

## **Weaponsmith 1541**

### **Chapter 1541: Cloudy Qilin Clan's bloodline (1)**

Moreover, the electric currents surrounding him had slowly turned from bluish purple into a pure purple colour. It was extremely eye catching and extremely dazzling.

The speed of his moves were extremely fast as the hand which gripped his sword became even stable.

Eventually, after sustaining the bitter battle for several hours, Li Moying successfully killed those three magical beasts to obtain the final victory.

He gave a long huff as he felt the Profound Energy within his body was almost depleted and his body was about to collapse.

Just as he felt totally drained of energy, he suddenly heard a shrill coming from his back not too far away.

“Moying, Moying, are you alright? Are you hurt anywhere?”

The familiar sweet voice was filled with worry.

Li Moying turned back in a hurry and saw a petite young lady speeding towards him as she pounced into his arms!

He originally didn't have much energy left and after being pounced on by her, he fell back totally the two of them fell onto the ground.

“Hay—!”

Huang Yueli fell onto his chest and her face was totally embarrassed as she pushed his chest and tried to get up.

Whoever knew, this push coincidentally hurt his wound making him suck in deeply as his face contorted in pain.

Huang Yueli immediately got tensed, “There are so many wounds on you and it's all so deep! Earlier you threw up blood as well, are you internally injured as well? Quickly take the medicinal pills, I'll bandage up your wounds!”

She hastily retrieved the ceramic bottles as she poured out the medicinal pills, stuffing it into his mouth in handfuls.

After that she took out the ointment for external injuries and treated his wounds.

Li Moying obediently let her do as she wished as his lips revealed a smile. To be tended to so anxiously by his beloved woman, anyone would feel extremely happy!

Suddenly he sensed a slight pain on his thigh as he hurriedly lowered his head to take a look.

Little Qilin squatted along his thigh as its little claw kept rubbing against his feet, using its gem shaped large eyes brimming with tears as it looked at him in grievance.

On seeing Li Moying noticing it, little Qilin immediately used its claw to point towards Huang Yueli, as though it was complaining about him it had been tortured by her.

Li Moying gave a light laugh as he shook his head and stretched out his hand placing it on top of little Qilin's head.

Just at that moment, a bright ray of light flashed past both of them and that ray of light was simply too bright, so striking that the two of them weren't able to open their eyes.

"This... what's going on?" Huang Yueli covered her eyes.

"I don't know. Stay close to me a little, be careful!"

Li Moying stretched out his arm to grip her wrist and at the same time, putting on a secured front immediately, prepared to continue battling anytime.

But after the bright light disappeared, the two of them discovered that a stone tablet appeared right in front of them.

This stone tablet was extremely grand and ancient. It was a huge block of rectangle like a tall mountain standing right in front of the two of them, steady and firm.

The entire stone tablet was refined out of an extremely special material. The black stone radiated a bluish purple colour, making it seem even more mysterious and dangerous.

This material was something which even Huang Yueli had not seen before. But she judged that this was a kind of higher tier thunder attributed material where it's tier was even higher than ninth grade.

The two of them exchanged an astonished glance.

Li Moying frowned slightly as he sized up this piece of stone tablet, "What is this thing? Why did it suddenly appear out of nowhere?"

### **Chapter 1542: Cloudy Qilin Clan's bloodline (2)**

Huang Yueli was also observing the stone tablet, "The material used to create this stone tablet is simply a perfect thunder attributed material! Have you noticed that every inch of the stone tablet was overflowing with a powerful thunder attributed energy but it had totally been enveloped up without any bit of it being leaked out. I wonder where the Cloudy Qilin Clan found this material from, and if I can just break off a small piece from it....."

Li Moying's brows twitched.

His Li'er was simply an Armament Weapon nut. Every time she saw some material, she would hope to dig it out to hide it.

Huang Yueli went round the stone tablet once and suddenly cried out excitedly.

"Moying, quickly take a look! The other side of the stone tablet has a Qilin totem inscribed on! This should be an important mechanism of the Cloudy Qilin Clan right?"

Li Moying hurriedly chased up to her as he turned to the other side.

An extremely large Qilin totem was inscribed on that entire piece of stone tablet. This Qilin was not only large, but also looked extremely real and lively, perfectly reliving the Qilin virtual image which he and Huang Yueli had seen in Sage Wu Ding's cave.

Furthermore, from the thunder attributed energy in the stone tablet, this Qilin's surroundings gave off a powerful energy, as though it was going to jump out from the stone tablet the very next moment, coming to life.

Even little Qilin pounced over excitedly, as though it had seen its relative.

Huang Yueli continued talking, "I've once seen this same kind of huge spiritual beast totem in the Sacred Phoenix Race's inheritance tower but the totem for Sacred Phoenix Race is a Phoenix! Looks like these God Realm large families have the habit of rearing the spiritual beasts and using them as their clan's symbolic representation!"

Li Moying turned around and asked, "Since you've seen a similar totem previously, then do you know what this is used for?"

Huang Yueli started to contemplate as she said a while later, "The last time I entered was the inheritance tower. Could it be that this stone tablet is also used for inheritance? Speaking of this, have you noticed it yet? We've already delved deep into the hinterland of the valley so this should be the most central position of the valley! This stone tablet appearing right here definitely had its uses!"

Li Moying muttered softly, "In this case, when I walked over earlier, at the position of the stone tablet, there were three magical beasts prowling here. I originally wanted to lure them away individually to kill them but in the end, all three magical beasts noticed me quickly and all of them came right up together! Looks like this isn't by chance. Only after defeating these three ninth grade magical beasts would this stone tablet descend at this place!"

When Huang Yueli heard that, she clapped her palms hard.

"That's right! This stone tablet must be the reward for the refinement!"

"Reward?" Li Moying frowned, "What kind of reward is this? Surely it can't be like what you said, to knock down this stone tablet and bring it back right!"

Huang Yueli shot him a glance and lifted up her chin with a pampered arrogant look.

"Look at you, you don't even know all these! Do you even need to ask this kind of question?"

Li Moying looked at him in amusement but without a smile as he replied to her, full of indulgence, "I indeed don't understand so will Grandmaster Huang please teach me."

Huang Yueli then replied, "Actually it's very simple. The last time I saw the totem on the door of the inheritance tower and that time I had no way to open up that door. But later after I injected my own blood into it, filling up all the chinks of the totem entirely, then the door immediately opened up!"

Li Moying went into a blank, "You mean....."

"My meaning is, the totem should be related to bloodline so you can try smearing your blood on it to try and see what effect it would produce."

### Chapter 1543: Cloudy Qilin Clan's bloodline (3)

Hearing this, Li Moying's lips twitched as he revealed an incredulous expression.

"I saw... Li'er, are you serious? Fill all the chinks of the totem with blood?? Are you certain? The last time you saw the Phoenix totem on the door, was it really that huge??"

The huge sized stone tablet was at least twenty meters in height and the Qilin's totem was extremely huge. If he wanted to use his blood to fill in all the chinks in the sculpture of the Qilin totem, it was an impossible mission. Even if he let off all his blood in his body, he probably wouldn't be able to even fill up one quarter of it—!

Huang Yueli looked at the stone tablet's Qilin and then looked at him as her lips curled up slightly, revealing her two tiger fangs.

"That I don't know! Perhaps the Cloudy Qilin Clan's blood is especially a lot, and is able to fill the entire Qilin totem full!"

Li Moying pinched her cheek as he scoffed at her, "No matter what I'm your fiancé, how can you bully me like this?"

Huang Yueli blinked, "Since when did I bully you? What I said is the truth! Ancient God Realm clans' innate talent are all based on invigorating the blood vessels so naturally they valued the clan's bloodline a lot.. you can try."

Li Moying knew that although his Li'er was a little arrogantly pampered, but with regards to important matters, she absolutely would not harm him.

Since she made it out so clearly, then she should be somewhat certain of it.

So Li Moying nodded and unhesitatingly walked over to the stone tablet.

His right hand turned and the Amethyst Light Sword appeared in his palm. The sharp blade pierced into his left hand's wrist and blood immediately gushed out.

Li Moying brought his blood filled hand and pressed it on the Qilin totem.

The blood on his palm slowly seeped into the chinks of the sculpture.

It took only an instance when the stone tablet's colour changed. Originally it was black with a hint of purple shade and now, the black colour had started to wane away as the purple shade of the entire stone tablet became even obvious. Electric currents flickered occasionally, as though it was going to split open the entire piece of stone tablet, causing an explosion at any point of time!

Li Moying's blood seeped into the stone tablet and turned into a bluish purple electric current as it swiftly flashed past the Qilin sculpture's chinks and very soon, it had already flashed past every single chink and returned to its original spot.

When Li Moying saw the stone tablet's change, his heart lifted up as he wanted to withdraw his hand.

But then he realised that his hand seemed to be stuck to the stone tablet, totally unable to withdraw it at all.

Whereas his blood and Profound Energy in his body kept on pouring out in torrents with no way to stop it. It was as though the stone tablet had a kind of mysterious energy which automatically drew away his Profound Energy and blood.

After a long time, he sensed that the stone tablet's absorbing ability started to decrease in speed.

He tried to withdraw his hand once again and this time, he succeeded.

"This.... is a little too magnificent!" Huang Yueli walked next to him as they lifted up their heads to look at the stone tablet.

The stone tablet's colour had once again darkened, resuming back to the mysterious lustre of black with a hint of purple but the lively looking Qilin sculpture had totally been filled with thunder attributed Profound Energy as it turned into an eye piercing bluish purple colour. The thunder attributed energy kept on flowing around, giving off an endless vitality to this totem.

Li Moying turned back to take a look at his fiancée and was just about to speak when suddenly, he felt that he saw black!

Immediately following that, his body disappeared from the original location.

"... Moying, why are you ignoring me?"

Huang Yueli blinked her large eyes and upon turning back, there was no more sight of Li Moying's whereabouts?

#### **Chapter 1544: Cloudy Qilin Clan's bloodline (4)**

Above the millions and millions of stars, there was a vast sized continent, which was even larger by hundred times and above of Soaring Heavens Continent. The density of the Heaven and Earth's Profound Qi was much higher by at least ten times.

This was God Realm, where the lower world's top exponents desired most to arrive at.

In a cave in God Realm where magic qi enveloped it, two old men were playing chess when one of them suddenly gave off an astonished expression, as the chess piece in his hand dropped on the chess board.

"Old Man Wu Ding, what's the matter with you? Don't tell me that you know that you're going to lose to me so you are intentionally trying to find an excuse to slip away?"

The white haired Sage Wu Ding was so infuriated that he blew his beard and widened his eyes in anger when he heard that.

"Old Man Dong, what nonsense are you sprouting! Am I the kind of person who cannot afford to lose? Since when had I intentionally slipped away on purpose?"

"Really? Then why are you acting so flustered?" The elderly man surnamed Dong had a suspicious look all over his face.

Sage Wu Ding gave him a stare and said, "Old Man Dong, do you still remember? Several hundred thousands of years ago when I was still in Soaring Heavens Continent, I had once been the overall in-charge of the clan's refinement grounds."

Old Man Dong replied, "How could I possibly not know? Do you really think my memory is failing because of my age? We were already working together then! That year, Soaring Heavens Continent's Violet Sun Valley was our Cloudy Qilin Clan's biggest refinement grounds. So many peerless geniuses fought head over heels just to gain a quota to enter into the Violet Sun Valley!"

"Isn't that so! When we were young, hadn't we also undergone refinement in the Violet Sun Valley?" Sage Qu Ding spoke while reminiscing about the past.

Old Man Dong looked at his expression and asked curiously, "What's the matter? Why have you suddenly recalled the Violet Sun Valley? Ever since the change in Soaring Heavens Continent took effect and the Profound Energy dissipated, all the direct descendant clansmen of Cloudy Qilin Clan had all moved away from Soaring Heavens Continent and Violet Sun Valley had become an abandoned ground. These are matters which had happened several hundred thousands of years ago and you still remember about it!"

Sage Wu Ding shook his head and said, "Actually the Violet Sun Valley isn't completely abandoned but as the density of the Profound Qi in Soaring Heavens Continent isn't enough, so there is no way to operate as per normal. After every few thousand years, it would have stored enough energy and would show up....."

"Even if Violet Sun Valley could show up, so what about it? There are no longer any clansmen from Cloudy Qilin Clan there so it's impossible to have a peerless genius appearing like several hundred thousands of years ago! As for ordinary practitioners, even if they might have the fate and opportunity, entering it would only mean that they didn't have a chance to return! It was impossible to get any chance in the Violet Sun Valley, not to mention that they would just end their lives there instead!"

The old man named Dong spoke with a certain tone.

This was because he had lived for a long time because at an age of several hundred thousands years old, what strange things had he not experienced? He naturally would know what kind of situation it was like at that kind of abandoned refinement grounds.

Whoever knew, when Sage Wu Ding heard that, he fiddled with his beard and shook his head while smiling, "Old Man Dong, you've guessed it wrongly this time round. I was feeling astonished earlier just because I had suddenly sensed that someone had intruded into Violet Sun Valley....."

"So what if they had intruded into it, what's the big deal about it?" Old Man Dong picked up his teacup in a disapproving look.

Sage Wu Ding continued, "Why can't you hear me finish my sentence? Intruding into Violet Sun Valley isn't rare, but what if that person successfully activated the Qilin tablet?"

Old Man Dong had already sipped a mouthful of tea and upon hearing that, he directly spat out the mouthful of tea out of his mouth!

His eyes opened up wide with a look of disbelief on his face.

"What did you say?? Someone activated the Qilin tablet in Violet Sun Valley??"

**Chapter 1545: Cloudy Qilin Clan's bloodline (5)**

Sage Qu Ding nodded, "That's right...."

Old Man Dong went into a blank for a moment before gradually regaining his composure as he leaned back against the chair once again.

"I think it must be your misperception! Soaring Heavens Continent and God Realm's distance is several thousand miles and furthermore, Violet Sun Valley has been abandoned for such a long time. The sense that you, the Valley Master of Violet Sun Valley might not be accurate... otherwise, there simply isn't any way to explain, how such a thing could be possible?"

After Sage Wu Ding had been assigned as Violet Sun Valley's Valley Master several hundred thousand years ago, he had established a spiritual connection with the valley's formation and no matter what happened in the valley could not be hidden from him.

When Cloudy Qilin Clan departed from Soaring Heavens Continent, even though that kind of spiritual connection had not been erased, but following the passing of time, the link would become weaker and weaker.

Several hundred thousand years wasn't considered a short time so now that Sage Wu Ding could no longer sense most of the situation in Violet Sun Valley.

When ordinary Sects activated the Cloudy Qilin Mystic Region, he just had a hazy sensation.

But this time, Sage Wu Ding appeared to be extremely serious and grave.

"This... shouldn't be my misperception! You know that the activation of the Qilin tablet, even if it was several hundred thousand years ago, it was a huge matter which could shock the entire clan! Because this means that a god grade genius is born! A genius who would excel in the entire God Realm had appeared! This feeling is extremely intense and very distinct. The feeling of it against ordinary people intruding into the valley is totally different."

Old Man Dong's mouth was agape as his tongue was tied, "So.... So you feel that this is real?? There's really a genius who had activated the Qilin tablet?"

Sage Qu Ding nodded his head vigorously.

"That's right. Actually some days ago, when this person entered the Cloudy Qilin Clan's historical remains, I'd already sensed it. He had also activated a cave which I stayed in and even took away the baby Qilin which I had sealed up in the cave. But that time I thought it was a misperception so I didn't bother about it. Later on I sensed that he had entered into Violet Sun Valley. His ability should be very strong because the Profound Energy fluctuations in the valley were seriously influenced by him! If my feeling wasn't wrong, around eighty percent of the magical beasts in the valley had all been killed by him! It had merely been just over a month's time...."

"Now he had once again successfully entered the core region, passing the test and even letting Qilin tablet appear on this earth once again...."

Hearing Sage Wu Ding's words, Old Man Dong didn't know what he should say!

Cloudy Qilin clansmen had all moved to the God Realm and reconstructed a new refinement ground.

The new refinement ground was similar to Violet Sun Valley, with only a minute difference.

For so many years, there were plenty of Cloudy Qilin Clan's geniuses and they had even become the leading top ten families in God Realm, as there was no lack of strong practitioners in the clan!

However, among so many geniuses, for several hundred thousand years, there were only a handful of people who could activate the Qilin tablet.

In the past ten thousand years, there was none at all!

Old Man Dong's voice was shaking as he cried out emotionally, "If what you said is true... then... then that would be too shocking, too incredible! The clan had not appeared such a powerful god grade genius in the last hundred thousand years! Yet one actually appeared in Soaring Heavens Continent?? The disciples in God Realm clans are all nurtured under large amounts of resources and in that ghostly place like Soaring Heavens Continent where even Heaven and Earth's Profound Energy was so scarce, not to mention that the other resources were such a pitiful amount....."

#### **Chapter 1546: Cloudy Qilin Clan's bloodline (6)**

"If under this kind of situation, there was someone who could pass the various tests in Violet Sun Valley and successfully entering the core region to successfully activate the Qilin tablet... then his innate talent is simply unimaginable! Perhaps he had even surpassed god grade genius's standard!"

"If... if all these are true, then wouldn't our Cloudy Qilin Clan... Have run into great luck??"

In God Realm, the fights between various powerhouses were intense.

Even though Cloudy Qilin Clan was now the first seat among the top ten families but this was only temporary. Many clans were eyeing them and the minute Cloudy Qilin Clan's entire ability dropped, they would be replaced by someone else easily.

Whereas the most important factor when deciding on a clan's ability was the clan's practitioner's ability!

Indeed, Cloudy Qilin Clan's overall ability was very strong and there were plenty of heaven grade geniuses around. After so many years of accumulation, the clans' elders and guardians in authority, had much stronger abilities than the other clans' practitioners in the same positions!

But this was not enough. The other clans were not vegetarians and the number of heaven grade geniuses they had in their clans weren't little as well.

The real deciding factor in the clan's future, was actually a god grade genius in the clan!

Only one would be born every few ten thousand years, and that was enough to fire up the entire clan!

In the past ten thousand years, there was no heaven grade genius in the Cloudy Qilin Clan.

If Sage Wu Ding's senses weren't wrong, in the clan's branch in the lower realm, a god grade genius was actually born, then it was a serious matter which was worth rejoicing over! It was enough to stir up the entire clan!

Just thinking of this alone, Old Man Dong's body was so excited that it started to shake.

“With this god grade genius, as long as we can bring him to God Realm and nurture him properly, once he grows up, the position of our Cloudy Qilin Clan in the future ten thousand years in God Realm would be guaranteed! That’s simply great! This matter ought to be reported to the clan leader as soon as possible!”

He got more agitated as he spoke however, Sage Wu Ding didn’t smile because of that.

On the contrary, he suddenly recalled something as the expression on his face turned extremely terrible, even starting to sprout sweat.

“Old Man Dong, don’t be in such a hurry... if there really is such a god grade genius... then he would probably in in huge trouble this time round!”

Old Man Dong went into a blank as he turned back while asking curiously, “What do you mean?”

Sage Wu Ding’s complexion turned paler by the minute, “You don’t know about this. All the mechanisms and array’s operation in Violet Sun Valley required strong Heaven and Earth Profound Qi to support it. But now Soaring Heavens Continent’s Profound Qi isn’t enough to support the entire Violet Sun Valley’s operation as per normal so a portion of the mechanism would be ineffective.....”

Old Man Dong seemed to have recalled something as he revealed a terrified look on his face.

“Su...Surely not right? You mean.....”

“My meaning is the Qilin tablet requires a huge amount of energy to exhaust and moreover, it usually could not be activated for hundred thousand of years so under insufficient Heaven and Earth Profound Qi, the first to become ineffective is the Qilin tablet.....”

“You are saying that the Qilin tablet would become ineffective because of the lack of energy? But hadn’t that genius successfully activated the Qilin tablet earlier?” Old Man Dong evidently don’t believe in his words.

Sage Wu Ding continued, “Qilin tablet would not lose its ability to be activated because of this. But it would lose a portion of its effect...”

“A portion of its effect?” Old Man Dong suddenly had an extremely bad premonition.

### **Chapter 1547: Only two paths (1)**

“Right, a portion of its use.....”

Sage Wu Ding took a deep breath as he explained, “You haven’t activated the Qilin tablet before so you’re probably not aware of the situation in the Qilin tablet. Actually, that is another refinement ground but limited only to god grade geniuses to enter! God grade geniuses might face the most terrifying life and and death crisis in there and according to their final performance, they would obtain different kinds of rewards.”

“To the past god grade geniuses, if they failed the refinement, they would obtain the corresponding rewards and be expelled from the Qilin tablet which meant the end of the refinement. But now that a portion of the mechanism became ineffective, then.....”

Sage Qu Ding's voice was cold as he continued, "If he failed the refinement, whether he would be expelled from the Qilin tablet or not, there would be only two paths in front of him— either he completes the refinement totally and obtain the reward for completing the refinement perfectly, otherwise..."

His voice paused and Old Man Dong's heart jumped to the back of his throat, "..... Otherwise what?"

"Otherwise, only death awaits!"

Hearing that, Old Man Dong nearly jumped out of his chair, "What? How could there be such a thing? In the past, how many of those god grade geniuses had successfully passed through the Qilin tablet refinement perfectly?"

Sage Wu Ding took a look at him and his voice turned chillier, "In all the historical books which recorded the history of Cloudy Qilin Clan, among those god grade geniuses who activated the Qilin tablet, the highest completion rate in the refinement was only eighty percent. The number of them who had passed through the stage perfectly was – Zero!"

...

In Violet Sun Valley.

After Li Moying injected his blood onto the Qilin tablet's totem, the Qilin tablet was activated.

He was caught unaware and his eyes saw black as he instantly lost consciousness.

When he finally reopened his eyes again, he found himself in a dark room where he couldn't even see his fingers in front of him, not to mention that there was no sight of his Li'er.

Li Moying cried out loudly, "Li'er! Li'er? Where are you? If you hear me, make a sound and let me know your position! I wonder where we are right now? Why is this place so pitch dark!"

However, no one replied to him.

Li Moying frowned as he raised his voice once again, "Li'er?! Li'er!!"

But what responded back to him was complete silence.

Li Moying was extremely worried. He wasn't especially worried if he himself had met with danger but when the matter concerned Huang Yueli, he totally couldn't calm himself down.

After all, this valley's inner portion was the core region and it originally was filled with dangers. There were so many ninth tier magical beasts lying in wait and he was worried that Huang Yueli would run into danger and was unable to deal with it.

His right hand drew out a ball of flame as he wanted to use the light to check out the surrounding situation.

Whoever knew the minute the flame lit up, a sharp cold wind came pouncing towards his direction!

Li Moying sensed an intense crisis and his heart jerked violently!

This feeling was exceptionally terrifying and this was the first time Li Moying had felt such a life threatening threat so distinctly!

His experience in facing battles was rich and he reacted swiftly as he immediately evaded towards the opposite direction!

However, the attacker behind him was even faster in reaction. On seeing him switched directions, he immediately followed him like his shadow!

Bolts of lightning kept striking out towards him from the back and Li Moying tried his hardest but was still unable to evade it totally. He was then struck on his right shoulder.

“Ssssss—” He immediately drew in a mouthful of cold air!

### **Chapter 1548: Only two paths (2)**

This bolt of lightning penetrated through his shoulder however no blood poured out.

A sharp pain seemed to radiate out from his bones as it speedily extended to the surroundings from the position of the wound and very quickly, his entire arm started to turn painful.

Li Moying frowned as he realised the severity of the matter.

It wasn't a good thing when it didn't bleed. That meant that he was not only hurt in the flesh, even his meridians and bones were impacted heavily so what he was losing wasn't just blood but.... life source!

Li Moying was feeling mortified, just who was chasing him from behind? How could he be so strong to such an extent?

He rarely met with this kind of situation, totally unable to strike back upon being beaten.

Luckily, Li Moying wasn't thrown into a disorder as he maintained his shocking calm even in such a situation.

He swiftly congealed the Profound Energy in his body and after a few sudden evasions, he suddenly turned around and casted an attack with the surging thunder attributed energy from his body!

“RAWR—!!!”

An earth-shattering howl rang.

Li Moying stared intently to the front to find a huge Qilin slowly appearing from the darkness.

It's entire body was shrouded with dazzling crystal like scales and its bluish purple light flowed around its body. The powerful and magnificent aura started emitting out from its body.

The image of this spiritual beast was exactly the same as what he saw on the huge stone tablet.

To the point that when they faced each other, he could distinctly feel that this Qilin had an irresistible pressure on it. This pressure was much stronger by ten times or more than the pressure which radiated from the totem earlier!

Li Moying's expression was cold as he gripped the Amethyst Light Sword in his arms, paying full attention to prepare for battle!

Evidently, this Qilin was not totally the same as the one which he had met in Sage Wu Ding's cave.

The one in the cave was obviously just a virtual image and although it had been imitated by the use of secret arts and could revive the traces of the original spiritual beast's battle method and energy, but it was after all not a real spiritual beast.

So its battle power was merely ninth tier end stage magical beast standard, which was something which Li Moying was still able to deal with.

But the one in front of him was much stronger!

On seeing it at the first instance, Li Moying's heart shook vigorously as he felt that he was almost not able to take on the overbearing and prestigious pressure!

This heaven defying aura was something which a true matured ancient spiritual beast was capable of.

But.....

Li Moying frowned.

Was this possible? The one who attacked him... was a matured Qilin?

Matured Qilins were the clan's most important fortune, so how could it possibly have been abandoned here?

Just at this moment, Li Moying suddenly sensed a "buzz" in his mind and felt slightly dizzy. At the same time, a sinisterly cold voice rang in his mind.

"Human..."

Li Moying abruptly lifted up his head.

In the darkness, the Qilin spiritual beast ray seemed especially radiant.

"Young fellow from the Cloudy Qilin Clan, you're not bad. It had been several hundred thousand years since anything had activated the Qilin tablet."

Li Moying was first bewildered but he quickly reacted as he hurriedly asked, "You mean to say.... I'm now inside that piece of huge tablet now? That stone tablet is called the Qilin tablet?? What is the situation now? This Qilin tablet or something, what is it for?"

### **Chapter 1549: Only two paths (3)**

"Qilin tablet.... It's Cloudy Qilin Clan's ultimate refinement assessment! Only god grade geniuses are able to summon the Qilin tablet out."

A scratchy sound came from the Qilin's body.

"God grade genius?" Li Moying's brows rose in astonishment.

If it was any other person in Soaring Heavens Continent, they probably wouldn't had any concept on this at all.

But Li Moying had heard about the different grades of geniuses in God Realm from Huang Yueli and knew that the so called god grade geniuses of the clans in God Realm were very different from their understanding in Soaring Heavens Continent. To be acclaimed as god grade in Cloudy Qilin Clan, that would be a peerless genius who called the shots in God Realm!

Even if it were those top rated powerhouses like Cloudy Qilin Clan or Sacred Phoenix Race, there weren't too many of such people.

Hearing the Qilin saying that he was god grade, Li Moying's heart was secretly delighted because this was the greatest affirmation towards his ability!

Even if he knew that he had outstanding talent, but hearing this conclusion still made him feel extremely happy.

Qilin said, "God grade geniuses.... Will only appear once every few ten thousand years and the Qilin tablet would only be activated once every ten thousand years. In the recent ten thousands of years, this is the first time it has been activated. Young fellow from Cloudy Qilin Sect, you're not simply eh.... One fine day when you return to the clan in God Realm, you'd definitely cause a sensation."

Li Moying went into a blank and replied, "I haven't considered things which are that far yet. After all, I'm only in the seventh stage realm now. Reaching God Realm.... will at least take ten years or more."

Qilin's voice was mixed with some laughter, "Based on your innate talent, you might not need to wait ten years that long."

Li Moying didn't bother explaining further.

After all, he wasn't alone and if he had to ascend alone, then whatever would happen to his Li'er?

Although Huang Yueli had outstanding talent, but she had started cultivating rather late in this lifetime, wasting quite a number of years.

He asked again, "Then, how can I complete the refinement?"

Qilin replied, "Very simple, you only need to kill me and you'd be considered to have passed through the Qilin tablet's refinement!"

Li Moying's eyes widened as he asked in disbelief, "What? Kill you??"

He simply could not believe his own ears!

Qilin immediately explained, "I'm a sealed spiritual body in the Qilin tablet and I will not die or be eliminated but I am still able to utilise ninety percent of my ability when I was still alive! Even if you managed to kill me successfully, the Qilin tablet will restore my spiritual body after thousands of years later."

Li Moying then understood that the Qilin in front of him was actually long dead.

No wonder it had been left behind by the Cloudy Qilin Clan in the Qilin tower, to be used for refinement purposes.

But Li Moying was still shocked because the condition for completing this refinement was simply too ridiculous!

A matured spiritual beast: It had genuine god grade ability! Even if it was a sealed spiritual body, its cultivation was slightly discounted so it definitely was still nearer to tenth stage realm!

Even in his past life's peak, to deal with this kind of magical beast required him to undergo a tough battle.

Whereas for him now... his potential in this lifetime as compared to the past was a huge gap.

Moreover, killing and defeating... Was totally two different matters.

Defeating the opponent sometimes required a certain percentage of ability, luck and meticulous observation which would be possible.

But towards this grade of battle, to kill the opponent, it definitely wasn't based on skill or luck which could be materialised. It was necessary to rely on absolute power.

Generally speaking, only with absolute overwhelming power would one be guaranteed a chance to kill the opponent.

#### **Chapter 1550: Only two paths (4)**

Now Li Moying's cultivation was at the weaker end and he had to kill a spiritual beast?

This was really an impossible mission!

Qilin immediately said, "Once the refinement has started, I will not stop it in the middle. But If you feel that you are not able to continue, you can request for the refinement to end! But in this way, it is impossible for you to enter the Qilin tablet again, do you understand?"

Li Moying had already calmed himself down and his gaze was even more profound than usual.

"I understand."

Qilin swept him a glance and said, "As you're the only practitioner who had successfully activated the Qilin tablet in the past several hundred thousands of years, I shall break the exception to give you a reminder. During the refinement, the injuries that I caused upon you are real, and that is to say that.... there is a possibility that you may die! I hope you must remember this point and if you can't continue, ask to leave by yourself. In the past there were quite a number of god grade geniuses who obviously couldn't pass the refinement but still hung on tightly. In the end they met with their demise right here.... This was a huge loss to the entire clan."

This time round Li Moying remained silent for a very long time.

He had not expected that this Qilin seemed to know how to read one's mind as it saw through what he was thinking about at one glance.

Peerless geniuses usually never met much opponents who were able to defeat them so even if they met someone who was much stronger than him, he would not easily admit defeat! He... naturally wasn't an exception!

Since he had entered the refinement, then he would definitely try his best till the last drop of blood in him, not wanting to give up any chance of passing the stage, disregarding his own life and death.

If it wasn't for Qilin which reminded him, he would definitely have done so.

But now hearing what Qilin said, his first reaction was to think of Huang Yueli immediately.

His Li'er was still waiting for him outside the Qilin tablet!

If he wasn't able to leave this place, based on Huang Yueli's ability even if she was that intelligent, there was still some difficulty for her to leave this valley safely. Furthermore the two of them had finally understood each other's feelings and if he were to just die like that..... Li'er would definitely die of sadness?

He was already a family man so he could no longer be like how he was in the past.

Thinking of this, he nodded, "I know. Thank you Senior for the pointer! But this junior still has something to ask....."

"What is it?"

Li Moying said, "This junior would like to ask an impromptus question. How many of those god grade geniuses in this Qilin tablet had managed to pass through the refinement successfully?"

Qilin replied coldly, "None at all!"

"None.... At all?" Li Moying went into a blank, "But weren't those practitioners who entered the ultimate refinement all god grade geniuses?"

"That's right, what do you think that the ultimate refinement was? Did you think that spiritual beast's ability is just what you see on the surface? God grade innate talent is only a temporary expedient to enter this place. So the ultimate refinement isn't some embarrassing matter. Alright, are you done with the nonsense? Then... the refinement shall officially begin!"

When Li Moying heard that, his entire body shook as his right hand gripped the Amethyst Light Sword tightly and the purple electric currents on the sword blade had already flown up to the skies!

At the same time, the Qilin spiritual beast's figure also turned into a bolt of purple light, pouncing towards him speedily!

...

God Realm.

Cloudy Qilin Clan.

Old Man Dong stared at Sage Wu Ding in shock, "What? Don't tell me that in the past, no one had been able to pass through the Qilin tablet refinement perfectly?"
