

## **Weaponsmith 1451**

### **Chapter 1451: Huang Yueli's array skills (8)**

Everyone's astonished gazes shot towards Huang Yueli, feeling that they must be dreaming as this was totally unrealistic!

This kind of matter... was simply unheard of! Did this kind of genius really exist?

Or could it be that they were only dreaming?

Huang Yueli's lips curled upwards as she said, "Just a small trick. Although this is a historical array but it is just a very commonly seen invisible array. Only thing was the one who set the array had great ideas and added in many variations in the small details hence it was slightly more confusing. In actual fact it's not difficult to decode an array."

Huang Yueli had casually explained with a few words but did not mention that no matter how simple this array was, it was still an eighth tier array.

However, she didn't bother if anyone believed her or not as she immediately urged, "Alright, stop wasting time, let's all enter right now!"

Celestial Light Sect's disciples had all woken up from the initial dream as they started jumping up jubilantly, rushing towards the cave dwelling's entrance.

Murong Ni was completely devastated when she saw this as her eyes rolled back and fainted right there.

As the saying went, comparing people made one dead while comparing goods would result in it being dumped!

Originally although she had failed in decoding the array, she could still blame it on the fact that it was due to the array being too advanced.

But now that Huang Yueli had really decoded the array successfully, that was a real slap on her face! And it even sounded real loud!

Murong Ni was nicknamed as South Sky Region's number one array skill talent? Hadn't she boasted that she would be able to decode the array? In the end, she had duped all her team members.

On the contrary, another person had easily decoded the array and this person wasn't even an Array Master, but an Armament Master!

"Damn, what's the situation right now? Bai Ruoli said that this is a simple array so why can't you decode it??" Fang Shaoning howled utterly discomfited but looking back, he realised that Murong Ni had already fainted.

He furiously kicked Murong Ni flying as she crashed into a tree and her head happened to knock against a tree branch as blood started to flow.

Fang Shaoning was still not appeased as he said to Leng Yi Feng, "What should we do now! It's all my fault for believing that trash Murong Ni's words. Now Celestial Light Sect's own people have decoded the array so we gain nothing to split now!"

Leng Yi Feng clenched his teeth tightly, "Isn't it too early to say that they have decoded the array? Earlier we also thought that we had succeeded but in the end, we were expelled out? Perhaps their success is merely a false image!"

These words were obviously a blatant lie to their own selves but what Green Cloud Sect's people needed was exactly this kind of mental comfort.

Someone else immediately echoed, "Right, it's definitely this way! That Bai Ruoli isn't even an Array Master so how could she possibly just decode the array like that?"

"That's right, have you seen her running around in that manner earlier? This isn't decoding the array, it's more like dancing isn't it? Casually jumping around a few times and drawing some imprints and she could decode the array? Could it be any simpler? Is she bullying us that we haven't met an Array Master before?"

"Normal Array Masters would take out their array board when decoding arrays, carefully deducing, considering all the changes in the array before they made a move! Her moves earlier means that she had decoded the array? That would be like seeing a living ghost! I think the Celestial Light Sect is going to be in big trouble this time round and their outcome will definitely be much worse off than us!"

### **Chapter 1452: Ample rapport (1)**

They intentionally said it loudly for Celestial Light Sect's people to hear.

As expected, some disciples started to waver as they stopped in their tracks, not daring to move forward.

Fang Shaoning saw this and suddenly a scheme came to his mind as he leaned in close to Leng Yi Feng, speaking softly, "Eldest Senior Brother, let's be patient and wait a while. After those from Celestial Light Sect have all entered, they would not leave anyone to guard the entrance. Even if there was someone, as long as it wasn't Li Moying himself, they won't be able to stop you. By then we can sneak in behind them. Although we're not able to split most of the loot, but at least it's much better than getting nothing at all."

Leng Yi Feng hesitated, "This... isn't this too contemptible?"

As a direct descendant of the Leng family, he bore the pride of a large family's and this was equivalent to being a thief so he really couldn't lower himself to do it.

Fang Shaoning replied, "At this kind of timing, what's there to talk about being contemptible or not? Entering the mystic region's priority is to gain benefits! Moreover speaking, most of the top experts from our Sect are heavily injured and if we don't take the opportunity to gain some advantages, what shall we do later on?"

Leng Yi Feng slowly nodded his head.

Although both of them were whispering, but as Huang Yueli and Li Moying's soul trace was exceptionally strong, they still heard what they said.

Li Moying couldn't help but sneered coldly, totally ignoring them as he walked into the cave dwelling directly.

Huang Yueli pursed her lips as she saw that most of Celestial Light Sect's people had already entered and she stood by the entrance of the cave dwelling and drew out an array pattern in mid-air with her right hand!

Following her actions, the cave dwelling's entrance started to close up slowly.

Fang Shaoning and Leng Yi Feng were originally planning happily, waiting to sneak into the cave dwelling to pick on the left-overs.

Whoever knew that before they had the time to be delighted, the cave dwelling's door started to close up!

"Oh no! How did this happen? Bai Ruoli is going to close up the entrance!"

"Heavens, how is this possible? Wasn't it said that she had not decoded the array successfully? Why is it that she can open or close this array to her liking, this... what kind of level of mastery in array skills does she have? It's too scary!"

"We're finished, the door is about to close so that means we totally cannot enter!"

Leng Yi Feng and Fang Shaoning exchanged glances as he howled, "Everyone quickly squeeze in right now, we're not going to make it if it's too late!"

Saying that, the both of them rushed over!

Leng Yi Feng was indeed the number one man among the younger generation of Green Cloud Sect. His speed was extremely swift like a bolt of lightning as he rushed into the cave dwelling in an instance.

Although Huang Yueli had displayed her array skills, but the opening and closing process of the array was rather slow and this door had not completely closed up when Leng Yi Feng directly charged in!

Fang Shaoning's speed wasn't any slower as well as he followed closely behind, also charging in.

After they entered the cave dwelling successfully, the first thing they did was not to race against time to search for treasures but they both struck out a move towards Huang Yueli at the same time!

They were very clear minded that as long as they were able to control Huang Yueli, this array would not be able to shut fully so now that the entrance was half closed and the entrance was rather narrow but they were still able to squeeze in.

Huang Yueli was fully concentrated on the array!

Controlling a complicated eighth tier array to the current fifth stage realm first level, was absolutely not an easy thing so she required an extreme amount of concentration, so that she did not make any mistake!

## Chapter 1453: Ample rapport (2)

Because of that, Leng Yi Feng and Fang Shaoning's attacks were something that she couldn't go up against.

Or even, she totally could not respond to it.

In a split second, surging Profound Energy had reached her chest and was about to deal her with a heavy strike!

However Leng Yi Feng still bore tender and protective feelings for her hence he wasn't too vicious in his attack but Huang Yueli was in the middle of performing and if she was interrupted, it would definitely result in an extremely serious backlash, and her meridians would definitely be damaged.

On seeing that she was about to be hit, Huang Yueli's face did not show any signs of shock.

Instead, she totally didn't attempt to evade it as she stood calmly at her spot, drawing out lines and lines of array patterns without any mistakes, her hands not even shaking at all!

"Bai Ruoli's reaction is really slow. Still controlling the array at this point of time, she's really looking for her own death!" Fang Shaoning laughed coldly to himself.

But before he could finish laughing, a stroke of purple lightning flashed past the air.

This bolt of lightning descended from the sky and was rough and bright as though it was going to split the entire cave dwelling into two!

Following the lighting was a thunderous sound, as the ground started to shake.

The two of them had an abrupt change of expression as they anxiously retreated to evade but the speed of the lightning was simply too fast and before they had time to react, it was already too late.

"AH—!"

Fang Shaoning gave a blood curdling shriek and was struck directly by the lightning on his chest. He turned into a charred black colour as his body was still smoking and he was expelled out of the cave dwelling.

Leng Yi Feng's reaction was much faster but he was still struck by the lighting on his shoulder. His arm immediately lost all senses as he was sent flying out as well while spitting out blood in mid-air, as he fell onto the ground.

Only thing was he had not fainted so he could still see who was the person who had attacked him!

Leng Yi Feng's eyes peeled wide to stare at the man who appeared suddenly beside Huang Yueli—

"Li Moying!"

Hadn't he already entered the cave dwelling? Why did he return to protect Huang Yueli? Moreover his attack speed was so fast and sudden but Li Moying could still react in such a short amount of time, with tremendous force to cause such serious injury to the both of them with just one move!

What kind of ability was that??

Under Leng Feng Yi's terrified gaze, Li Moying stood on the right side behind Huang Yueli, displaying a guard's posture, protecting her.

Li Moying shot a glance towards Leng Feng Yi as he gave a chilly laugh, "Dare to make a move to attack my woman, did you really think I was dead? Trying to make use of the confusion to enter the cave dwelling to split a cup of soup? You're daydreaming!"

Saying that his sleeve flicked and a burst of severe Profound Energy was unleashed!

Leng Yi Feng lost the chance to react as he was swept away just like leaves being blown away by the autumn wind, flying out of the boundary of the cave dwelling.

At the same time, Huang Yueli had finally completed all the array patterns as the cave dwelling's entrance started to shut steadily under her control.

From the start to the end, the movements on her hands had not stopped and there hadn't been a moment of slowing down as she was neither fast nor slow in her steady and accurate actions.

As though the two people who popped out and dealt her with a murderous hand had totally not appeared!

She was absolutely certain that her fiancé was right by her side and would be able to ensure her safety at any one time so she was totally unguarded all because.... there was totally no need for that!

### **Chapter 1454: Ample rapport (3)**

They had ample rapport, same as in their past lives.

After Huang Yueli shut the entrance, Li Moying then stretched out his hand to hold hers, as their fingers locked tightly.

"Let's go, those irritating houseflies are already gone so let's hurry in now!"

Huang Yueli gave a smile as she nodded, walking alongside with him into the cave dwelling.

The rapport between the both of them didn't need them to say a single word and they could mutually understand each other.

When she required protection, this man was always this reliable, forever enabling her to feel at ease.

The entrance was tightly shut and towards those outside, this was a scene which made them lose all hope.

Leng Yi Feng was kicked away like a dead dog by Li Moying and after being thrown out of the door, he clutched his chest as he struggled to prop up himself. But all he saw was that pair of lovers who walked side by side, disappearing behind the door.

Leng Yi Feng was so infuriated that he spat out a mouthful of blood!

This simply was... bullying intolerably! Li Moying actually used such a way to humiliate him! Whereas he... had been humiliated several times but did not have any chance to go against him!

Ever since meeting Li Moying, he had been subjected to unimaginable torture. He could not match up to Li Moying no matter in what aspect, each and every single time he tried to challenge him, it would always end up in a miserable ending. Furthermore, the ending was more miserable than the previous!

On the other hand, Li Moying was forever calm as he stood at the top. Even till now, Leng Yi Feng couldn't tell what was the upper limit of Li Moying's potential. He seemed to be a man with no limits! At any one time, he was able to display abilities which had surpassed one's imagination!

Not only that, he was the perfect candidate who gathered both ableness and beauty in one!

For example Huang Yueli, a young lady with shocking innate talent in cultivation, armament refining as well as array skills, she was probably the one and only super existence in the entire Sky Emperor City. All the heirs to the top powerhouses in Sky Emperor City were fighting over to marry her.

But this young lady was only faithful towards Li Moying as her gaze was forever on Li Moying!

Leng Yi Feng felt that he was about to go crazy!

Luckily this time he had already thought of an idea for Li Moying to never leave the Cloudy Qilin Mystic Region forever!

Thinking of this, Leng Yi Feng then forcibly controlled himself. Yes, Li Moying was going to be a dead man soon so he need not be frustrated, he only needed to endure it this one time.....

Leng Yi Feng clenched his fist tightly as he vowed to heavens: Li Moying, the day you leave the cave dwelling would be the day of your death and shattered reputation!

...

Inside the cave dwelling, Li Moting and Huang Yueli walked to the main hall's courtyard.

Entering to take a look, Huang Yueli revealed a slight astonished expression.

Because Celestial Light Sect's disciples who had entered this place had all gathered in the courtyard and none of them had grabbed the chance to go search for treasures.

This made Huang Yueli rather surprised as the rare treasure towards the ordinary disciples who entered the mystic region for their very first time had a huge attracting power, something which she was very clear of.

She had thought that these people would separate on their own ways the minute they entered the door!

When everyone saw them walking there, they started to crowd around them in both excitement and agitation.

"Miss Bai, you're finally here, we've all been waiting for you!"

“Yes, you... you’re too incredible, you even know array skills! Your array skills mastery is even higher than that of Murong Ni! Just what kind innate talent is that??”

“Really too heaven defying, simply unimaginable!”

#### **Chapter 1455: Ample rapport (4)**

“If it hadn’t been for you, we’d be finished this time round. Not only are we not able to enter the cave dwelling, we would also have been schemed by those shameless fellows from Green Cloud Sect!”

“Junior Sister Bai, I’ve already decided that from today onwards, you’d replace Young Sect Master and become my most adored idol!”

Celestial Light Sect’s disciples were all crowding around Huang Yeuli, expressing their heart felt adoration and praises.

Because it wasn’t the first time that Huang Yueli had saved Celestial Light Sect during a crucial moment.

Last time, after they had ascertained the quota to the mystic region, it was the same scenario on the arena stage.

Everyone thought that Celestial Light Sect had failed completely and no matter what they weren’t able to turn tables around.

When Huang Yueli went on stage for the challenge, no one thought that she would emerge as the ultimate winner so no one held any high hopes for her.

However, the final result was that she had used her own ability to create one miracle after another, pulling strongly against a crazy tide to win the final victory for Celestial Light Sect.

This matter happened yet again and this accumulated the prestige and status of Huang Yueli in Celestial Light Sect’s disciples’ minds to a shockingly high degree.

Li Moying saw the mass disciples’ attitude and his lips curled up slightly, feeling extremely delighted in his heart.

Although Huang Yueli was his fiancée, but this kind of status would only made Celestial Light Sect’s disciples treat her with courtesy but not worship or respect her!

In Soaring Heavens Continent, only those who welded truly powerful abilities were able to win the respect from others which came deep down in their hearts.

So Huang Yueli obtaining the current status was all based on her own ability, conquering everyone!

This made Li Moying felt extremely proud. His Li’er was forever that powerful, that outstanding and no matter where she went, she was the object of everyone’s admiration but unfortunately, she was his, totally devoted to loving him only....

As a man, Li Moying felt that his vanity was satisfied to the max.

But...

Li Moying quickly frowned.

Those disciples who were crowded around Huang Yueli were extremely agitated and they got closer and closer, squeezing her into the crowd and someone even touched her hand.

Li Moying's face immediately turned ugly as he stretched out his long arm and curled it around Huang Yueli's waist, bringing her into his embrace and successfully blocking out the passionate people who were around her.

"Alright, Li'er already understands your intentions. Right now we're still in the cave dwelling and there's a limit to the activation of the array so everyone quickly grab hold of time to seek for treasures. If you continue dilly dallying and miss the timing, then don't blame us for not reminding you!"

"I repeat once again, you're not allowed to break out into a fight over the distribution of the treasures since we're all from the same Sect. We must talk things over to settle this and if there are any private fights between you guys and it falls onto my ears... I will absolutely not let it go."

"If you understand, then you are dismissed!"

Li Moying's expression was cold as he made it clear to everyone and with a wave of his hand, he wanted to dismiss these unimportant people!

It really was enough, Li'er was his! He allowed others to express their adoration and respect towards his fiancée but these people kept on revolving around her so he simply couldn't take it!

He and his fiancée wanted their own romantic couple's world alright? This bunch of unreliable fellow really don't know how to watch the signs!

Li Moying's black face was indeed intimidating.

Celestial Light Sect's disciples totally didn't dare to object after hearing him say that.

### **Chapter 1456: Ample rapport (5)**

On seeing everyone being dismissed, Huang Yueli went into a blank as she turned towards Li Moying.

"Moying, you just let them go off like that?"

Li Moying's mood was originally not very good and upon hearing Huang Yueli said that, he got even unhappier, "Otherwise what should I do? Don't tell me you want to hang around with so many attendants around?"

Huang Yueli finally heard that his tone was filled with unpleasantness as she raised her head to take a look at him and laughed out.

"Of course I don't mean that... alright, they're all from your same Sect so why do you have to be jealous....."

They had merely surrounded her for a slightly longer time, seriously, he had to even be jealous over this.....

Saying that, Huang Yueli raised her voice, "Senior Brothers and Senior Sisters, everyone please wait a while."

The crowd stopped in their footsteps in surprise as they turned around to look at her, "Junior Sister Bai, what other instructions do you have for us?"

Huang Yueli smiled and said, "Earlier when I entered the door, I saw the decoration and structure of this cave dwelling. The first room in the east chamber should be a pill refining room. Second room is a storage room and there should be quite a number of medicinal pills. Based on Sage Wu Ding's cultivation, the pills should at least be seventh level and above. The first room in the west chamber should be for armament refining and there should be a storage room on the side as well. Other than that, in the south courtyard, there should be three other depots. So you guys can spend some time exploring these places."

She thought for a moment and said, "Right, in order to prevent fighting, everyone ought to distribute the duties and split up into several groups. Each group will search a room and all the treasures will belong to that group. First distribute it and there's no room for regrets later on."

She had said that to prevent Celestial Light Sect's disciples from arguing and fighting over the treasures, causing internal strife.

Although Li Moying had already passed down his instructions, he was after all a man and his thoughts weren't meticulous enough. Moreover he was too lazy to arrange so carefully. After all based on his ability and prestige, with a few words of warning and no one would dare to create any trouble.

Huang Yueli knew that just saying these weren't enough. Even if they couldn't fight on the surface, it was still very easy to cause conflict.

Hence she took the extra step to do the arrangement for the disciples.

Hearing her words, originally those disciples who were like headless flies all found their direction as they started to discuss seriously.

Seeing this, Huang Yueli's face popped out a smile as she automatically held Li Moying's hand, leaving the front courtyard together.

Li Moying was tugged by her moving forward but he was still scowling, "You're rather concerned about those insignificant people, even giving them the idea on how to distribute the treasures."

Huang Yueli knew he was jealous but she blinked as she intentionally put on an innocent look, "Yi? I'm just doing that out of consideration for you, the Young Sect Master, that's why I helped them with the distribution method! Don't tell me that you're afraid that the treasures would be snatched away by them and you won't be getting anything?"

Li Moying gave a cold harrumph as he stretched out his arm and brought her into his arms, lowering his head as he whispered into her ear.

"What does it matter if the treasures are all snatched away? What I hate is..... your attention being snatched away by them!"

Huang Yueli laughed out as she raised up her arms and hooked them around his neck, then tipping her toes, she leaned in close to the man and her pink lips was just less than an inch away from him as she whispered, "How could that be? In my heart, of course my future husband is the most important..... If they weren't disciples from your Sect, I can't even be bothered!"

### **Chapter 1457: Ample rapport (6)**

The young lady in her arms put on an evident smile which was out to please him as her lips curled up slightly and her fair little face seemed especially alluring and tempting.

Li Moying's gaze darkened as he ferociously tightened his arm, bringing her petite stature in a circle as she fell into his arms, then lowering his head, he plundered the tender pink in front of his eyes.

Their breathes were linked and were harmoniously blended together.

As they knew that the occasion wasn't right, so Li Moying didn't kissed her too deeply, only exchanging a gentle and lingering light kiss.

Not long after, he released the young lady in his arms, his expression apparently relaxed by quite a bit.

Huang Yueli's face flushed with a shade of red as she subconsciously gazed to her left and right, putting on a guilty look.

What place was this and this man just kissed her upon disagreement. If the others were to see them, how embarrassing would that be.....

Luckily everyone was too impatient to go search for the treasures so no one would be so free to specially notice the duo who were hiding in the corner. There wasn't even a passer-by in sight around the surroundings.

Li Moying saw her bashful look as his mood really lifted up as he said, "Alright, where shall we do now? Isn't Grandmaster Huang going to bring me to seek treasure?"

Huang Yueli intentionally replied, "I've already distributed all the treasures out, so there's none for you left!"

Li Moying's brows rose as he smiled, "Still trying to bluff me? It's not my first time on an experience learning trip with you. Since when would a little money grubber like you be so kind hearted? The best things are definitely left for yourself, isn't that so?"

Huang Yueli gave a humpf, "Those are meant for me, not for you!"

Li Moying totally didn't mind what she said as he continued smiling, "Isn't yours mine as well? In our home, the wife calls the shots so the treasures will naturally be managed by you. As long as you occasionally give me some pocket money, after all surely you won't want to see your husband die of hunger right?"

Huang Yueli rolled her eyes at him coquettishly, "You make it sound as though I've always been mistreating you! As though I've never shared anything with you!"

Even during her past life, the best piece of Profound Armament which she refined was not her Belle under the Moon but was the Clear Sky Dark Clouds Sword which she had specially refined for Mu Chengying then. As she had almost exhausted all of her blood essence and Profound Energy after refining that sword, she had to recuperate for a year plus before she recuperated to her peak.

Speaking of that, she had really not accepted too much money from this man and instead, lost money by wasting a lot of ninth grade materials on it!

Recalling this, she must have really liked him a lot then? Otherwise she totally could not imagine that she would do such a losing business!

Li Moying knew this very clearly so he eagerly leaned close to her, “Yes, yes, yes, my wife treats me the best!”

“Don’t you talk rubbish, who is your wife, we’re not even married yet!” Huang Yueli complained.

Li Moying laughed, “Sooner or later you’d be mine.”

This overbearing declaration had exchanged for two white eyeballs without any accident.

Li Moting’s guess wasn’t wrong. Huang Yueli had indeed carefully observed the cave dwelling’s layout and knew the location of where the rare treasure could possibly be located.

This was not entirely based on Profound Energy or soul trace, but based on her expertise as a ninth rank Armament Master. In order to guarantee the cave dwelling’s safety and nature of concealment, the distribution of the layout and structure of the mechanisms in the cave were extremely meticulous so only she alone was able to find out the exact situation in the first moment.

Li Moying’s cultivation was much higher than hers but in this aspect, he totally could not be comparable to her at all.

### **Chapter 1458: Li Moying’s thunder attribute (1)**

Huang Yueli was in the front leading the way while Li Moying followed behind her closely.

The both of them walked past the front courtyard and towards the back of the corridor, finally stopping in the front of an extremely ordinary room door.

After Huang Yueli stopped, her face revealed a grave expression.

“If I’m not wrong, the bright ray which was caused by that rare treasure should be in this room.”

Li Moying couldn’t help but frowned, “But even if it’s me, just standing here now, I also can’t sense the situation inside the room.....”

Senses towards treasures were mainly related to soul trace and Li Moying’s soul trace was extremely powerful. By right they were just separated by a thin wooden door so it shouldn’t be possible that he couldn’t sense the rare treasure inside.

Huang Yueli’s expression turned even graver, “But the entire cave dwelling’s best spiritual spot is right here. In order to maintain the array outside the cave dwelling from operating normally, an important

treasure must be placed inside so that it can maintain the entire array's Profound Energy balance. If even you can't sense it...."

Her slender brows creased slightly, "That could only mean that this room has been set up with an extremely powerful invisible array. Either.... This room's rare treasure itself had the attribute of concealing itself. But if it's the latter, then things will be rather difficult to handle...."

Ordinary treasures naturally couldn't conceal itself. The higher grade the treasure, the more powerful imposing manner it would emit and even if it was a distance far, far away, one would still be able to sense it.

In order to conceal it, it would entirely depend on the various methods which the treasure's Master had exerted.

If a piece of treasure was actually able to conceal its own presence, that would only meant that this piece of treasure had already developed its own spiritual nature which meant that the rare treasure in this room was at least a half God relic!

Li Moying stared at her little face as he asked, "Then what should we do?"

"No choice, now that we're unable to use our soul trace to sense the interior, we can only attempt to decode the entrance's mechanisms and array to first open the door and then check out the situation inside. As usual, I'll be responsible for opening the door and you're responsible for protecting me." Huang Yueli raised her head as her gaze met the man's sight.

Li Moying nodded in head in seriousness, "Rest assured, I'll protect you well."

Hearing this man's words always made her feel assured.

Huang Yueli revealed a smile as she hurriedly coughed to hide it.

"Alright, then I'll start!"

The minute she finished her words, her expression immediately turned solemn as her gazes were slightly congealed while she concentrated fully.

Her right hand rose up and drew out an incantation gesture in mid-air as her fingers turned and flew, throwing it out towards the middle of that room's door.

Immediately following that, strokes after strokes of incantation gestures were like flowing water as it went on continuously. Her footsteps also kept on changing along with the variations, coordinating with the movements on her hand.

Her sleeves fluttered as she maintained an elegant and calm pose, as though she was dancing.

Li Moying stood behind her on her right as his eyes were fixated on her dancing figure, his gaze profound yet calm.

His Li'er was indeed very beautiful. Just looking at her decoding the mechanisms was indeed an eye candy, making him unable to shift his eyes away.

But he also knew clearly that all these were just a presentation only. Huang Yueli wasn't really dancing but executing an extremely dangerous mission.

### **Chapter 1459: Li Moying's thunder attribute (2)**

Although on the surface it looked easy without any effort.

But in reality, it just took one wrong step and the mechanisms and arrays would be activated immediately. What happened to Green Cloud Sect earlier would occur to them as well!

Furthermore, there were only the two of them and the room in front of them was specially used to store the rare treasure so the array's might could only be strong! Moreover, extremely strong!

Huang Yueli herself was the array decoder and the risk she had to take on was the largest. If anything were to happen, she would be the first to face the music, suffering a serious backlash!

So she could not afford to make any mistake.

Li Moying knew that his little fiancée excelled in this aspect but he still wasn't at ease and he had been cautious and anxious all the while.

Even if Huang Yueli had usually easily succeeded ten thousand times but it just needed that one failure for her to be heavily injured and that was something which he couldn't afford to happen.

Luckily, Huang Yueli's decoding process this time round was extremely smooth and no accidents of any sort had happened.

She had struck out several incantation gestures consecutively and plotted out the array patterns. After one hour later, the Profound Energy fluctuations on her had evidently become weaker. Apparently with her fifth stage realm cultivation, she wasn't able to take on the exhaustion liability of decoding this kind of advanced array.

But at the same time, the array's intensity was slowly becoming weaker as it became less threatening gradually.

Finally, after a flash of ray shot past, the room door suddenly opened up without any breeze.

Huang Yueli heaved a sigh of relief, "That's great, it's finally open. This array is simply too complicated, I'm so tired.... Ah!"

Her eyes abruptly turned wide while she was talking halfway. Visit on our [vipnovel.com](http://vipnovel.com)

A blue purplish lightning suddenly zipped out from the room and with lightning fast speed, it seemed like a bolt of flash as it suddenly charged towards her.

But Li Moying's reaction was even faster.

Just at the instance when the blue light appeared, he had already grabbed the Amethyst Light Sword with his backhand while the other hooked around Huang Yueli's waist, pulling her back and throwing her to one side.

As the situation was pretty urgent, Li Moying's actions seemed rather rough.

Huang Yueli was thrown aside by him as she almost fell down. She stumbled for several steps before she forcibly steadied her body.

She hurriedly turned back to take a look and upon one gaze, she gave off a shocked expression.

That bolt of purple light that zipped out ferociously from the room had turned into a huge virtual image in the middle of the courtyard, reflecting a magical beast's state.

This magical beast was several feet tall and its eyes gave off a lightning kind of eye piercing lightning ray as the scales on its entire body gave off a dazzling yet cold phosphorescent glow, making it look exceptionally dangerous.

"This is... the Qilin Spiritual Beast??"

Huang Yueli was overwhelmed with amazement as her face changed colours. The first time she recalled was when they first activated the Cloudy Qilin Mystic Region, they had seen the totem of a Qilin spiritual beast on the empty grounds at the mystic region's entrance.

Whereas this, was exactly the same as the carving which they had seen earlier.

Huang Yueli's face turned pale as the imposing manner which was emitted from this Qilin had already reached the grade of a matured spiritual beast.

Just as she was in a daze, Li Moying had already started to engage in a battle with this Qilin.

His peerlessly handsome face was even colder than usual as his gaze was deep set and grave. His Profound Energy had entirely been adjusted as it kept on taking in the thunder attribute profound energy from several miles within the radius, gathering towards his body.

### **Chapter 1460: Li Moying's thunder attribute (3)**

Momentarily, the entire courtyard was filled with invasive thunder attributed profound qi.

A spiritual beast Qilin, adding on to the suppression of Li Moying's profound energy gathered in this small space and the feeling of suppression was something which was indescribable with mere words!

Even Huang Yueli was starting to not be able to take it as her complexion slowly turned pale as her chest started to throb with a dull pain.

But she wasn't willing to retreat nor could she leave this place because Li Moying was still engaged in the battle with the virtual image of the Qilin so she absolutely would not retreat alone.

But in order not to drag Li Moying down, she hid herself behind a pillar and worked up her cultivation method trying to resist against that one man and one beast's suppression while concentrating fully on the battle, hoping to get a chance to aid Li Moying.

Just as this moment, Qilin raised up its huge paw and an extremely severe lightning struck towards Li Moying.

That lightning was extremely thin and it looked like a glowing embroidery needle but it was exceptionally bright, so bright that just another look more at it would result in instant blindness.

Huang Yueli anxiously widened her eyes because based on her experience, she naturally could tell that this bolt of lightning had not become so thin because it was weak. But rather it was because all the profound energy was compressed within such a small space hence the minute one was struck, the consequences would be dire.

Even for a genius like Li Moying would probably be heavily injured.

The courtyard's space was really too small and Li Moying wasn't able to evade in time so he could only raise his sword to meet it but as the distance between both party's profound energy wasn't very huge, he was still sent flying as his body crashed against the wall. That bolt of lightning struck his chest directly and entered his body.

Huang Yueli was so shocked that she immediately jumped up. Such a powerful thunder attributed profound energy directly entering his body, how would that do? If something bad was to happen, his internal organs and meridians would be scorched until it broke up into inches.

She clenched her teeth as she immediately wanted to rush over to help.

But just at this moment, the surroundings of Li Moying's body appeared a layer of faint purplish light, enveloping him right in the middle.

Li Moying who should have been coughing up blood from the serious injury did not show any pain on his face. On the contrary, he gave an astonished and shocked expression.

He stretched out his hand to cover the chest area where he was struck and couldn't help but went into a blank.

Just as this moment the Qilin immediately pursued over as it continued to make its moves.

Huang Yueli had already dashed out by half a footstep when she suddenly stopped. Looking at Li Moying's lively looks, it seemed that... he was alright? What was going on?

Just within this short moment, Li Moying and the spiritual beast Qilin had changed several rounds.

Li Moying's senses were originally grave but as time went by, he was dealing with it with much ease.

Huang Yueli was also very anxious right from the start and she slowly started to calm down, at the same time she was able to tell that something was not right.

Ancient spiritual beasts each led in their own regions and all the spiritual beasts had attributes.

For example Huang Yueli's little phoenix was of the fire attribute so apparently this Qilin's virtual image was of thunder attribute.

Extremely coincidentally, Li Moying was also of the thunder attribute.

Among the same kind of attributed practitioners, as they could mutually take in part of the other party's profound energy, so the damage they could cause was normally much lower as compared to normal circumstances.

Moreover, under the circumstances where their cultivations were close, the one who gained victory would normally not be the one who had a stronger cultivation but.... the one who was more outstanding in terms of attribute innate talent!
