

Weaponsmith 1071

Chapter 1071: An unbelievable answer (4)

There were many things which she had not suspected in the past and so she would not be considered in that direction.

But the minute a seed of suspicion was planted, when one looked back, it was easy to find out that actually.... many things seemed to have tiny hints.

For example, Li Moying and Mu Chengying were both thunder attributed practitioners and their innate talents were outstanding, their characters were exactly the same.

For example, Li Moying would usually make some small movements without realising it. The tone he spoke with bore Mu Chengying's shadow and especially after his Soul Detachment Illness acted up, he would say some absurd things and upon recalling that it seemed a little too ambiguous.....

And another example was both of them would call her Li'er, little fox.... Other than that, no one else ever called her in that way.....

Most important was when she was in South Yue Kingdom, the first time she saw Li Moying's looks under that mask, for instance, she had an illusion that the person she saw was Mu Chengying himself!

That pair of penetrating and seductive peach blossomed eyes, was simply alike.

Actually, it wasn't that there weren't any men with beautiful eyes but what really linked that together was the expression in that pair of eyes.... That unfathomable gaze, was something that she had not seen in other people's eyes previously.....

Every time she saw Li Moying, she would feel a sense of familiarity, and to be moved by him was something that she couldn't control. It was as though the both of them had already known one another from a long, long time ago and were so familiar that they were able to connect at such a deep level with each other, and could interact with each other so naturally....

So was that to say that.... they were actually.... the same person?

Huang Yueli was at a loss repeatedly in her heart. She very much wished that the truth was so, as she seemed to have found a bit of evidence.

But this matter was just too outrageous and it made her apprehensive, not daring to put too much heart into it.

Just as her heart was in a flurry, Li Moying who was lying on the bed started moaning once again.

He couldn't sleep peacefully and his brows were tightly knitted, his face extremely pale as his forehead kept sprouting cold sweat.

"Little fox....."

Huang Yueli was just sitting by his bed as she held his hand and replied worryingly, "I'm here, you.... where are you feeling uncomfortable? Do you... want me to get Mo Yi to bring Liu Buyan here and take a look at you....."

The force in Li Moying's hand suddenly increased as he grabbed her delicate hand tightly, making her feel pain.

"No.... don't leave.... Don't look for him....."

Li Moying's thick and black brows trembled several times as he tried to pry open his eyes, looking at her in a daze, trying to see her revealing a weakened expression.

Such an overbearing and arrogant man, the minute he expressed his weakness, the killing power increased by folds.

Huang Yueli's heart jumped immediately and went according to his wishes, "Alright alright, I won't look for him. Can you let me go for a while and I'll pour you some water?"

Li Moying's expression was still dazed and didn't know how awake he was. He looked at Huang Yueli for a while before he relaxed the strength on his hand slightly.

Huang Yueli slipped into the Sky Phoenix Ring and made a pot of Spirit Saint Spring water. She then filled a glassful of water and delivered it to his mouth.

But unfortunately, Li Moying was very uncooperative and no matter how Huang Yueli tried to feed him, the water kept spilling out until his pillow was all wet, and he still wasn't able to drink a single bit of it.

Huang Yueli helplessly shook her head when she saw this.

"Looks like.... There's no other way.... are you doing this on purpose?"

Chapter 1072: Unable to face her (1)

Huang Yueli stretched out her hand and pinched Li Moying's face, looking at his wrinkled up look, her heart seemed to be filled with a little gentleness.

She raised her head up and drank a mouthful of water before leaning over to seal Li Moying's mouth.

Li Moying really obediently opened his mouth and swallowed the Spirit Saint Spring Water down.

Huang Yueli took one mouthful after another to feed him and right after she fed him the last mouthful of water, Li Moying suddenly turned from passive to active behaviour as he started drawing away the breathe from her mouth.

"Mmmph...!!!"

Huang Yueli groaned and tried to push him aside when she felt the Profound Energy within her body seemed to be drawn away and swam towards Li Moying's direction.

At the same time, her primordial spirit also suffered a serious blow, as she felt dizziness congesting her entire mind.

For that moment, she seemed to have felt the suffering that Li Moying's was going through as there was a miraculous link between both their primordial spirits.

She felt her Profound Energy slowly disengaging itself but there was no way to escape. In actual fact, even if she could move now, she would not because the situation of the interconnection of Profound Energies was extremely frail and she didn't even needed to try before knowing that should she attempted to act rashly and blindly which would cause this connection to break, then both of their primordial spirits would be severely damaged!

Just as the Profound Energy in Huang Yueli's body almost seemed to be wrung dry, a dull moan was heard from the back of Li Moying's throat.

Immediately following that was the Profound Energy being poured back into her body, not only did it replaced the original portion which was drawn away, furthermore, there was an additional increase by a lot more!

Not knowing for how long later, Li Moying finally released her as his head turned sideways and he fainted once again.

Huang Yueli tried her hardest to raise her spirit, touching his forehead only to discover in shock that Li Moying's high fever had decreased!

Furthermore, his facial tone seemed much normal as his heartbeat started to stabilise.

Huang Yueli heaved a sigh of relief and started to check her own meridians, only to discover that her own cultivation seemed to have increased and had already reached the third stage realm's peak condition. She only needed an opportunity to breakthrough to fourth stage realm!

Huang Yueli couldn't help but went into a daze.

This... what exactly was going on?

Before today, there were no warning signs of her ability suddenly breaking through.....

Could it be that.... it was because of that kiss that she shared with Li Moying earlier?

She wanted to continue thinking but unfortunately her mind became dizzier and dizzier and her eyelids kept fighting with one another, as she couldn't take it any further and laid down beside Li Moying before faint sleeping as well.

.....

This long night finally went by.

On the next morning, all the way till the sun had raised to the middle of the sky, the room remained tranquil.

Sunlight seeped past the chinks of the curtains and shone onto the bed, but it could not make the couple who were in tight embrace awake.

After some time, the handsome male moved and slowly opened his eyes.

In that moment, his face revealed a puzzled expression as his sight slowly shifted downwards, falling onto his own chest.

His inner robes had been stripped by Huang Yueli yesterday night and right now, he was lying in the nude whereas on his shoulder, a small head bobbing up and down could be seen as he breathed.

“... Li'er?”

Why was she here??

Li Moying cried out in shock, not daring to believe his own eyes but immediately following that, he realised that Huang Yueli was in deep sleep and he didn't dare to startle her so he shut his mouth immediately.

Chapter 1073: Unable to face her (2)

His head was still faintly twitching and he wasn't totally clear minded.

Not only that, his body was still deprived of strength, as he felt extremely lethargic, the reaction was as though he had just been through vigorous exercise.

Generally speaking, after his Soul Detachment Illness then would such a condition appear..... could it be... yesterday...

Li Moying felt that his head hurt even more, as he couldn't help but hugged his head but after thinking for half a day, he simply could not recall clearly what had exactly happened last night.

He could only manage to recall that after he saw Li'er and Liu Buyan together, both of them had a huge quarrel and he left Huang Yueli's courtyard in anger to return to his own room, thinking to use cultivation to quieten his mood, but the more he cultivated, the more frustrated he became...

Then subsequently, he felt that he was losing control of the Profound Energy within his body and his subconsciousness also started to become blurry.....

Consolidating with his body's condition now, that time.... His Soul Detachment Illness should have acted up?

But what happened after his illness acted up? Why did Li'er appear in his room, on his.... bed? Both of them were embraced in such an intimate manner together, sleeping for an entire night?

After Li Moying's careful deliberation, he could only deduce that Huang Yueli was called by Mo Yi and the rest to save him, and probably she managed to control his illness once again.

After that... she should be too kind, not bearing to see this jilted man lying alone on the sick bed and hence she undertook to do what was apparently beyond her abilities and took care of him?

But yesterday she had already displayed the fact that she hated him so much, why was she still willing to sleep next to him?

Could it be that... he wasn't conscious yesterday and used force on her?

Li Moying immediately got nervous as he pulled the blanket aside to check.

Under the blanket, their bodies were tightly wound together and not only did Huang Yueli rest her head on his chest, her arm was still hugging onto his waist. Besides that her thigh and his long legs were entwined together, like a little bird relying on him.

If it wasn't for the fact that he clearly knew she already liked someone else, based on her compromising posture, he would probably mistook that the both of them were very much in love with each other...

But when he saw Huang Yueli's clothes neatly on her, Li Moying heaved a long sigh.

Looked like the both of them were only sleeping soundly under one blanket and no other accident had happened at all.

Otherwise if he had really forced himself on Huang Yueli.... This lass would probably treat him as her enemy for life!

No, it wasn't right to say that nothing had happened!

Li Moying's vision fell onto Huang Yueli's lips and was deeply attracted by that luscious red colour, as his heart thumped.

Especially after seeing the teeth marks on her lips, he started becoming apprehensive.

This.... wasn't bitten by him right...

Just at this moment, footsteps was heard from outside the door.

Following that, someone's whispering floated to Li Moying's ears.

"It's already noon time and the room is still so quiet.... What on earth is happening? Surely nothing has happened right?"

"What could happen? Third Miss is watching over him inside! Third Miss is such an intelligent person, if Master really has any problems, she would have come out and called us, how could she possibly keep silent?"

"That's right too, but... if nothing happened, by this time, at least Third Miss should be awake but there's no movement at all, so this really makes me feel uneasy!"

Chapter 1074: Unable to face her (3)

"Otherwise.... shall we knock and enter to check?"

"That's possible as well...."

"What kind of joke is that? Don't fool around! Perhaps Master and Third Miss are being intimate in the room and not willing to come out. If you were to interrupt them and Master were to flare up, who's going to take responsibility for this?"

Outside the room, were Mo Yi, Mo Er and Mo San.

They whispered very softly but Li Moying's competence was extremely powerful so no matter how tiny the sound was, he was able to hear it loud and clear.

His eyebrows rose as he called out, "What rubbish are you guys talking about? Still not shutting up!"

Mo Yi and the rest didn't expect Li Moying to hear them and all of them quivered, cold sweat sprouting immediately as they hurriedly shut their mouths.

Li Moying turned back and looked at Huang Yueli who was sleeping soundly.

As she was in deep sleep, her fair and sleek face was tinted with a shade of red, looking extremely rosy.

Li Moying subconsciously stretched out his finger and caressed her face. Although Huang Yueli was in deep sleep, she instinctively rubbed against his finger, like a little cat rubbing against her most trusted Master.

Li Moying then realised his movements seemed to resemble a thief as he withdrew his hand.

He had finally regained a bit of strength and tried his best to get up, putting on his outer robe before walking out of the door.

Mo Yi and the rest hurriedly bowed in respect, "Our respects to Master!"

Mo Yi stared at them, "Don't you know how to lower your volume? Li'er is still sleeping inside! Let's change a place and talk."

"Yes!"

Mo Yi and the rest followed Li Moying as he left, but couldn't help but turned back to look at the tightly shut room.

They wondered what Third Miss had been doing with Master last night? She actually slept till now?

You really couldn't blame them for thinking crooked! It was all because of their Master who put it in such an ambiguous manner. Furthermore, Third Miss had always woken up early and had never been in this situation before!

Li Moying brought the three of them into a room by the side and said immediately, "Yesterday night, what happened after I lost consciousness?"

The three shadow guards exchanged glances and Mo Yi stepped upwards, "Master, you should have guessed it already. Yesterday you were too eager in your cultivation which led to your Soul Detachment Illness acting up. You rushed out all the way from your courtyard into the academy's premises and at that time, the situation was extremely dangerous....."

Mo Yi roughly summed up the scenario then.

As Li Moying listened, his forehead started to crease.

After such a major event, all the students in the entire academy should have understood that he wasn't some ordinary student and as for the academy's teachers, they probably already knew his real identity!

There wasn't any place which wind didn't pass by and there were too many people who knew about his identity. If this were to spread, then following that would be admirers from all places would come to seek him out.

His wish to conceal his identity and stay in Celestial Light Academy probably wasn't possible anymore.

Li Moying asked again, "Why did Li'er turn out to be in my room? Yesterday after she saved me, why didn't she go back? After I was rescued, it's enough that the few of you are here, there was no need for her to stay behind."

Mo Yi hurriedly replied, "Third Miss was extremely concerned about you and very anxious, so she followed us all the way back and took care of you all alone for the entire night."

He tried his hardest to put in some good words for Huang Yueli.

Yesterday, Huang Yueli actually wasn't willing to follow them back but Mo Yi decided to say that she insisted on following them over.

After all, it was precisely because Li Moying had a quarrel with Third Miss which led to the illness acting up. So if they were to patch up sooner, then the whole world would be at peace!

Chapter 1075: Unable to face her (4)

Mo Yi didn't know the exact reason why they quarrelled.

From what they saw, Li Moying and Huang Yueli were an extremely compatible model couple. From how they usually interacted, they knew that both of them were each other's sunshine and even if they quarrelled, it was probably because they were both too arrogant and stubborn, none of them was willing to take a step back or purely because they were jealous of a rival in a love affair, since both of them were just so popular.

Anyway, it would always be because of these childish reasons which led to their argument.

Which couple on earth did not quarrel? As long as they could act as a middleman, giving them a stage to step down, they probably would patch things up soon!

Unfortunately, Mo Yi's guess was totally wrong.

Li Moying and Huang Yueli were not just any normal couple quarrelling but had completely failed in negotiations. If it hadn't been for the fact that Li Moying's illness suddenly acted up, perhaps they might not even meet in future.

When Li Moying heard what Mo Yi said, he was expressionless and merely asked, "Other than saving me, what else did Li'er tell you guys?"

Mo Yi shook his head absently, "Nothing, after Third Miss followed us back, she had been staying in the room to take care of you. The few of us dare not disturb so we retreated far, far away."

Li Moying shut his eyes and didn't say a single word.

Forget it, what was he anticipating? That Li'er would say she regretted it? She discovered that the person she loved the most was him?

How could such a thing even happened? The lass that he liked had always been resolute and her target had always been obvious. Once she decided on something, she would never change her mind...

Since things had come to such a state... then there was no meaning in continuing to entangle with her.

Moreover, pestering her would only made Li'er hated him further. Then he might as well break it off like this, at least in her heart, she would always remember him in his best manner.

Mo Yi, Mo Er and Mo San secretly exchanged glances, as they all felt that something was wrong with Li Moying.

Third Miss was still lying in the room and according to his usual habits, wouldn't he stick right by Third Miss's bedside, unable to be chased away? Why was today different? Furthermore.... His expression looked rather ugly.

Suddenly, Li Moying opened his mouth, "Mo San, go over to Jiang Tuxin and get him to invite the best doctor in Celestial Light Academy to help Li'er do a consultation. She's been sleeping for so long without waking, so I'm not sure if there's any issues. If he has any Profound Energy replenishing pills, get more over. Right, get him to get some maids over."

Hearing that, the three of them heaved a sigh of relief.

Looked like towards Third Miss's affairs, Young Sect Master had considered every single detail carefully and was concerned about her condition, so probably.... both of them were fine?

Earlier.... It was indeed their imagination.

Mo San hurriedly replied, "Yes, I'll work on it right now!"

Saying that, he didn't dare to dilly dally as he immediately turned around to leave the room to run the errand.

Li Moying looked at the remaining two people, "Mo Er, Murong Fei is not staying in Celestial Light Academy's southern end courtyard so go and bring her over."

Saying that, he looked at Mo Yi and said, "Mo Yi, you mentioned earlier that our Sect had sent Elders to hurry over on the flying ship so have they reached the academy yet? Go and contact Elder Chen now, tell him to prepare the flying ship right now .I intend to return to Celestial Light Sect before mid afternoon today!"

Mo Yi and Mo Er were stunned, "Master, you're returning to Celestial Light Sect today?"

Li Moying nodded, "That's right!"

Mo Yi asked, "But.... Master, your Soul Detachment Illness just acted up yesterday and although you regained consciousness quickly this time round, your body is still very weak so shouldn't you rest a few days before leaving? Otherwise, the damage to your body is just too huge!"

Chapter 1076: Unable to face her (5)

Mo Er also spoke out, "That's right, Master, what urgent matter do you have, you can just command us! Please don't ever take your own body as a joke?"

However, Li Moying replied insistently, "I must leave Celestial Light Academy by today! I've already decided on this so don't bother trying to persuade me any further, just follow according to my plan!"

Mo Yi was extremely worried, this wasn't a joke at all.

Before they met Huang Yueli, every time Li Moying had a relapse, he would be unconscious for several days and for the next two weeks, his body would be in a state where it's extremely weak.

Although the situation was a lot better now, but there wasn't any reason for him to leave immediately after his relapse.

Besides that, they had not heard of anything major happening in the Sect, such urgency.... What's the point of it!

He quickly thought up a reason, "Master, even if you don't think for yourself, you must think for Third Miss! Third Miss had taken care of you for an entire night and till now, she hasn't woken up. Apparently the depletion of her energy is extremely serious so you must at least let Third Miss rest for two days before deciding! A lady's body is much more fragile so she cannot be too tired."

Mo Yi thought that he was very quick witted.

In the past, no one had been able to change Li Moying's mind after he had decided but now, as long as they brought out Third Miss, Li Moying would more or less give in.

How would he even thought that Li Moying casted him a glance but said, "Who said.... I'm bringing Li'er back to the Sect? I'm going back by myself!"

"Ah? What??"

Mo Yi and Mo Er put on an ignorant expression.

Their Master was the legendary wife pampering demon cum sticker, usually he would stick himself around Third Miss and not bear to leave but now he was actually going to slip back secretly to the Sect while Third Miss was in lethargic sleep?

Mo Yi wiped the sweat off his forehead and probed carefully, "Master, that.... how many days are we going to stay in the Sect for? When will we return to Celestial Light Academy? Do you want Mo Qi to stay here and tidy up the courtyard...."

"Who says we're coming back here? This time after we return to the Sect..." Li Moying stopped, as a hint of struggle flashed past his eyes, but very quickly he clenched his teeth, "This time after we return to the Sect, we are not going to come here again! So you don't need to leave anyone here."

"Huh? But...."

"But what? Why do you have so many questions? Are you the Master or am I the Master here? Still not going to execute my orders!"

Li Moying was originally frustrated and hearing their bombarding questions, his heart seemed to be burning as he grew fretful.

“Yes, yes, yes, your subordinate obeys!”

On seeing that Li Moying really flying into a rage, Mo Yi and Mo Yi flee ignominiously as they ran wildly out of the door!

It was until they were three miles away from the courtyard when they both slowed down their pace and looked at each other in dismay.

“Eldest Brother, what’s going on? Master actually said he’s not going to bring Third Miss away, furthermore.... He’s not going to come back here after returning to the Sect! This ... have the both of them completely fell out with each other?”

Mo Yi’s face sunk, recalling Li Moying’s furious look, his heart felt uneasy but on his mouth he said, “How could that be possible? Master and Third Miss are like a heavenly couple, they get along so well! Beware that Master will pluck out your tongue for talking blindly!”

Mo Er was aggrieved, “This.... you can’t blame me for thinking too much right? Master just leave like that and forget the fact that he’s not bringing Third Miss, he actually.... made me go look for Miss Murong.... Who doesn’t know that she fancies Master? Surely Master.... hasn’t had a change of heart right?”

Chapter 1077: As long as she’s happy (1)

“What rubbish are you sprouting? Master will surely have his own reason for deciding in this way! This is not something that we, as subordinates, can discuss? Still not going to hurry and execute his order?” Mo Yi warned sternly.

Mo Er didn’t dare to say anything further as he withdrew his neck and hurried off.

Mo Yi looked at his departing back and his forehead creased immediately.

Although in front of others, he had to uphold Master’s pride and character, but in actual fact, he himself wasn’t sure at all.

Was Master and Third Miss..... really going to end like this?

Actually, as a subordinate, between Murong Fei and Huang Yueli, he liked the latter more. Recalling Murong Fei’s two faced demeanour, Mo Yi couldn’t help but feel a chill run down his spine.

In comparison, Third Miss’s looks and innate talent didn’t lose to Murong Fei at all. Moreover she was generous and distinct in love and grudges, bearing an outstanding leader’s demeanour. So even if she stood beside Li Moying, not only was she not defeated, but there was a kind of harmonious feel to it, as the two of them complemented each other’s brightness...

This was what was really known as the ideal couple, a perfect pair.

Hopefully Master’s eyes wouldn’t be so blind to miss such a wonderful lady like Third Miss.....

...

After the shadow guards left, Li Moying sat for a while more in the room before returning back to the bedroom.

Huang Yueli was still sound asleep on the bed but from her breathing, he could tell that her body was extremely weak right now.

Li Moying caressed her face in worry as his gaze was filled with yearning as he brushed past her flushed cheek.

If he knew that this young lass had a little bit of feelings for him, he absolutely would not bear to leave. But retreating back ten thousand steps to take a look at the big image, even if she didn't like him, but as long as she didn't like anyone, he would not give up so easily.....

But.... now, he had to watch with his bare eyes that she revealed her smiles in another man's embrace but his arrogant pride refused to allow him to do so...

"Bam! Bam! Bam!"

Outside the door came a knocking sound, Mo San spoke respectfully, "Master, your subordinate had informed your intention to Principal Jiang and Principal Jiang has sent the doctor here, do you allow Doctor Yang to enter?"

"Come in please!" Li Moying hurriedly replied.

A chubby elderly figure, bearing a kindly look walked in hurriedly.

Doctor Yang was not only Celestial Light Academy's number one doctor, but also a famous Divine Doctor in South Sky Region. Now he was getting on age, he felt that his physical strength wasn't as great as before, so he accepted Celestial Light Academy's invitation. Usually he would not go on a consultation personally but only tasked a few disciples with great innate talent, which practically meant that he was in retirement.

However today, Principal Jiang personally brought him over and asked him to come over, to do a consultation personally.

Doctor Yang wasn't willing initially. A Divine Doctor like him had a high status so how could he possibly be at anyone's beck and call?

However upon hearing that the person who invited him was Celestial Light Sect's Young Sect Master Li, he immediately stood up and without a single moment of delay, he hurriedly rushed over.

Doctor Yang sat by the bedside as he held Huang Yueli's pulse to do the consultation for her.

The instance his fingers felt Huang Yueli's skin, Li Moying's brows subconsciously creased.

Even though he knew that this was purely for consultation and was absolutely necessary, but he still felt uncomfortable within his heart.

Luckily, Doctor Yang's consultation was speedy and just within a couple of breaths, he already withdrew his hand.

“How is it? Li’er had been in lethargic sleep from yesterday night till now, is there any problem?” Li Moying asked anxiously.

Chapter 1078: As long as she’s happy (2)

Doctor Yang responded, “Young Sect Master Li, don’t be overly worried. This young lady’s pulse is stable and has not suffered any injuries. Only she had expended too much Profound Energy so she is now in deep sleep. As long as you let her continue sleeping, she will wake up naturally and there wouldn’t be any problem at all.”

Seeing Li Moying still frowning with a face of worry, Doctor Yang added, “If Young Sect Master is still worried, then I have some fourth tier pills which could aid in supplementing her Qi, so Young Sect Master can feed her with it.”

Li Moying received the pills and nodded, “Thank you for your trouble!”

When Mo San sent Doctor Yang out of the door, Doctor Yang kept turning back to take a look.

Li Moying leaned over and when he faced the young lady on the bed, his stern expression melted instantly and became extremely gentle.

He held Huang Yueli into his embrace and while trying to coax her, he used his mouth to feed her the pill...

This scenario was too mushy and that made Doctor Yang’s goose bumps stood up. Such an aloof and overbearing man, had such a gentle side? This simply made one astonished!

“Doctor Yang, this way please?” Mo San urged.

Doctor Yang then recollected his senses, not daring to look further.

In the bedroom, Li Moying lowered his head and gently pinched Huang Yueli’s lower jaw as his sexy thin lips plastered onto her, feeding her water mouthful by mouthful.

The Huang Yueli who was in lethargic sleep seemed extremely obedient, totally without her usual stubbornness and alienation, lying quietly in his embrace and when he leaned in closer, she obediently parted her lips, allowing him to kiss her wilfully.

Usually that little fox who bared her fangs and brandished her claws had suddenly became so obedient and this made Li Moying’s heart stirred, simply unable to control his own actions.

In actual fact, Huang Yueli had been so cooperative so there was no need to use his mouth to feed her at all.

But Li Moying instinctively ignored this pointer and not only using his mouth to feed her, the minute he got into contact with that soft and pliable lips, he couldn’t stop himself as he fed her the entire cup of water mouth by mouth.

Actually, he was very clear that after today.... he would never be able to kiss his beloved little thing anymore.

So he selfishly grabbed this chance and even though he was taking advantage of her in a perilous situation, he could only made this despicable choice of stealing her kiss.

Li Moying had just finished feeding her the medication when the bedroom door came another round of knocking.

“Master, your subordinate had already brought Elder Chen over. The Sect’s flying ship is overly large and cannot stop anywhere nearby so Elder Chen had stopped the flying ship at the nearby hill slope.”

After Mo Yi finished reporting, he looked apprehensively at his own Master.

Li Moying had obviously heard what he said, but he didn’t turn his head as his gaze stopped on Huang Yueli’s face.

For that one moment, Mo Yi thought that Li Moying was starting to regret and not planning to return to Celestial Light Sect.

Seeing his unwillingness to separate with Third Miss, since he was so unwilling, then why must he still sulk with the girl? Probably Young Sect Master had also regretted being so rash?

However, Li Moying looked at Huang Yueli for a while and placed her back on the bed, not forgetting to cover her with the blanket and adjusting the position of her pillow.

Lastly, he wrote a note and placed it by the Huang Yueli’s bedside as he slowly stood up.

“Let’s go!”

“Ah?” Mo Yi was stunned for a moment before lowering his head and responding, “Yes!”

Li Moying took a last look at Huang Yueli and subsequently, as though he was afraid that he would regret his decision, he took big strides and left the courtyard, not turning his head back even once.

It wasn’t easy for him to finally decide that he shouldn’t drag on anymore!

Chapter 1079: As long as she’s happy (3)

Mo Yi didn’t expect Li Moying to really do this.

But he did not guts to persuade him so he could only follow behind Li Moying apprehensively.

On a nearby hill slope not too far away from the courtyard, a huge flying ship stopped there and Elder Chen stood beside the flying ship.

On seeing Li Moying getting closer, Elder Chen quickly stepped up to welcome him, as he was filled with worries.

“Young Sect Master, I heard that yesterday night your illness suddenly relapsed..... I had been worried for the entire night but from how you look currently, you seem to have recovered quite a lot from previous relapses.”

Li Moying nodded but before he could speak.

Suddenly a cry of surprise was heard from behind.

“Eldest Senior Brother??”

Murong Fei was dressed to the nines as she followed Mo Er to the hill slope. She originally walked very slowly, with an unwilling face, but the minute she saw Li Moying, she got excited and couldn't wait to rush over to his side.

But after she ran two quick steps, but quickly recalled that she was wearing a long and fairy-like flowy dress. In order to display her outstanding temperament, her graceful elegance, if she were to run amok like a countryside lass, then wouldn't that not be able to show her outstanding uniqueness? How unsightly was that!

Murong Fei hurriedly changed into small steps as her waist swayed and twisted, walking over in a flirtatious manner.

“Eldest Senior Brother.... So it's really you who called me over? That's too great! What matters are you looking for me for?”

Murong Fei propped her head halfway and from bottom up, she looked addictively at his handsome face as she spoke in a soft voice.

Mo Er suddenly came over and looked for her, saying Li Moying was looking for her, she simply was overwhelmed by favour! Not daring to believe a single bit of it!

But Li Moying had always been avoiding her and even warning her not to get close to him.

In the end, Li Moying was actually here! Could it be that.... Eldest Senior Brother had suddenly realised her good points and wanted to get closer to her?

As Murong Fei was thinking about these, her body started to incline nearer towards Li Moying...

Just as their bodies were about to touch, Li Moying suddenly took a step backwards.

Murong Fei was caught unawares and her body slipped, almost falling onto the ground.

She hurriedly nudged sideways and stabilised herself, but a painful sensation was emitted from her ankle. Apparently she had twisted it.

“Ah, so painful! Eldest Senior Brother, I.... I twisted my ankle.....” Murong Fei was in so much pain that her face turned pale and she took the opportunity to act pitiful, attempting to attract Li Moying's sympathy.

However, all Li Moying was thinking about was Huang Yueli who was lying in bed and couldn't be bothered to take a proper look at her at all.

“Since you're here, let's prepare to move out!”

“Move out? Where to?” Murong Fei was stunned.

Li Moying casted her a glance as he replied coldly, “Back to the Sect! You've been out for quite long already, you should have played enough! Return to the Sect earlier and cultivate properly, stop causing

trouble for Principal Jiang here! Luckily Elder Chen happened to take the flying ship over this time so he can bring you back together.”

Murong Fei had put on a bashful expression originally but on hearing these words, she instantly turned pale.

“This... Eldest Senior Brother... you called me over, just so... to make me return to the Sect?”

She shook her head furiously, “No, no way, I’m not going back! I want to stay here! Eldest Senior Brother, why must you chase me away? I... I’m staying here in Sky Cloud City so that I can take good care of you?”

Li Moying replied coldly, “You have to leave if you wish to, and even if you don’t wish to, you’d still have to leave! Mo Yi, Mo Er! Invite Eldest Miss on board the flying ship!”

Chapter 1080: As long as she’s happy (4)

The last time Murong Fei provoked Huang Yueli, he had heard about it in the end and severely lectured her about it so after that she hadn’t dared to create trouble for her.

But now if he were to leave Celestial Light Academy now, he cannot allow Murong Fei this troublemaker to remain here. Her cultivation was much higher than his little fox and she might take the opportunity to create trouble for Huang Yueli if he wasn’t around.

So he could only bring her back together.

When Mo Yi and Mo Er heard his order, they walked up together.

“Eldest Young Miss, please!”

“No way, don’t come over! You two lowly servants, how dare you treat me like this??”

Murong Fei yelled out with a stern look, but Mo Yi and Mo Er didn’t play along with her tactics as they dragged her up the ship.

“Let me down! You’re too impudent, not even considering your own status!”

Murong Fei was still screeching and Mo Yi almost couldn’t help himself from covering her mouth up!

This Eldest Miss Murong’s voice was very loud and usually she loved to display a rich Missy’s demeanour, totally looking down on these shadow guards.

But she probably didn’t know that the strong who didn’t reveal their real anger weren’t shown by malicious words nor disdain towards their subordinates.

For example.... Just a look from Li Moying was enough to make one drenched in icy cold water, not daring to even think of having any thoughts of resistance!

As for Third Miss Bai, usually she looked so amiable, and were courteous towards them shadow guards but in crucial times, her ability would overflow wildly, using her own ability and knowledge, not to mention how she made them submit to her willingly and uncontrollably!

This was the realm!

Just one point alone would give Third Miss Bai the chance to put Murong Fei down into dregs, and this materialistic woman actually thought their Master would be interested in her?

After Murong Fei was dragged away, Li Moying's expression evened out a little.

He turned around and looked at Elder Chen who was in a daze as he spoke, "Elder Chen, thank you for your help this time round. I've decided to return to the Sect today so I'll be troubling you to give me a ride back!"

"Ah! Young Sect Master, you're finally willing to return?" Elder Chen revealed a look of joy, "Great, that's just great! Since you've already prepared, then let's set off now!"

Li Moying followed Elder Chen on board the flying ship but did not enter the cabin. Instead he stood on the deck and looked down upon his own courtyard.

His Li'er..... was probably still quietly resting...

Forgive him, for not bidding farewell, because in his inner heart was a weak spot, not daring to face the farewell scenario.

By the time that little fox wakes up, she would feel extremely happy.

Because she had always wanted to get rid of him this sticky gum, this time.... She could finally realize her wish.....

As long as she was happy, he would be able to accept all the pain, including..... giving her true freedom...

.....

The night scene gradually descended.

When midnight fell, the entire Celestial Light Academy had fallen into a state of tranquillity.

Huang Yueli finally replenished enough Profound Energy and gradually awoke.

She rubbed her eyes as she instinctively felt the bedsheet beside her, but only felt a cool sensation.

She abruptly awoke as yesterday's memories gushed all into her brain!

Yesterday when Li Moying's Soul Detachment Illness acted up.... he actually said something which only Mu Chengying knew about! And he even repeated whatever Mu Chengying had said to her!

This was simply the most ridiculous matter that she had ever come across! She... she must find out the truth from Li Moying!

Huang Yueli struck out one finger in mid air and a fireball lit up the pitch black room.
