### Chapter 1151: Li Moying marry into the family? (1)

Heavens, what kind of thing was the Sky Phoenix Ring?

She died in her past life because of the Sky Phoenix Ring, so this wasn't strange at all!

Huang Zixiao didn't notice the abnormality in her as he continued talking.

"Now do you understand? Young lass, your innate talent might be high but after all you grew up in Soaring Heavens Continent, so your knowledge cannot be compared to the direct descendants in God Realm! Inheritance tower had some books which came from God Realm, so now it should be lost in Soaring Heavens Continent right? Later on, get some books and go back to read it, in case if you ascend to God Realm in future, you'd be a laughing stock!"

Huang Yueli nodded and suddenly thought of something, as she asked excitedly, "That's right, Senior, do you have any books here related to armament refining?"

"Armament Refining? Why are you asking about this? Are you an Armament Master?" Huang Zixiao's eyebrow rose.

Huang Yueli nodded.

Huang Zixiao didn't find it strange at all, Sacred Phoenix Race was a fire attributed clan, whereas pill refining and armament refining all required high fire attributed innate talents to achieve some accomplishments, so there were many high levelled Armament Masters and Pill Masters in Sacred Phoenix Race.

And this was one of the reasons why the Sacred Phoenix Race could stay strong for so many years.

But he advised, "There are many books on armament refining and the inheritance tower has quite a few. Since there are few who can come to the inheritance tower, I shall give all these books to you. But although armament refining is broad and deep, but your cultivation innate talent is much better! You have a boundless future in front of you, so don't waste too much energy on armament refining, this kinda sideline. Pay more attention to your cultivation, and just dabble a little on armament refining."

Huang Yueli nodded as she replied, "Alright I understand."

She knew that Huang Zixiao had his logic, Mu Chengying in his past life said similar things so he never bothered wasting any time to research on these skills.

But armament refining was Huang Yueli's interest and was something which she loved doing the most. She wouldn't bear to give it up.

Both of them continued talked for a while and Huang Yueli found out quite a number of information regarding the Sacred Phoenix Race from Huang Zixiao.

Huang Zixiao probably hadn't met any living humans for a long time so when they were chatting, he told her everything he knew and couldn't stop talking as he also told her a lot of gossips regarding the God Realm.

On seeing that it wasn't early anymore, Huang Yueli said, "Senior, this time I'm really grateful for your help! But I have something which I need to settle outside the inheritance tower, so I'm afraid that I won't be able to stay here any longer. I wish to leave earlier."

Huang Zixiao shook his head, "You can't leave now."

"Why?"

"Didn't you take a careful look at the contents when you got the treasure map? As the density of the Profound Qi in Soaring Heavens Continent is too low, the inheritance tower doesn't have enough energy, so it has always been in an invisible mode. Every forty nine days would it appear in the Continent once. And only when the inheritance tower appears would you be able to leave." Huang Zixiao explained.

Huang Yueli immediately showed her disappointment, "Huh? How can it be like this? Don't tell me that I need to wait for another ten over days?"

Huang Zixiao took a look at her, "Ten over days? Don't need to wait that long, just another two days, and you'd be able to leave the day after."

Huang Yueli was stunned, "Ah? But didn't you say this earlier, that the inheritance tower would only appear every forty nine days.... Wait a minute, don't tell that I've already stayed in the tower for forty over days already??"

## **Chapter 1152: Li Moying marry into the family? (2)**

Huang Zixiao laughed as he continued, "Why? Did you just realised? When you just entered the inheritance tower, you were in lethargic sleep for five to six days due to being heavily injured, and while passing the second round of refinement, you spent another eight to nine days, later on in the Phoenix Blood Pool, you spent another thirty over days, so adding it all up, it's already been forty seven days."

Huang Yueli's elegant brows creased tightly, as she expressed an anxious look.

"I've actually spent so much time! And I had no feeling at all! By the time I go out, wouldn't everything be in chaos?"

She suddenly disappeared and had not appeared for more than forty days, this matter should have gone to Li Moying's ears by now, she wondered if he would be anxious over her?

She thought, that must be the case!

Because that man, no matter in the past life or not, had never changed. Even if she rejected him numerous times, but he had never remain indifferent towards her matters. As long as she's in danger or something happened to her, he would always be the first to be there,

That day she left Celestial Light Academy in a hurry, leaving alone by herself, was so that she would undo the misunderstanding between the both of them, but not to make him anxious!

Huang Zixiao saw her ever-changing expressions as his lips slowly curled into a smile.

“Why? Look at your anxious look? It’s normal for a practitioner going into closed door cultivation to take several years, you’ve just gone missing for a month and already so worried to this state? Is there a need? What major thing has happened outside that requires a young lass like you to go and settle?”

“Ah? About that.....” Huang Yueli bit her lips.

Huang Zixiao felt that his guess was correct, “... anxious to go meet your lover?”

Huang Yueli’s face flushed red upon hearing his correct guess.

“Wh... What lover? He’s just a friend! A living person like me disappearing into thin air, a lot of friends would be worried for me!”

Huang Zixiao sniggered, “Don’t attempt to lie to an elderly, after all, I’ve lived longer than you for ten thousand years! I’ve seen plenty of love smitten young lass like you! What kind of person do you like? How is his innate talent?”

Since he had already guessed correctly, Huang Yueli didn’t try to hide any further as she replied, “He’s... very handsome, very strong and treats me real well!”

Huang Zixiao replied, “Strong is a must, otherwise would a heaven grade genius like you even consider him? But, don’t blame me for not reminding you. Whether he’s strong now or not, it doesn’t matter. The crux is his innate talent cannot be too lousy! You’re probably not clear but a heaven grade genius like you who appears once every ten thousand years, in the future when you go to God Realm, the clan would absolutely arrange a suitable partner for you, not wishing that you marry into other clans!”

“If the person whom you like has powerful innate talent, perhaps the Sacred Phoenix Race will be willing to let him marry into the family, but if your innate talents disparity is too far apart, then you’d be separated in the end.”

Huang Yueli blinked, not believing that she had heard such things.

It seemed that ever since she had been reborn, everyone kept saying that she wasn’t worthy of Li Moying, so this was the first time she heard anyone saying Li Moying wasn’t worthy of her!

Furthermore, he said if he had the innate talent then there’s be hopes for him to marry into the family.....

It was unimaginable for such an arrogant man like Li Moying, to marry into the family.....

Thinking of this, Huang Yueli’s mind suddenly popped out an image of Li Moying following behind her, like her little wife, as she couldn’t help but burst out laughing.

Huang Zixiao saw that she actually laughed, and felt that she totally didn’t sense the seriousness of this problem.

**Chapter 1153: Li Moying marry into the family? (3)**

“Don’t think I’m cracking a joke, the clans in God Realm, all look upon innate talent as the most important factor!”

Huang Yueli smiled, as she said, “Senior, thank you for reminding me. But the person I like had much higher innate talent than me! I feel that we’re very compatible, so no one should even consider tearing us apart!”

Don’t say Li Moying’s innate talent was much higher than hers, even if it was lower than hers, she would not possibly separate from him because of this.

Whether the clan agreed or not, she did not care, at most they won’t go to God Realm.

“You.... sigh, youngsters...” Huang Zixiao sighed.

He didn’t believe in Huang Yueli’s words because based on the current condition in Soaring Heavens Continent, to appear a heaven grade genius like her was already an unbelievable thing, how would there be a man who had a better innate talent than her?

To tell the truth, he felt that beauty was in the eyes of the beholder, and Huang Yueli had valued this man too much. That man probably had a much better innate talent than ordinary practitioners, but at most he’d only be Earth grade!

No, not to mention earth grade, if he could reach the forefront position of human grade, it would already be an achievement.

But, now that this young lass was head over heels for him, no matter what he said wouldn’t be of any use. When the days went by, once their cultivation distance was pulled apart, then she would naturally understand.

Huang Zixiao didn’t continue talking, but brought Huang Yueli to the inheritance tower’s Ancient Books Chamber.

Seeing the book shelves being neatly arranged into rows and rows of god grade ancient books which were only available in God Realm, Huang Yueli got excited as she completely threw the earlier conversation behind her and concentrated on selecting the secret manuals.

But Huang Zixiao had agreed upon something in advance, Sacred Phoenix Race had their own regulations, she could only pick three books for cultivation methods and Profound Skills related to cultivation, but since there were much lesser people who wanted armament refining books, as she was a heaven grade genius, he allowed her to select more books from there.

The next two days, Huang Yueli spent all her time in the Ancient Books Chamber.

As she already had a top rated <<Nine Phoenix Transformation>> cultivation method, so the three ancient books which she selected was all on Profound Skill, a book on attack, a book on defence and a book to increase her attack speed, including the body works Profound Skill which she obtained in the sixth storey of the refinement, if she managed to master them all, then her all-rounder potential would be lifted up to a different plate.

Besides that, she selected another five ancient books related to armament refining. It wasn't that she didn't want to take any more, but it was because she couldn't understand most of the portions.....

God Realm's armament refining ancient books, were all used to refine God Relics. Her current attainment still wasn't there yet, so there were still many places which she needed to raise up.

Other than that, before she left, Huang Zixiao also passed her that <<Guide to rearing a Phoenix>> which he had promised earlier.

Little Phoenix was watching by the side and was so anxious that it started stomping its feet, attempting to use its sharp beak to tear the pages, luckily Huang Yueli managed to evade in time.

She threw Little Phoenix back to the Sky Phoenix Ring before retrieving the book to take a look.

"Suitable food to feed Phoenixes: Fire attributed spiritual grass, fire attributed magical beast cores, little amount of fire attributed magical beast meat, try to cook it lightly, avoid feeding different attributed magical beasts meat, ordinary meat, no frying or roasting.... Alright, I'm in the wrong, I shouldn't have given Wang Cai roasted chicken drumsticks..."

"In order to let your infant phoenix grow up healthily, you must make it fly for one hundred miles and above daily, and at the same time, under a dense fire attributed environment, cultivate for six hours daily!! Wang Cai seemed to have never cultivated before??"

Huang Yueli was flipping the book in her hands, and she muttered to herself while repenting.

#### **Chapter 1154: Counter kill (1)**

"Sigh, it's all my fault, affecting Wang Cai's growth. I will correct this and have stricter demands towards him!"

Little Phoenix shared her sentiments, so although it was shut in the Sky Phoenix Ring, it could still hear her words.

Momentarily, he was so anxious that he almost cried.

Finished, it's all finished this time! His good days were coming to an end!

No more roasted chicken drumsticks, and he had to fly a hundred miles daily and cultivate for six hours, oh my heavens!! Torturing a phoenix!!!

"Boo hoo hoo, no! Female devil, I don't want to be separated from my chicken drumsticks! Don't treat me in this way, I promise to be obedient in future---!"

Little Phoenix's wailing that sounded like ghosts and that howling that sounded like wolves were totally ignored by that heartless female Master of his.

Huang Yueli kept all the secret manuals properly and looking at the time, it was already the forty ninth night so she bade Huang Zixiao farewell as she left the inheritance tower.

Huang Zixiao's stared blankly into space after she departed as he felt deeply moved.

This kind of heaven grade genius, not born in God Realm's direct descendant, but born here in the abandoned Soaring Heavens Continent. He started pondering about the final outcome, how would it turn out....

.....

A gold light flashed in front of Huang Yueli's eyes and the scenery changed.

It was no longer the inheritance tower's never changing décor, but she was now in the inner portion of the huge stone array once again.

"Ah—! Finally out at last!" Huang Yueli stretched her body as an excited smile spread on her face.

"I've been in that inheritance tower for so long, everyday just staying in that small room, I'm almost going to be bored to death! It's really hard on Huang Zixiao Senior Uncle, he could actually stay there for more than ten thousand years! So pitiful!"

Saying that, she seemed to have thought of something, "Ah, forgot to ask Senior why was he sealed within the inheritance tower. Next time we meet, I must ask him why, perhaps there might be a chance to let him out! I feel that it's impossible that anyone wants to be stuck in that broken tower right?"

This time she was inside the inheritance tower for over an month and the benefits she reaped was simply huge. But now wasn't the right time to reminisce and sort it out, she had better hurry over to Celestial Light Sect to meet Li Moying first.

She wondered if Li Moying had already gotten news of her disappearance. No matter what, she had to hurry and meet him first!

As Huang Yueli was letting her imagination run wild, at the same time, she retrieved the treasure map from the Sky Phoenix Ring.

"Ha, found it! With this treasure map, I don't need to let out my blood anymore!"

She lowered her head and read the map, and she strode towards the huge stone array's entrance.

But just at this moment, she heard a gust of broken air coming from her back!

Huang Yueli immediately reacted and turned sideways to evade!

Turning back, she saw a man with dishevelled hair, filled with blood and mud, half sprawling on the ground, as he bore his fangs at her sinisterly.

Huang Yueli was stunned for a moment before she responded, "You.... You are Ling Wenbin?"

Ling Wenbin's current outlook, couldn't be described with just a mere "miserable" word?

Both of his legs, from knee down, were completely cut off, that should be the consequence from trying to rush into inheritance tower previously.

So at this moment, he could only use his palms to support himself on the ground, as he moved, that look totally hid the saintly demeanour that he had in the past as Celestial Light Academy's Vice Principal.

Besides that, Huang Yueli also discovered that Ling Wenbin's cultivation had dropped down by a huge notch.

From seventh stage realm second level, it dropped directly to sixth stage realm second level, dropping by an entire large realm.

### **Chapter 1155: Counter kill (2)**

It looked like he had suffered heavy losses during the battle at the inheritance tower's entrance.

The look which Ling Wenbin gave Huang Yueli was filled with malicious hatred.

"Little slut, how dare you still come out! It's all your fault... you caused me to turn out like this! I will absolutely not let you off, prepare to die!"

As Ling Wenbin talked, he circulated all the Profound Energy within his body, as he launched his attack towards Huang Yueli!

Huang Yueli utilised the <<Agility Dance Steps>> which she just learnt, and easilt evades his attack, and she gave a light smile as she turned her head.

"I say, Vice Principal Ling, I really didn't expected that you are still alive! I thought that since you're suffered such a serious injury, you should have died long ago! Even if you didn't die, it has been forty nine days since then, so you must have died of hunger!"

Although she was smiling as she said that, but the words which spewed out were filled with viciousness.

Ling Wenbin's brows twitched, as he recalled his experience in the past few weeks and he almost went insane on the spot!

When he grabbed Huang Yueli at that time, he thought that victory was within his grasp, to be able to enter this early historical remains and monopolize the treasures inside. Perhaps he might experience a reversal of fortune and become Soaring Heavens Continent's top rated expert! At the very least, he would be able to make a small fortune!

For a practitioner who is at this age, this probably was his lifetime's last huge opportunity!

Whoever knew that, just as he was about to attain victory, at the last juncture, Huang Yueli managed to turn the situation around.

Not only wasn't he able to enter the inheritance tower, both his legs were also cut off and furthermore, he suffered from the attacks of the external mechanisms outside the inheritance tower and he was heavily injured!

Although he managed to save his life, but his cultivation had then dropped drastically by a large realm. Plus the fact that his two legs were crippled, he was considered as ruined!

Ling Wenbin was scared and had thought of escaping, but the minute he reached the huge stone array, he discovered that the treasure map in his hands had been snatched away by Huang Yueli so he had no way to get out of the huge stone array!

This round, he was completely trapped here, no way to enter the high tower, and no way to leave.

When he thought of the possibility that he might be confined in this place forever, or even becoming like skeletons like those ancient people in the huge stone array, to die of starvation alive, Ling Wenbin felt exceptionally desperate.

Right now, he really had unspeakable regret! If he knew earlier, he would absolutely not covet the things which Bai Liu Feng left behind! Now, not only was he not able to gain a fortune, instead he became a half dead cripple, not able to go anywhere at all!

However even if he had reached this step, Ling Wenbin wasn't resigned to die just yet, so using the last bit of food and water in his interspatial ring, he lasted till now.

His heart still had a sliver of hope, although Huang Yueli entered the high tower, but if she didn't die, she would have to come out sooner or later.

If he could last till Huang Yueli came out, killed her and snatched all the treasures and treasure map from her, then not only would he be able to take his revenge, he would still be able to gain the treasures from the inheritance tower!

Ling Wenbin waited and waited, waited for so many days that he himself wasn't sure of how long he had waited anymore.

Just as his interspatial ring's food was about to be finished and he was going to become dry immediately, the bronze door to the inheritance tower suddenly flashed a golden ray.

Huang Yueli.... Was finally going to appear!

Words could not be used to describe Ling Wenbin's joy and hatred, the only wish he had on his mind was for this little slut to die immediately! Furthermore, he wanted her to die a terrible and painful death! Then take all the treasures on her for himself!

### **Chapter 1156: Counter kill (3)**

Ling Wenbin stared intently on Huang Yueli as he gave an eerie laugh.

"Little slut, stop struggling. Do you think that saying a few words would distract me? Let me tell you, I'll absolutely not let you off today, and I will make you die pitifully. Oh, no, perhaps I should kill you, I should cut your legs off, and snatch away all your treasures, then tie you here to let you die of starvation, heh heh heh....."

His laughter was especially terrifying.

If anyone were to see him, they would probably feel that they had just seen a living ghost, or probably even more terrifying than a ghost!

However, Huang Yueli merely shrugged her shoulders and there wasn't much changes in her expression.

"You're already so old, why do you say such vicious things? But since you're pretty pitiful, you want to die but not able to, it's just inhumane! I shall do a good deed and send you off!"

“Looking for death!”

Ling Wenbin originally wanted to admire Huang Yueli’s hopeless expression, but things didn’t go according to his wish!

He was so angry that he almost went insane, and he wasn’t able to tolerate much further as he used all the Profound Energy in his entire body, throwing all his killer moves towards Huang Yueli!

Huang Yueli calmly evaded his attacks easily, as a surging fire attributed Profound Energy was unleashed, directly charging towards Ling Wenbin!

The present her, as compared to when she just entered the huge stone array, was no longer the same!

From third stage realm peak, to the current fourth stage realm peak, she had completed the crossover to a large realm!

Not only so, after the process of cleansing her meridians and widening her arteries, her physical body’s toughness was now something which ordinary practitioners could not imagine. At the same time, her speed, strength, endurance and defence powers had also raised significantly! Even the Profound Energy, which gathered in her meridians and the speed of recovery, had all increased by several times as compared to previously!

Furthermore, she had just advanced successfully, and her drive was flourishing, her entire body’s Profound Energy was pure and dense, as though it was about to flow out in abundance!

Not only that, this huge stone array was the spirit gathering array which the Sacred Phoenix Race specially set up, and the fire attributed Profound Energy inside was the most abundant.

With the various elements adding up, when Huang Yueli struck, although it was just a fire ray flasing, but within two breaths time, it had already rose into an eye catching sea of fire!

The raging flames occupied Ling Wenbin’s entire view, as it covered the sky and earth, mountainous waves overturning the sea!

Such powerful presence, made Ling Wenbin totally stunned, unable to respond.

He knew that he should evade, but under such oppression, he felt that he wasn’t facing Huang Yueli, but a ninth stage realm top expert! There was no leeway and hope to struggle!

It was until the fire sea had burnt his body when Ling Wenbin finally gave a terrifying shrill!

“No——! Impossible! How could this..... be....”

He couldn’t understand why, and couldn’t possibly be resigned to it!

How was it that when he faced Huang Yueli, he didn’t had any single bit of resistance at all?

It was clear that when the both of them entered the huge stone array, Huang Yueli could only escape right in front of him, and finally when she fell into his clutches, this lass’s ability against his was like heaven and earth!

Although later on he suffered heavy injuries, but a dead starved camel was still bigger than a horse. His cultivation was still at sixth stage realm, as compared to the third stage realm Huang Yueli, he still had an overwhelming advantage!

Even if Haung Yueli had obtained more treasures in the tower, but surely it wasn't possible for her to gain the potential to defeat him in just slightly over a month?

How could it be possible for him..... to be defeated in the hands of this wretched lass??

### **Chapter 1157: I will never give up! (1)**

But no matter how Ling Wenbin struggled, and how he questioned, it was an unchangeable end for him.

The last scene he saw was the blustering surge of fire sea, with waves covering the sky and earth, later on, no one knew what happened.....

Huang Yueli didn't bother to check on Ling Wenbin's fate, that old fellow had done many evil deeds, he was doomed to die, so she had nothing to do with him anymore.

She followed the indications on the treasure map, and successfully left the huge stone array.

Soaring Heavens Continent was presently in the middle of the serene night.

Huang Yueli raised her head high up as she gazed at the stars in the sky, and using the stars, she distinguished her current location. Without further delays, she set off towards Celestial Light Sect's direction.

...

Not a sound was heard.

In a small town just a short distance of less than five miles from the inheritance tower, inside an inn.

Li Moying was sitting in front of the bed, a wine cup in his hands, as he raised his head to look at the pitch black sky.

It had already been over a month since Huang Yueli's disappearance. He had mobilised every single person he had on his hands, searched all the places surrounding Celestial Light Sect and even sent someone to search along the way back to South Yue Kingdom, but he had yet to find any real clues.

For a while, Li Moying had even suspected if it was Liu Buyan who had secretly saved Huang Yueli.

Hence he intentionally sent someone to follow Liu Buyan, but discovered that he had just found out about Huang Yueli's disappearance and was searching for her too.

Huang Yueli.... seemed to be like a fog, blown away by the wind, as she dissipated under the sun, disappearing without a trace.

Li Moying's feelings, had first started from being anxious, infuriated, frustrated, changing into the current deep obsessiveness.

“Li’er, where on earth are you? Why is it that you’ve met with danger, but had not come to look for me to protect you? Or, have you already been saved by someone? No matter what, no matter how long it has been, I will never give up, I believe that you’re not dead! You must be somewhere, waiting for me.....”

Li Moying silently raised his wine cup, as he put it to his mouth and downed it in one gulp.

Whereas not too far away, on the other side of the corridor, the Shadow Guards exchanged looks, and all they could see from one another’s eyes were a deep sense of worry.

Among them, the only one who was missing was Mo Yi.

Now it was Mo Er who was leading them and all their gazes fell onto him at the same time.

Mo Er alertly shrugged his shoulders, as he lowered his voice, “Why are you all looking at me for?”

“Second Brother, you know, the full moon’s night.... is coming again.”

Sweat immediately formed on Mo Er’s forehead, “Of course I know, in another seven days it will be full moon! But even if you all looked at me, I don’t know what to do as well. Last time Brother Mo Yi colluded with Principal Jiang, and both of them weaved a lie to cheat Master back to the Sect. After Master’s illness recovered, he flew into a huge rage. If it hadn’t been for the fact that Eldest Brother had followed him loyally for many years, his life would probably be lost by now! I’m a coward, I.... I don’t dare to imitate Eldest Brother!”

“But, Second Brother, how can we go on like this? Master had spent the entire time searching for Third Miss, under the conditions of neglecting sleep and food every single day! If his illness were to act up under these conditions, it would be very severe. If he’s not in the Sect, won’t it be very difficult to control?”

“Do you think I don’t know that? But now, to make Master agree to return would be either he himself come round to it, Third Miss showing herself and we managed to find her!” Mo Er replied.

“Master’s feelings towards Third Miss, really runs deep!”

## **Chapter 1158: I will never give up! (2)**

“Isn’t that so? Previously someone were guessing that Master despised Third Miss for her background and separated with her, in order to marry the Sect Master’s daughter! You all don’t know how many people are spreading such things within the Sect, as though they’ve seen it with their own eyes! We should really make them come over and take a look personally!”

“Alright, stop talking about all these, the current problem is still..... how can we make Master return to the Sect before full moon’s night?”

The topic was pulled right back, so everyone entered a state of silence once again.

Just at this moment, from afar, Li Moying’s cold voice was heard.

“Mo Er!”

Mo Er shivered all over, but not daring to waste any time, he immediately ran over and bowed, "Master, your instructions please."

Li Moying put down his wine cup, and replied in a low voice, "Continue searching around the area for the next three days. Three days later, if there's still no news of Li'er, then prepare to return to Celestial Light Sect!"

"Ah??" Mo Er suddenly went into a blank, he really didn't expect Li Moying to be so cooperative, spontaneously suggesting to return to Celestial Light Sect!

They, Shadow Guards, were still worried, and afraid that Li Moying would not care about his own life because of Huang Yueli!

Li Moying noticed his expression and explained in a rare occasion, "Li'er has not been found, so I cannot go down like that! From the looks of the current situation, it would be a difficult feat to find her and may spend a lot of time, so I have to keep my life so that I can protect her! Moreover..... moreover Li'er said this before, wishing for me to take good care of myself, I cannot not listen to her."

Mo Er heard his words, as his feelings got even more complicated.

On one hand, he was filled with joy, yet on the other, he was filled with worry.

The joyous part was, Li Moying finally knew how to take care of his own body, at least he wouldn't ignore his Soul Detachment Illness, putting his life at stake or taking it as a joke.

But what made Mo Er worried was.... Li Moying still kept talking about Li'er whenever he opened his mouth. For his feelings to run so deep, if something really happened to Third Miss...

Mo Er simply didn't dare to continue thinking along that line!

He hurriedly lowered his head and responded, "Master please be assured, even if you return to Celestial Light Sect to recuperate, the rest of us will do our best to search for her and absolutely not delay Master's matters!"

Li Moying nodded, as he was just about to say something.

Just at this moment, a blinding light flashed from outside the window, as though a lightning had descended from the sky, but in a flash, it disappeared without a trace.

Li Moying frowned, "What was that?"

Mo Er was stunned momentarily, as he replied, "I have no idea.... But some time ago while searching this place, we've heard some villagers mentioned that they often came across the mysterious lightning, sometimes it would also occur in day time and many people said, this was Thunder God's punishment! The villagers do not dare to go to the wilderness during night time."

Li Moying frowned as he went into deep thoughts, when suddenly he stood up and walked out of the door.

"Get Mo San and Mo Si along, go out with me!"

Mo Er hurriedly followed, "Master, where are we going?"

“I feel that the flash of light has a problem, it didn’t looked like lightning, but it seemed like.....”

“Seemed like... what?”

Li Moying didn’t continue speaking, but only hurried his footsteps!

.....

An hour later, Li Moying and his Shadow Guards arrived at the nearby wilderness.

This position, was the exact position where the flash of light had appeared and was the position of the inheritance tower as it appeared every forty nine days.

Only, unfortunately, he came too late.

### **Chapter 1159: To Celestial Light Sect (1)**

Now, the inheritance tower had once again disappeared in the void space, whereas Huang Yueli didn’t wanted to delay any further so she set off in the middle of the night, rushing towards Celestial Light Sect.

Both directions were the exact opposite, so they didn’t managed to meet up.

Li Moying brought his men as they searched the wilderness for an entire round, but had not caught sights of anyone.

But, after Mo Er surveyed one round, he suddenly started shouting in shock, “Look, there’s a hairpiece here!”

Li Moying immediately moved, as he appeared by his side, and his vision fell onto that hairpiece.

He immediately recognised that this hairpiece was the one which Huang Yueli usually liked very much. When Li Moying had been staying with her in Celestial Light Academy, he practically saw her wearing it daily.

Could it be that.... Li’er really appeared nearby this place?

Li Moying gripped hard on that hairpiece, as his frown grew tighter.....

.....

Huang Yueli totally wasn’t aware that because she had ran too fast, she actually missed Li Moying!

If she knew this earlier, she would absolutely wait there obediently, for him to pick her up.

Alas.....even a thousand gold was unable to buy something foreseeable.

The second morning, Huang Yueli arrived at the small town in front.

Now in the nearby towns, Li Moying’s men were stationed there searching for her.

But as Huang Yueli didn't know what they were up to, only feeling that the search was tense and the atmosphere was extremely fishy, so in order to avoid trouble, she intentionally avoided those disorderly towns and picked the smaller routes to proceed.

Three days later, she successfully arrived at Celestial Light Sect's front mountain.

Celestial Light Sect was indeed the South Sky Region's number one Sect. From the looks of the front mountain's main entrance, it looked extremely majestic and imposing, and there were many disciples wearing the Sect's uniform which bore the logo walking around keeping surveillance, other than the Sect's disciples, outsiders were completely not allowed in.

A young boy who wanted to formally become an apprentice to a master, was pleading hard but he was being bluntly kicked out.

Huang Yueli stopped at a distance around one mile or so before the Sect, pondering how she could explain her identity to the guards around the entrance.

If she claimed that she was their Young Sect Master's fiancée, would they believe in it? Or should she find another reason which would allow her to meet Li Moying easily?

Just as she was in deep thoughts, suddenly a luxurious carriage helmed by eight Dark Green Maned Snow Horses, speeded from afar, as it stopped at the Sect's main entrance.

The door curtain opened, and an exceptional beauty walked down from the carriage.

This person... to Huang Yueli, was not a stranger at all — she was Murong Fei!

The minute Huang Yueli saw her, she subconsciously drew back her head, and hid behind a large rock nearby, not wanting to let her see herself.

But she had already expanded her soul trace, putting in all her concentration, trying to hear when she was going to leave.

Murong Fei got off the carriage and all the guards went up to welcome her.

"Eldest Young Miss, you're back!"

"Welcome Eldest Young Miss's return to the Sect!"

Murong Fei bore a noble demeanour from a wealthy family, as the smile which hung on her lips was faint yet reserved, as she nodded towards everyone.

Just as she was about to enter the entrance, she suddenly stopped and called out to a guard.

"This junior brother..."

The guard's face immediately flushed red, as he displayed an overwhelmed by favour from superior look, "Yes.... Eldest Young Miss, are you calling me?"

Murong Fei nodded and asked, "Has Eldest Senior Brother returned back during these days when I'm out?"

The guard shook his head, "Replying Eldest Young Miss, Young Sect Master has not returned for close to a month."

## **Chapter 1160: To Celestial Light Sect (2)**

Murong Fei's expression turned slightly ugly then, as her sharp manicured nails almost dug into her own palms.

Luckily, she recalled that she was still at the front mountain and under everyone's sights, she had to maintain her dainty and noble image!

She forcefully suppressed the rage and sour feeling in her heart as she asked again, "That means, ever since the last full moon's night, Eldest Senior Brother went out and have not returned?"

"Yes!" The guard replied.

Murong Fei nodded, "Alright, I've got it. Well, if Eldest Senior Brother returns, please look for me immediately!"

"Eldest Young Miss please be assured, I guarantee that I will complete this mission!"

Huang Yueli secretly heard their conversation and couldn't help but frown.

She had not expected that Li Moying was not in the Sect! Why did he go out for? Surely it wasn't to search for her, right?

Then what should she do now? Where should she go and find him?

Furthermore, if Li Moying wasn't here, she probably had no way to convince the entrance guards and would not be able to enter Celestial Light Sect, probably she would be chased out immediately, just like that young boy who was trying to become an apprentice?

Just as she was still considering, Murong Fei already walked into the Sect.

As she was walking, she lowered her volume as she talked to the people beside her.

Even though she had already intentionally suppressed her volume, but after soaking in Phoenix's Blood, Huang Yueli's five senses became exceptionally agile, which was something that ordinary practitioners could not imagine and she faintly heard what the duo's conversation.

"Damn it, you trash should all die! Haven't I instructed you, to not spare any effort, to find that wretched slut before Eldest Senior Brother? Why is it that such a long time has already passed and there are no clues at all? Then what's the point for me to feed you bunch of trash, for nothing?"

Murong Fei was just walking into the Sect and on seeing that there's no one around, she couldn't help but acted up.

Her few bodyguards lowered their heads, not daring to look at this Eldest Young Miss who acted like a gentlewoman in front of others but an unruly woman behind.

“El... Eldest Young Miss, please listen to our explanation! We have already tried our best to search for her! But, Young Sect Master brought out all his Shadow Guards to search as well. We must avoid his men, so we could only act in secret! Otherwise if Young Sect Master finds out our whereabouts, and starts to suspect Eldest Young Miss, then that would really be great trouble!”

“Hmph, excuses! All these are excuses! Haven’t I told you this already? The person who is trying to assassinate Bai Ruoli, is Celestial Light Academy’s Vice Principal Ling Wenbin! Eldest Senior Brother doesn’t know how to find him, but I have a secret code with Ling Wenbin! You all know this secret code, but still unable to find them?”

When Huang Yueli heard these, her entire person was in shock!

From Murong Fei’s words, she had already understood that Li Moying was not in Celestial Light Sect, because he knew about her disappearance, and ran out to search for her. Furthermore, he had already been searching for more than a month!

Not only that, Ling Wenbin assassinating her, indeed was linked to Murong Fei who had collaborated with him beforehand!

Murong Fei... Was the mastermind who wanted to secretly kill her!

Her bodyguards hurriedly tried to explain, “Eldest Young Miss, this is a huge grievance! We had already followed according to the secret code that you’ve given us, and tried ways and means to contact him in all channels, but Vice Principal Ling didn’t appear at all! He.... surely something shouldn’t have happened to him right?”

Murong Fei immediately gave a cold harrumph, “Accident? What accident could there be?”
