

## **Weaponsmith 1851**

### **Chapter 1851: Unsurpassable peerless top exponent (3)**

Because in his heart, a terrifying guess suddenly arose.

In Blue Profound Sect, ninth stage realm peak potential, thunder attributed... this was simply describing a certain someone.

That certain someone was the most terrifying and unsurpassable peerless top exponent in everyone's hearts!!

Just at this moment, it seemed as though it had really verified his guess.....

Bursts of metal attributed chafing sound suddenly rang from the skies above Levitation Sword Palace as the ground beneath their feet also started to shake.

Ten thousand swords whined as it shot up into the clouds!

Elder Pan's feet turned into jelly as he totally uncontrollably fell on his butt onto the ground, while his entire body started shaking non-stop.

Not only him, the other Elders also started to turn pale bearing a preoccupied look as the terror in their hearts were displayed in full view!

Overbearing and powerful Profound Energy pressure enveloped the entire Levitation Sword Palace.

The Elders present were all in ninth stage realm peak cultivations but under such pressure, all of them were shaking in fear and trepidation as they only had one single thought to kneel down and beg for mercy.

In the entire Soaring Heavens Continent, only one person had such overbearing and powerful, the only one unsurpassable strong exponent, Number One Sacred Lands Blue Profound Sect's Sovereign – Mu Chengying!!

"Mu... Sovereign Mu...." Elder Pan spoke in a trembling tone, as his teeth were chattering non-stop.

"Rea...Really is... Sovereign Mu?"

"Levitation Sword Palace's sword array in the air had been inherited for generations and only Blue Profound Sect's Sovereign is able to activate it using an exclusive Profound Skill... Other than Sovereign Mu, no... no one else... can activate it...."

"B..But, wasn't it said... said that Sovereign Mu had already.... already...."

The Elders finally found their voices but each and every one of their voices were shaking.

They exchanged glances mutually, with the hope to find proof that the sensation they felt earlier was just a hallucination.

But they only found deeper terror within their companion's eyes!

Just how strong was Mu Chengying was something which no one was certain of but all those practitioners who had experienced the times when he had flourished fully all knew the extend of how ridiculously powerful he was. Moreover he was overbearing and extremely defensive even though he knew the person was in the wrong so no one dared to challenge his authority!

All those who dared to offend him all died without any burial grounds!

If this really was Mu Chengying himself who came out from his closed door, then their trip today was no different from sending themselves to their death.

“So... Sovereign Mu... mer... mercy! I absolutely did not intentionally... want to offend you.....”

Someone within them was unable to take such tremendous pressure and started to lead as he plopped down onto the ground kneeling down to beg for mercy furiously.

When the others heard, they also reacted and all started to kneel down consecutively, as their voices rose in waves while kowtowing.

“Sov... Sovereign Mu.... Please show us mercy.....”

“Misunderstanding, misunderstanding, this really is a misunderstanding.....”

“Sovereign Mu, please be appeased.....”

The situation instantly reversed and the Elders from the Six Sacred Lands who were originally extremely arrogant had all turned into startled birds. Not only had the flames from earlier disappeared totally, they also lowered their voices by several notches as low as they could. The expressions on their faces seemed as though they had seen a living ghost, apparently they had been so shocked that their souls were about to fly away!

Cang Po Jun was also stunned momentarily and by the time he regained his senses, the entire ground was full of people who had knelt down in front of him.

This kind of scenario seemed as though it was sixteen years ago, when Mu Chengying was still in his peak!

However, Cang Po Jun didn't feel complacent because of this. In actual fact, he was feeling as shocked and surprised in his heart, which was no lesser than these Elders!

He didn't understand what was going on. Why... was Levitation Sword Palace's Sword Array suddenly activated?

#### **Chapter 1852: Unsurpassable peerless top exponent (4)**

He was much clearer than anyone else on Li Moying's current cultivation and ability. It wasn't enough to activate Levitation Sword Palace's Sword Array, unless..... there was some hidden agenda behind all these?

Cang Po Jun turned his head blankly towards Huang Yueli.

Instinct told him that this matter was likely related to this future Sovereigness.

“Grandmaster Huang, this... what’s going on? Did you arrange this?” He used his Profound Energy to transmit his voice as he enquired secretly.

Huang Yueli replied, “Considered so, I guess.....”

Although she said that, but she frowned slightly as her heart was filled with puzzlement.

This was indeed her plan because she had long expected that the Six Sacred Lands would send out so many top rated exponents to gather at Blue Profound Sect to not give up and leave so easily since they had not attained their motive.

Although she could think of thousands of reasons to absolve Li Moying of the guilt, but the Elders’ motive was originally not Li Moying so it was inevitable for them to eventually tear their faces and take action directly. What she could do was just to drag as much time as possible, to give Cang Po Hun and the others enough time for preparation.

The only thing which could make them leave, and also to stop finding trouble for Blue Profound Sect within the short period of time was to let them know that Mu Chengying was still alive, and moreover... he might come out from closed door seclusion anytime!

Under such awe, the Six Sacred Lands would then have fear arising from their hearts, otherwise even if they managed to trick them away this time round, the next time they would still find other reasons to come over again, and moreover in an even more exaggerated fashion the very next time!

However, to make Li Moying appear now to fight against them, this apparently was an unrealistic matter hence Huang Yueli thought of making use of Levitation Sword Palace’s Sword Array instead.

Levitation Sword Palace’s Sword Array required ninth stage realm peak ability to activate and Li Moying was only at ninth stage realm first level now. But in terms of actual potential ability, he was at least ninth stage realm sixth to seventh level.

Whereas Blue Profound Sect still retained many medicinal pills which Liu Buyan had left behind previously which could lift a practitioner’s cultivation within a short period of time. If Li Moying swallowed one, he would be able to attain ninth stage realm peak cultivation within two hours’ time.

But for safety sake, Huang Yueli still made Cang Po Hun and Cang Po Yu made some setups around Levitation Sword Palace and these setups were used mainly to strengthen the array’s might, creating an obvious bustle to attract the fear from these Elders.

Originally, Levitation Sword Palace’s mechanisms and arrays were all left behind from ancient times and without her making her appearance personally, it was very hard to modify. Luckily Blue Profound Sect still had Cang Po Yu, the Number One Array Master and with his help, everything proceeded smoothly.

Levitation Sword Palace’s Sword Array was activated in time and it’s momentum was shocking.

All the Elders present had mostly experienced Li Moying’s peak period and the fear towards him was deep set in their bones. They subconsciously thought that he was about to come out from his closed door and their souls almost left their bodies out of fear.

From the looks of it, to make them scam immediately should be an easy matter.

But Huang Yueli somehow felt that something was not right.....

But at this moment, she was not able to think through this point in detail before the opportunity disappeared.

She shot Cang Po Hun a glance, indicating for him to quickly chase them away.

Cang Po Jun understood her meaning as he gave a cold laugh and shouted out loudly, "Elders, weren't you hooting earlier for our Sovereign to come out right away? Now Sovereign is really going to come out, why have you guys turned scared until like this?"

Elder Pan was tongue tied as he stammered, "This... this... will... Will Guardian Jun please forgive me, it's me... I've offended....."

### **Chapter 1853: Unsurpassable peerless top exponent (5)**

Cang Po Jun spoke with mirth, "Offend? Earlier weren't you saying that you all are here to uphold justice? Didn't you also say that you wish to pay your respects to Sovereign otherwise you will not leave? Now that we're giving you an opportunity to let you enter, how?"

All the Elders were already scared out of their wits, who dares to go to the rear hall at this kind of timing?

Mu Chengying apparently was infuriated right now so whoever ran to look for him, really thought their life was a little too long! Just how retarded was that person to be able to do such a thing?

Elder Pan shook his head furiously, "No, no, no, no need... how would I dare to disrupt Sovereign Mu from his cultivation? I'd better... better.... Bid farewell first....."

"Right, right, we shall leave now, we'll leave right now....."

"Guardian Jun, we'll... we'll take our leave now....."

Few Elders exchanged glances and struggled to get up, as they thought of leaving in a hurry.

Some of them were afraid and their feet turned into jelly so when they stood up, they almost fell flat on their faces.

Seeing their performance, Cang Po Jun silently heaved a sigh of relief.

Even though he didn't know what happened in the rear hall, but as long as he could manage the current situation then it would do. He had no choice but to admit that Sovereign's fame was simply too useful. There was no sight of him but it had already scared these people witless.

However, it was too early for him to be relieved.

Just as most of them were about to leave, suddenly an Elder among them pulled onto Elder Pan and said, "Wait, Elder Pan, what's the matter with all of you? Why are you all so afraid? We haven't even seen Sovereign Mu and we're.... leaving just like this?"

Elder Pan was pulled back by him and he turned his head around to take a look, to discover that it was Sky Devil Sect's Elder Qi. Among all the Elders who came today, he was one of the youngest, and also the only one who had not met Mu Chengying sixteen years ago.

The saying newborn calves do not fear tigers applied totally to him. As he had never experienced Mu Chengying's absolute ability that year, he naturally didn't understand why the others were so afraid of him to this extent.

From what he saw, everyone were all ninth stage realm peak practitioners and were all Sky Chart's top exponents so even if there was a difference in their abilities, but they had more people here! Seven or eight people together, even if they had no way to win Mu Chengying, surely they were able to have a fight right? Just like a stray dog, tucking their tail between their feet and running away?

Elder Pan totally didn't expect there to be someone as moronic as that, and he was so anxious that he almost spat out blood.

"Y, y, you... really are insane! Do you know just how strong Sovereign Mu's ability is! Just based on you in this state, you're not even enough to be crushed by one finger of Sovereign Mu's! You're much younger than I am, surely you're not in a hurry to die right? For the sake of your little life, aren't you going to hurry on and leave? What are you still waiting for?"

When Elder Qi heard that, he was extremely shocked.

Elder Pan was considered as one of the higher ranking top exponents in the Sky Chart and absolutely one of the top rated famous practitioners in Sky Emperor City. Whoever knew that in front of Mu Chengying, he was actually scared stiff! No, wrong, he wasn't even in front of Mu Chengying yet, just listening to the Sword Array on top of Levitation Sword Palace and it scared him so much until his face turned into a vegetable green colour.....

Elder Qi hesitated for a moment but he still didn't follow suit to run away.

He had already broken through to the ninth stage realm when he was forty years old and was considered as one of the first rated geniuses who advanced swiftly. Although his advancement was the shortest, but his ranking on the Sky Chart even surpassed Elder Pan. With this kind of innate talent, it made him think too highly of himself, feeling that although Mu Chengying was strong, but he wasn't any worse off himself.

Moreover, before he came, Sky Devil Sect Master had once promised that if he was able to verify Mu Chengying's life and death, he would enjoy much more rewards.

#### **Chapter 1854: Unsurpassable peerless top exponent (6)**

Elder Qi clenched his teeth as he stopped in his tracks.

"Elder Pan, I feel that... everyone need not be in a hurry to leave so anxiously! Are you all really certain that Sovereign Mu is still above and that he's about to come out from his closed door cultivation? Don't you need to verify it with your own eyes?"

Elder Pan replied urgently, "What's there to verify? Levitation Sword Palace's Sword Array is already activated so surely it has already explained for itself isn't it? If it's not Sovereign Mu himself, who else is able to do this?"

Elder Qi replied, "This is hard to say, perhaps before Sovereign Mu went into rigid closed cultivation, he had once taken in a disciple or perhaps left some secret manual then his successor could also drive the array! Moreover speaking, what I don't understand is, since he's already come out of his closed door seclusion, then since he's so powerful, why doesn't he make a move towards us but instead activate the array? I heard that Blue Profound Sect's Sect Protection Sword Array will not be activated unless it's at a life and death point. Based on today's situation, does he need to activate the Sword Array?"

Elder Qi's forehead was wound tightly as he spoke out the doubts in his mind.

His fear towards Mu Chengying wasn't as intense so he became the only one within the entire crowd to be able to remain calm to think things through.

Hearing his words, Huang Yueli's heart thumped hard.

She had never expected that this plan of hers originally was a plan which popped out of desperation and it was all based on Mu Chengying's many years of accumulated power to scare these people off momentarily, so that rest of the Six Sacred Lands no longer dared to come the second time.

Whoever knew that there was actually someone who wasn't afraid of death and still had a clear mind, to see through the loophole in her plan.

Indeed, after Elder Qi said these, the other Elders who had originally ran out of the hall's door all stopped in their tracks.

What Elder Qi said, made perfect sense.

If Mu Chengying had really came out of his closed door seclusion, then according to his past temper, he might have already taken action against them. At the very least, he would leave a mark on them to make them remember, instead of just chasing them out?

Moreover speaking, activating the Sect's Protection Sword Array over such a small matter was indeed abnormal.....

But they didn't dare to run back just like this, so they maintained the stance of running away at any point of time, as they shot suspicious gazes onto Cang Po Jun.

Cang Po Jun didn't understand the situation as well but he couldn't possibly display his ignorance at this point of time so his face was still maintaining the icy cold expression.

"Why? Since when has Blue Profound Sect required your permission to activate the Sword Array? Sovereign's situation needs to be reported to you guys? Since you don't believe, then head over to the rear hall personally. But... if Sovereign flares up and any accident happens, then it's all your own doing!"

Elders all looked at each other in dismay, although their hearts were filled with doubts, but they didn't dare to enter the rear hall.

It was better to be safe than sorry.

What if Mu Chengying was perfectly fine?

The few of them looked towards Elder Qi who spoke out at first, "Elder Qi, since you've raised this concern, then will you head in to take a look! After you've verified Sovereign Mu's situation, then the rest of them will be assured, isn't it?"

"You all..."

Elder Qi's face flushed a bright red shade, as he turned melancholic.

He had raised out his doubt out of good intentions but in the end these people were all timid cowards, not daring to take any risks at all. Instead they pushed him out alone.

He clenched his teeth and said, "We go altogether! Do you really treat this Elder as an idiot?"

The few of them weighed the matter over and over again and still felt that there were too many suspicious points so a few bolder ones stood up, with the intention to take a look together at the situation inside.

Cang Po Jun knew deeply that if they went in, this play would definitely fall through but he had no way to stop them.

#### **Chapter 1855: Unsurpassable peerless top exponent (7)**

Cang Po Jun snuck a glance at Huang Yueli to see if she had any countermeasures to deal with this situation.

But Huang Yueli also didn't have any better idea. The current situation was the worst kind of scenario within her plan and now that things had come to such a pass, other than taking action, there was basically no other choice.

Luckily when Cang Po Yu's array was already successfully set up, various ninth stage realm Elders had all arrived in place and to defeat this group of people, it wasn't considered as a difficult feat but the secret that Mu Chengying was no longer in Blue Profound Sect would definitely not be kept under wraps any longer.

Huang Yueli could only give Cang Po Jun a hand gesture, indicating for him to be prepared to take action.

Cang Po Jun's heart sunk, this time he was really out of hope.

Not knowing when it started, Huang Yueli had turned into the most intelligent, most dependable existence in them Guardians' eyes, as though they knew that as long as she was there, whatever complicated or disorderly situation would all be easily dealt with.

But now, even she also had no idea....

Looked like this secret which was kept for sixteen years was finally about to be revealed.

The minute this secret leaked out, to the entire Soaring Heavens Continent, it was explosive news which was enough to shake all the corners of the continent and Sky Emperor City's powerhouse structure would then undergo turbulent changes.....

At this point, Elder Qi and the others were already standing at the front hall's corridor leading to the rear hall.

Elder Qi spoke out, "Guardian Jun, will you please move aside, we are on our way to pay our respects to Sovereign Mu so surely you will not intentionally obstruct us right?"

Cang Po Jun's gaze congealed slightly as he spoke out slowly, "How would that be? Since you're in a hurry to be reincarnated, then why should This Guardian poke my nose into this, or even stop you from doing so?"

"Ha ha, great then, let's go!" Elder Qi sneered as he strode on ahead.

Cang Po Jun watched them walking towards the rear hall as he was fully alert, waiting for the best chance to take action.

Elder Qi and three others walked towards the rear hall's tightly shut door as they bowed down and called out in a bright voice, "Sovereign Mu, I am Sky Devil Sect's Elder Qi Hui and I've long heard of Sovereign Mu's fame so I've specially come over to pay a visit and pay my respects to Sovereign Mu...."

The rear hall's door was shut tightly, without any movements coming from inside.

Elder Qi and the others revealed an excited expression, feeling that they'd guessed it correctly as they had even more confidence in their own judgement.

He raised his voice once again, "Sovereign Mu, if you're unwilling to voice out, then I will proceed in directly!"

Saying that, the trio stood up and wanted to push the door to enter inside.

"Simply disrespectful to the extreme! What do you treat the restricted area of Blue Profound Sect as!" Cang Po Jun was agitated by their bold and disrespectful act as his expression was extremely gloomy, with the look as though he couldn't wait to rush up to stop them.

But before Cang Po Jun could take any action.

Just as Elder Qi's hand touched the heavy hall door, they suddenly heard an icy cold harrumph coming from behind the door.

"How presumptuous——!"

A mellow, cold voice reverberated above the rear hall's skies.

But when it rang in everyone's ears, it seemed like a shockingly huge thunder which was booming right above their heads.

The voice was filled with might, so overpowering that it almost pierced through everyone's ears.

Everyone's face revealed an extremely shocked expression.

However, before anyone could take any action, Levitation Sword Palace's densely packed Sword Array was once again activated by this scoff and this time... it was much more intense than before by a hundred times!

It was like a rainbow as the sword's qi gushed towards the skies, reflecting a strange bluish purple shade in Sky Emperor City's skies.

### **Chapter 1856: Unsurpassable peerless top exponent (8)**

At the same time, gushing waves of Profound Energy surged out from behind the door!

Elder Qi had not expected such a matter to actually happen as he was caught unprepared and faced the first wave. He was struck by that gush of Profound Energy directly on his chest and he was thrown back.

The other two Elders who came along with him were standing at a distance a little further away but they similarly couldn't react in time as they were thrown up into the sky by the airflow.

"Pitter patter pitter patter—"

Three blinding flashes struck down from the sky above Levitation Sword Palace and accurately penetrated through those three figures who were sent flying in the sky.

The three of them kept on twitching in mid-air, as though their bodies were dancing as their bodies twisted into a strange posture.

Lastly, with a thump and boom, they crashed heavily onto the ground.

Although all the other Elders present were all stunned by this sudden change as their mouths opened agape and appeared tongue tied, eyes wide open and it was until the trio landed onto the ground when their glances turned towards those three men.

On one look, they drew in a breath of cold air with horror.

Because the trio on the ground had turned black and not only had they already breathed their last, their bodies had already been struck by lightning into charcoal, totally unable to differentiate their looks at all.

No one had expected that the smug and determined three Elders had actually died in an instant, moreover in such a miserable state!

The few of them subconsciously lowered their heads as they gazed towards the rear hall's door.

At this moment in time, that arch shaped door with complicated array patterns remained tightly shut and the inside had resumed its usual peace. Even the Sword Array above Levitation Sword Palace did not make any sound, so silent as though nothing had happened before.

But this similar scene made the rest of the Elders feel shocked, nothing else but shock!

Earlier when Elder Qi and the others were sent flying, everyone present heard the clear sound that was emitted out from inside the hall.

Such ice cold strictness, it was extremely overbearing to the extreme!

And that tyrannical and shockingly overwhelming Profound Energy!

Without a doubt, the man inside the hall, was.... Mu Chengying!

The Elders all thought of this point at the same time and they were shaking so much that they seemed as though they were sifting chaffs, as they hastily knelt down, prostrating furiously on the ground while kowtowing.

Moreover this time round, they didn't even dared to say a single word, only using all the strength that they had left to kowtow with all they had got left.

If they were still doubtful of the person's identity in the hall earlier, as well as doubtful of his ability, then whatever had happened earlier was the best evidence, which slapped them hard on their faces!

He did not even reveal his face, just based on two words' imposing pressure to kill three ninth stage realm peak practitioners who were famous on the Sky Chart!

Such unsurpassable absolute ability with this exaggerated and overbearing mannerism, told them once and again who the identity of the person behind the scenes was!

Mu Chengying... he really had been around always, moreover his ability was totally not any weaker than yesteryear!

Finding out about this pointer, everyone's fear in their hearts had all instantly reached the peak and many of them all started to see black, almost causing them to faint.

Everyone were all regretting this, feeling that they were simply too dumb to the extreme!

Why did they believe in the rumours that Mu Chengying had really gotten into a mishap? And even came here dim wittedly to provoke them?

Why was there such a good opportunity to leave Blue Profound Sect earlier, but why did they think too highly of themselves, hence missing the chance once and again?

Now that Mu Chengying was really angered by them, he just waved his hand and instantly killed three of them!

Now they wanted to escape but there was nowhere for them to run!

### **Chapter 1857: Unsurpassable peerless top exponent (9)**

To tell the truth, the strongest thought in their minds now was to quickly run away, out of the most terrifying absolute Demon Lord, Mu Chengying's zone of influence.

But unfortunately, all of their legs refused to listen to what their brains were telling them.

Under extreme terror, not to mention run away, they couldn't even straighten their kneecaps, as their feet turned soft and consciousness turned unclear. Other than kneeling onto the ground to beg for mercy, there was no second option.

"Bam! Bam! Bam!..."

One after another, sounds of heads banging on the ground arose as they prostrated towards the front hall. The sounds were dull, like an unregulated rhythm as it knocked into their hearts.

Not too long later, blood stains appeared on the limestone pavement and moreover the blood stains were increasing by the minute as it started to stream downwards onto the stone floor.

Many of their faces were already filled with so much blood that their eyes weren't able to open up but they didn't dare to stop, only continuing to kowtow with hope that the unsurpassable unparalleled top exponent would be lenient and left them a path of survival.

However, no sound came out from behind the hall's door.

The Elders didn't dare to slack as they still tried their hardest to kowtow, as though they didn't feel any pain or tiredness.

This scene, in Cang Po Jun and Huang Yueli's eyes, made them extremely shocked.

The two of them exchanged glances as they didn't really get what the situation had become.... The man behind the hall's door was apparently Li Moying because other than him, no one else could manage to do this.

But, how did he do it?

It took a very, very long time until the limestone pavement in front of the front hall was practically stained with blood before a deep and chilly voice was heard coming from behind the door.

"Who gave you the guts to come make trouble at Blue Profound Sect? This Sovereign just didn't show myself for this bit of time, is the sky in Sky Emperor City... going to revolt?"

The same cold tone in their memories along with an overbearing suppression was like a sharp blade, piercing straight into their soul trace.

Even though this voice seemed a little different from sixteen years ago, but no one posed any suspicions in their minds because deep down in their hearts, there was only terror left!

"Sovereign Mu, mer... mercy...."

"Sky Devil Sect absolutely didn't dare to offend you, we are... we are just misled by someone....."

"We beg Sovereign Mu to let us off. In future we Seven Stars Palace will definitely follow behind Blue Profound Sect! Whatever Sovereign Mu asks us to do, we will do it!"

"Sovereign Mu, with penetrating judgement, you'd surely know that we have been harmed by Leng Weiming this sinister villain! He was the one who urged us here."

Not knowing who suddenly had a brainwave and threw the pot over onto Leng Weiming.

The others instantly reacted as they all joined in, "Right, that's correct! It's all Leng Weiming who fabricated the truth, lying to us that it was Blue Profound Sect who did it!"

"This villain with ulterior motives, he should indeed be punished with a thousand cuts and myriad pieces!"

Leng Weiming was so terrified that he almost fainted! These famous Sacred Lands Elders were actually all so shameless. In order to preserve their own lives, they actually made him a scapegoat at the crucial moment, throwing him out!

“Sovereign Mu, I....” He urgently lifted up his head as he tried to explain.

But how would the others even give him any chance to explain? Just as he opened his mouth, the few Elders struck out simultaneously as severe gushes of Profound Energy all pierced through his chest.

Leng Weiming fell flat onto the ground immediately as he threw up mouthfuls of blood, ending up as dead as he could be.

### **Chapter 1858: Unsurpassable peerless top exponent (10)**

When the others saw Leng Weiming had died, they immediately heaved a sigh of relief.

Anyway it was just a mere Leng family. Even if their Clan Leader died, they weren’t able to do anything to the Six Sacred Lands so no one else but him would end up being the scapegoat!

As long as Mu Chengying saw this “main culprit” dead, he ought to be slightly appeased to let them continue living so this “sacrifice” was very worth it!

Even until his death, Leng Weiming probably hadn’t thought through why he ended up with such an ending!

Just one week ago, he was still delightfully planning on how to make Li Moying die an impassable death, so he had not expected that not too long later, he would end up dying a violent death.

Moreover, his death was obvious that under the Six Sacred Land’s “care”, the entire Leng family was about to collapse and fall apart so it probably wouldn’t take a few days before the powerhouse Leng family no longer appeared in Sky Emperor City....

After the few Elder killed him, they immediately jumped out to ask for commendation.

“Sovereign Mu, the main culprit has already been killed!”

“Will Sovereign Mu please let us go, on account that we have already atone for our crimes.....”

“Sovereign Mu, I am willing to be planted with the Slave Seal, to be at Sovereign’s beck and call for the rest of my life, so please allow me to live!”

Various kinds of shameless words were heard from these dignified Elders.

At the thin line between life and death, in order to survive, they no longer cared about anything! As for face or reputation or pride, it had long been thrown unimaginably far away!

Finally, after their performance had come to an end, the rear hall’s door echoed a chilly voice.

“This Sovereign had been nurturing my character for many years and since I’ve just come out from my closed door seclusion, I originally didn’t want to kill anyone the moment I came out.....”

“Sovereign Mu is simply too compassionate, no wonder you’re the entire Soaring Heavens Continent’s most powerful peerless top exponent!”

“Sovereign Mu, will you please be magnanimous and show mercy to us. Your grand kindness will never be forgotten!”

“Sovereign Mu is benevolent and kindly, no wonder your ability is so preeminent!”

Li Moying had just started off and the group couldn’t wait to fawn on him, those corny expressions and the flattering tones left Huang Yueli and Cang Po Jun dumbstruck.

Huang Yueli couldn’t help but burst out laughing.

These people were just too comical! Since when had Mu Chengying ever been complimented as “compassionate”, “benevolent and kindly”? He was everything but compassionate!

No one knew the game of the strong devouring the weak better than Mu Chengying!

All of his gentleness and weak spots were only exposed in front of his beloved woman.

Her laughter was not very soft as the Elders who knelt on the ground just in front of her echoed into their ears. They were not deaf so naturally they could all hear her laughter.

To be ridiculed by a young junior with such ordinary cultivation, if it happened just one hour ago, these Elders would have acted up long ago, to make her pay the price which she would never forget for the rest of her life!

But now that things had come to such a pass, none of the Elders dared to touch her.

They didn’t even dared to turn their heads back to take a look at her!

Mu Chengying was right there at Levitation Sword Palace so who had the audacity to touch even a finger of the disciples under him?

Li Moying’s voice drifted out once again, “Count your lucky stars today. This Sovereign is going to pray for blessings for the Blue Profound Sect for seven days and I don’t wish to kill indiscriminately. Each of you just leave your right arm and a pair of eyes then you can scam!”

Hearing this, the crowd all rejoiced over this.

For practitioners to be crippled, their cultivations would definitely drop drastically and their ability could possibly no longer reach ninth stage realm peak forever.

### **Chapter 1859: Scram on your own (1)**

But at this moment in time, these Elders totally had no spare energy to consider all these.

To them, to be able to preserve their lives was already a thousand fortunes amid the misfortune. Those who had offended Mu Chengying rarely were able to escape unscattered so they had really bumped into a great streak of luck today!

The few of them hurriedly drew out their weapons which were hanging by their waists and without even blinking, they swung it towards their right arm.

Blood splattered everything as one after another limb fell onto the ground, causing the thick blood stench to saturate the air.

After the Elders chopped off their arm, they blinded their two eyes and escaped out of the door in a staggering motion!

As their two eyes were blind and they couldn't see anything at all, although they could barely use their soul trace to differentiate the surrounding conditions, but the Elders still fell heavily on the stairs right in front of Levitation Sword Palace's door.

Levitation Sword Palace was built right smack in the thickest fog and the palace door's steps were exactly nine hundred and ninety nine steps.

These stairs to a fifth stage realm and above practitioner wasn't considered as anything much and they could climb up easily.

But towards the current Elders from the Six Sacred Lands, these steps were simply too long.....

They rolled down the stairs along the mountain and there was nothing to block them so somehow they weren't able to stop at all.

"Dong dong dong dong dong dong..."

Continuous knocking sounds rang on the stairs as it could be heard even from far away.

The surroundings around Levitation Sword Palace were filled with many Blue Profound Sect's disciples who guarded the stairs, as they watched worriedly at the palace doors.

When the Elders from the Six Sacred Lands arrived, they didn't conceal their own tracks but walked in brazenly with smug appearances reflecting their intention to show off as they seemed to be worried that others didn't know about them.

Blue Profound Sect's disciples could roughly guess their intentions and were extremely worried but they didn't dare to run into Levitation Sword Palace so they could only watch from afar.

Initially, they were all worried that Cang Po Jun and the others would fight with the Elders, and worried that something had really happened to the legendary unsurpassable Sovereign while he was behind closed door seclusion.

But even after waiting for a long time, there was no movement from Levitation Sword Palace. No earth shattering actions taken from those ninth stage realm peak practitioners nor did they see the Elders from the Six Sacred Lands leave.

What was going on?

Just as the disciples were feeling confused and worried, they finally heard bursts of awe-striking sword cries!

Immediately following that, the Sword Array above Levitation Sword Palace kept out ringing and there were a few times when brilliant rays shone as the entire Heaven and Earth's Profound Qi from the spiritual artery all gushed madly towards Levitation Sword Palace.

This time round, all the disciples in the Sects were stunned as they all hurriedly rushed over, determined to risk their lives and die for the Number One Sacred Land's glory.

Whoever knew, when they ran near, they discovered that the big battle in their imaginations had not occurred.

Levitation Sword Palace's palace doors were suddenly swung open and a few things started to roll down.

Crashing 'pong dong' sounds were heard in coordination with miserable shrieks made all the disciples stunned.

"This... what is this exactly? What happened?"

"Something doesn't seem right! Six Sacred Lands Elders have already gone in for such a long time and they're still not out yet. Could it be that Guardian Jun is unable to deal with them?"

"Look there quickly! What's that thing which is rolling down? It's rolling so fast! Is it a rubber ball?"

"What kind of sight do you have? What rubber ball, it's obviously.... it seems like a few people!"

"What??"

Under Blue Profound Sect's disciples astonished and shocked gazes, the few Elders finally landed at the bottom of the stairs.

### **Chapter 1860: Scram on your own (2)**

By now, they were already bruised and battered without a single piece of good skin on their bodies with various bones fractures all over.

What was worse of all was that during the process of falling, the wounds on their arm and eyes were being tugged continuously and the wounds became increasingly malevolent and frightening.

Moreover, as their heads had been knocking against the stone ground, by the time they landed at the bottom of the stairs, everyone had already gone groggy from it as their minds were dizzy and unable to lift up their heads, not to mention having the thoughts about their current predicament.

On seeing the few "balls" landing, Blue Profound Sect's disciples all gasped as they crowded around them, sizing them up in curiosity.

"It fell, it fell! It finally fell down!"

"Argh, move aside a little, take me take a look to see what it is exactly? It dropped out from Levitation Sword Palace which is just too strange! Surely it can't be some kind of Profound Armament or treasure right?"

"Fat hope! This obviously looks like humans, moreover humans who had fallen to such a sad state!"

"What? There's this kind of thing? Who is so dumb to fall down even from climbing a flight of stairs? Are they practitioners or not? Moreover, rolling down from such a height and still alive, their cultivations are really not ordinary!"

"Look at their right sleeves, it's all empty! Could it be that they rolled down so precisely at the same spot which made their right arms fly out while they were rolling down? Have they arranged this together?"

Everyone was giving off gasps of shock and surprise.

They were intentionally ridiculing them but this matter.... originally made them feel too surprised!

The disciples in the Sect had never met with such a bizarre matter before so they instantly got excited, as they pulled their friends and got into grounds to crowd around and take a look.

When the few Elders heard what those younger generation disciples said, they were all furious and embarrassed, simply couldn't wait to explode on the spot!

They were all top exponents on the Sky Chart with exceptionally strong abilities and excellent statuses so since when had they been embarrassed like this before? Simply had thrown all their faces away!

But this wasn't comparable to earlier, only disgraced in front of Cang Po Jun. All of them were same levelled top exponents so they could still barely accept it.

But now, with these younger generation disciples crowded around them as though they were looking at a group of clowns, this feeling... was simply as awkward as it could get!

The few Elders subconsciously lowered their faces onto the ground, totally not moving fearing that they would be recognised!

They were berating these younger generation people several thousand times for being too bored and too nosy, praying that these idle people would quickly leave and absolutely not see their faces!

Alas, their prayers weren't of much use.

When the Elders from the Six Sacred Lands arrived, they made their stance so grand and those younger generation disciples weren't idiots. They merely needed a push and someone already guessed their identities

"Haha, I know what's going on already! Look at the clothes on them, these are all uniforms from the Six Sacred Lands. These people.... are obviously those few Elders who had stormed into our Sect arrogantly earlier!"

"What? Let me take a look.... They really are! What's going on? From the stance which they entered earlier, I thought that Blue Profound Sect had met with strong opponents! Just how long has it been and they're turned into this state?"

"I know why, isn't that obvious? These people must have been dealt with by Guardian Jun and the others! Tsk tsk, I said this earlier that these old fools actually dare to come to Blue Profound Sect to create havoc. Don't they even take a look at themselves in their own piss!"
