

Weaponsmith 1791

Chapter 1791: Last day (5)

Huang Yueli's brows creased slightly as she was sweating on his behalf inside her heart.

Towards Luo Jiyun, this was the hardest juncture and because his actual cultivation hadn't even reached Mo Yi's, he was only at sixth stage realm seventh level!

Although his innate talent wasn't too bad, but his age was right there and moreover in the past when he was in Celestial Light Sect, the training that he had undergone was far from those practitioners in Blue Profound Sect.

Actually, after Huang Yueli and Li Moying's spartan training in this period of time, his actual ability totally would allow him to reach three thousand five hundred meters height and above but the amount of pressure he was facing was extremely huge.

Sixth stage realm seventh level's cultivation, a missed step would result in him being consigned to eternal damnation!

He might not have this confidence and courage to win his inner fears, to really reach the height of three thousand five hundred meters!

Every step after that, to him, was a huge torment and test.

If he was able to win himself, then to him, it would be considered as baptism of his soul and heart, allowing his potential to ascend.

Cang Po Jun and the others were extremely anxious and the three Great Guardians' eyes were fixated on him, worried that he might really fall down.

Luo Jiyun was Li Moying's Junior Brother whom he had brought over from the South Sky Region and if he died in the Sky Ascension Stairs assessment which they were in charge of, they would definitely be implicated.

Luckily, the amount of time where Luo Jiyun had stopped for wasn't considered too long and it took merely an incense's time before he started to step forward again, continuing to proceed forward.

One step, two steps, three steps....

Every step Luo Jiyun took was according to the footsteps which Huang Yueli had taught, precisely and perfectly completed, totally not affecting his body movement Profound Skill exhibition due to the gradual reduction of his eyesight.

Huang Yueli nodded her head in gratification, "Not bad, in this way, it shouldn't be a problem for him to reach the position of three thousand five hundred meters! As for after that.... that would depend on how much potential he has!"

As what Huang Yueli predicted, Luo Jiyun took slow but steady steps forward.

When he surpassed three thousand two hundred meters, it had already roused a rustle within a small boundary because for sixth stage realm seventh level practitioner to be able to reach this height was simply very rare.

But he immediately continued to surpass three thousand three hundred meters, three thousand four hundred meters, all the way heading towards the position of three thousand five hundred meters.

“Wah, he really is someone whom Senior Brother Li had brought along! No wonder he could directly join as a direct disciple!”

“Now that he’s already reached this height, he should be able to enter the top forty of the Cloud Mounting Chart right?”

“What! He should have entered the top thirties!”

“What?? Let me take a look, it really is! If he’s able to reach three thousand five hundred meters, then he will really be invincible! In the past thousand years, it seemed that there wasn’t any practitioner under seventh stage realm to have arrived at this height!”

“Hmm? That year didn’t Sovereign he.....”

“When Sovereign entered Blue Profound Sect, his cultivation was already at the seventh stage realm peak.....”

Amidst the discussing voices, Luo Jiyun had already stood on the three thousand five hundred meter checkpoint, and moreover he stopped again.

This time, even Huang Yueli too kept a tight watch on him, not knowing how he would choose because even she didn’t know if he could continue breaking through because maybe if he just took one step ahead, he might just lose his life on the spot which was totally unpredictable.

However this time round, the soft natured Luo Jiyun actually made a choice which Huang Yueli had not expected.

He.... continued to move ahead!

Luo Jiyun’s left foot stepped out as he landed firmly on the first stone.

Chapter 1792: Last day (6)

Huang Yueli’s eyes grew wide in astonishment but she immediately put on a smile, “This young fellow.... He has really grown up! Ahhhh! If Moying were to find out about this, he might blame me for stopping him to come over and have a look.”

The first step was always the most difficult one.

After stepping out on that one step, Luo Jiyun apparently gained confidence as he continuously proceeded ahead.

It was until he reached the three thousand seven hundred meters plus mark when he chose to give up.

Even so, his results were enough to shock everyone!

Following Luo Jiyun's figure appearing at the foot of the mountain, the Cloud Mounting Chart suddenly gave off a glaring glow.

This glow was much brighter than any other times, which simply made one's eyes dazzled.

Huang Yueli was just feeling strange about it when she heard the surrounding people talking about it.

"It's really such a rare sight, such a strong ray of glow on the Cloud Mounting Chart to be emitted for the first time this year!"

"Yes, it's such a surprise! Looks like Junior Brother Luo has entered the Cloud Mounting Chart's top ten! Whenever the ranking chart top ten has some abnormalities, the glow will be much stronger than any other rankings outside the top ten! If there was a change in the first place, it was rumoured that it is so bright that everyone present is not able to open their eyes!"

"Oh? Really? Have you seen this before?"

"Haha, I'm merely just saying! I've really never seen it before!"

"How could this be possible? Senior Brother Feng became number one around four years ago and that time Senior Brother you have already joined the Sect!"

"Sigh, this you don't know. Senior Brother Feng's number one is not because he had actually surpassed the original number one in the Sky Ascension Stairs assessment but because the number in the past was already over fifty years old so he was automatically taken out of the chart. This is because those above fifty years ago are no longer considered as the younger generation disciples and they must accept the Sect's allocation and take on a position which matches their abilities."

"So it's like this..."

"Yes, in actual fact, many of those number one were merely pushed up because the previous number one drops out of the chart. The last time there was a shift in the first place was when Sovereign took the first assessment!"

After a while later, the glow on the Cloud Mounting Chart slowly dispersed and Luo Jiyun's name appeared on the tenth position.

Three thousand seven hundred and twenty meters!

This height was something which many eighth stage realm practitioners were not able to attain! To a practitioner whose cultivation was only at sixth stage realm seventh level, this was an unimaginable achievement!

However, this was only his first assessment. A couple of years more after Luo Jiyun's cultivation ascended substantially, and after he gained even more experience, he will definitely climb to an even higher height on the Sky Ascension Stairs.

"It's too terrifying! This Junior Brother Luo is only eighteen years old!"

"I heard that he had been cultivating under the guidance of Junior Brother Li. Doesn't that mean that Junior Brother Li is much stronger than him?"

“Isn’t this obvious! Junior Brother is already so strong, Senior Brother’s reputation is renown everywhere so he must definitely be even more heaven defying! No wonder Junior Sister Bai has so much confidence in him!”

“Earlier I still assumed that Senior Brother Li did not appear today because he was afraid of Senior Brother Feng. Looks like he probably can’t be bothered about this!”

Because of Luo Jiyun’s stunning performance, many of them had a 180 degrees change in their thoughts.

These words fell onto Feng Zhehao’s ears which made him simply unbearable.

Every single word of comment seemed like a fire which was burning his chest.

If they had been through an official match and he was defeated, then he had no choice but to be convinced.

But what was this considered as now?

Li Moying this fellow didn’t even dared to accept the battle invite and he had not even appeared from start till end, but already compared him down into dregs!

Chapter 1793: Last day (7)

“Junior Brother Luo is just too incredible!”

“Junior Brother Luo, I am Elder Situ’s direct disciple, and is your Senior Sister, in future we can learn from each other.....”

“Junior Brother Luo.....”

A group of people crowded Luo Jiyun in the middle and he revealed a lost expression.

Huang Yueli found it a little comical but at the next moment, Luo Jiyun’s complexion suddenly turned extremely pale and after that, he fell down backwards.

The group gave off bursts of shrieking and Cang Po Jun hurriedly ran over.

Luckily, very quickly, Blue Profound Sect’s doctors came out with a diagnosis, “Should be because he had depleted all his energy plus the fact that he was extremely anxious earlier, the minute he relaxed, his energy gave way. No matter, just let him have a good rest for the next two days.”

Luo Jiyun was escorted away on a stretcher and Huang Yueli originally wanted to leave but she caught a glimpse of the next batch of people who were about to set off for the climb, where Feng Zhehao could be seen.

Huang Yueli had already stepped out but she turned back again.

This fellow had been so arrogant so he should indeed have some skills. She wondered just how his ability was, to be among the younger generation’s number one in Blue Profound Sect?

Huang Yeuli was just thinking of staying, with the intention to watch Feng Zhehao’s performance.

Following the examining officer’s command, Feng Zhehao’s team set off.

“Quick, look there quickly! Senior Brother Feng is up!!”

“He’s so fast, Senior Brother Feng’s speed is really very fast! Even though the Profound Energy within him is suppressed, but his body movements seem as though it is not affected at all!”

“That’s of course. Senior Brother Feng’s aim today is to break through four thousand five hundred meters and the initial three thousand meters totally pose no difficulty alright?”

“He’s really incredible! Four thousand five hundred meters! I simply can’t imagine what kind of feeling it would be to just stand there!”

Feng Zhehao was very popular and although he had given an invisible slap on the face by Li Moying today, but when it’s his turn to make a move, it still attracted everyone’s attention.

Towards Feng Zhehao himself, he had been suppressing his anger today and was wholeheartedly intent on performing well just to show everyone his ability and forgetting about Li Moying who didn’t dare to show his face so he mustered up even more energy compared to the past as he started off in full power right from the start.

One could only see his figure fleeting up the Sky Ascension Stairs swiftly, totally unable to see where he landed, as though he had just floated past from the stone steps.

One thousand meters, two thousand meters, three thousand meters....

Three thousand meters height flashed past in a blink of an eye.

Even though he was at the juncture of three thousand meters, he didn’t stop, merely decreasing his speed by a little.

Three thousand meters checkpoint, to a large portion of direct disciples was like a heavenly most!

But towards Feng Zhehao, he was already well accustomed to it.

Huang Yueli shook her head silently, “No wonder he’s so confident, he indeed does have some ability.”

When he reached the position of three thousand five hundred meters, Feng Zhehao decreased his speed once again and this time round, he had already resumed the speed of walking normally and when he moved forward, he became extremely cautious.

When he reached the height of four thousand meters, Feng Zhehao finally stopped for the first time.

Following that, to him, was an extremely difficult stage.

Vision and sensory touch had all vanished and even his hearing had reduced by quite a lot....

Under this situation, he had only ascended three hundred meters the last time and didn’t dare to continue taking the risk.

But this time.....

Feng Zhehao clenched his teeth hard, to the state that he could almost taste blood.

This time, he must break through his own limit!

Chapter 1794: Last day (8)

Feng Zhehao moved forward carefully.

Based on last year's experience, he was very sure that under the circumstance where his sense of touch had completely disappeared, it was very difficult for him to be sure if he made the right judgement if he had stepped on the stone as the sounds which entered his ears were no different from what he usually heard.

If he was slightly careless, he would not be able to react completely when he fell.

He must put on hundred and twenty percent attention into this.

Everyone at the foot of the mountain raised their necks looking up at him, watching him make forward steps one by one, mounting to a height which no one else had ever been through.

Not too long later, Feng Zhehao reached the height which he had achieved last year, which was the number one highest record in the current Cloud Mounting Chart.

Feng Zhehao was indeed the number one figure among Blue Profound Sect's younger generation. His heart and essence was extraordinary and under such tremendous pressure, he was still able to move forward slowly but steadily, step after step.

Finally.... he broke through to four thousand five hundred meters height!

At the foot of the mountain, the crowd of practitioners were applauding and praising, as it filled the entire valley.

"Senior Brother Feng, you're just too incredible!!"

"Four thousand five hundred meters! What concept is that? It's a legend in history that those practitioners who had surpassed four thousand five hundred meters height all had cultivations of ninth stage realm peak! Senior Brother Feng's achievements in the future, is simply inconceivable!"

"Senior Brother Feng is really my idol!"

In the face of Feng Zhehao's powerful ability, everyone had long forgotten about the matter where he was being slapped on the face by Li Moying. Right now, he had already proven that he was seen as one of the geniuses within Blue Profound Sect.

Feng Zhehao stood on the stone, totally not moving.

Everyone looked at each other in dismay.

"What's the matter? Why isn't Senior Brother Feng coming down?"

"Surely it can't be that he still wants to continue climbing?"

"He's already at four thousand five hundred meters, and he still wants to climb higher still? This... is still really doable?"

"I feel that it's impossible? Now he's already created such a high record, so why bother to take the risk? If he falls, it wouldn't be worth it! It's best to first prepare before continuing to charge again next year!"

Most of them didn't approve of Feng Zhehao's behaviour.

Huang Yueli however was extremely clear of what he was planning.

Feng Zhehao had apparently been agitated by Li Moying so he wasn't resigned to just come down like this. He still wanted to continue trying, to create a height which even Li Moying might not be able to reach!

Of course he knew that he was taking a risk, but... he could not just give up like this!

"This Feng Zhehao is rather interesting. Although he is rather petty, but his willpower and determination are strong enough and this is something that a top rated practitioner cannot lack... he's considered as a diamond which can be polished....." Huang Yueli muttered to herself.

Under everyone's astonished shrills, Feng Zhehao proceeded for a short distance more and was surrounded by perils.

But his luck was still not bad as he eventually didn't fall from the Sky Ascension Stairs.

He walked all the way for another one hundred plus meters before he reluctantly gave up.

Four thousand six hundred and seventeen meters!

Feng Zhehao broke a new record once again!

But as he merely refreshed his own record, there wasn't any chance in the number one rank hence Cloud Mounting Chart's glow wasn't considered too strong, merely changing in the numbers for the height portion.

But his achievement, in ordinary disciples' hearts, was already a miracle.

When he appeared at the foot of the mountain, almost all the practitioners rushed towards him as various praises could be heard from the surroundings.

As compared to now, earlier when Luo Jiyun was being chased after, it totally couldn't be compared.

Chapter 1795: Cang Ning Yue's provocation (1)

Feng Zhehao stood right in the middle with a happy and contented expression, as he delightfully accepted everyone's gazes of adoration.

He was already used to this kind of scene. Ever since he mounted the Cloud Mounting Chart number one rank for the first time four years ago, every year, he was always the last batch to climb the mountain and every time he completed the assessment, it would push the atmosphere to the highest climax!

He would forever be the most glamorous one!

But today, just being popular among ordinary disciples made Feng Zhehao a little dissatisfied.

His gaze pierced through the crowd as he surveyed left and right, towards the direction where he had talked to Huang Yueli in the morning.

Huang Yeuli was still standing at her original spot with an elegant posture as her looks were exceptionally pretty. Her watery large eyes which looked like limpid autumn waters were fixated straight ahead calmly. But in her eyes, there wasn't that kind of adoration like everyone else.

On the contrary, her eyes reflected a profound examination, as though she was judging his performance from high up, as though his achievement couldn't really enter her eyes.

This kind of gaze made Feng Zhehao's originally excited mind instantly cool down.

Not knowing why, a melancholic and uneven feeling arose in the inner depths of his heart.

It was his first time meeting a young lady like Huang Yueli, not only did she have exceptional looks, what was most rare was that there was a kind of indescribably temperament on her, noble, graceful, mysterious yet a young sweet beauty.

Feng Zhehao had no way to deny that he was attracted to her at first sight.

But unfortunately this young lass only had eyes for that incredible fiancée of hers, Li Moying!

Even if it was now, after he had obtained such a shocking result, standing at four thousand six hundred meters height, refreshing the Cloud Mounting Chart number one record once again!

But in this young lady's eyes, it still wasn't considered as something!

In her eyes, was Li Moying really that undefeatable?

Feng Zhehao was feeling unresigned as he subconsciously headed towards her direction.

The surrounding practitioners started to back off as they split into a pathway for him.

Huang Yueli was originally intending to leave but she had not expected that Feng Zhehao to suddenly walk over. She felt a little helpless as she shook her head and said, "Senior Brother Feng, congratulations! To be able to breakthrough to four thousand five hundred meters height at just twenty eight years old, you're indeed worthy of being the first rated peerless genius in Soaring Heavens Continent!"

This praise was something which Huang Yueli meant from the bottom of her heart.

But Feng Zhehao totally didn't take it in, merely asking, "Then... how do I do against Li Moying?"

"Li Moying?" Huang Yueli was stunned, as she had not expected that even after this fellow had gained so much fame but he still hadn't forgotten about Li Moying! Just what kind of feud, and hatred was that!

"That's right. Now do you still feel that Junior Brother Li's ability, is much stronger than mine?" Feng Zhehao questioned unrelentingly.

Huang Yueli raised her head to take a look at him, and she could tell that his brows were still filled with an ill at ease look, as she sighed secretly.

"Senior Brother Feng, your innate talent is very strong and you have enough determination and willpower so as long as you cultivate properly, you will naturally be able to mount the cultivational peak

in future and become Soaring Heavens Continent's first rated top exponent. There's really no need for you to go compare with other people!"

Feng Zhehao's brows creased, "In this case, you still feel that Li Moying is stronger?"

"It's not something that I feel, it's just the truth." Huang Yueli said peacefully.

Hearing that, the surrounding practitioners started to engage in discussions again.

Feng Zhehao couldn't help but grit his teeth, "He doesn't even dare to come take part in the assessment!"

"He..."

Huang Yueli was just about to speak out when she suddenly heard a chilly voice coming from her back.

"Bai Ruoli! You've come indeed!"

Chapter 1796: Cang Ning Yue's provocation (2)

Huang Yueli and Feng Zhehao turned around at the same time and saw Cang Ning Yue who had a mask on, trudging towards them in full storm.

When the surrounding practitioners saw her, they started to bow down to pay their respects, "Our respects to Guardian Yue!"

Even Feng Zhehao put on a solemn look as he bowed.

Cang Ning Yue's identity as the Sect's faction with authority, as compared to a younger generation disciple like him, had a huge disparity in terms of status.

Only Huang Yueli, not only did she not show her respect, she even revealed a playful smile, "Guardian Yue? Why do I seem to recall that you're no longer a Guardian, but had been kicked to the outer school to be part of the lower management?"

"You—!!"

Cang Ning Yue's face flushed crimson red instantly as her gaze was filled with a horrifying bitterness, shooting towards Huang Yueli.

This period of time, although she had been demoted to the outer school, but the ordinary disciples in Blue Profound Sect didn't know the real reason for her demotion and had always thought that it was because of her failure in her mission which led to it, and sooner or later she would return to Levitation Sword Palace.

So everyone was still respectfully greeting her as "Guardian Yue" and were usually very polite when they spoke to her.

There wasn't anyone like Huang Yueli who immediately poked her sore spot immodestly the minute she spoke out!

“Bai Ruoli, a trash like you who relied on your fiancée before having the right to enter Blue Profound Sect, to make it sound even uglier, isn’t that equivalent to hugging a man’s thigh? What rights do you have to sprout rubbish to me?”

“I’m relying on a man?” Huang Yueli casted a glance at her, “Then what are you considered as? I’m telling you, you’re able to live until today, is all because of your fiancée Guardian Yu! Otherwise you can forget about hooting in front of me right here?”

Cang Ning Yue had been poked again on another sore point and she flew into a fury from embarrassment as she couldn’t help but shouted out loudly.

“Presumptuous! Who do you think you are? You’re only in the fifth stage realm! This is the kind of attitude you have towards the Sect’s seniors?”

“Sect’s senior? Housekeeper Yue, it’s not the first day you’ve been in Blue Profound Sect, don’t tell me you don’t even understand the Sect’s regulations? An outer school lowest level housekeeper like you, against a direct disciple who can freely enter the Levitation Sword Palace like me, whose status is higher? Do you need me to teach you the regulations again?”

Huang Yueli gave a light smile and her tone was gentle but every single word which she said had a stance which made one unable to be unconvinced.

Those surrounding practitioners who were standing around them were all dumbstruck as they were praying for her silently in their hearts.

This.... had this Junior Sister Bai gone mad? She actually talked to Guardian Yue in this manner!

Cang Ning Yue was one of the Four Great Guardians in Blue Profound Sect, Sovereign’s trusted aide! Even if she had been demoted, she was still an authoritative figure who could obtain Sovereign’s trust.

What about Bai Ruoli? She’s merely a newly ascended direct disciple and even if she had a fiancé like Moying, but Li Moying had not been accepted by the Sovereign as his disciple yet!

Taking ten thousand steps back, even if Cang Ning Yue had lost favour, but she was at least still a ninth stage realm practitioner and if she really fired up, she would be able to crush her to death with just one finger!

Did she know the situation clearly or not?

Cang Ning Yue was so angry that her entire body kept shaking, as she couldn’t wait to kill this wretched lass who she hated deeply into her bones with a palm strike!

She ended up like this today, was all thanks to her!

She really didn’t understand why Sovereign had died once for her, but even after he reincarnated, he still treated her as a treasure whereas she had merely said a wrong sentence and was rendered to such a miserable state!

This revenge, she must exact it!

Thinking of this, Cang Ning Yue forced herself to calm down.

Great plans could be ruined by just a touch of impatience. She had finally waited for today's chance, so she definitely needed to show Huang Yueli some colours!

Chapter 1797: Cang Ning Yue's provocation (3)

Huang Yueli spoke out, "Housekeeper Yue, is there still anything to talk about? If there's nothing then I'll make a move. My fiancé is still waiting for me to return to Levitation Sword Palace! If I'm back late, he will be anxious."

Saying that, she prepared to leave as she didn't want to continue tangling with Cang Ning Yue.

Cang Ning Yue saw that she was about to leave as she gnashed her teeth hard and shouted out, "Stand right there! You haven't taken part in the Sky Ascension Stairs assessment so who permitted you to leave?"

Huang Yueli's footsteps halted as her brows rose, "I didn't even register to take part in the assessment. Isn't Guardian Yue's control a little too wide!"

Cang Ning Yue gave a cold laugh, "I don't have the rights to control? I'm one of the examiners for this round's Sky Ascension Stairs assessment and I have every right to control!"

Huang Yueli frowned slightly, "But whether to take part in the assessment or not depends on the practitioner themselves and it has nothing to do with you!"

Cang Ning Yue's eyes flashed past a sinister cold look, "Ha ha, to other people that is the truth but to you, it's totally different! Blue Profound Sect's law regulates for all first year direct disciples must take part in the Sky Ascension Stairs! Looks like you haven't been studying the Sect's regulations properly!"

This regulation was something which was seldom known to many.

Because under normal circumstances, those practitioners who became direct disciples all couldn't wait to mount the Sky Ascension Stairs to exhibit themselves, worried that they would be belittled, especially in their first year.

Who would intentionally not come for no good reason?

When Cang Ning Yue said this, before Huang Yueli could even speak, Feng Zhehao started to become excited.

"Ah? In this case, Junior Brother Li ought to attend today's assessment! Guardian Yue, I wish to report Li Moying...."

"Shut your mouth!" Cang Ning Yue's face turned black as she had not expected someone to suddenly pop out and interrupt her, "This Seat is speaking, is it a time when you can butt in?"

Feng Zhehao had a rude shock as he immediately lowered his head, not daring to say a word more.

Huang Yueli couldn't help but burst out laughing, "Housekeeper Yue, why are you flying into such a huge rage for? What Senior Brother Feng said is correct! My Moying had indeed flouted the Sect's regulations, do you need... me to go get him here? To take part in the assessment together with me?"

No one had expected her to actually say that.

Momentarily, the surrounding practitioners all started to bustle!

Actually, everyone was waiting in anticipation for Li Moying to show his presence, to allow everyone to see just how strong was Soaring Heavens Continent's number one genius, as compared to Sovereign Mu in his younger days, was in comparison?

If there really was a rule like what Cang Ning Yue said, to coerce Li Moying out, that would simply be great!

But how would Cang Ning Yue have the guts to go look for Li Moying?

She just relied on the fact that Li Moying wasn't around and that Huang Yueli's innate talent this lifetime seemed very ordinary and was no longer that top rated genius in her past life, hence she only dared to provoke her this time round.

If Li Moying really came... she would really be finished!

Cang Ning Yue was shot back by Huang Yueli's sentence and she stifled for half a day before speaking out, "No, come back... don't go! Li... Young Master Li is still in closed door cultivation so how can we interrupt him in the middle of it? This will affect his cultivation....."

Huang Yueli blinked, "Oh? Really? But weren't you the one who said that this was the Sect's regulations? Since it's a regulation, how could it be easily flouted? Even if he is in closed door cultivation, he has to exit from it! Don't worry, as long as Moying hears that this is Housekeeper Yue's command, he will definitely rush over!"

Huang Yueli was all smiles as she said that and was about to leave.

Cang Ning Yue shot up like an arrow blocking her way, "No way, you're not allowed to leave this place!"

Chapter 1798: Cang Ning Yue's provocation (4)

This time round, even the ordinary disciples around them could not understand and were unable to suppress their curiosity as they started to discuss secretly.

"Why doesn't she allow Junior Brother Li to come over? Everyone wants to see Junior Brother Li doing the assessment!"

"That's right, Junior Sister Bai is only in the fifth stage realm and there's nothing much to see in the assessment even if she took it, I just want to watch Junior Brother Li!"

"That's right, really don't understand why must she block Junior Sister Bai from asking him over? I've waited for an entire day today and finally waited for this chance to witness Senior Brother Li's performance with my own eyes.

"That's right, that's right, just follow according to regulations! Just what is Guardian Yue thinking about? Why does it feel as though she's picking on Junior Sister Bai?"

Cang Ning Yue's behaviour was just too abnormal and everyone's gazes which shot towards her were filled with doubts.

Cang Ning Yue's face turned red before she finally blurted out a sentence, "Young Master Li doesn't need to take the assessment, this is specially permitted by the Sovereign!"

"Specially permitted by the Sovereign?" Huang Yueli's lips curled with ridicule, "Since when had Sovereign come out of his closed door cultivation? I'm in Levitation Sword Palace everyday so how come I don't know about this?"

"You... of course you don't know!" Cang Ning Yue braced herself as she said that.

What identity did Huang Yueli had, of course she wouldn't know that what she relied on was the fact that Huang Yueli could not disclose her own identity in public.

However, she had not expected that Huang Yueli just used a few mere words to embarrass herself again!

Huang Yueli's gaze filled with ridicule landed on her body, "Does your words even count? Where's the evidence? Then I got to say that Sovereign also gave me special permission to not take part in the assessment as well!"

"How could that be possible? You..."

"Enough! Why are you all here quarrelling for?"

Cang Ning Yue still wanted to add more when she was suddenly interrupted by a harsh voice!

Cang Po Jun and the rest noticed the commotion here and strode over in huge steps.

"This year's assessment has already ended! Still not going to disperse, what are you guys crowded around here for?"

Cang Po Jun as Blue Profound Sect's first Great Guardian had been aiding the Sovereign in handling the Sect's duties while he was in closed door cultivation, and had always been trusted within the Sect, something which no one else could be comparable to.

The minute he spoke out, the younger generation disciples around didn't dare to voice out.

However, Cang Ning Yue was still unreconciled.

She clenched her teeth and couldn't help but said, "Bai Ruoli, you really have such great ability! Even Guardian Jun stands on your side! But you're still a piece of trash, a trash who has rubbish innate talent and relies on man to climb upwards!"

"Everyone who has eyes can tell that you don't even dare to take part in the Sky Ascension Stairs! Your existence is obviously an embarrassment to Young Master Li! Young Master Li has such a fiancée like you, he has really fallen into eight generations of bad luck!"

Cang Ning Yue knew that this was her last chance so she might as well pressed her luck to say everything she could to everyone.

Cang Po Yu ran over with a steely green face, "Shut up! You've already been chased out to the outer school and still haven't learnt your lesson? This is the Sky Ascension Stairs assessment grounds, not a place where you shout your abuses like a fisherman's wife!"

Cang Po Yu's expression was so terrifying that Cang Ning Yue was momentarily shocked, not daring to say a single word.

But her words earlier had developed some effect.

Quite a number of them started to look at Huang Yueli with a doubtful gaze, especially those female disciples.

Blue Profound Sect's female disciples were only one third of the male disciples and every one of them had outstanding innate talent with gorgeous beauty and were all cream of the crops. But it was exactly because of this which was why when they saw Huang Yueli's exceptional beauty, all of them had all become ordinary and many of them naturally had the jealous mentality towards her.

What was the most infuriating of all was that she was Li Moying's fiancée!

Chapter 1799: Where has she gone to? (1)

Moreover it wasn't only Li Moying, anyone with eyes could tell that even Feng Zhehao took a liking to her.

What was this really based on? Wasn't it just because she looked prettier than everyone else? Fifth stage realm cultivation in Blue Profound Sect was really nothing!

Unfortunately she was able to capture the male god in every female disciple's eyes!

"Look at her, she probably really doesn't dare to take part in the Sky Ascension Stairs Assessment! If it was me, to be spoken in such a way, I will definitely show everyone my ability!"

"That's you! What ability does she have to speak of? If she doesn't go up the Sky Ascension Stairs, at least she will be able to save her own life but if she really did go up, based on her cultivation and ability, she probably will give up after just a mere one thousand meters. Otherwise if she forcibly continues climbing, she might not even survive after falling."

"Sigh, I also feel that it's best that she doesn't go up. If she really falls down after one thousand meters, that will be too comical. Among direct disciples, I don't think a trash who had not fulfilled two thousand five hundred meters height has appeared yet right?"

"So we can only say, we are all human but we don't have the same kind of fate! No matter how strong your ability is, or how high your innate talent is, you just can't win those with a pretty face, to be able to seduce the peerless genius to become your husband."

All kinds of remarks drifted over from all directions.

Although those who were saying these were the minority, most of the female disciples there placed their own statuses in high regards so they weren't willing to mince their tongues but in actual fact, they had no different thinking in their minds.

Huang Yueli slowly scanned her sight past those female disciples who were gossiping.

These people thought that they were in the right and self-confident but not knowing why after they saw the gaze which Huang Yueli's cold eyes swept past, they suddenly felt a pang of guilt as they all started to lower their heads.

In actual fact Huang Yueli understood what they were thinking about.

If one was to blame, she would blame her fiancée for being too outstanding and too good looking! This kind of man was mostly coveted by other people which was totally unavoidable.

Whereas she, as a peerless genius's fiancée, if she wasn't able to display a compatible level of ability, then this would naturally make those female disciples, whose eyes grew on the top of their heads, completely unresigned.

If she kept on choosing to back off, this kind of trouble would keep on popping out. Moreover the rumour of her not being able to match up to Li Moying would also drift further and further away....

Of course, using her ability to leave them in awe was actually the easiest method, but.....

Huang Yueli muttered to herself irresolutely but didn't say a single word.

Cang Po Jun and the others saw her expression wasn't very good as they exchanged glances secretly, faintly feeling ill at ease.

A few days ago when GrandMaster Huang left the mountain, she was almost assassinated and the few of them Guardians had just been lectured terribly by the Sovereign. Now Grandmaster Huang had not even left the Sect's main doors and had already been offended by others, right in front of their eyes.....

If this went to Sovereign's ears, everyone would be in deep sh*t!

Luckily, after a while, Huang Yueli looked towards Cang Ning Yue and spoke out slowly, "Since you've already said so, if I don't take part in the assessment, it really seems as though it's wrong....."

Cang Ning Yue suddenly turned excited, "You're really agreeing to take part in the Sky Ascension Stairs Assessment?"

"Since this is Blue Profound Sect's regulations, then as a newly joined disciple, I naturally can't flout the regulations openly." She replied calmly.

Huang Yueli originally wanted to remain low key and not show off in front of ordinary disciples' assessment. After all she wasn't short of this glory.

But it seemed that it was predestined that there was no way for her to remain low key.

Every single time, she was forced to the corner to display her ability.

Chapter 1800: Where has she gone to? (2)

Huang Yueli sighed silently, forget it. It should take too much time to climb the Sky Ascension Stairs, just reaching the height of three thousand plus meters should do.

After all she was merely fifteen years old so this height should be enough to shut everyone's mouths!

Moreover, from the start of her past life, she had heard about the condition regarding the Sky Ascension Stairs and knew that this was a challenge which tried one's limits and it could increase the practitioner's determination to a broad degree, or even bring about a chance to breakthrough.

Honestly speaking, she had always been curious and had long wanted to go up and have a try.

Having this chance wasn't too bad at all.

Cang Ning Yue didn't know her thoughts and worried that she would regret it at the next moment, she hurriedly said, "Alright, since you've agreed then you're not allowed to regret! Anyway it's already afternoon so hurry on up, don't wait until the sky turns dark!"

She urged her as she really couldn't bear to bind Huang Yueli up to send her up herself.

Huang Yueli somehow felt something was amiss as she took a look at her with her eyebrows creased but she wasn't able to tell what was amiss.

And right now, the practitioners who crowded around were increasing in numbers and some disciples who were already prepared to leave, on hearing that she would be climbing the Sky Ascension Stairs, all specially turned back in anticipation of her performance.

"Didn't she say that she wanted to climb the Sky Ascension Stairs? Why isn't she moving up yet?"

"That's right, it's already so late, better grab hold of time tightly!"

"If the sky is dark, it will be very dangerous! It's better to take the opportunity while the sky is still bright, quickly go up!"

The sounds of urging increased and Huang Yueli thought over it for a moment and still turned around towards the Sky Ascension Stairs.

"Junior Sister Bai... don't go! For you, this is simply too dangerous!" Feng Zhehao subconsciously wanted to stop her.

But Huang Yueli merely shook her head, "As a practitioner, under such circumstances, can I not go?"

Feng Zhehao was stunned because he understood this reasoning but looking at Huang Yueli's petite figure, for those people who do not know her actual ability, it was very easy to feel that she was extremely fragile, totally unable to take any pressure.

"Junior Sister Bai, don't do this in a moment of anger! It's very dangerous for fifth stage realm practitioners to climb the Sky Stairs! There's nothing more important than your own life! If you insist on climbing, you must not try to coerce yourself and consider coming down around one thousand meters or so."

When Huang Yueli heard his earnest and well-meaning advice, her brows rose and she merely said a word of "thanks" then turned around and left.

Cang Po Hun who was standing by the side also tried to stop her but was held on by Cang Po Jun from behind.

“No matter, just let her go!” Cang Po Jun said in a low, inaudible voice, “Aren’t you curious on how Grandmaster Huang’s ability is for this lifetime? That day when she advanced in Levitation Sword Palace, the flames gushed right up into the clouds and this kind of strange occurrence apparently meant that she’s not some trashy mediocrity. Moreover, Grandmaster Huang never did something which she had no confidence in, she couldn’t possibly make a fool out of herself at this kind of occasion.”

When Cang Po Hun heard that, his brows creased but his footsteps halted.

Whereas Cang Ning Yue was so excited that she almost jumped right up! She had finally successfully made Huang Yueli climb the Sky Ascension Stairs!

Following that, she only needed to wait quietly, along with everyone else, to see how she made a fool out of herself!

When Huang Yueli advanced towards the sixth stage realm in Levitation Sword Palace, Cang Ning Yue had already been driven out of Levitation Sword Palace hence she wasn’t aware of Huang Yueli’s actual ability for this lifetime.

From what she saw, although Huang Yueli had her past memories, but she was only in the fifth stage realm and that meant that her innate talent for this lifetime wasn’t really that great.
