Chapter 2111: Huang Yueli advances (5)

Dai Boqi was shocked by this huge wave!

At the Alchemist Guild Headquarters, there would occasionally be some high ranking Pill Masters advancing but they were mostly Earth attributed and the nature of their Profound Energy were much more peaceful. Moreover, their potentials were comparatively weaker hence when they advanced, they would usually cause some strange occurrences around the valley's surroundings hence they usually wouldn't need to disperse the crowd.

Only when someone advanced into the ninth stage realm, will it attract a lot of attention.

From what Dai Boqi saw, when Huang Yueli breaking through to seventh stage realm, the fluctuations of the Profound Energy was so powerful that it had outdone those ordinary practitioners who had broken through to ninth stage realm!

For that one instant, he even had this strange feeling that he was facing a ninth stage realm overbearing top exponent!

Li Moying's gaze was glued onto the rear hall and he could not be bothered to reply Dai Boqi's questions at all.

It was Cang Po Hun who replied in a low voice, "Old Master Dai, aren't you belittling Grandmaster Huang a little! She is a top rated cultivational genius and is different from Pill Masters with cultivation! If she were really to advance into ninth stage realm, probably even the entire Blue Profound Sect would be affected!"

In actual fact, Cang Po Hun's words were still rather reserved.

In the past when Huang Yueli broke through to ninth stage realm, the strange occurrence had led all the large powerhouses around Sky Emperor City to crowd around back then and now that her innate talent was even better than in her past life, by the time she broke through on that day, just what kind of scenario would it bring around was something that he didn't even dared to imagine!

Only, because he didn't want to scare Old Master Dai, hence he didn't said it out.

Even so, Dai Boqi seemed as though he had suffered an attack, "This... this is a little too ridiculous? This kind of potential, this kind of innate talent, moreover she's only sixteen years old... in future, she will become Sky Emperor City's Sky Chart's peerless top exponent!"

Originally, he thought that he had abducted a disciple with excellent disposition and he would be able to teach her properly, making her concentrate on becoming a Pill Master.

Whoever knew that his disciple's disposition was a little too great and that was very troublesome. A peerless genius who had such powerful potential, her innate talent in the cultivation pathway was overwhelming and focusing solely on Pill Refinement was not her luck, but a kind of burden.

No wonder she did not want to acknowledge him as her Master initially!

Just as Dai Boqi was extremely frustrated, Huang Yueli's advancement had already entered the last stage.

After the insane rampaging fire attributed energy slowly quietened down and solidified into a physical state, later on, bit by bit, it started to be recollected.

This process lasted for around six hours and at this very moment, Li Moying's completely was even paler than before and the sweat on his forehead started profusing even more than before.

Dai Boqi had persuaded him several times, for him to go rest but every single time, he was rejected by Li Moying.

Dai Boqi was also someone who was extremely concerned about his disciple and on seeing Huang Yueli's advancement battle, he knew that such a vast impetus advancement actually had numerous hidden dangers and with Li Moying here to personally taking a look was absolutely much safer.

Hence in the very end, he just stopped persuading but every one hour later, he would feed Li Moying with a medicinal pill.

Finally, Levitation Sword Palace's upper skies' red clouds started to shrink and the scorching flames also resumed back to silence.

Li Moying's pale handsome face revealed a joyous smile, "Li'er had advanced successfully, I can clearly sense that today, she's already a seventh stage realm practitioner!"

Saying that, he stood up from his seat and rushed straight into the rear hall.

Inside the room in the rear hall, Huang Yueli's eyes were shut tightly.

Chapter 2112: Huang Yueli advances (6)

After she had successfully advanced, Huang Yueli didn't relax herself immediately but she made the Profound Energy in her meridians rotate two cycles until she completely absorbed the medicinal effects in the bath water before she slowly opened her eyes.

She stood up in the bathtub and her long legs moved as she took a step out.

Just at this moment, a loud "Pong" was heard.

Li Moying's footsteps were hurried as he directly opened the room door and walked right in, "Li'er, you've finally advanced. How do you feel, do you feeling uncomfortable anywhere, if there is you must... tell..."

His words stopped in the middle as his voice suddenly went silent.

Li Moying's eyes widened as his gaze fell onto Huang Yueli's astonished little face and he uncontrollably glanced downwards...

Even though he quickly readjusted his gaze back onto Huang Yueli's face, the subconscious action of gulping his saliva still betrayed him.

A slight sound was heard and that made the stunned Huang Yueli instantly regained her senses.

She pulled the towel which was hanging on the side of the bathtub as she blocked her chest with it and stared fiercely at Li Moying, "You, you, you.... what are you looking at?"

"I'm looking at.... Li'er, you're really beautiful..." Li Moying couldn't help but praised her right from the bottom of his heart.

"Beautiful your head! I'm bathing, how could you dash in?" Huang Yueli's anger just rose from nowhere!

Hearing that, Li Moying totally had no sense of guilt as his lips curled, "Li'er, are you being shy? It's not as though I've never seen this before? Quickly let this husband take a look, after your advancement, how is your condition?"

Saying that, he walked right over to Huang Yueli and his slender long fingers grabbed hold of her wrist as he pulled her into his embrace.

Huang Yueli bit her lips as she was simply dying of anger from this shameless man!

She subconsciously stretched out her hand as she pushed him with all her might.

Based on Li Moying's strength, Huang Yueli originally had no hope of pushing him away but whoever knew that this time round, Li Moying actually had no ounce of resistance at all as he fell down backwards from the push of hers.

Huang Yueli's eyes winked in shock and initially, she thought that he was putting on a pretense.

"Hey, get up quickly, why are you pretending! Don't think that if you just continue lying on the ground and act pitiful, I will forgive you! Stop pretending!"

Li Moying tried his best to peel open his eyes as he looked at the furiously puffed up little fox with an expression that looked as though he didn't know whether to laugh or cry, "I.... I feel so giddy..."

Huang Yueli was stunned and then she recalled that the amount of time she used to advance had already surpassed ten hours and the sky outside was already pitch dark so Li Moying definitely had forced himself to walk for her to advance successfully. In that case, who knew how long he had forced himself to wait for?

Thinking of this, Huang Yueli then became tensed as he jumped up immediately and prepared to change and get someone in.

"Wait a while, I'll look for Master to come take a look at you..."

Whoever knew that she had just started moving when Li Moying pulled onto her leg as he tugged lightly.

Her body instantly lost balance and she fell right onto Li Moying.

"Hey, you...." Huang Yue struggled to stand up.

Li Moying laughed out softly, "Don't move. I feel very giddy, stay and lie down with me for a while..."

"But, you.... let me get up first!"

Huang Yueli wanted to say more but she realised that Li Moying had actually fell into lethargic sleep in just one breath's time and his hands were still locked tightly around her waist, rendering her immovable.

With no choice, she could only maintain this stiff posture.

Chapter 2113: Huang Yueli advances (7)

At the same time, in Mythical Flame Palace.

Chi Xiao Jiu's hands were placed behind his back as he gazed towards Blue Profound Sect's directly, brows slightly creased.

"Strange, today Blue Profound Sect actually emits such vigorous Profound Energy fluctuations that even This Seat is able to sense it in Mythical Flame Palace, could it be that... Blue Profound Sect is going to give birth to another new ninth stage realm practitioner? Ever since Mu Chengying came out of his closed door seclusion...hmm... isn't Blue Profound Sect recovering a little too fast?!"

He was filled with anxiety when suddenly, a cold cough was heard from behind.

Chi Xiao Jiu's back instantly became stiff as he turned around and knelt down in terror towards the man who was walking over.

"I... I didn't know that Lord Zhan has visited personally, This Subordinate.... is guilty for not being able to receive you in person..."

The person who walked over is a man with a tall frame and he was dressed in a maroon coloured long robe. In the dark night, his long robe fluttered with the wind and the maroon colour seemed as though it was traces of dried blood, making one grew fear in their hearts whereas his face was covered with a hideous phantom mask, concealing his entire face which made one unable to see his genuine looks clearly.

The imposing manner from him was apparently ninth stage realm peak, and it was not yielding to Mu Chengying's peak ability back then.

Chi Xiao Jiu's words had just ended when he heard a "thud" as a slender figure knelt down behind him.

Chi Xiao Jiu took a clear look to discover that Ling Qing Yu had unknowingly been caught by the mysterious man.

The two who knelt down side by side were observing the almighty Lord Zhan in fear and trepidation but with the mask in the way, there was no way to guess what he was thinking at all.

Lord Zhan's voice was heard, "You two pieces of trash! As the main people of the Seven Sacred Lands, bringing several billions of high grade spirit jades but yet still unable to bid for the Purified Branch successfully!"

Ling Qing Yu's body trembled as she hurriedly explained, "Lord Zhan, please be appeased! It isn't that This Subordinate didn't exhaust all means but.... it's because Blue Profound Sect suddenly sent someone to bid for the Purified Branch! Their financial ability was simply too powerful and we simply couldn't outbid them!"

Chi Xiao Jiu also hurriedly explained, "That's right, Lord Zhan! If it was any other powerhouse, if they knew that it was something that Lord Zhan you wanted, they definitely wouldn't dare to come out and fight for it, but that was Blue Profound Sect..."

Lord Zhan gave a cold laugh, "Blue Profound Sect? So what if it was the Blue Profound Sect? Since you can't outbid them, can't you just snatch it back? Blue Profound Sect's ability is no longer the same as before and it's time to teach them a lesson!"

Chi Xiao Jiu and Ling Qing Yu exchanged glances and saw the hesitation and fear in each other's eyes.

Before Lord Zhan could even hear their reply, he replied with an even chillier voice as a powerful oppression aura was released.

"Why? This Lord's command, you seem very disdainful over it?"

"No, no, no, This Subordinate don't dare!" Chi Xiao Jiu shook his head continuously and hurriedly said out the worry in his heart, "Initially we planned to head over to Blue Profound Sect to snatch back the Purified Branch but now that Mu Chengying came out of his closed door, Blue Profound Sect's attitude suddenly became unyielding. You also know about Mu Chengying's ability, we... how do we have his ability to snatch things from his hands?"

"Mu Chengying? He.... is out of 'closed door'? How is that possible?"

Ling Qing Yu also hurriedly explained, "It's true, Lord Zhan! This matter is absolutely true, with no pretense in it at all!"

Chapter 2114: Huang Yueli advances (8)

"The last time we gathered the top exponents among the Six Sacred Lands and headed over to Blue Profound Sect in an attempt to check on Mu Chengying's genuine situation. All those who went over were all top rated top exponents and had all been beaten until they were half dead and we have lost a lot of manpower..."

Lord Zhan spoke out coldly, "Regarding this matter, haven't I already told you these? Although the sword array above Levitation Sword Palace is extremely incredible but that doesn't necessarily mean that Li Moying himself has already come out of closed door and he will still be able to drive those trash out of Levitation Sword Palace! Could it be that you guys have seen Mu Chengying with your own eyes?"

Chi Xiao Jiu wiped the cold perspiration off his forehead and said, "We have indeed not seen Mu Chengying, but after the auction, Blue Profound Sect's disciples seemed as though they've all undergone a change. In the past when they met with other Sacred Lands' disciples, they will all give way but now they actually start clashing with us proactively, especially aiming for us Mythical Flame Palace and Celestial Heavens Gate! In these three days alone, both our families already had dozens of ore arteries being snatched away by Blue Profound Sect..."

Ling Qing Yu also added, "These few days I've been running about but still incurred heavy losses... Blue Profound Sect recently has a huge jump in their ability and seems as though they have nothing to fear. I simply suspect that they're intentionally exacting revenge on us! If it wasn't for the fact that Mu Chengying came out of his closed door, would Blue Profound Sect even dare to be so arrogant? This stance... seemed as though it was no different from sixteen years ago!"

After the auction, the totally embarrassed Chi Xiao Jiu and Ling Qing Yu naturally couldn't swallow this anger.

Without Lord Zhan's instructions, they also wanted to find back their face from Blue Profound Sect.

In the end, they had not expected that before they took any action towards Blue Profound Sect, news of various branches of their own Sect from everywhere had their branch forces and bases being destroyed by Blue Profound Sect.

Moreover, the opponent's actions were swift and resolute, totally Mu Chengying's temperament back then.

All the traces showed that Blue Profound Sect was gradually resuming its past day's potential and overbearingness, and was meting out the punishment towards them!

Although Lord Zhan was powerful, but the psychological shadow which Mu Chengying had left in their hearts that year was even more grave and hence because of this, Chi Xiao Jiu and Ling Qing Yu didn't dared to go probe further in Blue Profound Sect.

When Lord Zhan heard that, he remained silent for a long period of time and even walked round in circles, as though his heart was filled with puzzlement.

"... this is, a little too strange... now it's almost certain that Mu Chengying's disappearance that year, was because he utilised that secret arts and there was no way that he could possible return, how could he suddenly come out of his 'closed door'?"

Chi Xiao Jiu and Ling Qing Yu heard his own muttering and the both of them were totally lost.

"Secret arts? What kind of secret arts did Mu Chengying used?"

But Lord Zhan totally ignored their questions as he walked a few more rounds on his own, "Could it be that there was a mistake in my news? No, it shouldn't be... but unless... in this way, no wonder Blue Profound Sect spent such a heavenly price to purchase the Purified Branch.... Could it really be like this?"

Chi Xiao Jiu and Ling Qing Yu took a look at each other as they asked carefully, "Lord Zhan, your meaning is..."

Lord Zhan's footsteps took a pause, "Regarding this matter, This Lord already knows what's going on. Since the Purified Branch has already fallen into the hands of Blue Profound Sect, then based on you two trash, it's impossible to get it back. I have my own plans for this! Next there is another matter which I need the both of you to handle, and if this time you fail again..."

His tone became exceptionally cold and sinister.

Chapter 2115: Bipolar Black Orchid's whereabouts (1)

Chi Xiao Jiu and Ling Qing Yu both shivered as they hurriedly replied, "This Subordinate doesn't dare and will exhaust all our might! Lord Zhan, please be assured."

Lord Zhan gave a soft harrumph disapprovingly as he continued on in a warning tone, "If I don't expect it wrongly, the next herb which they are trying to obtain is the Bipolar Black Orchid... by then.... later on.... Do you understand?"

His voice became softer and softer whereas Chi Xiao Jiu and Ling Qing Yu were already holding their breaths and congealing their senses to listen on carefully, as their faces had a blank and puzzled expression.

“This.... Lord Zhan, may I know how do you know that Blue Profound Sect will go search for this medicinal herb? What on earth are they trying to do? Is there a problem with Mu Chengying’s body, maybe he got into an accident when he was in closed door?”

“That’s right, Lord Zhan, Mu Chengying and the others... will they really go?”

Lord Zhan sneered as a hoarse laugh was stifled from his throat, like a whinny of an owl, which sounded exceptionally scary.

“This Lord does not like people who asks too many questions. All you need to do is to complete what you should do and that will do, do not have so many mouths and tongues. And one more thing, if you were to fail at this again, then don’t blame me for being merciless! This time round, on account that it was your first mistaken, I will just mete out a slight punishment and that will do!”

The two of them shivered as a piercing cold intent suddenly arose from behind their backs!

At the same time, Lord Zhan’s right hand suddenly moved as a ray of sword glint flew out!

Chi Xiao Jiu and Ling Qing Yu were totally not able to response in time when they felt a tremendous painful sensation from their right hands and following that, they heard a “plip plop” sound.

The two of them lowered their heads and happened to see four bloody fingers dropping onto the ground and it was at this very moment when they sensed the pain coming from their right hands, that their ring and little fingers had already been severed from the knuckle!

The speed of Lord Zhan’s action... was simply too fast!

Based on both their cultivations, they weren’t even able to get a little bit of resistance timing when their fingers had already been severed. This kind of ability, even if he wanted their lives, it was just a simple flick of a finger!

Chi Xiao Jiu and Ling Qing Yu’s face turned pales as they started to shake all over, terrified to the max.

After Lord Zhan made his move, he didn’t even bother to take another look at them as he left immediately.

Only leaving those two shaken souls, kneeling on the ground.

...

Blue Profound Sect.

After Huang Yueli had advanced successfully, she went into lethargic sleep for an entire day and night.

By the time she opened her eyes abruptly, she discovered that she was lying in a warm bedding and Li Moying who originally should be under her, had already gone missing.

“It should be Moying who carried me onto the bed? I wonder where he ran off to?”

Huang Yueli jumped down from the bed and upon lowering her head, she discovered that not only was she wearing a silk sleeping robe, moreover, even her intimate wear were all fully put on and her little face started to flushed a shade of red.

“Could it be that Moying also helped me to put on my clothes? This man... he’s simply too shameless!”

Just as she was ridiculing him, she heard someone knocking hard on the door from the outside.

“Knock knock knock! Knock knock knock!”

“Lil Sister-in-law, are you in the bedroom? Are you awake?” Luo Jiyun’s flustered voice was heard.

Huang Yueli was stunned as she speedily put on an outer robe and speedily tidied her clothes as she headed over to the door.

“What’s the matter? Why are you so anxious? Has something happened?”

Luo Jiyun’s brows were creased tightly, as he looked extremely anxious, “Lil Sister-in-law, that Divine Doctor Liu has just stepped into Levitation Sword Palace!”

“What? Brother Liu is here?” Huang Yueli revealed a joyous expression.

Chapter 2116: Bipolar Black Orchid’s whereabouts (2)

However, Luo Jiyun didn’t seem as excited as she was, “Lil Sister-in-law, Divine Doctor Liu and Eldest Senior Brother has met with each other and the atmosphere between them is very abnormal, this.....”

“What?” Huang Yueli’s eyes opened wide, “Have they started fighting?”

“That hasn’t happened yet, but the things they said are very strange, and it looked as though they will take action immediately upon disagreement, quickly head over and take a look!”

Without a need for Luo Jiyun to say anything more, Huang Yueli also knew that when love rivals met, the scene would definitely not be pretty.

But at least after exposing the truth, Liu Buyan was still willing to show himself automatically to treat Li Moying and that meant that there was still a possibility of reconciliation between these two.

Huang Yueli sped along the corridor and not too long later, she had already rushed towards the front hall.

She couldn’t be bothered to knock the door and she directly pushed the door open, “Moying, Brother Liu, don’t you ever... ughh, what are you doing?”

Huang Yueli was panting hard, deeply worried that they would start fighting but upon a detailed look, she discovered that the both of them were in a tight embrace, as though they were extremely intimate...

Alright, it was a little too intimate and those who don’t know the truth might possibly think that they were each other’s special someone...

Huang Yueli stared at them with widened eyes and mouth agape and she couldn’t even complete her sentence, “This... what are you doing?”

Li Moying emotionless turned his head and swept her a glance as he retracted his hand, "Ph, nothing, just that I saw my past life's brother and was too touched so just hugged him for a little."

Liu Buyan's look, seemed as though he had been through many hardships and his fringe on his forehead was too long which had totally not been trimmed, and his clothes were even dirty with ash and dust.

In the past, he was someone who had the image of a noble son, but now his down and out look was something that Huang Yueli had never seen before.

From this, it was obvious that the days that he had been through recently was extremely unwell.

At this moment, Liu Buyan also retracted his hand as he walked towards the guest seat, "Mn, too touched so we just hugged for a moment, Yueli, don't you worry."

"Yueli? This intimate greeting made Li Moying's brows creased slightly as his fists were tightly clenched but he still controlled himself to not make a single move.

He and Liu Buyan had just met and upon disagreement, they were already about to start fighting.

In the end, whoever knew that they had just started the fight when the door was kicked open by Huang Yueli with a "pong"!

The two of them didn't want Huang Yueli to see them fight so under their anxiousness, their first reaction were to immediately retract their hands and hug each other, which was how this awkward scene came to unfold.

Now that they had finally managed to deceive Huang Yueli, Li Moying naturally couldn't fight with Liu Buyan in front of her.

Liu Buyan seemed to understand this as well hence he intentionally called out Huang Yueli's name.

Huang Yueli looked at them suspiciously multiple times and to be honest, she didn't quite believe them. The last time they met, they hated each other so much that they wished the other party to die, but now they were actually on such good terms that they could hug each other?

In their past lives when their relationship was at its best, they didn't seem to be this mushy either right?

However, the two men had an unfathomable look on their faces, and they didn't said a single word so that made her not know where to start from.

Without a choice, she could only give a slight cough, "Brother Liu, we have been searching for you all this while! Where have you been ever since you left Blue Profound Sect? Why is it that even Master isn't able to find you?"

Liu Buyan was stunned, "You've already acknowledged my Master as your Master?"

Chapter 2117: Bipolar Black Orchid's whereabouts (3)

Huang Yueli nodded and said, "That's right, Master's medical skills and character has been something which I have always admired. To be able to be accepted under his family, it is indeed my honour."

Liu Buyan revealed a shocked expression but after some time, a smile surfaced on his face slowly as he said, "In this case, you're now my Junior Sister? Come, greet Senior Brother?"

"Ughh, this..." Huang Yueli had not expected him to say this as she was stunned for a moment before she spoke out, "I've met Senior Brother."

"Hahaha, good, that's great! Little Junior Sister, in future Senior Brother will take loads of care of you!" Liu Buyan instantly laughed out heartily.

Huang Yueli couldn't help but smiled as she saw him smiling so happily as well.

She could tell that when Liu Buyan met her, his smile was still filled with a bitter feeling but he had already tried his best to let it go.

Perhaps, the remaining scars could only be left to time to heal.

Huang Yueli revealed a slight smile as she nodded, "Yes! Master also said that Senior Brother's pill refining standard had long surpassed his so in future if I want to make a name for myself in the Pill Master's circle, I will still need Senior Brother to bring me along!"

"Don't worry, count on your Senior Brother!"

...

The duo's happy conversation entered Li Moying's eyes, who was sitting right by the side, and no matter how he saw it, it was just too eye piercing.

Initially, he could still forcibly advised himself not to flare up, not to make things difficult for Li'er but the more he saw Huang Yueli's smile becoming happier, moreover he didn't know if Liu Buyan had done this intentionally or unintentionally, calling out "Junior Sister" in an extremely jubilant manner.

Li Moying finally couldn't bear it and the teacup in his hands was smashed onto the coffee table with a crisp sound of the cup shattering.

Huang Yueli was stunned as she subconsciously turned her head back to meet her fiancé's chilly gaze.

Li Moying gave a cold harrumph as he spoke out in a manner which was as light as a feather, "Li'er, one may know a person for a long time without understanding his true nature. Senior Brother or whatever, he might not be a good person! Think about Chi Xiao Jiu, back then he also posed as a human but just within a few short years, his real nature was revealed! You ought to be more careful!"

When Huang Yueli heard that, her lips couldn't help but twitched. From the looks of this, it seemed that her few calls of "Senior Brother" had made this petty man dissatisfied.

Before she could even say anything, Liu Buyan had already snatched the opportunity to speak out first, "Thank you Young Sect Master Li for your concern. Speaking of this, I the Senior Brother is considered as Little Junior Sister's elder and she's still young and naïve and already got engaged at such a young age. We don't even know if the man she picked is reliable or not so I ought to help her keep a tight watch!"

When Huang Yueli heard Liu Buyan's words, she didn't know if she should laugh or cry.

Evidently, Liu Buyan was still feeling unresigned and although he had given up on wooing her, but he would still find chances to poke Li Moying. Anyway, as long as he was able to make his love rival unhappy, it would be considered as a great achievement.

She saw Li Moying's expression growing darker and darker, almost on the verge of explosion.

Huang Yueli hurriedly shot towards Li Moying's side as she turned around and spoke with a broad smile "Senior Brother has thought too much. Haven't you asked me why I am willing to learn pill refining? Actually I had to cultivate and also practice my armament refining skills so there simply wasn't enough time but thinking that my beloved man had fallen so ill and yet I could only watch from the side lines, with my hands bounded and unable to do anything at all, I felt that I am simply too useless! I don't wish for the same situation to happen the next time so I want to protect my beloved man properly!"

Chapter 2118: Bipolar Black Orchid's whereabouts (4)

There were no words of love which was even more touching than this!

Hearing her words, Li Moying's eyes lit up instantly and his peach blossomed eyes flowed with gentleness which was about to seep out.

He pulled Huang Yueli's hand and locked it tightly into his palm, refusing to loosen it.

Li Buyan's sight fell onto their interlocked hands and his gaze turned dark and gloomy as his heart was filled with an indescribable sourness.

After finding out about Huang Yueli's true identity, he was very clear that he absolutely would not possibly have any chances to intervene into the both of them.

Two lifetime's feelings, no matter in life or death, the bond between the two of them was so intense that it even made Li Moying to go against heaven successfully, changing the course of events!

This meant to say that the fate between them was something which could not be broken.

Whereas he Liu Buyan... in this incomparable predestined love, forever, would only be in the position of a supporting role...

No matter how unresigned he was, no matter how much regrets and hatred he had, he had no choice but to accept this ending...

Liu Buyan silently sighed as he shifted his gaze away, not wishing to see how intimate these two were. He gazed out of the window as he spoke out gloomily once again.

"I know that Junior Sister, you are doing it to save Young Sect Master Li. This time I came back is also because of this matter. The last time I already said that I've already found news of the Bipolar Black Orchid, and that was a Pill Master buddy of mine who had once mentioned it, that he came across one stalk while on experience learning. I went over to look for him these few days in order to purchase the Bipolar Black Orchid but whoever knew that coincidentally, this stalk of Black Orchid is no longer in his hands."

When Huang Yueli heard that, she immediately turned anxious, "What? He sold the Bipolar Black Orchid? Or has he already refined it into another medicinal pill?"

Liu Buyan shook his head and said, "Both are not the answer. Some days ago, he had already donated the Bipolar Black Orchid to the Alchemist Guild Headquarters as a prize for this round's Pill Master Rising Star Competition."

"What? Donated? This is a ninth level medicinal herb, why made him so depressed to do so! Ask him to donate another stalk of medicinal herb, I will offer a high price for this Bipolar Black Orchid!" Huang Yueli frowned as she said that.

Liu Buyan sighed and said, "I also said the same thing but that Pill Master refused because to reclaim the item which he had already donated is an extremely embarrassing matter! I can understand his point so I personally went over to the Alchemist Guild Headquarters to negotiate on this."

Huang Yueli heaved a sigh of relief when she heard that, "With you around, looks like there shouldn't be any problem! Have you got the medicinal herb?"

Liu Buyan didn't reply when he heard what she said, but used a strange glare as he stared at Huang Yueli for a long time.

Huang Yueli felt that all her hair were standing from his stare as she couldn't help but frowned, "You... why do you keep staring at me?"

Li Moying simply pulled Huang Yueli behind his back, not allowing other men to stare at his little fiancée.

Liu Buyan then spoke out, "I originally thought that this was a small matter and President Feng was indeed willing to pass me the Bipolar Black Orchid initially. Whoever knew that I didn't pay any attention and had a slip of the tongue, saying that the medicinal herb was for you, he immediately regretted and changed his mind, refusing to give me the Bipolar Black Orchid no matter what! From his looks, it seems as though he simply hated you to the core!"

Huang Yueli was in a daze, "President Feng?"

"That's right. Later on, I went to check it out and realised that while I wasn't in the Alchemist Guild, you actually tossed both President Feng and his daughter all around!"

Chapter 2119: Bipolar Black Orchid's whereabouts (5)

Recalling the time when he mentioned Huang Yueli, those terrified expressions on those Pill Masters, Liu Buyan just felt a series of headaches.

When Huang Yueli heard that, she couldn't help but coughed as she was apparently awkward as she spoke, "This... it indeed seems as though there's such a thing but it wasn't that I had to not get along with them but they had to create trouble for me, so surely I can't be a sitting duck right?"

Liu Buyan lowered his head and the volume of his voice lowered slightly, "I don't have any intention to berate you. I just checked on the situation back then and also found out that you were bullied by them and those were because of my negligence. I thought that on account of my face, no one would dare to treat you badly but I've not imagined that they were actually so bold! If it wasn't for the fact that you were intelligent and powerful enough, I'm afraid that it will be too late for regret....."

Li Moying casted a cold gaze at him, not saying a single word.

But Liu Buyan somehow managed to sense his gaze, as his heart, had an unspeakable helpless feeling.

Once, he had righteously criticised Li Moying, blaming him for not being able to protect Huang Yueli properly but now, when it was his turn, he then realised that the amount of things that he could do, couldn't even be compared to Li Moying...

At least, when Huang Yueli stayed in Levitation Sword Palace, she had never suffered any grievances and everyone treated her with respect, giving her even more freedom than when she was in Blue Profound Sect.

When Huang Yueli saw that, she secretly stared at Li Moying before shifting her gaze towards Liu Buyan.

“Senior Brother, let's not mention those matters which had already passed. If I knew that we might need to beg them one fine day, I wouldn't had been that ruthless back then but now that things have come to such a pass, how are we going to get the Bipolar Black Orchid? Do you have any other ideas?”

Liu Buyan muttered to himself irresolutely for moments before he spoke out slowly, “Since President Feng insists on using the Bipolar Black Orchid to become the prize for the Pill Master Rising Star Competition, then the simplest way would naturally be to win it back from the competition! In this way, no matter if President Feng was willing or not, he couldn't possibly renege on this in front of all the practitioners in Sky Emperor City. But this competition's candidates aren't that easy to find. According to regulations, the Pill Masters who are taking part in the competition must be under twenty years old and under third rank, and these are the basic conditions.”

“Besides that, in order to guarantee to win the Bipolar Black Orchid, this person must show exemplary ability and be able to obtain the champion among the rising stars and also guarantee that when that person has obtained the Bipolar Black Orchid, he must be willing to sell the medicinal herb to us. These two conditions are very hard to achieve.”

Speaking till this point, he stopped and looked at Huang Yueli as a few streaks of brilliance was revealed beneath his eyes.

“Before coming to Blue Profound Sect, I was still very worried on who to look for to take part in this competition but now, I've finally assured...”

Huang Yueli was stunned as she met his anticipative gaze, and subconsciously pointed her finger at herself as her head tilted to one side and asked, “You're saying.... me?”

Liu Buyan nodded, “That's right. You're just under twenty and is a rookie Pill Master. Moreover, if you win the competition, the Bipolar Black Orchid will definitely belong to you. The only problem is you still aren't a registered Pill Master in the Alchemist Guild but with me and Master as your guarantor, you will still be able to register for it.”

Huang Yueli heard his clear and logical analysis as she blinked and hurriedly cried out, “Wa... Wait a moment! Senior Brother, your meaning, surely you don't really want me to go take part in this whatever Rising Star Competition right?”

Chapter 2120: Bipolar Black Orchid's whereabouts (6)

Liu Buyan was tickled pink by her shocked expression as his lips curl up, "Of course you will take part in it, surely you aren't expecting me to take part right?"

"But....." Huang Yueli's tongue was tied, "I still... don't know how to refine pills?"

Speaking of that, although she had officially acknowledged Dai Boqi as her Master, but she spent most of her time cultivating and taking care of Li Moying so other than drawing out two hours before she sleep daily to read some medical books, she totally didn't spent much time on her pill refining skills.

Moreover, she still hadn't officially learnt how to refine pills till this date.

Liu Buyan smiled and said, "I've already explained that this Pill Master Rising Star Competition will officially start in another ten days' time and during this period of time, let's do a concentrated drill so there should be high hopes. But the amount of time is slightly pressing so we will need to catch hold of time tightly. From today onwards, Master and I will bring you through a strict regime of training and within ten days, we must raise you to the standard of a second ranked Pill Master!"

Huang Yueli rarely revealed a stupefied expression, "This... will it really do?"

Liu Buyan replied, "Why? Don't you wish to save your fiancé's life anymore?"

Huang Yueli looked at him, rather speechless, "Of course I want badly to save Moying, that's why I asked you that! If it were usual times, asking me to take part in the Rising Star Competition to test my standard, of course I'd naturally be willing. But this concerns the belonging of the Bipolar Black Orchid! If I'm unable to meet your requested standard within these ten days, wouldn't I be harming Moying?"

Since her past life, Huang Yueli had always been a first rated peerless genius in Soaring Heavens Continent.

This kind of challenge was something that she practically wouldn't evade, but instead she would meet it head on.

But this was her first time, revealing such a lack of confidence.

Because the result of this competition to her, was simply too important! If it wasn't for her mistake, to make Li Moying missing the best chance for treatment, she would probably be unable to forgive herself even if she died!

Huang Yueli bit her lips with a worried look but at this moment, a firm and strong arm suddenly wrapped around her slender waist.

Li Moying used a little bit of strength to bring her into his embrace as her back was plastered against his chest and then lowering her head, he whispered into her ears, "Li'er, I trust you! You don't need to doubt your own ability."

Huang Yueli turned her head over to see the man's perfectly sculpted looks as her voice also turned soft, "But, in this way I won't have much time to take care of you?"

Li Moying laughed softly, "Am I that frail? Aren't you belittling your man a little too much!"

“Really? Who was the man, who secretly cultivated a few days ago and fainted?” Huang Yueli pouted as she glanced askance at him.

“This.... hur hur, hur hur....”

Looking at the two whispering into each other’s ears intimately, the young lady’s petite body being tightly locked in front of the man, totally amiable and compatible with each other.

Liu Buyan pursed his lips, expressing that he could no longer watch them.

This reflection of their love... made his heart stuffed!

“Alright, Little Junior Sister, do you agree or not? There’s not much time remaining and if you’re willing to take part in the competition, we have to grab hold of time tightly!”

Before Huang Yueli had even said anything, Li Moying swept Liu Buyan with a glance as he spoke out first.

“I know that you Divine Doctor Liu basically never does anything that you’re not certain of. You suggested for my Li’er to take part in the competition, it seems that you definitely have a certain percentage of success?”
