

Weaponsmith 1511

Chapter 1511: Number one genius dies (2)

“Pui pui pui¹! What nonsense are you sprouting? How would Young Sect Master possibly have a mishap in a mere Cloudy Qilin Mystic Region? Even people like us are able to get here in one piece!”

“That might be hard to say. Young Sect Master’s cultivation is much higher than us, that’s for sure. But he would definitely go to more dangerous places to seek opportunities and the opportunities which he meets should be much more dangerous than what we can imagine so how would you know that he had not met with unexpected failure?”

This man’s words immediately raised the displeasure of all Celestial Light Sect’s disciples.

“Anyway it’s just not possible, Young Sect Master will definitely not get into a mishap!”

“That’s right, you crow-beak fellow, scam to one side. How dare you curse Young Sect Master!”

“Don’t you be too delighted. Based on what you said, why hasn’t your eldest disciple Leng Yi Feng appeared as well? Could he also have gotten into a mishap?”

The scene instantly escalated into a berating scene and that Green Cloud Sect disciple was scolded till he didn’t dare to make a single sound.

Amidst this chaos, under the tree shade, Luo Jiyun didn’t move at all while leaning against the tree trunk. Hearing the surrounding disturbances one after another, his expression was cold as he didn’t say a single word.

Ever since that matter that happened by the cliff, he seemed to have matured overnight.

The effect of the medicinal pills which Huang Yueli gave was very good. After taking it continuously for three days, his injuries had mostly recovered and at the very least, he didn’t lay limp on the ground and was able to move around.

He stayed by the cliff for a long period of time while keeping track of the various flames and lightning coming from the cliff below and also heard those miserable shrills from those magical beasts which were struck down.

He thought that Li Moying would be the same as before, suddenly appearing on the top of the cliff in one piece.

But time and days went by, the duo who had dropped down the cliff did not return eventually.

Luo Joyun tried to climb down the cliff to look for them but unfortunately he had barely reached the two hundred meters mark and almost died in the magical beasts mouths. After experiencing many near deaths, he finally made it back to the top of the cliff luckily.

He waited till the last day when the mystic region was going to be reactivated but Li Moying and Huang Yueli still hadn’t returned.

Furthermore, the cliff below stopped giving off various rays and he really couldn't tell if they had met with real danger or if they had left the place through other means.

Luo Jiyun refused to believe that top experts like Li Moying and Huang Yueli's kind of ability, wisdom and luck, they would die just because of a few villain's schemes.

Hence, he carried a sliver of hope, wishing that he would be able to see the duo's sudden appearance at the gathering point.

Perhaps there was some other route below the cliff and they might not have to climb up the cliff!

Alas, the final result was that it was all his own wishful thinking and he had been self-comforting himself. The gathering point was filled with people but the duo whom he wanted to meet was totally missing.

Following the mystic region's reactivation time nearing, Luo Jiyun's heart grew heavier and heavier.

Why did it turn out like this! Eldest Senior Brother was so powerful and Lil Sister-in-law was so intelligent! They had met with countless near death crisis but had been through it all. Why did they fall right here this time round??

Just as he was feeling incomparably guilty wishing that he could just throw himself at the wall to kill himself, suddenly a voice was heard from his right side.

"Mister Luo, I wonder if you've met my Master and Third Miss in the mystic region?"

Luo Jiyun raised his head and saw all Li Moying's Shadow Guards standing in front of him, all bearing an anxious expression.

His heart thumped wildly and the minute he opened his mouth, he discovered that his voice was extremely hoarse.

"This.... About this...."

Chapter 1512: Number one genius dies (3)

Mo Yi's hand gripped the handle of his sword which hung around his waist as he frowned and said, "Based on our Master and Third Miss' abilities, by right they wouldn't get into any trouble here. But they haven't appeared for such a long time so I really am worried over this! I heard that you, Master and some others had entered a cave dwelling together? Do you know where they went later on?"

Li Moying's Shadow Guards naturally were hundred percent confident towards their Master.

Others might underestimate Li Moying's ability but as his most trusted aides, how would they not know just how powerful was Li Moying? His innate talent seemed to not have a limit and no matter under what kind of situation, he was able to do something which other people thought was impossible!

That kind of power was something which no one could hope to surpass, only bowing down in reverence towards him.

So right from the start, even when those people were in discussions, Mo Yi and the rest didn't feel that there was anything to be worried about.

How could their Master ever get into any trouble? They had not appeared.... Probably because he was getting intimate with Third Miss and had forgotten the time.

But now that it was only left with a quarter of an hour to the time of activation of the entrance, there were still no signs of their whereabouts so it was just too ridiculous.

Shadow Guards couldn't sit still as they exchanged information only to discover that none of them had met Li Moying in the mystic region.

Out of desperation, they could only turn to Luo Jiyun for help.

Luo Jiyun was feeling frustrated, not knowing how to answer.

Just at this moment, another voice was heard, "That's right Master Luo. You indeed should explain properly and give us an explanation!"

Luo Jiyun turned his head around and saw Fang Shaoning's gloomy look, standing right next to him.

His brows creased, "Explanation? What explanation?"

Fang Shaoning said, "Ten days ago, a few of our Green Cloud Sect's disciples were near the central region and saw with their own eyes that you and Murong Fei were holding on to a drawing as you took the risk to enter the central region. Later on, my eldest senior brother and your sect's Li Lingchuan were together as they also went in. Later on, some others also saw Li Moying and Bai Ruoli barging in."

When Fang Shaoning said that, he immediately caused a bustle among the other disciples.

"Surely not right? So many sixth stage realm top experts and they all entered the central region!"

Before we entered the mystic region, hadn't Sect Master already instructed us not to enter the central region? Otherwise there is a high chance of not making it out. How would they even dare to enter that place?"

"Are you silly? These few people are the top talents in both Sects, hadn't you heard of the saying 'abled people are normally bold'?"

"But... that's the central region! I've heard that even ninth stage realm practitioners aren't guaranteed to be able to leave safely...."

"In that case, that person's guess earlier was true? Have they really.... Met with a mishap?"

The more Luo Jiyun heard their discussions, the uglier his expression got.

However Fang Shaoning kept on persisting in his questions, "Mister Luo, so many of them had entered the central region but you're the only one who had returned alive whereas the rest of them had all gone missing! Surely you need to give us an explanation on why the others have gone missing? Furthermore, among so many people there, only my eldest senior brother is a disciple of Green Cloud Sect. I have all the reasons to suspect that you Celestial Light Sect people have joint hands to do harm to him!"

Fang Shaoning's words were indeed provocative as Green Cloud Sect's disciples all crowded around when they heard that.

"That's right, something's fishy going on here!"

Chapter 1513: Number one genius dies (4)

"Luo Jiyun definitely knows something so we must make him say it out!"

"That's right, if anything were to happen to Senior Brother Leng, then we must make Celestial Light Sect pay the price for it!"

Celestial Light Sect's disciples were all feeling furious over this as they crowded around and started arguing with Green Cloud Sect's disciples.

"You'd better all scam further away! On what basis do you have to spill dirty water on our Celestial Light Sect's disciples? Is Leng Yi Feng the only one whose missing?"

"Even our Young Sect Master isn't out as well. Should we count this debt onto you Green Cloud Sect people?"

One couldn't blame them for being so agitated. If there were any losses, Celestial Light Sect would definitely be the side which resulted in severe damages. They had four top experts who had mysteriously gone missing, as compared to Green Cloud Sect's only top expert which was Leng Yi Feng!

Now, Fang Shaoning pushed the entire responsibility to Celestial Light Sect and the disciples totally couldn't agree to it.

Two Sect's disciples were arguing over this but Fang Shaoning totally ignored them, only starting intently at Luo Jiyun.

"Master Luo, what on earth is going on? You'd better explain this clearly! After all, your Celestial Light Sect has suffered quite a heavy damage as well so shouldn't you give your fellow disciples an explanation as well?"

Hearing that, everyone quietened down, all looking towards Luo Jiyun.

Luo Jiyun was originally feeling very frustrated and had no mood to say anything more. The minute he recalled that scenario, strong guilt and misery started to crush him completely!

But Fang Shaoning kept on chasing after him, asking and asking once and again making the anger in his heart grew wider and wider, as he simply could not endure it any further!

He raised his head sharply as he stared at Fang Shaoning deadly giving off a cold smile, "Alright, you insist on finding out the truth eh? Then I shall tell you!"

Luo Jiyun had been hanging his head low and not giving off any sound so Fang Shaoning thought that he was afraid of himself.

Now when the both of them exchanged glances, Luo Jiyun's look made everyone so shocked that they withdrew a breath of cold air!

His face had been stained with drops of blood and a large patch of muddy ash while his entire face was greyish green. His anxious and despondent look paired with his dark eye circles were deep and large, looking no different from a ghost. But unfortunately his eyes revealed a strange coldness, like a lone wolf on a patch of grassland who would take a bite at anyone who came up to him.

When Fang Shaoning saw him, his stance immediately weakened.

“You... what do you mean by this?”

Luo Jiyun laughed coldly, “You want to know the truth so I’ll tell you, as long as you don’t find it embarrassing! Your eldest senior brother hasn’t been harmed by our sect’s disciple. Instead he had colluded with Li Lingchuan and Murong Fei to set up this trap, just so that they could scheme and harm our Young Sect Master!”

When Fang Shaoning heard that, he totally refused to believe it.

“What you said is just too funny! How could my Eldest Senior Brother possibly mix around with Celestial Light Sect’s disciples? Then wouldn’t he become Green Cloud Sect’s traitor? Why did he need to do such a thing? It’s true that he and Li Moying had always been disagreeable but Young Sect Master Li’s ability is much higher than his. Moreover there doesn’t seem to be any deep set vengeance between the two of them so does it need to be like this?”

Luo Jiyun chuckled and swept him with a disdainful glance.

“You feel that it’s impossible? Of course there’s a reason for him to do this! It’s because he had taken an interest in Eldest Senior Brother’s fiancée Miss Bai! I think you probably don’t know about this right? Leng Yi Feng had already expressed his feelings to Miss Bai several times secretly, saying that his status is extremely valuable and he’s the descendant of Sky Emperor City’s Leng family. He asked her to ditch Eldest Senior Brother to be together with him! Regarding this matter, Mo Yi and the others can vouch for me!”

Chapter 1514: Number one genius dies (5)

“What? How is that possible? Stop slandering others! How could my senior brother even take interest... take interest in....”

Fang Shaoning expressed his disdain towards Huang Yueli but speaking about it halfway, he was unable to continue.

Huang Yueli’s innate talent and beauty was obvious. Even for a descendant from a large family like Leng Yi Feng, it wasn’t a strange matter for him to develop admiration towards her. Even for Fang Shaoning who was on the opposing team could not summon courage to speak blindly.

However, the last time at the arena stage when Leng Yi Feng specially came out to stop him from hurting Huang Yueli, it had already caused Fang Shaoning to be suspicious.....

This time round, Celestial Light Sect’s disciples were all rummaging with anger.

“Damn it! This is simply too shameless! Is he even worthy of our Junior Sister Bai? A toad lusting for a swan’s flesh!”

“How dare you belittle our Young Sect Master? Using your status to suppress us? Why don’t you compare between the two’s ability and innate talent? Really trash!”

Fang Shaoning’s expression flushed a pink shade of embarrassment but he quickly changed his tone, “Even if my senior brother took interest in Miss Bai, that doesn’t mean anything because Li Moying hadn’t even officially married her! Moreover speaking, how glorious is your Celestial Light Sect? Li Lingchuan and others are all disciples from Celestial Light Sect so how did he conspire with my senior brother to harm your sect’s Young Sect Master?”

Luo Jiyun’s face was filled with hostility, “Li Lingchuan this despicable man, isn’t it all because of the position of Young Sect Master? He thought that if he caused Eldest Senior Brother’s death, he would take over the position of Young Sect Master? Furthermore he even shamelessly colluded with Leng Yi Feng! Luckily they all got what they deserved and they’re all now probably all dead! But my pitiful Eldest Senior Brother and Miss Bai... they have been murdered these three few scums! They.... are really too pitiful.....”

As he was narrating, his nose suddenly felt a sourish sensation as his tears started to flow down.

Everyone at the scene all turned silent when they saw that.

Even Green Cloud Sect’s disciples couldn’t be bothered to argue but were all stunned by this explosive news till they weren’t able to react.

Li Moying.... really died?

That publicly known South Sky Region’s number one genius Li Moying, with overpowering innate talent which no one could surpass, he actually.... really died in Cloudy Qilin Mystic Region??

This matter sounded just too unfathomable! It was simply unimaginable!

After all, Li Moying was simply too strong. He had a well-known reputation among the younger generation in the Four Sky Regions!

There was even a rumour that even for the number one top expert in Soaring Heavens Continent Mu Chengying, his innate talent and speed in advancement in his younger days was not comparable to Li Moying’s.

This kind of genius would definitely become a leading character in Soaring Heavens Continent in future.

How could he have died silently in one mystic region’s training?

But this news actually came from Luo Jiyun’s mouth.

As Li Moying’s closest junior brother and a witness, the words that he said were extremely convincing which was unable to make anyone doubt it.....

It took a while before Fang Shaoning regained his senses as he burst out laughing.

“Ha ha ha ha, so interesting, it’s just too interesting! Li Moying actually died just like that? Isn’t he very amazing? Wasn’t he said to be able to battle someone beyond his stage realm, or even challenge an elementary ninth stage realm top expert? He actually died in the Cloudy Qilin Mystic Region?”

The shadow guards' expression changed and Mo Yi's hand kept trembling, almost unable to grab his sword. He walked up front and with a shaking voice, he continued interrogating, "Master Luo, are you absolutely.... absolutely certain?"

Chapter 1515: Number one genius dies (6)

Luo Jiyun didn't dare to look at Mo Yi directly as he lowered his head.

"I... I saw Murong Fei pushing down little Sister-in-law down the cliff with my own eyes and after that Eldest Senior Brother immediately jumped down after her."

When Mo Yi heard that, he heaved a sigh of relief, "If it's just jumping down the cliff, it shouldn't be life threatening. Master isn't an ordinary practitioner! He probably just couldn't find a way out."

Luo Jiyun however wasn't as optimistic as him as he clenched his teeth and said, "But the cliff below should be Cloudy Qilin Mystic Region's central region. I had been down there previously and three to four hundred meters down that cliff were numerous flying magical beasts. All of them are of sixth grade and above! They would also automatically attack those practitioners who intrude that place and it is an extremely dangerous and perilous place. The cliff below is filled with thick fog and it's practically impossible to see how deep it is, nor can you see the situation below. But one thing for sure is it is even more dangerous in the valley below."

Mo Yi then started to turn anxious as his brows creased together tightly.

The gathering point exploded with bustle as everyone was discussing Li Moying's disappearance.

Almost everyone was certain that Li Moying was probably dead.

"Our Sect Master had once said that if anyone was stuck in the central region, even a ninth stage realm practitioner was unable to get out! No matter how powerful Young Sect Master Li is, surely he's not comparable to a genuine ninth stage realm practitioner right?"

"That's right, furthermore even if it's not dead now, later when the mystic region closes up, he will have no way to leave the Cloudy Qilin Mystic Region....."

"That's right. In this way, he would no longer be known in the South Sky Region in future?"

Everyone sighed in sadness.

Fang Shaoning also stopped pursuing the whereabouts of Leng Yi Feng.

Having provoked Li Moying, Leng Yi Feng definitely did not meet with a good ending but to be able to wipe off Li Moying before he died, he was really not simple as well.....

Later when he left the mystic region, he only needed to report truthfully to his Sect Master.

Just as this moment, the ground suddenly shook violently as sand and stones flew while cracks started to appear on the ground.

After a short moment of confusion, someone cried out in joy, "Look quickly! The entrance to the mystic region has appeared! The designated timing has reached so it must be the Sect's Elders who are activating the mystic region from the outside! We can finally leave this place!"

Everyone lifted their heads and indeed saw a black entrance appearing by the side of the mystic region, exactly the same one as when they entered.

Many of them immediately heaved a long sigh of relief.

Although there were many opportunities in the mystic region and everyone had reaped some rewards, but it was simply too dangerous here!

Especially after the news of the unparalleled genius Li Moying who had gotten into trouble, all the more the others didn't want to continue staying in this place.

Anyway they have all gotten some treasures and it was simply great that they could leave this place as soon as possible!

Originally Celestial Light Sect's leader was Li Moying while Green Cloud Sect's leader was Leng Yi Feng. But now that these two people had gone missing, the situation instantly became messy and everyone was fighting to pass through the entrance to leave this place.

Green Cloud Sect's side was still alright because at least Fang Shaoning's words were still of use.

Celestial Light Sect was disoriented. They had a greater number of people and the only direct disciple whose status was slightly higher was Luo Jiyun and he was totally unable to maintain the order.

Mo Yi and the rest raised up their heads and after taking a look at the direction of the entrance, they suddenly seemed to have agreed on something together and turned around to walk away simultaneously.

Luo Jiyun immediately jumped up and chased after them while asking, "Wait, you guys... where are you guys heading off to?"

Chapter 1516: Cloudy Qilin Clan's secret (1)

Mo Yi's footstep paused but he didn't turn back.

"Master Luo, we will stay behind to save Master and Third Miss."

Luo Jiyun asked, "But... in this way, you will not be able to leave the Cloudy Qilin Mystic Region! Without both sect's Elders to activate the mystic region together, you have no chance to leave this place!"

Mo Yi sighed softly, "To tell the truth, I don't believe that Master would die just like that! You also haven't seen Master dying in front of you with your own eyes right? I believe Master is definitely alive but we're not sure what situation he had met with down the cliff so he should be trapped! At this point in time, how could we possibly leave just for our own safety? This is considered as betraying our Master!"

Even if there is a possibility, if Master is indeed in trouble, we cannot allow ourselves to live on alone. Not being able to protect our Master properly is originally our sin, so even if we die, we bear no grudges!"

"Master Luo, don't bother about us and leave the mystic region quickly! Don't miss the timing."

Saying that Mo Yi turned around and the few of them Shadow Guards all left swiftly.

Hearing that, Luo Jiyun stayed silent for a moment and suddenly started to chase after them.

“Wait a minute, Brother Mo Yi, I’ll go with you guys to save Eldest Senior Brother, I will not leave too!”

When Mo Yi heard that, he frowned, “Master Luo, you... you need not do that! We are Shadow Guards and Young Sect Master is our Master so we must stay behind. But you’re different. You have a great future before you and you need not be trapped in the mystic region because of Master. If Master manages to leave that place someday, seeing you here will not make him happy.”

Luo Jiyun anxiously said, “Brother Mo Yi, don’t stop me! Eldest Senior Brother met with danger this time round was all because he tried to save me! I had fallen into Murong Fei’s scheme hence I dragged Eldest Senior Brother and little Sister-in-law down! If I were to leave like this, my conscience would be pricked so I must follow you guys to save them!”

He had just finished his words when another voice was heard from his back.

“Me as well, I’ll go with you guys!” The person who said that was Yuan Zeyu.

Mo Yi was stunned, “You.....”

Yuan Zeyu appeared to be relaxed as he smiled, “I’m Third Miss’ men so surely it cannot only be Young Sect Master’s subordinates who stays behind only right?”

Mo Yi sized them up and prudently nodded.

“As long as you have all thought over this carefully and not regret it, then follow me!”

...

Below the cliff.

“These magical beasts have too much determination! They have been prowling in wait for three days and three nights and they still aren’t leaving?” Huang Yueli asked gloomily.

She and Li Moying were now inside a cave.

Yesterday after they descended at the bottom of the cliff, they immediately came under the pursuit of a group of magical beasts. While they were running wildly for their lives, they chanced upon a narrow passageway in between the mountains and hurriedly squeezed in only to discover that there was a cave inside. Furthermore the cave was rather huge.

Therefore the two of them started to split up their work.

Li Moying was in charge of blocking those magical beasts which pursued them to the front of the cave while Huang Yueli was responsible for setting up an invisibility and defence array in front of the cave’s entrance.

After the array was set up, the two of them heaved a sigh of relief.

The layout of the cave wasn’t bad at all and with this array, they only needed to ensure to change the magical beast core in the crux of the array and it would deflect a large portion of the attacks.

Occasionally when there were slightly incredible magical beasts which broke through the restraint, they would also be blocked by Li Moying.

But these magical beasts' determination had surpassed their imagination.

Originally they thought that they only needed to wait for several hours and the magical beasts would all disperse then they were able to leave this place.

But in the end, three days had passed and they were still trapped in the cave.

Chapter 1517: Cloudy Qilin Clan's secret (2)

"This can't continue on, we need to think of a way to leave this place as soon as possible...." Huang Yueli frowned.

Li Moying's expression was grave, "The designated activation date is left with only three days. If we're not able to leave here from the central region, then I'm afraid that we will be trapped in the Cloudy Qilin Mystic Region. By then if we want to leave this place, it'd be extremely difficult."

Huang Yueli said, "This is hard to do. It's easy for us to leave this cave but once we're out, if we're being chased so many magical beasts, how could we possibly find a way out? Furthermore....."

"Furthermore what?" Li Moying saw her keeping silent as he nudged her to continue.

"Furthermore this valley is shrouded with fog which doesn't dissipate all year round. And there are so many high levelled magical beasts which can swallow Profound Energy. This itself isn't very normal. Have you noticed that some magical beasts' ability in flying is very strong but when we're up on the cliff, no matter what Profound Skills we use, we did not attract any magical beast. But the minute we went down to a distance of one to two hundred meters, we'd be tangled.... That could only explain one problem."

Li Moying seemed to have understood something, "You're saying that this valley is actually enveloped by a large sized array?"

Huang Yueli blinked, "You can classify it as an array but this is not an ordinary array. It can directly change the valley's heaven and earth rule, even causing these magical beasts' nature to undergo changes. It's a major work of a sky high structure! Only ancient God Clans are able to do so."

Li Moying dropped his eyelids as he muttered softly, "In this way, Cloudy Qilin Clan was originally an important ancient clan and there are plenty of practitioners who have reached the God realm. It's not surprising for God grade's array masters to be able to set up with this kind of array."

"What you say is correct but in this way, we're in deep sh*t! If we still can't find a way to decode the array, then we probably would never be able to go out for eternity." Huang Yueli was feeling rather frustrated as her delicate face appeared to be a sign of melancholy.

Li Moying pacified her as he caressed her face while speaking in a deep voice, "Don't worry, we'll definitely be able to find a way out."

Huang Yueli rose her head and met with that pair of bewitching peach blossom eyes. In an instance, she seemed to be sucked into that pair of deep gaze as she nodded her head blankly.

Actually, she also knew that the difficulties placed in front of them now was simply unimaginable.

But with this man by her side saying such consoling words, she suddenly felt at ease, as though there was nothing to be terrified of.

Because they had been working hand in hand for so many years and experienced innumerable dangers, hadn't they all been through it successfully?

Huang Yueli proactively walked over as she leaned by Li Moying's side and hugged his arm.

Li Moying caressed her long black hair and analysed, "No wonder Leng Yi Feng and the others wanted to lure us over, looks like they definitely knew something was up. Sect Master Cui had already mentioned that they had transcribed a portion of the ancient manual hence discovering the location of the Cloudy Qilin Mystic Region. That ancient manual must have recorded all the matters related to the central region. If I had thought of this earlier, I should have searched Leng Yi Feng's realm ring before I jumped down. Perhaps we might find some information from there."

"Saying all these now are of no use, we....."

As Huang Yueli was talking, she suddenly stopped.

Li Moying lowered his head as he looked at her curiously.

Chapter 1518: Cloudy Qilin Clan's secret (3)

He saw Huang Yueli's gaze looking straight ahead to the right side, bearing a dazed look.

Li Moying hurriedly nudged her shoulder, "Li'er, are you alright?"

Huang Yueli then regained her senses and said, "Moying, take a look over there.... is there something over there?"

Li Moying followed the direction of her finger but unfortunately other than an entire piece of uneven wall, he totally couldn't see anything strange at all.

"Is there something?"

"There is! Of course there is!"

Huang Yueli jumped out of his arms as she swiftly walked over.

She stretched out her right hand and her slender fingers swiftly moved along seven to eight positions on the wall as she continuously pressed down hard on it.

Hearing a "click" sound, a burst of dust flew and a portion of the wall moved backwards to reveal a secret door.

Li Moying acted swiftly as he locked his little fiancée's waist and dragged her backwards.

Unfortunately, Huang Yueli was still choked by the dust which had fallen down onto her when the wall moved and kept coughing non stop.

Luckily, this secret door wasn't a mechanism armed with attack nature hence she had not suffered any injuries.

Li Moying gave her an angry stare, "Why are you not defensive at all? Just simply opening the door directly? What if there's a mechanism on the door? You'd definitely be hurt and I won't be able to save you in time!"

Huang Yueli didn't think much of it as she replied, "How is that possible? I'm the Armament Master here! Whether there's any mechanisms or not, surely I'd know right? I...."

She was originally speaking with confidence as everything she said had sense but after being glared at by Li Moying's upset gaze, she started to feel guilty as her voice also toned down.

This man's angry look was really a teeny wee bit frightening.... But how could he be so fierce towards her?

With this thinking in mind, she stared back at him righteously!

Li Moying had always been absolutely helpless towards his little fiancée who always acted pampered and arrogant so he could only shake his head as he walked forward, towards the secret door.

The entrance of the secret door was concealed by an entire patch of bluish purple light as the electricity flickered to the extent of the surrounding Heaven and Earth Profound Qi being affected, making one felt extremely suppressed.

Actually the entire central region was where the thunder attributed energy was at its strongest. It was denser than the outside world by at least ten times and to ordinary practitioners, it was something which would make them feel extremely unbearable.

If it wasn't for the fact that Huang Yueli and Li Moying had great innate talents in terms of the thunder attribute, they would probably not be able to last at this place for two hours and they would have suffered a serious internal injury.

But now right in front of this ray, the intensity of the thunder attribute increased yet again.

Even Huang Yueli was starting to feel uncomfortable as she frowned and started to retreat several steps.

Li Moying on the other hand, looked the same as he totally didn't feel anything uncomfortable about this.

He stood in front of the ray and asked, "Li'er, are you sure this secret door had no mechanism? This patch of ray doesn't look very normal...."

Huang Yueli looked over from afar and replied, "This basically is a kind of mechanism but not that type that you're thinking of. It merely filters the practitioners who can enter this place. Apparently, in order to enter this secret room, one must at least be a ninth stage realm thunder attributed practitioner. Other attributes are not able to enter, unless...."

Before she could finish up, she already saw Li Moying's foot stepping into it, without getting hurt at all.

Furthermore he even turned back his head and asked curiously, "Why aren't you continuing? Unless what?"

Huang Yueli's lips twitched, "Unless for an abnormal god grade thunder attributed genius like you!"

Chapter 1519: Cloudy Qilin Clan's secret (4)

She continued in exasperation, "Alright, as a man, stop being so naggy to keep on asking and asking and asking. Anyway this mechanism is of no threat to you so you'd better hurry on in to take a look. See if there's any clues in the secret room that can help us to leave this place!"

Li Moying looked at her angry face as his lips couldn't help but curled upwards.

His Li'er definitely wanted to have a look around the secret room but too bad... although she had ninth grade thunder attributed innate talent, but she wasn't able to enter so it was no wonder that she was feeling so gloomy.

But even if she put on an angry look, she was still so adorable.

Alright I'll head in first. Be obedient and wait here for me, don't run about." He instructed.

Huang Yueli gave a snort, "Isn't that gibberish? Where else can I run off to?"

Li Moying smiled as he turned around into the secret room.

Huang Yueli was waiting on the outside for quite some time and felt a little bored hence she got up to add security onto the array, changing the magical beasts cores which were almost depleted of energy.

This kind of defensive array which blocked out those magical beasts actually used up quite a huge amount of resources.

For them to keep the array on throughout the day and night needed a fresh batch of seventh grade magical beast cores every four hours. This was simply burning money and there were many ninth stage realm practitioners who did not have such capacity, hence they would naturally feel their hearts ache and their entire being ache as well as a huge headache!

But Huang Yueli herself was wealthy enough, not to mention that she had a fiancé who was at her beck and call, responsible for getting the magical beast cores hence there wasn't much reluctance in her at all.

After waiting for around two hours, Li Moying walked out from the secret room.

Huang Yueli immediately went up to him as she interrogated, "You're finally out! What's there in the secret room? Have you found any useful clues?"

Li Moying smiled and suddenly raised his hand and hung something around Huang Yueli's neck.

"This is for you, do you like it?"

Huang Yueli lowered her head to take a look and her eyes immediately grew wide with joy.

Li Moying had given her an impressively carved jade made out of a piece of rainbow spirit crystal. Furthermore the lustre was exceptional, more crystal clear than those seven pieces which existed in Soaring Heavens Continents. She could also clearly sensed the unmatched powerful energy which was contained inside!

She stretched out her hand to touch this rainbow spirit crystal pendant as she simply loved it so much that she couldn't bear to part with it, "It's so pretty! Did you find it in the secret room?"

Li Moying nodded, "There are a lot of thunder attributed Profound Artifacts and cultivation methods and also some medicinal pills. But only this, I guessed that you'd like it very much. In the past didn't you always hope to have one?"

Huang Yueli's smile was radiant.

In her past life, she had always wanted a piece of rainbow spirit crystal and Mu Chengying had risked his life to get one for her but she's not expecting him to still remember this in this lifetime.....

"Unfortunately, I wonder if that piece in my past life had exploded along with my self-explosion. Even if it hadn't, it's probably impossible to find it back now... but, this piece is much prettier! Thank you darling."

Saying that she tipped her toes up and swiftly gave Li Moying a peck on his cheek.

Li Moying went into a blank and had an overwhelmed look on his face, apparently not expecting his pampered and arrogant little fiancée to automatically throw herself into his arms!

However, before he could even reminisce properly, Huang Yueli had already retreated backwards and at the same time asking, "Other than Profound Armaments and whatever, there's nothing else?"

Li Moying then regained his senses but he no longer could catch her as he replied helplessly, "This secret room seemed to be a temporary home for some senior from the Cloudy Qilin Clan in the ancient times."

Chapter 1520: Cloudy Qilin Clan's secret (5)

"As this is that senior's temporary abode, so he hadn't left many things behind. There is a manuscript which recorded some matters related to this valley."

As Li Moying spoke, he retrieved a yellowed notebook from his chest pocket as he passed it over to Huang Yueli.

Huang Yueli received it and couldn't wait as she started flipping through it.

She only took a look and smiled, "This is quite the coincidence. The owner of this manuscript seems to be Sage Wu Ding! We had collected a huge fortune in his cave dwelling a couple of days ago and now we've entered his secret room, it seems that we have an affinity with him!"

The first half portion of the manuscript recorded some insight which Sage Wu Ding had obtained while in his path of cultivation and some minor daily matters.

It was obvious that Sage Wu Ding's cultivation was extremely high, at least tenth stage realm and above. Other than that, his status in the Cloudy Qilin Clan was rather high as well, especially in terms of thunder

attributed cultivation method, he had an exceptional exclusive understanding on it so this to Li Moying was of great value.

But Huang Yueli was rather uninterested in this portion.

She swiftly glanced through and finally found the contents in the last few pages which she was interested in.

Sage Wu Ding had mentioned that in the process of his cultivation, he had met with a bottleneck and for the longest time ever, he wasn't able to breakthrough. Hence after expending a huge amount of effort, he finally managed to apply for a quota to enter the central region. Therefore he set his mind that if he didn't break through, he would not leave that place. That was why he set up an array formation in a slightly hidden location within the central region.

As Huang Yueli watched, she suddenly screamed.

"So this valley is actually Cloudy Qilin Clan's refinement grounds!"

Li Moying looked at her shocked expression as he couldn't help but laughed, "Is there a need to be so shocked? Doesn't your Sacred Phoenix Race also have your own refinement grounds? Cloudy Qilin Clan is also one of the ancient spiritual clans so why can't they have one as well?"

Huang Yueli replied, "This... the difference between the two clan's refinement grounds is too huge of a difference..."

In the Sacred Phoenix Race's inheritance tower, there was a senior like Huang Zixiao around to guide her step by step with detailed instructions. With that, she knew clearly what the reward was after she had passed by each stage and it was transparently shown.

But in the Cloudy Qilin Clan's valley, if this was really its refinement grounds, wasn't it a little too ridiculous!

Such a large area with danger lurking around, there wasn't even a proper place for the practitioner to rest and recuperate. Furthermore, before they reached this place, they had already been pursued after by a group of magical beasts with their lives on the verge. If one's ability was slightly weaker, he would have died before he even entered the valley, not to mention anything about refinement?

Li Moying looked at her shocked look as he laughed, "You haven't taken a detailed look at the contents right? Senior Wu Ding mentioned that the way Cloudy Qilin Clan and Sacred Phoenix Race nurtures their younger generation are totally different. Sacred Phoenix Race are extremely protective towards their younger generation with great potential, and will supply them with a large amount of resources, doing their best to help them raise their ability to ensure that they become the clan's pillar of support in future. But Cloudy Qilin Clan is the exact opposite."

"Cloudy Qilin Clan uses the method of rearing parasites. Resources wouldn't be split equally to all geniuses, instead they're required to go fight for it on their own. Death awaits those who fail whereas the victor will step on the dead corpses to obtain the resources, rising above others! So, in terms of the number of top experts, Sacred Phoenix Race stands out but the real absolute strongest were mostly from Cloudy Qilin Clan."
