

Weaponsmith 1321

Chapter 1321: Miss Bai has been dived by him (4)

President Hu was the witness whom he and Murong De invited over to be the judge so if Murong De were to offend President Hu, perhaps today President Hu would be more bias and lean towards Green Cloud Sect's side!

Cui Yuan Shan's brain was working fast as he immediately grabbed the chance before Murong De to speak out.

When Murong De heard that, he immediately felt something was amiss. But the things which Cui Yuan Shan said wasn't a lie and in fact it was really truthful so momentarily he didn't know how to explain as well.

However, his hesitation for that one moment was already too late.

Present Hu's eyes bulged out as he blew his beard, throwing a huge temper!

"Sect Master Murong, is what Sect Master Cui said all true?"

Murong Fei hurriedly replied, "Miss Bai indeed didn't have the qualification to take a seat in the upper seats, but....."

President Hu totally didn't hear his "but" as he had already blown his top on hearing the first half of the sentence! He totally couldn't suppress his temper.

"Sect Master Murong, I really don't understand your Sect's regulations but why doesn't Miss Bai have the qualifications to sit in the upper seats? A fourteen year old obtaining a first tier Armament Master certification, and her actual ability was enough to obtain a third tier and above certification armament refining genius, so it's so invaluable! Can I think that you're despising and humiliating our Armament Guild?"

President Hu was angry for a reason, it wasn't just for Huang Yueli alone but for the entire Armament Guild!

An Armament Master's status was highly respectable, especially for the young and talented armament refining genius, their statuses were highly valuable in many large powerhouses.

For this kind of function, a young armament master's seat would normally be much higher than same aged genius practitioners because armament refining talents were much rarer than cultivation talents!

There was no need to say that for a super genius like Huang Yueli, there probably wasn't a second one in the entire Soaring Heavens Continent. Just what kind of outstanding existence was this! Celestial Light Sect was just a large sect in the South Sky Region and not even in place within Sky Emperor City, and they actually dared to allow this kind of genius to sit at the last seat?

Any Armament Master who saw this would not be able to endure it alright?

Murong De had not expected the usually gentle President Hu to suddenly flare up as he was momentarily shocked.

After he heard President Hu's words clearly, he was even more shocked as he totally couldn't recover his senses.

"This.... President Hu, you.... are you sure you didn't get it wrong? This.... This Miss Bai is.... Is a certified Armament Master? This.... how could this be possible?"

Hearing Li Moying's fiancée was only fourteen or fifteen years old, such a young certified Armament Master had not appeared within the South Sky Region before!

President Hu angrily retorted, "Could I be lying to you? Miss Bai was awarded as a first tier Armament Master by me personally when I presided over that certification assessment! Moreover, she displayed shocking armament refining talent during the assessment. With her potential, obtaining a third or fourth tier certification isn't a problem at all! According to the Armament Guild's regulations, Armament Masters of second tier and above needs to be certified at the Guild otherwise, I will already have issued her with a third tier badge!"

"T...T...T... Third Tier??" Murong De felt that his tongue was going stiff as he couldn't even speak properly.

This... was he having a problem with his hearing?

A fourteen year old third tier Armament Master, how could this be possible? This wasn't something which could be described with a mere armament refining genius!

Generally those Armament Masters who could reach third tier before the age of twenty five were all considered to have a boundless future. They would at least reach a level of sixth tier and above high levelled Armament Grand Master!

Chapter 1322: Miss Bai has been dibbled by him (5)

What concept was a sixth tier Armament Master? Even in Sky Emperor City, that would be a reputable VIP, what more in South Sky Region. President Hu himself was only in sixth tier!

If a fourteen year old could reach third tier, then what would her future be?

This was simply unimaginable!

Frankly speaking, if this was said by another person, Murong De would not believe it at all because a fourteen year old third tier Armament Master was simply too ridiculous. No one would ever believe such a matter without any evidence.

But since President Hu was the one who said that, based on his title as a respectable Armament Grand Master to say such a thing, there was no choice except to believe in his words!

President Hu looked at Murong De's expression as though he had been struck by lightning but still hadn't vented his anger enough as he continued, "Furthermore, this Miss Bai's background isn't ordinary

as well. Her Master is an Armament Grand Master from Sky Emperor City, at least eighth tier and above! Based on her innate talent and with the coaching of a reputable Master, her future..... I think you don't need me to say more about this right?"

Murong De was completely stunned by now.

An eighth tier Armament Master in Sky Emperor City, those were reputable people with great value. Even for a Sect like Celestial Light Sect, even if they gave all their fortunes, they might even be scorned. This young lass's luck was actually that good, to be under the wing of an eighth tier Armament Master?

But it's no wonder because based on her innate talent, which Armament Master wouldn't be moved? They would absolutely fight to let her become their disciple!

President Hu saw his dumbstruck look and finally understood that Murong De totally wasn't aware of the truth.

He gave a cold harrumph and said, "So now are you clear? Young Sect Master Li's cultivational innate talent may be hard to find but Miss Bai's armament refining innate talent is something which is hard to come by in one hundred years! In what way are they not compatible? Don't take it for granted. This kind of armament refining talent can't be found anywhere else and now for her fiancé, she came over to your Celestial Light Sect. Instead of treasuring this luck, you actually wanted to let her sit in the last seat?"

"Why? Do you think that we Armament Masters are an easy lot to bully? Miss Bai is too sentimental that's why she didn't leave immediately! Just wait until she cannot tolerate it any further by these petty people's actions, I'd like to see where you run off to cry!"

Murong De originally was already very remorseful but after being scolded by President Hu, his sweat started dripping down.

He immediately turned towards Huang Yueli and spoke politely, "Miss Bai, so you're a certified Armament Master, why didn't you tell us earlier? Moying didn't tell us clearly on this! Quick, please have a seat!"

Huang Yueli didn't give a reply as her gaze fell onto Murong Fei.

At this present moment, Murong Fei's expression was not just describable with the word pale. She stared at Huang Yueli in disbelief as though she had just seen a ghost!

In the past she heard that Huang Yueli knew how to refine armaments or something as such but she didn't let it stay inside her heart. There were a few armament refining talents in Celestial Light Sect and there were occasions where fourteen or fifteen year olds were barely able to pass the first tier Armament Master certification assessment. Murong Fei was an eighth grade talented practitioner so this was much rarer than ordinary armament refining talents!

But after hearing what President Hu said today, Murong Fei realised that she had belittled Huang Yueli! She actually reached the standard of a third tier Armament Master??

Just what kind of an abnormal genius was she?

Just that little slut.... How was this possible??

Seeing Huang Yueli's gaze fall onto herself, Murong Fei couldn't help but shudder.

Chapter 1323: Miss Bai has been dived by him (6)

For Huang Yueli to look at her, there was no need to think to know that she was definitely up to no good!

Indeed before Huang Yueli opened her mouth, Murong De had already noticed her line of vision as he immediately responded, snatching the opportunity to speak, "Fei'er, today you've been too rash and offended Miss Bai, apologize to Miss Bai!"

Murong Fei felt extremely humiliated when she heard this.

The person she looked down on the most was Bai Ruoli who was standing in front of her. Now she was made to apologize to this little slut who had snatched away Li Moying from her? How was this possible?

Murong Fei was suppressing herself as she didn't say a word.

Murong De frowned as he was feeling frustrated. He felt that this daughter of his was really making one more and more irritated. She had been causing trouble day in and day out and now that she'd done something wrong, she actually refused to apologize? This temper.... She had really been pampered thoroughly!

When Cui Yuan Shan saw this, he laughed out loudly, "Junior Brother Murong, don't make things difficult for your daughter anymore. She's thinking of the Sect too, otherwise why would she keep her eyes on Miss Bai for? After all she's the Sect Master's daughter so if you want to make her apologize to Miss Bai, it is not giving her any face right?"

Cui Yuan Shan spoke a chain of biting sarcasm making President Hu's face turn ugly once again.

He angrily gave Murong Fei a stare and said, "Alright, I finally understand Celestial Light Sect! So Armament Masters in your sect are being treated in this way! Since you despise Armament Masters, feeling that apologizing to Armament Masters is an embarrassing thing, then why do you even look for me to be a witness? I cannot take up this responsibility!"

Saying that, he flicked his sleeves and was about to walk off!

This time round, Murong De was really anxious.

He hurriedly ran down from the main seat and blocked President Hu's way as he gave an apologetic smile, "President Hu, please don't! Today's matter is a huge matter, so we cannot do without you! What you said is correct, my daughter is in the wrong and she should apologize, we cannot just forget about this!"

Saying that Murong De looked at Murong Fei once again as he opened his mouth. His tone had turned harsher than before.

"Fei'er, where are your manners? Today you've indeed gone too far, why aren't you apologizing to Miss Bai?"

Murong Fei's eyes widened as she didn't expect her father, who had pampered her so much, actually forced her to do such an embarrassing thing in front of so many people!

Now in the main hall, everyone's eyes were on her and Huang Yueli. If she were to submit to Huang Yueli right now, in future where would she have the face to snatch her man from Huang Yueli?

But since things already came to this step, there was no possibility for her to not lower her head.

Murong Fei suppressed herself for a long period of time and she finally clenched her teeth tightly as she hissed the few words out forcefully.

"S... Sorry!"

Huang Yueli blinked, "What did you say? I didn't hear it clearly!"

Murong Fei had finally coerced herself to say a word of apology but in the end Huang Yueli still said that about her, making Murong Fei almost fainting from anger!

Actually, although Huang Yueli intentionally made things difficult for her, but her voice was really soft like a mosquito buzzing so a lot of people didn't even notice that she had said anything earlier!

President Hu also frowned in dissatisfaction, "That's right, your apology is so soft, I'm guessing you are not sincere at all, right? Are you just trying to hoodwink me?"

Under the tremendous pressure, Murong Fei had no choice but to raise the volume of her voice.

"Miss Bai, I've offended you today and I'm extremely sorry for it!"

Chapter 1324: Miss Bai has been dibbled by him (7)

This time although Murong Fei's voice had turned louder, but her tone sounded so fierce that one couldn't tell if she was remorseful or not.

President Hu frowned again and was about to spit out fire, "What kind of an attitude is that?"

However Huang Yueli hurriedly stopped him as she said, "President Hu, don't be angry. Miss Murong has apologized and I'm already very satisfied with that. After all she's Moying's Junior Sister so it's understandable that she has this attitude. I must consider on the behalf of Celestial Light Sect as well."

Upon hearing this, President Hu gave her a sulky stare.

"You ah, you're just like that, simply too kind which is why you're bullied by others! A genius armament master actually got chased down from the upper seat, what is this? Don't just think for Young Sect Master Li. He's a genius alright, but you're not far off from him, so if he really bullies you, don't you just swallow it down!"

Huang Yueli hurriedly said, "President Hu, please don't misunderstand, Moying is very good to me! I just don't want to smear the reputation of his Sect."

President Hu waved his hand, "Alright, alright, I know you two have a good relationship so hurry on and go back to your fiancé! I really can't continue watching!"

Huang Yueli couldn't help but laughed as she felt that this old man was really meaningful. Armament Masters were mostly aloof by nature but they were generally more pure and towards people who entered their eyes, they would treat the other party very well.

Murong Fei was just by the side listening to them talk as he felt extremely touched.

Regarding today's matter, Huang Yueli was the one who suffered the most grievance instead of bearing a grudge, that young lass was even considering on the Sect's behalf to compromise and let everyone have a peace of mind. This was extremely hard to come by!

In comparison, Murong Fei had not considered his obstructions several times and had to go against Huang Yueli. Not only had she thrown their face all the way to the West Sky Region, furthermore her last apology was so insincere!

Murong De stared at her as he felt resentful towards her for failing to meet his expectations, "Look at yourself, why can't you learn from others? No wonder your Eldest Senior Brother only likes her. This kind of tolerance is just not the same!"

When Murong Fei heard that, she almost fainted!

What kind of virtue that wretched lass had, no one was more clearer than her. She was absolutely black-bellied and sinister, filled with a stomach full of bad water!

But unfortunately her father actually sided that wretched lass and still asked her to learn from Huang Yueli? He even said she had low tolerance??

Why couldn't her father tell that that wretched lass absolutely said that on purpose! It was done to disgust herself!

"Intentionally?"

Huang Yueli returned back to Li Moying's side and before she had even sat stably, Li Moying raised his brow at her as he asked in a low voice.

Huang Yueli proudly and pamperedly hmped at him, "Aren't I doing all these for you? If I really put your Master on the spot, your Celestial Light Sect will probably lose all the face to continue in this line!"

Li Moying leaned in close to her ear as he laughed lowly, "As compared to you, nothing is more important than you, so Celestial Light Sect is not even worth mentioning at all!"

"Your words really sound so nice!" Huang Yueli pouted.

Li Moying knew that she was still feeling upset inside. Furthermore originally if she had openly beaten Murong Fei up, this anger might have been appeased. But after President Hu stuck his nose into it, although he had won back her face in a strong manner, but that anger was suffocated back.

No wonder she wasn't feeling good at all.

Li Moying naturally knew what she was thinking about and pinched her cheek laughingly.

"So pampered and arrogant, it's all because your fiancé didn't vent your anger for you? Just wait and see!"

Huang Yueli went into a blank as she didn't know what he was up to and turned back to take a look at him.

Chapter 1325: Malicious Provocation (1)

Li Moying pacified her by touching her shoulders and turning back his head at the same time as he said coldly, "Second Junior Brother, where do you think you're going?"

Li Lingchuan realised that the situation wasn't quite right and had already been retreating backwards secretly, hoping that his movements would not be found out. Whoever knew that Li Moying suddenly called out for him.

He secretly raised his head and met Li Moying's biting cold gaze sweeping by as his spine felt a chill, so he could only stop his footsteps.

Li Lingchuan self-professed that he was one of the peerless talents in South Sky Region and while facing other practitioners, he never felt that he ran out of spirit but unfortunately the moment he met Li Moying, just one glance was enough to make him terrified, feeling that he had to bow down in front of his feet!

"Eldest.... Eldest Senior Brother.... AH—!!!"

His stammering words had yet to finish when he felt his eyes turning blurry.

A severe lightning flashed across and struck him on his chest!

Li Lingchuan didn't even have the time or space to react or evade when he was struck directly. He saw a miserable shriek as he crashed heavily towards the outside!

"Lingchuan!" Murong De stood up in shock, "Quick, quickly go see what has happened to Li Lingchuan!"

The medical professionals present immediately rushed over.

This time as the mishap happened too quickly, so quick that it made everyone surprised and everyone in the main hall were shocked. No one expected Li Moying to suddenly make a move!

Just within a short span of an instance, Li Lingchuan was heavily injured.

After some time, some people finally regained their senses as all of them were dumbstruck.

"This... What's the matter with Young Sect Master? Why did he directly strike out at Mister Li!"

"Isn't that obvious? Earlier Mister Li together with Eldest Young Miss were bullying Miss Bai, intending to ask her to sit at the last seat. Although Young Sect Master has given the Sect some face to let off Eldest Young Miss, but Master Li doesn't have that good fortune eh?"

"He really stood up for Miss Bai! Heavens. Young Sect Master's character is so cold but he actually got fired up for a woman.... Why isn't the lucky one me? What curse did Bai Ruoli casted on him?"

"You? Haven't you even seen your own distance between yourself and Miss Bai! She is a top rated armament refining genius, even President Hu is full of praise for her, are you even comparable?"

Not only were the ordinary disciples discussing this, even President Hu and the rest were extremely shocked and surprised.

President Hu was only astonished for a moment when he laughed out, "Youngsters.... They are just too rash! But at least he has a bit of hot-blood in him. Otherwise I cannot rest assured that our talented genius young lady of the Armament Guild will marry him! From the looks of this now, Young Sect Master Li indeed knows how to protect our Miss Bai."

Li Moying indifferent replied, "Naturally."

Towards outsiders, he didn't like to talk much but merely using a few words to describe his feelings of adoration towards Huang Yueli, it was enough to make anyone understand his meaning.

The words of beration were almost by Murong De's mouth but upon thinking, he decided to swallow it down!

Internal strife was a major offence in these kinds of large Sects and if it were others who fought in such an occasion, Murong De would never let them off.

But since it was Li Moying, he couldn't even say a single word of criticism!

Because he himself could not afford to offend Li Moying, moreover Li Lingchuan was at fault in the first place! Adding on to the fact that Li Moying had already let Murong Fei off, his pursuit towards Li Lingchuan was considered a huge step back.

Chapter 1326: Malicious Provocation (2)

Murong De restrained himself for some time, not saying a word.

At this moment, the doctor who gave Li Lingchuan a check up came over to report, "Sect Master, Master Li's injuries are rather grave. His internal organs were almost shattered and if he doesn't lie down for a couple of months, he wouldn't be able to recuperate. Luckily his meridians hadn't suffered too much damage so in future he will still be able to continue cultivating."

Hearing that, Murong De knew that Li Moying really had shown leniency so what more could he say?

Murong De sighed as he waved his hand, "I know already, bring Master Li down for urgent treatment."

Saying that he returned to his own seat. From the start till the end, he didn't say a word about Li Moying.

Huang Yueli sat beside Li Moying as her eyes were wide open, a little surprised over what had happened.

She had not expected Li Moying to be so merciless. Suddenly injuring someone without even giving a warning at all.

In this way, Murong De's reputation had totally fallen onto the ground so Huang Yueli thought that he would at least berate Li Moying a little.

But towards the end, Murong De didn't even say a single word and directly went back to his seat. It was obvious that he was afraid of Li Moying!

Li Moying sensed that Huang Yueli kept staring at him as he turned his head slightly, "What's the matter, Li'er? Why are you looking at me and not eating anything? Are the dishes not to your liking?"

Huang Yueli smiled at him, "I realised that you seem to be very overbearing in the Sect, you just beat up your junior brother until he has such a serious injury? Haven't you noticed that your Master is extremely angry?"

Li Moying gave a cold harrumph, "I didn't go beat up Murong Fei is the utmost face which I'm giving him. Moreover the guy surnamed Li created trouble for me in the Dark Moon Forest previously and I haven't settled the debt with him yet. And now he still came out to create trouble, does he think that I, Li Moying, am dead?" Saying that, he looked at Huang Yueli, "Li'er, do you feel that I'm too overbearing?"

Huang Yueli smiled sweetly, "Of course not, why would I? I feel that you're extremely suave until I can die!"

Li Moying then satisfactorily smiled as the sides of his lips curled upwards.

To him, there was nothing which made him happier than to hear Huang Yueli praised him. His Li'er's expression was just too cute and if it wasn't for the fact that this was a public area and he was afraid that Huang Yueli would become angry from embarrassment, he wanted to lower his head and give her a kiss.

Suddenly at this moment, Cui Yuan Shan suddenly opened his mouth, "Junior Brother Murong, aren't the rules in Celestial Light Sect very strict? How come your disciples can even beat each other up openly in public, this is a real eye opener for me!"

Murong De's expression stiffened.

How would he not be able to tell that Cui Yuan Shan didn't harboured any good intentions. Everyone present could tell that he didn't berate Li Moying because he didn't want to offend this talented disciple.

But Cui Yuan Shan had to bring out this sentence, ridiculing and hinting that he had a double standard.

If he didn't pursue the matter in which Li Moying beat up his fellow junior brothers, it was obvious that Celestial Light Sect didn't have the dignity of a large Sect. But if he pursued him, he didn't dare to take up the risk of offending Li Moying.....

Cui Yuan Shan was obviously trying to sow a discord between them!

Just as Murong De was extremely interlocked, Li Moying suddenly gave a chilly laugh and calmly opened his mouth.

"Sect Master Cui, this seems to be our Celestial Light Sect's matters, so since when had Green Cloud Sect able to dabble into our sect affairs! We have yet to discuss the two sect's cooperation method and you're already dabbling in our sect's internal affairs. If we really cooperated, then are you going to override my Master?"

Hearing that, Cui Yuan Shan's expression changed immediately.

Chapter 1327: Malicious Provocation (3)

Cui Yuan Shan didn't expect Li Moying to rebuke him and moreover in such an arrogant and overbearing manner!

He was a ninth stage realm top expert who had been established for quite some time and his potential is much higher than everyone else present, even Murong De didn't dare to speak to him in such a manner.

But Li Moying seemed as though he didn't feel any pressure, as he immodestly taunted him!

Cui Yuan Shan patted the table and angrily retorted, "You... how dare you speak to me in this manner??"

The minute his rage flared up, his powerful aura immediately enveloped the entire main hall and Li Moying suffered the most pressure but he seemed as though there was nothing to it as there weren't any changes to his expression.

"Sect Master Cui, putting up such a powerful might, what is your intention? Do you feel that our Celestial Light Sect is good to bully? Thinking of using might to suppress our Sect? This is how Green Cloud Sect displays your sincerity? If this is the case, then I feel that the decision to cooperate with Green Cloud Sect is really a huge mistake!"

Li Moying's lips curled up as he gave a slight smile of ridicule.

Cui Yuan Shan was just about to explode when he heard these words and suddenly regained his senses.

His eyes were fixed on those Celestial Light Sect's ninth stage realm Elders as they all started to stand up, looking at him with anger in their eyes. Evidently, they were all fired up from his earlier action.

Cui Yuan Shan immediately broke out in cold sweat.

Yes, although Li Moying himself was only in seventh stage realm, but Celestial Light Sect wasn't a small Sect who were vegans! As an established and accomplished sect which had been around for a thousand years, even if Sect Master Murong De's actual ability wasn't comparable to his, but there were still grand elders within the sect who had the ability and were powerful enough to defeat Cui Yuan Shan!

More importantly, as what Li Moying said earlier, he was here to cooperate with the Sect. Although he has a chance to squeeze Celestial Light Sect, he would not give up on it. But if this really resulted in the failure of the cooperation, thus unable to activate the ancient mystic region, then the loss would outweigh the gains!

Cui Yuan Shan tried his best to suppress his own rage as he gave a cold snort, "Of course I brought along my sincerity, there's nothing to doubt about this! A junior like you is so disrespectful to me but on accord of your Master, I will not haggle with you over this!"

He angrily returned to his own seat and lifted up the tea cup as he drank loads of water to extinguish his fury.

Those ordinary disciples present had never seen a ninth stage realm practitioner displaying their might and were all breaking out in cold sweat. Especially when Cui Yuan Shan released his might, many of them were so scared that they wet their pants!

They all thought that Cui Yuan Shan would throw a huge temper. Young Sect Master was just too condescending so after he kicked the iron plate, something big might just explode! Everyone was all sweating on Li Moying's behalf.

But none of them had thought that Cui Yuan Shan actually didn't get worked up, instead he suppressed his own anger while nursing his grievance!

Li Moying's simple words pushed a powerful ninth stage realm practitioner back, and even made him unable to get worked up!

This was a simply unimaginable thing so everyone's admiration towards Li Moying had raised to a brand new platform.

Originally their Young Sect Master not only had innate talent and potential, even his talent in speaking was so good. Furthermore, in front of Cui Yuan Shan's powerful aura, he totally had no fear. Instead he seemed to be watching a joke!

How could he be so self-confident?

The others couldn't see through this but Huang Yueli understood it very well. She couldn't help smiling while she shook her head, thinking that this man was exactly the same as in his past life!

From a very long time ago, there were numerous super strong practitioners who were angered by him till they almost threw up blood.

Chapter 1328: Malicious Provocation (4)

If this man's mouth started to seep with poison, even she could do nothing about it.

But following his potential in his past life as Mu Chengying, as it grew stronger and stronger, by the time he had no opponents, there were very little people who had the chance to make him display his poisonous tongue skill.

A large portion of people were already scared out of their souls from just one chilly glance, so did they even need him to say anything else more?

It was because Huang Yueli met him in his younger days when his potential still wasn't very high that she had the chance to witness this.

Now, things were replaying again and that made Huang Yueli reminisce about old feelings.

After Cui Yuan Shan was stuffed by Li Moying, he felt that he had lost face and kept drinking wine and not saying a single word more, making the atmosphere turned a little embarrassing.

However, Murong De was feeling glad in his heart as he intentionally persuaded him to drink less, which made Cui Yuan Shan even more infuriated that his moustache was whistling and his eyes widened.

Luckily President Hu was seated in the middle mediating so the atmosphere had not turned overly anxious.

Huang Yeuli saw this and was feeling puzzled so she secretly tugged Li Moying's sleeve as she asked, "Moying, why do I feel that your Master and Sect Master Cui don't seem quite right? Did they have any enmity before this?"

Most large Sects, although they do mutually compare themselves unrealistically, but the outcome was very different from Murong De and Cui Yuan Shan. As though they grabbed every single chance, without a care as they insisted on comparing every single thing.

Li Moying swept them a glance and lowered his volume, "I heard that Master and Sect Master Cui had a good relationship in the past and they even roamed about South Sky Region to experience training. But too bad in the end they both fell in love with my Master's wife. The result was my Master's wife married my Master so Sect Master Cui then started to hate my Master."

Huang Yueli was suddenly enlightened, "No wonder... in this way, Sect Master Cui really seems pitiful! I feel that he's more handsome than your Master and his potential is also much stronger... right, I haven't seem to have met your Master's wife? She should be a real beauty!"

Although Murong De was slightly cowardly, and to tell the truth he wasn't considered a handsome male, but Murong Fei and Murong Ni were genuine beauties, so it only meant that their mothers were extremely ravishing.

Li Moying nodded and said, "My Master's wife passed on very early. She was down with a disease and died. Because of that, she left behind two daughters who hadn't been taught properly resulting in their unruly and headstrong behaviour!"

"In this case, they really seem very pitiful, but I'm not going to sympathise with them!" Huang Yueli's lips tugged as she replied in a proud and pampered manner.

After understanding the cause and effect, then on seeing the two Sect Masters arguing, she felt that it was very interesting as she propped up her chin while watching delightfully.

She hadn't noticed that Li Moying's gaze had always been on her, while seeming in deep thought.

Murong De and Cui Yuan Shan in this manner.... Were similar to Liu Buyan and himself. Liking the same woman and there was bound to be a loser one day. The two of them hadn't turned into enemies all because Liu Buyan voluntarily gave in... alas. In this lifetime, they still turned tables with each other totally.....

Recalling those carefree years with Liu Buyan, Li Moying sighed with emotions.

Unfortunately, there was only one Huang Yeuli so he absolutely would not give up on the woman he liked. So perhaps he and Liu Buyan's relationship weren't as great as these two Sect Masters!

As there were some unpleasanties, so the banquet's atmosphere wasn't as good as what they planned from the start.

Many of them seemed to be sitting on a carpet of thorns, wishing that the banquet would end sooner.

Chapter 1329: Arena Tournament (1)

He finally lasted till three rounds of drinking was completed when Murong De stood up.

“Everyone, will you please remain silent for a while, I have some things to announce.”

He coughed and everyone instantly quietened down.

Those present went all direct disciples and were the core of the Sect. Everyone knew that Green Cloud Sect was here today to have a discussion on cooperation with Celestial Light Sect and had more or less heard about the Ancient Mystic Region. So Murong De’s words didn’t really raise an alarm. Instead it made everyone’s ears prick up as they wanted to know how the discussion on the cooperation went.

Murong De continued, “Green Cloud Sect’s Sect Master Cui has graced us this visit today because Green Cloud Sect have recently discovered a new ancient mystic region at the boundary of West and South Sky Regions. Hence they decided to seek Celestial Light Sect for cooperation, thinking that we can work together to activate this mystic region. Regarding the two Sects’ cooperation to activate the mystic region, we have reached a consensus. But everyone should know that every single time an ancient mystic region is activated, the number of people who can enter are limited so after an estimated calculation, the total number of people who can enter the mystic region for the first time is only around thirty.”

“But as for the distribution of these thirty quota, we have yet to set the specific verdict.”

Huang Yueli was also concentrating on listening.

She had entered all of the discovered ancient mystic regions in Soaring Heavens Continent in her past life, so she had a huge understanding regarding this aspect.

For the ancient mystic region to be activated, it was totally reliant on ninth stage realm practitioners injecting their Profound Energy internally and every single practitioner must expend a portion of their Profound Energy upon entering. As the Elders’ Profound Energy total sum was fixed, so the number of practitioners who could enter were also fixed.

Furthermore, the younger the practitioner, the lesser the amount of the Profound Energy would be expended so normally those practitioners over thirty years old were not able to use this method to enter the mystic region.

Murong De’s words had just ended when Cui Yuan Shan also stood up.

He added, “I and Sect Master Murong have discussed an initial proposal which is why we have specially invited President Hu to be our witness. Three days later, Green Cloud Sect and Celestial Light Sect will jointly hold a one-time arena tournament which is restricted only to the younger generation disciples. The Sect which holds the victory of the arena tournament will obtain a seventy percent entrance quota to the mystic region.”

The minute Cui Yuan Shan finished his words, the stage below was already in a riot.

Green Cloud Sect’s disciples were all frowning with knitted brows.

“Seventy percent of quotas! Why must it be distributed like that? The winning side will obtain seventy percent then won’t the losing side only have thirty percent?”

“That’s right, I’m not even in the top ten among the direct disciples so if there’s only thirty percent quota, that would be equivalent to nine places. Then there’s definitely no show for me!”

“Me too, and my ranking is even worse off than yours! What should we do if we are not the winner?”

Celestial Light Sect’s disciples were secretly rejoicing.

“Haha, this word actually came out from Green Cloud Sect’s Sect Master’s mouth, am I hearing things? If it’s this kind of distribution method, then the one who will get the seventy percent quota would definitely be us Celestial Light Sect! Just think what potential does our Young Sect Master have? Green Cloud Sect’s number one ranking Leng Yi Feng was defeated by Young Sect Master in one move the last time!”

“Isn’t that so? This time we will definitely get the seventy percent quota. Looks like I’ll have a chance to enter the mystic region!”

“This is simply great, with the Young Sect Master around, we don’t need to worry at all!”

Not only Celestial Light Sect’s disciples thought in this way, even Murong De also felt that Celestial Light Sect’s chance of winning was confirmed.

He touched his beard as he said smilingly, “Brother Cui, this afternoon you were still saying that you will not agree to this kind of arena tournament to fix the quota. Why have you changed your mind so soon?”

Chapter 1330: Arena Tournament (2)

“I didn’t expect you to be so broad-minded and willing to automatically give the quota up to us Celestial Light Sect!”

Murong De was laughing so much that he almost couldn’t take it. He originally suggested the arena tournament was because he wanted to test Cui Yuan Shan, with no expectation that he would agree to it.

After all, even an idiot knew that even if all of Green Cloud Sect’s direct disciples added up together, they weren’t Li Moying’s match at all. So if they really held an arena tournament, then wouldn’t it be equivalent to giving up the quota to Celestial Light Sect for free. For someone as smart as Cui Yuan Shan, would he do such a thing?

Who knew that Cui Yuan Shan actually agreed to this condition!

Moreover, he had openly said this in front of President Hu and the disciples from both Sects, so there was no way of going back on his words!

Was there water in Cui Yuan Shan’s head?

Cui Yuan Shan swept the jubilant Murong De a glance as he harrumphed heavily, “Junior Brother Murong, why are you in such a haste? I haven’t finished talking! I have supplementary conditions.”

“Why? What supplementary conditions? Tell me! I’ll agree to all of it!”

Murong De had already treated the quota to enter the ancient mystic region as his object so he was in a good mood and he spoke in a generous way!

“You agreed to it yourself.” Cui Yuan Shan’s eyes shone a little.

“Wait, what on earth are you....” Murong De instinctively felt something was not right, as he tried to revert what he said earlier.

But Cui Yuan Shan had already declared loudly in front of everyone, “My condition is, for this arena tournament, disciples under eighteen years old are only allowed to take part in it. Those who exceed this age are prohibited from joining in the tournament.”

“What? How will this do?” Murong De’s expression changed immediately.

Cui Yuan Shan remained calm and composed while handling this pressing affair, “Sect Master Murong, you agreed to this earlier. We all have a reputation to upkeep so you cannot go back on your words!”

Murong De retorted angrily, “Stop using your words to run on me! You obviously schemed me in the first place! How can the arena tournament only allow under eighteen year olds to take part? Obviously disciples under thirty years old are able to enter the ancient mystic region. Then the standard for taking part in the arena tournament should maintain the same! Those under thirty years of age are able to take part!”

Murong De had not expected Cui Yuan Shan to have this idea!

If he were to agree to this condition then it would be disadvantageous to them because Li Moying was already twenty years old. So he would definitely not be able to take part in the arena tournament. If they were short of Li Moying, then Celestial Light Sect’s victory would possibly be lowered by half.

Green Cloud Sect’s combined ability was originally much higher than Celestial Light Sect by half so it was imaginable that the younger disciple’s ability most probably exceeded the latter.

Murong De was insistent that he could not accept such conditions as he started arguing on this.

But everyone knew how to calculate to their own favour so Cui Yuan Shan’s stand was extremely firm.

“Junior Brother Murong, must you make things so clear? I don’t want your Sect’s Young Sect Master Li to join in the arena tournament. We are upright people so we don’t talk low. Who present here doesn’t know his ability, the minute he joins in, we Green Cloud Sect will definitely be at the losing end? This kind of competition is not fair at all!”

“If you feel that you’re reasonable, then let President Hu come and judge on this!”

President Hu was pushed out as a witness.

He was very impartial as he immediately said, “I feel that Sect Master Cui has a point there. The minute Young Sect Master Li makes his move, it is impossible for the arena tournament to continue because there would be no more suspense! Since it’s a competition, then it should be conducted fairly.”

Cui Yuan Shan's face immediately revealed a smile, "So, you have two choices. Either you restrict the disciples to under eighteen to take part in the tournament or... we can split the quota into half directly!"
