

## Weaponsmith 2131

### Chapter 2131: New Deviant Flame (1)

“This... this lass... how is it possible?”

Just as he was doubting his life, suddenly he heard a slightly audible argument coming from the window.

“You’re actually sneaking a peek right here? Are you trying to pilfer the skills? Aren’t you a little too shameless?”

“This is the first time my wife is refining pills, what’s wrong with me taking a look?”

“What your wife? Don’t be overly delighted, you’re still not married yet!”

“We will be sooner or later! You already have no more chance!”

The more Dai Boqi heard, the more speechless he got as his brows quivered for a few seconds and he finally could not endure it any further as he pushed open the room door.

“The both of you! You’re really enough! Can you have a little bit of the Sky Chart top exponent’s bearing? You even did something like spying? Since you want to take a look that badly, just come in directly!”

The two men were first stunned before they revealed an overjoyed expression.

But when they walked to the door, Liu Buyan swept an irreconciled look at the man next to him, “Master, are you really going to let an outsider take a look when you’re teaching your disciple?”

Dai Boqi replied indifferently, “It’s just the refinement of a first levelled pill and that prescription is out there everywhere so is there a need to hide it? Moreover speaking, Young Sect Master Li is not of Fire and Earth attribute so even if he saw it, he wouldn’t be able to learn it right?”

When Li Moying heard that, his brows rose slightly but he didn’t open his mouth to speak out the truth.

In actual fact, his Earth and Fire attributes innate talent wasn’t bad at all and he wasn’t any worse off than Huang Yueli. Perhaps if he just learnt slightly, he might really be able to refine some pills.

But if Dai Boqi were to find out about it, perhaps he might force him to acknowledge him as Master. He didn’t have this kind of free time, so.... it was better not to say anything at all.

Dai Boqi suppressed his voice, “Come in and take a look but you must be quiet, and not disturb Lass Li from refining the pills.”

The two of them followed along the walls and walked into the room and they and just stood still when Liu Buyan suddenly exclaimed in surprise.

Li Moying’s actions were swift as he covered his mouth, stuffing his voice back into his throat.

Liu Buyan shook Li Moying’s hand away vigorously as he lowered his voice and asked in disbelief, “Master, I... am I seeing things? Little Junior Sister actually... actually had reached the ethereal state of enlightenment, she... how is that possible?” Liu Buyan was still in disbelief.

Dai Boqi replied, "This old man is very surprised as well but the truth is right in front of us, so how could it be fake?"

Liu Buyan was still in shock but Li Moying couldn't understand it at all as he butted in, "Divine Doctor Dai, may I ask, this ethereal state of enlightenment... what do you mean by that?"

Dai Boqi took a look at him and explained, "Young Sect Master Li, this is one saying that we Pill Masters use. The process of refining pills is actually to communicate with the medicinal herbs thereby unleashing even more medicinal power in the process. Ethereal state of enlightenment is the condition of highly effective communication with the plants and under this state, Pill Masters are able to draw out ninety percent of the medicinal power. Do you see those halos above the medicinal herbs in the pill furnace? That is the symbol of the medicinal power being drawn out at the largest degree..."

Li Moying followed Dai Boqi's finger's direction and indeed saw a layer of pale green light enveloping the medicinal herbs which Huang Yueli was controlling in the pill furnace.

His lips curled but he was actually not feeling very astonished by this in his heart.

### **Chapter 2132: New Deviant Flame (2)**

No one was clearer on his Li'er's innate talent than him.

Her Fire attributed innate talent, even if it was among the ancient Sacred Phoenix Race's geniuses, was an existence at the top and her Earth attribute wasn't any weaker as well so it wasn't any surprise that she could attain the current standard of pill refining.

But Liu Buyan was completely stunned! For some time, he couldn't say a single word at all.

After Huang Yueli had refined all the medicinal herbs, she then started to copy the method that Dai Boqi had demonstrated earlier, to enter into the stage where the pill was to be solidified.

Her memory was excellent so even though Dai Boqi's demonstration of the hand gestures were complicated, but she totally remembered every single gesture without missing a single move.

Moreover, she had done armament refining as a foundation and many pill refining hand gestures were similar to armament refining so she managed to complete all of it easily.

The young lady's fair and slender fingers kept flying swiftly and very soon, she completed the entire set of hand gestures completely.

Finally, it was at the final stage to check the result!

Huang Yueli took a deep breath as she stretched out her right hand and made a virtual grabbing hand gesture above the pill furnace's lid.

Following that, she revolved her Profound Energy and said out softly, "Open!"

The lid bounced upwards as thick smoke dissipated around the surroundings.

She couldn't wait for the smoke to dissipate as she leaned forward above the pill furnace and peered in.

In the furnace, ten round pills laid quietly there.

She stretched out her hand and took one pill, checking it against sunlight. The pill dissipated a faint medicinal fragrance and the colour and lustre were glossy, with a pale green glistening pattern on it.

“Not bad, not bad at all! I’ve not expected that although this is your first time refining pills, you’ve already refined a first level upper grade pill and moreover there is even a pattern on the pill!”

Dai Boqi had unknowingly walked next to her and also took out another piece of medicinal pill as he took a careful look and he was beaming from ear to ear.

Liu Buyan hurriedly joined them as well and after he took a look at Huang Yueli’s masterpiece, he felt even more stunned, “Little Junior Sister, you.... if I hadn’t seen this with my own eyes, I totally would not believe in such a thing! Do you know that ordinary first ranked Pill Masters are already considered not bad if they managed to refine two trays out of ten, moreover you’re just an entry level Pill Master who had just started pill refining! Many people’s first hundred trays have all turned out into dregs!”

Huang Yueli blinked and hadn’t even said a single word but Dai Boqi was extremely delighted.

“Don’t you even think about whose disciple she is? You have the cheek to compare those trash with my disciple?”

Liu Buyan was stuffed for words as he hurriedly added on, “Yes yes yes, what Master said is right! Little Junior Sister’s pill refining innate talent is simply too incredible, which makes This Senior Brother me also feel so ashamed that I just want to hide! When I think back about the first time when I refined pills, I only managed to refine seven first level middle grade pills whereas you have ten pieces of first level upper grade pills! Ai, new generations really excels the previous and the old generation just dies off on the beach...”

Liu Buyan shook his head as he sighed unequally.

Dai Boqi couldn’t bear to continue hearing these as he slapped him hard, “You lad, stop showing that pitiful look! The very first time you refined pills, you were only seven years old and your Junior Sister is older than you by so much, her cultivation is much higher than yours so it’s only something normal that she refines better than you! But you indeed should work harder, otherwise your Junior Sister won’t need much longer to chase up to you...”

It was until this moment when Huang Yueli realised that so many more people had suddenly appeared in the pill refining room and she was extremely astonished.

“Senior Brother, when did you enter the room? How come I didn’t notice at all?”

### **Chapter 2133: New Deviant Flame (3)**

Before she could finish talking, she sensed another familiar aura coming close to her from behind.

“Li’er, you’re really too incredible...”

The man’s mellow and magnetic voice rang beside her ear as his gentle tone made her heart enter a state of warmth and her lips uncontrollably rose upwards.

She lifted her head and met Li Moying’s godly looks as she blinked slightly, “Moying, you saw me refining pills earlier?”

“How can I miss my Li’er’s first time refining pills?” Saying that he suddenly lowered his head and swiftly pecked Huang Yueli’s face with a kiss, “Dear Wife, work hard and become a powerful Pill Master soon then I don’t need that irritating fellow to treat me!”

Huang Yueli was caught off guard as she was kissed by him and by the time she recovered her senses, her face flushed red and she couldn’t help but used her elbow to dig into his ribs.

“Hey, what are you doing? Master and Senior Brother are all looking!” She said this softly as she glowered at him.

Li Moying however remained calm and composed as his cold gaze swept past Liu Buyan’s face. Although he looked expressionless but the showing off intent in his eyes was simply unconcealable.

Liu Buyan clenched his fists hard and wanted badly to punch that devilishly handsome face of him.

However, he endured and endured, and managed to control himself.

Liu Buyan looked coldly back at him and sneered, “Show off!” Saying that he turned around and left.

“Ughh, Senior Brother...” Huang Yueli wanted to call out to him but felt her waist area tightening.

Li Moying retracted his arm tightly, locking her into his embrace, “Alright, Li’er, it’s time to rest. Stop bother about that unimportant fellow...”

Huang Yueli shook her head helplessly, “Moying, stop acting like this, it’s really very childish!”

Childish? Li Moying’s lips twitched as he thought disapprovingly.

How was this considered as childish? This was called protecting and declaring his property!

Just in this way, under Dai Boqi’s careful tutorage, time went past day after day.

Huang Yueli was extremely devoted and she raised up the ranks swiftly. Moreover in the process of learning pill refining, she also developed many new ideas, feeling that pill refining and armament refining had many mutual parts and there were many areas which could mutually draw on each other’s experience, which was something well worth for her to research on.

But as she didn’t have enough time so she naturally couldn’t think of other stuff now and could only temporarily leave this thinking aside in her heart.

Liu Buyan would appear on time daily at Dai Boqi’s side chamber to see Huang Yueli refine pills.

Initially, he was intending to use the excuse of assisting his Master to teach his Junior Sister, mainly to upset Li Moying.

But as time went by, Huang Yueli’s innate talent was displayed even more in front of him and every single time, her performance was enough to make him the Number One Pill Grandmaster in Soaring Heavens Continent leave with a forehead full of sweat.

Later on, the reason why he came over to Dai Boqi’s had slowly became just to see just how much more miracles could Huang Yueli create?

It took only three days and Huang Yueli had already mastered grasping ten over first level pills' refining methods and moreover, every single kind's success rate were all one hundred percent!

Following this, she started to learn the second level medicinal pill's refining methods.

As there were much more varieties of second level medicinal pills, she spent a total of six days before she roughly managed to learn everything and under Dai Boqi's supervision, she slowly went through one round of everything that she knew.

She had the experience from armament refining and her control of the flame was already familiar so she could easily enter the vacant efficacious state.

So, second level pill prescriptions were not difficult for her at all.

#### **Chapter 2134: New Deviant Flame (4)**

Normally speaking, if she continued at this rate, she could already start to learn third level prescriptions.

Unfortunately, the time for the Pill Master Rising Star Competition was nearing and there was only the last day of preparation time.

Dai Boqi sighed as he shook his head with regrets, "Based on your innate talent, it isn't difficult for you to refine third level medicinal herbs. But as there's not much time left, it's such a pity! If you had agreed to learn from This Master earlier, perhaps you might already had mastered all the third level prescriptions by now. In this way, winning the Rising Star champion is a matter of fact!"

Liu Buyan happened to walk in front the outside and when he heard that, he butted in smilingly, "Master, you're purely having unnecessary worries! Based on Junior Sister's ability, there's no suspense in her coming in first place. How many third rank Pill Masters are there who are under twenty years old? Even if there is, they could barely just refine third level medicinal pills but couldn't possible master all the prescriptions, right?"

Pill refining skills were something which really required talent and if that person lacked just a little in innate talent, then their abilities reflected would result in a huge disparity like Heaven and Earth.

Moreover, those who were able to refine three kinds of third level prescriptions could already be acknowledged as third rank Pill Masters so there wasn't any need to master all. Huang Yueli learnt so much was merely because Dai Boqi had strict requirements.

Dai Boqi heard Liu Buyan's words and nodded, "Forget it, This Master will first teach you the simplest few third level prescriptions first. I assume that the topics in Rising Star Competition shouldn't be too difficult so hurry on and do a little bit of training so that you will be able to get over it by then. As for the rest, in future, This Master will teach you slowly!"

Huang Yueli naturally didn't have any objections and under Dai Boqi's guidance, she begun to refine third level prescriptions.

"Third rank, to a Pill Master, is a dividing line and most Pill Masters with ordinary innate talent might possibly not be able to breakthrough this bottleneck so to a genius like you, you ought to handle it even more carefully..."

Initially Huang Yueil had not placed much emphasis on this and due to a moment of folly, she ruined an entire tray of medicinal herbs.

This was her first time having with an entire tray of wasted pills and that made the spectator Liu Buyan laughed out loudly, "It's not easy, not easy, my genius Little Junior Sister had finally made a mistake! That's great, if you continue to be this genius all the way, I'd lost my favour with Master sooner or later!"

Huang Yueli was speechless, what kind of person was this! Gloating over someone else's misfortune!"

She lifted up her chin, "This is just an accident, I won't fail the next time!"

She focused all her concentration and was even more prudent than usual and all of her other refinements after that were all a total success.

As she had been standing next to the extremely heated pill furnace all the way, Huang Yueli's forehead had long been filled with sweat and the large droplets of sweat started to drip down along her hairline and on her face, it had already formed a thin layer of mist which made her looked like a different kind of messy but wild beauty.

Liu Buyan looked at her fully concentrated side view and his heart was filled with lament.

This kind of genius and exceptional beautiful young lady, how was he not possibly moved by her? Unfortunately..... he had deep feelings.... but they were not fated.....

Just as he was lamenting on this, Huang Yueli had already completed her third refinement of medicinal pills as she lifted up her little head complacently, "How is it? Aren't I awesome or what?"

Liu Buyan nodded his head as he spoke out from the bottom of his heard, "Too awesome!"

Even the usually strict Dai Boqi was also exceptionally satisfied with his little disciple's performance.

"Mn, not bad, you've already reached the standard of a third rank Pill Master and your ability isn't bad at all. But in order to guarantee that you will obtain the champion, This Master still needs you to do one thing!"

### **Chapter 2135: New Deviant Flame (5)**

Huang Yueli asked curiously, "What's that?"

Dai Boqi said, "The success rate for Pill Masters when refining pills, other than the skill they have, another factor is the effect of the flame which they use. This Master and your Senior Brother had already subdued several deviant flames and using those to refine pills, it would have twice the effect while doing half of the work. Now, This Master shall impart one of it to you."

Huang Yueli blinked and cried out joyously, "Master, you're going to give me a deviant flame spark?"

She had not expected Dai Boqi actually treated her so well!

Having already subdued the deviant flame spark, although they were able to divide it and pass it to someone else, but in this way, the deviant flame's power would be reduced and it needs to be nurtured again within the body before it would recover its effect.

If Dai Boqi shared his deviant flame spark to her, then his own pill refining standard would definitely drop.

This was a rare gift.

Dai Boqi fiddled with his beard and slowly nodded his head, "Originally for a newbie like you, it's really not suitable to use the deviant flame to refine pills for now because this is not advantageous to lifting your pill refining method but in order to guarantee your chances to win the competition, This Master can only resort to emergency measures. After the competition of skills ends, you will still need to use ordinary open flame to practice."

Huang Yueli smiled and immediately agreed to it, "This Disciple understands!"

Seeing her smiling so brightly, Dai Boqi coughed out again, "Don't be so happy too early. Although This Master is willing to impart the deviant flame to you, but you're merely in the seventh stage realm so whether you're able to subdue the deviant flame or not, that's still too early to tell! Logically speaking, you will need at least eighth stage realm cultivation before you are able to subdue the deviant flame but as you have exemplary innate talent and with your Senior Brother here to stand guard, the possibility of success is still very huge."

Huang Yueli listened to her Master's teachings and silently nodded her head, but she wasn't feeling worried at all in her heart.

Because even before she had any cultivation, she had already successfully subdued the True Phoenix Fire and facing a god grade genius like her, deviant flames totally don't need her to expend any effort to subdue them and those would automatically submit to her.

She had already subdued the True Phoenix Fire and Amethyst Thunder Flame which were God Realm's extremely rare top rated deviant flames and not only were those very useful while refining armaments, using those to refine pills would probably result in endless prowess as well.

Only thing was she needed to conceal her identity right now so she wasn't willing to expose her own ace so for those excellent deviant flames, she could not use them nor did she intend to use them.

Whereas for the deviant flame which Dai Boqi was going to impart to her, there wasn't any problem with that so even if it caused the jealousy from anyone else, that was something that her Master had imparted to her and would not raise any suspicions from anyone.

Dai Boqi didn't know that Huang Yueli was thinking about all these.

All he was anxious about was that his beloved disciple didn't have enough ability and would suffer a backlash from the deviant flame hence he was extremely cautious.

After he made Huang Yueli sit down cross-legged, he made Liu Buyan stand behind her as he was totally on alert.

After that he released a bundle of white coloured flame.

Huang Yueli's eyes grew wide as she immediately recognised that this was the Vientiane Spiritual Flame which Dai Boqi had used previously!

This was a kind of Wind attributed flame and on the Deviant Flame Chart, it ranked in the top twenties.

The Vientiane Spiritual Flame was equipped with the speed and whether it was in terms of refining pills or armaments, it was useful in shortening the refining duration and was also able to uplift the effect of healing medication.

It could be said that it was a deviant flame which was the most suitable for taking part in competitions.

With it, it was skin to cheating and a large amount of time could be saved.

Dai Boqi was mediating with his eyes closed when he suddenly gave off a dull groan.

### **Chapter 2136: New Deviant Flame (6)**

Following that, a bolt of invisible Profound Energy slid through the sky and the Vientiane Spiritual Flame instantly split into two, becoming two bunches of flames.

These two flames were obviously much smaller than before by one whole round and the brightness of the combustion had dimmed by quite a bit.

Liu Buyan's voice was heard coming from his back, "Junior sister, right now, congeal all the Profound Energy in your palm and slowly turn towards.... eh??"

His stern instructions were only halfway through when his eyes suddenly turned wide and even his mouth was still agape.

He only saw Huang Yueli lifting up her right hand and with a gentle wave, she had already beckoned the two balls of Vientiane Spiritual Flame into her hand.

The strong aura dissipated by the deviant flames fell into her slender palms and were going round in circles as she turned them around, as though it was normal open flames.

If not for the fact that he was able to sense the energy contained within the Vientiane Spiritual Flame, Liu Buyan would probably really think that he had seen it wrongly!

"This... Lass Li, you... this is....." Even Dai Boqi had a dumbstruck look on his face.

Heavens knew that subduing deviant flames was an extremely dangerous matter and if one was not careful, they would suffer the backlash from the deviant flame and that's the so-called inviting trouble onto oneself! Hence that was why he was so cautious.

Whoever knew that in the process of Huang Yueli subduing the deviant flame, she simply did not expend any effort at all.

She simply just waved a few times and the deviant flame just listened to her commands obediently? Not even with a hint of resistance?

Just what situation was this?

Huang Yueli waved her hand once again and kept away the deviant flame spark. Smiling, she said, "Master, I really have to thank you! With the Vientiane Spiritual Flame, I have much more confidence and will definitely perform well in the competition."

“But, you... this.....” Dai Boqi was still unable to speak out an entire speech properly.

He had never seen such a ridiculous matter before! So many ninth stage realm Pill Masters and all of them weren't able to subdue their own deviant flames! Whereas Huang Yueli is only in the seventh stage realm!

It was Liu Buyan who seemed to have understood a little as his gaze towards Huang Yueli was a few hints of appellation and reverence.

“Junior Sister, your, this... your Fire attribute innate talent, has it broken through ninth grade, to... an even higher level?”

Huang Yueli looked at Liu Buyan, then looked at Dai Boqi as she had no intention to hide, “Hmm, well you can put it that way!”

“Ninth grade and above... could it be god grade innate talent? Heavens, so god grade innate talent really exists?” Dai Boqi exclaimed unbelievably.

He had not expected that the disciple whom he tried ways and means to take in, was actually much more powerful by a hundred times more than his expectations!

This time round, he had really picked up a gem!

Huang Yueli smiled and said, “Exactly what level of innate talent it is, I'm not very clear as well but I can sense clearly that my Fire attribute innate talent is much higher than in my past life hence the reason for my cultivation speed to be much faster! In all, only Moying knows about this so I'd like to ask for Master and Senior Brother to keep this secret for me as well.”

“That's of course!” Dai Boqi and Liu Buyan nodded their heads without any hesitation.

Dai Boqi then said, “Originally This old man was still worried that you're still young and your cultivation isn't quite enough yet so you might not be able to take on the impact of the deviant flame! Now seeing you so relaxed, this old man will also impart the other kind of deviant flame Rainbow Core Flame to you as well!”

Huang Yueli got a little worried, “Master, this will also harm your body too right? Let's do it slowly, why rush to do everything together?”

Dai Boqi replied, “No harm, anyway I'd have to impart to you sooner or later.”

Huang Yueli then nodded her head.

### **Chapter 2137: Disciple Dai took in a disciple? (1)**

The process of subduing the Rainbow Core Flame was similar to the Vientiane Spiritual Flame.

Huang Yueli practically didn't spend much effort and subdued the deviant flame as she joyously started to check on it.

Rainbow Core Flame was a Water attribute deviant flame and was useful in uplifting the success rate of the medicinal herb to form into a pill. Which was to say that under the same situation of using same

levelled ingredients, using the Rainbow Core Flame to refine pills would possibly refine a few more pieces of pills out.

But doing that also had its risks and the price of increasing the number of pills also raises the possibility of the failure of the pills.

Hence, Dai Boqi had additionally reminded her on some pointers, "When using the Rainbow Core Flame, it will easily lead to failure hence unless there is no choice, do not use it casually and only for those prescriptions that you are very certain of, then you may use the Rainbow Core Flame to increase the success rate, otherwise it might possibly be self-defeating."

Huang Yueli immediately replied, "Master, don't worry, I won't act recklessly."

She herself was an Armament Master and she understood this the clearest. She had understood this logic from various similar situations which she had encountered many times while refining armaments.

With two deviant flames in her hand, Huang Yueli seemed as though she had taken a tranquilizer as she had much more confidence in the competition tomorrow.

...

On the second day, Sky Emperor City's Pill Master Rising Star Competition which was to be held once in every five years officially kicked off.

This time, Alchemist Guild had set up the competition in front of a large premise in the public square near Soaring Heavens Merchant Guild's entrance.

This was the most bustling commercial area in the entire Sky Emperor City and usually there were plenty of people who passed by so it was bustling with life. Now that this competition was something so important, it attracted even more people to crowd around, and some had even specially come over from the Four Sky Regions.

The competition kicked off at seven in the morning but the surrounding pathways were already crowded since five.

Many Pill Masters who had turned up to take part in the competition were long prepared as they rushed to the competition site to report.

When it was almost a quarter to eight, there was only one person in the name list of the competition, who had not arrived.

Master Shen who was responsible for registration frowned when he saw the name list, "What's going on? The competition is about to start, why hadn't that person arrived yet? Could it be that there's too many people and he's stuck outside, unable to enter?"

"So what even if he can't enter? Such an important competition, of course he should come over earlier! Rushing over now, even if he was late, he only has himself to blame! Just directly disqualify him, that will do!" Another Master Zhang gave a cold harrumph, as he spoke disapprovingly.

The Alchemist Guild was originally facing South and adding on to the importance and prestige of this competition, it was second to none in Soaring Heavens Continent so towards the competitors, they naturally needed to be extremely strict.

Once they were late, they would absolutely be disqualified without giving any face, not even with a chance to debate on this.

Whoever knew that when Master Shen heard his words, he gave a sigh.

“Ah, but, the person who hasn’t arrived isn’t someone ordinary!”

“Oh? Who’s that? Who can be that amazing? Surely it can’t be a pill refining genius which the Seven Sacred Lands nurtured, right? Even if it’s someone from the Seven Sacred Lands, he will still need to abide by the regulations! We, the Alchemist Guild is also a super large powerhouse so should we be afraid of them?” Master Zhang was still being bullish.

Master Shen shook his head, “But this person.... is really not the same! She’s Divine Doctor Dai’s direct disciple!”

“Oh, Divine Doctor Dai’s direct disciple.....” Master Zhang spoke in the middle of his words when he suddenly turned his sensed around as his eyes popped out wide, “Wait, say that again? Which Divine Doctor Dai?”

Master Shen replied, “Is there any other Divine Doctor Dai!”

### **Chapter 2138: Disciple Dai took in a disciple? (2)**

Master Zhang couldn’t help but sucked in a breath of cold air.

In the Alchemist Guild, only Pill Masters of eighth ranked and above were allowed to be addressed as Divine Doctors and among them, the only one who bore the surname Dai, was only... that one person.....

“S...Su....Sure....Surely not right? Divine Doctor Dai?? Since when had he taken in a direct disciple??” Master Zhang didn’t dare to believe in this, “Where did you hear this news from? Could it be some fake rumour from the outside? Every year there’d be someone who claims that they are Divine Doctor Dai’s disciples and in the end, they’re all imposters!”

Master Shen shook his head and said, “Initially I also thought that it was ot true but this time round, it’s really true. Because her enrollment form was delivered by Divine Doctor Liu himself and he even said that the person who was taking part in the competition was his Little Junior Sister!”

“Little Junior Sister! In that case, the disciple who Divine Doctor Dai had newly taken in is a girl? When did he take her in? How old is she? What is her Pill Master rank now?” Master Zhang’s curiosity was exploding as he threw out a mountain of questions.

Master Shen replied, “I’m not totally sure of all the details as well. The enrolment form which Divine Doctor Dai submitted only filled in her name, gender, age...”

While the two of them were talking, suddenly they heard bursts of shrills from the crowd.

“Look there quickly! That’s the... Snow Cloud Sky Ship??”

“It’s really the Snow Cloud Sky Ship! Blue Profound Sect has sent someone over?”

“We don’t know who’s the person who came? Could it be Young Sect Master Li? But this is just a Rising Star Competition, why would he be interested in this?”

“Could it be that, Blue Profound Sect’s Pill Masters are taking part in the competition?”

Feng Zhensheng who was standing in the centre of the competition grounds also revealed a joyous expression on his face.

The Pill Master Rising Star Competition, although was a grand occasion in Soaring Heavens Continent but it was after all a competition for Pill Masters below third rank and to the seven Sacred Lands, it wasn’t a pressing matter at all.

Usually, if they were able to send an Elder as a representative to take a look at the competition, that would already be extremely respectful to the Alchemist Guild.

But now, it was actually the Snow Cloud Sky Ship which was hovering above the competition grounds!

This meant that the person who had graced the competition was definitely someone of importance from Blue Profound Sect!

This was a huge glory that the Alchemist Guild had never encountered and it happened at the competition which he, Feng Zhensheng had personally organised so that simply gave him face!

Not only him, even Feng Xiaoyan who was standing beside him was apparently extremely excited.

Under several Divine Doctors joint consultation targeted towards the injury on her hands, it had basically recovered and her pill refining ability had also recovered to around eighty to ninety percent.

Even though it wasn’t like before, among the batch of participants this time round, she was one of the leading third ranked Pill Masters and there was a huge possibility for her to obtain the top three, and even a chance to obtain the first place.

If this time she was able to win the championship in front of the unsurpassed strong practitioner from Blue Profound Sect, it would be a heavenly glory which was enough for her to make her name!

As for the other Pill Masters, most of them all had similar thinking in their minds as they all raised their heads and looked into the sky.

The Snow Cloud Sky Ship slowly descended.

The crowd below automatically moved to the surroundings, clearing a large vacant space.

The first people to get off the ship’s staircase were Luo Jiyun and Cang Po Jun and that had already attracted many people’s comments.

When Li Moying’s figure appeared on the deck, many young ladies all gave off ear piercing screams.

“It’s Young Sect Master Li, it’s really Young Sect Master Li!”

“He actually came to see the Rising Star Competition personally!”

“We’re too lucky today, to be able to see him appear personally!”

### **Chapter 2139: Disciple Dai took in a disciple? (3)**

However before they had enough excitement, they saw Li Moying turning sideways, revealing the young lady behind him.

Huang Yueli was dressed in a light purple flowing dress and she gracefully walked down from the Snow Cloud Sky Ship.

Her little face was exquisite and fair and had delicate skin with her watery large eyes sparkling. Even if she didn’t apply any cosmetics, she was already a first rated exceptional beauty.

She and Li Moying held hand in hand as their fingers interlocked and they were super intimate and no matter what, they were the perfect compatible couple.

On seeing Huang Yueli, quite a lot of young ladies all became dejected.

“Why... that Lass Bai has followed along again? Is their relationship so good? She actually follows him everywhere?”

“Simply too hateful! Doesn’t she just look a little prettier? What’s so outstanding about that!”

The ordinary female practitioners crowding around were all envious and jealous but there were quite a number of Pill Masters who came forward to take part in the competition and all of them were apparently surprised as they looked at each other in dismay.

“This... could it be that I’ve recognized wrongly? Don’t you all feel that the young girl next to Young Sect Master Li... seems a little familiar?”

“I also feel the same, she looks really similar to Divine Doctor Dai’s fiancée!”

“What similar! They’re obviously the same person! What’s going on exactly?”

“That’s right, isn’t she Divine Doctor Liu’s fiancée? Why is it that she’s holding hands with Blue Profound Sect’s Young Sect Master, walking along together?”

Momentarily, the entire competition grounds bustled as everyone all started to comment on this into each other’s ears.

After Huang Yueli and Li Moying got off the ship, Liu Buyan and Dai Boqi also followed closely out from the ship.

On seeing the both of them, Master Shen and Master Zhang exchanged glances as they hurriedly headed upwards.

“Divine Doctor Dai, Divine Doctor Liu, it’s simply great that the both of you are able to grace the Rising Star Competition personally! Young Sect Master Li as well, we’ve not expected that based on your status, you’d personally head over to view the competition, please have a seat quickly!”

The both of them were stationed in Sky Emperor City and were extremely familiar with various large powerhouses in Sky Emperor City so they naturally would not be able to not recognise Blue Profound

Sect's Young Sect Master and the future Young Sect Mistress, these couple... were Soaring Heavens Continent's famous people among the younger generation in Sky Emperor City.

Liu Buyan cupped his hands in greeting to them, "Both Masters, long time no see! The registration form which I brought over a few days ago, I believe that you should have already received it?"

Master Shen nodded, "Received! Of course we've received it! Among the new Pill Masters who are taking part in the competition, she's the only one who hadn't reported yet! May I know where is she now...."

Liu Buyan smiled and said, "My Master and I have personally sent her to this competition! After all this is the first time she's taking part in such a huge competition and my Master and I are a little unsettled, so we've caused trouble to you."

Master Shen shook his head consecutively, "What are you saying Divine Doctor Liu! We can't welcome both you and Divine Doctor Dai more! But may I ask if this Young Miss Bai, why hadn't she stepped down from the ship yet?"

The two Masters looked around for quite some time but weren't able to see the legendary newly accepted young disciple of Dai Boqi's.

Other than Liu Buyan and Dai Boqi, the others present were all from Blue Profound Sect!

That legendary genius pill master, where had she gone to?

Liu Buyan didn't say a single word but it was Dai Boqi who couldn't help but gave a cold harrumph as he spoke out, "What are you all searching for? Isn't this old man's disciple's right here? Lass Li, don't stand there in a daze, quickly come over and pay your greetings to these two Seniors!"

#### **Chapter 2140: Disciple Dai took in a disciple? (4)**

The two Masters all widened their eyes and looked towards Dai Boqi's surroundings to look for the legendary "little disciple" to come down from the Snow Cloud Sky Ship.

But out of their expectations, that young lady who was standing next to Li Moying suddenly let go of her fiancé's hand and cupped her fists in greeting towards them.

"Paying my respects to both Maters! I'm Bai Ruoli, the person who is here to take part in the competition today!"

Master Zhang subconsciously spoke out, "Young Miss Bai, there's no need for such formalities! Blue Profound Sect..."

"Wait!" He spoke out halfway when he was interrupted by the shocked Master Shen, "You... you... surely not? Young Miss Bai, you're... the new disciple whom Divine Doctor Dai had newly taken in??"

Master Zhang was also stunned, "What are you saying? Could it be.... Impossible right?"

Only till this moment did he react in time as he lifted his head in shock and stared at Huang Yueli's face, unable to utter a single word for a long time.

No one had expected that the mysterious little disciple whom Divine Doctor Dai had taken in, was actually Blue Profound Sect Young Sect Master Li's fiancée!

But wasn't it said that Li Moying's fiancée was a practitioner with rather outstanding innate talent? Wasn't it said that she was a registered Armament Master with the Armament Guild? This... why was it that she was also able to refine pills?

After some time later, Master Zhang muttered, "No wonder... no wonder earlier I was just feeling that Bai Ruoli this name sounded rather familiar... so... how did it turn out like this?"

Master Shen also had a face written with disbelief all over his face as he subconsciously asked, "Young Miss Bai, you.. do you really know how to refine pills?"

When Dai Boqi heard this conversation, he snorted disapprovingly, "This old man's disciple, how could she possibly not know how to refine pills? Do you two treat this old man as blind? Alright, the time's not early anymore so why are you still stunned here for? Quickly go register my disciple? The competition's about to start isn't it?"

"Oh, right, right! Young Miss Bai, please follow me!" Both Masters seemed as though they had just awoken from their dreams as they brought Huang Yueli to the registration counter to fill in the application form.

But their curiosity was still not fulfilled so while Huang Yeuli was filling in the form, they used a strange gaze to keep sizing her up, as astonishment and surprise were unconcealable beneath their eyes.

A few attendants walked up, trying to bring them to the spectator seating.

Just at this moment, a sharp shrill was heard coming from their backs.

"Wait, Divine Doctor! Haven't you noticed it at all? That little slut Bai Ruoli had obviously gotten engaged with you but she's actually holding another man's hand! While you were not noticing, she actually went to seduce Blue Profound Sect's Young Sect Master Li! This kind of wanton woman, you... don't you be cheated by her!"

The few of them paused in their footsteps and turning their heads, they saw Feng Xiaoyan rushing over in a flabbergasted look.

When Li Moying heard that she actually called Huang Yueli "little slut", his expression immediately sunk and the Profound Energy on him abruptly spiked upwards as he was about to take action!

Luckily when Liu Buyan heard Feng Xiaoyan's words, he knew that things were going to turn out badly so he hurriedly stretched out his hand and placed it onto Li Moying shoulder and using slight force, he blocked his Profound Energy.

"Don't... cool down a little! This is President Feng's daughter and if things blow up, Junior Sister will no longer be able to take part in the competition!"

Li Moying originally only used ten percent of his power and as he was blocked by Liu Buyan, it naturally rebounded.

His expression was ill at ease as he gave a cold harrumph, “You still have the cheek to say that? It’s you who created this trouble!”

There was someone who said that Huang Yueli was Liu Buyan’s fiancée!
