

Weaponsmith 1431

Chapter 1431: Rare Treasure appears (6)

Earlier when they ridiculed Luo Jiyun, all of them were extremely arrogant as though they weren't afraid of Li Moying appearing.

But now that they saw Li Moying appear, all of them felt extremely terrified!

Because everyone present had witnessed with their own eyes how powerful Li Moying was. They knew that even if all of Green Cloud Sect's people present were to combine their forces together, it might not even be enough to give him a smack!

Only Leng Yi Feng was able to receive two or three moves from Li Moying but unfortunately he wasn't around.

Furthermore, Li Moying was cold blooded and overbearing by nature so if they were to offend him, no matter what method they used, there was absolutely no way that he would show mercy on them!

Li Moying and Huang Yueli walked side by side out of the forest.

A pair of good looking couple intimately walked over. In terms of looks, they were almost perfect which was an eye candy.

But to the Green Cloud Sect, they didn't even have the courage to look at them straight in the eye as all of them lowered their heads, wishing that a large hole suddenly appeared on the ground, letting them all hide inside!

To let Li Moying witness how they bullied and suppressed his Junior Brother, what was the consequence of this... it really made one don't dare to think further!

But when Celestial Light Sect's disciples saw the both of them, they all started cheering!

"Young Sect Master, Young Sect Master is finally here!"

"Great, we are finally saved!"

"Look at those people from Green Cloud Sect, aren't they too comical? Earlier weren't they acting stuck up? Didn't they ask us to scam? Now that Young Sect Master is here, let's see who it is that will scam!"

"That's right, dare to call us trash! In Young Sect Master's eyes, aren't you all trash too?"

Hearing Celestial Light Sect's disciples' ridicules, Green Cloud Sect's people totally didn't dare to rebuke.

Not that they didn't want to, but because..... Li Moying was right here!

Even though he hadn't made a move or even used a little bit of his Profound Energy, but just at the moment when he spoke out, the situation had completely reversed.

Li Moying's frigid gaze shot towards Fang Shaoning, "Mister Fang, how have you been? Just a month ago you were having a battle with my fiancée on the arena stage which made me had a deep impression of you. I'd not expected that I'd meet you so quickly in the mystic region?"

Fang Shaoning was originally still trying his best to stay strong as he stood straight upright. But on hearing his words, his knees went weak as he almost knelt down!

Li Moying's meaning was very obvious, he wanted to settle the debt of almost seriously injuring Huang Yueli on that day!

Only, before he was able to settle old debts, he had once again fallen into Li Moying's hands.....

"Li.... Young Sect Master Li...I... I didn't intentionally.... You should know that on the arena stage, everyone is acting on the Sect's benefits. I had not realised the severity of my moves and as I was overly agitated during the tournament, I was in a daze. I can apologize to Miss Bai..."

Saying that, Fang Shaoning shot up like an arrow towards Huang Yueli and with his hands clasped into a fist, he bowed towards her.

"Miss Bai, I'm wrong. I had dealt with a heavy hand by mistake on the arena stage so if there's any places which I had offended you, I seek your understanding for that."

He bent his waist low, as he showed his attitude, waiting for Huang Yueli to accept his apology.

From what Fang Shaoning thought, battle between practitioners was bound to result in slight injuries. He had already apologised on his own, so if Huang Yueli refused to accept, that would be something unacceptable.

Whoever knew, his apology was already out but Huang Yueli didn't make a sound nor any response.

In this way, Fang Shaoning was instantly embarrassed.

Because he didn't receive Huang Yueli's acknowledgement, so he couldn't stand up straight, otherwise what kind of apology was that counted as?

Chapter 1432: Rare Treasure appears (7)

But maintaining this posture of bending the waist, even for high levelled practitioners, it was an extremely tough matter.

Besides that the ache was secondary, to be left in the cold by someone like that in such a humiliating posture, it was absolutely leaving his face onto the ground for them to step on!

Fang Shaoning only felt a fiery sensation on his face as he almost burned up.

But now that matters had come to such a pass, under Li Moying's frigid cold stare, he didn't dare to stand up straight nor did he dare to turn tables with Huang Yueli.

A quarter of an hour went by and Huang Yueli still didn't make any sound to accept his apology.

By now, Celestial Light Sect's disciples had all started laughing.

"Great job Junior Sister Bai! Show him some colours!"

“That’s right. The last time at the arena stage, he obviously had the intention to kill you, what’s called accidentally mishandled? Why don’t you go lie to a ghost!”

“Correct, if apologizing is of use, then what’s the use of having constables around?”

Fang Shaoning was so angry that his chest started to hurt, and a slight taste of blood could be tasted in his mouth.

Huang Yueli waited for a while more before she opened her mouth indifferently, “Master Fang, why so modest? I hadn’t put the matter regarding the arena stage in my heart so you need not specially apologize for it.”

Fang Shaoning was simply going to faint from anger.

Didn’t put it in her heart? Then still left him in the cold like that?

This was simply having it both ways!

However before he opened his mouth, Huang Yueli continued, “But my own matters, I can forget about it. However you had defamed our Celestial Light Sect and even injured so many Celestial Light Sect’s disciples, this matter cannot be let off easily like that!”

Fang Shaoning clenched his teeth, “Then... Miss Bai, what do you want me to do?”

Huang Yueli laughed, “I’ve always been magnanimous and won’t force my requests on anyone. If you’re really regretful, then apologizing to all those poor disciples whom you had injured earlier will do. Earlier when you apologized to me, your attitude was rather earnest so you must use the same kind of attitude towards them. I believe that they will forgive you!”

Huang Yueli was beaming and her tone was gentle, the words which she spoke out were courteous and polite without any fiery power to it, neither did it consist of any sense which made things difficult for him.

But every single one of those present understood the meaning in her words. All of them were trembling in fear, secretly thinking that this method of hers was just too vicious!

Fang Shaoning saw black and almost fainted.

Actually, to apologize to Huang Yueli, although he did feel humiliated, but it was still acceptable. After all, Huang Yueli had once defeated him directly on the arena stage, which meant that her innate talent and ability was far above his!

To bow one’s head low towards the strong wasn’t an embarrassing thing.

But what Huang Yueli wanted now was for him to apologize to those ordinary disciples who were injured by him?

What kind of joke was that. These people were all defeated by him and couldn’t even take on one move from him. What right did these trash had to deserve his apology? Towards these kind of lowly trashy people, it was a waste of effort to even beat them up and there was no reason for the strong to apologize to the weak!

Moreover, Huang Yueli requested for his attitude to be as earnest as earlier.

How to be earnest? Surely he needed to be left in the cold by so much trash? And to bend his waist and lower his head towards these trash?

This was even more unbearable than taking his life!

Fang Shaoning simply couldn't endure it any further, "Miss Bai, please don't bully others intolerably! To fight over treasures in mystic regions had always been based on one's own ability! This is the rule in Soaring Heavens Continent! Who can they blame when their abilities are so weak?"

Chapter 1433: Rare Treasure appears (8)

When Huang Yueli heard that, she shot a glance at him and her lips curled up slightly.

"You're talking to me about rules? Since that's the case, then let's handle this according to Soaring Heavens Continent's rules!" She paused and continued, "Master Fang should know what is the general outcome for the party who is on the losing end of fighting for treasure in mystic regions right?"

When Fang Shaoning heard that, he suddenly thought of something as his face turned pale.

"You.... you're not thinking of..."

Huang Yueli smiled as she continued, "You're the one who said to handle this according to rules."

Quite a number of Green Cloud Sect's disciples all understood the meaning in her words as their complexions turned even paler.

But Luo Jiyun was totally puzzled, "Lil Sister-in-law, what do you mean by that? What's the outcome for those who failed in fighting for the treasure?"

Huang Yueli smiled, "What else? In order to prevent those people who failed from intentionally leaking out news of the treasure, eliminating them is the entire Soaring Heaven Continent's common way! For someone like him who dares to make impertinent remarks, just burying him alive in a pit is considered as showing mercy!"

Fang Shaoning abruptly had a change of colours, "Bai Ruoli, you.... don't even think just threatening me like that and I'd be afraid! Do you have the guts to do so? We have so many people here and they're all Green Cloud Sect's disciples! Can you kill us all? Aren't you afraid that when the matter is exposed, our Sect Master would blame you for it?"

Huang Yueli blinked her big eyes, "But, if you're all dead, how would the matter be exposed?"

"But there are so many of us, how could you possibly..."

Fang Shaoning's words were by his mouth when he suddenly saw the cold faced Li Moying behind Huang Yueli as he immediately shuddered, not daring to speak any further!

Huang Yueli indeed couldn't possibly kill them all, but.... Li Moying indeed had this ability to do so!

Moreover, he had always been fearless, resolute in his massacres! If he were really to eliminate them all, he would absolutely be efficient in not leaving any person alive!

Li Moying gave a cold humpf as he slowly walked towards Huang Yueli and opened his mouth, "Do according to what Miss Bai said, otherwise..."

His voice was very soft but when it fell onto Green Cloud Sect's peoples' ears, it sounded like a demon's voice from hades.

Especially when he spoke, his surrounding might was also unleashed at the same time and in an instance, an intense suppressing feeling caused everyone present to be unable to breath as their legs went weak. Those practitioners with weaker cultivations instantly couched onto the ground, not able to climb up at all!

Fang Shaoning was appalled as he didn't dare to say anything more.

He immediately walked to the front of Luo Jiyun as he suddenly bowed, clenching his teeth as he said, "Master Luo, I've offended you earlier so please be magnanimous to forgive me."

Luo Jiyun took a good look at Fang Shaoning who had acted as though he was on a world above others earlier on and now how the tables have turned to suddenly bow humbly before him and seek his forgiveness. His mood was suddenly lifted as the humiliation and embarrassment which he felt earlier instantly disappeared into thin air!

"Fang Shaoning, aren't you extremely complacent earlier? Did you think that my Eldest Senior Brother was not able to reach here in time?"

Fang Shaoning's anger~ if he knew earlier that Li Moying was on his way here, he would have applied oil to his feet as he slipped away quickly, so how could it be possible that he still remained here?

But now, nothing he said mattered anymore!

"Yes, it's all my fault! I'd like to ask Master Luo for your understanding!" Fang Shaoning almost crunched his teeth.

Luo Jiyun then waved his hand, "Forget it, next time just remember to use your brain before you talk because not everyone is as easy going as me."

After Fang Shaoning was taunted for a moment, he felt extremely stuffed.

But he had no choice but to reply, "Thank you Master Luo!"

Chapter 1434: Celestial Light Sect's traitor (1)

When this sentence was spilled out, Fang Shaoning felt that he was especially wretched!

Other people slapped his face and he still thanked them for it!

This, to a naturally arrogant talented practitioner was a huge humiliation!

However, things had not come to an end. Luo Jiyun was just the beginning. Moreover, Luo Jiyun's character was kind and he did not intentionally make things difficult for him. It was those other direct disciples from Celestial Light Sect who were the toughest to handle as many of them were meaner in their words than Luo Jiyun.

If it was usual times, Fang Shaoning would have exploded from anger long ago and would absolutely tear these insolent things to shreds.

But now with Li Moying and Huang Yueli around, he could only swallow his anger in silence!

The only comfort was after Huang Yueli took a look around, she suddenly opened her mouth, "Why is Master Fang the only one apologizing? It seems that he is not the only one who beat them up right? Looks like some people prefer to be buried alive?"

Green Cloud Sect's other disciples originally thought of hook winking them as they kept their heads low, not even daring to breathe loudly.

In the end, they had not thought that Huang Yueli actually didn't forget about them.

Helplessly, the other disciples could only follow Fang Shaoning to line up and apologize to the others.

Celestial Light Sect's disciples were extremely excited!

Indeed, following Young Sect Master around was different. No matter which peerless talent was present, as long as the Young Sect Master was around, they only had the fate of bending down! He was really the peerless genius in the South Sky Region!

Momentarily, many of them started to envy Mo Yi and the rest. No wonder they were practitioners with such cultivations but were willing to follow Li Moying around to be his Shadow Guards. Following this kind of Master was simply too shiok!

Some of them even started to have thoughts that if they had the chance to follow Young Sect Master around, it'd be great!

If they didn't follow Young Sect Master, following Miss Bai was not a bad idea as well!

The fluctuating sounds of apologies did not consolidate Huang Yueli and Li Moying's thoughts on these people.

Huang Yueli's gaze had always been on the entrance of the cave dwelling as she frowned slightly before she started to ponder deeply.

This was a lavish and spacious cave dwelling. Just the residence door itself was ten meters tall, five to six meters wide, looking very stylish.

Whereas on the top most area of the door hung an inscribed board with some illegible words on it.

"Wu Ding.... Looks like the religious name of the owner of this cave dwelling should be Wu Ding." Huang Yueli took a long look at it before she could tell what the words were.

This kind of early historical words left behind in the ancient times were only recognised by those practitioners who had broad knowledge.

Li Moying hooked her waist as he brought her into his embrace asking in a mellow voice, "How is it? Can you tell anything from this? How should we enter from here?"

In terms of battle to awe the entire scene, naturally Li Moying had the greatest ability but when it came to opening the mechanisms of cave dwellings, his Li'er was a professional at it.

Huang Yueli muttered softly, "This sage Wu Ding should be someone with an extremely powerful existence in the Cloudy Qilin Clan. The mechanisms that he set up around the cave dwelling are almost all eighth grade and above! Even in ancient times, the armament masters who could set up eighth grade mechanisms were not commonly found. Furthermore, in the outer boundary of this cave dwelling is an extremely strong protection array....."

Li Moying smiled as he said, "It sounds like it's very difficult to manage but my Li'er will definitely have a way, right?"

Chapter 1435: Celestial Light Sect's traitor (2)

Huang Yueli raised her chin coquettishly, "This....."

She wanted to say something when she suddenly heard a shuffle of hurried footsteps.

Immediately following that, a man's voice rang, "Stop, all of you stop! What are you doing? Fang Shaoning, you actually bow to these Celestial Light Sect's trash? Green Cloud Sect's face has all been thrown away by you!"

Huang Yueli and Li Moying exchanged glances as they turned back together.

Leng Yi Feng came travel-worn as he walked out of the forest in quick steps, grabbing onto Fang Shaoning's elbow.

"What are you doing! The few of you, stop immediately!"

Fang Shaoning stopped his bowing actions when he saw Leng Yi Feng's appearance but his face still bore a terrified and tensed expression.

"Eldest Senior Brother, that... Young Sect Master Li....."

"What? Li Moying??"

Huang Yueli and Li Moying had already walked towards the cave dwelling and were standing at a blind spot and only under Fang Shaoning's pointing out did he finally see them.

Li Moying gave a cold humpf as he said, "Mister Leng, my apologies, you've arrived too late! This cave dwelling belongs to the Celestial Light Sect already."

Leng Yi Feng was so furious that he could only clench his teeth. When he saw the bright light, he knew that a rare treasure was going to appear so he didn't bother about the plan to scheme on Li Moying as he rushed over at the first moment.

But too bad he was still too late. Li Moying had snatched it first!

With Li Moying around, things were so evident and he didn't possibly have the chance to pick up any advantages!

Leng Yi Feng wasn't resigned to leave and on turning his head back, he saw a lot of his Junior brothers and junior sisters with ashen faces as he asked loudly, "Young Sect Master Li, you're wrong in saying that! There's not only Celestial Light Sect's people here, there are plenty of Green Cloud Sect's disciple's here too! As the saying goes, those who see it have a part. So we should have a share in the treasures in the cave dwelling as well!"

Fang Shaoning and the rest originally didn't have any more hopes with regards to the treasures but in the end when Leng Yi Feng finally arrived, they started to have some hopes again. Leng Yi Feng's ability wasn't Li Moying's match but as his status was special, Li Moying wouldn't kill someone from the Leng family right?

Perhaps he might even give Leng Yi Feng some face, distributing some over to Green Cloud Sect!

Fang Shaoning was the first to react, "Eldest Senior Brother, we are just too pitiful! Earlier we had a chance to enter the cave dwelling but in the end when Young Sect Master Li brought his fiancée along, he immediately chased us away and forced us to bow and apologize!"

His words were obviously toppling black into white, hinting that Li Moying wanted to snatch the treasures in the cave dwelling.

Celestial Light Sect's disciples immediately disagreed as they all started hooting.

"Fang Shaoning, you're too shameless! This cave dwelling was obviously discovered by us first and the ones who wanted to snatch the treasures are you guys! If it wasn't for Young Sect Master who had arrived on time, we would have really been plundered by your gang of robbers! How dare you fabricate such stories?"

"That's right, who's forcing who? Even if you were forced to apologize, it was because you deserved it!"

Of course Leng Yi Feng knew that Fang Shaoning's words had a problem but he continued along with his flow.

"Young Sect Master Li, you've also heard this. Celestial Light Sect to have done this... isn't it a little too dishonourable!"

Li Moying replied coldly, "Since we're already here in the mystic region, what's the talk about being honourable or not? Leng Yi Feng, surely you're not such a naïve person right?"

Chapter 1436: Celestial Light Sect's traitor (3)

Leng Yi Feng said, "Our two sects had always been in a cooperative relationship and we're different from the other powerhouses' relationship where they have open and hidden battles! With rare treasures, should we mutually discuss the distribution of it? You wanting to hold it all for yourself, what's the difference between snatching over it?"

"Indeed, there's no difference."

Leng Yi Feng had not imagined that Li Moying would readily admit to it so he was stunned for a moment.

However, immediately following that, Li Moying said icily, "What can you do if I want to snatch?"

What can you do if I want to snatch??

Light fleeting words but it was sonorous.

In an instance, it made Leng Yi Feng's face totally red as he couldn't say a single word!

This was a real blue strong practitioner. Under absolute advantage in terms of ability, any attempts on flowery words was useless. Even if he obviously wanted to snatch and to monopolize it, who dared to say a no word?

This was just too arrogant!

But Li Moying indeed had the capital to be arrogant!

At this moment, Leng Yi Feng truly felt that although he was a direct descendant of the Leng family, and was considered as the chosen one but in front of Li Moying he was as small as a grain of sand!

Li Moying said coldly, "Bring along your Green Cloud Sect's people and scram!"

Leng Yi Feng felt humiliated, especially in front of Huang Yueli who was the person whom he admired and to be slighted by his love rival, it made him extremely unbearable!

But Leng Yi Feng had no other choice but to self-hypnotise himself: No matter how powerful Li Moying was, how wild and arrogant he was, he could only be rampant for this short moment! After their plan succeeded, when Li Moying entered the center region, by then he'd be a dead man! Even his fiancée would be taken in by himself!

After self-hypnotising himself for a moment, Leng Yi Feng finally calmed down as he prepared to bring his men to depart.

Just at this moment, Fang Shaoning popped out by the side as he urged, "Eldest Senior Brother, we... we might not need to leave! We can still discuss this....."

Leng Yi Feng shook his head, "Forget it, it's impossible."

He was the only one in Green Cloud Sect who had crossed hands with Li Moying so many times and he knew that once Li Moying decided on something, it was impossible to change his mind.

However, Fang Shaoning suddenly turned towards Li Moying as he shouted, "Young Sect Master Li, I apologize for the earlier matter that had happened but you cannot chase us away! Because without us, you can forget about entering this cave dwelling!"

Li Moying wasn't able to reply in time but Huang Yueli had already gave a cold laugh filled with disdain.

"That's interesting. We can't enter this cave dwelling but you guys can?"

Fang Shaoning replied, "Miss Bai, I know you're a certified armament master and you probably have in depth knowledge regarding mechanisms. But it's not possible that you can't tell that there's not only

mechanisms around the cave dwelling but also high grade array formation! You need the coordination of an array master before you can enter the cave!”

Huang Yueli’s brows rose, “Array skills? So what about that? Did you think that a mere array can stop me?”

Fang Shaoning’s face suddenly showed a meaningful smile.

“Miss Bai, did you think that you’ve brought along a talented array master along so there’s nothing to fear? Such a pity because you’re wrong! The only person who can decode the array in your Celestial Light Sect is already in our Green Cloud Sect’s team!”

Huang Yueli went into a blank, “What do you mean?”

Fang Shaoning shouted to the back, “Alright, stop hiding, you don’t have anywhere to hide now anyway!”

A figure nudged out from the tree behind shaking with fear and trepidation.

Chapter 1437: Celestial Light Sect’s traitor (4)

Everyone’s eyes fell onto that person as the crowd started to gasp.

“Murong Ni.... Isn’t that Murong Ni? Why is she together with Green Cloud Sect’s people?”

“Strange, when did she reach this place, how come we didn’t see her earlier? Was she hiding behind the tree since earlier?”

“Surely it’s not possible right? Murong Ni is the Sect Master’s daughter!”

Hearing the fluctuating discussions, Murong Ni felt her face burning up as she was embarrassed to the max.

She had not imagined that things would have developed to such a state.

Just a few days ago, she had been left behind by Murong Fei and while she was travelling and exploring the Cloudy Qilin Mystic Region alone. As her ability was really just too low, she had already met with danger several times within the same day and almost lost her life!

Luckily, Fang Shaoning, who happened to pass by, had saved her.

Fang Shaoning originally didn’t want to bother about this but the desperate Murong Ni boasted that she was South Sky Region’s most incredible array talent. She indicated that she was willing to join their team, to help Green Cloud Sect’s practitioners break through the array formations in the mystic region.

Whereas the younger generation of Green Cloud Sect was indeed lacking a talented array master. That was why Murong Ni was able to smuggle into Fang Shaoning’s team, gaining their protection.

This time, on seeing the strong light from the faraway rare treasure, the entire group of them hurried over and Murong Ni was one of them among them but she had not expected that so many of Celestial

Light Sect's people were here to get hold of the treasure as well. When the disciples from both Sects met, they started fighting for no apparent reason.

Luckily she reacted in time and hid herself otherwise if anyone saw her, she would become Celestial Light Sect's traitor.

After that, things became more and more intense. So Murong Ni totally didn't dare to reveal herself.

She originally thought that she could hide until the end and while no one noticed her, she could slip away quietly.

Whoever knew that Fang Shaoning, in order to gain a share of the rare treasure from Li Moying's hands, he actually sold her off without any hesitation, forcing her to appear in front of everyone.

Murong Ni was now feeling extremely melancholic.

Huang Yueli's gaze stopped on her face for a short moment and spoke with a non-smiling smile, "Mister Fang, you really feel that... Murong Ni is able to help decode the array formation outside the cave dwelling? Don't forget, this array formation is left behind during ancient times and it's not something that ordinary people can decode."

Fang Shaoning was brimming with confidence, "Of course, Murong Ni is a third rank Array Master. You Celestial Light people should be clearer on this than me! How rare it is to have a seventeenth year old third rank Array Master, surely I need not say more on this right? If she is unable to decode this array formation, then there would be no more hope for anyone else!"

Huang Yueli gave a cold laugh in her heart as she questioned, "How do you guys want to do it then?"

Fang Shaoning thought that she had conceded and hurriedly added, "Celestial Light Sect's ability is stronger, no doubt about it but our side is the crucial point to opening the cave dwelling! So the rare treasures in the cave dwelling should be split up into half each for both Sects!"

Huang Yueli had not even responded when the other disciples already started crying out angrily.

"Half? You still want half? Do you know what is called shameless?"

"Young Sect Master's one finger and he will be able to crush you all to death, you still have the cheek to split the rare treasure?"

"Isn't that so? You guys really think you're something?? We're telling you, forget about it!"

Fang Shaoning didn't have a change of expression as he said, "This is a matter of benefits so surely Young Sect Master wouldn't not think clearly right?"

Chapter 1438: Celestial Light Sect's traitor (5)

"If you're not willing to cooperate with us, then you won't be able to get those treasures in the cave dwelling as well then we'd all have wasted our time today! This cave dwelling obviously has some heavyweight rare treasure and if we just miss it like that, perhaps we might regret it for life! The correct choice would be for both our Sects to cooperate together."

Leng Yi Feng gave Fang Shaoning a thumbs up glance as he spoke up for him as well, "That's right, this is originally a reciprocity and mutual benefit matter so why does Young Sect Master need to hesitate? Of course, your abilities are much stronger so we don't mind getting lesser. How about we split sixty-forty, how about that? We're showing enough sincerity right?"

Li Moying looked at their delighted looks as he almost burst out laughing.

Who or what gave these two fellows that kind of self-confidence! They actually felt that they could threaten him!

How could his Li'er not match up to Murong Ni?

He had such an intelligent young fiancée, so he wouldn't be afraid of anyone's threat at all!

However, when Li Moying was about to open his mouth, he suddenly saw Huang Yueli casting a signal to him with her eyes.

He was stunned for a moment, not knowing what his fiancée had in mind but he still obediently shut his mouth.

Huang Yueli looked at Murong Ni, "Murong Ni, you're Celestial Light Sect's disciple and Sect Master Murong's beloved daughter! You really want to stand on Green Cloud Sect's and betray your own Sect? You have to think through this clearly!"

As expected, Murong Ni started to reveal a hesitant and struggling look as she frowned, "I..."

Fang Shaoning saw that and immediately spoke out loudly, "Murong Ni, have you forgotten what you told me earlier? You said no one in Celestial Light Sect cares about you and as long as I am willing to help you, you can help me in anything! Furthermore you promised that you will follow me back to Green Cloud Sect, are you regretting it now?"

Murong Ni hesitated and didn't say a single word.

Fang Shaoning spoke out again, "You think that it's a good thing if you return to Celestial Light Sect now? Originally Li Moying and Murong Fei didn't want to bring you along for experience learning and now that the others have ascertained that you're Celestial Light Sect's traitor, even if you return, no one will treat you nicely! Perhaps you might not even survive to leave the mystic region alive!"

"But it's different if you follow me. So don't do anything which you will regret!"

Murong Ni clenched her teeth as she said, "I... of course I will stand by Master Fang's side! Bai Ruoli, stop trying to play the part of a good person! If it wasn't for you who dominated Eldest Senior Brother, not allowing him to take care of me, how would I possibly have come to such a state? For me to act in this way is all because of you!"

Huang Yueli couldn't help but jeered, "Murong Ni, you're really funny! Practitioners who come out on experience learning all relied on their own selves! You don't even have the courage to go on experience learning alone, you still have the cheek to claim that you're a practitioner?"

Murong Ni gritted her teeth, "Stop talking about those useless major principles, Eldest Senior Brother is deceived by you! Today is Celestial Light Sect suffers any losses, it's all your fault!"

Huang Yueli's expression turned colder by the minute, "I've seen shameless people but I've never seen anyone who is as shameless as you! Turning black into white, don't you feel guilty at all? Moreover, did you think that... you can threaten me? A third rate array master who can't even set up a third tier array even though looking at the array formation drawing, what gives you the self-confidence to say that?"

Murong Ni's expression changed immediately upon hearing that!

Right now, she suddenly recalled that this young lady in front of her also knew array skills and further... Her level of mastery in array skills seemed to be third rank and above!

Chapter 1439: Celestial Light Sect's traitor (6)

Just a few months ago in the Dark Moon Forest, Murong Ni had indeed witnessed Huang Yueli's mastery in array skills.

Only thing was, recently Huang Yueli had shone too much in terms of armament refining skills and cultivation's innate talent hence most people had forgotten that she had other areas of shocking performance.

Murong Ni's small trickery, in front of Huang Yueli, was really not enough!

Murong Ni suddenly recalled this and instantly pressed the panic button.

That's right, this wretched lass was so incredible so actually... they totally didn't need her!

Murong Ni then realised that this pit was dug by Huang Yueli. She intentionally misled her into thinking that she was very important, purposely luring her to say out the words of betrayal towards Celestial Light Sect!

Now Huang Yueli's motive had already been derived.

Celestial Light Sect's disciples looked at her as though they were looking at a disgusting cockroach and she couldn't dismount the tiger anymore!

It was apparently too late for her now to change her words saying that she didn't had the intention to betray Celestial Light Sect. But the minute Green Cloud Sect's people found out that Huang Yueli's array skills mastery was higher than hers, then she would completely become a waste at Celestial Light Sect's side, so she definitely would not be able to get her previous position!

The more Murong Ni thought, the more frightened she got as sweat continued to drip down from her forehead.

But Fang Shaoning totally didn't know what she was worried about as he kept sneering, "Miss Bai, your armament refining skills and cultivation innate talent is indeed very strong but you really shouldn't go treating yourself as someone great! Array skill is also a difficult art and not any simpler than armament refining! A third rank Array Master is considered as an exceptionally outstanding talent! You have the cheek to say that she is a third rate Array Master?"

Huang Yueli's brows rose, "Oh? Really? Then it means I'm the one who is ignorant and ill-informed and I've belittled Miss Murong?"

Murong Ni's heart was palpitating wildly.

The more Fang Shaoning believed in her ability, the more frightened she was of being exposed!

Right now he had praised her to such a high level so when she fell down, her fall would be terrible!

Perhaps after Fang Shaoning realised that he was fooled by her, he might even convert his embarrassment into anger, turning around to deal with her instead!

What should she do? What should she do now? What should she say to make her not suffer from a miserable ending?

Just as Murong Ni's heart was burning like a furnace, Huang Yueli spoke out again.

"Alright, since the few of you from Green Cloud Sect had said that.... Moying and I had done some observationS earlier and in order to open up this cave dwelling, we indeed require the participation of an Array Master, so it seems that we have no choice but to cooperate with you guys!"

Hearing her say that, Leng Yi Feng and Fang Shaoning both looked towards Li Moying.

"Young Sect Master Li, what do you say?"

Li Moying took a sideward glance at them, "Hasn't my Li'er already said so?"

The both of them were stunned.

The both of them asked because they felt that although Huang Yueli was Li Moying's fiancée, but in terms of ability and status, she naturally couldn't be compared to Li Moying himself. The person who could make decisions in Celestial Light Sect was definitely Li Moying and whether to cooperate or not, Huang Yueli's words don't count at all. They still required Li Moying's consent.

In the end, they had not expected Li Moying to have such a response.....

Could it be that in his heart, Huang Yueli was already able to represent him entirely?

Such a powerful and arrogant man like him actually placed his fiancée in such a high status?

This really made them feel hard to believe.

After some time, Leng Yi Feng responded, "Alright, since we've come to a mutual understanding, then we shall follow according to what we discussed earlier, to open the rare treasure ***..."

"Wait a minute, I'm not done talking yet!"

Chapter 1440: Heaven has no eyes (1)

Huang Yueli stopped him from continuing as she continued to add on, "We can cooperate but you have to prove that you are useful. Otherwise you cannot expect us to let you have the advantages for free right?"

Leng Yi Feng frowned slightly, "This.... Miss Bai's meaning is....."

Huang Yueli said, "Very simple. Since you claim that Murong Ni can decode the array outside the cave dwelling, then let her come out and have a try! If fact proves that she is really able to decode the array, then when we all enter the cave dwelling, we can share the treasures inside with you. But if she didn't manage to decode it... and after that we Celestial Light Sect manages to open up the cave dwelling, then we will not split any benefits with you guys."

This was a reasonable request so Leng Yi Feng immediately nodded his head to represent that he agreed with it.

"Can, this is the right thing to do."

He totally had not realised the motive Huang Yueli had when she said these, only feeling that she was just saying a load of rubbish. From what he thought, if Murong Ni had no way, then there was no way that the other people in Celestial Light Sect could open up the cave dwelling so the question of splitting up the treasures wouldn't exist at all.

After both parties came to an agreement, all of them looked towards Murong Ni.

Right now, she was the most crucial character on whether the two Sects were able to come together for a cooperation and if they were able to enter the cave dwelling, which was the main point which everyone was concerned about.

Murong Ni had yearned for everyone's attention on her, commanding public respect and support for the longest time ever.

But this time, she didn't have the slightest feeling of excitement or agitation. On the contrary, she was entirely stiff to the max, totally not knowing what she should do!

Decoding an advanced historical array, how could it be that easy?

Based on her mere third rank Array Master standard, it was completely impossible for her to complete this difficult task!

Only, if it were usual times, everyone would be able to understand if she wasn't able to decode it.

However right now, Huang Yueli made use of public opinion to coerce her, which was equivalent to placing her on the fire to roast, totally in a difficult position!

Celestial Light Sect's people had completely turned tables with her.

Whereas Green Cloud Sect's people had placed all their hopes on dividing the rare treasures onto her!

If she were to say that her ability didn't match up at this juncture and that she couldn't do it, then what was the outcome going to be??

Murong Ni's forehead was filled with perspiration but she could only brace herself as she walked to the side of the cave dwelling, starting to check on the situation of the surrounding array.

Since things came to such a pass, she really had no way to retreat hence the only thing she could do was to force herself to try it out!

She walked one round around the cave dwelling's walls, carefully observing the walls and floor's array patterns.

As she looked, she suddenly discovered something as her eyes instantly lit up!

Originally she had completely lost hope but after really observing it, she realised in excitement that the array protecting the cave dwelling's surroundings was actually not extremely advanced!

Furthermore, this array looked rather familiar, as though there was no difference between the arrays which she had read from a historical array ancient record recently.

Murong Ni originally didn't believe that there was such a good thing so she suppressed her excitement in her heart as she retrieved an array board from her realm ring as she surveyed the surroundings several rounds, as she kept on deducing and calculating.

Lastly after repeated verification, she finally heaved a sigh of relief.

It seemed that there was always a way out! Probably even that little slut Bai Ruoli had not expected that this array outside the cave dwelling was that simple, and in fact it so coincidentally happened to be something which she had once seen before?
