

## **Weaponsmith 1811**

### **Chapter 1811: Li Moying's ability (1)**

Not long later, all the practitioners started to get excited as they momentarily forgot about Huang Yueli who was still trapped on the Sky Ascension Stairs and all started to gaze towards the outside of the valley.

“What’s going on?”

Cang Po Jun also realised that something was amiss and gave a frown as he looked towards the valley’s entrance.

It just took one glance when his body straightened up, “Sovereign is here! That’s fast!”

From the rear mountain to Levitation Sword Palace, ordinary practitioners needed to spend at least a quarter of an hour and the attendant who they sent to convey the message apparently had not reached yet. Looked like it was Li Moying himself who waited for too long and couldn’t rest his heart hence he came over by himself.

The three Guardians exchanged glances as their hearts thumped wildly.

Li Moying had actually reached so quickly. They hadn’t managed to interrogate anything out of Cang Ning Yue, neither had they found a way to rescue Huang Yueli and he had actually reached!

What should they do now! Li Moying would absolutely fly into a rage when he saw the current situation!

However, Li Moying had already arrived and no matter how terrified they were, they had no choice but to head up to welcome him.

Li Moying was still outside the valley when he was surrounded by disciples who came to take a look at him, shooting off various praises towards him.

“Senior Brother Li, it’s really Senior Brother Li himself! This is my first time seeing him in person! He looks even more handsome from this close, especially that pair of peach blossom eyes, it’s simply too captivating. I’m almost about to faint after being looked at by him....”

“Is Senior Brother Li really in the ninth stage realm first level? Why do I feel that his aura isn’t any weaker than Guardian Jun and the rest, to the extent that... he seems even stronger than he looks! Is this my misperception?”

“Heavens, so Junior Brother Li is like this? No wonder such a talented lady like Junior Sister Bai is wholehearted towards him, totally not interested in Senior Brother Feng! There isn’t any problem with Junior Sister Bai’s eyes at all!”

“Sigh, such an outstanding man actually really has a fiancée! But no matter, I’d be willing if I can be a bondmaid for Junior Brother Li!”

“Stop dreaming! With such a beautiful and powerful fiancée like Junior Sister Bai, will he even take any interest in you?”

Ever since Li Moying had been fought over by various large Sects at Soaring Heavens Continent's city gates, his reputation was extremely resounding and there weren't many who didn't know just how much of a peerless genius he was.

But the number of people who had seen him in person, were very few.

Because ever since he returned to Levitation Sword Palace, he had always been in closed door cultivation, hoping to use the fastest speed possible to restore back to his past life's cultivation.

As there was just simplified information about him, hence the outer world had various kinds of guesses towards him. Some of them were even dubious over his ability, thinking that the rumours were just too ridiculous and were obviously exaggerated. The genuine Li Moying was totally not as powerful as what the legends claimed!

Feng Zhehao daring to challenge him was also due to this kind of influence.

However, at this present moment in time, when he saw Li Moying himself, he sensed that invisible overpowering aura and it just took an instance for Feng Zhehao to feel ashamed of his own inferiority.

In front of a genius like Li Moying, he was no different from an ordinary practitioner!

Recalling the conceited nonsense that he had babbled in front of so many people two days ago, he really wished to slap himself hard with two tight slaps!

Li Moying was rarely surrounded by so many people and started to frown with displeasure.

By this time, Cang Po Jun and the rest had finally managed to squeeze themselves to the front of the crowd.

"Sov... uggghh, Li... Young Master Li....."

They felt a little awkward the moment they spoke out, because they didn't know how to address Li Moying.

### **Chapter 1812: Li Moying's ability (2)**

If this place was Levitation Sword Palace, they would have knelt down to kowtow by this moment.

After such a slip-up, how could they not hurry up to beg for mercy?

But unfortunately, now under so many people's eyes, Sovereign had given them strict instructions to not reveal his identity. In this way, it made the Three Guardians fall into a difficult place.

But Li Moying hadn't noticed the issue here. He merely grazed past the few of them and asked, "Is the assessment over? Where is Li'er? Why hasn't she returned now that it's already so late?"

The minute he posed his questions, Cang Po Jun's sweat immediately rolled down.

"This... assessment.... Young Miss Bai.... She.... she....."

Li Moying knew something was not right as his expression sunk, "What do you mean? What happened to Li'er? Tell me clearly!"

His heart was raging with fire and a ninth stage realm strong exponent's aura seeped out, making the weaker ordinary disciples present throw up blood.

Although Cang Po Jun and the rest wouldn't get injured because of this, but they were all awe-struck by his prestige and imposing manner, hence they didn't dare to lift up their heads to look at him.

"Sov.... Young Master Li, Young Miss Bai she... she's on the Sky Ascension Stairs....."

"Li'er is doing the assessment? Why did she take part in the assessment for no reason? I'll go take a look." When Li Moying heard that, his creased forehead smoothed a little and not waiting for Cang Po Jun to finish his words, he stode with big steps into the valley.

Cang Po Jun had just hesitated for a moment and before he could finish his words, he had not expected that Li Moying couldn't wait and had already walked away. His unfinished words were stuck at the back of his throat.

Looking at Li Moying distance as he walked far away, the few Guardians started to chase after him in terror.

"Li... Young Master Li, please wait for a moment!"

Usually those Guardians who held great authority were high up there, all started to follow blindly after Li Moying, with a terror stricken face.

This kind of scenario made those surrounding disciples' jaws almost drop on the ground.

"Wh... what situation is this? Did you see Guardian Jun and the other Guardians' attitudes? Guardian Jun is acting on behalf of the Sovereign to take on his tasks and an actual abled overall in-charge. Why did he speak in such a humble way towards a direct disciple?"

"Could it be that... that rumour is real?"

"What rumour?"

"I've also heard about someone talking about it, that Sovereign had already come out of his closed door cultivation, moreover already decided to take Senior Brother Li as his only disciple, which is something that I originally didn't believe. Now looking at Guardian Jun and the others' attitudes.... I feel that this matter might be true!"

"What? How could this be possible? If it was like this, then Senior Brother Li will become the Young Sovereign of Blue Profound Sect!"

"What's so strange about that? Even Junior Sister Bai's innate talent is so abnormal, Junior Brother Li's must be even more unimaginable. Other than him, who else is able to take the position of Young Sovereign?"

"Sigh, that's true. I originally thought that Senior Brother Feng will be able to compete with Senior Brother Li but from the looks of it now, the two of them are obviously as different as cloud and mud!"

These words also emitted into Feng Zehao's ears.

If it was before today that he heard these words, he would absolutely not be convinced or possibly even rush up to challenge Li Moying!

But now, he totally couldn't say a single word to refute it because in the depths of his heart, he admitted that he himself could not be compared to Li Moying.

"It's just a waste, we don't get to see Junior Brother Li climbing the Sky Ascension Stairs! Even Junior Sister Bai had reached the height of six thousand meters, then Junior Brother Li... could he really mount to the summit?"

There were many who had the same sentiments as Feng Zhehao in their minds.

### **Chapter 1813: Li Moying's ability (3)**

Many of them were secretly hoping that they would be able to see Li Moying take part in the Sky Ascension Stairs assessment.

"Will Senior Brother Li mount the Sky Stairs?"

"Not quite possible right? He already said that he will not be attending the assessment today."

"But wasn't that because Senior Brother Li was in closed door cultivation? Now that he came out of it, and he's already at the bottom of the cliff, can't he just take part in it conveniently?"

Everyone was guessing while following tightly behind Li Moying and the Three Guardians all the way to the foot of the mountain.

Li Moying raised his head and saw a white figure on the Sky Ascension Stairs as his pupils contracted and an appalled look flashed past his eyes.

"What's going on?! Why is Li'er trapped on the Sky Ascension Stairs? What kind of slip-up had happened?!" Li Moying's expression instantly sunk as a terrifying murderous qi started to gather around him.

Even Cang Po Jun and the others weren't able to take this as they started to retreat backwards, feeling a surge of blood swirling around their chests!

Based on his experience and sight, he naturally could tell from one look that Huang Yueli was now in a precarious position! Moreover her body was already swaying to and fro, evidently she had already reached her limit!

"Trapped? Isn't it because Junior Sister Bai didn't want to come down by herself?"

"That's right, pinching the token to smithereens will allow her to teleport down. She isn't coming down, isn't she intending to climb to an even higher height?"

"But speaking of this, Junior Sister Bai has already stood on that spot for indeed quite a long time isn't it? It's already been an hour....."

Ordinary disciples had never thought that there would be anyone who would be trapped on the Sky Ascension Stairs and unable to come down!

Every year, the Sky Ascension Stairs was Blue Profound Sect's number one major event and every single teleportation token had been checked meticulously and until now, there had never been a single time that the token had lost its effect.

So subconsciously, they wouldn't think of this possibility at all.

Cang Po Jun and the others could no longer take the pressure as their knees gave way and were about to kneel down.

"Young Master Li..."

However, Li Moying had no time to listen to their explanation. He flicked his sleeves and leapt up into the sky as he flew past from the disciple's heads, directly charging towards the bottom of the cliff.

Li Moying's heart was burning with anxiety, as he no longer bothered about the question if his identity would be exposed.

He only knew that his Li'er was now in a precarious situation and she might fall down directly from the Sky Ascension Stairs any moment now!

Sixth stage realm practitioner, falling from such a high position, would directly turn into a mould of minced meat, more dead than one would ever be!

Li Moying's heart jumped right into his throat. The image of Huang Yueli dying in front of him in their past lives surfaced once again in front of his eyes as his inner terror was raised to the highest point ever!

"No, Li'er! Nothing can happen to you, nothing! Persist on, I'll come and save you right now! Persist for a little while more!"

Li Moying totally didn't bother to collect the teleportation token from the examining officer's table but instead he directly stepped onto the Sky Ascension Stairs, not even spending any time to make preparations, using his fastest speed ever while dashing towards the summit!

One thousand meters, two thousand meters, three thousand meters.... Flashed by within a blink of an eye!

Even until Li Moying had dashed towards the position of three or four thousand meters, some of them were still unresponsive!

"What? What's the current situation? Where has Senior Brother Li gone to? Wasn't he still standing there earlier?"

"Are you dreaming? Senior Brother Li is already on the Sky Ascension Stairs!"

"What? Where, where, where? How come I didn't see him? Didn't he say he's not taking part in the assessment? Why did he suddenly change his mind?"

"Idiot, stop nagging, look there quickly! If you don't, you'll miss his shadow again!"

**Chapter 1814: Li Moying's ability (4)**

Hearing this, everyone raised their heads with their hearts burning with anxiety but in the end, most of them weren't able to find him at all.

"Where is Senior Brother Li??"

"Where are you looking at! He's already at mid mountain position, no... he's already up to five thousand meters!.... Six thousand meters!"

"Heavens, he's already chased up to Junior Sister Bai!"

Amidst the clamouring, Li Moying didn't stop at all as he pursued swiftly after his little fox.

He was the same as Huang Yueli and totally didn't need to rely on his five senses. Just using his soul trace and he was able to clearly differentiate the surrounding circumstances. Moreover his cultivation was high enough so even if he suffered from Sky Ascension Stairs's restrictions and pressure from the array, the influence on him was extremely limited.

Hence even though he was at six thousand meters height, he was still moving unobstructed, as though he was treading on level ground.

Just as he was approaching six thousand meters, he saw Huang Yueli's body swaying slightly again.

Li Moying dashed up flying in terror as he locked onto Huang Yueli's slender waist. It was until he had certified that his little fox was leaning securely in his arms when he heaved a sigh of relief.

Whereas Huang Yueli now, was actually not a sitting duck waiting for its death.

Even though her teleportation token had lost effect, but if she really wanted to get off the mountain safely, she still had her ways.

She could summon Little Phoenix Wang Cai from the Sky Phoenix Ring. That little thing had recently grown a little more so safely flying onto the ground shouldn't be a problem at all.

Only thing was, in this way, she would really become famous!

It was imaginable that an ancient spiritual beast like Little Phoenix reappearing in Soaring Heavens Continent would rock the world! It would probably attract all the large powerhouses within the entire Soaring Heavens Continent over.

In her past life, she only has a piece of God Relic, Sky Phoenix Ring and it was the remnant piece with no knowledge on its effect but it had already attracted so many people's coveting over it, and even led to her best friend into betraying her.

Then now that she had a true blue spiritual beast phoenix, just how much of a ruckus would it cause?

The worst of all was that she and Li Moying's current ability was no longer the same as that year so if it really attracted all the powerhouses in Soaring Heavens Continent to pursue after them, then they would probably not be able to deal with it.

Hence Huang Yueli was extremely unwilling to expose her real ace, even though she had already swayed for a couple of times but she was still hesitant.

Just as she was put in a difficult position, suddenly, a gust of overbearing and familiar aura approached her.

As her five senses had disappeared, Huang Yeuli actually couldn't feel Li Moying already locking her waist tightly.

She could only sense a huge traction which tugged her to move upwards and it was such a strong and overbearing power which didn't allow her to resist or reject, but at the same time made her feel exceptionally at ease.....

Her.... her Moying came?

Huang Yueli's heart just flashed past this thought when her eyes suddenly became blurry.

Her five senses instantly came back.

At the same time, she distinctively sensed the strength of the arm which was locked on her waist and the warmth from the man's firm chest behind her.

The arm around her tightened as he lifted her upwards again.

After that, Haung Yueli's feet stepped onto the ground.

"Moying, it's you.... Mmf mmf mmf!!"

Huang Yueli turned around but before she could see the man behind her clearly, her jaw was already held by someone, lifting her head upwards.

Immediately following that, her breath was swallowed by a scorching kiss.

This was an exceptionally anxious kiss. Li Moying used force to pry open her teeth and prodded inside, not allowing any rejection at all.

### **Chapter 1815: Li Moying's ability (5)**

He even bit her lips roughly until it tore and the taste of blood started to spread in the duo's mouths.

Huang Yueli almost suffocated so she couldn't help but to push the man's firm chest.

She only wanted a bit of breathing space but Li Moying wasn't willing to accept even a minute bit of resistance, which sparked off the rage in his heart.

He grabbed Huang Yueli's wrist and restrained it, rendering her totally immovable.

The kissing turned even more passionate and even more wantonly.....

Not knowing how long had passed, Li Moying then lifted up his head with great effort as he panted and let her off. But the arm which revolved around her waist was still unwilling to loosen up.

As Huang Yueli wasn't able to breath, her mind had already turned blank and she was feeling dizzy so she could only lean against his chest.

Li Moying lowered his head and bit her hard on her neck.

“Little fox, you... you almost scared me to death! You really make one worry! Why are you up on the Sky Ascension Stairs for no good reason? Moreover you still don't come down? I just went into close door cultivation for a moment and you've already met with danger, can't you be a little more careful just for me? Am I supposed to lock you up in Levitation Sword Palace then you will finally make me assured?”

Li Moying's gritted his teeth as he said that but the arm which was wrapped around her was still shaking slightly.

Huang Yueli gave a dull moan from his bite and instinctively shrunk her neck.

This man... why did he bite her for no reason? And even on her neck, what would happen if everyone saw that?

But she had a guilty conscience and now wasn't the best time to challenge Li Moying so she could only pacify him softly, “Brother Moying, can you don't be angry.... I didn't do it on purpose...”

Li Moying felt his bones were melting when he heard her call him “Brother Moying” and instantly extinguished his anger by a large portion.

But thinking that he was always so easily settled by this lass, when was she really going to understand how to take care of herself to make him assured? So he still tried his best to put on a straight face.

“Not allowed to act coquettish!”

Huang Yueli shrank her neck again, “So fierce.....”

Li Moying's lips twitched as he pinched the young lady's shoulder with an aggressive tone, “Don't want me to be fierce to you? Then can you stop doing these kinds of dangerous things? I remember that you told me yesterday that you're only there to see Jiyun take the assessment, you didn't say that you will climb the Sky Ascension Stairs!”

Huang Yueli replied, “I didn't want to as well? I was forced to a corner alright? Everyone said that I wasn't fit to be with you and I don't like to hear such things so I thought of performing a little. Moreover climbing the Sky Ascension Stairs itself isn't dangerous and it's not as though I am some inexperienced young girl, how will something happen just because I took part in an assessment? I just didn't imagine that the teleportation token would suddenly lose its effect, otherwise I'd have returned long ago!”

When Li Moying heard what she said, he immediately frowned.

“What's going on? The teleportation token is spoilt? I knew that an accident must have happened when you were trapped in the middle of the path. The token which you have, whose hand did it go through?? And who forced you to mount the Sky Ascension Stairs? Who dares to flag their tongues to say that we're not compatible!”

Huang Yueli sighed softly, “Isn't it that Guardian Yue of yours? She said that Blue Profound Sect's regulation stated that first year direct disciples who entered the Sect have to take part in the assessment and also incited the other disciples' emotions, indirectly causing me to take the Sky Ascension Stairs assessment. But whether she had done anything to the token or not, that I don't know but this matter, is definitely part of her ploy!”

Li Moying's expression turned extremely gloomy.

## Chapter 1816: Li Moying's ability (6)

“CANG, NING, YUE! I gave her a chance on account of Po Yu's face but I've not expected that a leopard doesn't change its spots! This time round, I will ensure her a dismembered body!”

The cold intent beneath Li Moying's eyes was enough to freeze the entire Blue Profound Sect into an ice river.

Huang Yueli sighed silently, knowing that Li Moying was indeed infuriated this time!

Cang Ning Yue was really seeking her own death this time round with no chance of survival. She was merely a little worried, not knowing what kind of reaction would Cang Po Yu had.

As Soaring Heavens Continent's Number One Array Master Cang Po Yu, he had always been Li Moying's right hand man and if this incident gave birth to animosity, what should they do?

But Li Moying was still upset right now and it was all because of her so Huang Yueli merely thought about it but didn't say anything at all.

“Alright, Moying, don't be angry, haven't you managed to save me in time? You're really good to me. Let's return back now and I'll personally whip up a meal to show my gratitude alright?” Huang Yueli tugged his sleeve as she swayed gently in an attempt to placate him.

Li Moying swept a glance at her and gave a cold harrumph, “Trying to bribe me with just one meal? No way! This is not even your first offence!”

“Aww~~ don't be angry anymore alright? This time is an accident, an accident! Moreover you're overly anxious, in the past during the experience learning, I've met with even more dangers than this but aren't I still alright.... Ah—!”

Li Moying lowered his head as he bit down hard on her neck.

Both bites were hard bites and it left distinct teeth marks on her neck which looked especially evident.

“You have the cheek to mention this! In the past you shouldn't have taken the danger up by yourself, it's all my fault for not controlling you! In future you're not allowed to do so, do you hear me?” Li Moying looked at her from up close.

Huang Yueli's sweat...

Being cautious and prudent wasn't wrong but which practitioner didn't take any risks when they were out for gaining experience? If they weren't able to take any risks at all, then they could forget about dashing up to the cultivation peak!

This man, he was really overly anxious!

Looking at the little fox's eyeballs rolling around but she didn't say a single word, Li Moying's heart started to flare up again.

He lowered his head and wanted to bite her once again.

Huang Yueli immediately raised up her hand and covered his mouth quickly.

“Hey... Hey! Don’t be like this, so many pairs of eyes are watching us!”

Li Moying stuck out his tongue and licked her palm.

Huang Yueli hastily withdrew her hand.

Li Moying then spoke lazily, “Where’s the people?”

Huang Yueli went into a daze as she turned her head to the left and right only to discover that they hadn’t reached the ground, but.... were on the summit on the rear mountain behind Blue Profound Sect.

This place.... Was the final destination of the Sky Ascension Stairs! Seven thousand meter’s end point!

Huang Yueli’s eyes widened her eyes, “Hmm?? We’re... on the summit! You brought me here along with you??”

Li Moying was able to reach this place by himself which was something which she wasn’t surprised about. But he brought an immovable her along but he was still able to reach the summit together, this.... was something which even Huang Yueli was shocked about.

Li Moying replied calmly, “What’s so difficult about this? In the past after the first time I’ve reached the summit, I’ve always been up here often. As long as you grasp the method, it’s just an easy feat. By the time your cultivation raises up a little higher, you will be able to do it as well.”

Huang Yueli blinked at her suspiciously, “What are you doing up here for no good reason?”

“Of course there’s a reason.....”

Li Moying’s lips curled as he brought her and turned towards the other direction.

“Look!”

### **Chapter 1817: On the summit (1)**

A magnificent scenery appeared in front of Huang Yueli’s eyes.

A huge lake appeared in the centre of the summit and on the two sides of the lake was laid with lush green grass, various beautiful flowers and trees with willowy stems draping down above the lake.

As for the clear blue water in the lake which was so clear where the bottom could be seen, it was apparently warm as a faint fog could be seen spiralling upwards, making the surrounding masked with an ambiguous feel which looked ethereal like a dream, as though it was an immortal fairyland.

Huang Yueli looked at the beautiful scenery with her mouth agape and took some time before she was able to say something, “This... What kind of situation is this? Isn’t it still winter now?”

But on the summit of this rear mountain, it looked no different from spring.

Li Moying looked at her shocked little face and a sliver of smile appeared in his eyes, “The summit on the rear mountain is always this scenery. The Absolute Sword Lake in front of you isn’t an ordinary hot spring. Every drop of lake water contains an extremely condensed Heaven and Earth Profound Qi and

the fog which floats on top of the lake are all Profound Qi. Under the nourishment of the Heaven and Earth Profound Qi, these vegetation are filled with vitality.”

After Li Moying said this, Huang Yueli stretched out her hand and sensed the surrounding presence carefully.

As expected, she just used a little strength and took in a mouthful of breath, not even using her cultivation method when the condensed Heaven and Earth Profound Qi all gushed into her body in a rush. The feeling of the pure and moist Profound Qi flowed through her meridians which was extremely comfortable, making her entire body feel light.

“So comfortable.....” She narrowed her eyes as her lips curled up slightly, revealing a satisfied expression.

After a moment, she reopened her eyes and turned to look at the man beside her as she asked curiously, “Strange, this Absolute Sword Lake’s Profound Qi’s density is evidently much higher than the Swordbath Pool isn’t it? Why does everyone soak in the Swordbath Pool instead?”

Blue Profound Sect’s Swordbath Pool’s reputation is famous outside and it’s one of the most established ancient historical remains in the entire Soaring Heavens Continent and it was also the best cultivation training ground.

Even for Blue Profound Sect’s direct disciples, just going to cultivate in the Swordbath Pool, it required them to go through various hard work before they were able to obtain a certain amount.

Whereas the evidently incredible Absolute Sword Lake was something which even Huang Yueli had never heard of.

Li Moying laughed as he said, “Because at the summit of the rear mountain, only those who had passed the Sky Ascension Stairs can come up! Most practitioners, even if they have reached the ninth stage realm, they aren’t able to come up. So to speak, in the entire Soaring Heavens Continent’s practitioners, only the two of us have been here. As for the others, even if we told them that there is such a good cultivational ground at the end of the Sky Ascension Stairs, they don’t have the ability to come up here.”

Huang Yueli blinked, “Then the Swordbath Pool.....”

Li Moying’s slender long fingers pointed towards the bottom of their feet, “Haven’t you realised it already? The position of the Swordbath Pool is where the rear mountain valley’s hinterland is, which is the say, it’s right below the Absolute Sword Lake.”

“Ah...” Huang Yueli suddenly got it, “In that way, the Swordbath Pool’s pool water is water which flowed down from this lake?”

Li Moying nodded his head, “Should be like this.”

Huang Yueli’s brows rose as she said, “In this way, so many talented disciples in Blue Profound Sect, tried to wreck their racks to find a way to gain a chance to soak in it, are all bath water left over from what you bathed in! All the benefits have been reaped by you. They merely used the remaining dregs and were all in seventh heaven. I really feel the heartache for them!”

**Chapter 1818: On the summit (2)**

Li Moying gave her a smile which didn't look like a smile as he spoke on indifferently, "The Absolute Sword Lake is right here and for the past thousands of years, there haven't been any changes and I've never stopped anyone from climbing the Sky Ascension Stairs! If they have the ability, they can feel free to come share a bowl of the broth! Since they don't have the ability, then of course they can only use whatever I have left over."

Saying that, his seductive peach blossom eyes radiated with brilliance as his gaze fell onto Huang Yueli's face.

"Right, in future, this place won't only be my bathtub, but yours as well..."

"..... Eh??"

Huang Yueli had yet to react when Li Moying had already walked right over as he clasped her wrist, pulling her into his embrace.

Huang Yueli went into a daze for a moment before jumping up, trying to shake Li Moying's hand away.

"What are you trying to do??"

Li Moying's lips curled into an evil smile as he lowered his tone, making his voice sound even mellower and sexy.

"Li'er, my little beauty, look at how condensed the Profound Qi is right here. The four seasons are just like spring and what's even rarer is that no one else can come up here. It's just nice for the two of us to cultivate together. To tell you the truth I had once found a God grade cultivation method in an ancient mystic region previously and I'm just lacking a beauty like you to cultivate together with me....."

Li Moying had a god grade cultivation method in his past life, which was suitable for a husband and wife to cultivate together. This matter was something which Huang Yueli knew about.

In her past life, because of this cultivation method, she had once suspected Mu Chengying's motive for wooing her.

But now, when these words entered her ears, what she felt was not suspicions but rather embarrassment.

Huang Yueli's face whooshed as it flushed bright red, "You, you, you... what rubbish are you spouting?"

Li Moying pulled onto the young lady who attempted to escape, pulling her into his arms and kissed her hair on the top of her head as a mellow laugh was heard from his chest.

"Shy? You need not feel embarrassed. Usually the gaze which you cast upon me, I know it all... anyway there's no outsiders here right now, let your husband give you a kiss....."

Li Moying's voice gradually became deeper and deeper, until it vanished totally without a trace.

Huang Yueli was caught off guard by his kiss and immediately went into a blank. It took her quite some time before she regained her senses, as the heat on her face started to spiral once again!

This man... he usually looked so cold and aloof, why did it feel as though he had no integrity at all now....

Of course, even though he was bearing a dangerous look which seemed as though he was ready to attack her anytime, it actually made her heart pound as well....

Huang Yueli blinked and met that pair of seductive peach blossom eyes. For his past two lifetimes, that pair of eyes had attracted and seduced numerous young ladies.....

Pitch black like ink which clearly reflected her petite figure, his gaze was focused yet passionate.

From the start to the end, no matter how many people had counter-wooed him, in his eyes, there was only her.....

Huang Yueli's heart jolted and when Li Moying slowly leaned in close to her, she forgot to retreat backwards and forgot to hide, as though she was bewitched as she automatically leaned closer to him.

Under the willowy twigs, the dense mist echoed a magpie's melodious chirping.

After quite a while later, Li Moying suddenly pushed her aside.

"Moying?" Huang Yueli blinked her bright beautiful eyes, as her eyes still bore a misty watery glint.

Li Moying couldn't help but gulped as he almost couldn't stop himself from stretching out his wolf paws towards her once again.

But eventually he managed to find his own self-control as he clenched his teeth hard and spoke in a deep voice, "Continue to cultivate on your own first, I'm going to leave you a little further away!"

### **Chapter 1819: On the summit (3)**

Saying that, he turned around swiftly and plunged his head into the lake. His muscular hand moved lightly and he swam a far distance away.

Huang Yueli took a deep breath as she steadied her breathing and by the time she regained her senses, she turned around and took a look.

Li Moying's figure kept on moving towards the other end of the Absolute Sword Lake from this end, and then swam from the other end to this end.....

After a few rounds later, Huang Yueli couldn't help but let out a giggle.

Sigh, she was just saying, some man actually dared to sprout rubbish, so he ended up without a good ending.

She knew long ago that Li Moying would not possibly do anything to her right here because even though the both of them were sleeping in the same room at night, Li Moying had never done anything to her at all.

Huang Yueli roughly knew what Li Moying was thinking about.

A powerful and overbearing man like her fiancé was generally rather traditional. He wouldn't really touch her until they were married.

Knowing this point made Huang Yueli even more unbridled, especially when Li Moying was cracking his brains to use those awry ways to scare her, she mostly didn't fight back and sometimes she would follow his trend to tease her own fiancé.

Anyway the person who needed to bath in cold water for the next two to three days was not her!

Some people just wanted to court disaster so why would she stop him from doing so right?

Li Moying swam ten over rounds in the Absolute Sword Lake and finally managed to exhaust a large portion of his excess energy before he barely managed to calm down.

But when he turned his head around to take a look, only to see his little fox giggling non-stop, her gaze was still moving around him, that gaze... could really make anyone go mad!

Li Moying's brows creased as he took large strides towards her and gave her a stare, "What are you laughing at!"

Huang Yueli put on an especially innocent sweet smile, "I'm not laughing at anything? I'm just very happy being with you so can't I smile a little? Then do you want me to cry for you to see?"

Saying that, she intentionally stretched out her little paw and poked Li Moying's face.

But before she could continue to rebel, her little hand was caught by Li Moying.

"Enough, Do, Not, Play, With, Fire!" Li Moying's gaze was filled with warning.

Huang Yueli smiled sweetly, "Forgive me for not being able to abide by your command. I'm a fire attributed god grade genius and I have to play with fire every single day, so just let me play for a little while?"

Li Moying stared hard at her and that scorching gaze simply lit her up completely.

Huang Yueli looked at his restrained emotions as she couldn't help but blurt out, "Moying, let's get married sooner!"

When Li Moying heard that, he was apparently stunned, "... what?!"

Huang Yueli rolled her eyes at him as she couldn't help but mumbled, "Forget it if you didn't hear me!"

Once she said that, she felt a little regretful. After all this sort of matter didn't seem as though it should be spoken out by a lady. But when she saw this usually overbearing man who did everything based on his own will, revealing such a restrained expression, she didn't know why and just blurted that out.

She was feeling vexed and totally didn't notice that Li Moying's eyes flashed past a sliver of pained struggling glint, as his hands also clenched tightly into fists.

But this kind of expression only maintained for an extremely short period of time. When Huang Yueli raised her head once again, Li Moying had already resumed back to normal, as his face revealed an expression of ridicule.

“Hmm? Li’er you can’t wait to get married to me? Is it because you have been looking forward to it for a long time? Then usually when I want to kiss you, you always push me away... indeed women all don’t mean what they say.....”

“Scram...!!” Huang Yueli couldn’t help but kick his leg in the water, “Hmph, consider it as I’m too nosy, it’ll be best if you don’t want to get married forever!”

#### **Chapter 1820: On the summit (4)**

Li Moying looked at her proud look as the pained feeling grew beneath his eyes, pressing her face onto his body, not allowing her to see his real expression.

How could he possibly not want to get married?

He constantly kept thinking about it, to immediately complete their marriage to make her become his totally.

But.....

Li Moying’s heart was twitching in pain, but his voice was gentle and mellow, with a hint of smile.

“Alright, alright, Li’er don’t be angry, I’m just joking around with you! I also want to get married sooner but we’re not in this state, what kind of identities should we get married with, isn’t that too aggrieved for you? After I reach the ninth stage realm peak, we’ll get married immediately!”

Li Moying coaxed the young lady in his arms softly, worried that she would not be happy.

Huang Yueli rolled her eyes at him, “Men, you’re indeed boring!”

Li Moying intentionally replied, “Since when am I boring? In the past who was the one who said that she must marry the Number One top expert in Soaring Heavens Continent? Now I’m not, so of course I must try my best return back to that position, I must allow my little fox to marry grandly.”

Huang Yueli went into a blank for a moment but her lips couldn’t help but curled upwards as she felt a sense of sweetness in her heart.

So, this was something which she had said a very long time ago, so long that she almost forgot about it but yet Li Moying remembered it clearly even until now.....

To tell the truth, now that things became like this, she no longer minded if she could marry glamorously or not. As long as the both of them were still alive and they could be together, she already felt very happy.

After experiencing the test of life and death and despair, she already knew what was most important and most valuable to her.

But since her fiancé was so insistent, she had no need to dampen his spirits. Anyway as long as she knew this man was already hers and he had no way to run, that was enough.

Huang Yueli totally never thought that Li Moying would ever cheat in terms of this kind of matter.

Because based on Li Moying’s character, making such a decision was totally nothing strange at all.

A proud peerless genius, naturally didn't want to assume the identity of a weakling to go past the most important day of his entire life.

Huang Yueli totally didn't suspect him as she leaned close to Li Moying and kissed him on his face while giving a sweet smile, "Darling, you're really great to me. Then I will just wait...."

Li Moying's brows twitched, apparently being driven crazy by his little fiancée.

At the same time, he also secretly heaved a sigh of relief.

At least, Li'er did not suspect anything.....

He suddenly put on a straight face as he put in pressure and pulled her hard, pressing Huang Yueli into the water, "What's there to play! Cultivate properly! Earlier when you mounted the Sky Ascension Stairs, you suffered a serious internal injury. Especially when you were trapped on the six thousand meter mark, your soul trace suffered serious damage, haven't you felt it for yourself?"

"Hmm? Ah... I think so...." Huang Yueli's actions took a pause as she revealed an enlightened look.

No wonder after she reached the summit had the giddy sensation. Initially she thought that she was being smitten by this man, so it was actually not? No, it should be put as, both were part of the reasons.....

Li Moying was melancholic as he couldn't help but stuck out his finger and flicked her fair shiny little forehead.

"So silly, hurry up and cultivate! Your cultivation is obviously not enough, but you had to force yourself to climb upwards! You ah, why is it that you are forever so stubborn. What's the matter with slightly stepping back for once? Luckily the Absolute Sword Lake's lake water has miraculous effects towards restoring one's meridians and soul trace damage, so soak in it for some time and you will feel much better."
