

Weaponsmith 1441

Chapter 1441: Heaven really has no eyes (2)

“What’s the matter? After taking such a long time, how is it? Can you decode this array or not?”

Fang Shaoning had turned impatient since some time ago but he also knew that the process of deduction from an Array Master was very complicated and they needed to maintain a state of concentration hence he didn’t dare to disturb Murong Ni.

Now on seeing Murong Ni suddenly standing up, he finally couldn’t help himself from asking.

Murong Ni gave a smile on her face, “Mister Fang, Mister Leng, I’ve not let down the trust you had in me! This array... I happened to come across it some days ago in a historical ancient manual and although the method to decode it is a little complicated but I should still be able to do it!”

Fang Shaoning and Leng Yi Feng were extremely overjoyed, “That’s great, that’s really too great! Miss Murong, your array skills innate talent is indeed very high, to be able to decode this historical array easily!”

Murong Ni was secretly feeling delighted when she heard that as the smile on her lips couldn’t be suppressed.

On the contrary, Celestial Light Sect’s disciples were bearing despondent expressions as all of them were infuriated.

“Heaven really has no eyes! How did Murong Ni really find the way to decode this array? Was her array skills mastery really that high?”

“Murong Ni had always bore the name of an array skill talent in South Sky Region, so this isn’t some surprising matter at all.”

“But she is immoral. For a little bit of benefits, she even betrayed her own Sect! Why did this kind of person become an array skill talent? Heaven really has no eyes!”

“Ai, we had finally gotten some resources but now we have to split half to these sort of people. Just thinking about it makes me feel unresigned!”

No matter how Celestial Light Sect’s disciples scolded her, but Murong Ni was feeling delighted as she didn’t feel upset at all!

On the contrary, on seeing the disciple’s angry expressions, she assumed that they must be feeling regretful! Who asked these people not to protect her, to bring her along on experience training, sending the treasures right to her? She chose the side which could let her gain more, which was just and right!

She raised her chin as she looked at Huang Yueli, “Miss Bai, really thankful to you! If it hadn’t been for your help to raise the conditions for cooperation for both sides, I don’t even know that my array skills standard was actually that high!”

Hearing that, Celestial Light Sect’s disciples started sighing.

“Ai, Miss Bai had really miscalculated this time! She had not expected Murong Ni to really be able to decode the array right? This time she had really moved the rock to smash on her own toes! Are we really going to split half of the treasures to Green Cloud Sect?”

“That’s right, it’s just too infuriating! If we had known earlier, we wouldn’t have agreed to some cooperation with Green Cloud Sect! I rather not have the treasure for myself than to let those villains from Green Cloud Sect benefit from it, especially for that traitor Murong Ni!”

Murong Ni looked at Huang Yueli in delight, assuming that she would be angrier than those ordinary disciples.

But Huang Yueli’s face hung a faint smile which was totally out of her expectations.

“Really? Looks like you’re really sure of it? Then I shall first congratulate Senior Sister Murong!”

Murong Ni saw her look and her heart thumped hard, subconsciously feeling that something was not right.

Huang Yueli’s look.... Seemed a little too peaceful! She totally didn’t look like someone who’s plot had failed!

She then turned her gaze towards Li Moying.

Li Moying’s expression was totally unreadable to her. He totally didn’t take notice of anyone else. That pair of seductive peach blossom eyes were fixated tightly onto Huang Yueli as his expression was gentle, and he would caress the young lady’s hair every now and then.

Chapter 1442: Heaven has no eyes (3)

This... how did it become like this?

Could it be that.... there really was some plot?

Murong Ni shook her head as she tried hard not to let her mind wander.

No, it shouldn’t be like that! She coincidentally read on this historical array and she would definitely be able to decode it successfully!

Leng Yi Feng urged, “Since you know the way, then hurry and start decoding it! We can save more time and enter the cave dwelling earlier.”

Murong Ni had no time to let her thoughts wander as she only nodded, moving upwards in a hurry.

Decoding an array was a complicated piece of work and rough judgement to decode was one thing. But when they really started to work on it, it was another thing.

Even though she had read the relative records on the ancient manuals and knew the decoding train of thought, but it still required a huge amount of calculation and deduction.

Murong Ni held on to the array board as she went round the cave dwelling’s outer walls numerous times as her forehead creased tightly, uttering to herself.

After spending close to two hours, she finally drew out a piece of brick from the surrounding walls, shifting it to some other location.

Following Murong Ni's action, the entire cave dwelling flashed another bright light, so bright that it pierced everyone's gazes.

Fang Shaoning was feeling joyful, "How is it? Is the array considered to be decoded?"

Murong Ni shook her head, "Not yet, it's still too early. This is just one tenth..."

Fang Shaoning's face turned black as he didn't imagine that decoding an array was such a troublesome matter and wasted so much time.

Leng Yi Feng had once seen Array Masters decoding arrays and knew what Murong Ni said wasn't wrong as he hurriedly stopped Fang Shaoning, "Alright, you quietened down a little and stop bothering Miss Murong from decoding the array!"

Just like that, Murong Ni spent a long time deducing continuously as her face started to turn paler and paler!

Because the more she deduced, she realised that the complexity of this array had far surpassed her calculations and every single time she decoded a step, the next step was an even harsher and undecodable situation which she had to face, and very soon it started to exhaust her concentration!

In the end, she finally could not hold on as her head suddenly felt dizzy and was about to fall.

"How is it, have you finally decoded it all? How much time more?" Fang Shaoning had completely lost his patience.

Leng Yi Feng also felt that Murong Ni's condition wasn't quite right as he started to look impatient as well.

"Miss Murong, what's the current situation now? You're the one who said it yourself that this array was simple and you would definitely be able to decode it. Are you intentionally dragging the time to fool with us?"

Anyone could tell the threat in his tone and Murong Ni naturally knew it even more clearly.

She quivered as she felt a chill, suddenly regaining some consciousness.

That was it, if she really couldn't decode the array, then would she really become the object of despise to the two Sects? She had already betrayed Celestial Light Sect so if Green Cloud Sect were to not want her then she would really be finished!

Murong Ni was feeling extremely anxious and had no way to quieten down her heart to think carefully. She had already made so many mistakes in her own deduction and yet she had not detected it at all.

Finally, she forcibly came out with a conclusion.

Murong Ni didn't have the time to carefully think if the answer was right or wrong as she stretched out her hand on the wall, lifting up the last brick.

A loud “Boooooom” reverberated!

Instantly the entire cave dwelling’s exterior was enveloped by circles of blue light and in this blue ray of light, the cave dwelling’s entrance opened up on the two sides.

But the main entrance had not opened up completely, only separating slightly, as it revealed an entry which only allowed one person to pass through at a time.

Chapter 1443: Heaven has no eyes (4)

When Murong Ni saw this, she was so excited beyond herself!

She simply couldn’t believe that she really did it! She actually decoded this historical array!

She had not expected that her last action without taking time to think through carefully actually let her hit the first prize, gaining success in one shot!

Leng Yi Feng and Fang Shaoning exchanged glances as they revealed an overjoyed expression.

“You’re truly a rare array skill talent which can only be found once in every few centuries, even such an advanced historical array can’t stop you! You’re just too incredible!”

“It’s Green Cloud Sect’s honour to have been able to invite Second Miss Murong to join our team!”

Green Cloud Sect’s disciples were all feeling pleasantly surprised.

On the other hand, Celestial Light Sect’s side was filled with sorrow as each one of them felt extremely frustrated.

Murong Ni saw their expressions and felt even more complacent!

Hmpf, how dare they belittle this Young Miss, how was it now? Feeling regret? But.... it’s all too late!

She was just about to say something to taunt them so as to gain back her face but Fang Shaoning gave her a gentle push on her back.

“You can say whatever you want later, we have to grab hold of time and enter quickly!”

Murong Ni raised her head as her eyes met Fang Shaoning’s gaze, immediately understanding what he meant.

That’s right, now was the most crucial time of all and every second counted!

The entrance of the cave dwelling was only that big and that meant that the first batch of people who went in couldn’t be that many. Whoever went in first would have a longer duration to seek the treasures!

Don’t think that the two Sects had agreed earlier on distributing the treasures equally, but the minute they really enter the cave dwelling, who would be so silly as to hand out the things which they have taken, and wait for equal distribution? How could that be possible?

Of course it belonged to whoever had grabbed it first!

Because of that, the most important thing now was to hurry in and grab the treasure!

Murong Ni regained her senses as she couldn't care less about taunting Huang Yueli as she turned around and dashed towards the entrance of the cave swelling at the first chance!

Green Cloud Sect's people were originally nearer to the entrance of the cave dwelling and now under Leng Yi Feng's commands, all of them ran into the cave dwelling, striving to be the first and fearing to be the last!

Celestial Light Sect's disciples had not expected them to be so sinister and originally they had yet to react. So by the time they realised that Green Cloud Sect's people had played dirty and wanted to rush over but it was all too late.

A large half of Green Cloud Sect's disciples had already entered in and the rest of them, under Leng Feng Yi's incitation, had blocked the cave dwelling's entrance. The entrance was only this wide and it was tough for two people to squeeze in simultaneously. Celestial Light Sect's people were blocked on the outside so it was impossible to cut the queue to enter!

Luo Jiyun's face turned totally black as he cried out flustered and exasperated, "Fang Shaoning, your Green Cloud Sect is really shameless! You actually disregarded the agreement and snatched the chance to run in!"

Fang Shaoning laughed heartily, "Since when had we gone back on the agreement? Mister Luo, please touch your conscience when you speak! Our original agreement didn't mention who went in first or last, so your Celestial Light Sect can also enter first if you wanted to isn't it? Isn't it all because your actions are too slow?"

Luo Jiyun almost fainted from hearing that, "Too despicable, too shameless! Green Cloud Sect is also a large Sect so how could there be such despicable disciples like you guys!"

"What despicable? This is called relying on your own skill! Talking to me about virtues in front of treasures? You look like you're not very young but how could you be so naïve? Fang Shaoning gave a cold laugh several times and on seeing that most of his comrades had already entered in as he hurriedly joined in as well!

Chapter 1444: Huang Yueli's array skills (1)

Luo Jiyun was really infuriated as he shot upwards and wanted to chase after Fang Shaoning tightly towards the cave dwelling to stop them.

But he had just started moving when a figure dashed out from the side, blocking right in front of him.

"Junior Brother Luo, what's the hurry? Keep calm and don't get too excited."

Luo Jiyun lifted up his head to realise that it was Huang Yueli as he could only stop in his tracks.

But the anxiousness in his heart had not reduced, "Little Sister-in-law, it's already come to this so please stop blocking me! Haven't you seen it for yourself? Those shameless fellows from Green Cloud Sect actually didn't keep to their promise and intentionally entered before us! What shall we do if they snatched the treasures first?"

Actually all of the other disciples were burning with anxiety and upon hearing that, they immediately started to echo the same thing.

“That’s right, Junior Sister Bai, we have to hurry and enter as well!”

“Although there’s a lot of treasures in the cave dwelling but they would definitely take whatever they see so if we’re slow, there’d be nothing left!”

“That’s right, Green Cloud Sect’s bunch of wretched people are simply too sinister! Junior Sister Bai you shouldn’t have agreed to split the treasures with them equally earlier! They are totally up to no good!”

All of them were extremely worried and if it hadn’t been for Huang Yueli to stop them on their way, they were itching to rush in.

The minute they thought of the rare treasure in the cave dwelling falling into the hands of Green Cloud Sect, that made everyone filled with irreconciliation!

However, Huang Yueli was totally not influenced by them as her delicate little face did not show a single bit of urgency. Instead her lips curled up as she laughed softly.

“Senior Brothers and Senior Sisters, I’ve already said this earlier, keep calm and don’t get too excited... relax, the real rare treasure isn’t something which the fastest person can get. Moreover speaking, how do you know that Green Cloud Sect’s people had really entered the correct cave dwelling and not.... A trap?”

Everyone was stunned.

“Trap?”

“What do you mean?”

Just as everyone was bearing a blank look, a loud shocking explosion was suddenly heard from the cave dwelling’s direction!

“BOOMMMMM —!!”

The ground vibrated vigorously and black smoke started to surge out from the cave dwelling’s top.

Miserable screams were heard and following the bubbling airflow, Green Cloud Sect’s disciples who had rushed over to the cave dwelling were all thrown out!

The explosion was just too intense and although Huang Yueli was a distance away from the cave dwelling, she could feel the aftermath of the explosion charging towards her from her back!

She wasn’t able to evade in time as her small face turned slightly pale.

Damnit! She had not expected that they were still too near. If she had known earlier, she would not be nosy and came out personally to stop them!

Just as Huang Yueli thought that she would really be injured, a black image flashed by.

A strong arm hooked onto her waist and pulling at her, he drew her to one side as he successfully saved her right before the airflow struck her.

Huang Yueli rested into Li Moying's arms as she was still in a panicked state, "Mo... Moying, luckily you're here....."

The large palm which grabbed her slender waist suddenly tightened as he heard the young lady's pained cries and he berated her in a bad mood, "So stupid, why were you standing in such a dangerous place for? Did you really think that you are still in the ninth stage realm??"

Huang Yueli buried her face onto his chest, rubbing him as she acted as though nothing happened, "Boo hoo, you're so fierce! I'm so scared yet you're still scolding me!"

Chapter 1445: Huang Yueli's array skills (2)

The corners of Li Moying's lips kept twitching as it was obvious that this lass was faking it but he was still stirred up by her soft cries of pain as he felt his heart ache.

"What's the matter? Let me take a look, are you injured?"

Saying that, he didn't wait for Huang Yueli to reply as his palm started to pat her from top to bottom as he checked her body to see if she had sustained any injuries.

Huang Yueli's face flushed red immediately, this man really didn't bother about the current situation! They were in public and he... he actually did this??

She hurriedly pushed him away, "Nothing, I'm fine. Just merely had a shock. Alright, let go of me! So many people are looking at us!"

Li Moying suffered some domestic violence punches from her and forcibly stopped. But he wasn't very assured as he frowned and stared at Huang Yueli, "Really alright? If you're injured, you must tell me, you're not allowed to hide it from me!"

Huang Yueli nodded her head earnestly to guarantee, "I'm really fine! Rest assured!"

Li Moying then heaved a sigh of relief as the huge arm on her waist didn't shift away. It merely relaxed a little but he still locked her in his arms.

Huang Yueli struggled for a while and stopped, only pouting her lips allowing him to do as he wished.

Li Moying turned around and looked towards the direction of the cave dwelling.

Right now, the exploding sound had stopped and the black smoke above the cave had dissipated by a large amount.

Earlier there was such an intense tremor which could be described as earth shaking and mountains swaying. The several thousand year old trees nearby had all fallen onto the ground but this luxurious beautiful cave dwelling remained standing and motionless, without even a crack on the walls. It seemed as though nothing had happened earlier.

But the surrounding walls of the cave dwelling were Green Cloud Sect's disciples who had fallen everywhere.

All of them without any exception had all been expelled from the cave dwelling. Moreover because of that earlier explosion, all of them had sustained heavy injuries as they laid limp on the ground, unable to climb up at all.

Celestial Light Sect's disciples crowded around them as they discussed with shock.

"This.... what happened?? Hadn't they entered the cave dwelling successfully earlier? Why did they get expelled out?"

"Hahaha do you even need to think? It must be because the array had not been decoded and that entrance was just a trap so they all fell for it!"

"That's right, who asked them to be so complacent earlier, how about now? It's so hilarious!"

Celestial Light Sect's disciples were all rocking with laughter as they all heaved a sigh of relief, but at the same time they were also terrified at the bottom of their hearts.

"Luckily, we didn't enter! Otherwise we will end up the same as them!"

"Right, earlier I almost chased after them to run it, luckily Junior Sister Bai stopped us... wait, does that mean that she had already seen through something?"

"Makes sense, otherwise why would she purposely stop us?"

"But isn't that too ridiculous? Muring Ni can't even decode the historical array so how could she possibly find out the secret behind this?"

"Probably just.... coincidence?"

The crowd looked at each other in dismay as they felt that there was more to it that meets the eye.

Huang Yueli had once again saved everyone in Celestial Light Sect and this was something which all of them acknowledged. But how did she save them, this was what made all of them unable to comprehend!

Surely it couldn't be that her level of mastery in array skills was stronger than Murong Ni right? This simply could not be justified because Murong Ni was a publicly acknowledged number one array skills talent in South Sky Region! Since young there had been many famous Array Masters who appreciated her innate talent and were snatching to take her in as their disciple.

Chapter 1446: Huang Yueli's array skills (3)

How could Huang Yueli possibly be more talented than Murong Ni?

Her armament refining skills and cultivation innate talent was already so strong and if she really had that high level of mastery in array skills, how would anyone else be able to live?

Just at this moment, those disciples from Green Cloud Sect who had fainted all started to regain their consciousness.

Leng Yi Feng's cultivation was the highest and he was the first to regain consciousness.

The minute he opened his eyes, he discovered that he was lying on the ground and was not able to go into shock when he felt a wave of intense pain emitting into his brain cells. His internal organs seemed to have shifted places which made him go into so much pain that he could only moan out loudly.

“Ah.... This... what is going on?”

Shouldn't he already be in the cave dwelling selecting the treasures?

He still remembered that the moment right before he lost consciousness, he had discovered a large quantity of eighth tier and above Profound Armaments as he was so excited and was indecisive on which one to select but in the end.....

His memories immediately returned to him as Leng Yi Feng recalled that sudden explosion as his expression turned extremely gloomy!

Fang Shaoning had also regained consciousness and he turned his head back blankly. Upon meeting Leng Feng Yi's gaze, he immediately understood what happened.

“Damn! Looks like the array had not been decoded? We have all been tricked by that wretched slut Murong Ni!”

It was exactly because he was the last few to enter hence his injury was not as serious and he could still forcibly stand up.

Fang Shaoning walked to Murong Ni who was still unconscious as he grabbed her collar and shook her vigorously, “Murong Ni, still pretending to be dead! Get up right now! Wake up!”

Murong Ni awoke in dizziness as there was a complete blank on her face, followed by a sharp cry of pain.

“Argh..it's so painful, ugh... why can't I move? What happened?”

Fang Shaoning was extremely upset as he gave her a tight slap. Immediately Murong Ni's face became swollen as the corners of her lips flowed out blood, totally dazed from the slap.

Fang Shaoning berated her in exasperation, “What happened, you still have the cheek to ask! Didn't you say that you're sure that you can decode the array? Wasn't it you who said you've succeeded? Why is it that so many of us have entered the cave dwelling but we were all expelled out and all of us sustained such heavy injuries?”

“What? How could that be possible?”

Murong Ni was stunned as she slowly recalled the situation at that time while her complexion started to turn paler and paler.

At the end, she had completely lost all colours of blood!

Recalling the entire process of development, how could Murong Ni still not understand?

She was just feeling that her luck was simply too good as she simply just drew any piece of brick which decoded the array. But as she was too excited, she had not thought of the possibility of a trap appearing!

Right now recalling that, she had not decoded the array successfully, but instead... she was misled! Not only had she not brought Green Cloud Sect's people into the cave dwelling, she had caused them to suffer a huge loss!

Fang Shaoning laughed coldly, "Aren't you the one who made yourself out to be so incredible? Aren't you nicknames South Sky Region's number one array skill talent? This is your potential? It's simply a joke! No wonder Li Moying wasn't willing to bring you along because you're basically just a scammer. Whoever brought you along will get into bad luck!"

Murong Ni heard that and immediately forgot the pain on her body as she anxiously tried to explain for herself.

"Fang... Mister Fang, this is merely... merely an accident...."

"Accident? One word accident and you caused so many of my Green Cloud Sect's people to suffer such a terrible state, you still have the cheek to say so? You sure you're not a spy sent over by Celestial Light Sect?"

"I... I'm not, how could I possibly be a spy?" Murong Ni shook her head vehemently in denial.

Chapter 1447: Huang Yueli's array skills (4)

However, Fang Shaoning had no mood to continue listening to her.

All he knew was trusting Murong Ni was the gravest mistake that he had made! Just because of Murong Ni's boasting, it caused so many Green Cloud Sect's disciples to sustain such heavy injury and losses!

One must know that Green Cloud Sect's top rated battle power had all entered the Cloudy Qilin Mystic Region this time round and after the explosion in the mystic region, many of them had sustained a very serious injury which needed at least ten days to half a month in order for them to recuperate!

But this was the Cloudy Qilin Mystic Region! Danger lurked all around the ancient mystic region and they had to face various dangers everyday so where would they find the luxury of the time to rest and recuperate?

Even if they were able to find a safe spot to make slight adjustments, but they were only in the Cloudy Qilin Mystic Region for a month. Now that there's only ten over days left, surely it could not be that they were going to spend the last ten over days to recuperate?

This was a total waste of their opportunity in entering the ancient mystic region for experience training!

Needless to say, there were many Celestial Light Sect's disciples who were keeping a watchful eye on them, just waiting for them to run into bad luck!

This time round, Green Cloud Sect's top experts were all injured whereas Celestial Light Sect's people were all perfectly fine.....

Thinking of this, Fang Shaoning suddenly jolted as he turned around.

He saw Huang Yueli and Li Moying standing side by side not too far away and Li Moying's hand was placed on his fiancée's waist as the both of them had a unruffled expression, occasionally casting glances at them as though they were watching a huge joke!

Fang Shaoning was so infuriated that he almost fainted!

Leng Yi Feng was also extremely upset because he was the one who led Green Cloud Sect's disciples in. Now that so many of Green Cloud Sect's disciples were seriously injured, he had to bear the responsibility for it!

Leng Yi Feng's gaze fell upon Murong Ni as anger arose from all directions!

"Murong Ni, you're indeed the spy sent over from Celestial Light Sect! You've caused us so much harm to Green Cloud Sect so I will absolutely not let you off! All the disciples from Green Cloud Sect will not let you off!"

Murong Ni suddenly had a change of colours, "I... I really didn't do it intentionally, I really didn't...."

But no one believed her.

Or perhaps it could be said that it wasn't important if she was a spy or not. Green Cloud Sect had suffered such a huge loss so all the disciples were bearing fire inside, as they needed to vent out on someone.

Murong Ni originally wasn't part of their Sect and now that she was the main culprit in creating this mess, she naturally became the object of everyone's fury!

Sensing the vengeful gazes radiating from all around her, Murong Ni's body turned icy cold.

Right now, she finally felt extremely remorseful!

Why did she go rely on Green Cloud Sect? Green Cloud Sect's people were obviously using her and the minute she was of no more use, they immediately turned their backs on her!

Murong Ni had no other way but to look towards Li Moying as she begged mercifully, "Eldest Senior Brother I beg you, please save me! I know I'm in the wrong and I promise I will never betray the Sect in future. Please, on account of my father, please save me! Otherwise Green Cloud Sect's people will definitely torture me to death! Eldest Senior Brother!"

Li Moying's eyes flashed a cold glint.

He had not spoken out when the ordinary disciples from Celestial Light Sect already started to cry out in fury.

"Young Sect Master, please don't be soft hearted and forgive her!"

"That's right, Murong Ni is simply too shameless! Earlier she claimed loudly that she will stand on Green Cloud Sect's side and now? Now that she can't continue staying there, she wants to return to Celestial Light Sect?"

Chapter 1448: Huang Yueli's array skills (5)

“That’s right, it’s impossible for such a good thing to happen under the heavens, did she think that we’re all fools or what?”

“Young Sect Master, you’re so brilliant and wide, surely you will not fall for this slut’s trick right?”

Murong Ni betrayed her own Sect and almost helped Green Cloud Sect to snatch away the treasure in the cave dwelling.

These acts had already made Celestial Light Sect’s disciples hated her to the core!

Even if she was Sect Master Murong’s biological daughter, no one was willing to forgive her!

Murong Ni was stuck in between a rock and a hard place as she was so anxious that her tears kept flowing, entreating piteously, “Eldest Senior Brother, I really realised my mistake, please give me another chance! Bai Ruoli, I’ve already been tricked by you to such a miserable state, are you still unwilling to let me off?”

Huang Yueli looked extremely innocent as she replied, “I trick you? Since when had I tricked you? It was obviously your team members who pushed you out to decode the array and I’d also given you a chance on accord that we were from the same Sect, specially giving up the chance to you. But your mastery in array skills is just too bad, so who can you balme?”

“But.... But....”

Murong Ni was unable to give a convincing explanation to defend herself but she subconsciously sensed that today’s matter definitely had something to do with Huang Yueli. But she didn’t know how Huang Yueli managed to scheme her? Could it be that she really saw through this historical array? Moreover she intentionally dug a pit for her to jump in along the way?

Wasn’t the difficulty just too high?

The last time when they were in the Dark Moon Forest, Huang Yueli was merely a first stage realm practitioner and due to cultivation restrictions, she could only come out with the standard of a second or third rank Array Master.

So Murong Ni always had the wrong impression that Huang Yueli’s array skills were on par with hers and even if she was slightly better at it, there was a limit to it.

Hence she thought that if she herself was not able to see through the array, Huang Yueli would naturally not be able to do so as well.

Huang Yueli didn’t explain further as her lips curled showing a friendly attitude, “Alright, Mister Leng, Mister Leng, I’m sure both of you still remember our previous agreement right? If Murong Ni was able to decode the array and prove her value, then we will split the treasures with you equally. Now that she had failed in the challenge, so there’s no point in the cooperation between us right now. We won’t cooperate with weaklings so please hurry up and leave right now!”

She was so quick to issue the marching off orders which made Green Cloud Sect’s disciples both embarrassed and discomfited!

The party which was chased off like dogs due to inability was actually something which was happening every day in Soaring Heavens Continent.

But as West Sky Region's number one Sect's disciples, this was the first time many of them had suffered such humiliation!

Usually, they were the ones who chased other people away!

Leng Yi Feng's expression was especially discomfited. To be seen in such a silly sight in front of the lady he liked and his love rival really was much worse than killing him!

He was really not resigned to it as he had not nudged at all.

Li Moying spoke out icily, "Why? Still trying to renege on here? Do you really want me to chase you all off personally? Not that it's impossible but I'm afraid that you won't be able to take it!"

Everyone shivered all over.

Leng Yi Feng asked with much difficulty, "Young Sect Master Li, don't be like that... if a talented Array Master like Murong Ni isn't able to decode the array, then the only way to enter would definitely be by brute force to decode the array! At this kind of timing, one more person means one more battle power so you will still need us! Isn't it too early for you to say to not cooperate right now?"

Li Moying casted a glance at him as he replied coldly, "Who told you that.... I'm using brute force to decode the array?"

Chapter 1449: Huang Yueli's array skills (6)

Leng Yi Feng had totally not expected him to give this reply as he immediately went into a daze.

"You.... these words... what do you mean?"

Everyone present stared at him in astonishment.

Li Moying lowered his head as he looked at his fiancée in his arms as he asked softly, "Li'er, can you decode the array now? Or do you want to take a break first?"

His gaze and tone was extremely gentle, as though he had changed from an icy, emotionless top expert into a gentle and caring lover in a split second.

Even Huang Yueli was dazed by his bewitching peach blossom eyes, feeling that she was going to be bewitched by this man.

She shook her head, "No need.... Earlier we've already watched such a long show so if I still don't move, my body will start to rot."

Saying that, she pushed Li Moying aside gently as she walked towards the cave dwelling's entrance directly.

Green Cloud Sect's disciples all started to tremble when they heard what she said!

So they had excitedly ran into the array, assuming that they had gained a huge advantage but in Huang Yueli's eyes, it was a monkey show?

"Hmpf, this Bai Ruoli is just too arrogant! She thinks that she has Li Moying behind her and no one dares to ruffle her feathers?"

"Wait a minute, why did she walk towards the cave dwelling's entrance, could she be trying to decode the array?"

"What joke is that, she wants to decode the array? You must have seen wrongly! Bai Ruoli isn't even an Array Master!"

"But, she... she really walked over...."

Under everyone's astonished gaze, Huang Yueli walked to the cave dwelling entrance.

She raised her head and looked around, almost without any hesitation, as she stretched out her hand and drew out a piece of brick from the wall.

"What... what is she doing?"

The crowd looked at each other in dismay, with a dazed look on their faces!

From her stance, it bore some similarities to what Murong Ni was doing earlier, like she was decoding the array?

But if this was true, shouldn't she be observing carefully around the surrounding walls first? How was it possible for her to just take out one piece of brick immediately? Earlier even the array skill talent Murong Ni observed for two hours before she made a move!

Luo Jiyun saw Fang Shaoning's shocked look as he couldn't help but laughed coldly, "Such ignorance! Little Sister-in-law is just decoding the array!"

"Decode the array? How is this possible? This is a historical array which had been around for several thousand years and she just made a move without taking a careful look, heaven knows what the consequence will be? Perhaps it might be even more terrifying than the explosion earlier!" Fang Shaoning totally didn't believe his words.

Luo Jiyun gave a cold laugh, "Such lack of knowledge! In front of a true blue array skill talent, what is a historical array?"

"Array skill talent? You're referring to Bai Ruoli? Isn't she an Armament Master? How did she turn into an Array Master?"

Luo Jiyun replied disapprovingly, "Very strange eh? Little Sister-in-law is exactly this kind of genius!"

"But... no, this is impossible... you're confusing me!" Fang Shaoning still refused to believe because this was simply out of his imagination.

Luo Jiyun didn't bother to explain further.

His Sister-in-law's innate talent was indeed heaven defying. It's very normal for others not to believe based on empty words but seeing was believing so the truth would prove everything!

After Huang Yueli drew out the first brick, her feet immediately started to shift as she revolved several meters around the walls of the cave dwelling and suddenly stretched out her finger. Before anyone could react in time, she had already drawn out the second brick!

Chapter 1450: Huang Yueli's array skills (7)

Following that, she continued to move as she walked around the wall and she continuously started to strike, sometimes pulling out a brick and sometimes using Profound Energy to draw out a marking!

While she was doing these, her feet kept on shifting without pausing and she had completed everything at one go.

Right until she went one entire round did she finally stop.

Everyone was in a daze while looking at her movements, not knowing what she was up to.

Actually Leng Yi Feng and the rest had a faint premonition but in the deepest depths of their hearts, they totally didn't dare to believe that there was such a thing so they had been telling themselves – this was impossible!

Huang Yueli clapped her hands and said, "Alright, I'm finally done!"

Her words had just landed when a layer of dim light appeared on top of the cave dwelling which was different from the earlier eye piercing bright ray. This layer of light was extremely soft but radiated with an extremely strong penetrating power as it lit up a large area in the surroundings.

The image of the cave dwelling in the light became much clearer.

At the same time, the cave dwelling's entrance had opened up completely as it revealed a neat and tidy pathway, extending all the way inside.

This scenario looked totally different from earlier when Murong Ni decoded the array.

With such comparison, anyone could tell that this was the correct sign of the array being decoded!

Luo Jiyun rubbed his eyes as he cried out in astonishment, "So.... There was a layer of mist around the cave dwelling. No wonder it looked dusty earlier. I thought it was because the cave dwelling had been here for too long hence it was layered with dust and cobwebs!"

Huang Yueli laughed as she said, "These kinds of buildings are specially constructed with a special kind of material and with the support of arrays, as long as the effect of the array does not disappear, the exterior would not change due to the passing of time. Look, doesn't this cave dwelling look somewhat different from earlier?"

Luo Jiyun was enlightened as he nodded his head furiously.

After the mist dissipated, the exterior walls of the cave dwelling seemed to have been refurbished as though it had been painted with a new coat of paint as every piece of brick reflected the sun, looking extremely dazzling.

The entire cave dwelling looked even more luxurious and it was easy to tell that several thousands of years ago, just how magnificent this cave dwelling was and how powerful and highly positioned of a top expert was the owner of the cave dwelling.

Luo Jiyun rubbed his palms as he cried out excitedly, "That's great, let's hurry in quickly! This Sage Wu Ding doesn't seem like a simple person so there's definitely great stuff inside!"

He turned his head back and was about to call out for the Celestial Light Sects' disciples whom he was on better terms with to go in together but in the end he saw everyone's dazed expressions on their faces.

"What's the situation?" He went into a blank and immediately realised what happened as he couldn't stop laughing, "Why are you all in a daze for? Can't you tell that the array outside the cave dwelling had already been decoded? Why are you still wasting time here for?"

"But, this... this... I feel that I must be dreaming."

"This array is really decoded? This... This is just...."

"Junior Sister Bai really is.... really is an Array Master??"

"How could that be possible? How could there be such a ridiculous genius under the heavens! Forget it that her cultivation innate talent is that abnormal, she's also an armament refining genius, ok we can deal with that. But why is it that she can also decode a historical array?? Even such a talent like Junior Sister Murong had failed earlier!"

This person had spoken everyone's thoughts and instantly, it caused a lot of people to echo together with him.
