

Weaponsmith 1061

Chapter 1061: So it's not a lie (5)

At this present moment, Li'er was still worried about his body and that made him very touched but this gentleness hurt him even more.

He finally understood why Li'er flatly denied her relationship with Liu Buyan.

It was probably worried that it would be because of jealousy and not willing to let Liu Buyan do a consultation for him...

His Li'er was always so considerate, and even considered the fact about his feelings and pride, only... until today, he had neither qualification nor courage to deserve her goodness.

For an arrogant man like him, if he couldn't gained her entirely, then he might as well... give up totally!

The minute this thinking flashed past his head, Li Moying felt his chest hurt extremely, making a determined man like him unable to accept it.

He didn't want to make a fool out of himself in front of her, and he ran off in a discomposed state, without turning back to take a look at her!

"Li...."

Huang Yueli wanted to open her mouth and call out to him but discovered that her throat was incomparably hoarse. She called out the first word but was unable to continue.

Looked like Li Moying had already ascertained that she and Liu Buyan were a pair!

Seeing how disappointed Li Moying was, she wanted badly to stop him.....

But what right did she had to stop him? Even if she did, what could she say?

Even if she did clear up and explained clearly on the matter between Liu Buyan and her, so what about it?

In the end, she still couldn't be together with Li Moying and since that was the case, she might as well not explain and let him continue misunderstanding her. Anyway, the end result was the same so it was better to just get the pain over rather than prolonging the agony.....

Only thing was her heart was still uncomfortable, feeling that she had missed something very important to her.....

.....

After Li Moying left, Huang Yueli stayed in her room alone and nothing she did could perk herself up.

She had originally intended to go refine armaments in the room next door but after she lit up the furnace flame, she discovered that she wasn't able to quieten down her heart and not only could she

not complete refining, because her mind wandered about, she always made the furnace exploded. Even if she managed to react in time, she still ended up with a headful of smog, cutting a sorry state.

She left the armament refining room in anger, feeling that everything was not going smoothly today.

Usually, no matter how frustrated she was, the minute she stood beside the armament furnace, she would naturally calm down and focused on armament refining.

But today, she had no way to calm down and her eyelid kept twitching, feeling uneasy.

Why on earth was this? Was Li Moying's influence on her that big?

She left the armament refining room, thinking to take a shower. When she walked to the courtyard, she suddenly heard disorderly clamouring from outside, and in between there were several young men and young ladies' screaming continuously.

What kind of situation was that? Celestial Light Academy's nights were usually very quiet and had never been so disorderly before!

She was preparing to head out for a look when suddenly, there was a knock at the door.

Furthermore, the person knocking sounded very urgent as he pounded hard, while he was knocking, he shouted at the same time, "Third Miss! Third Miss! Are you in? If you are, please open the door for this subordinate!"

Huang Yueli recognised Mo Yi's voice and her heart pounded hard, as an ominous feeling overcame her!

She shot like an arrow to the door and opened it.

When Mo Yi saw her, he shouted anxiously, "Third Miss, something bad has happened! When Master returned to his courtyard this evening, his illness suddenly acted up!"

Chapter 1062: Li'er, you're mine! (1)

Huang Yueli answered in shock, "What did you say? Li Moying he.... his illness acted up? Why did this happen?"

Mo Yi sighed and looked as though he wanted to say something but he still stopped himself, only saying, "Third Miss, after Master came back from your place today, he shut himself in the room alone. As is mood wasn't good, the few of us didn't dare to go near... because of that, no one knew when his illness acted up. By the time we discovered it, Master had already lost all rationale, and dashed out from his room!"

Although he didn't dare to say it out directly, but he tactfully expressed the discontentment in his heart, hinting secretly that Li Moying had turned out like this because of Huang Yueli.

Huang Yueli couldn't be bothered to haggle with him as she questioned anxiously, "Then how... is he now?"

“Master dashed out into the academy directly and now the academy is in a state of chaos! Principal Jiang and the rest have come out to stop him but they were not able to do so. Shadow guards have been sent back to our Sect to request for aid.... The noise is so loud outside, Third Miss didn’t hear it at all?”

Huang Yueli frowned and she replied in annoyance, “Earlier I was in the armament refining room and the soundproofing array there is too effective so I couldn’t hear a single sound at all!”

When Mo Yi heard that, his tensed expression relaxed a little.

Huang Yueli cried out, “Why are you still in a daze here for? Do you know where your Master is now? Quickly bring me to him!”

Mo Yi quivered and immediately responded, “Yes, Third Miss please follow me to save Master!”

He turned around to lead the way and Huang Yueli hurriedly followed.

By now, Celestial Light Academy was completely in chaos.

The two of them passed by a few streets and there were obvious signs that it had been struck by lightning and some houses had even collapsed by a large half as various terrified students were escaping around everywhere.

The academy’s teachers had all been called to maintain order but the academy was still extremely chaotic.

When Mo Yi brought Huang Yueli to the academy’s central square, his footsteps halted as he showed a serious look, “Third Miss, Master is just in front!”

Huang Yueli raised her head and saw Li Moying’s figure hovering in mid air, dark purple lightning encompassed his body as it gave a sizzling sound. Just this sound alone made one’s hair stand up.

Right behind Li Moying was a pair of dark coloured wings made out of lightning as it spread outwards, extending to ten over meters. Not only did it enable him to maintain hovering in mid air, it also enveloped him entirely in a zone of ten over meters in the thunder and lightning domain.

That good looking contoured face, under the lighting had originally reflected a pure jade-like skin tone but now it faintly revealed a bluish and chilly light. His eyes flashed bring about a penetrating glare, looking extremely terrifying.

No one dared to go near him and the boundary of ten over meters of the centre square had been cleared empty. Only the academy’s practitioners who were seventh stage realm and above were standing nearby.

But even so, they didn’t dare to get too close to him. All of them were hiding on the boundary of the square and they were anxiously paying close attention to Li Moying, who seemed like a death god descending on them.

The only one who dared to get a little closer was Jiang Tuxin.

Even so, from his anxious and terrified expression, one could tell that it wasn’t that he was not afraid, or even to say that he was so terrified to the point that he almost fainted.

But as he helmed the highest authority and had the highest power in the entire academy, so at this urgent moment, he was duty bound and could only brace himself to face the music.

Chapter 1063: Li'er, you're mine! (2)

"Young... Young Sect Master, please quell your anger... just instruct us on whatever commands you have, this subordinate..."

Jiang Tuxin was trembling with fear as he opened his mouth, bearing a sliver of hope that he would be able to convince Li Moying.

However, Li Moying only casted one glance at him before spitting out one word, "Scram!"

Purplish lightning and thunder broke through the sky and came attacking towards Jiang Tuxin.

"Principal Jiang, be careful!"

"Quickly hide!"

In the burst of shrill screams, Jiang Tuxin used all his skills and barely just managed to avoid most of the lightning attack but the clothes on him were all burnt and the skin on his chest had been burnt to a charred black colour!

Jiang Tuxin drew in a mouthful of cold air, feeling that the clothes on his back had been completely soaked in cold sweat! He was both alarmed yet glad that Li Moying only struck casually with no intention to kill him, otherwise... even if there were one hundred of him, it would be difficult for him to escape from death today!

Just at this moment, a voice rang from behind, "Principal Jiang, are you alright?"

Jiang Tuxin turned around and gave a bitter smile, "Protector Mo, you're here!"

Mo Yi nodded as he turned around towards Li Moying's direction and immediately frowned, "Master's illness this time... seems even more serious!"

Jiang Tuxin wiped the sweat off his forehead and felt that his legs had gone wobbly.

"I've finally grown some knowledge this time round! In the past I've heard the others talk about this previously that ever since Young Sect Master have caught the Soul Detachment Illness, everytime his illness acts up, it's extremely dangerous. His cultivation would rise sharply to ninth stage realm peak and his potential is so strong that it reached the standard of heaven defying, no one is able to withstand one strike from him! I had always thought it was exaggeration and never expect that the real scenario even more shocking than what the rumours are!"

Mo Yi's expression sunk, "Every time Master acts up, he will indeed lost control and his cultivation will rise sharply, but this time, the situation isn't quite the same."

Jiang Tuxin replied, "Yes, I've heard that Young Sect Master's Soul Detachment Illness will only act up every full moon's night but today isn't the night of the full moon, so why did he... suddenly....."

Mo Yi replied, "Master had suffered serious agitation, which led his illness to suddenly act up...."

"Agitation? Who dare to make Young Sect Master agitated?" Jiang Tuxin was extremely puzzled.

Mo Yi pursed his lips but did not explain further while trying to change the topic, "The most important thing now is to make Master quieten down now. If this goes on, not only will he use lightning and thunder to strike the academy until ruins, furthermore his own Profound Energy will be depleted and not only will he sustain a serious internal injury, it might even affect his primordial spirit!"

"These.... how could I not know about these? But... Protector Mo, easier said than done! Young Sect Master is now like a death god who had descended on earth so who can make him quieten down? Even if all of us go up against him, I think there's not even enough of us to be struck down by him!"

Mo Yi responded, "Of course we cannot rely on you but I've invited our saviour!"

"Saviour?" Jiang Tuxin gave a puzzled look.

Mo Yi nudged a little to the right revealing Huang Yueli behind him.

When Jiang Tuxin saw the slim and graceful beautiful young lady standing behind him, he first went into a daze before rubbing his eyes in disbelief, and later shutting his eyes. When he reopened his eyes again, he saw the same image right in front of him.

Jiang Tuxin couldn't help but shrieked, "Protector Mo, the saviour you're referring to... isn't Bai Ruoli right?"

Mo Yi nodded and replied, "That's right, it is Miss Bai.

Chapter 1064: Li'er, you're mine! (3)

Jiang Tuxin's expression turned green immediately as he replied in a bad mood, "I say... Protector Mo, stop pulling my leg! What kind of timing is this! Can't you tell that Young Sect Master have already turned into this state? If you're not going to think of ways to solve this, I'm afraid even before the aid from the Sect arrived, my Celestial Light Academy would be completely ruined!"

Mo Yi saw this old man got so infuriated that he started to shiver and his heard was quivering as he hurriedly comforted him, "Principal Jiang, don't belittle Third Miss! If there's anyone who can control my Master, I'm afraid she would be the only one!"

"He he, Protector Mo, you're not any younger yourself, how could you be so muddled when it comes to a critical timing like this?" Jiang Tuxin took advantage of his age and replied immodestly, "If Young Sect Mater is clear minded, I naturally won't suspect that he will give way to Miss Bai! But can't you see the current situation that Young Sect Master is in right now? He probably doesn't even know who he himself is right now so how could he possibly remember who Miss Bai is? Miss Bai is merely a third stage realm practitioner and doesn't have as thick skin and flesh like me, how could she withstand Young Sect Master's thunder strike?"

Mo Yi shook his head as he continued, "Principal Jiang, you're saying that because you don't understand Master and Third Miss. Anyway if even Third Miss doesn't have a way to save Master, then no one else will! Even if the elders from the sect appears, they might not have a better way than Third Miss!"

Jiang Tuxin apparently doesn't believe his words as he blew his moustache and widened his eyes retorting angrily, "Nonsense, too nonsensical! I will not allow Miss Bai to do such a dangerous thing! She is the number one genius in our Celestial Light Academy for the past few centuries and she's even a valuable Armament Master, so how can I allow her to give up her life like that?"

No matter what Mo Yi said, Jiang Tuxin refused to believe him.

Mo Yi could only shift his gaze onto Huang Yueli, Third Miss, do you think... there's any way?"

Ever since Huang Yueli reached the square, she had her eyes fixed onto Li Moying and the more she looked, the more serious her expression became.

The situation of Li Moying's illness this round seemed much more serious than the previous few times!

In the past, although his senses weren't clear, but he could at least used his strong ability to control the thunder attributed energy within his body and wasn't that disorderly.

But this time, Li Moying's back gathered the pair of thunder wings and that was formed by the vast amount of energy unleashed from his body, an indication of a ninth stage realm practitioner's Profound Skill!

This pair of thunder wings for the current Li Moying wasn't of any help but yet he managed to solidify it out. This meant that it wasn't out of Li Moying's intentions, more likely.... His body's Profound Energy leaked out uncontrollably and was unconsciously formed!

Li Moying actually didn't control his own Profound Energy!

That meant to say that his Soul Detachment Illness symptoms had worsened once again!

This.... was all because of her?

Huang Yueli was both feeling heartache and guilt as her heart was worried to the max!

At this moment, she heard Mo Yi's enquiry and immediately replied, "Li Moying's condition today is very bad so I cannot guarantee that I am able to make him turn back to normal. But we simply cannot afford to let it drag on any further. I will go and give it a try now!"

Mo Yi respectfully bowed, "Third Miss, we'll have to trouble you then! Please expend your hardest effort!"

"Don't worry!" Huang Yueli nodded and her expression turned resolute as she walked towards the thunder storm direction.

Jiang Tuxin saw that she really walked over and was scared till his face turned pale.

"Come back! Bai Ruoli, come back right now! Don't you know how dangerous it is over there?"

Chapter 1065: Li'er, you're mine! (4)

However, Huang Yueli seemed as though she didn't hear anything and continued to head forward.

Jiang Tuxin grew even more anxious, "You... come back right now! Even an eighth stage realm practitioner like me don't dare to walk over like that! How many lives do you think you have? You dare to look for death like that?"

He was really anxious, this was the number one genius in Celestial Light Academy and her life was thrown away by a moment of rashness to save someone, what a waste it would be!

Jiang Tuxin flashed past and attempted to pull her back.

However, Mo Yi blocked him, "Principal Jiang, don't be too hasty. Third Miss never does things which she's not confident about, just wait and see!"

"What kind of joke is this.... this is a matter of life and death!"

Jiang Tuxin didn't believe these words but just that short obstruction from Mo Yi, Huang Yueli had already gotten close to Li Moying and he was not able to stop her in time, and could only watch her with his eyes open, getting nearer and nearer, nearer and nearer.....

As Jiang Tuxin and the other teachers and students held their breaths and they watched closely, Huang Yueli slowly inched closer to Li Moying, one thousand meters, nine hundred meters, eight hundred meters...

Just when the distance between the both of them were around one hundred meters or so, Li Moying's surrounded lightning had already enveloped Huang Yueli entirely.

Seeing the sparking electricity on Huang Yueli's body, each of them present were so nervous that they almost forgot to breath.

"Heavens, Bai Ruoli's hair are all standing from the static! Just how strong are the thunder attributed energy waves!"

"It's too scary! The pressure that Bai Ruoli is suffering right now must be extremely shocking!"

"What should we do? There's still one hundred meters? I think it's difficult for her to make even one more step? If she goes forward any further, she will definitely be burnt to a crisp!"

However, what gave everyone a big surprise was not only did Huang Yueli's advancement not slowed down, but she continued walking step by step, unhesitatingly towards Li Moying's direction.

What was different from everyone's imagination was the thunder zone hadn't affected her much.

Because she had ninth grade thunder attributed innate talent so her acceptance towards thunder and lightning were totally different from what an ordinary student could imagine.

Li Moying had his pair of eyes half closed, his brows furrowed, maintaining a hovering position, not moving and as though he had not noticed anyone intruding into his zone.

It wasn't until the two of them were left with ten meters in between when he suddenly opened his eyes.

His eyes had a purplish lighting hue, suddenly bright and suddenly dim, as his gaze gave an obvious cryptic and deep meaning.

“Woman, did I allow you to get close to me? Get lost!” His voice bore a kind of melancholic magnetism.

Huang Yueli raised her eyes to look at him in the eye and not only did she not retreat, she shot straight forward right to him, and subsequently.... Caught him by the hem of his long robes pulling him downwards.

She mumbled, “Pretending to be a bird man for what? Come down right now!”

“Go away! Don’t make me repeat the third time!”

Li Moying’s expression became even more gloomy as the surround thunder attributed Profound energy turned even more wild, as strong pressure suppressed everything in all directions. Even those teachers standing several miles away felt the immense pressure and they kept retreating!

But Huang Yueli’s feet didn’t move an inch as her small hands grabbed him lower hem, “Quickly get down here! I don’t want to repeat myself for the third time!”

“Heavens, has Bai Ruoli gone crazy? Hadn’t she seen what a terrifying condition Senior Brother Li is in right now? Still dare to talk to him in this way? Does she think that he’s still that fiancé who is docile and obedient to her whims? She’s simply too innocent, Senior Brother Li doesn’t even recognise her now!”

Chapter 1066: Li’er, you’re mine! (5)

“It’s over, it’s over! Bai Ruoli’s going to be finished this time! Senior Brother Li only need to use one finger to crush her, why does she need to invite her own death by being so reckless??”

Everyone broke out into a cold sweat on her behalf.

Li Moying looked down at her from the top, and his vision swept past this delicate but obstinate face.

Although his mind was in a state of confusion, so painful to the extent of exploding, but the instance he saw her, he subconsciously felt his heart jolt.

His mind had not yet reacted in time when his body already made its own decision and following Huang Yueli’s strength, he slowly descended, falling right in front of her.

Li Moying’s lips broke out into an icy smile, “Woman, you have a lot of guts! Dare to talk in this manner to me, are you trying to look for death?”

His voice became chillier, making those who heard him shivered.

“That’s it, Bai Ruoli is definitely dead this time round!”

Everyone were surprisingly united towards this outcome and some of them couldn’t bear to continue watching as they covered their eyes.

But the next moment, Li Moying made a move which surprised everyone.

He grabbed hold of Huang Yueli's sleeve and pulled her to his side, following that, with lightning fast speed, he lowered his head and locked her lips!

"Mmph!!!" Huang Yueli's eyes turned super wide!

Although in the past she had always relied on kissing to make Li Moying calm down, but considering that she had just drawn the line with him yesterday, she originally planned to use other methods, for example to coax Li Moying in taking the pills or something like that, and if it didn't work, then using her mouth.

In the end, Li Moying didn't even bother to waste time on talking and the minute they didn't agree on something, he locked her lips immediately!

She pushed his chest but unfortunately, she usually wasn't even able to push this man away, what more about now when his ability had rose so sharply?

Huang Yueli could only allow this man to lock her right in front of him, using a kind of overbearing stance which was going to swallow her up, as he kissed her passionately.

Not knowing how long had passed, Huang Yueli's lips swelled. When Li Moying kissed her he was unusually rough and even kept biting her, flesh blood started to drip from the corners of her mouth.

Huang Yueli was in so much pain that she couldn't wait to hack at him but all she did was to struggle slightly and the strength which Li Moying used to lock her waist increased. The more she struggled, the tighter she was restraint and in the end, it became so tight that she found it hard to breathe!

At this moment, the only thought she had left in her mind was who would come and knock this hungry wolf like pervert unconscious! Did he really treated her like food, trying to eat her down in one mouth??

Huang Yueli couldn't not be concerned about anything else now but those people who were standing afar were all stupefied as they watched the duo.

The thunder and lightning in the sky had gradually subsided. First was that pair of wings behind Li Moying, which became lighter and lighter, smaller and smaller until it completely vanished. Immediately following that, his raging Profound Energy around him was also under control. Thunder attributed energy became the centre of his position as it slowly withdrew and after one hour later, it was completely taken in by his body.

The square slowly regained its peacefulness as the shining moonlight shone and restored the tranquillity.

If it wasn't for the fact that the surrounding trees and buildings were in ruins because of the lightning strikes, no one would believe that one hour ago, such a shocking scenario had just happened!

Jiang Tuxin bore an expression as though he saw a living ghost as his fingers trembled while pointing at these two people.

"This.... this..... how did it turn out to be like this?"

Chapter 1067: Li'er, you're mine! (6)

Mo Yi shook his head and said, "I also don't know how this can happen, but every time Master's illness acts up, only Third Miss has the ability to calm him down."

"But... this... wasn't it said that even Divine Doctor Liu had no way to cure Young Sect Master's Soul Detachment Illness, so why is it that Miss Bai used.... this kind of method and she's able to cure him? This is simply too ridiculous!" Jiang Tuxin was still in disbelief.

Mo Yi replied, "No matter how ridiculous, the truth is displayed in front of us."

Jiang Tuxin bore with his desire to continue pursuing and said, "Then now... what should we do?"

"Since Master has already calmed down, it shouldn't act up again and this area should be safe now. Principal Jiang, go ahead and maintain the school's order. We still have men here so when Master's energy is depleted and blacks out, we will naturally handle the matters later on."

"Since that's the case, then I shall make a move!"

Jiang Tuxin turned back to take a look and left.

Not long after he left, Li Moying finally felt the raging pain in his brain subsiding and his consciousness resumed back to normal instantly.

But following that, the soft touch in his embrace made him think that he had started hallucinating.

He let go of her lips and loosened the grip on her shoulder, as his throat made a rustling hoarse sound, "Li'er, yo're..... mine!"

Just after he finished his words, he saw black and completely collapsed.

After Huang Yueli regained freedom, she immediately touched her lips and upon a light touch, she couldn't help but make a "sssss" sound.

It's too painful! Not only was the skin broken, it seemed to be swollen badly!

This man.... was simply like a beast reincarnated!

Just as Huang Yueli was about to start scolding him, she noticed the man's tall statue falling towards her and she instinctively grabbed hold of him. Li Moying fell onto her shoulder, totally not moving as he lost consciousness.

Huang Yueli patted his face with strength, "Li..... Li Moying! What's wrong with you? Quickly wake up!"

She raised her hand and placed it on Li Moying's forehead, and upon the touch, it was scorching hot and that made her grew anxious.

Although Li Moying had always depleted his strength and fell unconscious every single time his illness acted up, but this was the first time his body temperature raised to such a high degree and recalling that his condition today had been so serious, this... wouldn't cause any problems right?

At this moment, Mo Yi and the rest had already rushed over.

When Mo Yi saw this, he hurriedly said, “Third Miss, we’ve prepared a stretcher, let’s bring Master back to the courtyard now!”

“Alright, you all must be extra careful, his condition looks really bad.....”

“Third Miss please be assured, we will do our best.”

The few shadow guards went forward and tried to place Li Moying onto the stretcher.

But no matter how they pulled, Li Moying refused to budge and sprawled himself onto Huang Yueli’s shoulder, totally unable to pull him down at all.

The shadow guards didn’t dare to be rough with their own Master and could only looked at Huang Yueli with a perplexed expression.

“Third Miss, this.... we can only trouble you...”

Huang Yueli had no choice and could only carry Li Moying horizontally as she placed him onto the stretcher.

“Alright, send your Master back now, the night is late, I should.....”

As she was saying, she stood up and halfway through, she felt a tight grip on her arm.

Lowering her head, Li Moying’s body happened to lay onto her right sleeve.

Huang Yueli tugged a few times but was not able to pull it out.

Chapter 1068: An unbelievable answer (1)

Huang Yueli’s lips twitched as she couldn’t help but suspect if Li Moying’s unconsciousness was faked? Otherwise how could it be so coincidental that he would lay on her sleeve?

Mo Yi hurriedly added, “Third Miss, looks like we will have to trouble you to go back to the courtyard with us! Master trusts you the most and we aren’t as attentive as you, so we might not be able to take care of Master properly.....”

Huang Yueli knew that these were excuses but she really couldn’t rest assured about Li Moying’s condition so she finally nodded and agreed.

The Shadow Guards carried Li Moying while Huang Yueli walked by the side of the stretcher. The group of them walked back to Li Moying’s little courtyard.

When they reached Li Moying’s room, the Shadow Guards laid down the stretcher and speedily flew out of the door.

That speed was like they applied oil onto their feet. By the time Huang Yueli reacted and wanted to stop them, they had all disappeared without a trace!

Mo Yi was the last to leave and he specially and sincerely said, “Third Miss, the trouble must still be solved by the one who started it. Master’s illness acted up because of you this time so please stop

quarrelling and make up with him! As the saying goes, you start the fight at the head of the bed and you make up at the end of it, we'll leave this space for the both of you....."

"What nonsense are you talking about??"

Huang Yueli's face flushed a deep shade of red as she wanted to rush upwards to hit him!

But her sleeve was still stuck below Li Moying and as she ran halfway, she was thrown back.

Mo Yi took the chance to wrung his neck back and closed the door before he slipped away quickly!

Huang Yueli helplessly shook her head as she stretched out to tug her sleeve.

This time, she managed to pull it out successfully but she didn't want to leave now.

Seeing Li Moying in such a pitiful state, she simply could not rest her heart.

Huang Yueli carried Li Moying onto the bed and removed his shoes before undoing his buttons.

Seeing Li Moying's flushed expression and his body kept giving off that unusual heat, as he kept wriggling around uneasily.

Huang Yueli expended quite an amount of strength before she managed to remove his outer clothing. In the end, his inner shirt had completely been drenched in sweat.

Li Moying was already running a fever and if he continued to wear his damp clothes, there was no way his body temperature would drop.

Huang Yueli had no choice but to remove his inner shirt.

But taking of a man's inner shirt was a rather ambiguous matter. Especially after Huang Yueli removed Li Moying's collar buttons, that perfect figure was instantly exposed, that robust and sculpted contours on his body made Huang Yueli unable to resist taking a few more glances

It was until Li Moying gave a low moaning sound before she reacted and realised that her hand was actually touching his body.

She tried to withdraw her hand but was held by Li Moying's scorching hand.

"Little fox..."

The man's low groaning as his tone was mixed with a hoarse voice brought about by the high fever, kept reverberating.

Huang Yueli couldn't hear him clearly as she inched in slightly closer and asked, "What's the matter? Where are you feeling unwell? Are you thirsty? Let me go, I'll get your some water and fever reducing pills, you have to take some."

As she was saying that, she pulled her hand out and tried to stand up.

However, Li Moying tugged on to her refusing to let go as he kept mumbling, "Little fox, don't leave... don't leave me....."

Huang Yueli was stunned, and it was until now that she heard him clearly that Li Moying actually called her “little fox”!

This greeting really made her reminisce....

Chapter 1069: An unbelievable answer (2)

In her past life, Mu Chengying had called her in the same way and now Li Moying called her that several times.....

Was it just a coincidence?

Something seemed to flash past Huang Yueli’s mind, feeling that something was wrong but she wasn’t able to grasp that thought...

She wanted to push Li Moying aside but upon touching him, feeling his scorching hot chest, it made her go into a dilemma.

Huang Yueli’s face flushed as she cried out softly, “Li.... Li Moying, let me go! I’m not going to leave, just going to get some water for you to take medication, be obedient.....”

“No, I’m not letting go!” Li Moying abruptly rejected.

Huang Yueli stared hard at him, this man was too childish wasn’t he. He’s already so sick to this extent that’s he’s already unconscious but he still doesn’t know what he’s doing? Still so wilful? Simply no different from a three year old kid!

Just as she was preparing to fire up, Li Moying suddenly moved and immediately after that, he sat upwards.

“Hey, why did you suddenly get.... up...”

Huang Yueli wanted to push him down but facing Li Moying’s eyes, her heart raced wildly!

Because Li Moying’s expression..... looked too terrifying, totally not like his usual self!

That pair of alluring peach blossom eyes shone a cool, stern ray and his expression was deep but reserved, yet bringing about an undebatable imposing manner!

At that moment, she thought she was looking at Mu Chengying.....

Just as Huang Yueli was in a daze, Li Moying had already brought her into his embrace as he hugged her tightly. That kind of energy was so powerful and tight that she found it hard to breathe.

“Li Moying, what are you doing? Let.... Let me go! I can’t breathe!”

But Li Moying seemed as though he didn’t hear her. Huang Yueli even began to feel that his body shaking continuously.

“You.... what are you doing?”

Following that, she heard Li Moying’s voice by the side of her ear.

“Little fox, you’re not allowed to leave! I will not allow you to go search for materials on your own.... Do you know how dangerous the places you are heading are? Because of armament refining, don’t you even want your life? No way, without me accompanying you in future, you’re not allowed to go to such dangerous places!

“Hey, what concern does it have to do with you? I have my own personal freedom to go wherever I want to!” Huang Yueli subconsciously rebuked.

But very quickly, she realised that something was wrong.

“Wait a minute, when have I gone to any dangerous places to search for materials?”

Ever since her rebirth, due to her lack of ability, hadn’t she been extra careful in everything she did? She no longer dared to go around risking her life like in her past life.....

Not waiting for her to thinking clearly, Li Moying opened his mouth once again.

“Little fox, I know you’re anxious about fixing the Sky Phoenix Ring but... this matter cannot be hurried! Do you know that every time a God Relic appears, how many people’s greed and coveting does it attract? You must maintain a low profile while handling things and do it slowly.... Don’t always trust the people next to you, especially that Eldest Miss from Celestial Heavens Gate...”

Hearing that, Huang Yueli seemed to be struck by lightning as she was so shocked that she could not say a single word!

After some time, she blankly said. “Wh... what did you just say? Sky Phoenix Ring?? How do you know about the Sky Phoenix Ring??”

But Li Moying suddenly stopped talking at this moment.

Huang Yueli struggled in his embrace as she kept wriggling her body, “Tell me clearly! How did you find out about such things? And.... Celestial Heavens Gate’s Eldest Young miss... who on earth.... are you exactly?”

Chapter 1070: An unbelievable answer (3)

Li Moying kept silent, not saying a word.

“Quickly say something!” Huang Yue urged, feeling that she was on the verge of going crazy!

The things that Li Moying said.... was too abnormal and something was absolutely not right!

How could he possibly know about the Sky Phoenix Ring’s matters? And how could he possibly knew about her relationship with Ling Qing Yu? Even calling her little fox.....

He was merely a South Sky Region’s Sect disciple and no matter how good his innate talent was, it was not possible for him to know about the secret about Sky Emperor City’s hidden sacred ground, nor to know about the Sky Phoenix Ring!

In her past life, right before she was surrounded and attacked in the Northern Ice Fields, she only told three people about this, Li Moying, Ling Qing Yu and her master.

Furthermore, Li Moying's tone when talking to her was too intimate and these words seemed as though he had known her long ago, as though she had heard it from Li Moying a very long time ago.....

That year, she was anxious about fixing the Sky Phoenix Ring and many months later, she had continuously went around several extreme locations to search for materials and Mu Chengying was extremely worried and very angry, so..... he seemed to have said the same thing before... and warned her that Ling Qing Yu could not be trusted but she didn't believe him at this time that her closest female friend whom she made since young could possibly betrayed her.....

Scenes by scenes of old memories floated past her mind and an answer suddenly arose in Huang Yueli's heart!

An..... unbelievable answer!

Huang Yueli used all her strength to push Li Moying aside and continued interrogating him, "Why aren't you speaking? Quickly tell me, who on earth are you! What do you mean by the things you said earlier?? Tell me!"

She was extremely anxious but not only did Li Moying not talk, the hand that was holding on to her gradually loosened.

After her forceful push, his entire body gradually fell backwards and he laid limp on the bed.

Huang Yueli's eyes widened in disbelief. At such a critical timing, this man actually.... fainted just like that??

She couldn't care less about the differences between a man and a woman, and totally ignored that Li Moying was currently naked as she pounced on top of him and got close to his ear shouting, "Wake up, quickly wake up! Damnit, what on earth do you mean? Are you.... or are you not.... Him?!"

However, no matter how hard Huang Yueli shook, Li Moying had no reaction at all.

Numerous ants seemed to climb all over her body as her heart was empty and her mind was all confused, totally unable to believe that such a thing could happen!

Earlier those words were obviously something that only Mu Chengying would say.....

Could it be that Li Moying was actually Mu Chengying??

But if he was, then how come he didn't expressed his real identity to her?

Furthermore, wasn't Mu Chengying safely in Blue Profound Sect under closed door cultivation?

If he wasn't Mu Chengying, then how would he knew about such things and who exactly was he?

Huang Yueli wanted badly to know the truth but Li Moying was burning up entirely as his fever seemed even more serious than before.

There were several times when she couldn't hold it in and tried various ways to make him awake so that she could ask him clearly but in the end, she couldn't bear to do so!

No, Li Moying was already very pitiful so how could she not care about his body just for an answer?

It's better that she tolerated with it and wait till dawn before asking him clearly!

Although that was what she thought, but the process of waiting was just too hard to bear with. Huang Yueli was restless as she kept prancing around Li Moying's bedside as she stared at that pale handsome face with complicated feelings.
