### **Chapter 1471: Something seemed to have happened (2)**

After verifying that nothing valuable was left, the both of them left the secret room.

There were at least a hundred and eighty rooms in the cave dwelling but Li Moying and Huang Yueli were people with extremely high sights so after they ransacked the most valuable treasures in the room, they weren't interested in the leftovers and couldn't be bothered to waste any time to enter room by room to check.

The minute they reached the cave dwelling's entrance, Huang Yueli effortlessly activated the array as the both of them walked out together.

Outside the cave dwelling, there was no sight of Green Cloud Sect's disciples anywhere. Thinking of it, it seemed that they knew they had no more chances to enter so they had all dispersed.

"Alright, now where shall we go?" Huang Yueli turned her head back as she asked.

Li Moying thought for a moment before replying, "We've basically taken a look at the eastern part of the mystic region so why not.... Let's go for a tour around the west side."

Huang Yueli had no objections and the both of them set off towards the west side of the mystic region.

...

Seven days later.

Seven to eight eye piercing light rays flashed past in the sky and a seventh tier Blood Feather Eagle was struck consecutively by the light rays, giving out a miserable shriek in mid-air as it fell head first onto the ground.

Huang Yueli kept applauding, "Moying, you're just too amazing! Too handsome and suave! Now can I go and dig my ores?"

Li Moying nodded, "There shouldn't be any danger so come on over."

Huang Yueli hurriedly ran over as she retrieved some tools from her space and started scrapping on the mountain wall.

At this moment, a bright white light flashed across the sky from a distance away. The white ray disappeared in an instance but the area where the white light had appeared caused streams of uninterrupted white smoke.

When Li Moying saw this, his body immediately turned stiff.

"Li'er, something seemed to have happened..."

Huang Yueli's back was facing him and she had not noticed the white ray flashing by as she turned her head back in astonishment when she heard that, "What's the matter?"

Li Moying pointed to a distance far away, "Did you see that? That's Celestial Light Sect's flare signal! Further from the colour of it, it seems to be Jiyun's flare signal! He must have met a life and death crisis!"

Before entering the Cloudy Qilin Mystic Region, Sect Master Murong had given each direct disciple a piece of signal flare. It was given so that if they met with a life and death crisis in the mystic region, they could ask for timely help from their same sect members.

But Huang Yueli always had her suspicions regarding the usefulness of this kind of signal flares.

Because if they were to meet with danger, it would be pretty good if their same sect disciples didn't try to scheme that person, so how many of them would risk their lives to save another person? Moreover to waste their time seeking for opportunities in the mystic region?

Even Huang Yueli herself would not go save someone who wasn't related to her.

So every since entering this place, Huang Yueli had specially collected the signal flares from Mo Yi and the rest of the practitioners whom she was closer with, remodified it and redistributed it back to them.

Those signal flares which had been remodified by her, when lit, would be different from ordinary signal flares. By the smoke, they could easily differentiate who was the owner of the signal flare.

Huang Yeuli followed the direction of Li Moying's finger and her expression changed immediately, "That's right, it is indeed Junior Brother Luo! What on earth has happened to him?"

Li Moying replied, "Jiyun had set his heart on experience learning properly. If it wasn't some life threatening situation, he wouldn't light up the signal flare easily. Looks like his situation is precarious so I must immediately head over now!"

Huang Yueli nodded her head, "Alright, the matter cannot be delayed any further, let's head over now!"

Li Moying heard that and his footsteps halted, "You're going along with me?"

### **Chapter 1472: Something seemed to have happened (3)**

Huang Yueli casted a glance at him, feeling that what he asked was redundant.

"Of course, don't tell me you want to leave me behind?"

Li Moying replied hesitantly, "I... of course I don't want to leave you behind. But a place which could leave Jiyun in a life threatening situation might be dangerous, so I'm worried...."

Huang Yueli raised her chin up as she replied unhappily, "Stop looking down on me! My ability is much stronger than Luo Jiyun! Moreover, I'm worried too. The more dangerous the place is, the more I cannot let you go alone! With such a high levelled Armament Master like me following you to battle, you should just feel glad about it! Alright, stop with the crap, do you wish to save Junior Brother Luo or not!"

Li Moying looked at her deeply in the eye.

Even though his heart was extremely unwilling but he knew that he could not stop her.

“Forget it, so be it if you must tag along. But, if there’s danger.... Forget it. Treat as though I didn’t say anything, let’s go!”

Li Moying originally wanted to tell her that if there was any danger, she should run off first but thinking that saying these were useless because there would be no way that young lass would run off first, so he might as well swallow back his words.

Huang Yueli’s lips curled upwards as she left alongside him.

The direction of the white smoke spiralling was on the other end of the Cloudy Qilin Mystic Region.

The two of them raced for the entire journey and the more they raced, the stranger they felt. Because Luo Jiyun’s position was much further than they thought and it was extremely close to the centre region of the Cloudy Qilin Mystic Region.

“Strange, why would Junior Brother Luo run off to such a central area? Hadn’t Sect Master Murong already reminded everyone before entering the mystic region that the more central the location is, the more dangerous it gets! Doesn’t he know his own ability? He still dared to run off everywhere?” Huang Yueli frowned.

Li Moying’s expression slowly turned grave, “This fellow.... He’s really too reckless! Perhaps he really ran into some huge trouble this time round! Don’t run off so quickly, follow right behind me!”

Huang Yueli knew her own limits and when she heard that, she slowed down her speed, letting Li Moying go ahead of her.

Li Moying became exceptionally cautious as he stopped speeding head first, but carefully observed the surrounding terrain.

The two of them ran for another twenty over miles.

Huang Yueli suddenly cried out, “Look! There’s the remains of a signal flare on the ground. That must have been left behind by Junior Brother Luo, he should have let out this signal flare from this area!”

Li Moying walked up quickly as he picked up the external shell of the signal flare then looking around everywhere.

There was no sight of Luo Jiyun anywhere.

But, he quickly noticed markings of a fight on the ground.

His pitch black brows creased together, “What on earth is going on? Jiyun was in a battle and let out the signal flare but in the end, he’s not here?”

Huang Yueli also pointed to those markings as she said, “The battle that happened here must have been extremely intense. Look at those big trees on the ground. The tree trunks are so thick but yet a lot of these trees have fallen onto the ground. There are many disoriented footprints on the ground and so much blood has been spilled.... Junior Brother Luo is probably heavily injured!”

Li Moying apparently understood this as well as his heart felt exceptionally heavy.

Among so many Junior Brothers and Junior Sisters, his relationship with Luo Jiyun was the deepest.

Because Luo Jiyun's character had been the most naïve and his guts had always been the smallest. Since young he was always bullied by Murong Ni and the rest so Li Moying personally guided him a lot, forcing him to grow up slowly.

In Li Moying's heart, Luo Jiyun was no different from his own biological little brother.

#### **Chapter 1473: Something seemed to have happened (4)**

Now, Luo Jiyun had met with danger and his life and death was unknown which really made him extremely worried.

But although he was worried, his rationality had not vanished.

Li Moying's character was normally cold and stern so no matter what kind of situation he encountered, he was always able to maintain his calm. It would usually be matters concerning Huang Yueli's safety which would make him lose control.

Right now, he observed the situation around him and very quickly he came out with a conclusion.

"The blood stains on the ground aren't only Jiyun's. Those blood stains over there are obviously left behind from magical beasts. Looks like Jiyun had provoked a high levelled magical beast! They should have ran off towards the east side, so let's head over to have a look! Follow me closely!"

Li Moying pointed to the east side, indicating Huang Yueli to chase up to his steps.

Although he was worried about Huang Yueli taking the risk with him but the both of them had already reached this place hence leaving Huang Yueli at this place where the high levelled magical beast had been before, it was definitely not safe so it was much better to leave her beside him!

The two of them walked one after another following the blood stains as they chased over.

Huang Yueli utilised her Agility Dance Steps, following tightly behind Li Moying as her slender brows creased slightly.

She didn't know why that there was an ominous premonition in her heart but somehow there seemed to be someone who was watching them.

But every time she returned, she didn't see anyone but didn't know if it was her misperception.

But at the very least, they had continued to head towards the east as they entered the Cloudy Qilin Mystic Region's central region's boundary..... heading in further would be even more dangerous.

Luo Jiyun was just too unreliable! He had actually not chosen his path properly while he was panicky. Based on his cultivation, dashing into the central region would really be asking for death!

Moreover, as the two of them kept moving into the central region, the surrounding environment had undergone changes.

The trees around the surroundings were getting lesser and lesser, but even if there was, it was just a few shrubs which didn't have much leaves.

A strange smoke started to condense in the air as their visions became more and more blurry. The situation outside one hundred meters couldn't be seen clearly anymore.

Huang Yueli finally couldn't help but tugged Li Moying, "Moying, the situation here is quite abnormal, are we really going to continue probing inside?"

Li Moying's footsteps took a halt as he frowned, "The footsteps which Jiyun left behind are headed all the way east and the blood stains left behind are more and more obvious, which means that his blood stains are even more serious. If we can't find him before tomorrow, it would absolutely bode ill for him!"

Huang Yueli said, "But if we continue heading inside, we will really be entering the central region. Each mystic region's central region is extremely dangerous, so based on our current ability, we must be extremely careful before proceeding!"

Li Moying turned his head back and grabbed her hands gently, "I understand! But from the blood stains on the ground, Jiyun shouldn't have gone far, at most another few hundred meters or no, he would definitely have fallen down. He should be somewhere nearby. So we won't be entering too deep in."

Huang Yueli nodded her head.

Right at this moment, suddenly, a faintly indiscernible moan was heard.

Their spirits were instantly lifted.

"It's Jiyun! He's indeed around this area!"

"Quick! We have to hurry over and take a look!"

Li Moying and Huang Yueli exchanged glances and hastened their footsteps as they sped towards the direction of the sound.

...

What they didn't know were several pairs of eyes tightly fixed onto their backs, right behind them.

"Damn it, why did Bai Ruoli come over as well?" Leng Yi Feng couldn't help but frowned.

#### **Chapter 1474: Something seemed to have happened (5)**

The target who Leng Yi Feng wanted to target was Li Moying alone but he didn't want Huang Yueli to get seriously injured.

Although Huang Yueli had disgraced him in front of everyone right in front of the cave dwelling when she decoded the array, but in Leng Yi Feng's heart, the one who should die was Li Moying because it was this man who incited Huang Yueli!

As for Huang Yueli, she was so young, so beautiful and had outstanding innate talent so for such a talented young lady, she naturally wasn't in the wrong!

Not only did Leng Yi Feng feel that she wasn't in the wrong, he was even more smitten by her because of her Array Master innate talent.

They originally thought that Li Moying would know that the central region was dangerous and considering Huang Yueli's safety, she absolutely would not bring her along. In the end, whoever would have expected that the two of them actually appeared together at this place!

This made Leng Yi Feng feel flustered.

After all, his target this time was to get Li Moying dead and to get Huang Yueli into his hands, not to make her die!

If Huang Yueli got into an accident then the gains would not make up for the losses.

Li Lingchuan totally didn't couldn't be bothered about Huang Yueli's life or death but seeing Leng Yi Feng anxiety, he advised, "Can't you still tell? Li Moying brings Bai Ruoli along wherever he goes, so it's very normal for them to appear together. It's great in this way too. After we have finished dealing with Li Moying, you can show yourself and save her! This is the best chance to act as a hero to save the damsel in distress!"

Leng Yi Feng thought about it and replied, "Alright, I'll take your advice! But this Li Moying is really a piece of s\*\*\*! This is such a dangerous place and he still insisted on bringing Miss Bai along, he really doesn't know how to treasure her at all. How could he let her take this risk! Miss Bai is really too pitiful for following such a man! I must save her from the fire!"

As the two of them were discussing this, Murong Fei walked over from not too far away.

She lowered her voice as she said, "Alright, I've seen it with my own eyes that Fifth Senior Brother fell down from the cliff and everything had been arranged! After the matter is done, don't forget what you promised me!"

The two of them exchanged glances and hurriedly nodded as they patted their chests as a proof of guarantee.

"Relax, after they fall down from the cliff, Mister Leng will bring Miss Bai away! Then you can tell your Eldest Senior Brother that she's already dead. I guarantee that Li Moying won't be able to find Bai Ruoli and this secret would never be exposed so you can take advantage of this chance to win his heart!"

"That's right, haven't we agreed on this beforehand? Our motives are unanimous which is to separate the both of them forever! I want Bai Ruoli and you want Li Moying, to each our gains!"

After Leng Yi Feng and Li Lingchuan formed an alliance, in order to ensure the smoothness of the plan, so they made use of Murong Fei.

But they naturally weren't so silly to tell Murong Fei that their real motive was to kill Li Moying.

They had been cheating her, making her think that their motive was to bring Huang Yueli away. It was Murong Fei's wishful thinking that as long as Huang Yueli left, she would have a chance but she totally didn't think that she would be tricked by them.

Now hearing the two men's guarantee, she didn't suspect them as a smile finally appeared on her lips.

Hmpf, this little slut tried her best to tangle around Eldest Senior Brother, even using the trick of climbing up his bed to get engaged to him, but so what about it? Wasn't the person who had the last laugh still her, Murong Fei?

But wasn't Bai Ruoli's romance too prosperous? Even a young master from a large family like Leng Yi Feng, actually wanted to get her?

### **Chapter 1475: Saving a life (1)**

What was so good about that wretched lass?

Murong Fei thought about it hatefully and the more she thought, the more jealous she became!

Why was it that she had gained all the advantages!

Her innate talent was strong in every aspect and she was so beautiful. Not only Li Moying treated her with deep sentiments, even a respectable young master like Leng Yi Feng was intent on getting her.....

It really was an infuriating thing to compare between them!

Murong Fei's heart suddenly arose a thought: If only there wasn't a Bai Ruoli, if only she could completely disappear from this world.....

This thought sizzled and infested vigorously in her mind.

Moreover, this was a heavenly chance. The central region was such a dangerous place. She only needed to rig up a scam and she would be able to let this wretched lass die in this place!

If Leng Yi Feng were to bring Huang Yueli away, perhaps she might still return but if she really died..... then she would really not be able to fight with her!

The more Murong Fei thought, the more excited she got as she started to devise the evil plan in her mind....

Two men and one lady smiled while looking at each other and seemed as though they had derived an agreement.

But in actual fact, each of them harboured designs in their own hearts.

Right now, not too far away, a flash of fire light flashed across. Especially when several claps of thunder struck across the sky, it gave out a deafening sound as it made everyone jump up in fright.

"That's great, Li Moying seems like he's already hooked!"

"Quickly head over and take a look!"

The three of them carefully concealed themselves as they sneaked over.

...

Huang Yueli and Li Moying headed towards the direction where Luo Jiyun cried out, and after running for a few hundred meters, they suddenly stopped.

The two revealed a shocked expression on their faces.

Because right in front of them was a cliff!

As they were nearer to the central region, the surroundings were covered by the fog and they were totally unable to see far away so they had not noticed this earlier.

The angle of the cliff was practically vertical without any slopes so it was imaginable that if they fell down, they would directly fall into the depths of the valley.

What made one even more uneasy was due to the fog, they could only see the situation several hundred meters below. It was evident that the depth of the cliff was not a mere hundred meters. How deep it was below was totally unforeseeable, hence there was no way to make any useful judgement on the condition of the cliff below.

When Li Moying saw this scenario, he frowned and shouted towards the bottom of the cliff, "Fifth Junior Brother, are you below? If you are, make a sound to let me know!"

He had just said finished when a joyous voice was heard from below, "El... Eldest Senior Brother, it's... it's really you!"

Luo Jiyun sounded very weak so his voice was breathless but this bit of voice to a practitioner was enough.

Li Moying and Huang Yueli heaved a sigh of relief because this voice sounded not too far away from them. It seemed that Luo Jiyun had not really fallen into the bottom of the valley.

Li Moying asked again, "How is your current situation? What position are you in? Speak clearly so that we can save you!"

Luo Jiyun panted while he talked, "I... I fell down from the other end of the mountain path. Earlier I was pursued by a seventh tier magical beast and didn't see the road in front clearly so I rolled down directly. Luckily for me, there was a large piece of rock by the time and it blocked my fall so... so I managed to retain my life. But... But my lower body is stuck in the rock totally immovable.... However I... I have no way to climb up."

Li Moying replied immediately, "You don't need to worry, I'll bring you up!"

### **Chapter 1476: Saving a life (2)**

Li Moying turned his head and took a glance at Huang Yueli, "Li'er, I'm heading down to take a look at the situation, you stay above."

Huang Yueli nodded her head as she drew out a coil of rope from the Sky Phoenix Ring and said, "I refined this coil of Immortal Binding Rope some time ago. It is refined using thousand year old Fiery Spider Thread and cannot be severed by Profound Weapons which are fifth tier and below. Bind it around your waist before you go down, so if you meet with any trouble, I can try to find a way to pull you up."

Li Moying smiled as he said, "Alright, then I'll head down right now."

Huang Yueli tied one end of the Immortal Binding Rope to a tall old tree and later stood at the front of the cliff as she watched the coil of rope untangled slowly, as it slipped down the cliff along the way.

Although the fog was so huge that she could no longer see Li Moying's figure but she could still see from the tautness of the rope to figure out how deep he had gone.

Huang Yueli's eyes were fixed on the rope when suddenly, an uneasy and confused feeling became more evident in her heart.....

Her premonition had always been accurate and she wouldn't get uneasy for no reason.

Could it be that Li Moying would get into an accident?

...

Li Moying hung on to the cliff as he went straight down. After descending for one kilometre or so, he finally caught sight of Luo Jiyun.

He was indeed in the exact situation as what he had described, stuck in between two pieces of rocks, just short of falling down.

Luckily these two rocks were huge and looked rather stable which had impacted Luo Jiyun's descent allowing him to preserve his life.

Although this was so, but Luo Jiyun's condition was extremely bad.

There were all sorts of injuries and wounds on him and his blood kept spurting outwards, staining his clothes entirely red. As he had lost too much blood, his complexion had turned extremely pale, especially his lips which had turned white, looking no different from a ghost.

Furthermore, the worst of all was that Li Moying could sense that the fluctuations of Luo Jiyun's Profound Energy was extremely unstable. This was the initial sign of heavily injured meridians and furthermore his cultivation had drastically dropped, descending by a total of two small realms.

This was a perilous situation and if he wasn't able to save him out in time, and to get on with treatment to treat the damages on his meridians, it might have a detrimental effect towards Luo Jiyun's future cultivation.

When Luo Jiyun saw Li Moying, he was so agitated that he cried out.

He choked as he called, "Eldest Senior Brother... you... you really came to save me!"

Frankly speaking, when Luo Jiyun was stuck in mid-air, he had already been waiting for four hours and in his heart, he had already lost all hope.

Although the signal bomb was thrown out, but he really didn't have any hope that Li Moying would really make it in time to save him.

After all he had not chosen the proper path this time while he was in a panic and accidentally barged into the central region of the mystic region, and he had entered in too deeply!

To meet with danger in such a place was like destined to be a goner. Even if it was Li Moying, if he took the risk to come save him, it would be more or less of a dead end.

Luo Jiyun was feeling regretful that he had thrown out the signal bomb because when Li Moying appeared, while he was feeling touched, he was also extremely worried that he would drag Li Moying down!

“Eldest Senior Brother, you... you shouldn’t have come... this is the central region of the Cloudy Qilin Mystic Region, it’s... it’s too dangerous! You... you’d better hurry on and leave!”

Li Moying’s expression sank, “What joke are you cracking? It was with great difficulty that I’ve finally reached this place, just to save you! You want me to leave just like that?”

### **Chapter 1477: Saving a life (3)**

“B... But....” Luo Jiyun lowered his head, “Even if you managed to save me, I... it’s difficult for me to leave by myself. My leg has already been broken into several pieces and my meridians are heavily injured so I can’t even summon up any Profound Energy, can’t.... can’t get up this cliff. This place is so far away from the peak and even if Eldest Senior Brother you, want to pull me up, it’s.... it’s almost impossible right?”

When Li Moying heard that, his brows rose and he secretly felt a little fortunate.

When he descended, he had not expected Luo Jiyun to be so seriously injured, not even able to work up any Profound Energy. If he had met with this sort of ad hoc situation, it really wasn’t easy to deal with at all.

Luckily he brought along Huang Yueli’s Immortal Binding Rope so things were much easier.

He didn’t say anything and Luo Jiyun misunderstood his intention, “Eldest Senior Brother, I know.... that this matter isn’t easy. You’d better go on up first, don’t stay around here, it’s really very dangerous! I can sense that below this cliff, there’s a horrifying existence of something and moreover.... Sometimes they would fly upwards. I... my life would be ending here anyway so Eldest Senior Brother, please don’t be dragged down by me....”

Li Moying frowned as he cut him off, “Alright, stop nagging. I said I can save you so there’s absolutely no problem! Why? Do you feel that your Senior Brother I don’t have the means to do so?”

Luo Jiyun hurriedly shook his head, “No, it’s not that... but....”

“Stop with the buts. Where are you stuck exactly, I’ll first think of a way to pull you out.” Li Moying said.

Luo Jiyun heard the resoluteness in his voice and he knew that once Li Moying had a decision, other than Huang Yueli, everyone else can forget about changing his mind.

He could only reply, “This stone on my chest is allowing me to remain stuck in between these two rocks. I don’t dare to move. If I move, this rock will nudge and if it falls, then I too will fall.”

Li Moying heard his description and without a change in his expression, he concentrated on sizing up the rock pile which was below Luo Jiyun.

Alas, the fog below the cliff was even thicker hence the sunlight totally didn't reflect this area hence it was especially dark. He and Luo Jiyun were only ten over meters apart but due to the angle and light, he was still unable to clearly see the situation at Luo Jiyun's side.

Li Moying's finger flicked and a light ray flew out from his fingertip as it went around the cliff wall and flew towards Luo Jiyun, revolving one round around his body as it illuminated the surroundings allowing Li Moying to borrow the light to check things out clearly.

When Luo Jiyun saw that, his expression changed immediately and cried out urgently, "Eldest Senior Brother, don't... quickly extinguish that light!"

Li Moying was stunned momentarily, "What?"

"Be... Below...."

Li Moying was just trying to comprehend the reason when he heard a roaring sound coming from the bottom of the cliff. Immediately a sinister looking magical beast came flying from below the rock, directly charging towards Li Moying's direction!

This magical beast was radiating a blue purplish glow entirely and its body was thin but it had a pair of huge wings which spread out to a total of ten over meters. Its two bronze bell eyes popped out from the side and looked extremely ugly.

Even Li Moying couldn't recognise what magical beast that was! Even with his experience from both lifetimes, he actually had not seen it before.

Whereas this magical beast apparently belonged to one with the thunder attribute. The minute it saw Li Moying release a small bundle of lightning, it immediately pounced upwards as it swallowed it into its tummy in one mouthful.

#### **Chapter 1478: Saving a life (4)**

Li Moying's thunder attribute Profound Energy was extremely pure and after the magical beast swallowed it down in one gulp, its eyes instantly appeared an expression which looked like it could have a sufficient meal.

The next moment, it turned towards Li Moying and its large eyes fixated on him, with an insatiable greed sizing him up, as though it was gauging what the taste of having him in its tummy would feel like.

Not long later, it seemed to have completed its evaluation as it suddenly charged towards Li Moying's direction!

Luo Jiyun was shocked by this strange and powerful high levelled magical beast that his soul almost flew out as he went stiff entirely; his back drenched in sweat but yet still unable to move, worried that this magical beast would fly into a rage and swallow him alive at the next moment.

Whoever knew that this magical beast totally didn't put its attention on him at all, instead it turned around and left.

Luo Jiyun had yet to heave a sigh of relief when he saw it pouncing towards Li Moying.

He cried out in inconsolable shock, “Eldest Senior Brother, be careful.....!”

However, the thunder attributed magical beast’s speed was shockingly fast like a bolt of lightning. Before Luo Jiyun had finished his words, it had already appeared right in front of Li Moying.

Li Moying’s eyes were slightly closed as his expression was chilly and there was no change in his expression, as though he had not sensed that austere energy which came charging towards him!

It was until the magical beast’s sharp beak was merely just an inch away before his wrist turned and suddenly struck out his sword!

The light amethyst sword was a half god relic and coordinated with Li Moying’s powerful thunder attributed innate talent, his destructive power was so strong that it was heaven defying. In just one strike, a dazzling thunder rainbow rushed up into the sky and instantly slashed into the magical beast’s huge body!

The magical beast was not able to evade in time and it’s right wing was slashed broken directly as blood started to spurt outwards.

“Ga Ga—!!!”

It gave out several husky and mournful miserable shrieks which hurt Li Moying and Luo Jiyun’s eardrums. At the same time, the heavily injured magical beast grew even more infuriated as it charged towards Li Moying without a care for anything else.

But alas, it was heavily injured in its prime state so now that it had sustained such a heavy injury, all the more it wasn’t his match. Li Moying struck out consecutively as he easily evaded its attacks.

Magical beast shrieked out miserably as it fell down to the bottom of the valley; its whereabouts unknown.

Luo Jiyun had been keeping an eye on the battle right from the start and his heart was just jumping behind his throat, worried that at the next moment, he would see Li Moying splayed with blood.

However, reality had surpassed his imagination. Li Moying had not spent too much effort and had defeated the magical beast, additionally giving it a fatal blow!

Heaven knew that this magical beast was at least seventh tier!

Seventh tiered magical beasts battle power was equivalent to a human’s eighth stage realm practitioner. Li Moying was merely in the seventh stage realm so this situation was equivalent to a cross realm battle.

In the end, he had not only won, but won so easily?? It seemed like it was just a matter of lifting his finger that easy. As though he had the ability to manage that magical beast even if it was stronger than him by several times.

What kind of situation was this??

He knew that his Eldest Senior Brother was strong, very strong, extremely strong.. but... but wasn’t this a little too heaven defying??

Luo Jiyun was still in a daze when Li Moying had already carefully stepped on the rocks and reached a place which was close to him.

“What daze are you still in? Let’s hurry and leave this place, give me your hand and I’ll pull you up.”

### **Chapter 1479: Saving a life (5)**

Luo Jiyun then recollected his senses as he lowered his head to take a look at those few pieces of stones which were holding him up, feeling uneasy about it.

“But, Eldest Senior Brother, I’m still worried.....”

“No need to worry, I’ve already checked out the situation on your side so relax. I can hold onto you, talk after you come up.”

Li Moying stretched out his arm and Luo Jiyun let go of his right hand which was grabbing onto the side of the rock fearfully, slowly stretching out his arm towards Li Moying.

Li Moying grabbed him and a powerful gust of Profound Energy surged in from Luo Jiyun’s arm’s meridians, instantly opening access to a few meridians which were blocked due to his heavy injury.

“AH——!!!” Luo Jiyun cried out in shock.

He only felt extreme pain from the overbearing Profound Energy which had invaded into his meridians as his entire body’s blood seemed as though it was burning. But at the same time, he sensed that his entire body was filled with energy and that abundance feeling of energy was something which he had never experienced even before he was injured.

This kind of pain and stimulated feeling was just too strange and Luo Jiyun suddenly felt a light and airy feeling.

Li Moying howled softly, “Cast away those few rocks and use your strength to step on those rocks at the bottom to climb up! Quick, this condition will not last too long otherwise your meridians will not be able to take it!”

It was after all an external force which was forcefully irrigated plus the fact that Luo Jiyun’s meridians were still severely injured, if time dragged on, his internal injuries would become much worse.

Luo Jiyun’s body shook as he hurriedly summoned up the Profound Energy in his body which Li Moying had injected, suddenly raising his power to shake away those few pieces of rocks which held him up!

In this way, his body lost support and fell down directly.

Luckily, Li Moying was holding on to him tightly from the top and Luo Jiyun followed the strength from his hand as he borrowed the strength from his feet to climb up the cliff!

“Clack clack.....”

His lower body had originally suffered a fracture and using strength forcefully right now was akin to using a file to rub in between his flesh and bones, causing Luo Jiyun in so much pain that he sweated profusely.

But he clenched on to his teeth tightly as he endured the pain and continued putting in strength.

Luckily the rock was rather stable so even if it endured both people's strength, it was still rock solid.

The two of them heaved a sigh of relief.

Luo Jiyun was drenched in sweat totally plus the bones on both his legs had broken into several parts, there was no way for him to stand up as he totally laid limp on the rock.

Li Moying checked on the injuries on his body gloomily as he retrieved several bottles of pills from his realm ring, casting it into Luo Jiyun's arms.

"Quickly take the medication. These pills, staunch bleeding and pain, grow flesh, replenish Profound Energy, everything's there. Take three pills per bottle right now! And the green ceramic bottle is external ointment, apply it on your wounds first. This fracture of yours is simply too serious so we can't treat it here. Take the medication first and after you feel a little better, we'll head up immediately and find a place to treat your injuries."

Luo Jiyun grabbed onto the bottle tightly and after he opened the bottle, his eyes opened up wide.

"These... these are all... sixth level medicinal pills!! Eldest Senior Brother, these... these are just too valuable? Sixth level medicinal pills! In our Sect, we need a huge, huge amount of contribution points before we can exchange for it and it's virtually impossible to auction for these without several hundred thousands of high grade spiritual stones in the auction house!"

### **Chapter 1480: Saving a life (6)**

Luo Jiyun's fingers were shaking as he looked at Li Moying in disbelief.

"Eldest Senior Brother, have you taken the wrong bottles? These are such valuable pills and you actually gave me the entire bottle??"

Li Moying threw an undisturbed glance at him, "Why talk so much rubbish when I ask you to eat? Sixth level medicinal pills take effect much faster so that you can hang on. Otherwise perhaps in the mid of the mountain, you might not be able to take it and faint. By then, how am I supposed to bring you away from here?"

"But... But....." Luo Jiyun was still flabbergasted as he looked at Li Moying in a dishevelled look.

He understood what Eldest Senior Brother said but... these were all sixth level medicinal pills!!

Li Moying couldn't help but shook his head as he said, "These pills are something which your Sister-in-law asked me to bring along for you. Don't hate to part with these because all she has on her mind is to save you. If you still feel bad about it, then after you go up, thank you personally. In future when I'm not around, help me protect her properly, that will do."

"Ah, these pills.... are from Sister-in-law? Armament Masters are just too rich!!"

Luo Jiyun's expression was filled with astonishment when he heard that the pills were from Huang Yueli. He was filled with envy and admiration towards her.

Eldest Senior Brother's fiancée was really... too powerful! She could even freely give out sixth level medicinal pills, just how rich was she!

In the past he felt that this young lass from South Yue Kingdom was unworthy of his Eldest Senior Brother but recently everything about her made him feel that his Eldest Senior Brother... seemed to have linked up with a wealthy woman?? That was one of the advantages of being handsome!

Li Moying felt his hair standing from his gaze and asked curiously, "What are you looking at me for? Still not going to take the pills quickly?"

Luo Jiyun was grazed by his chilly glance as he lowered his head guiltily and grabbed the pills, stuffing it into his mouth.

Sixth level medicinal pills indeed had outstanding effects. Not long after Luo Jiyun had swallowed it down, his complexion seemed to have taken a better turn and the pain from his body seemed to have lessened.

While waiting for him to recover, Li Moying's arms were crossed as he leaned against the cliff and questioned, "What on earth happened to you? I've obviously reminded you several times after entering the mystic region! The central region of the mystic region is the most dangerous part and even ninth stage realm top exponents aren't guaranteed to be able to leave safely. You're merely in the fifth stage realm so why did you run over here for? Don't you want to live anymore?"

Luo Jiyun was berated by him, feeling both self-reproach and guilt as he didn't dare to lift up his head.

"Eldest Senior Brother, it's my fault. Not only have I gotten myself into trouble, I've even caused trouble to you and Sister-in-law to come and save me... But the situation then was rather chaotic so I had no time to hesitate, just thinking of saving the person..."

"Save the person? Li Moying's brows rose in curiosity, "Save who?"

Luo Jiyun explained, "Right after I left the cave dwelling, I'd been searching for opportunities in the eastern region and later on, I met Third Senior Sister...."

Li Moying's brows uncontrollably creased together, "Murong Fei?"

Luo Jiyun nodded, "Third Senior Sister said that she had gotten a copy of a treasure map and knew that the place on the treasure map of a Cloudy Qilin Senior was not too far away. But if she headed there alone, she was worried that something might happen and so luckily she met me. So she wanted me to head over with her."

"So you went along with her?"

"Ughh, right. I had not thought about the location of the treasure map at that time. In the end as we walked, we reached an area which was very near the central region. I was worried that we would get into trouble after trying to barge in but Third Senior Sister comforted me that she had the treasure map and the surroundings were very safe...."
