

Weaponsmith 1131

Chapter 1131: Heaven grade genius (4)

There was no need to think, if one day Huang Yueli was able to enter the God Realm, she would definitely become someone whom the clan would spent all their efforts into nurturing this peerless genius!

For this kind of character, to tell the truth, he absolutely must get on good terms with her.

Hence, Huang Zixiao's attitude took a 360 degree turn and immediately treated her in an amiable manner.

Huang Yueli naturally could tell that his tone was different from before but she didn't think much of it. Because in this world whereby the strong were treated with respect, one's potential was the entrance pass to everywhere so the other party's reaction was as normal as it could be!

After Huang Yueli indulged in her happiness for a moment, she said, "That's right, Senior, earlier you seemed to have mentioned that I've passed the first stage of refinement? When did that happen? Could it be that it was when I was in a concussion and it had unfathomably passed by?"

Huang Zixiao laughed, "Of course not! The process of refinement was the innate talent assessment itself! This wasn't just an assessment on your potential, but also towards your determination! Earlier while you were being assessed, the light pillar had halted twice in its ascension, so had you met with a bottleneck? If you had given up halfway or admitted that it was due to the fact that you couldn't do anything else, would you still be able to obtain the evaluation of heaven grade?"

Huang Yueli's face immediately revealed an expression which showed she was in deep thoughts.

"So it's like that...."

Huang Zixiao continued, "Since it's refinement, then there would definitely be a reward. Earlier the Profound Energy and Blood Essence which was drawn away from you by the light pillar had been returned to your body double-fold, so don't tell me you couldn't feel that your condition is much better than it originally was? Furthermore.. you've even advanced!"

Huang Yueli was just feeling strange earlier but now she finally understood.

So the inheritance tower actually as such a miraculous existence. To return the Profound Energy twice the amount into her meridians, no wonder she hadn't soaked in the medicinal bath but felt a breakthrough on the shackles of the Flame Spirit Physique, completing an entire huge realm's breakthrough!

But of course, for Sacred Phoenix Race such a powerful clan, to hold on to a large amount of resources, the practitioners within the clan definitely wasn't the same as her, affected by a Flame Spirit Physique and being treated as trash by others, living muddleheadedly for the past fourteen years. Their advancement, should be rather easy.

"I'd not expected the inheritance tower's reward to be so miraculous...." She sighed with emotion.

Huang Zixiao laughed, "This is merely the first stage's reward. Moreover, not everyone would be able to receive the Profound Energy back two fold. If the assessment had ended at ordinary grade, then the reward obtained would be very little. Furthermore, there are really very rare cases where anyone was able to advance directly like you, so you're really a heaven grade genius! The Profound Energy within you.... just how abundant is it?"

Huang Yueli went into a blank for a moment before she continued, "Actually, my cultivation level isn't very high and my Profound Energy isn't considered as abundant, so I wonder when the light pillar ascended, just what standard did it relied on to measure it?"

Huang Zixiao nodded, "Innate talent assessment, assesses potential and innate talent, so I can only say your innate talent has surpassed others."

Huang Yueli lowered her head as she smiled, not continuing on this topic any further.

In actual fact, she knew clearly that she was able to reach heaven grade successfully, mainly it was because of that mysterious energy which suddenly exploded from Sky Phoenix Ring. That wasn't Profound Energy but another kind of special energy, but she didn't know what it was exactly?

But she was very careful not to display it out, as her instinct told her that the Sky Phoenix Ring wasn't any ordinary God Relic.

Luckily, Huang Zixiao didn't notice that something was wrong with her.

He continued, "Following this, are you going to continue with the second stage of refinement immediately?"

Chapter 1132: Heaven grade genius (5)

Huang Yueli asked curiously, "Second stage of refinement? How many stages are there in total?"

Huang Zixiao answered, "The refinement has a total of three stages. But as of now, you can only complete the first two stages of refinement."

"Why?"

"Because only ninth stage realm practitioners can withstand the third stage of refinement! Furthermore, the foremost condition which determine if you can enter it is if you are able to complete the second stage of refinement perfectly! Let's not talk about how many thousand and hundred miles your cultivation is away from the ninth stage realm, just this second stage of refinement, you might not be able to obtain the result which you want."

"Why is that so?" Huang Yueli quipped curiously.

Huang Zixiao explained, "Because you have obtained the heaven grade genius evaluation, so you will need to take part in the heaven grade refinement! The difficulty of the heaven grade refinement is much higher by several notches as compared to the other three grades. Do you remember that I mentioned earlier that you're the third in this inheritance tower to be accessed to be a heaven grade genius

practitioner? The two before you weren't able to pass through the second stage of refinement perfectly!"

"Ah? It's that difficult?"

Huang Yueli immediately became dumbstruck, as a thought flashed past her mind. If she knew this earlier, she would have directly stopped at Earth grade, she made a huge loss this round.....

Huang Yueli totally didn't conceal the expression on her face so that little expression was just too obvious.

Huang Zixiao took a look at her and knew what she was thinking, so his face turned green immediately.

"Why? From your expression, you're regretting it? How can youngsters have no wish for success and only look at what they will gain from it?"

Huang Yueli laughed dryly, but she thought to herself, Rubbish, if it wasn't for the refinement reward, I wouldn't have risked my life and fought hard to take part in the refinement! This days, it wasn't easy for anyone to survive, so if there are no gains, who would do it?

Huang Zixiao stared at her as he continued, "Heaven grade genius reward, would of course be much better than Earth grade geniuses! If you can pass through this second stage of refinement perfectly, the reward that you obtain would be the same as an Earth grade genius's third stage reward! As for Earth grade genius passing the third stage refinement, the probability is probably not even one in ten thousand people, and one must be in ninth stage realm in order to obtain this reward! If you think in this way, don't you think you've earned it big time?"

Huang Yueli's surprised and joyful eyes instantly grew big, "Seems like I really earned big time?"

Huang Zixiao almost fainted!

Among the Sacred Phoenix Race clansmen whom he had encountered, which one of them didn't have the demeanour of a large clan's disciple? Even if they thought about the various rewards and gains in their hearts and were all calculating deep within, no one would reflect this on the surface! How devalued was this!

When had he ever met anything who acted like Huang Yueli, totally a money-grubber face...

The most mysterious part was this expression surfacing on such a pure and elegant face, but it didn't make anyone have the slightest bit of dislike, instead it made her look even more lovable.

Huang Zixiao was annoyed as he held it in for some time, thinking to lecture her but on thinking that this non-reasonable young lass was actually a heaven grade genius, so he gagged and forced his words back, changing his words, "Then will you take part in the second stage of the refinement or will you like to cultivate for a while, to stabilise your cultivation?"

Huang Yueli thought for a moment and replied, "I think I better take part in the refinement right now!"

Huang Zixiao didn't managed to tolerate it and shot his mouth off, "You'd better think about this carefully, the difficulty of the second stage of refinement is very high and if you were to enter it, but not able to pass through it perfectly, there won't be a second chance! Now that you've finally broke through

a large realm, isn't it better for you to cultivate a little while more so that you can put out your potential to your largest extent!"

Chapter 1133: Heaven grade genius (6)

However, Huang Yueli insisted, "Better to do it now!"

How would she not understand what Huang Zixiao said.

But in order to solidify her cultivation, it would take at least a month's time for it to be completely stabilised. She was still in a hurry to get to Celestial Light Sect and meet up with Li Moying, so she wasn't able to waste any more time.

Since that's so, why now she should strike the iron while it's still hot and using this timing where she had just advanced, since the Profound Energy in her was most abundant right now, perhaps she might be able to work it up to complete the refinement at one go.

Huang Zixiao was silently coughing up blood in his heart.

This heaven grade young lass was really non reasonable, the things she said and did were totally not following the proper pathway! How on earth did she become heaven grade?

He speechlessly flicked his sleeves.

In the centre of the high tower, four big doors appeared out of nowhere and the surroundings were filled with rising flame patterns.

"See the rightmost door with the word "Heaven" on it, walk through that door and scale the storeys in the inheritance tower. There are a total of seven storeys in the inheritance tower and in each single storey, you will meet different cultivation and number of opponents. You must defeat them all to enter the next storey! If you're defeated, then you will be expelled out! The more storeys you enter, the better the reward you will obtain! Have you heard me clearly?"

Huang Yueli nodded, "I understand, then I'll go in right now."

"Wait a minute!"

Just as Huang Yueli was about to walk through the door, Huang Zixiao called out to her from behind.

"Don't blame me for not reminding you! The difficulty of this stage is related to your age and not comparable to your actual potential! To tell the truth, you're going to turn fifteen but still at the early stage of fourth stage realm cultivation. As compared to our Sacred Phoenix Race in ancient times, your cultivation is considered low. The enemies you encounter when you enter now will be much stronger than what you can imagine! If you really cannot handle it, don't force yourself, otherwise there is a possibility that you will sustain permanent injuries."

Huang Yueli's footsteps halted as a glint of resolution flashed past her eyes.

"I understand, thank you Senior!"

Huang Zixiao's words were truly out of concern for her.

Based on Huang Yueli's current cultivation, in the current Soaring Heavens Continent with such diluted Profound Qi, naturally it was already not bad but the inheritance tower's refinement was set up according to the conditions thousands of years ago.

Moreover she had passed the heaven grade refinement!

You could imagine, the difficulty!

In the past, it wasn't as though there weren't any geniuses in the clan who were injured in the inheritance tower. Ten thousand years ago, every single time the inheritance tower opened up, there would be a few practitioners who tried to flaunt their superiority and got seriously injured in the second stage, thereafter affecting their cultivation later on.

Huang Zixiao was very worried that this rare heaven grade genius would sustain injury because she had undermined her opponent. If she were to die here, then it would be a huge loss to the entire clan!

He had expected that even after hearing his advice, not only did Huang Yueli not become more cautious, she even seemed to... become more excited?

This...

"Sigh, youngsters, really don't know how high the sky is! You'll understand after you enter the place and if you're expelled just after three to four storeys, then you'd know what's called embarrassment!"

While Huang Zixiao was ridiculing her, Huang Yueli strode into the big door with the word "Heaven".

The flame flickered and she disappeared right in front of Huang Zixiao and Little Phoenix.

The big door closed up behind Huang Yueli.

Behind the door was the same layout as the inheritance tower's interior design, only difference was she could not see Huang Zixiao and Little Phoenix. Other than that, the first storey's enemy had already appeared in front of her.

She raised her head and took a look but was truly shocked as a stupefied expression was shown on her face!

Chapter 1134: See the person alive, the corpse if dead (1)

Celestial Light Academy.

Jiang Tuxin was standing right in front of Li Moying as he explained with fear and trepidation, as sweat kept dripping from his forehead.

"Young... Young Sect Master, the matter... has already been investigated clearly...."

He raised his head and stole a glance at Li Moying, and shuddered uncontrollably as he saw his icy cold look, but he could only force himself to continue speaking.

“The person who was secretly tailing Miss Bai, and attacking the others in the middle of the road, is highly possibly Celestial Light Sect’s Vice Principal Ling Wenbin. Because there are only a total of three people who are of seventh stage realm in Celestial Light Sect. Two of them had been on rotation duty at the Scripture Depository and had not left their positions whereas Ling Wenbin had been certified to have gone missing since the day Miss Bai left Celestial Light Academy. Furthermore, according to the description of the situation by those few merchants from Jade Wind Merchant Guild, it fitted Ling Wenbin totally.....”

Li Moying coldly replied, “Your so called investigate clearly is just to tell me this conclusion? That old fool dares to lay his hands on my woman so naturally he deserves thousands of deaths! I will absolutely not let him off! But now, is the most important matter about whether it’s him or not? The most important thing now is to find Li’er! Which of you can tell me where Li’er is right now??”

Hearing Li Moying’s harsh and severe questions, those present all lowered their heads in silence, not daring to look at his eyes.

Ever since the day they found out that something had happened to Huang Yueli, they had been searching for her without any rest for the past seven to eight days under Li Moying’s direction.

It was merely a few thousand miles of journey from Celestial Light Academy to Celestial Light Sect and they had already led hundreds of people, searching from head to toe, and they’ve already interrogated almost every single family in the nearby towns but no one had seen anyone who looked like Huang Yueli or Ling Wenbin appearing at all.

This kind of situation was just a little too strange!

As the saying went, see the person alive and the corpse if dead.

Two living people just disappeared into thin air like that, wasn’t that strange?

And the merchants from Jade Wind Merchant Guild had confirmed that the location of the incident happened nearby, which had been surrounded by Li Moying’s men which even water could not leaked out. They were just short of digging up the ground to look for them.

But from the battle marks left on the ground, they could only tell that the both of them headed towards the east side and the trail ended just after ten over miles, without any sign of battle at all.

If it wasn’t for the fact that they were still rational, they would probably had suspected that these two had vanished from the face of the earth.

After investigating for seven to eight days continuously, everyone present cut in a sorry state.

Amongst them, the one who looked most dishevelled was Li Moying himself.

For the longest time ever, he had not shut his eyes for more than two hours and the panda rings under his eyes were super black but the cold and severe look beneath his eyes increased by the day. Anyone who exchanged glances with him could not help but tremble with fear.

Li Moying had personally went to every single route to the towns which Huang Yueli could possibly appear in.

But the result, had always been disappointing.....

His Li'er, had disappeared just like that.

Could she really had been killed by that old fool?

Li Moying totally didn't dare to face that kind of conclusion, moreover, he felt that it just wasn't possibly deep down in his heart!

His Li'er.... couldn't possibly have died easily like this. She is so resourceful and so witty, and with that strong innate talent and response, even if it was facing a seventh realm practitioner, she would definitely have a way....

Chapter 1135: See the person alive, the corpse if dead (2)

No matter how much Li Moying tried to convince himself that Huang Yueli wasn't dead but as the investigation went on day after day without any progress, he started to doubt himself...

If Huang Yueli was still alive, on seeing so many people searching for her, and even seeing Li Moying and those familiar shadow guards appearing nearby, how could she not possibly show up?

Li Moying had not expected that Huang Yueli actually entered an early historical remains.

Besides that, as the inheritance tower's energy wasn't enough, so every forty nine days then would it appear once in the wilderness, not to mention that the location of its appearance would always be slightly different. Those without the treasure map in their hands had a ninety nine percent possibility of not being able to find its position.....

Li Moying was getting very anxious, plus the fact that he had not rested for a long time, not even eating anything much.

So his mind started to whirl as he fell towards the ground.

"Young Sect Master!"

"Master!"

Shadow Guards hurriedly crowded around him as they held him at, simultaneously advising him to rest.

"Master, we have not done well in not being able to locate Third Miss. Don't be anxious, rest properly for a day! I believe that Third Miss, with her intelligence and wit, even if she met with a perilous situation, she would be able to turn the bad things around."

"That's right, Young Sect Master, you can't be overly anxious about such matters! You're the entire Sect's hope, and if your body collapses, then..."

"Enough!" Li Moying's hand held his groggy head, "Li'er is suffering in some place suffering and you want me to rest? How could I even have the heart to rest? All of you get out and search for her! Think clearly if there's anywhere that you've not searched and which clues had been missed out by us! If we're

just one step short and that caused an unsalvageable consequences, all of you don't even think of having a good life ahead! Quickly go!"

The more he thought, the more anxious he got as he was unable to wait any further and continued to rush out to search for her.

Looking at Li Moying departing back, all the shadow guards bore an anxious look on their faces.

Jiang Tuxin was drenched in sweat as he worriedly look towards Mo Yi, "Protector Mo, you think..... what should we do about this? It's been so many days and we still aren't able to locate Miss Bai's whereabouts. To tell the truth, in my heart, I really think that....."

"Stop your wild guesses!" Mo Yi hurriedly stopped him, "If these words were to enter Master's ears, even one thousand deaths for you isn't enough!"

Jiang Tuxin hurriedly shut his mouth and after some time, he gave a long sigh, "Ai, what do you think about this matter....."

Mo Yi replied, "Principal Jiang, since Master has already given his instructions, the only way we have left now is to continue searching! Do you dare to defy Master's instructions? Moreover, you don't understand Third Miss well enough. She's not that kind of person who would easily fall into the hands of others. She's not that weak so she must definitely be alive!"

In actual fact, Jiang Tuxin really wasn't sure why such a petite young girl like Huang Yueli, without any family background, had the full support and adoration of Li Moying and his Shadow Guards.

To be able to captivate the heart of Li Moying, this kind of man, depended on luck but to even be able to convince his subordinates, that absolutely wasn't something which common people could achieve.

Even if it was Murong Fei, those shadow guards totally didn't catch their eyes.

Mo Yi hurriedly added, "As compared to Third Miss's whereabouts, I'm more worried about another matter and I'm afraid by then, I'd need Principal Jiang's help on it."

Jiang Tuxin shivered as he subconsciously felt that it wasn't a good thing.

Chapter 1136: See the person alive, the corpse if dead (3)

Indeed, his instincts were spot on. The minute Mo Yi opened his mouth to iterate it, it almost scared him to death!

"In another seven days, will be the full moon's night....."

Jiang Tuxin's heart thumped hard.

Mo Yi hurriedly continued, "As you've seen previously, whenever Master acted up, it is actually very terrifying. Moreover recently there's the trend of his illness becoming more serious than before, as each time it acted up, it was more and more powerful. Only when Third Miss stayed by his side, would he be pacified! If something really happened to Third Miss, all of us are going to run into bad luck! The

problem is already very serious now, and if we still aren't able to locate Third Miss within seven days, what should we do when Master's illness acts up?"

Jiang Tuxin was tensed to the max, "This... Protector Mo, in the past when Miss Bai wasn't around, didn't you all have any way to handle this?"

Mo Yi replied, "There is a way. In the past, Divine Doctor Liu had specially refined some medicinal pill for Master and it could slightly control his illness but as a prevention, we need at least four ninth stage realm and above Sect Elders to stand guard at the same time for Master. If Master refuses to return to the Sect and if his illness acts up halfway during the journey, things are going to turn out very badly."

"Ah? Then what should we do?" Jiang Tuxin was totally at a loss.

Mo Yi's lips revealed a calculated smile, "He he, that's why I said I need Principal Jiang to coordinate with me, let's think of a way to trick Master back! At least we gotta wait till full moon's night is over and only let him out after his body has recuperated."

"Ah? This... you're not afraid that after Young Sect Master finds out about the truth, he will go mad? Do you still want your little live?"

Jiang Tuxin was drenched in a headful of sweat as he never expected Mo Yi to have so much guts to this extent!

Mo Yi was actually pretty helpless, "There's no other way, you think I'm willing to defy Master? But as compared to his life, I'm willing to accept my punishment after this deed is done! Don't worry, you just need to coordinate with me to tell a few lies, I won't confess anything about you after the deed is completed."

"But... this...."

Jiang Tuxin had wanted to shirk but he was held on by Mo Yi's carrot and stick approach, so in the end he could only agree to it.

Mo Yi solved a huge problem and on the surface, he was relieved but within his heart, it had turned extremely heavy.

He looked away at the eastern part of the sky and went into deep thoughts. This time even if they were able to trick Master back to the Sect, but surely they weren't able to do it every single month right? Master couldn't possibly be tricked every single time too?

Third Miss, where on earth have you gone to?

If you still don't return, everyone's not going to be able to continue living!

...

In the inheritance tower.

Huang Yueli was facing the first storey's opponent and she felt that she was totally stupefied.

Early after she heard Huang Zixiao's warning, she thought that the opponent that she was going to face was an extremely strong opponent, and even if it was just this first storey, it would be a powerful practitioner who would be a threat to her!

The result was, after she took a careful look, she discovered that the first storey opponent was actually a second stage realm fifth level practitioner.

Wasn't this.... a little too weak?

She could send a normal second stage realm fifth level practitioner flying with just one move!

But considering that this was the almighty ancient god clan's inheritance tower, Huang Yueli felt that she shouldn't take things too simply.

This opponent might look weak but there must be some secret behind it. Perhaps it was to confuse her so she absolutely cannot undermine the opponent!

As Huang Yueli just stood there without moving, the opponent on the opposite side couldn't hold on any longer as he proactively charges towards her!

Chapter 1137: Incredible speed (1)

Hearing the sword sound breaking in empty space ringing, Huang Yueli didn't dare to pretermission and immediately concentrated fully.

Her right hand pointed upwards and a burst of flame appeared in her hand.

She used around thirty percent of her Profound Energy, displaying her Profound Skill as she attacked towards the opponent!

This move of her had a higher percentage of probe, as she mainly wanted to find out what was the secret about the inheritance tower's refinement opponent, why did he looked so weak?

But she had never expected that the minute she waved that sea of fire towards the opponent's corner of the shirt, the opponent only dodged left and right but didn't managed to evade her attack as he was heavily struck on the chest.

Huang Yueli subconsciously added another move and this time, the opponent totally didn't manage to evade it and directly fainted from her strike.

"This.... what's the situation?"

Huang Yueli blinked as she couldn't make head or tail out of this.

When she faced this opponent, as compared to ordinary second stage realm fifth level, he indeed was much stronger and adding on to the cultivation methods and Profound Skill, his potential had reached second stage realm's peak.

But.... surely this wasn't comparable with her right? No matter what, she was a fourth stage realm practitioner? Giving her such an opponent, did that meant to give her a free win intentionally?

Just at this moment, a voice counting down rang in the inheritance tower.

“Congratulations Huang Yueli, you’ve successfully passed the first storey of the inheritance tower, using only six breaths. In the past ten thousand years among the practitioners who had passed, your rank is one thousand five hundred. Your reward is a fifth tier lower grade medicinal pill, a bottle of Spirit Restoration Pill! Please continue to strive for the best! After ten breaths later, you’ll be transported to the second storey, please ready yourself for the next battle. Ten, Nine, Eight, Seven....”

Huang Yueli was shocked because she was ranked one thousand five hundred in the past ten thousand years and that was indeed an extremely forefront position!

In the past whenever the inheritance tower opened yearly, there would be five hundred people who took part every time and after accumulating the amount of people for several thousands of years, there should be a few hundred thousand at least!

Among so many people, what concept was it to be ranked one thousand five hundred?

Furthermore, when she just entered, she actually hesitated for a very long period of time. If she had put in her full effort in attacking the opponent, to tell the truth, she might not even need one breath’s time before she could counter the opponent to obtain victory!

In that case, what rank would she be able to achieve?

Huang Yueli felt that she was slightly not calm as she originally thought that the first storey of the inheritance tower was so easy! But now from her ranking, it was easy to guess that the inheritance tower’s refinement couldn’t possibly be that easy. Otherwise the others would also need at most a few breaths to pass through this stage easily, so how could she possibly obtain such a high ranking?

In this case, did that mean that her assessment was especially simple?

But why was it like this? There’s just no way to explain it? Could it be that because she’s a heaven grade genius?

“... Four, Three, Two, One! Begin!”

Huang Yueli had yet to make head or tail when she was transported to the middle of the second storey.

She hurriedly shook her head to drive away all the distracting thoughts in her mind.

“Stop speculating, perhaps it’s all a coincidence only! What’s more, perhaps they gave me an easy opponent first and later on, the difficulty would increase largely, so things are definitely not so easy, so I absolutely cannot undermine the opponent!”

She warned herself once again as she turned around to face her new opponent.

This time, her opponent was actually.... a second stage eighth level little girl?

This lass looked as though she wasn’t even ten years old, why... did she become her opponent?

Huang Yueli was standing in the blistering wind in a complete daze!

Chapter 1138: Incredible speed (2)

Even though she had thousands of question marks in her mind, but Huang Yueli already knew this time that the time taken to pass through the round contributed to the ranking!

So she didn't hesitate any further as she drew out a long sword from the Sky Phoenix Ring and combining it with her fire attributed Profound Skill, she directed it towards little Lolita!

This little Lolita's potential was indeed much stronger than the previous opponent.

Enough though she was only in second stage realm eighth level, but her actual potential could easily challenge a third stage realm third level practitioner.

One must know that it was extremely difficult to battle across the realm level, especially if it's crossing over a large realm, to challenge a powerful opponent, only top rated geniuses could do that! This little Lolita was really worthy of being the Sacred Phoenix Race's appointed refinement opponent. If the person who took part in the refinement had the same cultivation as her, then it would be a difficult task to deal with her!

Thinking of this, a thought fled past Huang Yueli's mind but she wasn't able to grasp it.

She thought carefully for a while and that little Lolita had already fallen beneath her feet.

At the same time, the countdown in the inheritance tower was activated once again.

"Congratulations Huang Yueli, you've successfully passed the second storey of the inheritance tower, using forty breaths. In the past ten thousand years among the practitioners who had passed the second storey, your rank is three hundred. Your reward is a fifth tier upper grade Profound Armament, Hexapole Sword!

This time, her ranking had indeed risen!

Rank three hundred, it sounded very incredible, so much that even Huang Yueli was shocked beyond words.

She didn't felt that she was that strong? She had not even used ten percent of her actual potential!

"..... Four, Three, Two, One! Start!"

The shining glow sparked and Huang Yueli was transported to the third storey.

...

In the inheritance tower.

Hiang Zixiao laid a rug on the ground and sat cross-legged, a flask of wind appeared out of nowhere in his hand as he poured it into a cup and slowly enjoyed it.

Little Phoenix sat obediently by his side.

Actually, this fellow usually wasn't that obedient, especially when he was with a stranger, all the more he wouldn't behave properly.

Only, to be beside this kind of practitioner who was also a spiritual body, and his potential was really much more powerful than him. Just casually pointing would rendered him immovable, so that gave Little Phoenix no means of resisting.

“Alright, after your Master had entered the refinement, she will need at least twenty over days before she can come out, so let’s just wait here slowly!”

“It needs to be that long? What kind of rubbish refinement is that, how could it possible take such a long time?” Little Phoenix grumbled.

Huang Zixiao knocked on its head and said, “What do you know? What I’m saying is under the circumstances that everything is smooth sailing, then she will take twenty over days. I haven’t even touched on the situation whereby it’s not smooth sailing yet!”

“The difficulty of the refinement in the inheritance tower is very high. Just the first storey opponent is similar to the refiner’s cultivation! After that, in every storey the refinement opponent would obviously be on a higher stage than the previous. When it’s nearing the end, there is a possibility that she will have to face a practitioner who is higher than her by two large realms, and we’re talking about those super top experts whose potential are on the forefront among people in their same level! After every storey, it will be a bitter battle, so spending over twenty over days isn’t anything rare at all, there are some who had spent one hundred over days and still not able to come out!”

Little Phoenix asked curiously, “Why must they stay inside for one hundred over days? If they were seriously injured during the battle, won’t they be transported out directly?”

Huang Zixiao replied, “That’s under the situation whereby they’re so seriously injured that they cannot continue with their battle. If it was merely losing a battle and the refiner could still defend themselves, then as long as they escaped out of the attack boundary of the opponent, then they would not be attacked any further.”

Chapter 1139: Incredible speed (3)

“During this time, the refiner can raise their own potential through the refinement or when they have found the opponent’s flaws, then they can continue to battle!”

“You should also know that in the midst of a battle, Profound Skill and cultivation will be raised very quickly. Especially in front of an especially strong opponent’s threat, plus the density of the Profound Qi in the inheritance tower is extremely high, so during the process of passing the refinement, there are many practitioners who advance or breakthrough, and through their advancement, they are able to win the stronger opponent. This takes a long period of time and some of them would choose to stay inside to cultivate for a long period of time.”

“But the refinement time is limited and at most, they cannot exceed half a year. If they are not able to pass within half a year, even if they’re not seriously injured, they cannot continue staying inside.”

After Huang Zixiao finished with his explanation, he turned his head and looked at Little Phoenix. He had expected to see it’s expression filled with worship but in the end, what he saw was a little bun face which looked as though it had seen a ghost.

“What’s the matter?” He asked with a frown.

Little Phoenix stretched out its short and plump finger as it pointed behind his back.

“You... quickly take a look! Why did that door display numbers after my Master walked into it?”

Huang Zixiao replied, “Numbers represent which storey your Master is now at. Such a short amount of time and there’s already numbers showing, looks like she’s already entered the second storey? But this is also normal. First storey refinement opponent normally are similar to the refiner. Your master is a heaven grade genius so she’s definitely have no problem.... Heavens, what’s going on?”

Huang Zixiao was casually explaining in a breezy manner as he turned his head.

Originally, his tone was extremely normal but after he saw the “Heaven” door displaying the number, he looked as though he had been struck by lightning as he stood dumbstruck.

It took quite a while before his eyes popped out and shouted, “This..... am I seeing things? The number on this door, could it be.... Four?”

Little Phoenix was also bearing a dazed expression, “You didn’t see it wrong, because I also saw.... Four? No, no, it’s Five!”

Huang Zixiao felt that his breathing was about to stop as his heartbeat palpitated swiftly!

He seemed to have witnessed another incredulous miraculous birth once again!

But... how could this be possible? How did Huang Yueli managed to enter the fifth storey so quickly? This was an even more shocking than her being a heaven grade genius!

Because the second storey’s refinement opponent was specially matched previously, so Huang Yueli’s heaven grade innate talent actually could not bring her any advantages, but it would increase the difficulty of her refinement! Her opponent, would be much more powerful than the others!

She should.... take a longer time than others to pass wasn’t it?

However, the truth was shown right in front of their eyes.

The door’s number was an obvious “Five”!

The inheritance tower could not possibly cheat anyone and that already explained that Huang Yueli had indeed entered the fifth storey of the inheritance tower!

But after the fifth storey refinement had started, the number on the door had not changed for a very long time.

Little Phoenix stared at the door with a daze before turning his head to ask, “Uncle, didn’t you say passing the refinement was very difficult? Just one storey would require around one to two days? Why did my Master pass so quickly? Have you remembered wrongly or something?”

Huang Zixiao didn’t know how to reply to him.

Because such a situation like Huang Yueli's had long surpassed his imagination. It wasn't like he had not met any heaven grade geniuses in the past but none of them were able to do this so skilfully and easily in the heaven grade's refinement!

Chapter 1140: Incredible speed (4)

This young lass... where on earth did this perverse lass pop out from?

Little Phoenix asked again, "Since my Master can pass so quickly, she would probably be out before the sky turns dark right?"

Huang Zixiao gave him a stare and replied, "How can that be possible? From fifth storey onwards, the refinement opponent's cultivation level is higher by exactly one large realm! Moreover heaven grade genius's opponent are also heaven grade standard. With the same kind of innate talent, with the opponent's cultivation surpassing by herself by a huge notch, how will she be able to obtain victory so easily? No matter how abnormal she is, she couldn't possibly come out so quickly!"

"Wh... What's with that... looking down on others! My Master is especially powerful and especially talented, perhaps she might be able to come out?"

"No...."

Huang Zixiao wanted to say "Not possible", but recalling that the few theories that he had set down earlier had once and again been thrown back smacking his face by her astonishing performance, this time round, he didn't dare to assert so absolutely.

"Although this possibility is there, but I feel that likely she's not able to. Let's wait till tonight and see how things go!"

He had chosen a slightly conservative way of saying.

In actual fact, Huang Zixiao had not been wrong in the end. When dusk fell, the number on the door had changed from "Five" to "Six" but Huang Yueli had not came out.

Even though he guessed correctly, but the shocking sensation in Huang Zixiao's heart had not become any less.

Because Huang Yueli took around eight hours to pass the fifth storey and if he didn't recall wrongly, the last practitioner who clocked the record was an Earth grade genius and the time he left behind was twenty two hours!

Huang Yueli had already surpassed him and became the record holder for the fifth storey.

Following that, there were two more storeys....

And the amount of time she spent was already faster than others by half....

If this trend continues, if there were no accidents, not only would she be able to pass successfully, she would also be able to break the perfect passing time record directly!

Where on heavens could you find such a ridiculous matter?

...

At the present moment, Huang Yueli had already entered the sixth storey.

In the previous few storeys, the first four storeys' opponents were completely not a threat to her.

The fifth storey's opponent had created a little mayhem for her. The opponent's cultivation had just entered the fourth stage realm but as he was a water attributed practitioner, the clash in the attributes happened to curb Huang Yueli's.

Moreover the opponent had apparently trained God Realm's high levelled cultivation methods and Profound Skills. The methods of attacks were extremely crafty and she had never encountered such moves previously. So she wasn't able to react in time, hence spending a rather long duration tangling with the opponent, before finally defeating the opponent.

Ever since she entered the sixth storey, Huang Yueli became even more cautious.

Because, this time, she truly felt a powerful presence which was enough to threaten her.

This was her first time matching up against an opponent whose cultivation level was much higher than hers!

Fourth stage realm third level's heaven grade genius!

...

In the inheritance tower.

Little Phoenix was originally betting with Huang Zixiao delightfully, saying that his Master would not need a day before she could pass the seven storeys refinement perfectly.

In the end, reality was, after an entire day and night, the number on the door changed from "Six" to "Seven".

Little Phoenix lost the bet as it's chubby bun face was filled with disappointment, as he kept mumbling.

"Female Devil ah, Female Devil, aren't you a little weak? Usually when you take the feather duster to beat me, aren't you very powerful?"
