

Weaponsmith 2191

Chapter 2191: Who was that exactly (5)

Coordinating with Liu Buyan and the other's cover, there was a chance that they might be able to make the ghost masked man stay!

Liu Buyan didn't say much to them but walked right behind Cang Po Jun and picked up the jade box which the ghost masked man had thrown out earlier.

This jade box was just enveloped in the flame and even exploded and now it had already turned into a ghastly sight which was as black as ash and moreover, it still broke into two halves right in the middle.

Liu Buyan picked up the box and instantly gave a cold sneer, "Indeed a smokescreen, there's nothing inside at all!"

Li Moying had expected this point earlier on hence he wasn't very surprised at all.

"I wonder what background this ghost masked man has, to have such powerful ability! What happened in these few years since I had been reborn? I've practically hadn't heard of this kind of mysterious peerless top exponent in Soaring Heavens Continent.... moreover, what's he going to do with the Bipolar Black Orchid after snatching it?"

Liu Buyan and Cang Po Jun heard that, and frowned as they delved into deep thoughts.

Just at this moment, not too far away, Huang Yueli's shocked screams could be heard.

"You guys come over quickly! These black robed men are actually... actually all dead?"

Li Moying and the others all turned their heads to discover that while they were fighting with the ghost masked man, those black robed men had mostly run off and the remaining few all laid on the ground totally not moving at all.

Whereas Huang Yueli was just squatting down next to one of them as her face revealed a grave expression.

The few of them walked towards her and lowering their heads, they realised that Huang Yueli had already taken a dagger out as she lifted the hoodie which was used to cover their complexions of those black robed men.

However, beneath the hoodie, a pitch black twisted face appeared and it even gave off a disgusting stench.

Not knowing when, this man had already died and moreover, he died a horrendous death as his entire body was rotting and turning black. If a young child were to see this, that child would definitely have nightmares at night.

Huang Yueli's intention was to see what backgrounds these ninth stage realm practitioners had.

But now that the corpses had already rotted to such an extent, there was naturally no way to tell the identity of the dead.

Liu Buyan took a look and frowned, "Junior Sister, quickly get up and don't stay too close! This person had died from the Seven Blossom Powder and once this poisonous powder is stained on you, it will immediately start to rot the poisoned person's entire body, all the way until the internal organs have rotted as well! Moreover the death's corpse qi will also affect the surrounding people to develop some mild signs of being poisoned."

When Huang Yueli heard that, she immediately covered her nose as she stepped back, not forgetting to pull Li Moying along as well.

Liu Buyan walked up and checked the few corpses on the ground one after another and as expected, these few people were all dead and moreover, they had all died because of the Seven Blossom Powder.

Cang Po Jun followed behind him and on seeing this horrendous state, he couldn't help but shook his head, "This is all the doing of that ghost masked man? What I find strange about this is this Seven Blossom Flower needs seven kinds of seven level and above poisonous flower as the raw ingredient and after seven refinements before it could be formed into a rare poison. There aren't more than a total of ten Pill Masters who are able to refine out the Seven Blossom Powder in Soaring Heavens Continent! How did these people get this then?"

Chapter 2192

: Who was that exactly (6)

The two of them were discussing this when they suddenly heard Huang Yueli's flustered screams.

"Moying, Moying, you... what's the matter with you? Don't scare me! Quickly wake up!"

Liu Buyan regained his senses and his expression changed abruptly, "Oh no, I forgot about Moying's condition, earlier he used one hundred percent of his power to fight with the ghost mask man..."

The duo hastily ran next to Huang Yueli.

At this present moment, Li Moying had already lost consciousness and his complexion was as white as paper and he didn't move at all.

As for Huang Yueli, she hugged his body tightly as she kept pressing various acupoints but the results weren't large at all.

Liu Buyan walked over and held Li Moying's pulse as he administered treatment and his expression turned uglier.

"Damn it! The last time I joined hands with Master, we worked so hard for his primordial spirit to stabilise but this time he completely used the Profound Energy within his body and directly shattered his primordial spirit again! Now he is in a perilous situation!"

Huang Yueli cried out anxiously, "Senior Brother, you... you definitely have a way to save him right?"

"I..." Liu Buyan really wanted to tell the truth, to tell her straight that this situation was really very critical and even if it was him, it was possible for him to slip up as well.

To the patient and his family, telling them all the risks involved was very important to a doctor.

After all, Divine Doctors weren't real Gods and they also encountered situations where they didn't have enough ability to do certain things as well.

However, facing Huang Yueli's terrified gaze, Liu Buyan just couldn't say these things at all.

This forever confident, resolute and unwavering young lady was now brimming with tears and even had a terrified expression.

As long as something was related to Li Moying's life and death situation, she would always be like this... every single time, it would always be because of Li Moying....

Liu Buyan clenched his teeth as he suppressed that smirk of sour feeling in his heart, "Don't be anxious, have you fed Young Sect Master Li with the medication already?"

Huang Yueli nodded his head, "I've fed him already but the usually effective medicinal pill seems as though it's totally useless now. I even used the method which Master taught to control the flow of his Profound Energy in his body but the effects aren't that huge as well.... It must be because he had forcibly used his Profound Energy earlier hence this happened...."

Li Buyan nodded his head, "No matter, as long as he took the pill, his life will temporarily not be in any danger. But he cannot move now so we have to trouble Guardian Jun to first return to the Snow Cloud Sky Ship and drive the flying ship over so that we can directly board from here and hurry back to Levitation Sword Palace immediately. I must use the golden needles with Master to stabilise his primordial spirit once again!"

Cang Po Jun could not even reply as he sped off to drive the ship over.

Li Moying was lifted onto the Snow Cloud Sky Ship and even though he was in a state of unconsciousness, his hands kept holding on to Huang Yueli tightly, refusing to let go no matter what.

Even until they entered Levitation Sword Palace and Dai Boqi was about to administer treatment for Li Moying, Huang Yueli was still unable to let go of his hand.

Huang Yueli met with her Master's mocking gaze and was slightly embarrassed and wanted to withdraw her hand even more so.

However the unconscious man seemed as though it was some sort of obsession to grab the most important thing to him, totally refusing to let go.

Dai Boqi was standing by the side as he looked with slight interest for a moment and said, "Enough, stop being restless, treatment is more important and just stay around here! You're also an entry-level Pill Master now so it's just nice that you stay around to see how your Senior Brother and I administer treatment with the golden needles to first learn the basics and in future, This Master will teach you in more detail!"

Chapter 2193: Who was that exactly (7)

Huang Yueli naturally couldn't hope anything more for this as she hurriedly nodded her head in agreement.

She didn't dare to disturb Dai Boqi's team treatment so she could only silently stand at the front of the bed without making a single sound.

Dai Boqi and Liu Buyan quickly got into the state as they took out their golden needles and started their treatment without any distraction at all.

As the golden needles were pricked into Li Moying's body one after another, Li Moying's brows started to crease slightly as the sweat on his forehead also started to sprout.

Huang Yueli grabbed his hand tightly as she was incomparably worried.

Earlier while on the Snow Cloud Sky Ship, she already heard Cang Po Jun mention about the swapping of the Bipolar Black Orchid.

Now, Li Moying's illness started to relapse but the lifesaving medicinal herb was plundered away by someone else and following this, things would become very troublesome!

Although she always believed that Heaven would never close all the doorways, and she also didn't think that this blow would possibly knock them over, but as the matter was related to Li Moying's life, she still found it hard to remain composed.

Huang Yueli carefully wiped the sweat off Li Moying's forehead and looking at that peerlessly handsome countenance turn so palely white, a huge wave of terror suddenly gushed up into her heart...

Time went by slowly and Huang Yueli's vision hadn't left Li Moying's face at all.

Not knowing how long had passed, Liu Buyan and Dai Boqi stopped the actions on their hands as they heaved a long sigh of relief.

Liu Buyan wiped the sweat off his face and turned around to take a look at Huang Yueli, "Little Junior Sister, Little Junior Sister! Why are you in a daze? Are you too tired, do you want to go back and have a rest first?"

Huang Yueli abruptly recollected her senses as she asked anxiously, "Master, Senior Brother, Moying he.... how is he exactly?"

Liu Buyan's face revealed a sliver of smiling intent, "Still alright, after the last consultation for Moying, I've researched for a long time and that's why we're able to stabilise his condition this time round. Moreover, you've helped a great deal by bidding for the Purified Branch at the Soaring Heavens Merchant Guild the last round and the medicinal pill which I fed him earlier had crushed the Purified Branch mixed inside and it's advantageous to controlling the rising tendency of his primordial spirit collapsing."

Huang Yueli heard what he said and heaved a sigh of relief.

Even she didn't notice that her expression might look calm but in actual fact, her fingers kept on shaking.

"That's... that's great! Senior Brother, luckily you're here! And Master, if not for the both of you, I really don't know what I should do!" She expressed her attitude from the depths of her heart.

Liu Buyan's feelings were a little complicated as he couldn't express what feeling he had in his heart.

Huang Yueli's gratitude and admiration were once something that he wanted but now, he finally got it.

But, it was from his status of Senior Brother...

He shook his head silently, reminding himself not to get distracted, "What are you saying, Junior Sister, we're all one family! Since I've already promised to help you treat Young Sect Master Li's Soul Detachment Illness, then I will definitely fulfil my promise so just rest assured..."

Dai Boqi also said, "Isn't that so? There's no one who this one man hadn't been able to cure! What are you being worried over nothing for? But although Young Sect Master Li's illness has stabilised, but the problem is still very big. The Bipolar Black Orchid has been snatched away by that ghost masked man then the Purified Spirit Pill is unable to be refined. Yong Sect Master Li can't possibly not cultivate forever, or not to fight with anyone and the next time this happens again, I'm afraid that his luck might not be this good again!"

Hearing that, Huang Yueli also frowned, "What Master said is correct! The only thing we can do now is to snatch the Bipolar Black Orchid back as soon as possible, but..."

Chapter 2194: Who was that exactly (8)

"But we don't even know the backgrounds of those black robed men and now there's no way to verify so where can we look for them?"

Liu Buyan went into deep thoughts for moment and a puzzled look appeared on his face, "Earlier when I was crossing hands with them, I discovered that although these practitioners intentionally concealed their own tutelage, but from the way they moved and how their Profound Energy flows, it is still evident that these people are mostly from those regulated large powerhouses..."

Practitioners from large powerhouses as compared to those practitioners who had depended on themselves to reach ninth stage realm from young, although the disparity in abilities might not be huge, but their style of battle were a vast difference.

Practitioners from large powerhouses learnt high levelled cultivation methods which were carefully selected and the Profound Energy cultivated were slightly purer and when they took action, they would more or less abide by a certain sequence of movements.

But those practitioners who relied on themselves to grow up, the scene would be totally different.

Among so many of them, the cultivation methods which they learnt were to learn a little from here and a little from there and sometimes it wouldn't even form into a proper system so their battle form would mostly be varied with their own personal style.

The disparity between the two were rather obvious and for practitioners who had an abundant amount of battle experience were able to deduce this.

Huang Yueli nodded her head and said, "That's right, I was observing from the side earlier as well and discovered this pointer so that was why I specially went to check on those dead black robed men's corpses thinking that perhaps I might be able to find leads from their tutorage but alas... that ghost masked man was just too vicious. Totally merciless to treat his own subordinates like that!"

Liu Buyan thought about it and spoke out hesitantly, "There's still one point but I'm not sure if it's my misperception. Somehow I feel that a few black robes man's style made me feel extremely familiar..."

Huang Yueli's brows rose as she guessed, "Could it be.... People from the Six Sacred Lands?"

Liu Buyan nodded his head but after a moment later, he shook his head, "This... might not be impossible but I still don't get it on which Sacred Land would send so many ninth stage realm practitioners to execute this one mission! Furthermore after the mission failed, to kill a majority of the practitioners. Honestly speaking, to which Sacred Lands, who would be able to bear sacrificing so many ninth stage realm practitioners because they are all worth a huge fortune?"

Huang Yueli's expression turned graver when she heard this, "From what you said, the ghost masked man's powerhouse behind him might be even stronger than the Six Sacred Lands! That's strange, if such a powerful powerhouse existed in Soaring Heavens Continent, why have we never heard of it before?"

Liu Buyan said, "That's right, that's exactly the part which I don't get!"

The two of them were in discussion when suddenly, Li Moying, who was lying on the bed suddenly moved his fingers.

Although it was just a minor tremble, almost unnoticeable.

But Huang Yueli's ten fingers were locked with Li Moying's tightly and paying attention to his situation on and off, hence she immediately sensed it.

She immediately sat down next to Li Moying, "Moying, are you feeling better?"

Li Moying's long phoenix eyes opened up a small slit as the brilliant stars in his eyes flashed by quickly.

He shook his head gently and shut his eyes once again, seemingly very tired.

Liu Buyan took his pulse once again and said, "He's now alright, it should be because the damage done to his body is too huge hence he needs a lot of rest to recuperate. Let him have a good sleep and he should be fine after he wakes up."

Chapter 2195: What's the motive (1)

Huang Yueli nodded as she finally let her heart down.

"That's great, many thanks to Master and Senior Brother. About the Bipolar Black Orchid..."

Liu Buyan frowned as he spoke, "We definitely still need to search for the Bipolar Black Orchid and moreover, it'd be best to find it within the next twenty days. I will head over to the Alchemist Guild to understand the situation first, especially Master Zhang's because he was one of the earliest to be attacked by those black robed men so perhaps we might be able to find some leads."

Huang Yueli hummed a reply, "I will also send some men to continue searching for the whereabouts of the Bipolar Black Orchid and hopefully we are able to find the second stalk, otherwise, we don't know when will we be able to find that gang of black robed men's whereabouts. Moying's condition cannot be delayed any further!"

Dai Boqi sighed as he patted Huang Yueli's shoulder and stood up.

“Lass Li, don’t be too worried. Although the Bipolar Black Orchid is rare, but that doesn’t mean that it’s the only stalk under the heavens. This old man had many good Pill Master friends all around the four sky regions and I’ll definitely be able to find one stalk out for you! Alright, This Master shall not disturb Young Sect Master Li’s rest and will make a move first!”

Huang Yueli hurriedly said, “Master, Senior Brother, you’d better hurry back to your rooms to have a rest, you’ve been tired out for the entire day.”

Dai Boqi nodded his head as he turned around to leave the room.

Liu Buyan followed right behind him and as he reached the door, he turned back and took another look at Huang Yueli.

Huang Yueli was already seated back next to the bed and holding a silk handkerchief in her hand, she carefully wiped the sweat off Li Moying and that gentle yet worried expression on her face was totally different from her usual black bellied and intelligent look, which radiated out an innermost beauty which made one tingle...

Liu Buyan looked at her for some time before he finally left the room.

...

Li Moying was in lethargic sleep for three entire days before he finally regained consciousness.

But as compared to the lethargic sleep from before, his body became even weaker than usual.

Moreover, Dai Boqi had warned him strictly that he absolutely should not cultivate and should not fight with anyone else otherwise even a deity would be unable to save him!

Huang Yueli was naturally very anxious and practically never left Li Moying’s side.

In this way, Li Moying didn’t even have a chance to secretly cultivate. As long as he wanted to do anything that defied the doctor’s instructions, Huang Yueli would use her watery big eyes while staring at him with accusation.

Under his pressurising little fiancée’s gaze, would he even have the guts to slog it out with her? Of course he could only listen to her obediently.

But this kind of pig rearing, decaying lifestyle was totally unbearable to an overbearing man.

“Li’er, you need not be so anxious, really! Don’t listen to that quack doctor Liu Buyan’s rubbish. I feel wonderful right now and moreover, cultivation has nothing to do with primordial spirit so there wouldn’t be any effect.....”

“Shut up!”

“...”

Huang Yueli’s eyes stared and the matchless Sovereign instantly turned into a little lamb.

“Alright, alright, alright, I won’t cultivate alright, but sure you don’t expect me to stay within Levitation Sword Palace all day long right? I can’t cultivate so isn’t it a little too boring!”

“There’s me to accompany you but you still feel bored? Is it because we’re already an old couple, therefore you are already tired of me?”

“N... No, of course not! Li’er, I’ve been wronged!”

The Sovereign profusely sweating as he chased after his little fiancée while explaining and apologizing.

The disciples and female attendants in Levitation Sword Palace would see this sort of drama being played out every day and were all laughing sneakily behind their backs.

If it wasn’t for the fact that they witnessed this personally, no one would have ever thought that the once matchless Li Moying, would have been turned into a wife slave!

Chapter 2196: What’s the motive (2)

Seven days went by and Li Moying’s body had recuperated by quite a bit.

But Cang Po Jun, Liu Buyan and the others took on the order to investigate the ghost masked man’s whereabouts but didn’t managed to get any valuable clues at all.

Whereas on Huang Yueli’s side, she made use of the Alchemist Guild and Blue Profound Sect’s connections to search for the Bipolar Black Orchid everywhere.

But not knowing what happened, it seemed as though there was no progress at all.

“Damnit, really met a living ghost! Why would such a thing have happened? Yesterday Divine Doctor Liu had just found out news that the Second Elder of Aquatic Moon Sect had collected a stalk of Bipolar Black Orchid and I personally went over to ask for it but whoever knew that the Second Elder actually said that some black robed men just went over yesterday and paid a high price to purchase the Bipolar Black Orchid!”

Cang Po Hun also strode in with big steps and upon seeing Huang Yueli, he hadn’t even had a sip of tea when he cried out exasperatedly.

Huang Yueli and Li Moying exchanged glances and their expressions weren’t very good at all.

“Why? This time round, the medicinal herb was also purchased by others beforehand?” Liu Buyan questioned.

Cang PoHun nodded and said, “That’s right, our relationship with Aquatic Moon Sect has always been not bad so Second Elder would not lie to me over this.”

Li Moying’s gaze turned deep as his fingers tapped lightly on the table seemingly in deep thought.

“This is already the third time.... This period of time, Divine Doctor Liu and Divine Doctor Dai had spent quite an amount of time to find out that these three top exponents had collected the Bipolar Black Orchids in their homes but every single time we went over, the black robed men would always be one step ahead of us, and took away the medicinal herb.... Looks like the Rising Star Competition isn’t by chance and these groups of people snatched the Bipolar Black Orchid from me, not to cure themselves but purely aimed at us?”

Hearing Li Moying’s analysis, everyone present turned silent.

Everyone were intelligent people and until this very step, they naturally would not be unable to understand the reason for why the other party kept on collecting the Bipolar Black Orchid was for!

But...

Huang Yueli frowned, "But how did they know that we need the Bipolar Black Orchid? Could it be that there's a traitor in Levitation Sword Palace and that person leaked out Moying's illness?"

Li Moying pondered over this for a moment and denied her idea, "What you said could be possible, but... Levitation Sword Palace's guards and female attendants have all been planted by the Slave Seal by me and the other trusted aides have been loyal towards me. Even for the recently joined Levitation Sword Palace's Jiyun and Mo Yi and the others, they are all extremely loyal..."

Speaking of this, Li Moying suddenly stopped as though he thought of something.

But after remaining silent for a moment, he shook his head, "No, it shouldn't be..."

Liu Buyan cut in, "I'm guessing it shouldn't be someone from Levitation Sword Palace who leaked this matter out. The problem might possibly be from the Alchemist Guild. The last time I went to ask Feng Zhensheng for the Bipolar Black Orchid but he didn't give it to me. Although I've enquired about this from him in private, but the Alchemist Guild is filled with people and their tongues waver too much. Feng Zhensheng isn't a tight lipped person and there is a possibility that it might have leaked out from his mouth and someone with motives heard that hence they could have been used...."

Liu Buyan's deduction was reasonable and logical.

Although Huang Yueli somehow felt that things weren't quite right, but she was unable to find a reason to rebuke this hence she could only agree with Liu Buyan's point of view.

"Since this is the case, then why do these people do this for, to waste so much effort just to pit themselves against the Blue Profound Sect?"

"This..."

Everyone all went silent.

Chapter 2197: What's the motive (3)

Liu Buyan guessed, "This... there are many possibilities. According to my guesses, Blue Profound Sect as the Number One Sacred Lands is like a tall tree which attracts the wind whereas behind that group of black robed men's back is apparently an extraordinarily large powerhouse. Perhaps the other party only wanted to step on Blue Profound Sect to elevate their own powerhouses' status."

Huang Yueli shook her head and said, "Surely not right? If this was really the case, why would they bother to hide themselves and intentionally kill someone to conceal their identities? If it was for fame, then all the more they should openly announce their identities."

"This is true as well...."

Everyone thought hard over this but they weren't able to find any dependable conclusion at all.

Speaking of this, Blue Profound Sect had remained as the Number One powerhouse for so many years so it was only naturally to have many enemies, so it could be any reason as to why the other party was picking on them for.

Only thing was most people would only do it through attacking Blue Profound Sect's ordinary disciples or their businesses to exact revenge so those who specially came to snatch the medicinal herbs were very rare.

Just as the lot were in discussion, suddenly there was a knock on the door.

"Who is it? Enter." Li Moying spoke out icily.

Outside the door, a female attendant carried an exquisite jade box and walked in swiftly, as she brought it in front of Li Moying.

"Sovereign, earlier some black robed men came to the entrance of Levitation Sword Palace and left this jade box, with the words "For Young Sect Master Li" on it.

"What? Black robed men??" Cang Po Jun shrieked out, "Still not sending someone to pursue after them?"

Female attendant reported respectfully, "The few guards at the entrance wanted to chase after them but the other party had someone to support them and after killing two guards, they managed to escape."

Li Moying's face was cold as he waved his hand, "I know now, leave the box on the table and you may leave."

After the female attendant left, everyone's gaze landed onto the small little jade box.

This jade box was exactly the same one that contained the Bipolar Black Orchid, which the ghost masked man snatched away some days ago and just from the surface alone, one understood just whose doing was this from.

Cang Po Jun appeared next to Li Moying in a flash, "Sovereign, this jade box is too dubious and there might be danger, it's better for This Subordinate to open it up!"

Li Moying nodded his head and Cang Po Jun's finger poked on it, as he opened it gently.

At this moment, a strange fragrance was diffused in the entire room.

This smell was extremely strong but it wasn't exactly considered as a fragrance, however it made everyone suddenly feel delighted.

Cang Po Jun had a fright as he hurriedly closed the lid, "This... what situation is this?"

However, Liu Buyan had already seen the item inside the box as he walked up excitedly, "This... this box contains the Bipolar Black Orchid!"

Saying that, he opened the lid of the jade box and this time round, everyone was prepared as they could see the item which was placed in the box clearly.

A thumb sized light purple flower petal laid inside.

“This is the Bipolar Black Orchid? Isn’t this a little too small!” Cang Po Jun asked puzzledly.

His question was exactly what most people present were puzzled about and everyone was looking at Liu Buyan.

Liu Buyan said, “Of course this is the Bipolar Black Orchid, moreover the quality is not bad at all.”

“It’s really the Bipolar Black Orchid!” Everyone instantly became excited.

Chapter 2198: What’s the motive (4)

After that, Liu Buyan’s expression on his face didn’t seem as though he was relaxed at all.

“Only thing is, this isn’t just a stalk, and moreover, it’s just one piece of petal from the Bipolar Black Orchid!”

“A piece of petal?” The group looked at each other in dismay.

Huang Yueli was also stunned initially but after she resumed her calm, she thought about it in detail and couldn’t help but frowned.

“A stalk of complete Bipolar Black Orchid, but there’s one hundred and eight petals, this is just one piece! Moreover, it’s such a small piece.....”

Dai Boqi nodded as he said, “What Lass Li said if correct, don’t be so excited just from hearing that this is the Bipolar Black Orchid. In reality, in order to refine the Purified Spirit Polymerize Pill, we need an entire stalk of Bipolar Black Orchid and just this little bit isn’t enough at all. I wonder who was it who sent this Bipolar Black Orchid and why did they send just such a small quantity?”

When Li Moying heard what they said, he went into deep thoughts and said, “I feel that this is a kind of demonstration, and also a kind of probing!”

The crowd were all stunned.

“What do you mean?” Liu Buyan’s brows rose.

Before getting a reply from Li Moying, Huang Yueli had already headed over to that jade box and her long slender finger felt around the bottom of the box, then gave a push by the side.

The bottom part of the jade box slowly nudged open and revealed a secret compartment below.

In the secret compartment laid a letter and on it was written, “To Young Sect Master Li.”

Li Moying picked up that letter expressionlessly and tearing it open, he took a look and following that was a sneer filled with ridicule as he threw the letter onto the table.

Liu Buyan picked up the letter and took a look as he read it out, “If you want to get the Bipolar Black Orchid, will Yong Sect Master Li and Young Miss Bai head over to the Lone Sky Summit in Northern Ice Fields for a meet-up.”

He put down the letter and his brows creased as he gave a puzzled expression, "What does this mean? There's no name signed off but the person who sent this letter, is probably that ghost mask man who we met last time. He made the both of you head over to Northern Ice Fields? What motive does he have?"

Li Moying didn't say a word but placed his sight onto Huang Yueli who was seated next to him.

When Huang Yueli heard the three words "Lone Sky Summit", her body shook and her senses went hazy and after some time, she opened her mouth and spoke out softly, "Northern Ice Fields.... Lone Sky Summit, that's the place where I self-exploded in my past life..."

Hearing that, everyone's eyes all widened, "... WHAT?"

Li Moying held onto Huang Yueli's hand and she lifted her head as she gazed into his eyes. That pair of deep black pupils were sparkling with unspeakable encouragement.

The warmth from his palm made Huang Yueli's terrified heart calm down slightly.

Earlier those distracting thoughts which flashed passed her mind seemed not that heart wrenching anymore.

She used some strength and squeezed Li Moying's hand back and at the same time, settling herself as she spoke, "I was in the Northern Ice Fields in my past life, mainly because there were some remnant pages in an ancient classic which were kept in the Armament Guild Headquarters that had a clue which mentioned that the Sky Phoenix Ring which I discovered in my past life was something that had descended onto Soaring Heavens Continent from God Realm. And in the process of that, it shattered into several pieces and one of the shattered pieces, was within the surroundings of the Lone Sky Summit."

"Back then, in order to restore the Sky Phoenix Ring, I racked my brains for a long time and on hearing about this news, I was madly overjoyed and immediately headed towards the Northern Ice Fields but in the end..."

She didn't finish her sentence but everyone present understood her meaning clearly.

Because it was known to everyone on the happenings which occurred in the Northern Ice Fields later on.

Chapter 2199: What's the motive (5)

Armament Grandmaster Huang Yueli was held in a siege by numerous Sacred Lands and died in the Northern Ice Fields.

But there had always been a rumour circulating that Huang Yueli had gone to the Northern Ice Fields because there was a piece of God Relic that required restoring but rumours were after all rumours and there wasn't any evidence to it.

It was the first time for many of those present who had heard such accurate news, and at the same time, this was also the first time finding out that Huang Yueli had really obtained a God Relic in her past life.

But even so, no one was able to guess that the Sky Phoenix ring was now within Huang Yueli's subconscious and was merged as one with her primordial spirit.

This sort of reality had gone beyond most people's common sense by a great deal and most people always assumed that since Huang Yueli had self-exploded on Lone Sky Summit on that day, then the Profound Armament that she usually carried along with her would probably have been blown up into ashes. Even if a God Relic was much firmer and was not damaged, it might have been picked up by someone else.

Huang Yueli naturally wouldn't mention her biggest secret and till now, Li Moying was the only one who knew that she carried the Sky Phoenix Ring on her.

She had been through countless experiences and she naturally understood the logic of guarding against those who were trying to harm you.

Li Moying didn't say anything much, but the large hand which grabbed her hand squeezed even tighter than before.

Under his silent accompaniment, Huang Yueli recalled her past life and the ripple which surfaced inside her heart also started to calm down.

She smiled as she opened her mouth and said, "Hmm? Why are all of you not talking? What views do you have towards this invitation?"

The crowd saw her smile and all heaved a sigh of relief.

Looking at one another, Liu Buyan was still the first to open his mouth, "In this case, I feel that the other party has come with ill intentions. Your death at Lone Sky Summit in your past life and this time round, someone using the Bipolar Black Orchid to lure you and Moying over to Lone Sky Summit again, could there be such a coincident thing in this world at all?"

Huang Yueli frowned slightly, "I also have the same doubt about this matter but... what we are to say that the other party has some motive, then they would at least need to know my real identity right! But my identity shouldn't have been revealed.... If they don't know my identity, then why is it that they are inviting us to the Northern Ice Fields? Could there really be such a coincidence?"

Li Moying paused for moments and he shook his head with a grave expression, "I think this matter isn't this simple. How could there be so many coincidences under this heavens? There must be something suspicious going on in this!"

Hearing that, Cang Po Jun took in a huff of cold air, "Sovereign, your meaning is... could there really be a traitor in Levitation Sword Palace?"

Li Moying's penetrative gaze swept past everyone present.

Those who felt his gaze brushed past them, no matter if it was a Sky Chart top exponent like Cang Po Jun, or if it was a female attendant standing in the corner, every single one of them didn't dared to meet his gaze and under his oppressive gaze, they were all shaking in fear and trepidation as though they were treading on thin ice.

But only Liu Buyan had an unperturbed expression, sipping his tea as he was as calm as he could be.

Liu Buyan was the most abnormal and he was the one who wanted Li Moying to die the most and he had even fought with Li Moying several times but he was one who didn't need to play out such ploys.

If he really wanted to lay a murderous hand on Li Moying, he would have gotten his way long ago.

Huang Yueli was silently observing everyone's reaction and momentarily, she couldn't find any suspicious suspect as well.

Chapter 2200: What's the motive (6)

After some time, Li Moying retracted his gaze and said, "Seems like the other party's current motive isn't something that we can conjure just out of wild guesses like this. The other party works mysteriously and moreover it seems that he understands Blue Profound Sect very well. His ability is also extraordinary and absolutely is a rare powerful opponent. Now the question is, even though we know that the other party has a problem, but we'd still need to make a trip to the Northern Ice Fields!"

His words had just landed when the Three Guardians immediately knelt onto the ground and called out in unison, "Sovereign, you must not do so!"

Cang Po Jun cried, "Sovereign, you're of utmost importance and the opponent has obviously come with ill intents to make you and Grandmaster Huang head over to the Northern Ice Fields, which we still have no idea what his motive is! If you were to go and meet with any danger, then... then what should we do!"

Cang Po Yu also quipped in, "Although we don't know what the other opponent's motive is, but they probably want to make use of the Bipolar Black Orchid to threaten you, and if you were to go, things would bode ill rather than well!"

Even Liu Buyan's face also revealed a disapproving look, "Li Moying, do you really want to head over to the Northern Ice Fields? Don't tell me you've gone confused from your illness? I'm telling you, This Divine Doctor has saved you so many times and already spent a huge amount of effort on you and if you were to die halfway out there, other people might think that it's This Divine Doctor's medical skills which are not adequate hence causing your death! How aggrieved would I be by then? You can't just spoil my reputation like this!"

The crowd's thoughts were all different but everyone expressed the same meaning, they all didn't want to see Li Moying risk his life.

However, Li Moying's expression was still the same as he shook his head, his tone extremely firm.

"I also know that this time's trip to Northern Ice Fields is extremely dangerous. But the other party has the Bipolar Black Orchid in their hands! Divine Doctor Liu had also said this before, if we can't get the Bipolar Black Orchid, then my illness would not need much longer before it will deteriorate and although we're still able to control this now, it's just on the surface. My illness itself actually didn't get any better. So this Bipolar Black Orchid is something that we must get!"

Hearing that, Liu Buyan stopped voicing out.

Towards Li Moying's illness, he was clearest of all so he naturally understood what Li Moying said was full of truth.

Even though now it looked as though Li Moying's wasn't in any danger but his primordial spirit itself was extremely unstable and if he suffered from a little agitation, it would easily send him to his death.

Moreover, like what Liu Buyan said, there were only four to five stalks of Bipolar Black Orchid in the entire Soaring Heavens Continent right now and it had all been collected by the ghost mask man. It wasn't impossible to not be able to search for a new unpicked Bipolar Black Orchid but who knew how long that would take?

When time dragged on, Li Moying would definitely not be able to hang on!

Liu Buyan's silence already expressed his attitude.

The others saw his reaction and were extremely worried.

Cang Po Jun hesitated for a moment and said, "But even so, Sovereign shouldn't take the risk personally. If anything really happened to you, the entire Blue Profound Sect would be finished! It's better to let us Subordinates head to this invite at Northern Ice Fields on your behalf! This Subordinate will definitely try my best and would give up my life to bring the complete Bipolar Black Orchid back!

A smile was seen on Li Moying's face but he shook his head and said, "Po Jun, you're indeed loyal and This Sovereign doesn't doubt your determination at all."
