

Weaponsmith 1741

Chapter 1741: Who exactly are you? (4)

Ye Xing Hua saw that and his heart was alarmed as he trembled in fear.

This young lass's actions were simply illogical!

Many of the Armament Master Headquarters internal sector's mechanisms and arrays were left behind from ancient times and weren't just set up now. The mechanisms in here were difficult even for ninth stage realm Armament Masters to set up.

No matter how talented this young lass was, surely she couldn't be as brilliant as those ancient Armament Masters right? Although she indeed was talented enough but for her to be able to see through those mechanisms' mystery, Ye Xing Hua still felt that it was impossible.

But if she hadn't seen through it at first look, didn't that mean that she had been here before and was familiar with the various mechanisms nearby?

This... seemed even more impossible....

Surely it couldn't be..... couldn't be.....

Earlier the guess which Ye Xing Hua had in his heart when he saw the young lass refining armaments, surfaced once again.

This time round, even though his rationality repeatedly reminded him that this was not possible, but Ye Xing Hua was still unable to do away with this ridiculous thought out of his mind.

Not too long later, the duo reached the Armament Guild Headquarters exclusive refining room for the President.

Right after the two entered the room, the door automatically shut behind Huang Yueli.

Ye Xing Hua couldn't suppress his suspicions in his heart and asked in anticipation, "Young Miss Bai, let's have an open talk. Your armament refining skills are extremely unique and is a self-contained system which distinguishes itself from others. This is something which you should be very sure of!"

Huang Yueli nodded her head slightly when she heard that.

Just as Ye Xing Hua was sizing her up, she was actually observing Ye Xing Hua as well.

After so many years, Ye Xing Hua's appearance did not change much.

Because in her past life, Ye Xing Hua's age was much older than her by a little.

But to an Armament Master, age didn't matter. As long as the armament refining skills were high enough, it was enough to win the respects of everyone hence taking in disciples who were older than oneself was something which commonly happened.

Ye Xing Hua was an Armament Master in the entire Sky Emperor City with the greatest innate talent. He wasn't even thirty when he reached the realm of a seventh rank Armament Master, which was also considered as something which might not even happen within a century.

But after Huang Yueli was born into this world, that little bit of innate talent of his was not enough at all.

Armament Masters were mostly arrogant and when Ye Xing Hua was young, he was once unwilling to accept the fact that he couldn't match up to a young beautiful young lady hence he challenged Huang Yueli several times.

But after the multiple attempts of being crushed, he finally admitted that his skills didn't match up to hers. At the same time, just like Sky Emperor City's multiple talented practitioners, he too secretly admired this outstanding talented and beautiful Young Palace Lord from Mythical Flame Palace.

Of course, this secret admiration was destined to have no result but Huang Yueli had the heart to revitalize the entire Armament Guild and valued his innate talent very much hence she tried means and ways to give him pointers, and selflessly imparted her exclusive skills to him.

Later on, Ye Xing Hua became her disciple and officially started learning armament refinery from her.

Huang Yueli was very clear about Ye Xing Hua's thoughts towards her. There were just too many people who had secretly admired her since young so she didn't really put too much thought into it. As long as she knew Ye Xing Hua's innate talent was very good and he wouldn't betray her, that was all it mattered.

But that year, Mu Chengying had a lot of opinions towards Ye Xing Hua.

Huang Yueli loved to refine armaments and often left him in the lurch to refine armament.

It was Ye Xing Hua, the eldest disciple, who spent even more time with her in the Armament Guild!

Chapter 1742: Who exactly are you? (5)

Hence, Mu Chengying often picked on Ye Xing Hua.

But he was still very sure that although Ye Xing Hua was a first rated genius in everyone's eyes, but he still wasn't qualified enough to fight with him over Huang Yueli.

His Li'er couldn't possibly take any interest in anyone whose innate talent was worse than herself.

So although Mu Chengying wasn't satisfied, he didn't do anything to Ye Xing Hua.

Huang Yueli had taken the opportunity to sneak out to the Armament Guild Headquarters when Li Moying was still in closed door cultivation, partly because she didn't want Li Moying to find out.

If that man who was easily jealous found out about this, that she came to look for her past life's admirer, it was imaginable that he would definitely tried various ways and means, throwing his temper and acting tsundere, just to obstruct her plan.

Huang Yueli thought about it and gave a secret sign. Having such a petty fiancé was somewhat a troublesome thing.....

Ye Xing Hua sized up Huang Yueli and on seeing that she wasn't a single bit flustered of being exposed and he became even more suspicious.

“Young Miss Bai, please don’t take offence at something that This President is going to say. I wonder where did you learn your armament refining skills from?”

Huang Yueli shook her head slowly, “No one taught me.”

Ye Xing Hua frowned, “Young Miss Bai, are you certain? Your armament refining skills are extremely unique and have not been recorded in any armament refining manuals so without any Master, how are you able to grasp it? Don’t tell me this is something that you’ve researched yourself because this is something impossible!”

Ye Xing Hua was desperate to find out about her relationship with his own Master hence his tone sounded rather pressurizing.

But Huang Yueli kept an indifferent attitude towards him as she remained calm and unruffled, “Why is President Ye so certain? Perhaps this is indeed an exclusive skill which I have researched by myself.....”

“Impossible!”

Huang Yueli’s words weren’t completed when she was interrupted.

Ye Xing Hua kept his eyes fixated on the young lass in front of him as he spoke solemnly, “Young Miss Bai, we are upright people and don’t indulge in hidden speeches. Your innate talent is indeed outstanding but after all your age and experience isn’t enough so if you want to create your own armament refining skills, it might be possible after ten years later, but now.... it’s still too early to say! Moreover.....”

He paused for a moment and hesitated but still decided to say it out, “Moreover speaking, those armament refining skills of yours is something which I’ve seen many times! This method was created by someone whom I am familiar with twenty years ago. Whereas the way you executed it, no matter if it was in terms of grasp of timing or the control of your Profound Energy, it’s totally the same! Evidently, you have obtained her handed down teachings and moreover you’ve mastered it pretty well!”

“What This President wanted to know was where did you learn this from? Who is the person who had imparted these skills to you?”

When Huang Yueli heard these, she smiled slightly, “Regarding this.....”

She had the heart to delay her response a little just to observe what reaction Ye Xing Hua gave.

But Ye Xing Hua thought that she was going to deny and hurriedly said, “I know that it might be possible that you don’t want to let anyone know your secret. But this matter is very important to me. As long as you tell me the truth, I can satisfy all your demands! I can take you in as my disciple and impart everything that I’ve learnt to you. Moreover I can immediately award you with the status of an honorary member of the Armament Guild, your status will be the same as Elders and you’re allowed to use all of the resources from the Armament Guild Headquarters. Besides that, all the manuals are at your disposal!”

“Such good treatment...”

Chapter 1743: Who exactly are you? (6)

Hearing Ye Xing Hua's various conditions for exchange, Huang Yueli couldn't help but reveal an astonished look.

Even the Armament Guild Headquarters Elders didn't have the right to flip through all the manuals as they wished. If they wanted to go through those ancient manuals which only had one copy left, those required contribution points to exchange for.

But now, Ye Xing Hua had actually suggested all these conditions, just to trade for a secret of hers!

Actually, whether he knew this secret or not, it didn't make any difference to the current Ye Xing Hua.

Because these exclusive armament refining skills were something which had imparted to Ye Xing Hua. But as his innate talent was limited, he only managed to acquire superficial knowledge on it.

So he pursued after the truth relentlessly not because of the armament refining method but because... his heart was still longing for the person who had already passed on.....

So many years had passed, was Ye Xing Hua's thoughts still the same as sixteen years ago?

Ye Xing Hua nodded his head as he continued, "That's right, other than these conditions, if you have any other requests, you can list them all out. As long as you can tell me where you learnt all these armament refining skills from, everything can be discussed."

Huang Yueli smiled as she shook her head, "I'm sorry President Ye, but I've already told you all the truth!"

When Ye Xing Hua heard that, he immediately became infuriated.

"Miss Bai, This President values your innate talent and moreover also respects the person who taught you such refining skills hence I'm willing to list out these conditions! Do not go overboard!" Ye Xing Hua spoke out sharply.

He had been the Chief President of the Armament Guild for over a decade and was long established. He was no longer the same as that weak young man sixteen years ago. The current him was awe-inspiring when he put on a face and it was enough to make those arrogant Armament Masters listen to him obediently.

However, Huang Yueli totally wasn't affected as she had a faint smile on her lips.

"President Ye, please don't misunderstand. I really don't have the intention of demanding for anything major because the conditions which you've listed are already more than enough! The problem is I've already said the truth but you refused to believe in me, then what do you want me to do?"

"You've already said the truth? Your meaning is these armament refining skills are really researched by yourself?"

Huang Yueli nodded her head, "That's right, the truth is as it is!"

"Young Miss Bai, are you treating me like an idiot?" Ye Xing Hua huffed out from his nose, as he lost his last sliver of patience at the very same time.

“I’ll be outright and say this. To be able to refine various kinds of materials simultaneously and using brisk fire to do moulding, these skills are already in place since long ago. It’s my Master, Grandmaster Huang Yueli who had already passed on, she had been spending twenty over years researching the perfection of these skills. But because using these skills requires an exceptionally strong mental power as well as excellent cultivation, the other Armament Masters weren’t able to reach her standard hence this method had long been lost right after her demise!”

“I don’t know where you learnt these skills from but you say that you created this yourself? That is the most amusing matter under the Heavens! Surely it couldn’t be that you’re my Master who had reincarnated?”

Ye Xing Hua’s lips curled into a cold smile, as his heart was filled with disdain!

He had originally appreciated this young lady with excellent innate talent but she actually pretended that she was the one who invented this exclusive skill!

Laying a false claim to another person’s research results, this matter was the most taboo thing in the Armament Master’s circle.

To an Armament Master, this was a serious matter regarding one’s moral standing.

Chapter 1744: Who exactly are you? (7)

The minute anyone discovered to have this kind of action, it would absolutely result in instant defeat and fall from grace.

Now this young lass actually didn’t learn the proper things at a young age and falsified the claim to another person’s results. Moreover the person whom she laid claim to was his most respected Master!

This was something which Ye Xing Hua wasn’t able to accept!

Ye Xing Hua’s face had turned totally red and was extremely disappointed with this young lady, with the intention to kick her out.

But just as this moment, Huang Yueli spoke out again.

“Xing Hua, in the past I thought you were rather slow, but I’ve not expect that after a decade had passed, your eyesight has become much more precise! You actually could tell that I’ve been reborn!”

Ye Xing Hua’s infuriated expression was fixed on his face and he stood stiffly on the spot. His first reaction was that he had developed a hallucination.

“W... What?”

Huang Yueli walked over slowly until she was barely one meter away from him and stopped as her lips curled into a mischievous smile.

“Little Star, you’ve already seen my exclusive armament refining skill yet still don’t know who I am? Tsk tsk, to think that I’ve wasted so much effort on your few disciples but in the end, all of you failed to live up to my expectations! In that case, did anyone else manage to grasp it? Other than myself, who else is able to execute this skill?”

“B... But...”

Ye Xing Hua looked like he was about to faint!

This couldn't blame him for being discomposd. After all, a person who was dead for many years suddenly popped out to say that she was still living, moreover changed entirely to a different person.

If there wasn't someone intentionally pretending to be a ghost, then it meant that.... he really met a living ghost!

Huang Yueli smiled and said, “Why? Still don't believe me? Then how about this, since you have the armament furnace and armament refining materials all here, how about I exhibit the other exclusive skills to you? Feel free to list a few to test me!”

Ye Xing Hua trembled as he kept on muttering, “Impossible.... Impossible....”

“This can't do? Then do you need me to speak about those little secrets that I know about? For example the first time you issued me a challenge, it was a private agreement and I said if you want to challenge me, it can be done but there must be stakes involved. If you lost, then you'd have to run over to Splendid Violet Heavenly Palace's to steal Palace Lord's Young Miss' undergarment. Later on you really lost and could only go steal that undergarment. Unfortunately that Young Miss Luo happened to return at that exact timing and you had to bumped into her. If it wasn't for me who came to your rescue, you'd probably have been chopped into minced meat and thrown into their rear garden to become fertilizer!”

“You... you.... who exactly are you??”

Hearing this, Ye Xing Hua's eyeballs almost popped out!

Because this matter was really something which only he and Huang Yueli knew about!

He was merely twenty over year old then and had been a disciplined young man, conscientiously doing work and had an introverted character. Other than armament refining, he basically didn't bother about any other matters so naturally... he had never done anything out of bounds.

He had not expected that the very first time he issued a challenge because he wasn't convinced, he lost and that was already very hurtful to his pride. In the end he had even been schemed against and was embroiled in one terribly. He was eventually caught on the spot and had spent an enormous effort before he was able to escape successfully.

This matter was something which he could not possibly forget for his entire life!

But after so many years, other than Huang Yueli herself, there was absolutely no one who would know about this!

Thinking of this, Ye Xing Hua's heart started to beat so fast that his heart almost jumped right out from his throat.

Chapter 1745: Who exactly are you? (8)

His eyes opened wide as though trying to see clearly if the young lady in front of him was a human or ghost.

But at this current timing, he suddenly sensed as though he had entered a bottomless pit as his entire soul was sucked into it as his head felt a dizzy sensation.

Following that, a “buzz” sound popped out from his mind and he totally forgot what he said...

Huang Yueli noted that the light in his eyes had disappeared as she raised her hand to wipe off the sweat on his forehead.

“Phew, I almost couldn’t control him! This is the first time in this lifetime trying to control a ninth stage realm practitioner! Luckily an Armament Master’s willpower is much less firmer than practitioners....”

Wanting to confirm if Ye Xing Hua was still the same as a decade plus ago, this wasn’t something which could be deduced from mere cliché.

Huang Yueli had been planning right from the start to use the Piercing Sky Eye technique to control Ye Xing Hua then interrogate him.

Only with such circumstances would she be able to confirm whether the other party’s words were lies or not.

Moreover the reason why she was relaxed in following Ye Xing Hua into the internal sector of the Armament Guild Headquarters was because this was the place which made her feel the safest.

She was the only one the several thousands of years who was able to grasp the control of all the mechanisms in the Headquarters. Even for the current President Ye Xing Hua, he was only able to control around half of it in total.

If Ye Xing Hua really had dubious intentions towards her, then the person who would die a horrible death would absolutely be him.....

But safety concern was one thing, wanting to control Ye Xing Hua was absolutely not an easy matter because he was a ninth stage realm practitioner. Although he was only in ninth stage realm first level, his cultivation was much higher than Huang Yueli’s at this moment.

Huang Yueli had no choice but to aggravate him first and while he was under the condition of extreme shock and as his mind and spirit were undulated, she suddenly utilised her Piercing Sky Eye technique to obtain immediate success.

As the disparity between their cultivations were just too huge, Huang Yueli used up a lot of her mental power and her head was still acting up in pain slightly.

But she couldn’t be bothered about resting as she immediately went close to Ye Xing Hua and questioned, “Do you still remember Huang Yueli?”

Ye Xing Hua’s eyes shot past a sliver of excitement, “Remember, how could I ever forget! She’s my Master, Soaring Heavens Continent’s most outstanding Armament Master. Even in ancient times, there might not be anyone who was such a talented armament refining genius like her, she’s just too powerful and is the idol whom I’m chasing after for my entire life, but....”

Ye Xing Hua paused for a moment before his voice spiked up into a sharp tone, apparently extremely agitated.

“SHE’S DEAD! Self-exploded in the northern ice fields, with her soul and spirit dispersed! Never to re-enter the wheel of reincarnation ever again!”

Huang Yueli hurriedly pacified him, “Alright, alright, I understand now. Don’t be too agitated.... Those are all memories from many years ago.....”

Seeing him in this state made Huang Yueli sigh a little in her heart.

Looked like Ye Xing Hua’s feelings for her that year were rather deep. Even after sixteen years had passed by, when he recalled the past, it still made him so agitated.....

It would naturally be false if she said she wasn’t touched but alas, she already had someone in her heart and no matter how deeply sentimental other men were towards her, she could only pretend to not know about it.

Huang Yueli tried ways and means to let Ye Xing Hua settle down a little. She hurriedly grabbed time and continued interrogating, “After Huang Yueli died, what happened? Do you still recall?”

Ye Xing Hua heard that and got a little agitated again.

“That... that bunch of despicable villains! A few days after Master died, there were some high levelled Armament Masters who rebelled and secreted let in some dubious ninth stage realm practitioners into the Headquarters internal sector!”

Chapter 1746: After your self-explosion..... (1)

Huang Yueli was slightly surprised as she pursued after this topic, “Who were they? Why did they enter the Armament Guild Headquarters? Are they here to steal Profound Armaments?”

After she asked this question, she felt something was amiss.

There were many high levelled Profound Armaments in the Armament Guild Headquarters warehouse and none of the large powerhouses in Soaring Heavens Continents had such a huge stockpile.

But to be able to nurture so many ninth stage realm practitioners and also to bribe high levelled Armament Masters, making them take the risk of ruining their reputation to let them into the Headquarters internal sector, the backing behind this powerhouse shouldn’t be one which couldn’t afford to purchase a few pieces of Profound Armaments, thus turning to steal it right?

However, Ye Xing Hua nodded his head, “That’s right, they were really here to steal something... no, to put it more accurately, they were here to search for something!”

Huang Yueli frowned as she had not expected this answer. Her instinct told her that the truth behind this was definitely not something simple.

“What on earth is going on? Tell me right from the start in detail.”

Ye Xing Hua’s breathing turned hasty, apparently slightly agitated.

“When the news of Master’s passing away reached the Armament Guild Headquarters, everyone was shocked as no one believed that she passed away at such a young age. At that time I was exceptionally

upset and had stayed in the Armament Guild for the entire month continuously, just to tidy up the manuscripts and notes which she had left behind.”

“That night, I slept very late and heard someone walk past the corridor quietly. Moreover they were speaking in lowered volumes and it sounded as though there were ten over people. Armament Masters are mostly unsociable people and very rarely walk in large groups. Moreover it’s in the middle of the night so I secretly followed them to have a look.”

“In the end I saw six to seven high levelled Armament Masters leading a few abled ninth stage realm practitioners entering into the zone where outsiders were not allowed to enter. What’s more, there were two Elders from the Armament Guild Headquarters who were within this group!”

“What?? Even eighth rank Armament Masters are involved in this?” Huang Yueli screamed out in astonishment.

Only eighth rank Armament Masters could hold the position of an Elder in the Headquarters and the value of eighth rank Armament Masters were very high as most of them were pursued after by various large powerhouses. They definitely had both fame and fortune, not lacking in anything.

They actually were willing to take the risk to let outsiders in, just which nerve was connected wrongly?

However, Ye Xing Hua continued speaking and the contents made her being left awe struck!

“As there were too many top exponents among them, I didn’t dare to go up against them, just merely thinking of checking on what they wanted to do and after collating the evidence, I’ll find a chance to expose them. I followed behind them carefully and discovered that they first went to my Master’s armament refining room!”

Huang Yueli was stunned, “My armament refining room??”

“Armament Guild has their own rules and when the Armament Master passes on, the armament refining room which had been used before would be withdrawn for communal uses so after Master passed on, the power of those arrays which were used to protect the armament refining rooms would gradually weaken and the few seventh rank and eighth rank Armament Masters joint hands and with the destructive power from those ninth stage realm practitioners, they spent a very long time but were eventually able to break through. The group of people charged into the armament refining room and started to overturn all the boxes and cabinets, searching every single corner.”

Huang Yueli seemed to have understood something as she asked while in deep thoughts, “Are they searching for a rare treasure? Did you hear what they were talking about?”

“Yes!” Ye Xing Hua nodded, “I heard distinctively that they were saying, to search carefully. This thing is only a small piece and there was a possibility of it being concealed by a concealment array.”

Chapter 1747: After your self-explosion..... (2)

“Someone asked what was it exactly but the ninth stage realm peak practitioner who was leading the group spoke extremely cautiously, only saying that it was a palm sized jade artifact and asked the Armament Masters to take notice, to check every suspicious single mechanism like array, leaving nothing left unturned.”

“Ninth stage realm peak practitioner....” Huang Yueli frowned as she racked her brains, “Who could that be?”

Soaring Heavens Continent’s Sky Chart’s ninth stage realm peak practitioners were only those ten over people but she couldn’t exclude the peerless top exponents from the four sky regions and those who had hidden themselves into seclusion.

Among those people, who would take the risk of entering the Armament Guild Headquarters?

Actually, the moment Ye Xing Hua mentioned this point, Huang Yueli had already started to understand that.

The item which these people had secretly sneaked into the Armament Guild internal sector to search for, should be her Sky Phoenix Ring.

When she self-exploded, she actually brought the Sky Phoenix Ring along and even she herself did not imagine that her self-explosion had actually roused the spirit in the Sky Phoenix Ring, activating the piece of God relic, making the Sky Phoenix Ring merging her thoughts into one, thus allowing her to be reborn.

In this way, these people who had pursued after her relentlessly for the Sky Phoenix Ring would naturally not be able to find even the dredges of it.

Looked like these people were still unresigned as they turned their attention towards the Armament Guild Headquarters!

But even if they turned the entire Armament Guild upside down, it was impossible to find whatever Sky Phoenix Ring!

Ye Xing Hua continued to speak, “These people couldn’t find the things which they wanted in Master’s armament refining room and decided to continue searching in the Headquarter’s warehouse but they still weren’t able to find anything. Just as I thought that they were preparing to give up, that leader suddenly said that Huang Yueli was on the best terms with President Jiang in the Armament Guild Headquarters and perhaps that old man might know something! So they turned around and headed over to President Jiang’s armament refining room.....”

Saying to this point, Ye Xing Hua suddenly stopped.

Huang Yueli had an ominous foreboding in her heart, “What’s the matter? Why aren’t you continuing?”

Ye Xing Hua’s face flushed totally red and his eyes were filled with blood as his fists clenched tightly, as intense anger was dissipated from him!

“That bunch of beasts.....! That bunch of beasts killed President Jiang!”

“What?? President Jiang was killed by them??”

Huang Yueli’s eyes turned wide, totally unable to believe what she heard!

The President of the Armament Guild Headquarters at that time was Jiang Chengxun and he was an amiable grandpa who was a few hundred years old. Anyway he had been holding the position of Armament Guild Headquarters President for many, many years already.

When Huang Yueli was very young, she obtained a lot of help from him and was extremely respectful towards him.

After her rebirth, she had indeed heard of such a rumour that not too long after her self-explosion, President Jiang had also passed away. But she did not put too much thought into that.

Because President Jiang's condition had not been very good and he was indeed extremely, extremely old so there was a feeling that he would breathe his last any moment soon hence the news didn't really surprise anyone.

"What on earth exactly happened? Tell me quickly!!"

Huang Yueli saw Ye Xing Hua shaking with anger as she was so anxious that she stomped her feet!

Ye Xing Hua had finally regained some calm and swiftly narrated the happenings as he voice kept on shaking.

"President Jiang was behind closed doors in his armament refining room refining armaments and was rumoured that he needed to refine continuously for three days and three nights before it could be accomplished. However, these people broke through the protection array mid-way and charged in to interrupt him. Besides that, they took the opportunity while he was fully concentrated on the armament furnace to capture him and tied him up."

"Damn it! How dare they actually do this to President Jiang!" Huang Yueli hissed through gritted teeth.

Chapter 1748: After your self-explosion..... (3)

Ye Xing Hua's face muscles twitched as he continued to speak, "This bunch of people bound President Jiang up and started searching his armament refining room but they didn't find the things which they wanted. Hence the leader lost patience and started interrogating President Jiang asking him where he hid that thing! But President Jiang refused to say a single thing!"

"Those people tried ways and means to worm information out of him but after they realised that he wasn't tricked, they started to intentionally torment him! President Jiang was already so old so how could he even take their torture but although he was in so much pain, he still refused to say a word! Later on.... Later on..."

Ye Xing Hua choked so much that he couldn't even say a single word.

Huang Yueli's expression turned uglier by the minute as her fingernails dug deeply into her own palm as blood started to bleed from the corners of her nails.

"These deranged beasts, for a piece of Profound Armament which they couldn't use, they actually.....!! I have really let President Jiang down. That year I was already considered as a dead person in everyone's eyes but he actually still helped me to keep the secret.... He wasn't meant to die..."

That year after she found the shattered piece of Sky Phoenix Ring, she only told a few people whom she trusted.

One was Mu Chengying, another was her best friend Ling Qing Yu and lastly was Jiang Chengxun.

In the end Ling Qing Yu betrayed her and told her secret to various powerhouses, causing her to die in the Northern Ice Fields.

Whereas Mu Chengying and Jiang Chengxun lost their lives for her.....

“I rushed over to fight with those scums but whoever knew that President Jiang suddenly used his remaining Profound Energy to break through the restraint and activated a hidden self-destruction mechanism in the armament refining room! I was blocked on the outside by the array and could only see President Jiang activating one after another mechanism, killing those intruders one after another. In the end the Headquarters’ most southern side collapsed entirely, burying all of them into the grounds deep below...”

Huang Yueli forced herself to finish listening to this grievous news as she was so angry that she was shaking.

Even though she didn’t know who killed Jiang Chengxun, but she was sure that it was definitely related to those few powerhouses who had caused her self-explosion! Those people.... they had really lost their head through material greed, completely devoid of conscience!

But she totally couldn’t understand the reason because it was merely a piece of shattered God Relic!

At that time, even she herself was not sure what uses the Sky Phoenix Ring had or what power it could display so why did these people completely let go of their consciences, killing someone over and over again!

Moreover, even if they were able to find the Sky Phoenix Ring, there were so many large powerhouses so how were they going to distribute this Profound Armament? Were they really able to derive a lot of benefits from this?

Why did these people do so?

Had desire really gushed through their minds or.... Was there another hidden agenda?

This thought flashed past Huang Yueli’s mind but very quickly, it was casted out of her mind.

Because Ye Xing Hua suddenly grabbed his head with a dizzy look which was the sign of the Piercing Sky Eye technique losing its effect and he was about to regain his consciousness.

Huang Yueli quickly asked, “What happened after that? After President Jiang passed on, didn’t the Armament Guild Headquarters investigate the truth behind this?”

Ye Xing Hua frowned and forcibly replied, “Investigated but... those people’s corpses were all buried within the mechanism and there was no way to find out their identities.... But for the few high levelled Armament Masters who turned against us, their identities had all been verified but as the dead cannot testify, we weren’t able to find out anything at all.”

Chapter 1749: After your self-explosion..... (4)

Huang Yueli's brows knitted together tightly but she knew that what Ye Xing Hua said were all within reason.

The Armament Guild was able to stand at such a worldly position all purely because of the Armament Master's skills.

If anyone offended the Armament Guild Headquarters, they were able to use high tiered Profound Armaments as chips to find the other powerhouses to stand up for them. There would be some who would look at the benefits and were willing to be of service to Armament Masters.

If they were really to talk about the cultivational ability, Armament Masters totally couldn't be compared against same levelled practitioners. The same levelled practitioner would only need to move one finger and they would be able to send most of the Armament Masters flying.

Moreover for this time, the powerhouse behind President Jiang's death were several Sects from the Seven Sacred Lands! Probably only Blue Profound Sect and Mythical Flame Palace had not taken part in it....

Wrong, even if it was Mythical Flame Palace, Huang Yueli didn't dare to guarantee that they were not involved. After all, after her death, the person who was helping Mythical Flame Palace was that useless Senior Brother of hers...

In this way, Armament Guild totally could not find anyone to help them stand up and at the same time, they did not have enough ability to challenge the Seven Sacred Lands. Even if they really did manage to come out with any findings, it would only be dealt with as "no testimonial from the dead".

Huang Yueli heaved a deep sigh, "So after this matter, Armament Guild then started to wither and you became the Headquarters President?"

Ye Xing Hua nodded, "There are quite a number of eighth rank Elders who were implicated because of this matter and the remaining few Seniors are all timid so on seeing President Jiang dying in this way, who else dared to take up the position of President? In the end, they pushed me to fill up the position."

Huang Yueli nodded as she finally understood why Ye Xing Hua was able to take up the Headquarters' President's seat at such a young age.

She wanted to ask something else but she saw Ye Xing Hua suddenly shivering.

Following that, a dazed look was seen beneath his eyes as his gaze looked ahead dully, as though not knowing where he was.

After a moment, he seemed to have awoken from his dream as his eyes suddenly grew wide, staring intently at Huang Yueli.

"You.... you... you really are....."

Although his consciousness was being controlled, but the moment he regained his consciousness, he was still able to remember what happened when he was under control hence he knew that he was manipulated by the Piercing Sky Eye technique.

However, this exclusive Profound Skill only made him ascertain the identity of the person in front of him.

Huang Yueli sighed with a complicated tone, "Xing Hua, we've really not met for such a long time.... Now you can't even recognise me right? But you're exactly the same as sixteen years ago."

Ye Xing Hua heard that and immediately plopped down, kneeling down on the floor.

"You are... you really are.... Master's reincarnation?"

Huang Yueli nodded, "That's right."

"But.... but....didn't the rumours around say that you died because of self-explosion in the Northern Ice Fields, so shouldn't.... shouldn't...." Ye Xing Hua couldn't continue with his words.

"Shouldn't my soul and spirit have been dispersed, unable to enter the wheel of reincarnation?" Huang Yueli good naturedly filled in his words for him.

Ye Xing Hua nodded with a grave expression.

Huang Yue shrugged as she replied in a calm tone, "To tell the truth, I also haven't understood what's going on for this until now. I feel that this should be related to Mu Chengying! No matter what, at the very least, I Huang Yueli have returned, isn't it? If those masterminds behind the scenes found out about this, they would probably not be able to sleep in the night!"

Saying that, a fierce aura flowed out naturally from her entirely!

Chapter 1750: After your self-explosion..... (5)

This kind of aura was exactly the same as in her past life!

Even though there was a difference in Huang Yueli's looks in her past life, but when she revealed this kind of expression, Ye Xing Hua felt as though he had seen that outstanding peerless genius sixteen year ago, returning back once again.

Ye Xing Hua erased the last ounce of doubt on her identity completely.

He bowed lowly in front of Huang Yueli and the rim of his eyes moistened up.

"Master... you're back, it's really too great! These years, without your points and with so many high ranked Armament Masters dying in that incident that year, the entire Armament Guild could be said to have no more successors and have completely fallen into the abyss of the pit. And President Jiang had died such a horrible death so you must think of a way to take revenge for him!"

Huang Yueli's expression turned icy as she replied, "Don't worry, these people... I will not let anyone of them go! I've already guessed a direction and I know that those who had participated in this matter, are probably which powerhouses."

Ye Xing Hua heard that and started bugging her anxiously, "Master, who is it who killed President Jiang?"

"A few Sects from the Seven Sacred Lands..... Celestial Heavens Gate is definitely involved, and Seven Stars Palace, Sky Devil Sect....."

Huang Yueli spilled out one after another powerhouses names which made Ye Xing Hua start to tremble in fear as his heart was alarmed from hearing these.

He had actually once doubted that so be able to bribe so many high ranked Armament Masters, this matter was something which the Seven Sacred Lands was able to achieve but without solid evidence, he didn't dare to challenge those huge matters casually.

But now, from Huang Yueli's tone, those who had participated in this matter were not just one of the Seven Sacred Lands, but a few others as well.

The more he heard, the paler his complexion turned, "I've never expected so many of them had participated in this? But just what were they searching for in the Armament Guild?"

"I found a treasure in an ancient mystic region in my past life, but alas.... That time it had already turned into ashes when I self-exploded then." Huang Yueli didn't want to explain too much so she casually found an excuse to brush over it.

Ye Xing Hua didn't suspect anything but only frowned worriedly.

"If there were really so many powerhouses taking part, then to take revenge for President Jiang, that would be too tough.... Master, we need to have a long term plan for this matter so don't ever be rash. After all, ughh..."

Ye Xing Hua hesitated as he wanted to say something but stopped.

Huang Yueli immediately understood what he was trying to say, knowing that he felt that her current cultivation wasn't like before, hence she could not act so recklessly as what she did in her past life.

"This I naturally know so relax, I'm never one who belongs to the rash kind. If I'm not certain about something, I wouldn't casually make a move."

Having experienced death once, she understood it even more clearly that it was necessary to restrain her own brilliance when it was necessary, and act low-keyed while waiting for the right opportunity.

Ye Xing Hua relaxed and at the same time, started to feel curious.

"Right Master, for so many years, where did you grow up? Why is it that you've only returned to look for me only today?"

"This is a long story... right, why are you kneeling on the floor for? In the past you were never so respectful towards your Master me isn't it? Have you finally found your conscience?"

"..."

Ye Xing Hua silently stood up as he returned to sit in the position opposite Huang Yueli.

Huang Yueli thought for a moment and gave him a brief description on what she had experienced in the past few years.

The more Ye Xing Hua heard, the wider his eyes grew.

"What? Master, you're saying Sovereign Mu also reincarnated along with you?"
