

Weaponsmith 1001

Chapter 1001: Li Xue'er's downfall (3)

"I'll do it, let me be the one to do the testing! This set are all ladies' accessories so Master Tang, you'd definitely be too shy to put it on!"

Tang Jinhua had not even had the time to stop her when Ning Xiao had already made a grab at it and put it on.

She finally came to understand that this Miss Bai was a real Armament refining genius and in front of her, she who was also called a "talent" was just not enough to match up!

To be able to help such an Armament Master who had long surpassed her to test her products was a kind of glory among the Armament Masters.

As reciprocation, the party whom was being tested would normally give some guidance to the party who had helped to test.

This was exactly the reason why when Tang Jinhua asked for testers, a huge crowd of people rushed up to grab this opportunity!

Ning Xiao had grabbed the first time and wasn't willing to give up the second chance. To be able to gain some pointers from a genius like Huang Yueli, this opportunity didn't come by too often so of course she would need to monopolize it!

Ning Xiao put on that set of Profound Artifact and unsurprisingly, she received a pile of praises!

These accessories were refined even more exquisitely than that pair of wrist guards and even Sky Cloud City's best Jewellery stores were not able to come out with this kind of design.

Ning Xiao exercised her wrists and was just about to strike.

"Wait a minute, Master, Master Ning!"

Li Xue'er chose the exact moment as she clenched her teeth and stood up from her seat, shouting out, stopping the testing.

"What??"

Everyone were surprised and Tang Jinhua frowned.

Initially Li Xue'er was rather nervous but since she had already opened her mouth, she might as well set her heart straight and rushed to the front of the stage with quick steps as she shouted loudly, "Master, I want to make a report!"

"Report?"

"Yes, I want to make a report! Earlier Bai Ruoli had cheated in the second round of assessment!"

“Cheated??” Tang Jinhua’s eyes widened, totally unable to believe what she said, “You... Xue’er, you said Miss Bai cheated? Could you have mistaken? Why would she cheat?”

It wasn’t just Tang Jinhua, everyone present had blown up because of that one sentence which Li Xue’er said!

Everyone expressed that they didn’t believe what she said because Huang Yueli’s ability was placed right in front of their eyes. Just based on the skills which she had displayed earlier, would she not be able to refine a first tier Profound Armament? Moreover, the assessment was held publicly in front of everyone so who had the ability to cheat under so many people’s eyes?

Furthermore, Huang Yueli’s reputation was like the sun at midday. Just how much had she to fret before she even wanted to use the Mirage Cloudy Rock. If it was found out, wouldn’t her reputation go down the drain and lose more than she could gain?

Li Xue’er said, “Master, this isn’t a misunderstanding. I’ve seen it with my own eyes! Earlier when Bai Ruoli was refining the second Profound Armament, she obviously didn’t have enough Profound energy and almost failed at the forming stage! After that, I saw.... I saw that she threw a piece of Mirage Cloudy Rock into the Armament furnace before she finally succeeded at refining!”

“What?? Such a thing happened??” Tang Jinhua cried out in surprise, “It’s not possible! You must have seen wrongly right? Master Bai would never do such a thing!”

“Master, you.... you’re saying that I’m accusing Bai Ruoli?”

Tang Jinhua said, “Xue’er, it’s not that I don’t trust you. But why would Master Bai do such a thing? You must have seen it wrongly!”

Li Xue’er continued, “I have evidence! This matter is actually very simple. As long as you seriously test this set of Profound Artifact which she had refined, we’d be able to find out the might of it so the truth will be revealed!”

Chapter 1002: Li Xue’er’s downfall (4)

“If she really added in the Mirage Cloudy Rock, then testing it a few more times would give the game away!”

“This.....”

Tang Jinhua went into a blank and he started hesitating at this point in time.

Although he felt that this matter couldn’t possibly happened, but Li Xue’er actually said it so solemnly, why did she seemed like she had absolute certainty over it? Could it be really... that something fishy was going on?

It wasn’t just one or two people who thought in that way and everyone threw their gazes towards Huang Yueli who was seated at the VIP seating area.

Huang Yueli was just talking to President Hu and President Gong as the trio were discussing on armament refining skills and were talking the same language.

Especially when Huang Yueli offered various opinions which the two Presidents had never heard of. Just listening to the rough outline which she was describing and it was as though the grass that clogged the way was suddenly gone. This made the two Presidents gave her an even higher evaluation as the way they looked at her seemed to resemble looking at a piece of rare treasure!

Both of them were glad that Huang Yueli had chosen Sky Cloud City's Armament Guild to be the place of her certification because this really gained much face for Sky Cloud City!

But unfortunately, Huang Yueli was extremely tight lipped. The both of them had scouted several times but were not able to find out anything about her apprenticeship.

Li Moying had been sitting quietly beside Huang Yueli's side and had not interrupted into her conversation.

But those seating around the surrounding could tell that even though Young Sect Master held an aloof expression, not much different from usual, but every single time he looked at Huang Yueli, the gentleness beneath his eyes were enough to make any young lady enraptured.

At such an ambient moment, Li Xue'er suddenly jumped out to slander Huang Yueli, and it was such a serious accusation!

Li Moying's eyebrows creased together as the expression on his face turned extremely ugly.

He was just about to fly into a rage when he felt a soft little hand pressing against the back of his hand, followed by a sweet young voice echoing into his ear, "Alright, don't be angry. Let me settle this myself!"

Li Moying turned around and in an unfriendly tone, he said, "Li Xue'er had time and again slandered you. Even if you can tolerate it, I cannot take it any further!"

Huang Yueli smiled, "I'm not tolerating anything at all? Don't you know me well enough? How will I remain indifferent after being splashed by dirty water?"

Li Moying pursed his thin lips as he stared at her with a 'I'm very unhappy' look but he didn't insisted on getting his way.

He hadn't discovered that he was bearing a classic henpecked male expression. Principal Jiang and the rest who were by the side had all become dumbstruck from this as they had never thought that the overbearing Young Sect Master Li had no definite opinions in front of his fiancée at all.

Huang Yueli saw his expression and her lips curled upwards as she reassuringly patted his shoulders and turned to walk towards the stage.

"Li Xue'er, are you sure that it's not because you're afraid of having to run around naked, so you've came out with this cheap trick to slander me?" She turned towards Li Xue'er as her voice remained peaceful.

Li Xue'er sneered, "Slander? I'm telling the absolute truth! Go ahead and deny as you wish, when the testing results are out later, I'll see what you have to say then!"

Anyway she had witnessed it with her own eyes when the Mirage Cloudy Rock dropped into that wretched lass's furnace and just based on this, even if she had one hundred mouths, she would not be able to clear her own name!

Huang Yueli glanced sideways at her as she laughed.

"Alright, since you are so certain.... Then let's start with the testing!"

Tang Jinhua could only reply, "Alright, since you all have no objections, then let's start! Those vulgar quality Profound Armaments which had the Mirage Cloudy Rock added to it would normally not be able to be used for more than ten times before it starts to breakdown! So in order to ascertain Li Xue'er's words, let's test it continuously for twenty times!"

Chapter 1003: Li Xue'er's downfall (5)

"If it had been tested twenty times and the Profound Armament appears to be damaged, then it would mean that Miss Bai's Profound Armament really has a problem! Now, will Miss Ning please start!"

Ning Xiao had already put on the Profound Artifact and was just waiting for Tang Jinhua's notification.

Upon hearing his command, she turned around and took a look at Li Xue'er as she scornfully humphed at her.

Anyone with eyes were able to tell that Li Xue'er's fabrication of accusation was purely out of her own jealousy! Wasn't she just jealous of Huang Yueli's shocking armament refining talent, snatching away the limelight which originally belonged to her?

Such a narrow-minded and sinister woman actually could become an Armament Master?

Ning Xiao said, "I will do my best so everyone please look carefully. Don't say I'm not doing my best if the Profound Armament wasn't damaged later. I don't have a Master like Master Tang and will not be able to take to being slandered by anyone!"

Saying that, she didn't even bother to look at Li Xue'er's steely green face as she turned towards the strength testing stone and immediately stuck out!

Ning Xiao's move was especially simple and was the introductory move which every fire attributed practitioners had to learn – Fireball technique!

Because this type of Profound Skill was most commonly known and was one of the basics, so it became the standard strike to use when testing Profound Armaments.

She had just struck when the movements of her hands stopped as she gave out a surprised and joyous expression, "Besides raising the attack power, this set of Profound Artifact also increased the speed of Profound Energy regeneration! It's too mystical, the Profound Energy which I had used wasn't even as much as what was regenerated! My Profound Energy has remained being charged to the maximum!"

Ning Xiao's speed at striking was pretty fast and it was just a joss stick time before she had continuously struck out ten over moves. Furthermore, she apparently seemed to have a lot of experience in testing Profound Armaments because each Profound Energy's intensity was almost the same.

Initially, Li Xue'er crossed both her arms around her chest and a cold sneer hung around her lips, looking at Ning Xiao's testing confidently.

But as Ning Xiao's moves increased, from once to twice, all the way till it had broken through ten times, the expression on her face gradually turned ugly.

Very quickly, the number of tests had reached fifteen times!

By now, Li Xue'er was so anxious that she couldn't remain seated properly as she stood up from her seat with both hands clenched into fists, her eyes staring intently on the strength testing stone.

She kept repeating in her mind: Why hadn't this Profound Armament broke down? Quickly break down, break down now!

However, even after all twenty times of testing had been completed, the three pieces of Profound Artifact remained intact, as though it had not been used at all.

Ning Xiao removed the Profound Armament and placed it beside Tang Jinhua, calling out loud, "Master Tang, I've already finished my testing and this set of Profound Artifact's effect is indeed outstanding. Not only is it durable, it had already reached the standard of a second tier Profound Armament!"

Tang Jinhua hurriedly replied, "Thank you for your trouble, Miss Ning! Master Bai's ability is indeed outstanding. Just using first tier materials, she actually refines a set of second tier Profound Artifact! This assessment has been completed in such an outstanding way! I hereby announce that Bai Ruoli has passed this assessment with full marks and she will gain..."

"Impossible, it's just impossible!"

Li Xue'er was so infuriated that she was about to go mad and she couldn't suppress the rage and shock in her heart as she rushed upwards without a care for anything else.

"This Profound Armament couldn't possibly not be damaged! I've seen it with my own eyes that the Mirage Cloudy Rock had dropped into her armament furnace so how could it possibly not be broken? Something fishy is definitely happening here! Ning Xiao, have you colluded together with Bai Ruoli??"

Ning Xiao sneered, "Haven't I already showed you carefully earlier? I definitely have not gone easy!"

"Impossible, you must have gone easy on her! Otherwise how is it possible that this Profound Armament is not damaged at all??"

Chapter 1004: Li Xue'er's downfall (6)

"It didn't break down.... Because Master Bai's skill is superb and had not used any prohibited materials, so of course it wouldn't break down!"

What Ning Xiao said was the truth but the infuriated Li Xue'er apparently didn't believe her words.

With a lightning move of her hand, she went up ahead and snatched the item, "Impossible, Bai Ruoli used the Mirage Cloudy Rock, that's absolutely right! You all must have went easy on her. I'll test it personally myself, I'll test it one hundred times! It will definitely break down!"

"ENOUGH!"

Tang Jinhua couldn't take it any further and sternly cried out to stop her, "Xue'er, what's come over you today? Do you know how terrible you look right now? I have already tested the armament continuously for twenty times according to your request and it was proven that Master Bai's Profound Armament indeed had no problem at all! You're the one speaking at will and spoiling Master Bai's reputation! Not only did you not apologize to Master Bai, you even continued to splash dirty water on her? Which ordinary Profound Armament would not break down after being tested continuously for one hundred times? What can that prove? To think that you even came out with this idea!"

Tang Jinhua was mild tempered and very seldom did he put on such a stern attitude.

If it was usual times, Li Xue'er would definitely not have insisted on her way after hearing what he said.

But today, Li Xue'er only had one thought left and that was if she could not pull Huang Yueli down, then she would have to run around naked! Furthermore with Huang Yueli's innate talent, once she entered the Armament Guild, would she Li Xue'er even had any standing left?

"No way, this Profound Armament definitely had a problem! I will definitely prove that it had a problem!"

Li Xue'er stretched out her hand and grabbed the necklace. Huang Yueli stretched out one hand and held on to her wrist, "Senior Sister Li, why are you so agitated? The Profound Armament which I had refined is very valuable and if you were to spoil it, can you even afford to pay for it?"

"Let me go!" Li Xue'er wanted to shake her hand off but realised that Huang Yueli's strength was extremely big and she had no way of resisting it at all!

Huang Yueli's fingers held on to her wrists gently as though she didn't used too much strength.

She laughed lightly, "Senior Sister Li, why do you keep insisting that I had used the Mirage Cloudy Rock? Could it be that you have done something wrong and feeling guilty over it?"

"Wh.... What?? How could I possibly feel guilty, ob... obviously it's you who had cheated!"

"Why would I need to cheat? Earlier President Hu had already told me that even if I didn't refine any Profound Armament today, he will still give me a badge and my passing of the certification is a sure thing so why should I take the risk?"

"What? What did you say?"

Li Xue'er's face turned pale white, unable to believe what she heard!

President Hu had already promised to certify this wretched lass? Then what was she still scheming against? Wasn't it just a waste of her effort?

Huang Yueli continued again, "On the contrary, Senior Sister Li, why do you keep insisting that I used the Mirage Cloudy Rock? Most Armament Masters would not even think that there would be anyone who would use this to cheat right? Your casual guess went straight to this answer so could it be because.... you yourself had used the Mirage Cloudy Rock to cheat so everyone seemed to be cheating as well?"

"You... what do you mean?" Li Xue'er's eyes grew wide.

Tang Jinhua heard the meaning within her words and asked, "Master Bai, what do you mean?"

Huang Yueli continued, "I also want to make a report! Actually, while I was in the middle of the assessment, I saw something very interesting. Earlier when Li Xue'er couldn't control the flames and almost caused an explosion, but later on in order to prevent the refining to fail, she added a piece of Mirage Cloudy Rock inside! I didn't want to expose her initially but I had not expected her to splash the dirty water onto me instead so I can only tell the truth!"

Chapter 1005: Li Xue'er's downfall (7)

"You're sprouting rubbish! How could I possibly use the Mirage Cloudy Rock?? You're slandering me! You're obviously trying to exact revenge on me so that's why you're slandering me now!"

Li Xue'er had not expected her to say that and went into a blank for a moment but following that her anger flared up!

She clearly knew in her heart on how serious such an accusation was so when Huang Yueli said that about her, she couldn't take it at all!

Huang Yueli took a glance at her and replied indifferently, "Like what Senior Sister Li said earlier, whether it is slandering or just blank talk, we need to see the evidence! I also request to proceed with multiple testing on the Profound Armament which Senior Sister Li had refined! But I'm not as mean as Senior Sister Li, just test it continuously for ten times will do!"

Li Xue'er heard her words and calmed down.

She didn't know that her own armament furnace had something extra added to it and felt that she was innocent. So since she hadn't committed any wrong, then testing it shouldn't be an issue. In fact, it could also give Huang Yueli a tight slap on her face!

She clenched her teeth and said, "Alright! Test it then! Normal multiple testing are mostly twenty times so you don't need to pretend to be magnanimous and say testing ten times will do or whatever!"

Huang Yueli blinked and smiled, "Senior Sister Li, I'm helping you! If we were to really test it for twenty times... I suspect that the Profound Armament which Senior Sister Li had refined, even without adding in any prohibited items, might break down after twenty times. So wouldn't that be framing an innocent person?"

The words she said wasn't just blind talk. All those newly ascended Armament Masters who had reached the first tier standard existed such a problem and that was the durability of the Profound Armament which they refined were usually weaker than others.

Sometimes even without any intentional fraud, due to the difference in standard, it would also break down easily.

But these words to Li Xue'er's ears were like a tight slap given onto her face!

This was simply looking down on her! Earlier Huang Yueli's Profound Armament had gone through a total of twenty tests and yet it still appeared as though it was new! The result was hers could only stand the standard of testing it ten times?

But if it really were to be tested twenty times continuously, Li Xue'er didn't dare to guarantee that her Profound Armament would be good as new....

Luckily, Tang Jinhua stepped in at a suitable moment, "This.... what Master Bai said is reasonable. Although I don't think Xue'er would use any prohibited materials but since Master Bai has such a query, then it's better that we test it out so that everyone could rest assured! For the sake of fairness, I as Li Xue'er's Master should stay out of this. May I invite any Armament Master who is willing to step out to test it!"

This time, no Armament Master responded at all.

Everyone seemed as though this matter was of no concern to them and looked on from a detached point of view. As compared to Huang Yueli's armament, that type of flocking attitude became an obvious difference!

What kind of level did Li Xue'er have? Helping her test would not gain them any benefits and in fact, it would lower their standard!

Tang Jinhua was helpless and could only pick someone personally, "This.... Miss Mu Limo, Miss Mu, can I trouble you to come up the stage please!"

Mu Limo was also a first tier Armament Master who was newly promoted last year and upon hearing her name being called, she unwillingly stepped upwards.

She didn't say anything much and received the wrist guards from Tang Jinhua which Li Xue'er had refined and clasped it onto her wrists.

A light "Ta" sound was heard and just hearing that gave a feeling which didn't seem like it was secured.

She frowned, "The quality of this wrist guards really isn't great.... Could Mirage Cloudy Rock really have been added to it?"

Chapter 1006: Li Xue'er's downfall (8)

"What?"

Tang Jinhua's forehead creased as the spectators looked on with interest and started whispering to one another.

Li Xue'er bit her lips as sweat formed profusely on her forehead.

Although she had self confidence that she had not added any prohibited materials but to be told off by a senior in front of everyone that the quality of her Profound Armament was very bad was still an embarrassing thing!

Mu Limo prepared herself as she walked to the strength testing stone and using all her force, she stuck out!

An extremely bright “PONG” sound was heard from the impact of her Profound Energy! One could tell that Mu Limo had expended quite an amount of energy!

But after she stopped, everyone took a careful look at the digits on the strength testing stone and all of them expressed a dazed look.

“Hmm? That’s weird, how could the digits be so bad!”

“Right, just slightly over one thousand over kilos, even any worse off second stage realm practitioner would have this amount of strength right? Although an Armament Master’s martial cultivation isn’t as great, but isn’t she still wearing the wrist guards on her arms?”

Mu Limo herself also frowned, “Master Tang, there seems to be a huge problem with this wrist guards! Even without wearing any Profound Armament usually, my results on the strength testing stone would be around one thousand over kilos! This pair of wrist guards seem to add any amplification at all!”

“How could that be possible?” Tang Jinhua replied objectively. Naturally he would not believe that his own disciple would cheat, “Miss Mu, could it be that your condition today’s isn’t too well so your strength is slightly low? Maybe it had nothing to do with the wrist guards!”

Li Xue’er cried out, not resigned to that fact, “There couldn’t be anything wrong with my wrist guards! It must be because of your condition!”

Mu Limo saw that not only did she not admit to it, she even claimed that she had a problem so her expression was rather unhappy as she said, “Since you don’t believe me, how about this. I’ll remove the wrist guards and let you see how much strength is my original power!”

“That would naturally be the best way!”

Li Xue’er was confident that the problem must be with Mu Limo!

Mu Limo just barely touched the wrist guards and was prepared to remove it but whoever knew that her fingers had just lightly touched it when she heard a “clinging clanging” sound—

That pair of wrist guards suddenly snapped into several pieces and the shattered pieces fell onto the ground.

“This.....” Even Mu Limo was stunned.

She indeed felt that there was something wrong with Li Xue’er’s wrist guards and was sure that it could not stand more than ten testing rounds but..... this..... just testing it once had completely caused the Profound armament to shatter to pieces. This was her first time seeing such a thing happen!

Silence filled the Profound Weapon Chambers as everyone stared intently on the stage, unable to believe that such a ridiculous thing had just happened!

However, after a moment of silence was a bustle of exclamations.

“Heavens, am I seeing things? The wrist guards which Li Xue’er refined actually.... actually shattered just like that?? What kind of lousy item was that? If whoever bought the Profound Armament which she refined, just using once only and it was spoilt, then wouldn’t that person lose out big time?”

“You don’t understand, I’ve heard that no matter how bad the quality of most Profound Weapons are, there isn’t any case where it would be damaged just after one time. At least it should be able to be used for twenty times! The durability of her wrist guards are so inferior, it must be exactly as what Bai Ruoli said earlier, she had used the prohibited materials!”

“How could this be? I thought Li Xue’er’s armament refining talent is very high! So she had always been using prohibited materials to cheat us!”

“That’s right, Li Xue’er is a shameless liar! The last time she had even charged me so much for a piece of Profound Armament! She’s a fraud!”

“Luckily Bai Ruoli’s discerning eyes saw through her, otherwise god knows how many more people would be cheated by her!”

Chapter 1007: Her End (1)

Earth shattering curses could be heard. Li Xue’er couldn’t believe that such a thing happened and was both shocked and indignant as her entire body shook!

She pounced over and with her trembling hands, she picked up the shattered pieces of the wrist guards to take a look at it!

She had refined such type of wrist guards several times before and every single time, she was able to refine it successfully! Moreover, the durability and strength were rather good! So when this topic was chosen, she was, in fact, extremely happy and had the confidence that she could complete it properly!

But why did the quality this time..... had such a huge difference! She clearly used her effort to refine it!

For a situation whereby the durability to be so inferior, generally speaking there would only one reason and that was the Mirage Cloudy Rock was added but she clearly had not.....

Wait a minute!

Li Xue’er suddenly thought of something and swiftly turned her head around, looking at a figure right behind her!

At this moment, Huang Yueli happened to be looking at her as well and both their sights matched right together!

“You..... it must be you right? It’s definitely you!” Li Xue’er’s eyes were bloodshot as she stared daggers at Huang Yueli.

Huang Yueli put on an innocent face, "Senior Sister Li, what are you talking about? What does the problem with your Profound Armament have to do with me?"

"You're still pretending!" Li Xue'er got up from the ground and agitatedly rushed over with the intention to hit her, "It must be you. If it hadn't been for the fact that you had done something when I was refining armament, how would you possibly know that my Profound Armament has a problem and even said I used the Mirage Cloudy Rock! You even suggested to do the testing continuously!"

Huang Yueli's feet moved aside and evaded her attack as she displayed an aggrieved expression which had been maligned by someone.

"This... Senior Sister Li, you can eat indiscriminately but you cannot talk like that! I know that you used the Mirage Cloudy Rock and suggested to do the testing and now you said I'm the one who tampered with it? Then Senior Sister Li, earlier you were obviously the first person who said I used the Mirage Cloudy Rock and also the first to suggested to do continuous testing on the Profound Armament which I had refined. Does that mean that you also tampered my armament furnace?"

"I... how could I possibly do such a thing! This... this are two totally different matters!"

Li Xue'er was shot back and almost coughed up blood!

This wretched lass.... actually used the exact same method and words to annoy her!

Li Xue'er was now hundred percent sure that Huang Yueli had definitely discovered what she had done so using the same method which she came out with, she had done the exact same thing and thrown the Mirage Cloudy Rock back into her armament furnace!

She just didn't know how on earth did Huang Yueli realised it and how she managed to do it!

She clearly saw the Mirage Cloudy Rock melt in Huang Yueli's armament furnace but Huang Yueli's Profound Armament was totally fine. But at the same time, her own furnace armament had unknowingly been added with something but she turned out that she knew nothing about it!

Li Xue'er had never expected herself to be maligned and furthermore being charged with such a serious accusation! If she had been ascertained to have used the Mirage Cloudy Rock to pass off a fake product as a genuine one, then she would definitely be shut out by the Armament Guild! The consequence was not something which she could bore!

She wanted to defend herself, to say that she was innocent and it was Huang Yueli who had framed her!

But she had no evidence at all!

What made her even unable to speak was she had just used the same method to frame Huang Yueli! If she said Huang Yueli's accusation was premeditated, then Huang Yueli could say the same thing that Li Xue'er's earlier accusation was also her scheme to frame her!

To use such a method to frame others at the Armament Master certification assessment was a horrible and lowly thing to do, and it would also result in being shut off by the guild!

Chapter 1008: Her End (2)

In this way, Li Xue'er didn't know how to explain so that other people would believe her!

"Li Xue'er, you really made me so disappointed!" Tang Jinhua's voice rang.

Li Xue'er raised her head up frenetically and saw Tang Jinhua's congealed expression and was frightened out of her wits.

She hurriedly threw herself right before Tang Jinhua's feet and started crying out loud, "Master, I really didn't use the Mirage Cloudy Rock! Really! Please believe me! You now best on my armament refining standard! How could I possibly... possible so such a thing? Master, please believe me!"

Li Xue'er was very sure that the only person who could save her now was Tang Jinhua!

"This....." Tang Jinhua saw her weeping so sadly and sympathy filled his heart. After all she was his disciple whom he had taught for several years and had some feelings.

But Tang Jinhua was an exceptional Armament Master with principles and was a just person so the one thing he scorned the most was this kind of shifty behaviour!

If he wasn't such a person, President Hu would never had entrusted him to preside over the Armament Master certification assessment!

"Xue'er, you indeed have some innate talent but you're too eager for success and profit! Don't think I don't know that you've been boasting to everyone that you're going to become an Armament Master very soon! And you even said a lot of things which looked down on other Armament Masters! If you are not able to pass this round's certification assessment, you'd definitely feel very embarrassed right? But even so, you cannot use this kind of method to derive at your aim!"

Tang Jinhua's heart simply ached!

In actual fact, after he had taken in Li Xue'er as his disciple, he had always heard quite a number of students gossiping about her behind her back.

Li Xue'er's character was arrogant and using her identity as Tang Jinhua's disciple, she had done her fair share of bullying the other students but as Tang Jinhua felt that this disciple had some innate talent and most Armament Master's characters were mostly arrogant and aloof which was a common sight, so he just bore with it.

However, this time round, she actually resorted to deception and even cheated during the certification assessment! This had already stepped on Tang Jinhua's bottom line!

"Master, please believe me, I really didn't, I really didn't! It's all Bai Ruoli, all Bai Ruoli's fault!"

"Enough, the results of the testing is already clear to all and you're still trying to deny! With a character like that, how can you even become an Armament Master?"

The more Tang Jinhua heard, the angrier he became!

If Li Xue'er were to admit her mistake and begged for mercy, he might have become soft hearted and be lenient but not only had she not admitted her mistake, she even splashed dirty water onto Huang Yueli!

Tang Jinhua was extremely disappointed, “Li Xue’er, you’ve used the prohibited Mirage Cloudy Rock to counterfeit and according to the Armament Guild’s affiliated regulations, we shall now cancel your results for this round’s certification assessment. At the same time, your status as a high levelled Armament apprentice has also been stripped and you will never be able to register with the Armament Guild for the rest of your life! Now please leave the Profound Weapon Chambers!”

Li Xue’er’s mouth opened wide with shock as she kept shaking her head furiously, “No, Master, you cannot do this to me, Master....”

Tang Jinhua replied coldly, “Don’t call me Master, I don’t have a disciple like you!”

Li Xue’er really became panic stricken this time!

She could not explain the usage of the Mirage Cloudy Rock and this time her results would be cancelled and she would be driven out of the Profound Weapon Chambers were all irreversible matters!

But as long as she was still Tang Jinhua’s disciple, given Tang Jinhua’s special status in the Armament Guild, she would still have hopes of clearing her name in future!

But if even Tang Jinhua were to drive her out, then she would never had any chance of changing her fortune!

Chapter 1009: Her End (3)

“Master, no, please listen to my explanation, listen to me!”

Li Xue’er cried and threw a tantrum and was just short of rolling around and kicking up a fuss on the floor!

She didn’t look one bit like an Armament Master in this way. Instead she looked no different from those food market aunties who were shouting abuses in the streets. Her entire body was filled with soot when she had refined the armaments earlier and her hair was messy, with her head and face covered in grime.

“Heavens, Li Xue’er looks really scary like that!”

“I had never expected her to be such a person. After doing such an embarrassing thing, she even dared to deny!”

“That’s right, earlier she had even maligned Junior Sister Bai of cheating and in the end? Junior Sister Bai’s Profound Armament was just so useful, true gold fears no fire! Whereas her own was refined using the prohibited material and the Profound Armament which she had refined could not be used after one round of testing!”

“Really, to be in the same academy as her, I also feel very embarrassed!”

Hearing the words of despise from the surroundings, Li Xue’er couldn’t help but feel that she wanted to kill herself! She would not even be able to wash herself clean even if she jumped into the Yellow River!

However, the matter wasn’t resolved yet.

A shuffle of footsteps was heard coming from her back and following that, Huang Yueli's voice hovered over her head.

"Li Xue'er, you seem to have forgotten one thing!"

"You... what else do you want? Haven't I been harmed into such a terrible state by you??" Li Xue'er instantly raised her head with a face of fury, as though her eyes were about to shoot fire out!

Huang Yueli's lips rose upwards slightly as she took her own sweet time to talk, "Senior Sister Li, I don't understand what you mean, I harmed you? Your cultivation and ability is so different from mine so why would I even waste my time to harm you? I can only say, the evil that you brought about yourself are the hardest to bear! If you do something bad, there will be retribution!"

"You.... You.... Don't think you've won already. I... I won't let you off!"

"I've heard you said that umpteen times until my ears are growing callus! If you have what it takes to win me, I welcome your challenge anytime. But now.... isn't it time to fulfil the bet between us?"

".....bet?"

Li Xue'er blankly repeated and couldn't recall what she was saying.

Huang Yueli kind heartedly reminded her, "This morning when I was registering, we made a bet that if I could obtain the Armament Master certification, you would run around naked in Sky Cloud City's streets! Senior Sister Li, surely you're not intending to renege on your debt so you're pretending to forget about it right!"

Li Xue'er suddenly recalled this as her eyes saw black and almost fainted on the spot!

She wanted to renege on it but earlier she had really forgotten cleanly about it because all she had on her mind was that she was shut off by the Armament Guild and also driven out by her Master!

Now, before things had even been resolved, another heavy blow came striking on her!

Huang Yueli continued, "Before the second round of assessment started, I still reminded you about it and so many people heard about it, isn't it? I gave you a chance to take it back but you yourself said that you will definitely keep your word! Now it's time for you to fulfil your promise...."

Li Xue'er's entire body was soaked in cold sweat and she couldn't stop trembling!

She had now become a rat whom everyone wanted to beat and if she were to go run around naked....

Then she would really have no face to live anymore and for this entire lifetime, she would be too embarrassed to take another step in Sky Cloud City!

"You... what are you saying? Junior Sister Bai, you... how could you be so heartless? At least I.... I'm your fiancé's sister, and your future sister-in-law!"

Chapter 1010: Her End (4)

Huang Yueli sneered, "So what about it?"

“You are able to deal with your sister-in-law with such a heavy hand and asked me to run around naked? Where on earth would there be such a heartless and sinister woman like you?”

Li Xue'er started shouting out loud.

She couldn't be bothered about anything else now!

Anyway she had already been embarrassed enough! So she would also admit to being shameless!

She only knew one thing, she absolutely could not run around naked! Otherwise the entire Sky Cloud City would treat her as a laughing stock and in future even if she was able to turn around, this would also become the biggest stain for her entire lifetime! Furthermore, there wouldn't be anyone reputable man who dared to take her as his wife!

Li Xue'er wailed like a ghost and howled like a wolf and that egged Tang Jinhua's sympathy. Thinking that they were once Master and disciple, he couldn't bear to see her end being so miserable.

He opened his mouth, “Master Bai, Li Xue'er had already gotten her just desserts so is it possible... that you can give me some face....”

Huang Yueli's eyebrows rose, “Master Tang, you're so defensive of Li Xue'er so aren't you afraid that other people would be mistaken that you're the same like her and actually a scum who secretly used the Mirage Cloudy Rock to cheat others?”

Tang Jinhua choked instantly because what Huang Yueli said was the truth. Initially their Master-disciple relationship would have caused other people's suspicions so it would be safer to avoid doing anything which might arouse suspicions. But that wouldn't be able to purge the suspicions and if he were to continue helping Li Xue'er...

Huang Yueli turned towards Li Xue'er, “You're going on your own to run around naked or do you want me to get someone to remove all your clothing and throw you out?”

Li Xue'er knew that she knew that she was capable of doing what she said and was scared out of her wits as she started screaming, “Second Brother, I'm your biological sister. Bai Ruoli wants to throw me out to run around naked, you.... you'd dare to do such outrageous act?”

She wanted to make use of kinship to suppress them, thinking that if Li Moying needed his reputation, then no matter how he hated her, he would still have to save her today!

Alas, her thinking was wrong!

How would a matchless expert like Li Moying be scared stiff by a few words from her?

Moreover, he only had Huang Yueli in his eyes! As long as his little fox was happy, he didn't mind going against everyone in the entire world! Moreover it was to deal with a disgusting person!

Li Moying stretched out his hand and snapped his fingers.

In a flash, Mo Yi appeared in front of him and bowed, “Master, your instructions please.”

Li Moying said, “Go help Third Miss out. Seeing her being so long winded and yet she wasn't able to even fix up that dumb thing!”

Mo Yi responded, "Yes", then turned around and left.

Principal Jiang and the rest were just watching on the side lines and without any exception, their faces were filled with terror!

On one hand was because Mo Yi had always been hiding nearby and none of them noticed it so it showed how powerful the invisibility skill the Shadow Guards had!

On the other hand was because of how much Li Moying had doted on Huang Yueli, to go to such an extent!

Even though Li Moying's words sounded like he despised her, but who would have recognised it as his way of pampering her.

No matter what, Li Xue'er was indeed his sister and even if they had long heard about their enmity, but most people, for the sake of their own reputation, they would have let Li Xue'er off.

No one had expected that Li Moying would be so resolute, and couldn't bear for Huang Yueli to suffer even a bit of injustice!

Mo Yi just stepped up on stage and didn't even bother to say anything superfluous so he directly tapped her mute acupoint. Following that he stripped her naked and threw her totally nude outside the Profound Weapon Chamber's main entrance!
