Chapter 1571: Full moon again (4)

Apparently, the appearance of these three magical beasts was because the mechanism of the core region had been reset to the original state.

Actually, this point was totally expected but as she was agitated by Li Moying's disappearance earlier that she had lost the usual cool and rationality that she usually had hence she failed to notice that such a thing had happened.

But now, the appearance of the three magical beasts right here meant that.... she was in deep trouble!

If Huang Yueli's ability was strong enough, then actually this was a very good opportunity.

She only had to think of a way to defeat these three magical beasts and she would be able to make that stone tablet appear at the same position once again.

Only this was with her current ability, it wasn't possible for her to charge in to save him but on the contrary, she would be sending herself to doom instead...

Huang Yueli's thoughts flew swiftly past her mind as she quickly made a decision.

A wise woman knew better than to fight when the odds were against her!

She nudged backwards silently, preparing to leave this dangerous place and preserve her life first.

But she had just moved when those three magical beasts turned around to face her.

Three pairs of vicious looking gazes all fell onto her at the same time and under the ray from the moonlight, it looked exceptionally sinister.

Huang Yueli gave a dry laugh, "He he, this.... don't be mistaken, I'm not here to take part in the test... you need not pay too much attention to me, I'll leave this instance...."

However those three magical beasts gazes were fixated onto her rightly and furthermore the muscles on their bodies turned taut as they put on a posture which looked as though they were ready to attack at any point of time.

Huang Yueli scooped up little Qilin by her side, "I say... this... I have a spiritual beast Qilin for protection! We are all from the same family so you need not muster large forces..... AH!"

She had been long-winded still hoping for a slight glimmer of hope for little Qilin to emit out a little bit of spiritual beast aura, so as to stun these few magical beasts.

But apparently, all these were in vain.

How would the king among ninth levelled magical beasts possibly be scared off by a spiritual beast which was still in its infancy stage?

Not waiting for her to finish her words, the three magical beasts all simultaneously gave off an earth shattering howl, as they ferociously charged towards her!

Huang Yueli immediately stuffed Little Qilin into her sleeve as she turned around and ran with all her might!

While she was running, she threw out various kinds of Profound Armaments in bid to obstruct the magical beasts from pursuing her footsteps.

However, her ability against the ninth levelled magical beasts was just too huge and even though she had already utilised her Agility Dance Steps, raising her speed to the highest but the distance between her and the magical beasts kept on decreasing.

One of the magical beasts waved its claw and a bright striking thunderbolt descended from the sky as it struck towards her.

Huang Yueli hurriedly turned as she evaded just in time, with the thunderbolt just grazing past her.

She caught sight of the ground with her peripheral view as it was filled with multiple meters deep cracks and her heart couldn't help but be frightened: Luckily her reaction was swift enough, otherwise wouldn't she have been split into two halves directly?

But her current state wasn't any better. She had managed to avoid one thunderbolt but it didn't represent that she was able to evade every single bolt so it was best for her to leave their attack range as soon as possible.

Huang Yueli ran quickly as she observed the surrounding situation.

The three magical beasts behind her had entered into a range where they would attack her hence they kept on making their moves towards her.

Bolts after bolts of lightning repeating continuously as it rained down on her head, almost sealing off all the places which she could hide.

Huang Yueli moved left and right as she gave everything she got to evade the attacks.

Chapter 1572: Full moon again (5)

Huang Yueli was feeling extremely fortunate right now that she had obtained the inheritance of Agility Dance Steps in Sacred Phoenix Race's refinement tower and after continuous days of hard training, she managed to derive at a small realm.

This god grade move Profound Skill wasn't proficient in speed but in evading attacks!

With the Agility Dance Steps, she successfully evaded most of the electric attacks but a small portion of the lightning still grazed past her body.

These external injuries weren't too serious and mainly those were mere abrasions. What was most embarrassing was that her hair had curled up in different directions from the lightning currents at near distance.

She just needed to use her imagination to know what kind of bombastic hair condition she had right now. She gauged that she looked no different from a porcupine.

"Luckily Moying isn't around otherwise it would affect my little public elected perfect image!"

Huang Yueli mumbled while finding joy in her sorrow but before she was done, a bolt of lightning struck her right back area.

She forcibly increased her qi and flew for a distance before she narrowly escaped it.

But her speed had now been raised to her limit and using this speed to advance was actually very taxing on her Profound Energy which was also shocking. She could clearly feel that the Profound Energy in her body speedily dropped drastically and not too long later, she was about to exhaust all the Profound Energy within her.

If those magical beasts chased up to her, then she would really be finished! In terms of going up directly against them, she couldn't even defeat one ninth levelled magical beast, not to mention three of them!

Just at this life threatening crisis, Huang Yueli's gaze shone and she barely managed to sneak a peek from the corner of her eye at the right front mountain wall, which was filled with messy disoriented notches.

To ordinary people, this seemed like sword scars which were left behind unintentionally by a practitioner when they battled.

But this made Huang Yueli's eyes shine.

"Whoever the Senior who had left this array behind, he's simply a life saver!"

She hurriedly shot upwards to the mountain and her right hand gesticulated an incantation as her ten fingers deftly turned into remnant images, totally unable to see the movements of her hands.

Her lips were pursed tightly as she put on a solemn expression. The speed of her hands was extremely swift as her ten fingers danced and had already become remnant images, totally unable to see the movements of her hands.

At the same time, droplets of sweat slowly slid down from the side of her forehead onto her chin.

Even though she had already recognised the defensive array which this certain senior had left behind in the refinement grounds but after several thousands of years, whether this array could be used or not was hard to say. Perhaps all the hard work which she had put in now was merely a waste of effort.

Furthermore, as she suddenly stopped, the three magical beasts behind her chased up with incredible speed as the distance between them narrowed even further.

If she was unable to activate the array in time, she would definitely be struck by lightning within a few breaths and be turned into a charred corpse!

The more critical the situation, the clearer her thoughts became.

This was the difference between top rated geniuses and ordinary practitioners. Under such circumstances, the real genius would be able to display their utmost potential!

The speed of Huang Yueli's hands had already reached the limit, and even.... broke through the limit!

Finally when the three magical beasts were barely just ten meters away from her, the array patterns on the mountain wall suddenly lighted up.

Huang Yueli immediately took out a big handful of magical beast cores and spiritual stones from the Sky Phoenix Ring as she threw it towards the mountain wall!

Her throw was very precise. Although she had thrown out so many at one go, but each piece of magical core precisely lodged into the recess of the array.

The entire array's patterns lighted up and an invisible barrier enveloped her within, nicely blocking out a burst of lightning which was directed at the top of her head.

Chapter 1573: Full moon again (6)

The array activated just in time and Huang Yueli just managed to scrap past the crisis.

She heaved a long sigh as she laid limp on the ground, looking at the outer electric currents sparkling as she felt super fortunate over this.

At least her luck wasn't that bad. If not for this array which could just nicely be activated, it probably would be difficult for her to escape from this round's death!

Three magical beasts discovered that their prey had actually escaped and all of them were raging with anger as they kept on howling outside the array and using up all their strength to make their moves. Bolts after bolts of electric currents crashed onto the array as though it didn't require any Profound Energy.

For a moment in time, Huang Yueli was worried that this ancient array would suddenly become ineffective.

But she rejoiced at the result because. under such intense attacks, the array patterns kept on releasing dazzling rays, reflecting all the electric currents back!

"The Senior who created this array must be an Array Grandmaster! To be able to deflect three powerful magical beasts attacks, not many people are able to set this up eh?"

Huang Yeuli looked left and right. If it wasn't for the fact that the current situation wasn't suitable, she really wanted to do a thorough research on this array.

To be able to deflect ninth levelled magical beasts, this might probably be a god grade array.

But now was not the time for her to be distracted.

Very soon, Huang Yueli realised that although this array was able to block out the magical beasts outside, but the depletion of the magical beast cores was simply too fast.

The handful of magical beast cores which she threw out earlier were all seventh or eighth levelled magical beast cores, and those were from Li Moying who hunted for those magical beasts in Violet Sun Valley.

This kind of single attributed, pure energy and high grade magical beast cores were very durable in maintaining ordinary arrays.

But in this array, it was merely less than one hour and its energy was nearly depleted completely.

Huang Yueli had no choice but to change a new batch of magical beast cores.

But this wasn't a good long term plan because she originally didn't have many high levelled magical beast cores with her. As she was trapped in the array, she had no way to replenish it as well. In this way, it won't take long before the array would collapse because of insufficient energy.

The only plan now was to pray that these three magical beasts would lose their patience soon and return to their original position.

However, not knowing what was going on, even Heavens went against her.

Huang Yueli waited and waited, and changed several magical beasts cores but those magical beasts continued to stubbornly prowl in wait outside the array.

Huang Yueli put her hand into Sky Phoenix Ring's storage space to discover that she didn't have much seventh grade magical beast cores left as her expression turned extremely grave.

"These magical beasts are really too much, haven't they seen any beauty before? Don't they know that they look very ugly? Why must they keep following me!"

Although she spat out these words of ridicule, Huang Yueli actually had an understanding in her heart.

This was probably related to the Sacred Phoenix Race.

The valley's magical beasts seemed to be attracted towards fire attributed energy naturally. Previously when Little Phoenix exhibited it's Profound Energy, it suffered a large group of magical beasts' attacks.

Earlier when she was running for her life, as she had no choice, she had to exhibit her Profound Skill.

In this way, it turned her into a plate of tender fatty meat, luring those magical beasts appetites as they pursued after her relentlessly.

Huang Yueli's brows creased tightly as she tried her best to think of corresponding ways to deal with this matter.

But this was destined to be solution-less. The array's energy was about to exhaust whereas she.... had no place to escape to!

She only heard a loud "boom" and the array patterns suddenly lit up.

Chapter 1574: Full moon again (7)

Following that, it collapsed completely.

Huang Yueli had already made preparations in advance.

Right before those magical beasts had reacted in time, she had already gained the initiative by striking first as she threw out all the thunder flame balls she had with her.

At the same time, she turned around and escaped for her life at the first instance!

Although it was possible that she might meet with her demise this time round, but she still had to put up some final struggles.

She would not possibly admit defeat until the very last moment.

Alas, no matter how swift her reaction was, there was no way she could escape from the encirclement of those three ninth levelled magical beasts.

This time round, there weren't any more surprises and she no longer discovered any new arrays so she was quickly chased up by those three magical beasts.

Ninth levelled magical beasts' intelligence were very high and they seemed to know that she was a difficult character to deal with hence they decisively split up into three directions, encircling her in the middle.

Huang Yueli looked to her left and right as the corners of her lips couldn't help but twitched.

This time round, where was she supposed to run off to? She indeed had her wings clipped?

Before she could even think of any idea, the three magical beasts had simultaneously raised up their claws.

Three peerlessly frigid lightning tore the sky apart with astonishing might as it struck down towards the top of her head.

No one would be spared from this kind of lightning attack.

Huang Yueli was faced with a desperate predicament but instead she calmed down as her lips couldn't help but curled into an arc.

Actually she had a faint premonition that Li Moying..... had not appeared till now meant that he definitely met with danger and there was a ninety nine percent chance that he had already died during the refinement. She tried so hard earlier because she didn't believe in it, all just to hypnotise herself.

There was actually plenty of evidence to verify how the truth was.

But now, she finally could not deceive herself any further.

Anyway, she was about to die right away.....

This way was rather good as well. The both of them could share a mutual death, buried together in this mystic region where it was cut off from the rest of the world, wasn't it a fortunate thing? Anyway, since Li Moying was already dead, she didn't want to stay alive on her own. What was the meaning of living alone?

Moreover.....

"Am I considered to be buried into the grave of Cloudy Qilin Clan? If those Seniors from Cloudy Qilin Clan in God Realm knew about it, would they explode from anger?"

Not knowing why, this sudden thought popped out from her head.

At this moment, lightning had already descended onto the top of her head....

...

Moonlight was like frost.

Just as Huang Yueli was busy escaping from the three magical beasts, a full moon slowly rose up from the level ground, gradually up into the sky.

This day's moonlight was especially cold but bright, showering down its splendour and even dispersing quite an amount of fog which shrouded Violet Sun Valley all year long.

Moonlight shone on the location where the stone tablet was and the sand on the ground suddenly started to swirl up even though there was no wind, as though some invisible strength was driving it.

In the ground where the Qilin tablet was deeply buried, it was filled with complete darkness and complete silence.

The body which had not moved at all in the corner suddenly twitched.

Spiritual beast Qilin seemed to sense something as it raised its head and looked towards the corner.

However, the surrounding was still dead silent.

Qilin felt that it probably had been hallucinating. How could a dead person possibly come back to life? It must have been thinking too much.

After verifying that, it buried its head back onto its front legs.

This time round, it sunk into deep sleep with a peace of mind.

Not knowing how long later, the person in the corner started to twitch again.

Immediately following that, it twitched one more time.

Again, and again.

Chapter 1575: Past and present life (1)

If there was light in the Qilin tablet, then spiritual beast Qilin would definitely be able to see it clearly that the man Li Moying whom it had already assumed was dead, had his entire face turned red as his forehead creased tightly bearing a painful expression.

The sweat on his forehead kept on dripping and very soon, the ground had a wet patch.

At the present moment, his entire body felt as though it was soaked in hot oil where every single part of him felt excruciating pain.

Not only that, he even sensed that his body which had originally exhausted all his Profound Energy had suddenly been filled up and moreover, it rose dramatically in an instance, as though it was about to split open all his meridians!

Following the passing of time, the sweat on Li Moying's body sprouted even more and his clothes were entirely drenched in sweat.

His consciousness was sometimes clear and sometimes blurry as a large amount of images flashed around in his mind, scene after scene, from his past life to the present life, all mixed together.

While in a trance, he seemed to have gone back to fifteen years ago.

...

On a biting cold evening in the most northern part of Soaring Heavens Continent.

He stood in the snow as he worked tirelessly to hurry to where Huang Yueli was located.

As he was in the middle of advancement, he forcibly stopped it and came out of his closed door cultivation hence Mu Chengying suffered a serious backlash. His cultivation dropped back all the way from ninth stage realm peak to ninth stage realm mid-level and every single meridian in his body suffered varying degrees of damage.

For this kind of situation, if he didn't stop to meditate and recuperate, then it was possible that he might not be able to return back to his original peak condition, not to mention breakthrough in the future. To a practitioner, that meant that his future was ruined.

However, Mu Chengying couldn't care less as he forcibly suppressed the urge to throw up blood, clenching his teeth tightly and still increased his speed to the limit.

He only had one thought in his mind and that was to go save Huang Yueli! Regardless of any cost!

"Li'er, I'll be there immediately, hand on and wait for me!"

But he was still one step too late.

By the time he reached the place where Huang Yueli was trapped, he only caught sight of the scene where Huang Yueli detonated her own dantian as flames filled the entire scene, turning up the temperature as raging fire attributed energy instantly consumed the entire Ice Fields!

There were several ninth stage realm practitioners around Huang Yueli and they had turned into charred bodies instantly. Even the layers of ice which never melted for a long time in the Northern Ice Fields, had a huge melted patch.

"LI'ER——!!!"

Mu Chengying eyes opened wide as he risked his life and rushed over.

But he could no longer reverse anything.

Huang Yueli burst into a fire image right in front of his eyes. Right after it killed all the enemies which had surrounded her, the flame seemed to revolve around Mu Chengying longingly once before dissipating slowly into the sky.

Mu Chengying stretched out his hand but didn't manage to grab hold of anything.

He fell onto the ground in extreme pain, for a very, very long time.....

...

A month later, Blue Profound Sect.

“Mu Chengying! You.... you trash!”

Liu Buyan barged into Blue Profound Sect flustered and exasperatedly as he directly pushed the guards who were blocking him as he entered Mu Chengying’s residence directly.

The minute he saw him, he didn’t give an explanation and immediately punched Mu Chengying on his face as he broke out swearing at him.

“Aren’t you very incredible? Aren’t you labelled as the number one top expert in Soaring Heavens Continent and you’re invincible? Since you’re so incredible, why can’t you even protect your beloved woman?? Why... did you let Huang Yueli die in front of you!! You’re really a piece of trash! If I had known that you are so useless, why did I even give her.....”

Give her up to you.....

Chapter 1576: Past and present life (2)

Liu Buyan choked with emotions but finally still swallowed the last few words back.

Since things had come to such a pass, this feeling of his would never be made known to anyone forever.

Liu Buyan howled wildly as he grabbed Mu Chengying’s collar, shaking him violently.

But very quickly, he realised that something was wrong.

Although the two of them were both in the ninth stage realm, but the disparity between their potentials was actually very huge. If it was usual, how would Mu Chengying possibly allow him to offend him in such a way and not fly into a rage?

When Liu Buyan thought of this, he turned his head and had a shock.

Mu Chengying’s face was ashen green and his eyes were lifeless with a disheartened look, as though nothing could possibly affect him. Even though his collar was being clutched by Liu Buyan, he seemed as though he had not noticed anything, only immersing him in his own world.

Liu Buyan saw his condition and was so shocked that his hand shook as he loosened his grip, “You.... what happened to you?”

Mu Chengying seemed as though he just realised that Liu Buyan had just arrived as he lifted his eyes to look at him and gave a miserable smile, “What’s wrong with me? What you say is correct, I’m certainly a piece of trash! I had once vowed to heaven that I will use my life to protect her, to let her be the same as when I first met her, without any worries... but, I actually let her die in front of me.....”

Mu Chengying buried his face into his hands as his heavily suppressed pained voice rang dully.

“Just a little longer, just a little longer... why didn’t she wait for me! Why can’t I be a little faster.... If I had got out of my closed door cultivation earlier, perhaps she wouldn’t have died.....”

Liu Buyan looked at his grieved look as though he wished he was dead, as his heart was stunned and developed a little bit of sympathy towards him.

Towards Huang Yueli's demise, Mu Chengying's pain was definitely not any lesser than his....

However, this thought just flashed by and he quickly reacted over.

Why should he sympathise with Mu Chengying? A man who couldn't even protect his own woman, other than trash, what else could he be?

He sneered, "Right, who asked you to be late by that one step? Who asked you to only have cultivation in your mind, and not her!"

Mu Chengying immediately refuted his words, "No, it's not like that... Li'er to me, had always been the most important...."

"Who are you trying to bluff? These words of yours might be effective towards other people but towards me? Don't I understand you well enough?"

Liu Buyan's gaze which was fixated on him seemed as though it was about to sprout fire!

"In your heart, of course cultivation is much more important. No matter how important Yueli was, she still could not be compared to your cultivation, isn't it? You're still trying to lie to me? Let me ask you, your closed door cultivation this time round, is it to breakthrough to tenth stage realm! If it wasn't because something happened to Yueli mid-way, have you already broken through to tenth stage realm? Don't tell me you are not aware that after the tenth stage realm, you will ascend to God Realm! You will leave Soaring Heavens Continent, isn't it?"

Mu Chengying was stump with this question as his face flushed red, totally unable to say a word.

Liu Buyan looked at his expression and his heart felt both infuriated and pained!

"Have you thought about what would happen to Yueli after you leave Soaring Heavens Continent? You have plenty of enemies in Soaring Heavens Continent and you're leaving her alone here? Let me tell you, her death is caused by you! Even if nothing happened to her one month ago, after you leave, you will eventually meet with the same end! This totally isn't coincidental!"

"No, it's not like that!" Mu Chengying frowned, "I know that all this is my fault but I really hadn't thought about leaving Li'er here alone. I have prepared...."

Chapter 1577: Past and present life (3)

"Prepare? Prepare what?" Liu Buyan totally refused to listen to him finishing his words as he snorted disdainfully, "After Yueli obtained the Sky Phoenix Ring, it was because of you standing behind her which was why no one dared to covet it! Ever since the news of you going into closed door cultivation to prepare for breakthrough tenth stage realm broke out, numerous people laid their eyes on her! Don't tell me you totally didn't sense anything at all! But you still went into closed door cultivation, isn't it?"

"If you really cared about her, would you allow her to go to Northern Ice Fields on her own? You should stay by her side at all times!"

"If... If... one really had placed her in your heart, that person would be willing to follow her to the ends of the earth! It's until now that I finally understand why she refused to agree to marry you! Because your

feelings always have a prerequisite and that is under the circumstances that your cultivation is not affected in any way, then you will place her into your consideration!”

“You... You are that kind of selfish b*strd!”

Liu Buyan completely blasted out everything he had hid inside his heart for so many years, as he blurted everything out at once!

He had once forced himself to give up, suppressing the feelings he had inside.

That was because he felt that his own potential wasn't powerful enough and he was unable to protect the stunning and talented lady like Huang Yueli!

He originally thought Mu Chengying could, Mu Chengying's innate talent and resoluteness deigned him to become Soaring Heavens Continent's number one! Further, he appeared to love Huang Yueli so deeply.....

Liu Buyan had once thought that Mu Chengying was much more suitable for Huang Yueli.

In order not to spoil the friendship between Mu Chengying and himself, and to let the woman in his heart to have a better life, he stepped down reluctantly.

But now, he finally realised that... he was wrong!

Perhaps he would never be able to chase up to Mu Chengying in terms of cultivation, but at least.... he would always place Huang Yueli in first place, willing to accompany her to anywhere in the world! Even if he would not be able to protect her eventually, he would never let her die in front of his eyes!

Mu Chengying sat despondently on the ground as the deep pain swallowed him completely. The throbbing pain in his heart made him unable to breath.

“It's not like that, I'm not what you think! Li'er... she really is more important than anything else.....”

He mumbled to himself but also knew that he had no way to explain himself.

It wasn't that he didn't place her in first place, but for the longest time, he had always assumed that as long as he was stronger, only then would he be able to protect her properly. Only when he was so strong that no one could match up to him, then would no one dared to offend his beloved woman.

Since the day he stepped into Sky Emperor City, it was love at first sight for him when he caught a glimpse of the graceful Young Priestess of the Mythical Flame Palace. All his hard work was so that he was worthy of her. Later on, it was to allow her to do whatever she wanted with a peace of mind, to behave unscrupulously.....

Everything he did was because of her....

Before deciding to advance, he already had a plan which was to ascend together with Huang Yueli.... he was only afraid that Huang Yueli might not be willing to do so, hence he thought of acting first and reporting later.

Whoever knew that this little intelligence of his made other people who were coveting his position mistook that he no longer placed Huang Yueli in his heart, hence deciding to make a move to kill her.

All these, ultimately, were all because of him.

So when Liu Buyan said he was the one who caused Huang Yueli's death, he indeed had no way to refute it.....

Furthermore, no matter what he said now was of no use.....

"Mu Chengying, this is my last time coming to look for you! From now onwards, we will go our separate ways! I, Liu Buyan..... don't have a friend like you!"

Chapter 1578: Past and present life (4)

Liu Buyan's heart grieved severely as he could no longer face Mu Chengying. Just from seeing him, he couldn't wait to strangle this former pal to death!

Liu Buyan left the words of severing their relationship and turned around to leave!

Mu Chengying sat in the room alone for a long, long time.....

He actually had not sensed when Liu Buyan actually left.

Even when his four guardians came over to persuade him, he totally had no response.

In his heart, there was only one thought, which was.... if he had another chance, he would stay by his Li'er's side every single moment, not letting her to go take any risks alone....

If.... there was another chance.....

Suddenly he seemed to have thought of something as he violently shook his head and stood up immediately.

The four guardians standing guard at the door heard a noise and stood up one by one to check things out.

"Sect Master, are you better? Do you want...."

However, Mu Chengying seemed as though he had not heard anything as he directly walked past them, heading straight towards Blue Profound Sect's scripture depository.

This place was the largest depository where all the scriptures are kept, as it had the most amount of ancient records.

Mu Chengying stayed in there for an entire seven days and seven nights without sleeping.

"I definitely remember... I obviously remember seeing it before around here....."

He tried his best to search through all the books as his heart was in a flurry. Anyone who saw him, would definitely feel that... he had already gone nuts!

When Mu Chengying finally reappeared, even his guardians had a great shock.

"Sect Master, you....."

Mu Chengying's look was no different from a dead person, only with his eyes gleaming with a raging glow!

"Everyone.... Do as I tell you to!"

...

Two months later.

Liu Buyan charged into Blue Profound Sect once again and this time, he was even more exasperated than before!

He simply could not believe such a thing! Mu Chengying.... had he gone nuts! He could even do this sort of thing?

However, even before he reached the top, he was already blocked in the middle of the path by Mu Chengying's guardians.

"Master Liu, please halt! Sect Master is now in closed door cultivation and has instructed this subordinate to not allow anyone to head up to interrupt him." Especially Liu Buyan.

The guardian spoke without any expression.

Liu Buyan did not hesitate as he struck out a move towards his chest!

"Make way! Don't tell me you don't know what your Sect Master is trying to do! Mu Chengying has gone crazy, are you guys going crazy as well?? How can he believe this sort of thing? Do you know what kind of price he has to pay? Get lost!"

Saying that, he shouted towards the mountain door, "Mu Chengying, Mu Chengying! Come out right now!"

Guardian's ability was far from Liu Buyan's and after taking a palm strike from him, he immediately threw up a mouthful of blood. But he still abided by his duties as he blocked the middle of the road, not retreating a single step at all.

"Master Liu, please don't make things difficult for me. Sect Master he has already instructed....."

"Instruct my a*se!" The usually graceful man of the troubled times finally couldn't help but spew vulgarities, "Don't tell me that you can open your eyes wide to see him do such things? That is much more painful than death.... no way! Move aside, don't force me to kill someone!"

"But..."

"What? You don't want to save him? If you do, then scram to one side!"

The guardian's hand clenched into a fist as he struggled for a very long time before finally nudging a step to one side.

His life was saved by Mu Chengying and this was the first time in his life to defy Mu Chengying's command.

Chapter 1579: Past and present life (5)

But he couldn't not do that!

Because he really didn't want to see, Sect Master Mu whom everyone worshipped falling to that kind of ending!

Moreover now, Miss Huang was no longer around so if there was anyone who could persuade him, it would be Liu Buyan!

Liu Buyan took quick steps and rushed into Mu Chengying's mountain valley which he went into closed door cultivation in.

At this present moment, it was already midnight and the sky was filled with stars with the moon especially bright, illuminating every corner of the entire valley.

When Liu Buyan charged into the valley, he saw Mu Chengying sitting cross legged on an empty space under the moonlight. From the looks of it, he seemed to be cultivating.

Liu Buyan saw this and was extremely surprised.

He thought that he would see.....

"You... what are you doing?"

Mu Chengying suddenly opened his eyes as a cold smile hung by the corners of his lips, "Master Liu, what a rare visitor! If I don't remember wrongly, you seem to have said this yourself that you will never step into Blue Profound Sect anymore and you no longer wanted to see me. Such a short span of time... and you're already regretting it?"

When Liu Buyan heard that, he recovered from his shock.

"You... stop acting! I've already heard that you're getting your man to collect.... That thing! And you've already collected everything! I know what you're trying to do!"

Mu Chengying smiled faintly, "What do I want to do? What do you know? I'm collecting that thing because Li'er loved it before and I'm using it to remember her, why? Can't I do that? What does it have to do with you?"

He made it sound so easy that for an instance, Liu Buyan almost assumed that he had really made a misjudgement, that Mu Chengying really didn't have that intention.

But very soon, Liu Buyan saw the evident greenish black colour under his eyes which was caused by the repeated depletion of Profound Energy.

"Do you think I'm an idiot! That ancient record was discovered by the both of us that year! I know what you're thinking of doing, you're nuts you're really nuts! That is merely a subjective idea left behind by the predecessors and even the senior who wrote that ancient record had never done such a thing! That would definitely not succeed!"

"How do you know it's not possible!" Mu Chengying's idea was exposed by him so he totally couldn't be bothered to continue acting, "As long as there's a hint of hope, I will give it a shot!"

Liu Buyan shook his head in disbelief, “Do you know what you’re saying? Life and death are ruled by fate! The dead cannot be revived! Moreover, Yueli’s soul had been scattered, it’s not an ordinary death! My pain isn’t any lesser than yours but we must learn to accept the truth! Some things, since it has already happened, there would be no way to reverse it forever.....”

“Truth? What truth? How am I supposed to accept it?? I totally cannot accept it!!”

Mu Chengying suddenly shouted out as he broke down, rebutting Liu Buyan’s words. All the pretence of being calm and steady suddenly turned into naught.

Liu Buyan gritted his teeth as he glowered at him angrily, “Cannot accept it? Now then you say you cannot accept it! What were you doing before that? Do you think that by doing this, it would lessen your guilt? Did you think that by doing this, Yueli would feel happy in her grave? You can’t regain anything at all! All you want is to reduce your own guilt!”

Mu Chengying’s thoughts seemed as though the nail had hit on the head as he started to shake violently.

But after a while, he forced himself to calm down, “Up to you on whatever you want to say. No one can stop me on the things I want to do! Haven’t we already severed our friendship? Why have you still not scrambled away?”

Chapter 1580: Past and present life (6)

Liu Buyan was so infuriated that his face turned green!

“Right, I’m acting low, coming to stop you even after our friendship has been severed! But I came not because of you. I just don’t want Yueli to see a trash like you tangling onto her even when she’s down there! If you’re in a hurry to go die, no one will stop you!”

Mu Chengying’s gaze swept towards him as his voice was incomparably cold.

“Liu Buyan, do you know why you can’t win me?”

This sentence was cold and calm, but it seemed like lightning striking onto Liu Buyan!

He thought he had concealed it very well but he didn’t expect that this little thought of his had been completely seen through by Mu Chengying!

Just as Liu Buyan was so shocked until he couldn’t move, Mu Chengying’s words continued to ring in his ears.

“This is because... you’re a rational man, whereas I.... am a lunatic! You will keep thinking that because you don’t have enough power so you will only start wooing her after you have made a name for yourself. You will give her up to me because you cannot protect her. You will also not do anything meaningless just because she’s dead, only silently mourning for her, but I.... am different!”

“I only know that I want her, I want her to be mine, whether she’s up in the skies or deep down in the earth, I will follow her in life and death! She can forget about casting me aside!”

“Perhaps you’re right, all I am doing might be useless but even if I can’t do anything, at least I could try to follow her in having my soul scattered, to have a feel of what kind of feeling it is?”

Mu Chengying was saying that and he actually smiled.

However, that extraordinary good looking face now seemed especially sinister. Accompanied with that smile, it made one feel terrified.

“Mu Chengying... you’ve really gone nuts!”

“I am nuts.... From the first day I met her, I have already gone nuts!”

Mu Chengying rose up his head suddenly and laughed wildly, “Let me be a complete lunatic this time! I’ve already said whatever I should so you can leave now!”

After his words, he waved his sleeve ferociously and an incomparably powerful Profound Energy came sweeping towards Liu Buyan.

Liu Buyan’s power originally wasn’t very strong and as he was caught off guard, he totally had no form of resistance as he was directly sent flying out. He flew for a dozen or more feet before he fell onto the ground.

But he wasn’t hurt in any way as he turned around and rushed into the valley once again.

However this time round, the valley was enveloped by a huge array. Many coloured array patterns kept on lighting up from the exterior of the array, blocking his view thus he was unable to see the situation inside at all.

Liu Buyan wanted to charge in but the minute he got near, he was expelled by the array.

“Mu Chengying, Mu Chengying!!”

He called out anxiously but there was no response at all.....

A burst of seven coloured flowing lights charged up into the sky.

...

Li Moying’s head became more and more painful as numerous memories instantly surged into his brain.

These memories were too complex, as though it was going to split his head apart. It caused him to be dizzy as his brain hurt so much as though it was about to explode.

At the same time, his body sensed the brilliance of the full moon and the Profound Energy in his body grew more and more abundant, as though it was going to flow out from his body!

His entire body was in unbearable pain and he finally couldn’t help but gave a moan.

“Hng.....”

Not only that, while he was unconscious, initially he turned around and struggled repeatedly as though he wasn’t able to bear the pain from the inside of his body.

Li Moying’s groan became louder and louder.

Spiritual beast Qilin which laid on the centre position of the stone tablet sensed something as it slowly opened its eyes.
