

Weaponsmith 1691

Chapter 1691: Too hard on himself (3)

Huang Yueli had just turned into the corridor when she saw a blinding flash in the sky, ripping the silence of the dark night.

That bolt of lightning carried a shocking amount of enormous energy as it directly struck in the open sky above Levitation Sword Palace.

A loud sound rang as ten thousand swords clashed!

Levitation Sword Palace's sword array was originally a thunder attributed ancient array and right now under the invigoration of powerful electric currents, each sword flew up straight into the sky as it refracted the electric currents which kept on raining down in the sky as the clashing whizzed with a cold murderous aura!

Huang Yueli saw that and pursed her lips as she ran even faster than before.

A large number of disciples had already gathered in Levitation Sword Palace's front courtyard and everyone wore a shocked and surprised expression.

On seeing Huang Yueli coming over, the disciples all naturally split up a path for her.

Huang Yueli flew nearer and saw Li Moying had already been surrounded by electric currents with a pair of lightning wings and his wings had already expanded over ten feet as his entire body hovered in mid-air. His good looking face was layered with iciness and aloofness, radiating a greenish purple glint and in his sharp eyes, lightning flashed and every single time someone met his eyes, it made that person start shaking with fear and trepidation.

His thunder region was much more powerful than before and the electric currents were closely distributed around the surroundings and it was very hard to find any gaps which could fit in.

Outside the thunder region, Cang Po Jun, Cang Po Yu and Cang Po Hun as well as Li Moying's three other trusted Elders had already surrounded him in an attempt to pacify him, or were trying to find a way to suppress the explosive energy from his body.

However, Li Moying's current destructive power was just too shockingly huge and it had even surpassed his past life's peak condition. Although all the six practitioners who were present were all ninth stage realm peak Sky Chart's strong exponents, but in front of Li Moying's thunder region, they were totally unable to withstand a single blow from him as all of them were struck till their faces turned ashen, some even sustaining serious internal injury.

"Big Brother, I... I can't hold on any longer.... Sovereign is just too powerful.... didn't they say he had just entered the ninth stage realm and had not even reached his past life's potential? Why is he this powerful?" Cang Po Hun was sent flying once again by the electric currents as his face was filled with bruises and he clutched the injured area on his chest as he couldn't help but throw up a mouthful of blood.

Cang Po Jun's condition wasn't in any better state than his as his expression was totally gloomy.

“I heard from Master Luo that Sovereign’s Soul Detachment Illness had started fifteen years ago and it would act up every full moon’s night. When it acts up, he would practically be in a state where he lost all his senses but his potential would rise rapidly reaching to ninth stage realm peak!”

“What the ghost, this is ninth stage realm peak potential? I’m also in ninth stage realm peak, but why am I still being beaten until my teeth have all fallen out?” Cang Po Hun couldn’t help himself as he was about to spill vulgarities.

Cang Po Jun shook his head and said, “How can Sovereign’s ninth stage realm peak be the same as yours? Moreover, according to Master Luo’s interpretation, as Sovereign’s cultivation keeps increasing, the destructive power of his Soul Detachment Illness would keep increasing as well. It could be said that every single time it would get stronger and stronger...”

Cang Po Hun wanted to spew vulgarities again, “Damn it, that in this case every single time Sovereign would act up once and every single time it acts up, it would be more powerful than before? He’s only in ninth stage realm first level now and already so abnormally strong. By the time he reaches ninth stage realm peak, wouldn’t he be able to strike us all to ash when we meet face to face?”

“Po Hun, mind your words! How can you speak of Sovereign’s right and wrongs?” Cang Po Jun frowned in displeasure as he barked at him harshly.

Cang Po Hun also realised that he had said the wrong things and hurriedly shut his mouth.

However after he was sent flying once again, he still couldn’t help but started grumbling once again.

Chapter 1692

: Too hard on himself (4)

“This really is.... really is too ridiculously strong! What should we do next? How long will Sovereign act up until? If this went on for too long, I’m afraid that Levitation Sword Palace’s Sword Array would be damaged by him!”

Cang Po Hun’s words weren’t gibberish because right on top of everyone’s heads, ten thousand long swords kept on hacking at the electric currents giving off a horrifying murderous aura causing shocking electric currents retractions which probably the entire Soaring Heavens Continents was able to see.

Such a huge commotion from Blue Profound Sect, they wondered what the other large powerhouses would think when they saw this?

But this matter was no longer something on Cang Po Jun and the other’s minds.

The most important matter now was how to make Li Moying resume back to normality as soon as possible.

Cang Po Jun said, “Levitation Sword Palace’s Sword Array is passed down since ancient times and in the past, it even had resistance against tenth stage realm practitioners who joined hands to attack it so how could it be so easily broken! What is of urgency right now is to hurry up and think of an idea to let Sovereign calm down. Master Luo mentioned that the ability that Sovereign is displaying right now is not his actual ability but obtained via burning his life source. The longer it drags on, the more damage it would cause to his body! It might even cause his cultivation to drop.”

Hearing this, everyone apparently became extremely nervous.

“Then... then what should we do?”

“We can’t even pass ten miles near to Sovereign and if we went near him, we probably hadn’t even touched the corner of his sleeve and we will be struck into ash!”

“But this cannot drag on, otherwise, shall we join hands and risk our lives to head up?”

Just as everyone was bearing a look which faced death with equanimity, preparing to risk their lives, Cang Po Yu suddenly spoke out.

“Wait a minute, everyone don’t be hasty!”

“Second Brother, do you have an idea??” Cang Po Hun went up close with a joyous look.

Everyone knew that Cang Po Yu was Blue Profound Sect’s strategist and when Li Moying wasn’t around, he contributed his ideas for various matters.

Cang Po Yu muttered, “It’s actually now considered a method... but I’d very much like to know that when Master Luo and the others were in the Sect, whenever they met Sovereign acting up, how did they handle this? Theoretically speaking, everyone in their Sect along with the Elders added up, they shouldn’t be stronger than any one of us but they actually could pacify Sovereign for so many years?”

Cang Po Hun said, “What’s so strange about that. Hadn’t Big Brother already said that whenever Sovereign acts up, his might would rise according to his cultivation and in the past, he shouldn’t be this powerful right?”

Cang Po Yu shook his head, “You can put it in this way. Since this is a process of gradually strengthening up, and Sovereign who had already broke through to ninth stage realm, then the past few times he acted up should at least be eighth stage realm so his might would definitely be very shocking...”

When he said that, it caused the rest to delve into deep thoughts.

Everyone present were stunned but after thinking through this for a mere couple of seconds, everyone expressed their reconciliation towards this.

“That’s right, what Guardian Yu said is correct!”

“Looks like in order to pacify Sovereign, there should be some tactic involved and we cannot just go head on.”

“Master Luo would definitely know something, hurry go get him over here to question him!”

Cang Po Hun was extremely anxious, “That’s right, quickly go grab that little brat for interrogation, strange, where did he go? Why can’t we even see his shadow?”

Cang Po Jun said, “When Master Luo heard that Sovereign’s illness acted up, he just told me a few simple words and ran off!”

“Ran off? That’s his Eldest Senior Brother!” Cang Po Hun’s eyes popped out.

Cang Po Jun was indifferent, "Then what should we do? He's only in the sixth stage realm and if he were to head up here, he'd probably be long dead. I'll go get something to look for him..."

Chapter 1693: Too hard on himself (5)

Cang Po Jun's words had not ended when he heard a burst of flustered shuffling of footsteps behind him.

For someone to come over at this kind of timing, it was definitely some matter of urgency.

The few of them hurriedly turned around and gazed at the person approaching.

On one look, Cang Po Jun cried out in shock, "Grandmaster Huang, you.... why have you come here?"

Cang Po Jun also bore a face of shock as he immediately stepped upwards to comfort her, "Grandmaster Huang, this isn't a place which you should stay at. This subordinate knows that Sovereign is in trouble and you must be very worried but this place is simply too dangerous but your cultivation is no longer the same as in your past life. If you get hurt accidentally, how should this subordinate explain to Sect Master...."

He persuaded her earnestly and halfway through his sentence, he saw Huang Yueli doing a special step as her figure was swift like a hurricane and in no time, she had reached them.

"Stop the nonsense, there's no time, move aside quickly!"

Huang Yueli seemed as though she didn't hear his advice as she went around him, thinking of continuing to move forward.

Cang Po Jun didn't expect her to not stop at all, just charging straight to meet her doom and he was so scared that he hurried over to pull her back, "Grandmaster Huang, you.... please don't be rash! You can't go over to that side!"

Alas, his reaction was still too slow as Huang Yueli's Agility Dance Steps was a God Realm cultivation method which was best at evasion. Cang Po Jun had momentarily been distracted and was passed by easily by her as she slipped past the defence lock and with a flash, her slender figure in the white flowing dress headed straight into the thunder region with no second thoughts.

"Heavens! Grandmaster Huang, quickly come back!"

"Danger! The Sovereign has now lost his consciousness and don't recognise anyone at all!"

"What should we do? She... she's already gone in! It's.... it's too late!"

No one had expected this situation to happen and basically no one was able to stop her in time.

In that instance, everyone who was present had a complexion which flushed much paler than a dead person!

Who didn't know that Huang Yueli's existence in Li Moying's heart was much more important than his own life by a thousand hundred times and usually if Huang Yueli suffered a slight injury, he would fly into a rage to murder that person who hurt her!

Now they actually didn't manage to keep a tight rein on her, allowing her to dash into the thunder region! She would probably end up being struck to death by Sovereign personally!

By the time Sovereign regained his consciousness, that result.... It was simply something which no one dared to imagine!

Cang Po Jun swiftly clenched his teeth, "What are you still hesitating for? Everyone let's move up! We must try our utmost best to resist the thunder region, even if we are seriously injured, we must still try to get Grandmaster Huang out! I'll countdown from three, everyone be prepared! Three, Two....."

Cang Po Jun was really about to faint!

Sovereign having such an illness with symptoms which was like a ticking bomb on his, wasn't it all because of that year.... For Grandmaster Huang...

Now Huang Yueli was still acting like this! Forget about the usual cold war with Sovereign, but when something happened, she was actually this irrational. Did she think that she was still that year's Young Palace Lord from Mythical Flame Palace with exceptional ability?

Her cultivation was only at fifth stage realm and that would be equivalent to sending herself to her doom!

The current scenario was already very messy and she actually came to add more trouble!

"...!"

"Wa... Wait a minute, all of you don't... don't be rash! St...stop please!"

Just as the few of them were about to risk their lives to save her, Luo Jiyun who was left behind by Huang Yueli had finally managed to chase up to them.

He ran over in a most urgent manner but his speed simply could not be compared to Huang Yueli.

Cang Po Jun and the others ignored his cries because the situation was just too urgent and if they were late by just one breath, Huang Yueli could possibly be struck into dregs!

Chapter 1694: Too hard on himself (6)

As the circumstances were dire, Luo Jiyun couldn't care about anything else as he speedily rushed upwards to block himself in front of everyone.

Cang Po Jun and the others almost crashed into him and all of them bore an angry look.

"What on earth are you trying to do? Why did you suddenly rush out like that?"

"Master Luo, we're on our way to save someone! Haven't you seen that Grandmaster Huang is almost about to die?"

"Quick, ignore him, let's grab hold of time!"

On seeing everyone about to rush over again, Luo Jiyun quickly shouted out, "Don't go in, Sister-in-law rushed in to save people! Everyone please be assured, as long as Sister-in-law is here, she can settle this easily so all of you need not be so agitated and so nervous, just wait a little while and you'll know!"

Everyone's actions took a pause as they gazed towards him in doubt.

Luo Jiyun saw that they were finally listening to what he was saying as he hurriedly gave a cough and speedily explained.

"Brother Guardians, you need not be so nervous. Don't think that Eldest Senior Brother looked so terrifying right now as though he really doesn't recognise anyone but he's still able to recognise Sister-in-law! He will absolutely not hurt Sister-in-law so rest your heart!"

Cang Po Hun frowned, apparently still not believing in him, "Are you certain? This matter cannot be based on mere guessing! Sovereign really doesn't recognise anyone at all! The few of us Guardians have been by his side for at least twenty years but hadn't he also just punched us madly earlier?"

Cang Po Jun added, "When Sovereign is conscious, of course he wouldn't bear to hurt even one finger of Grandmaster Huang, but now it's totally different!"

Luo Jiyun wanted to add something more when he suddenly heard Cang Po Yu giving off a "Huh".

Everyone turned their heads towards him.

Cang Po Yu pointed to the centre of the thunder region and said in a deep voice, "Grandmaster's moves are really not simple, she actually ran over so quickly to the thunder region's centre and also precisely evaded every single bolt of lightning not sustaining any injuries at all.... this is something that even I can't achieve...."

"What? So fast? Finished, finished, we're all finished, we really can't make it in time!" Cang Po Hun gave an anguished wail as his face flushed so white that it was scary!

He could also predict that by tomorrow, the miserable state of him being skinned alive with all his tendons pulled out!

Cang Po Jun also had the same terrible expression but when he took a careful look at the thunder region's centre, he gave an astonished expression.

Luo Jiyun simply said complacently, "See that? It's exactly what I said! Sister-in-law she is indeed alright! Although Eldest Senior Brother is unconscious, but in the inner depths of his heart, he will never forget that Lil Sister-in-law is the most important person to him, even more important than his own life!"

By this time, Cang Po Hun had also seen the situation in the thunder region's centre as well as he said in disbelief, "It's actually.... actually true! Grandmaster Huang has already reached Sovereign's side, this.... shouldn't she have been electrocuted by now? She's actually really alright?? Is Sovereign conscious or unconscious?"

Everyone had the same question on their minds as they watched this scene silently. They deeply felt in their hearts that no matter how much time had passed, the two of them had already experienced the test of reincarnation but Huang Yueli's place in Li Moying's heart was getting deeper and deeper.

Luo Jiyun finally completely relaxed.

He smiled and said, "Alright, now we'll depend on Lil Sister-in-law! In the past when we were in South Sky Region, no matter how badly Eldest Senior Brother acted up, as long as Lil Sister-in-law is around, he would be cured immediately! Take a careful look, he's about to...."

Chapter 1695: Too hard on himself (7)

Luo Jiyun spoke in a light tone as his heart already had a conclusion, feeling that his own mission was already completed and all they had to do was to wait till Lil Sister-in-law and Eldest Senior Brother perform some hot scene then they could officially end their job.

Cang Po Jun and the others had no choice but to admit that Luo Jiyun knew the situation clearer than them so they all believed his words and followed his vision as their eyes grew wide, putting all their concentration into the thunder region's centre.

But whoever knew that the few of them kept staring at Huang Yueli and Li Moying for half a day but they didn't see the predicted scene where the electric currents stopped. On the contrary, when Huang Yueli hugged Li Moying's waist and said a few words, Li Moying's expression suddenly underwent a change!

Immediately following that, Huang Yueli was thrown aside by him.

The thunder in the sky kept on landing down and this time, it was even more intense than before!

Every single palace in Levitation Sword Palace were built with extremely solid ninth tier material and was impenetrable but under this kind of rampaging electricity shocks repeated torture, minute cracks started to appear.

Cang Po Jun and the others were too near to them and as they were caught unaware, they were suddenly struck by a fluctuating strong gush of energy in their faces and every single one of them without any exception were all sent flying, as they suffered blue black all over once again.

Cang Po Jun climbed up from the ground and rubbed his bruised back and immediately started clamouring.

"Master Luo, are you telling a lie to humour us? Didn't you say that when Grandmaster Huang is here, everything will be resolved? I think instead of resolving it, the situation took a turn for the worse instead!"

Luo Jiyun's cultivation was the weakest and so he suffered the worst when he fell.

Not only did he break three ribs, his internal injury was also very serious as he spat out several mouthfuls of blood in mid-air when he was flying out.

He forcibly propped up his body as he sat up a little and looked towards the thunder region.

Under blinding bluish purple electric currents, Huang Yueli's lucid and elegant little face was filled with a shocked and speechless expression, apparently unable to accept this truth as well.

But she merely hesitated for a moment and immediately got up as she tried her best to go near to Li Moying once again.

However, Li Moying totally didn't give her any chance to go near him. In that pair of cold and stern profound pupils, no feelings could be detected as only soul stirring electric currents kept flickering.

Huang Yueli merely got nearer by a few steps and was quaked away by him.

Moreover, every single time he avoided her, the intensity of the electric currents would increase by another fold, as it's destructive power became even more shocking!

The ringing of thunder and sword clashing sounds penetrated each other mutually and resounded together as the sky above Levitation Sword Palace became louder and louder, the vibration from the ground became more and more intense!

As though the entire sword array would explode any time!

Luo Jiyun was completely dazed by this scene as well, so much that he had even forgotten about the pain caused by the heavy injuries on his body as his eyes popped out wide while staring straight ahead, at the same time shaking his head as he kept muttering to himself.

"Impossible.... It shouldn't be.... How did it turn out to be in this way? This had never happened before?"

Cang Po Hun cried out in exasperation, "Now you're saying that it's impossible and shouldn't be! What should we do now! Just look at Sovereign's current state, his expression has already turned green. This Profound Energy exhaustion simply means he's over drafting his life! He originally already couldn't live for much longer...."

"Shut your mouth!" Cang Po Jun suddenly opened his mouth and stopped him in a harsh tone.

Cang Po Hun abruptly realised that he had said the wrong thing and immediately shut his mouth.

Chapter 1696: Too hard on himself (8)

Luckily, Luo Jiyun was already in a frenzy and totally didn't notice what Cang Po Hun said, only caring about tangling with himself.

"Why did it become like this? I really didn't lie to you all! In the past as long as Lil Sister-in-law is here, she has never failed! Moreover she only needed the time to burn one incense stick and would be able to make Eldest Senior Brother quieten down. Why is it that today...."

Cang Po Hun met Cang Po Jun's berating gaze as he hung his head low.

But very quickly, he couldn't endure the silence and said, "What should we do now? Sovereign's condition looks really too dangerous and I feel that anytime he might possibly... possibly...."

The crowd threw their alarmed and worried gazes together at the same time towards the thunder region.

Cang Po Hun frowned, "This is difficult, earlier we already couldn't suppress Sovereign when his illness acted up. Now.... I reckon that even if we joint hands together, we might be turned into charcoal...."

Everyone present was Li Moying's most loyal subordinate and no one would care only about saving their own skins and were most willing to sacrifice themselves for their Sovereign!

But now the problem was no matter how willing they were to give up their lives, they weren't able to stop Li Moying even for a little bit!

Such a feeling of utter helplessness shrouded everyone, making them feel a deep sense of despondency.

Cang Po Hun's heart was burning with anxiety, "But, surely we can't allow Sovereign to just continue acting up like this right? The amount of Profound Energy that he is exhausting is increasing.... I'm afraid that he will not be able to hang on until dawn before he, he.... moreover, since he had never acted up this seriously before, then.....no one knows if he will totally stop when dawn breaks or not....."

Cang Po Jun clenched his teeth and said, "All of you don't move, let me go in first! If I can make Sovereign stop for just a moment, then you will have a chance to control him!"

"Brother Po Jun, you... what are you trying to do??" Cang Po Hun cried out in alarm!

Wanting to stop Li Moying in this state was something which Cang Po Jun couldn't possibly do!

The only way is to self-explode.....

"No way, Big Brother, you cannot do this!" Cang Po Hun instantly reacted and jumped out to top him.

Cang Po Jun spoke with a grave expression, "Then how? Do you have any alternative ways?"

"No, but....."

But he could not bear to witness Cang Po Jun, whom he treated like his own sibling, to self-explode like this!

Just as the both of them were in a deadlock, Cang Po Yu walked over and spoke with a deep voice, "Big Brother, don't be so rash."

Cang Po Jun frowned, "Even you also cannot differentiate the severity of the situation? From the moment we started to be a Guardian, we vowed to Heaven that we would be able to give up everything for Sovereign!"

Cang Po Yu shook his head and said, "If there is really such a need, I naturally wouldn't stop Big Brother, but.... it hasn't reached that moment yet!"

Cang Po Jun looked at him puzzledly, "What do you mean?"

Cang Po Yu pointed towards the thunder region and said, "Haven't you noticed it already? Although Sovereign kept pushing Grandmaster Huang away refusing to let her go near him, but Grandmaster Huang is still in good condition! If it was anyone else who was standing so near such a powerful thunder attributed region, even if Sovereign didn't intentionally attack that person, he would have turned into a charred corpse by now!"

Hearing what he said, everyone then realised that the situation really wasn't as bad as what they had imagined.

Chapter 1697: Too hard on himself (9)

Huang Yueli was right in the centre of the thunder region with an anxious and panic stricken expression as she followed behind Li Moying rightly. She was just short of hugging his legs to plead, totally like a pitiful little fox which was cruelly abandoned.

However, no matter how pitiful she looked, no one could overlook the fact that there was not even a slight sign of injury on her.

Cang Po Jun and the others were tongue tied when they saw this, "This.... what situation is this considered as?"

Luo Jiyun's twisted face due to the pain finally surfaced a smile, "I said this before, as long as Sister-in-law is here, there wouldn't be any issue right?"

No one had any free time to answer him as everyone stared intently at the duo standing in the centre of the thunder region.

This..... was really considered ok?

...

Standing in the centre of the thunder region, Huang Yueli was even more anxious than others by a hundred times.

She simply couldn't understand just what happened today?

Originally she had hurried over smoothly and when she ran over next to Li Moying's side, she discovered that although he seemed a little weak, but in totality his situation was still alright as she secretly heaved a sigh of relief, thinking that she only needed to pacify him.

Whoever knew that just when she was about to pull the man over to force a kiss on him, even before her fingers had reached his robe, he actually casted her aside immediately.

Initially, Huang Yueli thought that Li Moying had done that unintentionally or perhaps he had not noticed that she was here hence she intentionally rerouted to his front preparing to give him a hug filled with love.

But this wasn't of any use at all.

Li Moying's electric current filled eyes grazed past her slightly with a pained expression beneath his eyes and immediately following that, his brows furrowed tightly and he flicked his sleeves as he pushed her aside once again!

"Hey—!"

Huang Yueli was caught off guard and was thrown aside once again as her butt landed on the ground once again.

This time, Huang Yueli was certain that this man had definitely seen her clearly but yet he still pushed her aside!

Just what was going on? Surely it cannot be that while this man's Soul Detachment Illness was acting up, he still remembered the cold war between them and was still angry, still acting tsundere right??

What was wrong with him? Did he need to be so childish! And like he was throwing rubbish, mercilessly casting her aside without any thoughts!

Huang Yueli's expression turned slightly green.

If it was usual times, she who was pampered rotten by him might just sneer and Li Moying like that. But now in this situation, looking at Li Moying's face which was turning paler by the second, there was no indignance in her heart, only heartache.

Huang Yueli climbed up from the ground once again and got close to Li Moying.

She used her pitiful large eyes in an attempt to soften this man.

"Moying, you... don't be angry anymore alright, I won't quarrel with you, ok? You must be feeling terrible right now, your head is painful, you are totally lethargic but yet cannot stop right? Relax a little and be obedient, let me give you a kiss and....."

"Argh—!"

Huang Yueli's eyes grew wide as she could not believe that she had once again been casted aside yet again!

Although this time, Li Moying had put in extra attention to the amount of strength hence she didn't fall down, but.... he had still pushed her aside!

Huang Yueli was so angry that she stomped her feet crying in anxiety and indignance, "Li Moying! Can you stop using your own body as a joke! Is this time to be angry with me now? Do you know how terrible your face looks right now? If this carries on, your body will definitely not be able to take it!"

Chapter 1698: Too hard on himself (10)

However, Li Moying didn't have any reaction, not even looking her straight in the eyes.

On the contrary, the surrounding thunder attributed energy which gathered around him became even more condensed and even more powerful! Surging thunder attributed Profound Energy kept on gushing towards him!

Bursting sounds of electricity continued crackling in the sky.

Huang Yueli could tell distinctively that with each strike of lightning landing in the sky, Li Moying's complexion turned miserably pale at a visible speed.

His complexion was originally very fair but at this moment, he became even paler to the extent of almost becoming transparent as the greenish veins under his skin all seemed to be surfacing.

Huang Yueli didn't have any time to consider what was wrong with him as she hurriedly pounced over once again.

In the end.... she was still casted aside.

Huang Yueli climbed up once again and on seeing Li Moying's thunder wings spreading out once again as he gradually floated into the sky, she was flustered and exasperated as she rushed over to grab his heels, tugging him downwards onto the ground.

Li Moying repeated the same tricks, wanting to cast her aside once again.

However, Huang Yueli had made enough preparations this time round as she gathered all the Profound Energy in her hands to resist against Li Moying's thunder attribute Profound Energy, insisting on grabbing onto him and refusing to loosen her grip.

"Li Moying, how long are you going into a frenzy for! Are you tired of living? Please regain a little bit of your consciousness, do you really not recognise who I am anymore??"

A severe emotionless pair of eyes swept past her face coldly as the profound dark pupils flashed past a cold glint.

"Let go!"

Following Li Moying's gloomy voice, Huang Yueli felt the impact emitting from her hands abruptly raising in one straight line up! Bursts of exploding thunder attributed energy were emitted into her body, as though it was going to break her wrists into several segments!

Huang Yueli frowned in pain, her fingers had already turned pale and crooked from the pain but she still refused to loosen her grip.

"I won't let go.. Moying, you... you come down, hear.... Did you hear me?!"

Huang Yueli's cultivation was too far apart from Li Moying's and although she had already tried her fullest to resist against it, but she still had no way to go up against such an overbearing thunder attributed Profound Energy from flooding in as it charged against her meridians.

She sensed a turbulence in her chest as though she would throw up blood any second and when she spoke, her teeth were chattering non-stop.

Li Moying's mind was extremely disorderly and all the electric currents which gathered on him seemed to have struck onto the top of his head. That kind of pain which kept on emitting from the soul made him totally unable to reflect and could only follow his instinct to keep on venting, as though this was the only way for him to lessen his pain.

But when his vision fell onto Huang Yueli's pained expression on her face, his heart suddenly jolted!

An indescribable sourish feeling gushed up in his heart.

Li Moying's body shook and he subconsciously retracted the Profound Energy which he had diverged totally out of his own instincts.

Even though his mind was groggy and messed up, but he just didn't want to make this young lass' face have that kind of painful expression.

The pressure on Huang Yueli's hand suddenly lessened.

Her heart leapt with joy as she thought that her persistence had finally yielded effects and Li Moying had finally regained consciousness, recognising who she was.

She hurriedly said, "Moying, alright, alright.... I know you feel very terrible so right now, keep your thunder wings and land on the ground.... Slowly....."

She was saying that carefully as she continued to tug Li Moying downwards while observing the expression on his face carefully, prepared to use her skills as a female lecher to lay her claws on him.

Chapter 1699: Too hard on himself (11)

Li Moying followed her movement and slowly descended a little.

But suddenly, his brows creased vigorously as an intense pain shot right from his head!

Li Moying clutched his head with both hands as he moaned out, "ARGH....."

Huang Yueli's expression changed abruptly as she cried out in anxiety and worry, "Moying, what's wrong? Quick....."

However, Li Moying's pained expression was becoming clearer by the minute as he hugged his head with might and the cold sweat on his forehead kept dripping, followed by the increasing intensity of the Profound Energy from his body!

Powerful matchless thunder attributed Profound Energy was injected suddenly from Huang Yueli's arm, charging right into her meridians causing her expression to turn white immediately!

The crowd outside the thunder region all cried out in shock when they saw that!

"No good! Grandmaster Huang's expression doesn't bode well, it looks like she's suffered internal injury!"

"How could this be? Master Luo, haven't you said that Sovereign will definitely not hurt Grandmaster Huang?"

"We're done for this time round, what should we do?"

Just as everyone was at a loss, Huang Yueli's expression slowly resumed back to normal.

She sensed that right after that burst of sudden charge, Li Moying seemed to have detected that something was not right and gradually controlled his rampaging Profound Energy.

Although he was still moaning while hugging his head, under such a miserable situation, he was still trying his best to control himself not to hurt his beloved woman.

Huang Yueli looked at his green-white countenance and bit her lips and she decided to press her luck!

Her right hand waved and several pieces of Immortal Binding Rope flew out, coiling it onto Li Moying's body and in an instance, Li Moying was tied up securely by the ropes, rendering him immovable.

Huang Yueli took the chance to retract her hands, pulling him towards the ground!

She was very clear that no matter how secure the Immortal Binding Rope was, it couldn't possibly be able to bind a peerless top expert like Li Moying, so she could only take advantage of the fact that he wasn't paying attention to slightly control him for a few breaths of time.

But this bit of time should be enough!

Taking the instance where Li Moying had lost his balance, Huang Yueli tipped her toes slightly and jumped up as her arms wrapped around his neck and leaned in towards his face!

This was really a forced kiss!

The few outside the thunder region were completely shocked and Cang Po Hun couldn't even say a single word as he stuttered, "This, this, this.... what is Grandmaster Huang doing? She's too, too, too.... too anxious already...."

Luo Jiyun explained with slight embarrassment, "Every single time they must do this, as long as... uhhh, they've kissed, Eldest Senior Brother would return back to normal...."

"But...." Cang Po Hun stared at the duo and his brows creased slightly, "Are you certain? Sovereign seems as though he will rather die than to comply?"

This scene, no matter how they looked at it, it was especially awkward...

Huang Yueli had completely thrown her face away as she directly played the role of an evil sheep pouncing towards the wolf, preparing to lay Li Moying down.

But she had totally not expected that when she was about to reach that pale thin lips, Li Moying suddenly turned his head away to avoid her kiss, causing her to kiss his face instead.

Huang Yueli was stunned but immediately stretched out her hand to grab Li Moying's chin in an attempt to turn his face back.

However, Li Moying refused to go according to her wishes as he even grabbed on to her slender waist, hoping to pull her off from him.

Huang Yueli was so angry that she couldn't help but pinched him secretly as she retorted angrily, "What is this? Just let me kiss you once, will you die!? Your innocence has long been ruined in This Lady's hands, still pretending to be some chaste upright man!"

Chapter 1700: Too hard on himself (12)

Li Moying's tightly creased brows seemed to sooth a little as his dazed sight gradually gathered, meeting her pair of large eyes which seemed to be brimming with tears.

"Don't.... no.... just.... just a little more...."

Li Moying slowly pushed out these few words as his deep voice held a trembling tone, as though his breath was floating.

If it wasn't for the fact that Huang Yueli was so close to him, she totally couldn't hear what he was saying.

Huang Yueli plastered up to him urgently and asked anxiously, "What are you saying? Wait for a while?? Do you know that you're about to lose your life! How long are you going into a frenzy for??"

When Li Moying heard that crisp and anxious voice, smelled the sweet and familiar fragrance, his mind regained clear headedness for that one instance, recalling the matter which he kept on reminding himself before he acted up...

"Just... just a little more.... let me.... me recall.... recall the matters..... in the past....."

Li Moying said intermittently.

Huang Yueli was originally slightly dazed but not too long later, a thought arose in her mind. That shocking guess made her tremble violently.

Surely not.... Impossible right...

"You.... speak clearly! What are you trying to do? What matters in the past? What you're saying, surely it's not... the matters in our past lives?"

Li Moying looked at her deeply as his panting became even more severe.

"Just wait.... Wait a moment more... I am about... about to recall....."

His voice became softer and the surrounding thunder attributed energy became even more uncontrollable as the entire Levitation Sword Palace rang with continuous lightning strikes as it started to shake!

For a moment, Huang Yueli felt her entire body turning chilly, even her heart was about to stop.

"You.... you actually.... for this kind of thing! Damn it! I really deserve to die!"

Huang Yueli finally understood why Li Moying insisted on holding on like that, refusing to let her control his illness!

Because it was only when his Soul Detachment Illness acted up will he regain his memories, recalling what happened in his past life! He was so insistent on holding on, only to regain more memories of their past!

Thinking of this, Huang Yueli's inner heart's self-blame had reached the limit.

She recalled the reason why she was in a cold war with Li Moying for this period of time, which was because she suspected Li. Moying for not telling her what happened in their past lives! Li Moying had tried to explain to her numerous times but she wouldn't believe in his explanation, insisting that it was because Li Moying was lying to her!

She had even set a last ultimatum to this man that if he still refused to divulge what happened in his past life after she self-exploded, then she would break off the engagement with him!

Whereas now, Li Moying didn't care if he was expending his life source just to force himself to recall the matters which happened in his past life, wasn't it exactly because of the threat which she had said to him?

It seemed that he really couldn't remember what happened in his past life, and not lying to her! Whereas the petty her actually kept on suspecting the man who loved her deeply, even forcing him to take this half dead step!

Huang Yueli was feeling both guilty and heartache as the rim of her eyes suddenly turned red.

"Moying, stop thinking! Stop thinking already! I don't want to know already!"

She choked as she tried her best to hug the man's neck, pleading with him.

However, Li Moying insistently moved his head aside, "No... No way, I have to.... have to recall!"

Huang Yueli's head was buried in his chest as she missed the deep scheming glint in Li Moying's eyes.
