a ruckus for no reason . They wanted to destroy the alliance between countries and then succeeded . Now human forces are divided into three places . It will be easier for them to kill humans if they are divided . ‘

‘Hmph! Whoever planned this, that person is dead wrong if they think things will go the way they wanted . ‘ Yuki snorted .

‘Things are already the way they wanted . . . ‘ Leon sighed . ‘I can’t blame you since the true enemies are beings that lived much more than any of us . . . Anyway, you guys can do whatever you want with them . I will take one of them with me in order to confirm that everything we heard was true . ‘

‘ . . . Although we disagree in many things, I must thank you for your help,’ Yuki said after she crossed her arms and looked away . ‘Thanks to you, we solved this situation without suffering a single loss, and you even gave valuable information for us . ‘

‘If you really feel thankful, don’t cause problems for me in the future,’ Leon said and then disappeared alongside one of the unconscious terrorists .

Although Leon solved that problem in less than a day, he couldn't slack off .  
In the end, one day there was the equivalent of ten days on Ilyana's world .  
He did it for a good reason, but he lost ten days where he could have trained  
several skills or even obtained the cooperation of a spirit .

'Hey . . . can you talk ?' Leon hesitated .

'Yes . . . ' The zombie answered .

'Do you remember the things you did while you were alive ?' Leon asked .

Leon looked away, very annoyed . Then he created massive rock and let it fall over his zombie, smashing it into bits . Leon only wasted time using that skill that he hated with a passion . Regardless, Leon returned to Ilyana's castle and gave her a summary of what happened .

'I see . . . I guess the number of harvesters that will target Earth in the future won't be small,' Ilyana rubbed her chin .

'Right . . . do you know that the dragons appeared on several worlds because apparently, a harvester summoned them ?' Leon asked .

'Yes, the same thing happened to my world,' Ilyana explained . 'However, the dragons that you saw weren't real dragons . Just like the elementals I create, they were just weakened copies of the real deal . The real dragons can cause trouble for the people who have survived until the beginning of the fifth stage of the assimilation . . . What about it ?'

'Because of him, my parents died, and he is the number one bastard on my kill list,' Leon answered . 'Can you tell me anything you know about him or her ?'

'Sorry, but that is not possible . ' Ilyana shook her head .

' . . . Why ?' Leon furrowed his eyebrows .

‘She is my number one target too,’ Ilyana looked at Leon and showed her vicious eyes for the first time . ‘I won’t hand her over to anyone . . . I will kill her myself . ‘

It looked like that was a personal matter to Ilyana, and she didn’t intend to let Leon do what he wants about that harvester . In the end, arguing wouldn’t change anything . . . unless Leon obtains the power to refute Ilyana, he wouldn’t be able to kill such harvester anyway . So, he put that kind of worry on the back of his mind .

Chapter 433: 433

‘What do you recommend for me to buy?’ Leon asked . ‘I want to increase my intelligence in order to learn Teleport as soon as possible . So, any recommendations that will help me with that are more than welcome .’

‘Just use it to buy some area of effect spells,’ Ilyana said . ‘Even if those have a cooldown time, as long as you have mana, you can keep them activated and level them up . Poison spells and acid spells can also help you obtain some status points . You are not skilled enough to learn them on your own for now anyway . ‘

‘What else?’ Leon asked .

‘Neutral offensive spells will also help you with that, you currently only have Mana Bullet as a neutral spell, right?’ Ilyana asked . ‘Just learn those for the time being and level them up for a week or two . After that, you can request the cooperation of another spirit . ‘

Leon nodded and then headed toward one of the many dungeons . He didn’t know if it was a good idea to believe in Ilyana all that much, but it made sense to spend some coins to learn those spells . It would save him time trying to learn them on his own, after all .

Leon didn't spend even five million coins, and it was already satisfied with it . Little by little, it was becoming clear that he wasn't saving coins in order to buy the teleport tome, it was because he was stingy . Since Leon's breastplate had become half of what once had been, he decided to absorb it in order to train the skills . In the end, that had been enough for Leon to level up his new skills up to level thirty .

'One week passed . . . I guess it is time to look for the next spirit . Ilyana said to train for a week or two, but just one should be fine . I want to obtain the spirits' cooperation before anything . '

Although it was clear that they weren't cooperating with each other all that much, Ilyana let out a long sigh since Leon returned after just one week .

'I think I'm going to the spirit of fire now,' Leon said .

'Yes, yes,' Ilyana massaged her eyebrows . 'Head south, and you should find him after you use the purple crystal . '

The next moment, Leon appeared in front of a purple crystal and then without wasting any time, touched it . A few moments later, Leon appeared in the middle of a forest, strangely enough, he didn't see or find any signs of Ilyana's elementals .

'Now that I think about it . . . maybe I should listen to her more . Thanks to her, I discovered about the terrorist and caught them before they could cause any problem . '

Leon wanted to protect his planet and friends, even though his sense of familiarity was getting dimmer by the day . However, he didn't have the means to use time dilation and keep an eye on Earth . He had to rely on Ilyana for that . Leon was still wary of her, but he didn't have much of choice in such matters .

'I shouldn't get on her bad side . . . if I cause problems and show too much caution, she may decide to ignore Earth altogether . I also need to ask her to keep an eye on the planets where Amanda and Gisela are . . . '

Leon wondered if he wasn't being a bit too shameless in thinking about that, be wary of someone, not willing to trust her, and then asking for favors . . . Maybe asking to learn the spell she uses to monitor several places would

solve that problem, but that would only show that he didn't trust her no matter what .

'She doesn't look to be a bad person . . . I can feel the presence of monsters here, but there are no signs of her elementals, probably because their existence alone would destroy this forest . '

Instead of clearly being wary of her, Leon decided to stay neutral, not trusting in every single Ilyana says or doubting them . Someone as old as she would probably notice Leon's change of behavior and understand why he was doing that . However, that was something that couldn't be helped . Besides, Leon couldn't solve every single problem just by thinking about them . Upon realizing that once more, Leon moved toward the south, hoping the Efreet's intermediate fragment wouldn't cause him a lot of trouble .

Chapter 434: 434

‘Why spirits have to be so complicated?’

‘You are just too simplistic, Leon,’ Sylph said .

‘I’m not complicated,’ Celsius protested .

Now Leon couldn't even talk alone inside his head without hearing some sharp remarks . . . Regardless, as expected, Leon found an intermediate Efreet's fragment . But in order to receive his power and cooperation, Efreet demanded a duel .

. . .

Leon looked back and saw Efreet flying fifty meters away from him, even from that distance, he could feel the heat of his flames . Fortunately, despite being at a low level, Ice Armor was making things more refreshing for Leon . Still, Leon was running out of mana and didn't know how to defeat the fire

spirit since he didn't have any ice offensive spell at a high level aside from Ice Beam . Leon could use that to cool Efreet down, but he would have to get a bit closer .

‘Why are you running away, human?’ Efreet asked while he was smiling viciously . ‘Come and face me! This won't be fun if you keep running forever . ‘

Although facing Efreet directly would be a problem, at least Leon knew that he would be more cooperative than Celsius regarding training and battles . Things would get even noisier inside his head, but then again . . . everything has a price .

‘In the end, he won't agree to work with me unless I face him directly and without using any cheap tricks or spells like Mana-Eater . . . ‘

Efreet fired a massive Fire Spear as if his presence alone wasn't enough to put everything on fire . Although they had the same speed while Leon was using Haste alone, the spear quickly approached Leon . Without much choice, Leon used Transfer and appeared behind Efreet .

‘It is time to end this . . . ‘ Leon said and then shot Thunder Ray and Ice Beam .

Efreet got hit by both attacks and started to tremble . Leon barely could keep his eyes open due to the heat, but at least he could see that the ice he was creating was quickly melting around Efreet's body, but at least the water was increasing the power of Thunder Ray before it could become steam .

Efreet was resisting, as expected, it was a bit too much face an intermediate spirit without using external sources to recover his mana . However, much to Leon's surprise, his ice was starting to surpass Efreet's heat . . . after thirty seconds, his body was covered in a thick layer of ice .

‘Seriously?’ Leon asked in shock .

Leon stopped and jumped back, imagining that probably wasn't the case . . . he got stronger . Still, Leon couldn't believe that he got strong to the point where he could defeat an intermediate spirit so fast and without relying on external sources to recover his mana . Fortunately, the ice was melting little by little, and that was a sign that Efreet was alive .

‘Now that I think about . . . recently, I put all my points into intelligence in order to learn teleport as soon as I can . Maybe that explains my sudden power up . ‘

Since he didn't fight all that much in a while, Leon didn't notice that . However, since he put more than one thousand points in intelligence, his magic offensive powers got a little more than two times stronger . Suddenly, the chunk of ice where Efreet was locked exploded .

‘Hahaha! You almost killed me, human!’ Efreet laughed maniacally . ‘You defeated me . My power is yours . However, once I become strong again, we will fight again! Hahaha!’

Efreet turned into a sphere of light and then entered Leon's body . That was one hell of a weird spirit since he laughed like a demon king, but despite that, he wasn't evil per se . . . burning half of a forest was something pretty bad . However, Leon wouldn't complain since he just received his powers .

Leon sighed in relief and then smiled satisfied when he saw Fire Resistance leveling up to the level four hundred, Pyromancy leveled up until the level two hundred, and the same thing happened to Fire Blessing . Leon's status points increased by two hundred . . . pretty nice progress for a single day of work .

'Oh? Sylph and Celsius are already here?' Leon imagined Efreet frowning while he said that . 'Did you guys got beaten by him two? I bet I was the one which lasted for longer . '

'Heya, Efreet,' Sylph said .

'Only someone stupid would waste time fighting and destroy half of a forest just to have fun,' Celsius said .

'I lasted longer, right?' Efreet asked . 'No need to feel embarrassed, you two can admit . '

'We didn't fight,' Sylph said .

‘ . . . Just shut up already,’ Celsius said after a long sigh .

Leon also sighed . . . because things got a lot noisier than he had expected . Although Leon wanted to extinguish the fire Efreet caused, the flames disappeared the very moment Efreet became Leon’s partner . A massive part of the forest had been burned . . . but in the end, Leon couldn’t do anything for that place . He already had his own problems to worry about, after all .

Why spirits have to be so complicated?

You are just too simplistic, Leon, Sylph said .

Im not complicated, Celsius protested .

Now Leon couldnt even talk alone inside his head without hearing some sharp remarks . . . Regardless, as expected, Leon found an intermediate Efreets fragment . But in order to receive his power and cooperation, Efreet demanded a duel .

Chapter 435: 435

‘I forgot about the plants I used to solve Celsius’ problem . . . I guess I will use them for training my skills up to level fifty . But first . . . I should inform Ilyana about my arrival, she already knows that I returned, but the visitor still had to greet the owner of the house . . . or in this case, the owner of the planet . ‘

Ilyana was just like always, sitting cross-legged in the middle of her massive castle, Her eyes were closed, it looked like she was using Zen . . . but somehow the elementals still were appearing around her every five seconds . Suddenly, she opened her eyes .

‘You have returned . . . ‘ Ilyana said .

‘Sorry to disturb you, I just came to inform you that I returned,’ Leon said .

‘What spirit are you going to look for next?’ Ilyana asked .

‘I think I will level up my skills up to the level fifty-first,’ Leon said . ‘I just noticed that my offensive attacks grew a lot, and I want to increase it even more in case something happens . I will come to ask for the location of the next spirit later . ‘

‘All right,’ Ilyana nodded .

Leon left the castle using Transfer and then headed toward his plantation of leaves . He forgot to ask how she could keep Zen active and then use other skills at the same time, but it was probably something Leon couldn’t emulate for the time being . Besides, he could always ask later .

‘I should also ask the real differences between Transfer and Teleport . . . well, everything in its due time .‘

It would take a while, but considering the order in his active skills list, Leon would have to train Lightning first . . . he would have to start with the most troublesome one . But it was better than letting that for latter and in the end skipping the skill because of its cost and cooldown time .

Leon wished he could be so positive like that . Still, even though the spirits that were with Leon were probably older than him, they couldn't fully understand his worries and problems . They were sentient beings, but they weren't people like Leon and Ilyana that at some point were only ordinary people . Besides, their existences were different . For numerous reasons and because Leon solved his problems alone until now, he wanted to rely only on himself . Using Ilyana's knowledge would be something that would go against that logic, but don't use it would be stupid .

Considering the things Ilyana could do, it wouldn't be strange if she could read Leon's memories like a comic book . . . so, it was clear for her that Leon wouldn't betray her and join the dark side . . . probably . So, she wasn't losing all that much by giving Leon the knowledge he wanted, and she also was training a possible useful ally .

Regardless, Leon leveled up thirteen other skills up to level fifty the next two weeks . Although his status was growing nicely, just practicing spells without real targets were boring and not very efficient .

‘Since my goal became something massive . . . I'm losing sight of things like small accomplishments . Strength is also only a means to an end for me, so I can't be excited even though it is clear that I'm growing stronger . . . Anyway, I will continue with this later . ‘

Leon was having motivational problems again unless he finds a real obstacle to surpass or get his ass-kicked, it was unlikely that he would overcome that anytime soon . His enemies can't be found using reasonable means, and Leon

would only fight them in hundreds of years . So, it couldn't be helped that he was getting unmotivated .

'Can you stop making such a pathetic face?' Celsius asked . 'It is very annoying to see you showing that kind of expression . '

'We can solve that easily!' Sylph declared . 'Let's play tag!'

'Bahahaha! Nothing like a good battle to raise the spirits! Let's fight, Leon .  
' Efrete laughed maniacally like usual .

Leon scratched the back of his head and then let out a long sigh . It looked like the 'voices' in his head wouldn't let him waste time with useless thoughts . Although they were noisy and troublesome, Leon was thankful for that .

Instead of training or looking for another spirit, Leon decided to materialize Sylph, Celsius, and Efrete and let them make noise outside his head . He had to keep using Mana Liquid in order to keep them materialized, but in the end, it had been worth the hassle since their voices didn't let Leon think about useless things .

Chapter 436: 436

‘Maybe that is why Ilyana can manage to stay sitting like that for so long . . . she has them too,’

‘What does Ilyana have?’ Sylph asked .

‘Nothing . . . I was just daydreaming,’ Leon answered .

Leon went to Ilyana's castle, and she was like always, sitting cross-legged and creating elementals . . . Leon wondered what was her goal by creating them for so long . Did she want to level up the skill until level max ? Or was that just a lazy way to obtain coins ?

'Morning,' Leon said, smiling .

'You seem a good mood,' Ilyana frowned . 'You also practiced for longer than I imagined you would . . . Good for you . So, what spirit will you look for now ?'

'I guess the spirit of water . . . ' Leon rubbed his chin .

'I see . ' Ilyana nodded . 'It will be difficult to find her . . . I can't give you any directions . '

'May I ask why ?' Leon asked .

'The spirit of the water's temple is in a similar situation of Celsius' temple was,' Ilyana answered . 'It will be better if you see for yourself . '

Without giving any other proper explanation, Ilyana teleported Leon to another purple crystal, and when Leon touched it, he understood what she meant by that . Leon appeared underwater; he was in some ocean . Leon reacted on time and swam upward, after flying upward for a while, he confirmed that he was in another 'water' world .

'So . . . the spirit of the water temple is underwater, and some creature is moving the temple from one place to another . '

Leon let out a long sigh . It would be really annoying finding the temple underwater that was even truer since there were no landmarks above water, and Leon could only see the landmarks underwater when he was close .

‘Do you guys feel the presence of the spirit of water?’ Leon asked .

‘Yes,’ Sylph answered .

‘Obviously,’ Celsius answered .

‘I’m bad at that kind of thing,’ Efreet answered . ‘But I’m good at destroying things . ‘

‘Okay . . . which direction should I go?’ Leon asked .

‘ . . . Why I always find those damn colossal monsters with such ease?’

Leon escaped the monster’s first attack, but the very moment the creature noticed that Leon escaped, the thing shot a small, but powerful cannon of water . . . It was the Water Beam, the evolved form of Water Cannon . The skill was so fast and powerful that Leon didn’t have time to dodge and lost seventy percent of his mana when Mana Armor got hit . As if that wasn’t enough, the attack shot Leon upward, spinning .

Leon made his choice, and when he did it, he approached the ocean . A few moments later, the same sea-snake that attacked him came to chew his body, but Leon made it eat twenty-four lightning bolts . Leon had to use all his mana, but he killed the beast instantly . . . at the price of almost losing his hearing . Leon's lightning bolts were so powerful that their movement made the entire air in several kilometers vibrate .

'Phew . . . I guess I have to return to Earth and ask Yuki if they are selling headphones there . My ears won't last long if I keep using this kind of attack often and keep them unprotected . '

Leon solved that problem thanks to Multi-Casting, but he had time to notice that the last lightning bolt was the one that killed the beast . Since the skill level up, he would be able to save a little more mana, but it didn't change the fact that he would waste a lot of time making that ocean of that world explorable and secure .

In order to save time, Leon started to absorb the mithril of his equipment and flew around that world . Five minutes later, he found another sea-snake, and things repeated itself . However, this time, Leon escaped the Water-Beam . The creature fell on the ocean, but after a few seconds, it returned to annoy Leon, but his presence was ready to be delivered and then once again . . . Leon killed another beast using Lightning and Multi-Conjuration .

Although it wasn't good for his heart, Leon used that strategy to lure and kill the sea-snakes for an entire week . After doing that for so long, the tax of encounter decreased from twelve every hour to one per hour . It wasn't one hundred percent safe, but Leon couldn't keep going like that, he had to find the spirit of water because time was something he couldn't afford to waste . Leon decided to take some risks .

Since Leon couldn't feel the mana of other living beings and keep Mana Concealment active, he had no choice but to swim and accept the risks . Well, floating was probably the correct way to say it, since he was using Mana Barrier . In the end, he wasn't that unprotected .

Much to Leon's surprise, several hours passed, and he didn't find a single sea-snake . Maybe along the previous week, he managed to show all of them

who was the boss . . . or if they were cannibal monsters, they were eating the corpses of the monsters Leon killed . However, Leon was pretty sure the second option wasn't the case . He found several bodies intact, after all .

‘I wonder what it will be this time . . . A turtle was carrying Celsius' temple on its back, now would be what? A whale?’

If that was the case, Leon doubted that he would need Mana Dominion's help . Although his eyes weren't that good underwater, it was impossible not to notice such a massive thing moving .

After exploring for quite a while, Leon noticed that there was no sign of small animals in the ocean . Most likely, the sea-snakes devoured even the small fish . Suddenly, Leon felt a presence under him . It was massive and powerful . So, that caught Leon by surprise . He looked below, surprised, but didn't find anything aside from a coral reef .

‘Could it be?’

Leon approached the coral reef and eventually found an underwater cave . However, when he approached, suddenly, a pair of eyes appeared in the middle of the coral reef . Leon almost shit his pants, because that scared the shit out of him . The eyes of that thing were bigger than Leon's body . It was an ancient eagle ray, so old that would spend a massive amount of time sleeping underwater that it gave time for a coral reef growing on its back and to become a sort of disguise .

‘It must also have Mana Concealment . . . there is no way that such a disguise would work against every single other monster on the oceans . ‘

While Leon was thinking about that, the creature started to swim away from him . Despite its size, it was quite big and not violent . It didn't even try to attack Leon, after all . Regardless, after returning to the surface to fill his Mana Barrier with air, Leon used Transfer and appeared inside the cave .

Moving around inside the underwater cave wasn't easy since everything was so dark, and Leon couldn't use any spell because it could damage the temple or the massive monster, his Mana Barrier bumped against the walls of the place more than a few times, and that made his mana decrease . Regardless, Leon didn't know how he would be able to talk with the spirit of water, underwater, and inside the Mana Barrier . . . he could only pray that they would reach some sort of agreement after talking with their eyes .

Leon made his choice, and when he did it, he approached the ocean . A few moments later, the same sea-snake that attacked him came to chew his body, but Leon made it eat twenty-four lightning bolts . Leon had to use all his mana, but he killed the beast instantly . . . at the price of almost losing his hearing . Leons lightning bolts were so powerful that their movement made the entire air in several kilometers vibrate .

Again, the spirit had humanoid form, but it was impossible to know if the spirit of water was male or female . . . if Leon memory could be trusted, he was pretty sure that Ilyana said that the spirit was female, and it also made sense considering the lore that Leon obtained in some games .

‘Mmm . . . Hello?’

Leon tried to use his mind to talk, but as expected, the spirit of water just stared at him . He didn’t know Telepathy, after all . Leon tried to move his hand and tried to use signs, but then again, the spirit of water didn’t react in any way .

‘Come on, guys . Give me a hand here . ‘

‘I can’t,’ Sylph said .

‘Don’t want to,’ Celsius said .

‘I hate wet and depressing places like this,’ Efreet said .

Leon let out a long sigh . In the end, he could only rely on the spirits for small things . However, suddenly, the spirit of water became a sphere of light and entered Leon’s body . . . that had been way too easy .

‘Hello, it is nice to meet you,’ Undine said inside Leon’s head . ‘It’s nice to find some other fragments here too . ‘

‘Hello . . . is it fine for you to help me without a test or trial ?‘

‘You already did what I was going to ask you,’ Undine explained . ‘You killed a lot of those monsters . Lately, they have been actively hunting my friend here, but now that you decreased their numbers, they will become my friend’s meal for a while . ‘

Undine’s voice was pretty sweet, and Leon felt a motherly feeling coming from her . Maybe it was because she sounded wise and, at the same time, pretty laid back .

‘You knew what I did,’ Leon frowned . ‘So, why didn’t you say anything?’

‘I was trying to mess with you,’ Undine said .

‘I totally forgot to mark in some way the place I appeared . . . ‘

‘You are quite the airhead, Leon,’ Undine said .

Leon wished that he could deny that with all his head, but he couldn't .  
Regardless, the number of voices inside Leon's head increased by one .

Despite Leon's worries, he found the crystal he used just after a single day .  
He just had to follow the path of corpses that he left behind, and he also  
hurried because of those corpses had only bones left . . . Although Leon  
decided to practice a few skills and the Summon Undine's Fragment, he chose  
to ask Ilyana a few questions that had been bothering him as of late .

'Hey, Ilyana . . . 'Leon hesitated . 'You confirmed that the dragons had been  
summoned by one of the harvesters to destroy a good part of the assimilated  
planets . The same applies to earth dragons and T-Rexes ?'

'No, even though you can obtain dragon hearts from them, they are the  
weakest type of dragon,' Ilyana explained . 'Let's see . . . putting in  
simpler words . . . they would be like cats, and the real dragons were like  
tigers . '

'That is a terrifying comparison . . . ' Leon frowned . 'What about  
three-headed earth dragons ?'

'They are a mutation of earth dragons, that is why their dragon hearts are far  
more powerful,' Ilyana explained . 'Did you find them on your planet ? They  
rarely appear in worlds that are on the first stage of assimilation . By the way,  
the effects of a real dragon heart are five times stronger than the ones you can  
obtain from earth dragons on T-Rexes . '

'I see . . . wait a minute,' Leon said, surprised . 'Doesn't that mean that the  
bitch who can create dragons and killed my parents can created dragons and  
eat their hearts ?'

‘Yes, she can,’ Ilyana answered .

‘Isn’t that really bad?’ Leon frowned .

‘I don’t consider that a problem,’ Ilyana shrugged . ‘Even if that makes her stronger, it only increases her status . It won’t give her real battle experience or level up her skills . ‘

Leon nodded, but still . . . if he could eat one of those per day, he would obtain half of the status he can currently obtain by training .

‘Can you create them?’ Leon asked .

‘I could learn, in fact, I have some skills that create simple living beings, but I won’t use them,’ Ilyana answered . ‘You can understand why right?’

Leon nodded, killing enemies was one thing . Creating living beings just for that wasn’t something Ilyana would do; it didn’t matter if that was a convenient way to grow stronger . It was . . . immoral . Even if they were living on a planet that they were the rulers, they still had their own sets of things they could do and couldn’t in order to get stronger . If one day they decide to follow their path, they wouldn’t be much better than the bastards who destroyed worlds and civilizations just to satisfy their own selfish desires .

Leon spent a week training some of his spells and then leveling up the skills to summon the spirits . He was progressing, his status was growing, and he was clearly becoming stronger, but Leon himself didn't feel that . He could only see himself training his spells as a relaxing activity . . . there was no tension or danger . It was thanks to that; Leon didn't feel that he was actually preparing himself for the battle that will take place on Earth .

‘I wonder how many other spirits exist . . . ‘

‘If you are lucky, you can find six types,  Undine explained . ‘The spirit of water, wind, ice, thunder, earth, and fire . The others are more difficult to find, and only individuals that lived very long lives manage to find them,‘

‘Hey, why is my element was the last to be mentioned?’ Efreed frowned .  
‘I’m the strongest, so I was supposed to be the first . ‘

Putting Efreed’s complaints aside, Leon was pretty sure that he was an anomaly . He found two lesser spirits purely by chance, and later he found five intermediate fragments and managed to obtain total cooperation of four . Considering that the giant harvesters had to fight together in order to obtain their power, it was clear that obtaining their cooperation wasn’t easy . Regardless, it looked like Leon would have to find another Volt’s fragment, but he couldn’t imagine himself obtaining his cooperation that easily, since he failed once .

Leon headed toward Ilyana’s castle to hear about the location of the next spirit, but before that, Leon decided to ask her a few favors .

‘Ilyana, can I ask you a favor?’ Leon asked .

‘Sure,’ Ilyana answered .

‘Can you please monitor the humans’ camps in the other worlds?’ Leon asked . ‘My family and friends are there, and even though they forgot about me, I still want to help them in case something happens . ‘

‘There are other three aside from them,’ Ilyana answered . ‘Rem, the spirit of light . Shadow, the spirit of darkness, and Sekundez . . . the spirit of the time . ‘

It looked like things were a bit different from the games Leon knew . Regardless, nine spirits were enough . Leon didn’t want to hear so many voices inside his head, after all .

‘The trials of those three will be much more difficult . Well, it is only obvious considering how much power one can obtain by obtaining their cooperation,’ Ilyana explained . ‘You should prepare yourself . It doesn’t matter how strong you are . You can easily die or go insane, trying to obtain their power and cooperation . ‘

‘Is that so . . . ‘ Leon rubbed his chin . ‘I guess it isn’t that surprising since they can control things that are far greater than my understanding of things . ‘

‘Are you not scared?’ Ilyana asked .

‘I am, but it doesn’t mean I have to show that, right?’ Leon forced a smile .

‘That is true, but you can always find ways to decrease the dangers . . . if you ask, I can make my spirits give you the lesser blessing . ‘ Ilyana studied Leon .

## Novel Chapter 440

Chapter 440: 440

Currently, Leon was in the middle of a labyrinth . The labyrinth was inside of a massive mountain range . After asking Ilyana about where he could find an intermediate fragment of Gnome, the spirit of earth, Leon went to another planet that had a lot of mountains and forests . Fortunately, this time, Ilyana knew where to find Gnome . . . the problem only started after Leon find the spirit . Just like Sylph, Gnome was a goofball that liked to play . In order to

receive his powers, Leon would have to find him, at the end of that massive labyrinth .

‘Why do you complain so much?’ Celsius said, annoyed . ‘Just break all the walls and move in a straight line . ‘

‘That won’t be fun!’ Sylph protested .

‘Gnome will probably get mad if someone destroys the labyrinth he created with such care . . . while he didn’t have anything better to do,’ Undine smirked .

‘What a stupid trial,’ Efrete said . ‘If you are spirit, you have to test your powers!’

It was a waste of time, but Leon couldn’t help but hear the spirits’ complaints . Although he wanted to hear something useful to raise his spirits, he only became more depressed since they weren’t worried if Leon would find Gnome in time or not . To obtain his cooperation, Leon would have to find him in twenty-four hours and to obtain his power . He had one week . . . twelve hours had already passed, and Leon was already sick of it .

‘I guess always moving forward and to my left side won’t work anymore . . . I got it! I will use Electric Armor, that should help me not to get lost . ‘

Until that moment, Leon only used Haste to move in order to conserve mana, but since Electric Armor would also burn the path he passes, it would be an excellent way not to follow a path he already explored .

In the end, that simple decision solved Leon's problems . Even though the mountain range and the labyrinth were massive, they had a limit . After saving a lot of time not exploring the same places over and over again, Leon found Gnome .

'Aww . . . you found me,' Gnome said, dispirited . 'You are the first person that found me so fast . . . but the next time, I will create an even better labyrinth . '

'Next time ?' Leon frowned . 'Wait a minute . . . '

Before Leon could protest because it looked like Gnome would cause problems for him every week just like Sylph, he turned into a yellow sphere and entered Leon's body . The energy stabilized like usual, and then he received the notifications .

‘ . . . 380 more status points,’ Leon rubbed his chin . ‘I guess I don't have much of choice and comply with his demands . ‘

Although Leon was the boss, he didn't want to force his spirits to do everything he wanted . A loyal friend would be more helpful in a battle than a slave, after all .

‘Things are starting to get tight here,’ Sylph said .

‘I know that I'm not very smart, but is my head that small?’ Leon frowned .

‘The hell are you talking about?’ Celsius asked . ‘The space inside of you that beings like us can occupy is defined by the amount of mana you have . Considering your current mana, you can store six of us inside you . But it won't be pleasant for us, so hurry up and increase your mana . ‘

Leon sighed, he wanted to increase his intelligence in order to learn Teleport, but it couldn't be helped . Leon decided to divide all the points he obtains from now on into intelligence and mana . Since he already had a few, he allocated them .

‘ . . . It is a little better now,’ Gnome said after a sigh . ‘Please hurry up and increase your mana . I don't like tight places . ‘

Since it would be difficult to obtain the other spirits' cooperation, Leon decided to use Zen for a while once he returns . He needed to level up that skill, after all . Using that skill, Leon also would increase his mana and intelligence .

‘I should also use my other low-level skills . . . not make use of that plantation of blue angel leaves would be a big mistake . Come to think of

it . . . I also need to ask Ilyana to teach me how to absorb mana from the environment . ‘

Finally, Leon was back to the point where he had no idea the best way to increase his strength in an efficient manner . In the end, Leon decided to spent half of his free time using Zen and the other half collecting blue angel leaves and leveling up his low-level skills . That way, he would decrease his headache when he discovers the most efficient way to grow his status .

However, before that, Leon went to Ilyana’s castle and reported to her about his success . Leon couldn’t help but frown when he saw her . . . Ilyana was just like usual, cross-legged, doing whatever she usually does to obtain mana and creating elementals . It has been a few months since he met her, but aside from the first time, she looked pretty normal . . . not messy like a creature that hadn’t take a shower and cut her hair in decades .

‘I guess she became more aware of her appearance again after I appeared . . . No, that is just me imagining things . Certainly, she doesn’t take a shower and clean herself whenever I’m about to show up . . . right?’
