

Weaponsmith 1581

Chapter 1581: Rise from the dead (1)

At the beginning, Qilin was still a little dazed, apparently not understanding why the Qilin tablet had already returned back underground and it would still suddenly be awoken.

But immediately following that, the intermittent moans from the corner made it suddenly awoken.

Qilin's pair of bronze bell eyes opened as it swept towards the corner and only one look and it was completely shocked.

Although it was absolute darkness, but spiritual beast's vision far surpassed humans hence it could clearly see the figure was kept on twitching on the ground.

"What's going on? Hadn't this little fellow already died completely? How did he suddenly start to move again?"

Qilin raised its front paw and rubbed its eyes, thinking that it had developed a hallucination.

However, the truth was placed right in front of it.

The 'dead corpse' in the corner actually rose from the dead!

"This isn't possible eh? Earlier I obviously witnessed it with my own eyes that his Profound Energy was totally exhausted and under this kind of situation, he would breathe his last within two hours! How is it possible that he actually came back to life? Something's wrong, this is not right!"

Qilin muttered to itself as it stood up from the ground and walked towards the corner.

The minute it got nearer, it could see even clearly.

Li Moying kept rolling around as he cramped up, apparently suffering a huge amount of pain. Qilin had even sensed that there was an extremely powerful energy in his body, which would explode out at any point of time!

Li Moying's condition was extremely bad but no matter how bad it was, he... was still alive!

Moreover, from the way that his eyelids trembled, it seemed as though it wouldn't take long for him to open his eyes to regain consciousness.

"This... what should I do? He actually came back to live in such a manner!"

This time round, Qilin was really dazed.

It had never committed such a serious mistake, to cut off the refinement while the person in the Qilin tablet was still alive, and even bringing that live person underground!

This was a complete violation to the Qilin tablet's operating procedure!

Moreover, since Li Moying wasn't dead, this refinement shouldn't have ended. Could it be that... he should go up ahead to deal with Li Moying a fatal blow before he regain consciousness completely?

To tell the truth, spiritual beast Qilin could not bear to do so.

It was experienced and knowledgeable so how would it not know that a peerless expert like Li Moying was extremely rare in the entire God Realm, enough to become Cloudy Qilin Clan's future leader.

Earlier even after experiencing that fatal refinement, he was lucky enough to have survived. That meant that he had soaring luck and was genuinely unmatched in his generation!

If it had to kill him, it would defy heaven's will and perhaps it might even affect the entire Cloudy Qilin Clan's luck!

While spiritual beast Qilin was hesitating, it suddenly sensed roars of thunder coming from the sky, as a powerful suppression surfaced on its heart.

It immediately realised that this was the beginning of the operating procedure of the Qilin tablet!

If any live person entered the Qilin tablet, then it must attack that person until that person gave up or if any one of them were killed!

This was the natural regulation which spiritual beast Qilin, which had been sealed as the spirit artefact, could not defy!

Under the drive of this kind of oppression, the colour of Qilin's eyes turned darker and darker as the rationality in its mind started to turn weaker and its beast nature was completely unleashed!

“RAWR—!!”

Spiritual beast Qilin raised its neck upwards and gave a raging howl, totally unable to control itself as it pounced towards Li Moying's body!

Chapter 1582: Rise from the dead (2)

Spiritual beast Qilin's body moved and it brought along the hibernated thunder attributed energy within the Qilin tablet.

The entire stone tablet space was charged with the electric current power as it gave off a serene yet terrifying blue purplish glow.

This glow reflected onto Li Moying's face, making his terribly pale complexion look no different from a dead man.

Electric currents speedily gathered into spiritual beast Qilin's body and not too long later, it made Qilin's aura rise to the maximum!

Following that spiritual beast Qilin's claw waved outwards and a raging lightning kept on flickering under its claw, as though one would be torn into two halves if one was touched by it!

However, just at the instance when Qilin touched Li Moying, the originally unconscious man suddenly opened his eyes.

Qilin was now helpless but upon seeing Li Moying opening his eyes, it suddenly had a regretful thought in its mind.

No matter what, such an excellent practitioner dying here, was really a huge pity.....

But at this moment, it suddenly realised that something was wrong with Li Moying. His gaze was exceptionally cold and emotionless, so penetrative as though it could shoot through one's soul.

From just one look, Qilin sensed a chill running down its spine!

At the same time, Li Moying's agitated Profound Energy instantly exploded!

"BOOM——!"

Heaven shattering explosion rang and the entire Qilin tablet started to shake uncontrollably as the limestones from the wall kept on falling off.

A blinding lightning suddenly lit up, with an aura which pressed forward, the might of the thunder attribute energy coercing one's heart to tremble, as it came blasting towards spiritual beast Qilin's direction.

This lightning contained energy which was incomparably pure. Even a matured spiritual beast like Qilin was in awe till it couldn't move a limb!

Qilin was only able to see that burst of silver thread like lightning flash past and immediately following that, it sensed extreme pain which ran through its entire body!

"I... am going to die??"

It's mind only had this thought and following that, it completely lost its consciousness.

In the Qilin tablet, Li Moying had already unknowingly stood up.

If Huang Yueli was around, she would be able to tell that even though his faze was sharp and horrifying, but he had no spirit.

Evidently, his Soul Detachment Illness had acted up once again!

Li Moying's conscious was blurry and the large amount of images in his brain made him blurred out his past and present lives. He wasn't sure where he was, only knowing that he... must kill all those who stood in his way, clearing all obstacles! He must return to his beloved woman's side!

Anyone who dared to obstruct him.... would only have a death ending!

Li Moying clenched the Amethyst Light Sword tightly and with a wave of his sword, the surging Profound Energy within his body was unleashed along with the sword blade!

That sword ray directly shattered the Qilin's spiritual body!

Just one move and the original spiritual beast which left him soaked in blood earlier, was eliminated with just one move!

However, the sword ray's energy had not diminished. That dazzling ray had not even weakened as it directly crashed onto the top part of the Qilin tablet!

Qilin tablet had suffered this kind of attack and started to shake violently, as though it would be shattered from the Profound Energy unleashed from him!

Li Moying raised up his Amethyst Light Sword emotionlessly as he prepared to make a move.

But right at this moment, small blue purplish light balls started to gather from the Qilin's spiritual body which had been shattered by him as it directly injected into his meridians.

Chapter 1583: Rise from the dead (3)

Li Moying's movements paused as he clearly sensed those thunder attributed Profound Energy entering his body, instantly raising the Profound Energy in his body to another new height!

The current him was originally in ninth stage realm peak condition.

After spiritual beast Qilin's Profound Energy entered his body, the Profound Energy within his body grew so abundant as though it was about to expand and split him up!

Especially the Profound Energy in his dantian, it kept on charging against his body's limit as though the very next moment, he would advance once again!

Li Moying uncontrollably raised up the long sword in his hand as he struck again!

His current condition was incomparably near to tenth stage realm and the might of this sword was so powerful that it was totally unimaginable.

For an instance, thunder attributed energy exploded.

Sword glint directly split through the top part of the Qilin tablet, shooting into the sky!

This time, even the ground started to shake violently, like an earthquake.

The ground in the core region shattered completely as bursts after bursts of ground splitting cracks appeared and the energy's aftermath scattered out towards its surroundings!

By the time the vibration stopped, the top part of the Qilin tablet had already been penetrated through by Li Moying's sword qi, revealing a huge large broken hold.

The full moon's beam penetrated the broken hold and shot into the inside of the stone tablet, landing onto Li Moying's body.

Under the irradiation of the moonlight, the turbulent Profound Energy in his body finally started to subside a little.

However, his peerlessly handsome face was still shrouded with a dark and gloomy expression as his gaze was so deep that it was unfathomable. His perfectly sculpted peripheral view was like a cold sculpture under the moonlight.

Following that, Li Moying leapt upwards and jumped out from the hole on the top part of the stone tablet.

...

Huang Yueli summoned up all the existing Profound Energy in her body as she faced the lightning which was coming at her.

Even though she knew that it was definitely impossible for her to survive under such a strong intensity attack, but she could only braced herself to resist for the last time!

The minute the appalling and mighty lightning rained down on the top of her head, the ground suddenly shook.

Huang Yueli's feet were unstable as she wasn't able to stand still from the shaking, as she fell onto the ground.

On the mountain, a large rock dropped down and luckily and coincidentally blocked the top part of her body.

Three bolts of lightning simultaneously fell onto the huge rock, turning the vast sized, rock solid White Mist Rock turning into powder instantaneously.

Huang Yueli sprawled onto the ground as the powder fell all over her body. She looked as though she had just been dug out from the mud and as compared to much earlier, she was in a much sorrier state by ten times or more!

However, Huang Yueli felt extremely fortunate because she was really too lucky to have survived in such a situation!

Alas, her joy only lasted for a short span of one breath.

Because her good luck did not allow her to really escape danger. The three magical beasts paused for a moment and immediately stretched out their claws, as they struck an attack posture.

But it seemed as though Heavens was intentionally on her side.

Just as the three magical beasts were prepared to make a move again, the ground started shaking again and furthermore this time round, the sky spun and earth went round while the ground shook and mountains swayed!

The ground shook violently and cracks appeared below their feet. Large rocks kept on falling down and fell all over the heads of Huang Yueli and the three magical beasts.

Huang Yueli hurriedly extended her footwork to evade.

The three magical beasts also hurried to evade the falling rocks and they weren't concerned about continuing to attack her for the moment.

Huang Yueli's heart leapt with joy as she moved towards the direction far away from the magical beasts. But due to the falling rocks, she could not move too quickly.

Chapter 1584: Rise from the dead (4)

The ground vibrated vigorously for a quarter of an hour or so before it slowly stopped.

Right now, Huang Yueli had barely moved a distance of five hundred meters and was still in the attack boundary of those three magical beasts.

Sending that the ground was no longer shaky, Huang Yueli went into a blank.

“Damnit, why is it not shaking anymore! Isn’t there an earthquake? Quickly continue to shake!” She clenched her teeth as she screamed in exasperation.

But this time, the ground really stopped shaking!

Huang Yueli was so anxious that she nearly threw up blood and lifted up her head, she saw those three magical beasts had already calmed down as they cast their gazes onto her once more.

Furthermore, this time round, their gazes turned even more malicious and even more savage.

Apparently, this kind of prey which they could swallow in one mouth had escaped a number of times right when she was in their claws, and had thoroughly spiked that beast nature!

Huang Yueli was screaming inside her heart that things were far from good as she immediately turned and ran.

Alas, it was too late. When she heard the bursts of electric currents breaking in the air, she knew that she would definitely not be able to escape death this time round.....

Huang Yueli shut her eyes as she waited for the lightning to strike her to death.

However, the expected pain did not descend on her. Not only that, she even heard peals of miserable shrieks coming from behind her and following that was the sound of a heavyweight item crashing onto the ground.

Huang Yueli’s footsteps took a halt and before she was able to turn her head around, she suddenly felt a powerful aura in the air, even stronger than those three magical beasts’ aura, much more overbearing by a hundred times!

But this terrifying Profound Energy aura gave her an extremely familiar feeling, so familiar that... she almost shed tears on the scene.

Huang Yueli turned her head around in a daze and she saw a tall and lanky figure, standing behind her not too far away.

That man stood in the darkness and his eyes were covered by the shadow. But from the contours of his lower jaw, she could tell that he was an extremely good looking man.

When Huang Yueli saw him, her tears started rolling down.

“Moying... Moying!! You’re not dead, you’re really not dead!!”

She leapt upwards as she flew towards Li Moying and pounced into his arms, tipping her toes up as she hugged his neck.

“Boo hoo hoo, you really scared me to death, I thought you were a goner for sure!! What exactly happened? Why haven’t you appeared for such a long time, do you know that I’d be worried? You badie, big badie!!”

Huang Yueli rubbed her face against his chest, as she rubbed all her tears and mucus onto him as well.

She had not cried for a very long time because she had always believed in her own strength, not believing that tears could change anything hence she didn’t allow herself to be so soft!

But at this moment, she completely couldn’t control her own emotions, as that strong and unyielding lady disappeared from her body.

What was left in her shell was an ordinary young lady.

One who was worried and scared over her fiancé’s disappearance, who had turned into a frail ordinary young lady!

Noticing this point made Huang Yueli feel even more vengeful.

She cried for a long time in Li Moying’s arms and slowly started to calm down. She stretched out her hand and whisked Li Moying’s top to wipe her tears, and at the same time punched him with her little fists with fury.

“It’s all your fault, causing me to be so embarrassing.... All your fault for scaring me!!”

She mumbled and suddenly, sensed that something was not right.

Because Li Moying had been really too quiet.

If it was usual times, seeing how sadly she cried, this man would have felt extreme heartache.

Chapter 1585: Rise from the dead (5)

He would probably have been hugging her nervously, comforting her so how could he possibly be that silent?

Huang Yueli’s heart jolted as she hurriedly raised her head up.

The next moment, her eyes met with a night-like dark pair of pupils and that pair of eyes even had occasional flashes of bluish purple currents. Under the moonlight, he seemed extremely terrifying!

Whereas this man’s Profound Energy’s fluctuations were so powerful beyond anyone’s imagination.

Electric currents kept on flickering around the duo, giving off a buzzing exploding sound, as though it would explode at any point of time.

Huang Yueli’s body instantly went stiff as she subconsciously raised her head to look at the sky.

When she saw that bright full moon, she immediately understood what had happened.

“You... Your.... Soul Detachment Illness acted up again?” She asked carefully.

However, apparently, Li Moying would not answer her.

That pair of cold and stern eyes was fixated on her without a single word or a single movement.

Even though his surrounding Profound Energy was on the verge of explosion, but Huang Yueli who hugged him tightly was still unharmed. Even after such a long time of crying while hugging him, not one part of her was electrocuted at all.

Huang Yueli realised this and her lips couldn't help but curled into a smile.

“Sigh... really, every time you need me to save the hero in distress.....”

Saying that, she tipped her toes up as she raised her head to block Li Moying's lips.

Li Moying's subconscious was originally rather blurry. He walked all the way here to kill the magical beasts and saved Huang Yueli because of the murderous intent of his Soul Detachment Illness. These three magical beasts were the nearest living creatures hence it attracted him over.

When Huang Yueli pounced towards him, for one moment, he almost struck out directly.

But not knowing why, the electric currents in his hand had already gathered into a light circle but he wasn't able to lift his arm up no matter what and could only watch helplessly at this dirty young lass pouncing into his arm while crying and rubbing him.

As his past and present lives' memories are mixed up in his mind, Li Moying's head was so painful that it was about to split open so he couldn't remember who this young lass was.....

Until Huang Yueli kissed his lips.

That familiar sensation, familiar presence as it instantly emitted into his body, making his raging Profound Energy comforted gently by an invisible big arm.

His consciousness slowly cleared up.

This presence....

Yes, that's right. This was that presence which he had crossed over his past and present life, seeking again and again in spite of all the setbacks, forever going crazy over.....

The presence of his beloved woman....

His Li'er....

Li Moying's surrounding aura slowly restrained itself as the Profound Energy in his body slowly went back to original. He locked onto Huang Yueli's slender waist and turned from guest to host as he brought her into his arms and wildly but passionately started to kiss her.

He seemed to place all the experiences such as terror, worry, self-blame, regret, in his confused memories.... Melding everything into this scorching passionate kiss.

Li Moying's kiss became stronger and stronger, wilder and wilder, as though he was going to swallow her into his stomach.

Huang Yueli felt Li Moying kissing her back. Initially she was rather happy over it because it meant that Li Moying's Soul Detachment Illness was under control and he was about to regain back to his normal self.

But after a while, she felt that something was amiss.

Li Moying's kiss was too devoted as he locked on to her tightly and the intensity of his strength almost broke her waist.

Chapter 1586: Rise from the dead (6)

Huang Yueli subconsciously started to struggle, trying to push this man aside.

But Li Moying's strength was just too strong and the arm around her waist was like metal. No matter how hard she pushed, she was unable to struggle free.

Not only that, as she continued to struggle, Li Moying became even more impatient and his actions started to become even more intensive.

He suddenly raised his head up and left Huang Yueli's lips.

Huang Yueli hurriedly took the opportunity to take in deep breaths, feeling that she was about to suffocate!

However, right before she had finished panting, Li Moying pinched her lower jaw forcing her to raise up her head and started to kiss her once again.

This time round, Li Moying simply locked her lower jaw leaving her unable to move totally hence she could only obediently take in his close-to venting wild kiss.

Originally Huang Yueli still struggled a little but subsequently, she was conquered by that raging sensation as she subconsciously threw herself into his arms befuddled.

By the time Li Moying finally released her, Huang Yueli's lips had already turned swollen and her skin was broken as the corners of her lips had some blood stains left behind.

Huang Yueli blinked her eyes in a daze, realising that she had regained her freedom.

She jumped right up and used both hands to cover her swollen lips as she berated him in exasperation, "Li Moying, you lunatic! Which artery had been connected wrong, do you need to act like this? You, you, you.... are really too much!"

Whoever knew that after Li Moying heard that, not only did he not repent, he even started laughing as his eyes shot past a sliver of reminiscence.

"Bingo, what you said is right, I am a lunatic...."

Past and present live, only crazy for you....

Really, he was extremely grateful to heavens, for allowing him to complete something which no one had successfully done before, allowing this young lady to be reborn right in front of him....

Huang Yueli was extremely upset because this man was just too sickening, and he didn't know how to repent!

She raised up her large watery eyes as she gave him a furious stare, "You.... don't think that you've escaped death then you can act like this! You must apologize!"

Li Moying didn't make a sound.

Huang Yueli became angrier as she couldn't help but gave him a push, "Why aren't you saying a word?"

Whoever knew that her hand had just brushed onto Li Moying's body and that man just followed according to her strength and fell backwards.

Huang Yueli had a huge fright!

Because she totally hadn't used much strength. Not to mention what kind of peerless strong practitioner Li Moying was, even an ordinary child who didn't cultivate would not fall in such a manner.

She went into a blank and finally reacted and stretched out her arm to catch him.

Li Moying fell into her arms and the energy from his body seemed to have been sapped dry. He totally had no strength and the colour in his face drained away cleanly within a couple of breaths.

"Li Moying! Wake up, what the matter!!"

Huang Yueli shook him but could only hear him coughing slightly as a sliver of blood dripped down from the corner of his lips.

Huang Yueli didn't dare to move casually as she laid him flat on the ground. She retrieved various kinds of medication from her space and shoved it in handfuls into his mouth. At the same time, she tore open his shirt as she started to clean and bandage his wounds.

Upon seeing Li Moying's body filled with various injuries, there were even a few which were obviously fatal injuries, Huang Yueli's heart started to tug him tightly.

"Luckily... luckily you came back alive, I knew that you wouldn't leave me alone."

Chapter 1587: Returning back to ninth stage realm (1)

Li Moying was originally seriously injured in the Qilin tablet and later on when his Soul Detachment Illness acted up, it hurt his state of mind hence he was unconscious for a longer time this time round.

This wasn't the first time Huang Yueli experienced this hence she wasn't as nervous as previous times. After ascertaining that his pulse, breathing and Profound Energy fluctuations were normal, she rested her heart and moved him into the small little cave which they had once stayed for a little while to recuperate.

Luckily after Li Moying appeared, Little Qilin also revived immediately as it leapt and frisked about unleashing its might to awe those sixth and seventh levelled magical beasts around the boundary of the valley. Hence during the period of time when Li Moying was recuperating, they hadn't met with any danger as everything went along smoothly.

Seven days later very late into the night, Huang Yueli was sleeping soundly.

Although they were only temporarily residing here to recuperate, she had always emphasized heavily on the quality of living so she redecorated the cave, placing thick bedding on the ground and also set up an array in the cave which became a warm and comfortable place to live in.

Little Qilin laid in her little den by her feet but to show the disdain towards the Sacred Phoenix's little chick, it used its little bottom to face it.

She was in a daze when she seemed to have heard a strange sound.

Huang Yueli opened her eyes and looked towards Li Moying's direction and immediately sobered up then climbed up.

Li Moying who was lying not too far away suddenly kept flipping around and even gave deep groans with an extremely uncomfortable look.

Huang Yueli walked over as she bent down and looked at him worriedly, "Moying, what's the matter? Which part of you feels uncomfortable?"

Li Moying's eyes opened up into a slit as his lips opened up slightly.

Huang Yueli saw him regaining consciousness and gave out a joyful look as she leaned in close to him.

She only heard Li Moying's weak breathing as he said, "You.... you hide further away a little, I think I am.... about to advance....."

Huang Yueli's eyes widened, "What did you say???"

Before Li Moying opened his mouth again, an earth shattering thunderous sound was heard from the sky.

Following this bolt of deafening thunder, the entire cave kept on shaking as bolts after bolts of lightning descended from the sky, penetrating the mountain walls as it flowed into Li Moying's body.

Strong thunder attributed Profound Qi filled the entire cave as sounds of pitter pattering electric currents were heard coming from the sky.

Huang Yueli basically couldn't withstand this strong aura as her chest felt a turbulence of her qi and blood hence she hastily retreated backwards.

She retreated several thousand miles away before she finally felt slightly better, at least she didn't feel like throwing up blood.

Originally she wanted to bring little Qilin along but whoever knew that when this little thing sensed electric energy, it wriggled out from her arms immediately as it flew towards the centre of the lightning, casting this female Mistress of it aside.

Huang Yueli could only sit down alone at a hill far away, looking afar at the position of the previous cave.

Precisely speaking, that location was no longer a cave.

Within a short span of a quarter of an hour, that entire mountain had already been flattened to ground level by the continuously descending heavenly thunder. It even struck the falling stones from the mountain into charred greyed dust.

Li Moying's body was lifted to the middle of the sky by the electric currents' might and on his back was a pair of thunder wings which seemed even more distinct than when she first saw it.

When he was in the seventh stage realm, that pair of wings was not totally visible and was only in the form of an energy body but now, it was clearly seen in fine details with substantial essence seemingly no difference from a real pair of wings.

Chapter 1588: Returning back to ninth stage realm (2)

Li Moying was surrounded by dazzling brilliant purple electric currents.

Bolts of lightning surrounded him to form a large zone filled with flickering thunder bolts.

In this piece of thunder attributed energy formed zone, every single inch of energy was under Li Moying's control.

Anyone who wanted to get close to him would be turned into ashes with just a single thought.

This thunder zone almost enveloped the entire valley as the abundant Profound Qi gushed through the clouds, all the way till it enveloped the top part of Violet Sun Valley's thick fog, illuminating the entire sky as though it was day time!

When Huang Yueli saw this from far away, her little mouth formed an 'O' shape, totally unable to close up.

"What on earth.... He is going to advance into the ninth stage realm already?? He had plainly just advanced into the eighth stage realm a few days ago!! Both of us are god grade geniuses but why is he advancing much faster than me? What on earth happened?"

With her eyes, she could naturally see that the Profound Energy fluctuations had already reached the limit of the ninth stage realm and the entire valley's thunder attributed Profound Qi were all gathered on him, which was barely enough to supply him the energy for advancement.

Not only that, his body also began to undergo changes. Under the invasion of the electricity, his skin started to break into tiny pieces as it started to grow out inch by inch. His entire body kept on sprouting blood and that original peerlessly handsome face looked even more sinister than a demon!

Huang Yueli had once experienced the process of advancing into the ninth stage realm so she knew clearly that failing to succeed and the changes of shedding one's mortal body to exchange one's bones were the signs of advancement.

Because for those practitioners under the eighth stage realm, even though their abilities far surpassed ordinary people, they were still human. But once they advanced into ninth stage realm, their substance had actually entered half god realm territory so no matter if it was in terms of Profound Energy's flow or the strength of their meridians or body, it was a huge difference from eighth stage realm!

Because of them, when one was below eighth stage realm, challenging someone beyond the big realms wasn't too difficult but ninth stage realm practitioners, no matter how weak their combat power was, there wasn't a possibility of being defeated by eighth stage realm practitioners!

The only one who could cross realms, challenge against a ninth stage realm practitioner and win was probably only Li Moying alone.

But after today, he need not do any cross realms battle again.

Huang Yueli looked from far as she got rather nervous and her hands had already clenched into fists while mumbling silently, "How could there be such a huge formation.... Even when Mu Chengying advanced then, the surrounding thunder zone wasn't that strong! Today there aren't any ninth stage realm and above practitioners guardians around, Moying, you've got to be careful!"

To a practitioner, the stronger one's innate talent was, the more powerful the strange phenomenon would be attracted to, and the stronger the ability after advancement would be!

And at this present moment, Li Moying had already gathered all the thunder attributed energy from the entire Violet Sun Valley onto him. With a raise of his arm, he would be able to cut across mountains and rip apart heaven and earth.

But his body still seemed like a black hole, continuing to absorb the Heaven and Earth Profound Qi.

Violet Sun Valley and Cloudy Qilin Mystic Region originally had an array to mutually isolate each other but under the impact when he gathered the energy during advancement, the array kept on shaking violently.

Huang Yueli raised her head to see bursts of light flashing continuously in the sky. Those were the array patterns which were being activated continuously from the exterior of Violet Sun Valley, obstructing Li Moying from absorbing the Profound Qi from outside the valley.

However, this condition only maintained for a short period of time and not long later, an intense bursting sound was heard coming from the mid-air!

Chapter 1589: Returning back to ninth stage realm (3)

The ancient array outside Violet Sun Valley finally could not withstand the impact from Li Moying's Profound Energy as it collapsed completely!

The energy required to forcibly shatter an array was ten times the energy required to maintain an array so it was imaginable just how strong the gathered thunder attributed energy which Li Moying had gathered was.

The array collapsed and caused a huge force of impact as it blew Huang Yueli away in a moment.

Huang Yueli's body drew out an arc in mid-air and she was almost going to fall heavily incurring serious injuries. She hurriedly summoned Little Phoenix making it speedily grew larger as she sat on its body to leave the thunderous core zone.

One lady and one phoenix flew all the way to the boundary of the Cloudy Qilin Mystic Region before they finally stopped.

The only advantage was that since Li Moying had already absorbed all the thunder attributed energy from the valley, those magical beasts which had been reared in Violet Sun Valley and had automatically attacked Little Phoenix had all turned into energy balls, merging into his thunder zone.

So Little Phoenix was no longer afraid of appearing.

But under several impacts from the energy, Huang Yeuli had already turned ashen faced as she sat on the grass in an extremely dishevelled state.

Little Phoenix also turned back into a little shota look as he sat by her feet, staring at afar in a daze.

“H...H... Heavens! Big Demon Lord is going to ascend to God Realm?? Isn't that a little too fast! You've just gotten engaged and he's going to abandon you?” Little Phoenix's chin almost dropped onto the ground.

Huang Yueli swept him with a glance, “Stop talking rubbish, Moying is merely advancing into the ninth stage realm! It's still too early to ascend!”

Although she said that, Little Phoenix's words still made her feel a slight crisis.

Originally the gap between her cultivation and Li Moying's had shrunk but whoever knew that after Li Moying entered the Cloudy Qilin Mystic Region, he actually broke through two large realms, ditching her aside by a huge chunk again!

No way, she got to work hard in order to ascend together than her fiancé!

Little Phoenix was still making a big fuss, “Ninth stage realm, are you kidding me! How is that possible? Thinking of cheating the young me, as though I've never seen a practitioner advancing? When I was with my brother in God Realm, I've also experienced a lot of things alright? There are so many geniuses in God Realm but none of them had caused such a shocking phenomenon while advancing to the ninth stage realm! If it wasn't for the lockdown of the barrier from the outside of the Cloudy Qilin Mystic Region, I think he would even poke a hole through the sky!”

Huang Yueli looked at him, raising his voice with that exaggerated tone, making her lips twitch.

“Enough, stop shouting! It's a crucial moment for Moying to advance and if you affect him, see if I will beat your butt or not!”

Wang Cai covered his little butt in a conditioned reflex as he guarded against her.

“You... if you dare to cast domestic violence against this little lord, I will not allow you to mount on me in future!”

Huang Yueli was about to speak out when she heard an earth shattering sound from the sky as thunder and lightning swept across the entire mystic region, almost blinding everyone's eyes.

Huang Yueli immediately prowled down as she put out a defensive posture.

“Wa.... Save me!”

Little Wang Cai whooshed and snuck into her arms as his little body kept on trembling, his little face turning pale.

Oh my goodness! Female demon's fiancé is really too terrifying! Was he really breaking through to the ninth stage realm!?

But he was still in the seventh stage realm when he first entered the mystic region and now it was scary enough that he was breaking through to the ninth stage realm. Tenth stage realm of course wasn't possible.....

But the strange phenomenon... was something which he had not seen before in God Realm!

That's it, Big Demon Lord was so amazing so it definitely had no way to stick out in future!

Chapter 1590: Returning back to ninth stage realm (4)

Right now, Li Moying himself wasn't feeling very good.

The process of failing before succeeding wasn't only on the dermatological surface but it also penetrated deep into his bones and internal organs.

Every inch of his body had been purified by electricity while purging out the impurities in his body and that pain was indescribable with mere words.

But this to him was an experience and besides, his tolerance level had always been rather high so the physical pain wasn't a big problem for him at all.

What made him really in pain was the splitting pain from his primordial spirit, as though his brain was about to split open. Various complex memories kept on flashing past. As though it could no longer take on the strong suppression from his advancement, which might completely burst anytime, anywhere.

This wasn't an illusion but under the kind of strong intensity thunder attributed energy, it was possible that his soul might be scattered at any point of time.

Li Moying was very clear on how this situation came about.

It was the price which he had to pay for his heaven defying action in his past life!

In reality, he himself wasn't as optimistic as Huang Yueli because only he himself knew that his advancement this time round... he might not be able to succeed!

Every single time he advanced, the risks he had to take on were much higher than ordinary practitioners. Although it looked as though his cultivation speed was swift, but the higher his cultivation, the more risks he had to undertake.

So much that the danger level when his Soul Detachment Illness acted up, was in line with his cultivation.

Liu Buyan had once told him that the best way of curbing his Soul Detachment Illness was to never advance forever.

But for a genius practitioner like Li Moying, how could he possibly accept himself to be a weakling forever? Especially after he met Huang Yueli, his desire to become even stronger grew so that he could protect her forever.

Hence, Li Moying cultivated with even more diligence, causing his Soul Detachment Illness to act up even more frequently.

Whereas now, the process of advancing into the ninth stage realm was the most crucial and most dangerous checkpoint.

Liu Buyan had once warned him that if he could not handle this crucial point prudently, then the result that awaited him.... was possibly the scattering of his soul!

Of course, Li Moying would not possibly give up on charging towards the ninth stage realm just because of a mere warning but he had thought of making more preparations before he advanced.

He had not predicted that his own ability actually rose that quickly and after absorbing the energy from the magical beasts in Violet Sun Valley, to immediately breaking through to eighth stage realm and later on borrowing the acting up of Soul Detachment Illness to unleash ninth stage realm peak's potential to kill the spiritual beast Qilin, obtaining the Profound Energy reward from the Qilin tablet.

Under the push from various elements, he actually faced the moment of advancing in such a short period of time.

Originally, he wanted to try ways to suppress the impulse of advancing, waiting to advance at another suitable time after they left Violet Sun Valley.

But right after his body was heavily injured, he could no longer suppress the turbulent Profound Energy in his body and as the intensity of thunder attributed energy was too high in Violet Sun Valley, he instantly sensed the drawing of his energy, wildly surging towards him and flowing into his meridians, forcing him to advance right now.

The pain in his state of mind kept on accumulating and adding on to the confusion from his memories, it made Li Moying feel so sick that he wanted to throw up, feeling that he would go crazy at the very next moment.

However, just as he was almost about to lose control of himself, there was a moment in time when Huang Yueli's face flashed past his mind.

No, he could not admit defeat, he could not fall right here.....

He had not even married Li'er so how could he fall so easily?
