

## **Weaponsmith 1661**

### **Chapter 1661: The most sacred land among the Sacred Lands (3)**

By the time they saw the incoming person clearly, they all heaved a sigh of relief.

The person who appeared at the top of the ramp was not Mu Chengying, but the leader of his Four Great Guardians – Cang Po Jun.

Blue Profound Sect's clansmen were filled with plenty of people with power and Mu Chengying's most trusted Four Great Guardians were all ninth stage realm peak practitioners. Cang Po Jun was ranked eight on the Sky Chart, and his potential was even higher than Guo Zhenqing.

Cang Po Jun naturally wasn't some easy going person but no matter what, he wasn't Mu Chengying himself.

After Guo Zhenqing and the others saw him, the stone in their hearts was finally let go by a chunk.

If it really was Mu Chengying who had appeared, it would really scare these people to death alive!

Heavens knew just how much that shockingly powerful king with no match had increased in his ability to what degree after so many years of closed door cultivation?

For the past ten over years, many of them had assumed that he was dead and had secretly done some things behind his back and if he really met with it personally, the only end result was death with no burial grounds!

Luckily, luckily, they were only scaring themselves.

The one who appeared on the Snow Cloud Sky Ship was only Cang Po Jun!

Even so, Guo Zhenqing and the others still felt a little uneasy as they kept sizing up their options while staring at the flying ship continuously.

After all, the Snow Cloudy Sky Ship was Mu Chengying's personal use flying ship in the past and even if it was his most trusted aide Cang Po Jun, he didn't have the guts to use it privately.....

Now that he dared to sit in this flying ship, was Mu Chengying really dead or not? Or... was Mu Chengying on the ship, just now showing himself?

Just as Guo Zhenqing and the others were being apprehensive, Cang Po Jun had already led his subordinates, landing onto the ground.

Guo Zhenqing and the others immediately swarmed upwards as they kept fawning on him.

"Sir Po Jun, we haven't met for a long time! How have you been!"

"It's been some time since we last met, Sir Po Jun's cultivation seemed to have advanced.... Congratulations!"

"I was just thinking of heading over to Blue Profound Sect some other day to meet with Sir, I'd not expected that we would meet here so coincidentally!"

Guo Zhenqing was still considered alright as he politely cupped his fist into his other hand but Cheng Zhenbo and Feng Bozhong ran over rather dog leggily as they were just short of cleaning Cang Po Jun's shoes for him.

Cang Po Jun seemed as though he didn't hear their flattery as he didn't even shift his sight and headed straight upwards.

Everyone involuntarily retreated as they opened up a path for him.

Cang Po Jun walked towards Li Moying and when he was just a few steps away, he stopped and sized up the young lad in front of his eyes.

After his rebirth, Li Moying's current looks was simply too young and moreover the imposing manner from him, although to an ordinary practitioner, was already extremely powerful but to Cang Po Jun's impression of that unparalleled strong practitioner, he seemed to be just short of that little bit.

Just as Cang Po Jun was hesitant, Li Moying abruptly lifted his eyes and met with his. The bitter frost beneath his eyes appeared and that severe and fearful murderous intent was so realistic that it made one feel fear all over!

Cang Po Jun's body shivered as his legs turned soft, almost kneeling down right there!

This familiar gaze and temperament, he absolutely would not recognise it wrongly... this was Mu Chengying's reincarnation!

Just as Cang Po Jun was about to kneel on the ground, Li Moying suddenly spoke out.

"Sir Po Jun, what may I do for you?"

That cold voice which bore the suppressing feeling that assimilated one's will and soul made Cang Po Jun's brain buzzed!

When he heard Li Moying actually greeting him as "Sir", he suddenly regained his composure recalling the instructions that Li Moying had sent to him in his letter, to not expose his identity in public.

#### **Chapter 1662: The most sacred land among the Sacred Lands (4)**

Cang Po Jun hurriedly steadied himself as he forcibly stood upright.

But in outsiders' eyes, his earlier action was a little too strange, as though he wasn't able to walk steadily, almost falling down flat on his face.

Huang Yueli almost burst out laughing again. It was simply like a mouse seeing a cat!

But this had also verified just how powerful Mu Chengying was then. Even after so many years, he was still able to make his subordinates fall under his awe-inspiring ability!

Cang Po Jun was stared coldly by Li Moying and he shivered, instinctively feeling that he had almost messed up the task which he was given.

He hurriedly mended the pen after the sheep were lost as he gave a slight cough and put on an arrogant posture.

“You are Master Li? Since you already know who I am, then I need not give any more explanations. With respect to Sovereign Mu’s orders, I’m here to invite Master Li back to Blue Profound Sect.”

When those words were heard, the surrounding practitioners’ eyes almost all popped out!

They had not expected that Cang Po Jun’s appearance right here, was actually... actually really to recruit Li Moying!

Just what kind of innate talent did this Li guy had, even Blue Profound Sect came up and expressed their good intentions!

Guo Zhenqing and the others felt as though they were struck by lightning!

They had already long guessed Cang Po Jun’s intentions and knew that since Blue Profound Sect’s Great Guardian had appeared, the bunch of them would definitely not have any more chance, which wasn’t so surprising.

What was really shocking was Cang Po Jun’s sentence, “With respects to Sovereign Mu’s orders”!

Hearing the meaning in his words, could it really mean that Mu Chengying had really come out of his closed door cultivation?

Li Moying pretended to consider for a short moment and nodded his head, “Since that’s the case, will Sir Po Jun please lead the way!”

He couldn’t be bothered to put on an act any further because based on Blue Profound Sect’s status, no matter how arrogant the geniuses were, they all treated entering Blue Profound Sect as an honour. His sudden change of mind would not make anyone feel surprised at all.

Cang Po Jun wasn’t willing to continue acting as well because being greeted by his own Sovereign with a word “Sir” made his spine felt chilly every single time he heard that.

He hurriedly nodded his head in a fluster, “Master Li please come along with me!”

Saying that, he turned around and wanted to leave, thinking of leaving this awkward place.

On seeing the both of them about to leave, Guo Zhenqing stood up in a hurry and he shot upwards quickly and asked, “Sir Po Jun, please... please wait a moment! This old man has a word of enquiry.”

Cang Po Jun’s footsteps took a halt, “Elder Guo, today it indeed was your Splendid Violet Heavenly Palace who had reached here first but Master Li had chosen Blue Profound Sect, this is....”

“No no no, this old man here doesn’t mean that! Master Li choosing Blue Profound Sect is a justified and reasonable choice.” Guo Zhenqing hurriedly shook his head and followed asking carefully, “Sir Po Jun, the Snow Cloud Sky Ship had not appeared in Sky Emperor City for ten over years and today its’ sudden appearance, does it mean that... Sovereign Mu has come over personally?”

He watched Cang Po Jun’s expression carefully, trying to find an answer.

If it was only Cang Po Jun who had taken interest in Li Moying, wanting to snatch him away, Guo Zhenqing would not easily pass him up so easily.

The person who was truly snatching him away was in Cang Po Jun's hint in his words. If Mu Chengying had really come and he truly went against Blue Profound Sect's meaning, wouldn't it be seeking for death?

Guo Zhenqing wanted to probe on the truth of this matter.

Cang Po Jun turned his head back and looked at him straight in the eye as he replied calmly, "Elder Guo is an established top exponent for many years. Surely you're very clear that other than our Sovereign, no one else would be able to utilise this Snow Cloud Sky Ship isn't it?"

He intentionally avoided Guo Zhenqing's question.

### **Chapter 1663: The most sacred land among the Sacred Lands (5)**

He didn't admit nor did he deny.

Guo Zhenqing's expression instantly turned extremely pale.

From what he saw, Cang Po Jun's answer was simply equivalent to admitting that Mu Chengying was sitting right in the Snow Cloud Sky Ship!

Guo Zhenqing totally didn't doubt Cang Po Jun's words because any practitioner who had experienced Mu Chengying's fully flourished times knew that the Snow Cloud Sky Ship was refined by Huang Yueli for Mu Chengying so Mu Chengying had never allowed anyone else to utilise it without authority!

Whereas for Mu Chengying not to appear was very normal. After all, what status did the Sovereign have? Surely they didn't expect him to appear right here to exchange humble greetings with an Elder from Splendid Violet Heavenly Palace right?

The more Guo Zhenqing thought, the more terrified he got as the cold sweat on his back kept profusing.

Mu Chengying was out of his closed door cultivation!

He had to hurry back immediately to report this huge matter to his Palace Lord!

Cang Po Jun carefully shot a glance towards Li Moying and upon realising that he wasn't upset, he hurriedly turned around and led the way.

Li Moying held Huang Yueli's hand as he walked in a neither fast nor slow pace towards the Snow Cloud Sky Ship.

Standing behind them, Luo Jiyun and the others were completely stunned and even after a while, they were still unable to get used to it.

It was because the appearance of Cang Po Jun had made them too surprised! They had originally thought that to be able to gain the interest from Splendid Violet Heavenly Palace's Elder was already Li Moying's streak of good luck as that indicated that he would fly into greater heights in future.

In the end, whoever knew that an even greater surprise was waiting for them, Li Moying actually successfully joined Blue Profound Sect!

Blue Profound Sect! That was the Sacred Land among the Sacred Lands in all practitioner's minds! They really didn't dare to believe that such a lucky thing would happen!

Huang Yueli realised their abnormality as she stopped and turned back to wave at them, indicating for them to follow up.

Luo Jiyun, Mo Yi and the others then woke up from their dream as they hurriedly chased up to them.

On seeing that vast and luxurious flying ship in front of his eyes, Luo Jiyun was simply unable to suppress the excitement and emotion stirred in his heart as he leaned closed towards Huang Yueli's other side.

"Lil Sister-in-law, can you... can you quickly pinch me! I... am I really not dreaming? Eldest Senior Brother actually joined the Blue Profound Sect!"

When Huang Yueli heard that, her brows rose and she swiftly stretched out her fingers as a burst of Profound Energy struck Luo Jiyun below his ribs.

"Ouch—! OUCH....." Luo Jiyun almost cried out miserably but he still remembered that Cang Po Jun was some ninth stage realm peak top exponent whom he could not afford to offend and as he was afraid of making him upset, he hurriedly stopped his groaning at the back of his throat but his face had already flushed a deep red shade.

"Lil... Lil Sister-in-law, you're too vicious!" He grimaced in pain softly.

Huang Yueli innocently shrugged her shoulders, "You're the one who asked me to pinch you!"

"Bu... But....."

"Do you still feel that you're in a dream now?" Huang Yueli interrupted him.

Luo Jiyun looked left and looked right and realised that there wasn't any change in his surroundings as he said, "It's... it's really real! Eldest Senior Brother is simply too powerful, even Blue Profound Sect's Sovereign came to recruit him! Then can we assume the status of his servants to enter the Blue Profound Sect as well?"

Huang Yueli laughed meaningfully, "You cannot be servants."

"What? Can't even be servants? At least I am of an eighth grade talent!" Luo Jiyun's shoulders drooped down in disappointment.

Everyone knew that large powerhouses' high grade inheritances were plentiful and even a cultivation method learnt by the servants were much higher class than a direct disciple from a small force.

Hence there were plenty of practitioners every year who didn't mind becoming servants, just to join the Seven Sacred Lands.

### **Chapter 1664: The most sacred land among the Sacred Lands (6)**

Luo Jiyun naturally was no exception.

Actually, based on his eighth grade talent, there was still hope for him to join one of the Top Ten Clans or Soaring Heavens Merchant Guild level kind of powerhouse.

But in order to join the Seven Sacred Lands, it was practically hopeless.

Because although his innate talent wasn't not, but he was no longer in his peak age to start cultivating. Practitioners who were over twelve, their ability and future would no longer be reliant on innate talent. More so, it was related to the cultivation methods which they cultivated with and the resources which they obtained in their younger days as well as luck.

Equivalent practitioners with the same innate talent, if their experience training was different, it would merely take a few years to show the difference in their abilities.

Although Luo Jiyun's innate talent wasn't bad at all but he had grown up in South Sky Region so his ability as compared to those who had been nurtured in Sky Emperor City's large powerhouses' eighth grade talented practitioners, the distance was still extremely huge. Perhaps he might not even match up to many seven grade talented practitioners.

Not to mention entering Blue Profound Sect that kind of number one Sacred Land, even if it was the other Seven Sacred Lands, the possibility of recruiting him was very low.

So Luo Jiyun was hungering to follow Li Moying into Blue Profound Sect, even if it was to be a servant, it was a heavenly chance to him.

Huang Yueli looked at his disappointed look and smiled as she shook her head.

She hoped that when he found out about the truth later, he had better not faint from the shock.....

Very quickly the few of them followed Cang Po Jun into the Snow Cloud Sky Ship.

Luo Jiyun's body apparently tensed up as he hung his head low in fear and trepidation, not daring to look around at all.

Mo Yi and the others didn't even dared to breath loudly.

The minute they entered the flying ship, it was entering Sky Emperor City's number one Sacred Lands territory! How many practitioners wouldn't feel tensed and excited entering this kind of place?

Huang Yueli however surveyed the surroundings at ease and following that, she gave a slight smile.

"Blue Profound Sect's Four Great Guardians, had indeed all arrived....."

Hearing that, Luo Jiyun was so tensed that his cold sweat kept on sprouting as his voice quivered, "Wh... What? Four Great Guardians... have all arrived? Then could it be that Sovereign Mu has also....."

Blue Profound Sect's Four Great Guardians were all top rated exponents in Sky Emperor City's Sky Charts top twenty ranking practitioners and when the four of them appeared together in the Snow Cloud Sky Ship, the enclosed area which had been completely dominated by ninth stage realm peak practitioner's Profound Energy, that overpowering suppression made one unable to breathe.

Luo Jiyun only felt his scalp turned numb as he was so tense that he didn't know where to place his hands and feet.

Just at this moment, Cang Po Jun's footsteps suddenly stopped as he turned around.

Luo Jiyun thought that he was about to start his lecture and had already prepared to bow in respect.

Just at this moment, Cang Po Jun suddenly “plopped” onto the ground on his two knees and bowed down in front of Li Moying.

Luo Jiyun and the others were startled!

“Sister-in-law, this.. what’s going on? What on earth happened.....”

Huang Yueli was not able to answer in time when the other three Guardians had also hurriedly knelt down.

“Our respects to Sovereign, welcoming Sovereign’s return back to Blue Profound Sect!”

The four guardians spoke out at the same time as they respectfully bent their heads over.

Under Luo Jiyun and the other’s awestruck gazes, Li Moying lifted his hand slightly as he spoke out in a cold chilly voice, “Stand up all of you. It has been hard on you for the past few years. This Sovereign has taken note of your contributions to the Sect.”

### **Chapter 1665: Cannot tell! (1)**

Li Moying swept a glance at the few present and said, “No need to be so humble. This Sovereign had left for so many years so there should be quite a number of huge matters which had happened in Sky Emperor City hence there is an urgent need for This Sovereign to understand about it all.”

The Four Great Guardians escorted Li Moying to the first place and respectfully stood upright by the side.

Luo Jiyun and the others were completely mortified as they stood in a daze by the side, not even daring to make a single move.

Seeing this scene was just too fascinating!

Cang Po Jun and others actually greeted Li Moying “Sovereign”!

But, Blue Profound Sect’s Sovereign, as everyone knew, was the number one top expert in Soaring Heavens Continent, Mu Chengying! What relation did it have to do with Li Moying?

Could it be that the Li Moying in front of their eyes was fake, and they had recognised the wrong person?

Or perhaps they were poisoned and their consciousness were unclear, hence they had developed hallucinations?

Li Moying was seated right in the middle and his gaze swept towards the entrance and saw the dazed Luo Junyun and others.

He naturally knew that his identity being exposed would bring about what kind of shock to them but there wasn’t any time to explain to them right now.

Li Moying turned his head back towards Cang Po Jun and said, "This Sovereign had brought along some people and they have been following This Sovereign since in South Sky Region and are extremely loyal. Arrange a place for them to have some rest first and in future, they will all be disciples of Blue Profound Sect."

Cang Po Jun hurriedly responded as he called out for two attendants, "Go, bring those few people over there to the superior room to have a rest."

Even after Luo Jiyun and the others were brought out of the main cabin, they still felt as though they were dreaming and their feet were threading on clouds, totally not being able to steady their footsteps.

Every one of them had an extremely distracted expression, totally not knowing what they were doing at all!

It simply was because the matter which had just happened was too sensational until even the usually composed Mo Yi also felt that he was still in a dream!

The other two attendants were extremely envious of them as they couldn't help but opened their mouths, "You few have really good luck! That year when we wanted to join Blue Profound Sect, we spent quite a number of years to pass through the various assessments before outranking the top few hundreds of talents to shine! Now you're just so lucky to have followed Sovereign in South Sky Region and be able to join the Sect. Moreover.... From Sovereign's tone, you will at least get the treatment of inner disciples! The entire Sect's disciples would envy you guys to death!"

What they didn't mention was that Blue Profound Sect had never accepted formal disciples of eighth grade talents and below.

If one wanted to become inner disciples, they were required to be ranked top ten in various Sect's internal tournaments before they had a chance.

But who asked Mo Yi and the others to be Li Moying's trusted aides when they were in South Sky Region?

This luck..... was really something which the others weren't able to help but only to be envious of it!

When Luo Jiyun heard their sourish words, his confused thoughts finally regained some clarity.

He held on to one of the attendants as he asked in a unhesitant manner, "This.... elder brother, I.... I'm a little.... have I heard wrongly earlier? Earlier Sir Po Jun actually called my Eldest Senior Brother.... Sovereign? But.... this.... how is this possible? Eldest Senior Brother had grown up in the South Sky Region since young?"

Because of shock, Luo Jiyun had already started to speak incoherently.

But upon hearing his words, the two attendees were even more stunned than him as their faces looked as though they had just seen a living ghost.

"What did you say? Our Sovereign is your Eldest Senior Brother??"

"What is your relationship with the Sovereign??"

Luo Jiyun was stared at by them so fixatedly until he didn't know what to do, as he blinked his eyes with an extremely troubled expression.

### **Chapter 1666: Cannot tell! (2)**

"It's.... it's just Senior and Junior Brother relationship? Eldest Senior Brother and I, are all South Sky Region's Celestial Light Sect's direct disciples and today we have just entered Sky Emperor City...."

His words had just fallen as the two attendees exchanged glances.

The duo's attitude immediately underwent a change. Earlier the glance towards Luo Jiyun and the others was rather disdainful because of their incapability.

But now, the two of them were extremely respectful.

"Oh, this Young Master here is Sovereign's South Sky Region's Junior Brother, we have disgraced ourselves earlier."

Although the two of them assumed the identities of attendees, but they were Cang Po Jun's trusted subordinates and their statuses in Blue Profound Sect weren't lowly at all. Furthermore their cultivations were currently at sixth stage realm later stage so in terms of battle power, they were far above Luo Jiyun!

Luo Jiyun saw them being so courteous and felt extremely embarrassed as he hurriedly said, "Elder Brothers, you're too kind! I... I'm just an ordinary practitioner in South Sky Region. Contrariwise my Eldest Senior Brother, he... what identity does he have? Why did Sir Po Jun even.... even...."

Thinking of the scenario when Four Great Guardians knelt down towards Li Moying earlier, Luo Jiyun was disarrayed in the wind once again.

This simply was just too inconceivable, even until now he still felt that he was in a dream!

The attendants hesitated for a moment and asked, "Mister, don't you know even a little bit on your Eldest Senior Brother's identity?"

Luo Jiyun shook his head, "What identity?"

The attendants thought about it and said, "Anyway, Mister Li is indeed Blue Profound Sect's Sovereign. If this was not the case, how would the Four Great Guardians possibly kneel down to him so easily?"

Luo Jiyun naturally knew this logic but he just couldn't get it!

"But... But... Eldest Senior Brother grew up with me since young and today is indeed the first time he entered Sky Emperor City, how did he suddenly become Blue Profound Sect's Sovereign? If he was your Sovereign, then how about Sovereign Mu...."

The attendant smiled, "Since you're Sovereign's Junior Brother, then I will not be able to comment any further on this matter. In future you will naturally find out about the truth. Now, will all of you please come along with us!"

...

In the main cabin.

Luo Jiyun and the others left but Huang Yueli didn't move at all.

Cang Po Jun had just noticed that exceptional beautiful young lady who had always stood beside Li Moying and recalling back about the intimacy she had with Li Moying earlier, a shocking idea suddenly festered in his mind.

He forgot his manners and cried out in shock, "Sovereign, this young lady.... She... could she be....."

Li Moying frowned slightly as a displeased look appeared on his face while berating softly, "What's the fuss about? This lady here... is the reincarnation of Miss Huang!"

Huang Yueli smiled as she showed her pearly white teeth, "Hi Guardians, long time no see."

Since earlier, she had been observing Li Moying's Four Guardians.

Other than the first Guardian Cang Po Jun, Cang Po Yu helmed a refined temperament, taciturn and low-keyed person who was a ninth rank Array Grandmaster and also one of Mu Chengying's think tank team members. The one with a smile always hanging on his face and also the youngest member with the highest innate talent was Cang Po Hun while the cold faced ice beauty Cang Ning Yue was the only female among the Four Great Guardians.

These four were considered as old acquaintances with Huang Yueli.

Only thing was, that year all of them had treated Huang Yueli with utmost respect.

As expected, upon hearing Li Moying's words, the Four Great Guardians all revealed an extremely shocked expression as they stared intently at her.

### **Chapter 1667: Cannot tell! (3)**

After some time later, Cang Ning Yue was the first to start exclaiming.

"Not possible right? How could this be possible? Could this really be.... Be.... Grandmaster Huang?"

Cang Po Hun scrutinized Huang Yueli for a long time as his mouth opened wide while speaking in disbelief, "this.... looks really a little like Grandmaster Huang.... seriously?"

Even the most composed and stable Cang Po Jun almost slipped and overturned the tea cup on the table.

Only Cang Po Yu kept silent as he looked thoughtfully at Huang Yueli's dainty little face.

Huang Yueli's lips curled up as she was totally not surprised by everyone's reaction at all.

After all, the scene where she had self-exploded in Northern Ice Fields was something which everyone in Soaring Heavens Continent knew about!

Theoretically speaking she could no longer reincarnate but she was suddenly reborn and even standing right here alive so anyone would feel shocked from this!

She smiled and said, "I'm Huang Yueli, replacement guaranteed if not genuine! Furthermore I've already gotten engaged officially to your Sovereign so in future.... I'll be depending on you guys!"

When she said this, it was another heavyweight bomb dropping on them.

The few guardian's chins almost dropped onto the ground.

Who didn't know that Mu Chengying had wooed Huang Yueli for more than a decade but Huang Yueli wasn't willing to nod her head to marry him. In the end the both of them had just reincarnated and Huang Yueli decided to marry? Just what happened in the past ten over years?

Cang Po Jun's brows creased as he thought for a moment and suddenly spoke out in enlightenment, "Oh.... Congratulations to Sovereign and Grandmaster Huang, all's well ends well. Sovereign, I'd not expected that your plan actually succeeded... this is really... for the past hundred thousand years, no one had ever managed to complete this astonishing pioneering work.... Congratulations Sovereign!"

Hearing Cang Po Jun's words, the other three Guardians also revealed an enlightened expression as they all bowed towards Li Moying to pay their respects.

"Congratulations Sovereign, finally getting what you desired!"

"Congratulations Sovereign!"

Huang Yueli was originally filled with smiles but when she heard Cang Po Jun's words, not knowing why, her heart suddenly felt a little uncomfortable.

Cang Po Jun's words sounded rather strange and there were quite a number of areas which she didn't understand.

Huang Yueli asked in curiosity, "What does Sir Po Jun mean? What plan were you talking about? And what astonishing pioneering work had not succeeded for the past hundred thousand years? What riddle are you playing?"

Cang Po Jun went into a blank as he apparently did not expect Huang Yueli to ask about this.

He looked at Huang Yueli and turned back to look at Li Moying.

He saw an obvious fury surfacing on his face as his cold and harsh stare shot over towards him.

Cang Po Jun shivered as he suddenly realised that he had committed a serious mistake!

The Sovereign seemed to not have told "that matter" to Grandmaster Huang yet! In this case, wasn't he acting like a smart aleck as this slipped out from his mouth.....

Sensing Li Moying's murderous glare, Cang Po Jun trembled as he hurriedly gave a dry laugh in an attempt to conceal his mistake.

"Ughh, where.... where's the riddle? It's merely because Grandmaster Huang is just too difficult to woo so this subordinate is feeling happy for Sovereign! I wonder when will Sovereign and Grandmaster Huang be officially getting married? Your subordinates, we have been waiting for this day for a long time!"

“Really?” Huang Yueli’s brows rose in suspicion.

She somehow felt that Cang Po Jun was saying that but his original meaning was another thing and still wanted to pursue the topic.

Just at this moment, Li Moying suddenly gave a cold harrumph as he said, “The few of you, why are you still in a daze over there for? Since Li’er is already engaged to This Sovereign, then in future, Grandmaster Huang will be Blue Profound Sect’s Sovereigness, still not coming over to pay your respect to Sovereigness?”

#### **Chapter 1668: Cannot tell! (4)**

The Four Great Guardians shivered as they hurriedly turned around and bowed down towards Huang Yueli’s direction.

“Our respects to Sovereigness!”

Huang Yueli was a little surprised and after a short blank, she indicated for them to get up quickly.

At the same time, she couldn’t help but turned back to stare at Li Moying as she mumbled in dissatisfaction, “What’s up, why call me Sovereigness?” We have merely gotten engaged so there’s no need to make me sound that old right? Moreover speaking, we have yet to be married officially so whether I will really be getting married to you in future, that’s actually hard to say....”

Li Moying originally wanted to divert her attention hence he made the Four Great Guardians bow down to pay their respects to her.

But when he heard her words, he immediately shot her a cold stare and established the command towards the Four Great Guardians, “Remember this, after we get back to Blue Profound Sect, pass down This Sovereign’s command. Whenever anyone sees Grandmaster Huang in the Sect, they must address her as Sovereigness and whoever who disobeys will be punished severely!”

Huang Yueli’s eyes grew wide as she simply could not believe what she heard!

Li Moying had just returned to Blue Profound Sect, not even for an hour and he immediately turned as overbearing and conceited as in his past life!

This was simply compelling her to submit!

Huang Yueli stomped her feet and shot up to him in a few quick steps as she whisked his clothes around his chest area while angrily retorting, “What do you mean by that! Haven’t you heard what I said? I don’t like to be called.... mmph!”

She had yet completed her words when Li Moying suddenly lowered his head and blocked her pink tender lips which kept on opening and closing, at the same time stuffing back the words of resistance back into her mouth.

Huang Yueli pushed his chest and tried to evade him but was locked in securely by that man, rendering her totally immovable.

Luckily Li Moying probably considered the current situation hence he only dabbled and stopped. Not too long later, he released her.

Huang Yueli covered her mouth as her face was already flushed with a shade of red, "You.... you...."

Li Moying laughed, "Sovereign, other than marrying this Sovereign, there's no second choice for you so you'd better keep a tight reign over your heart!"

Huang Yueli couldn't wait to bite him but a pity that this action was just too ambiguous and under the Four Great Guardians' attention, she simply couldn't make herself do it....

She stared angrily at Li Moying and while she was in the middle of thinking, Li Moying had already turned towards Cang Po Jun as though nothing had happened.

"When This Sovereign wasn't around, how is the situation in the Sect?"

Cang Po Jun was originally stunned from watching but upon hearing Li Moying's question, he abruptly regained his senses and responded, "Yes.... Report to Sovereign, the Sect's internal situation is considered rather stable and Sovereign's fame is rather all like thunder piercing the ear. In the first ten years, no one dared to be rash but in the recent few years... ughh.... some situations still happened."

Li Moying could tell that he hemmed and hawed as he couldn't help but give a cold sneer, "Looks like, a lot of people assumed that This Sovereign had already died and are starting to stir?"

"Yes, Sovereign is wise."

Li Moying's slender long fingers played around with the exquisite flower patterned tea cup on the table as his tone was tranquil and calm, "Who are those people?"

He seemed as though he couldn't care less but the Four Great Guardians were his trusted aides and could tell the silent murderous intent hiding in his heart.

Apparently, Big Demon Lord had returned and these people who actually dared to betray him.... their ending would be extremely miserable!

Cang Po Jun silently sighed as he hurriedly stated everything to Li Moying clearly.

Huang Yueli was also attracted by this topic and sitting beside Li Moying, she pricked up her ears to listen.

Li Moying was listening to Cang Po Jun and secretly stole a glance at the quiet and graceful young lady's side view as he secretly heaved a long sigh of relief.

This lass, seemed to have already forgotten the things which Cang Po Jun had accidentally let slip earlier.

Chapter 1669: Cannot tell! (5)

The few of them had a discussion in the main cabin for over two hours and Li Moying finally grasped the big picture on Blue Profound Sect and Sky Emperor City's situation.

Just as this timing, the Snow Cloud Sky Shuo had already arrived in the skies above Blue Profound Sect and started to descend slowly.

Li Moying stood up and stretched out his arm towards Huang Yueli, "Li'er, come!"

Huang Yueli obediently leaned over as he held herself into his arms, wrapping around her waist as he brought her out.

The Four Guardians watched their departing backs as they were slightly dazed, each of them with complicated emotions flashing past their eyes.

It was until the two's figures disappeared in their vision of sight when Cang Po Hun's saucer face revealed a sliver of profound look while his mouth broke out into laughter, "I'd not expected Grandmaster Huang actually really agreeing to get engaged to Sovereign! From their looks... it seems that their relationship shouldn't be too bad? Sovereign is finally not on a one sided love track?"

Cang Ning Yue heard him and gave a cold humph as she took the lead to walk out.

Cang Po Hun rubbed his nose as he followed suit.

Snow Cloud Sky Ship directly descended onto the core region of the Blue Profound Sect, at Levitation Sword Palace.

Luo Jiyun and the others were still on the Sky Ship but were already stunned by the view below them so much that they couldn't say a single word.

Blue Profound Sect's location was on the largest spiritual artery in the entire Soaring Heavens Continent where Heaven and Earth Profound Qi was at its strongest degree, around five times or more of normal circumstances. Especially for the core region Levitation Sword Palace, it reached almost ten times of Profound Qi intensity.

Intense Profound Qi formed into a light fog as it enveloped the skies above the Levitation Sword Palace. From above, it looked as though it was surrounded by clouds and mist.

Under the fog, hundred thousand high grade flying swords hovered above the palace with the sword tip pointing upwards forming into a sword formation, surrounding and protecting the palace rooms and pavilions.

Frost-like sword edges under the ray of the sunlight glistened brightly as its cold murderous aura intimidated people's hearts.

This kind of god grade ancient sword formation wasn't something which the current Array Masters could lay out, but was passed down from generation to generation in Blue Profound Sect.

Levitation Sword Palace was Soaring Heavens Continent's genuine cultivation Sacred Land and there wasn't a practitioner who didn't know of its name.

But even if Luo Jiyun and the others had long read and understood from ancient manuals or legends of Levitation Sword Palace's situation, witnessing it for themselves still made them so stunned that they were totally immovable.

Snow Cloud Sky Ship quickly landed safely as the slight of stairs descended.

Li Moying led Huang Yeuli as they walked down.

In the front of Levitation Sword Palace were two rows of direct disciples who were dressed in their uniforms and at the instant when they saw Li Moying, they all knelt down and prostrate onto the ground.

“Welcome Sovereign back to the Sect!!!”

Li Moying’s eyes flashed past a strict gaze as he took a deep breath and on that profound, aloof handsome face of his, it revealed a slight stir.

“This Sovereign.... Has finally returned!”

Huang Yueli turned her head over and looked at that perfectly contoured side view infatuatedly, as she was struck in awe by that revered glare in his eyes.

So many years had passed and after experiencing two rounds of lifetimes, actually this man had never changed!

It wasn’t the first time she stood at this place and it wasn’t the first time she entered Levitation Sword Palace with this man.

But it was until this moment she realised that every single time she returned back with him to this place, what that undulated emotions in her heart meant!

The two of them walked past the crowd and slowly walked into Levitation Sword Palace.

Li Moying embraced Huang Yueli’s slender waist gently as he whispered, “Li’er, I still have some Sect’s affairs to handle, why not take a rest first? The room which you had been staying in that year, I’ve been preserving it for you.”

### **Chapter 1670: Cannot tell! (6)**

When Huang Yueli heard that, she nodded and said, “Alright, you go be busy with your work, I have something to settle as well.”

Li Moying was stunned, “What matter?”

Huang Yueli turned her head back and pointed towards the entrance at the Shadow Guards and Luo Jiyun who were acting very carefully as though they were country bumpkins who had just entered the city and said laughingly, “Haven’t you seen the few of them, all thoroughly shocked silly? It’s better to explain some things to them carefully, after all they are extremely loyal and with Blue Profound Sect’s resources, after careful nurture, they will have bright futures.”

Li Moying’s gaze fell onto Luo Jiyun. Looking at his look which shook in fear and trepidation, he couldn’t help but found it amusing while shaking his head.

“Sigh, really.... then you’d better go. Later when I’m done settling these matters, I’ll send someone over to tell you when it’s dinnertime.”

Huang Yueli nodded as she waved her hand at him and then turned around and walked towards Luo Jiyun and the others.

Li Moying bade her farewell with her eyes before leading the Four Great Guardians and a few trusted managers who had just arrived, into the main palace.

The palace doors had just shut and Li Moying abruptly turned back his head with a severe gaze as it swept past across every single person, lastly falling onto Cang Po Jun.

“This Sovereign’s return to Blue Profound Sect meant that the plan had already succeeded! But This Sovereign does not wish for Grandmaster Huang to know what had happened, hence.... No one is allowed to spread the matter which happened sixteen years ago that happened in Levitation Sword Palace out! Everyone.... control your own tongue, do you understand? Even if Grandmaster Huang were to come ask you on her own, you’re not allowed to reveal a single word!”

Cang Po Jun’s sweat soaked through the back of his clothes as he knew clearly that he had said the wrong thing earlier, which had thoroughly angered this Sovereign.

He hurriedly lowered his head, “Yes, this subordinate understands and will also constrain everyone in the Sect!”

Still slightly unresigned, Cang Ning Yue’s pale and stunning face appeared anxious from the uneasiness as she couldn’t help but voiced out, “But, Sovereign, you’ve done so much for Grandmaster Huang, why not.....”

Before she could even finish her words, Li Moying’s frigid gaze shifted onto her.

Cang Ning Yue shivered, not daring to say a single word more as she silently lowered her head.

Li Moying said icily, “This Sovereign will only say it one more time, this matter.... no one should talk about it! Those who violate this..... will be killed without any pardon!”

Everyone trembled upon hearing his words and immediately lowered their heads to accept the command, “We comply by Sovereign’s command!”

Cang Ning Yue bit on her lips hard as she still felt unresigned in her heart but she didn’t dare to create any more trouble in front of Li Moying.

Cang Po Yu also frowned slightly but he had always been reserved in his thoughts hence he didn’t say out his thinking in front of everyone.

Li Moying sensed his gaze and shot a warning glance towards him.

Actually he himself knew that paper was unable to wrap up fire and Huang Yueli would find out about this sooner or later.

But.... if he could hide it from her for some time, he would hide it for as long as he could!

...

In the empty ground in front of Levitation Sword Palace, Huang Yueli chased up to Luo Jiyun and the others quickly.

“Junior Brother Luo, Brother Mo Yi, wait for me!”

Luo Jiyun saw her running over and was firstly slightly pleasantly surprised but immediately following that, he appeared rather embarrassed, “Lil Sister-in-law, this... this.....”

Huang Yueli couldn't help but laughed as she said, "I know what you want to ask and I'm here to explain to you. But this is not a place that we can converse in, come over with me!"

She led the few of them into the rear palace with familiarity as she immodestly utilised the largest guest room, directing Levitation Sword Palace's serving maids to serve tea to them.

Luo Jiyun was totally stunned from this scene.

This was Levitation Sword Palace!

She ordered the serving maids from the Levitation Sword Palace as though it was a matter of course!
