### **Chapter 1801: Where has she gone to? (3)**

Did she think that she was still that past lifetime's Grandmaster Huang who had excellent innate talent?

Based on Huang Yueli's current ability, she would probably mount the Sky Ascension Stairs to around a thousand meters plus before she falls down badly.

By then, even if she didn't die, she would become the laughing stock of the entire Blue Profound Sect!

Li Moying would also see that Huang Yueli was no longer that omnipotent female goddess in his heart. The her this lifetime... was just too insignificant! Totally not worthy of him!

Cang Ning Yue smiled coldly as she watched Huang Yueli walk over to the registration counter and sign her name under the examining officer's instructions, she received the token and stood in front of the first stone steps.

She was the only one left in this batch and there was no one to fight with her.

Under everyone's joint focus, she took a light breath and her body swayed as she started mounting the Sky Ascension Stairs!

"It has finally started! Bai Ruoli, just wait to be embarrassed!"

Cang Ning Yue couldn't help but give a cold smile but her smile had just surfaced on her face when it froze instantly.

Not only her, everyone at the public square was stunned into a daze in an instant.

Because Huang Yueli's speed was just too fast! Simply like a bolt of lightning, she merely took a couple of breaths and had already scuttered to the height of a thousand meters.

A large portion of those present were all waiting for her to swagger unsteadily while climbing up but in the end, their eyes blurred and they only saw a remnant image flashed past. By the time everyone reacted, they realised... that she had gone missing? Where was she?

After a moment, someone found Huang Yueli's figure on the cliff and at that present moment, she was already reaching the height of two thousand meters.

"Over there, quick look, she's over there!!"

"Where, where? Where is she? I still haven't found her!"

"Over there! Have you seen her? See that white figure who keeps scuttering up? She's too fast, how could she be so fast, I thought that my eyes had gone blurry!"

"What? How is that possible? Wasn't it said that she was only in the fifth stage realm? A fifth stage realm practitioner being able to mount up to one thousand five hundred meters is already considered as having outstanding talent, she's now around at two thousand plus meters.... No, about to reach three thousand meters!! Heavens!!"

Waves of shrills and shrieks came gushing over as everyone didn't dare to believe in their own eyes!

Earlier, everyone was still bearing the mentality of seeing her becoming a joke but at this present moment, they all realised that they were the ones who were the real joke!

If it wasn't for the fact that they had witnessed with their own eyes, they wouldn't believe it even if they were beaten to death, that there was someone who was able to blaze at such a speed while climbing the Sky Ascension Stairs.

Feng Zhehao's eyeballs were about to pop out from its sockets.

He had always assumed that he was already Soaring Heavens Continent's top rated genius. There was absolutely no one among the younger generation who could climb even higher or faster than him!

But the truth was? That fifth stage realm young lass was actually faster than his speed by several times! This.... was he really not having a dream?

"Indeed, Grandmaster Huang is indeed Grandmaster Huang. That day when she advanced into the sixth stage realm, I could already tell that her innate talent in this lifetime is even better than in her past life!" Cang Po Jun sighed with emotions.

Cang Po Hun added, "Looks like Grandmaster Huang and Sovereign, no matter when, are still the most compatible pair!"

Cang Ning Yue's complexion had turned extremely pale.

Never in her wildest dream did she expect Huang Yueli's innate talent for this lifetime to be that good. It looked as though she was even much better than in her past life! This kind of speed was simply faster than ordinary practitioners who were running swiftly on flat grounds and the Profound Energy suppression from the Sky Ascension Stairs seemed to have no effect on her at all.

#### **Chapter 1802: Where has she gone to? (4)**

How could that be possible? How on earth did she manage to do it??

Cang Ning Yue clenched her teeth so hard that she tasted the blood in her mouth.

"Impossible, this is impossible!!!"

She mumbled to herself irresolutely but the truth was already right in front of her so no matter how she attempted to hypnotise herself, it was to no avail.

Cang Ning Yue stared fixedly at the graceful figure blazing on the cliff as a sinisterly cold smile appeared on the corners of her lips.

Luckily... she had made other preparations in advance...

Don't think now that Huang Yueli was so glamorous. The end result would be her unable to escape from her palms and moreover her ending would be extremely miserable!

Wasn't there a saying like this? The higher one climbed, the greater the fall.....

At this present moment, Huang Yueli had already reached the checkpoint of three thousand meters.

She didn't stop, neither did she show any signs of slowing down as she attracted bursts of shrills from below the mountain once again.

In actual fact, it was only after Haung Yueli had exceeded just a little over three thousand meters did she suddenly realise that she had already climbed to such a height!

Initially, she only felt that since she was already climbing the Sky Ascension Stairs, why not just use this as an opportunity to access her current ability. Ever since she had advanced into the sixth stage realm, there didn't seem to be a chance for her to make a serious move.

So she used her strongest body movement skill Agility Dance Steps, in combination with <<Nine Phoenix Transformations>> exclusive cultivation method, which made her body as light as a feather as she scuttered out with a whoosh, which gave even herself a huge scare.

It was until she had run a distance away before she realised that every stage of cultivation method in <<Nine Phoenix Transformations>> improved her physique and reconstructed and upgraded her meridians. The degree of each upgrade was something which the lower realm's Heaven grade cultivation methods could not be compared to.

Whereas in the sixth transformation of the <<Nine Phoenix Transformations>>, it was mainly to increase speed to the extent that if she had maximised her own speed to the greatest degree, she might even metamorphose a faint phoenix wing behind her.

Generally speaking, most practitioners with excellent innate talents would only be able to metamorphose an attributed wing only after they reached ninth stage realm or above which could be used to upgrade their speed, strengthen their attacks and also float momentarily in the air.

For Li Moying who was in seventh stage realm then, it was only when his Soul Detachment Illness acted up when he was able to form his thunder wings completely.

But for Huang Yueli, was able to congeal the infancy stage of her wings with the help of <<Nine Phoenix Transformations>> this kind of God grade cultivation method. Although it was still too early to show its effect, but it would probably be able to display a part of its formidable power when she reached seventh stage realm.

Under various kinds of elements, Huang Yueli's speed rose explosively.

She sped past five hundred meters, one thousand meters and even at the three thousand meters checkpoint, she didn't feel anything until she finally reached the position of three thousand five hundred meters when she realised that she was totally unable to see and suddenly found out that she seemed to have ran overboard....

Originally she had only intended to reach the initial three thousand meters mark to deal with this but in the end, she forgot to take notice and directly reached three thousand five hundred meters. Moreover it seemed that she had only spent a little bit of time for that distance.

Anyone would now know that she was an ultra genius.

"How did it end up like this? I've really miscalculated....."

Because of her own carelessness, it led to the failure of her plan, Huang Yueli was apparently a little frustrated.

But she had a change in thoughts. Anyway since she could no longer stay low key, she might as well continued heading upwards to take a look at one of the legendary, mysterious ancient early historical remains – Blue Profound Sect’s Sky Ascension Stairs, just how much difficult did it pose? Whereas for her... what height could she finally mount till?

Huang Yueli made up her mind and decided to continue moving ahead.

### **Chapter 1803: Where has she gone to? (5)**

When the practitioners at the foot of the mountain saw the white figure pause momentarily and after that continued to ascend upwards swiftly, they all drew in a mouthful of cold air.

“Look quickly, she’s going up again! She’s already reached three thousand five hundred meters, isn’t... isn’t she going to stop??”

“Please, when she headed up to three thousand meters, it seemed as though she was just having some fun so how could she possibly stop at three thousand five hundred meters? Perhaps she might even climb higher than Senior Brother Feng!”

“What? Even higher than Senior Brother Feng? That’s impossible right? Senior Brother Feng’s cultivation is at eighth stage realm whereas she is only at fifth stage realm! How could she possibly be even more incredible than Senior Brother Feng? That... that would be too scary!”

“But you’ve seen with your own eyes her speed for passing through three thousand meters, which is much faster than Senior Brother Feng! Unless Senior Brother Feng intentionally controlled his speed, otherwise... doesn’t it mean that Senior Brother Feng cannot be compared to Junior Sister Bai?”

“This... can’t be compared on the same length right? Speed is merely just one of the representation of ability,,,,,”

The crowd’s whispering became louder and louder and quite a number of people started to turn their head to look towards Feng Zhehao.

Right at this moment, Feng Zhehao’s sweat was starting to profuse on his forehead and his mouth was agape but he was tongue tied as he simply didn’t know what else he could say.

It had developed to this current stage and towards a genius practitioner at his level, how could he possibly not tell that the young lady mounting the Sky Ascension Stairs had much stronger ability than him? He was even unable to imagine what kind of innate talent did Huang Yueli really had!

Thinking about himself before this, he actually thought that he could display his own ability and cultivation to win this gorgeous young lady’s heart, Feng Zhehao just wanted to slap himself hard on his own face!

Such a stunning and gorgeous talented lady like this, was she someone whom he could casually desire for?

She was like the moon on the side of the sky, cold and arrogant, never intentionally trying to express herself but had enough standing to make the stars around her fall pale in grace in front of her.

Moreover, Feng Zehao surfaced another suspicion in his heart: Then how about Li Moying? Junior Sister Bai who already had such innate talent, held Li Moying in high esteem as though she was a weak young lady who worshipped her own fiancé, this man.... was he really that powerful? Where in heavens could there possibly be such a genius?

After not too long later, Huang Yueli surpassed the four thousand meters height and immediately followed up with four thousand five hundred meters....

Cang Ning Yue's complexion had turned extremely ghastly.

Because for herself, the best result which she had obtained that year was merely at four thousand five hundred meters and this height was something which only Soaring Heavens Continent's first rated geniuses could reach, destined to become a ninth stage realm peak top practitioner in their future days!

This young lass, she had actually reached this height so quickly.....

Now, who else could say that she wasn't worthy of Li Moying?

"Damn it! Really damn it! Why don't you just go die! I'll let you be more complacent for a little while more. Very soon you'll find out what is called extreme joy turns to sorrow.... Very soon....." Cang Ning Yue's heart was cursing silently, as her eyes turned red.

However, just as everyone was concerned with lifting their heads up to look at Huang Yueli climbing the mountain, no one noticed her abnormality.

Huang Yueli continued to mount upwards with a neither too fast nor too slow pace, and was extremely stable.

Actually the minute she reached three thousand meters height, she had also started to sense a tinge of pressure as her five senses slowly disappeared. This kind of feeling, was extremely uncomfortable to anyone.

But to her who was climbing the mountain, the influence wasn't very huge.

As she had her past life's memories hence her soul trace was extremely powerful so just based on her soul trace, she was able to differentiate the direction clearly.

#### **Chapter 1804: Where has she gone to? (6)**

So she wasn't too worried about falling off the cliff.

But as the height increased, the amount of Profound Energy suppression she suffered became stronger.

This intensity of pressure, to an eighth stage realm practitioner like Feng Zehao, was taken in easily but Huang Yueli was after all in the sixth stage realm so she still sensed a bit of pressure.

She didn't want to spend too much energy resisting this pressure hence she slowly decreased her speed consciously.

“Sigh, this is really Blue Profound Sect’s early historical remains, for so many years it has filtered numerous peerless geniuses and is indeed the gateway to do things... I’m just at four thousand plus meters and my speed has already decreased to this snail pace. Looks like before I reach the seventh stage realm, I can forget about mounting to the summit. Today I can only have a casual try. Next time if there’s another chance, I’ll make Moying accompany me!”

Huang Yueli sighed with a slight disappointment.

She wasn’t very satisfied with her own performance but to the practitioners who had crowded below the mountain, she had already performed a miracle amid all the miracles!

Because she had already broken Feng Zhehao’s newly created record, surpassing the Cloud Mounting Chart number one rank’s four thousand six hundred and seventeen meters!

From now onwards, she was the new number one rank in the Cloud Mounting chart and moreover, it wasn’t because she had ascended to first rank because the previous senior top expert had disappeared from the chart but purely because of her own ability. Under everyone’s watchful eyes, she surpassed the current number one rank!

Everyone’s gaze fell onto Feng Zhehao at the first instance.

Feng Zhehao’s feelings were extremely complicated.

By right, to be defeated by someone, he should be feeling unreconciled, especially since he had been flaunting delightfully earlier, which was simply too embarrassing.

But unfortunately, he no longer had any intention to compete.

Because he had already realised that his own ability, as compared to Huang Yueli’s, the distance was... just too huge! Under this huge disparity, other than conceding defeat, what else could he do?

From the time when Huang Yueli stepped on the first step of the Sky Ascension Stairs until now, it took merely a quarter of an hour but everyone’s attitude towards Huang Yueli had completely taken a turn.

In the beginning, when they spoke about her, the tone was filled with jealousy and disdain but now, they were filled with only admiration.

“No wonder she’s Senior Brother Li’s fiancée! Junior Sister Bai is simply too awesome!”

“So, peerless genius is only compatible with another peerless genius. For a male god like Senior Brother Li, only Junior Sister Bai is qualified to stand by his side, I... I’d better just purely admire his handsome face..that will do....”

“Junior Sister Bai is just too powerful, only Junior Brother Li is able to yield to her!”

“Speaking of that, I’m very curious, whose innate talent between the two of them is better?”

“Definitely Senior Brother Li. Haven’t you seen that kind of adoration expression Junior Sister Bai shows when she talks about him? For a genius young lady to show that kind of expression, just how much of an achievement did she have! If I were Senior Brother Li, I would wake up from my dream laughing!”

“Enough, stop with the rubbish. Quickly look up the cliff, Junior Sister Bai she... she’s still continuing to climb upwards!”

“Five thousand meters... it’s already five thousand meters!!”

“Junior Sister Bai is about to ascend into the skies! How much potential does she really have, to be able to climb to such a high place?”

Everyone was totally stunned by now.

If they were to use the word “genius” to describe what had happened earlier, then whatever was happening now could only be described as outrageous!

No one had seen such an abnormal genius before, she was about to chase up to the then Mu Chengying!

### **Chapter 1805: Unable to go down (1)**

What was the most terrifying was, five thousand meters didn’t seem as though it was her limit. She was still continuing to climb, one step at a time.

Although as compared to the initial flying speed, she was moving at a snail pace, just like a tortoise climbing as she took each step extremely carefully and extremely prudently.

But it was undeniable that she was still moving ahead!

Huang Yueli was curious to know just where her limit was so she moved forward with extreme determination.

Five thousand meters, five thousand five hundred meters, six thousand meters....

Her five senses slowly disappeared and the pressure she suffered increased greatly.

Under this kind of circumstances, Huang Yueli only felt the Profound Energy within her being exhausted continuously like water flowing outwards. At the same time, every single meridian in her were crashing against each other, shaking and shivering, tight and taut as though it would break off into part at the very next moment.

Huang Yueli had already gone through the process of redeveloping her marrow when she soaked herself in the Phoenix Blood Pool hence she knew clearly what this feeling meant.

Although it was extremely dangerous and extremely painful, but as long as she persisted on, her meridians would become even more resilient and her Profound Energy would also become even more condensed under such resistance, in turn becoming even purer.

Whereas one’s meridians’ intensity and purity of Profound Energy..... was exactly the most basic essence which divided the line between geniuses from the ordinary practitioners!

Exactly because of this, it caused same-realm practitioners to have such a huge disparity in terms of potential!

Huang Yueli clenched her teeth and persisted on, slowly bit by bit, going through this kind of forging experience. As compared to the Phoenix Blood Pool, this was even more difficult because she must make herself maintain stability under such pain and suppression.

Any bit of shaking or trembling might cause herself to lose control of her own body which would lead to her losing her footing immediately, falling down into the bottomless abyss below.

On the Sky Ascension Stairs, not only was there a chance to suddenly breakthrough, at the same time, it was also filled with dangers.

Not knowing how long had passed where Huang Yueli made progress only with great difficulty, but she had successfully reached the height of six thousand meters.

At this moment, the foot of the mountain was completely silent.

Everyone rose up their heads to look at her but no one let out any sound at all.

If one was alone, he would not be able to stop himself from discussing this with the surrounding people but if it delved deeper by one more step, which was shocked to the extreme, then it would lead to the fact that one would not be able to speak a single word at all!

Six thousand meters!

A legendary height which was impossible to reach!

In history, there were many ninth grade innate talented practitioners, even after they had broken through to the ninth stage realm, they weren't able to reach this height.

If it wasn't for the fact that they had witnessed this with their own eyes, no one would believe that a young lass like Huang Yueli with such an innate talent would possibly be able to reach it?

Even for now, many of them still felt that their eyes were creating an illusion as they kept on rubbing their eyes.

There were some whose emotions got the better of them as their eyes rolled back and fainted.

The only ones who were still considered composed, were Cang Po Jun those Three Great Guardians.

After experiencing Huang Yueli's advancement scene, they knew more or less that her innate talent should be on the same level as Li Moying.

But so ridiculously strong to this extent still made them extremely surprised.

The few of them exchanged glances as all of them saw the shock in one another's eyes!

After some time, Cang Po Jun lifted up his head again, returning his gaze towards Huang Yueli as he muttered to himself, "I wonder if Grandmaster Huang will continue mounting upwards? Based on my judgement, six thousand meters and a little more should be her limit....."

Cang Po Yu nodded, "That's right, I also feel the same way. After all she's only in sixth stage realm."

**Chapter 1806: Unable to go down (2)**

Cang Po Hun frowned, "Actually Grandmaster Huang should be able to head up a little more but the risk is too huge and the cons outweigh the pros. Just worried that a peerless genius like her would be unresigned to come down just like this and insist to climb upwards continuously. By then if any accident happens, how should we explain it to Sovereign?"

When Cang Po Jun heard this, he shook his head slightly.

"Relax, such a matter couldn't possibly happen. In Grandmaster Huang's heart, the most important person is Sovereign. She couldn't possibly take unnecessary risks to make Sovereign worry. I think she will probably take a few more steps to try it out and come down after that."

The few of them nodded their heads, apparently agreeing with what he said.

Ever since Huang Yueli and Li Moying returned to Levitation Sword Palace, everyone saw how the both of them reacted during this period of time.

Li Moying was still the same as the past but Huang Yueli was apparently no longer the same as a decade plus ago.

Perhaps it was because she had died once, the current her became even more sentimental, especially when she faced Li Moying, she totally didn't conceal her feelings towards him.

As compared to the slightly arrogant and cold Palace Lord Huang in the past, the current her was simply a young lady who had fallen into the river of love.....

The three Guardians' guesses weren't wrong because Huang Yueli indeed thought in this way.

When she stood at the height of six thousand meters, she had already understood that it was impossible for her to pass through the last one thousand meters test, to reach the summit.

Her soul trace had disappeared completely and the pressure from all around was much stronger than before by ten times or more!

Even if it was a ninth stage realm practitioner who was standing here, that person would also be suppressed by this kind of pressure until he coughed up blood!

So at this stage, her limit should be right here.

But Huang Yueli still wanted to try the feeling of how it felt to stand at six thousand meters height hence she took another step more.

When she moved forward, her body immediately shook.

An intense spell of dizziness instantly invaded her brain, almost making her vomit on the spot!

If it wasn't because of her overwhelming determination, she would probably have fallen off the cliff because her legs had gone soft!

The mortified crowd at the foot of the mountain all found their voices when they saw Huang Yueli almost falling down.

"Heavens, that's too thrilling! Junior Sister Bai almost fell down!"

“I think she must have reached her limit! She’s already past the six thousand meters height! Too terrifying, just too terrifying!”

“The first step onto the six thousand meter mark and she almost fell. Proceeding upwards will be too dangerous, so I guess she’s about to give up!”

“That’s for sure! Just how old is she right now? There’s still next year and the year after that, and she had multiple more times to climb up the Sky Ascension Stairs, why bother to rush over this? She has already recreated history if she came down now! In Blue Profound Sect’s history, no one is comparable to her at all!”

With her soul trace being shut down completely and the increasing dizziness which came along with every step she took, under this kind of circumstances, Huang Yeuli had no choice but to admit that she had no way to deal with this.

She made a resolute decision to give up as her fingers flipped and pinched the token into smithereens with force.

The token was very fragile and under her lead, it instantly turned into powder.

Huang Yueli shut her eyes and waited to be teleported down below.

But she waited, and waited, but she realised that nothing had changed around her surroundings.

Her soul trace and five senses had not recovered and the dizziness in her head became even more serious!

### **Chapter 1807: Unable to go down (3)**

What was going on?

Huang Yueli instinctively sensed that something was amiss but the problem now was that she couldn’t see anything and had no way to judge the surrounding situation so she could only continue to wait passively.

But she waited for a considerably long period of time only to discover that she was still at the original spot.

By now, even an idiot was able to understand that her teleportation had failed and there was a ninety nine percent chance that the token in her hands had lost its effectiveness. Or perhaps it could be put in another way, which was the token in her hands was not the genuine teleportation token!

Huang Yueli’s thoughts raced past like electro-optical flints as she linked back to the time when Cang Ning Yue tried ways and means, even taking the risk to break the law in front of Cang Po Jun and the rest, just to force her up the Sky Ascension Stairs, and the sinisterly cold smile on Cang Ning Yue’s face then.

This matter... absolutely was related to Cang Ning Yue!

She couldn’t help but laugh coldly in her heart, this Cang Ning Yue had improved! Her current motive was not just to let her make a fool out of herself, but... she also wanted Huang Yueli’s life!

She really didn't know if she should call Cang Ning Yue smart or to say that she was dumb.

Did she really think that after her death, she would be able to obtain Li Moying's interest? The end result of her would probably be torn apart alive by Li Moying!

But Cang Ning Yue had indeed pushed her towards the hardest life and death point now.

The question now was, standing at this six thousand plus meter high Sky Ascension Stairs with her Profound Energy totally suppressed and all five senses lost, even her soul trace has disappeared and she was even worse off than an ordinary person, how was she going to go down?

Huang Yueli found it hard to make a decision right now hence she could only try her best to maintain her body's balance, stopping at the original spot.

At the same time, the people below the mountain were looking at her intently, all waiting for her next step.

Initially, everyone felt that Huang Yueli was probably still hesitating, and unwilling to leave the Sky Ascension Stairs but after a long period of time had passed, they didn't see her moving forward continuously, neither was she teleported down the mountain so many of them turned curious.

"What is Junior Sister Bai doing? Why hasn't she given up?"

"Could it be that she thought that she is still able to continue climbing upwards, to challenge the height of seven thousand meters??"

"What kind of joke is that? The first step she took earlier almost caused her to fall, if she continued to proceed forward, wouldn't she be looking for her own death? Moreover speaking, if she had the confidence, she would have continued moving forward long ago so why would she remain at the current spot for such a long period of time? It's already been half an hour already isn't it? Earlier when she finished six thousand meters, she hadn't spent that much time at all!"

"That's right, why is she hesitating? The sky is about to turn dark and if she doesn't come down soon, it will be even more dangerous!"

"I hope Junior Sister Bai doesn't take a wrong turn. If she wants to reach a higher height, it's the same to do it next year so don't continue climbing upwards any longer!"

As the duration of Huang Yueli's stopping time dragged on, more and more disciples started to enter into a state of terror and clamour

A peerless genius with such outstanding innate talent wasn't someone whom they could be jealous of. When a person's ability had reached a standard where they were unable to aim for, the others would stop having the jealous feeling. In replacement was full admiration for her.

In the disciples' hearts, the current Huang Yueli was the pride and fortune for the entire Blue Profound Sect so she couldn't possibly meet her demise in the Sky Ascension Stairs assessment now!

Everyone was anticipating for her to return to ground safely.

But most of the practitioners had not thought that she was not able to come down because she was schemed against by someone but only assumed that she was unwilling to come down.

#### **Chapter 1808: Unable to go down (4)**

The more extreme innate talent the peerless genius had, the easier it was for that genius to be overbearing and paranoid, so this kind of situation was totally not rare at all.

Many of them burnt with anxiety as they wished more than nothing but to rush upwards to shout loudly, advising Huang Yueli to come down quickly.

Alas, they were more than six thousand plus meters apart and Huang Yueli's five senses were completely lost so even if they cried themselves hoarse, Huang Yueli would not be able to hear a single sound at all.

Cang Ning Yue looked at Huang Yueli immobile side view and the exuding sweat on her face, a sliver of joy kept arising in her heart!

No one among the crowd knew better than her on what had really happened!

It wasn't that Huang Yueli didn't want to come down, but... she totally couldn't! Apparently she had already broken the token but she was still trapped on the Sky Ascension Stairs hence she didn't dare to move about recklessly.

A smile appeared in full view on Cang Ning Yue's face as her lips curled into a frigid cold arc.

"Huang Yueli, aren't you very smug? Don't you love to be in the limelight? But how about now? Aren't you able to come down as well? On this six thousand plus meters Sky Ascension Stairs, no matter how great your ability is, you can forget about coming down safely in one piece!"

Actually, Cang Ning Yue had never expected that she would really be able to cause Huang Yueli to die.

She had originally assumed that Huang Yueli's innate talent for this lifetime must be extremely bad and it would be considered not bad if she was able to hit one thousand plus meters height. Falling down from their position would at most cause a serious injury, and she probably wouldn't die from it.

But now it wasn't the same. Huang Yueli had surpassed her expectations and climbed to the height of six thousand meters. Although her innate talent made Cang Ning Yue so jealous to the point of going mad, but at the same time, it also made her stand at a height which guaranteed death.

Falling down from a six thousand meter height, even if it was a ninth stage realm top exponent, she would absolutely not be able to live!

"Huang Yueli, whatever I can't get, you can forget about getting it as well! No matter how many times you reincarnate, you can forget about being together with Sovereign. You are just an unlucky star who will only bring bad luck to Sovereign so why don't you just die soon and stop dragging Sovereign down with you! This time you're able to climb so high, I must really thank my lucky stars for this! Hur hur hur hur~"

"What are you laughing at?"

A deep voice was heard, and Cang Ning Yue's smile froze. She turned back and saw Cang Po Jun looking at her with a frown.

Cang Ning Yue replied with a tinge of guilt, "Did I? I... When did I smile? Brother Po Jun, you, you must have seen wrongly."

Cang Po Jun replied coldly, "I didn't see wrongly! You tell me, what on earth is going on? Why is Grandmaster Huang not coming down? This matter... does it have anything to do with you?"

Cang Ning Yue's was exposed by him in one sentence and her body froze up but very quickly, she calmed down.

So what even if Cang Po Jun and the others saw through this? They didn't have any evidence to prove that this was her plot?

Huang Yueli was on the Sky Ascension Stairs and she wasn't able to say a single word.

Whereas the only material evidence which was the token had definitely already been pinched to smithereens by her.

In this way, by the time Huang Yueli fell to her death from the mountain, the dead could not testify so who would be able to say that she was schemed by someone to death? Saying that she was too eager to show off hence she fell to her death, was obviously an even more reasonable and logical explanation?

Cang Ning Yue was thinking in this way and her attitude became even more unyielding.

She looked at Cang Po Jun with a look as though she had been insulted.

"Po... Brother Po Jun, how could you suspect me like that? Grandmaster Huang doesn't come down, of course she has her own reasoning, probably because she wanted to continue climbing upwards! What does this have to do with me?"

### **Chapter 1809: Unable to go down (5)**

Cang Po Jun had not expected that by now, she was still shoving false arguments down her throat as his gaze turned chillier.

"Then can you explain why you must insist on forcing Grandmaster Huang up the Sky Ascension Stairs? I think you must have planned this for a very long time, preparing to take her life during this assessment!"

Of course Cang Ning Yue would deny this allegation to her deathbed.

"Brother Po Jun, you can't slander me like this! I made Grandmaster Huang take part in the assessment because of Blue Profound Sect's regulations! I did this out of fairness and absolutely did not have any selfish motives at all! As for harming her life, where did this come out from? This kind of matter required proof! How can you simply plant the crime on me like this?"

Cang Ning Yue spoke forcibly out of a sense of righteousness and that determined attitude really looked as though she was maligned.

Cang Po Yu also walked over and his gaze was fixated on her as he spoke, "Ning Yue, tell us clearly, does this matter have anything to do with you or not?"

“1....” When Cang Ning Yue saw Cang Po Yu coming over to interrogate her as well, she instantly became anxious, “Really.... it has nothing to do with me....”

Cang Po Yu intensified his tone as he said, “I’m telling you, the last time I’m able to save your life is Sovereign’s limit in giving in! Moreover, the last time you had only said the wrong thing and Sovereign is already so upset. If Grandmaster Huang really died because of you this time... don’t talk about your own life, so many of us here will all be implicated by you and lose our lives as well! You are not able to take responsibility for this!”

In Cang Po Yu’s younger days, he had once been smitten over Cang Ning Yue’s beauty as well.

As Soaring Heavens Continent’s only ninth ranked Array Master, Cang Po Yu’s position in Blue Profound Sect wasn’t common at all.

Although he knew that Cang Ning Yue had always liked Mu Chengying, but after getting engaged with her, he had took on the responsibility of helping her settle her troubles and every single time Cang Ning Yue committed an offense, it was all due to Cang Po Yu which made Mu Chengying gave in.

But as time went by, he got the feeling that under Cang Ning Yue’s beautiful skin hid an extremely malicious heart!

This time it was even more undue, just because of jealousy, she actually wanted to cause Huang Yueli to die!

No matter if it was a decade plus ago or until now, Huang Yueli had never taken the offense to create trouble for Cang Ning Yue. The truth was, the proud and arrogant Young Palace Lord of Mythical Flame Palace totally couldn’t be bothered with Cang Ning Yue at all.

Every single time Cang Ning Yue was tricked, it was all due to her own fault for provocation.

Unfortunately, Cang Ning Yue had never reflected on her own doings and in fact she took a turn for the worse, this time even had the intention to take one’s life!

What was worse of all was that based on Li Moying’s attitude towards Huang Yueli now, this matter wasn’t something which Cang Ning Yue could take on the responsibility herself. They, the three Guardians weren’t able to stop this matter from happening in time and they weren’t about to escape censure as well!

By then, everyone present would be implicated by Cang Ning Yue!

Thinking of this, Cang Po Yu was so infuriated that he started shaking. He was Cang Ning Yue’s fiancé whereas Cang Po Jun and Cang Po Hun had already saved her life multiple times as well but Cang Ning Yue just totally didn’t care if she had implicated anyone else. All she had on her mind was to deal with a vicious hand towards the innocent!

In the past, why did he even feel that Cang Ning Yue was a pitiful soul?

“Cang Ning Yue, I’m warning you, you’d better not be related to this matter! Otherwise this time round, no one will be able to save you and I will not dabble my hands into this matter!” Cang Po Yu said each word out clearly.

When Cang Ning Yue heard this, she finally started to fluster.

If she didn't had Cang Po Yu helping her, once the plot falls through, she would definitely be a goner!

### **Chapter 1810: Unable to go down (6)**

"Po... Po Yu, you.... how can you say things in such a way? We've been engaged for so many years, how could you... how could you not care about me?" She tugged Cang Po Yu's hand, giving out a pitiful expression.

Cang Ning Yue's side of the face where it wasn't covered by the mask was still sweet and charming.

When her eyeballs roved, it was enough to make anyone emotionally moved.

Cang Po Yu lowered his gaze to look at her from the side as he recalled the memories from that year. Cang Ning Yue had used this kind of stance to baffle him hence it made him possessed for a moment and agreed to get engaged with her.

He assumed that Cang Ning Yue was momentarily flushed with jealousy but her inherent quality was not bad and she was still an innocent and pure young lady.

In future when Cang Ning Yue gave up on Mu Chengying, she would then set her mind to stay with him.

"Cang Ning Yue, when you got jealous and did something to Grandmaster Huang, do you still recall that I am your fiancé?" Cang Po Yu's tone was icy cold.

"I...." Cang Ning Yue was stunned.

When Cang Po Yu heard that, he couldn't help but gave a cold laugh, "Since you don't remember, then why should I admit that I have such a laughable marriage agreement?"

"No, no it's not like this. Po Yu, listen to my explanation!" Cang Ning Yue ran over hurriedly, trying to grab onto this last straw which could save her life.

Speaking of this, Cang Po Yu seemed as though his character was icy cold but he was in fact a sentimental person. From the way that he pleaded with the Sovereign for her every single time she committed an offence, it was obvious.

Such a good spare tyre, how could she let him go so easily.

But Cang Po Yu seemed as though he had really given up on her as he merely casted a cold glance onto her and turning sideways, he avoided her totally.

"You don't need to explain to me, it's better for you to save your energy to explain to Sovereign! We've already sent someone to invite Sovereign out of his closed door seclusion. As long as you are sure you have not plotted to harm Grandmaster Huang, and Grandmaster Huang is able to descend from the Sky Ascension Stairs safely, Sovereign might not sentence you to death!"

"I... but...."

Of course Cang Ning Yue knew that if Huang Yueli was fine, everyone would be fine as well.

But now Huang Yueli was definitely dead meat! Looked like she could only clench her teeth tightly, denying all the way.....

Cang Po Hun looked at her ever changing expression as she couldn't help but butted in, "Second Brother, if you really don't want this woman then hand her over to me! My Soul Searching Skill has reached a large accomplishment recently and I will be able to make practitioners whose cultivation are lower than ninth stage realm peak speak the truth! I'm just worried that Second Brother you can't bear to!"

When Cang Ning Yue heard this, her forehead immediately sprouted out large beads of sweat as her complexion turned extremely pale.

Soul Searching Skill was an extremely vicious Profound Skill. It was able to enter a practitioner's memories forcibly and search the other party's memories to obtain the truth. As for the person who was bestowed the skill, the end result would either become an idiot or go mad immediately!

Cang Po Hun was most apt with this sort of methods but as he was on good terms with Cang Po Yu, he would not resort to such methods on his fiancée.

Cang Ning Yue started to scream loudly, "No! You can't do this to me! Po Yu, you won't watch this happen to me with your eyes open right?"

Her voice was very loud and if it wasn't for the fact that Cang Po Yu had already set up a sound isolation array right from the start, it would have attracted everyone's attention from her shrieking.

Cang Po Yu took an icy cold look at her and was just about to speak.

At this moment.....

A stir was suddenly seen from the public square.

Initially it was the practitioners who were around the exterior boundary of the valley who had discovered something as all of them revealed an excited expression and started to talk about this to the surrounding groups of people.
