

Weaponsmith 2211

Chapter 2211: Return to Northern Ice Fields (3)

She had just got up when she suddenly heard a familiar voice, "Li'er, are you awake, still feeling sleepy? Do you want to take a rest?"

Huang Yueli's gaze shifted to the man dressed in a dark gold coloured long robe who was seated on a chair by the window.

The sun rays shone on his side face which made his chiselled contours appear even more mesmerizing. He used his hand to prop up his head as his peach blossomed eyes contained brilliant lights as it sparkled while he fixed his gaze who had just woke up and was still a little blurry.

Huang Yueli went into a daze as she met Li Moying's sight in an instance and her face immediately turned hot...

It was until she heard Li Moying's deep laughter when she suddenly recollected her senses as she couldn't help but used her hand to cover her face.

Really, why did this man have to be so good looking for no good reason? Simply too tempting till it's a violation!

Li Moying stood up and walked over towards her, "What's the matter? Why are you hiding your face? Are you not feeling well anywhere?"

These words sounded as though he was concerned about her but the man's tone was filled with a teasing laughter which could not be concealed.

Huang Yueli knew that he was doing this intentionally as she couldn't help but raise her head and give him a stare, "No, I was only... too tired last night hence I overslept. On the contrary, how are you feeling? You actually just fell asleep just like that yesterday, giving me a shock! Luckily my Master told me that he had included Soul Soothing Grass into the medicinal pill otherwise I'd be scared to death by you!"

Li Moying's face was filled with innocence, "How would I know? It's obviously you who was anxious for me to swallow the pill ah? After eating it I felt a little tired and just wanted to shut my eyes to rest for a while but in the end I immediately lost consciousness..."

"Then how about now? How do you feel?" Huang Yueli kept looking up and down, left and right at him.

Although from his exterior, Li Moying seemed rather spirited and had regained his usual unsurpassed eminent and outstanding graceful bearing, but Huang Yueli still wasn't very assured.

Li Moying put out his finger as he scraped her nose, "Don't be anxious, Li'er, after I woke up this morning, I felt much better. Earlier when I met Liu Buyan, he also said that in the next few months, I can be like an ordinary person."

"Really? That's great..." Huang Yueli heaved a sigh of relief and following that, she finally recalled the itinerary which she had forgotten today.

“Ah, right! Since you already woke up in the morning, why didn’t you wake me up earlier! Didn’t we agree to gather in front of Levitation Sword Palace and move out together today?” Thinking of this, she almost jumped up.

Li Moying laughed as he pulled her into his embrace, “Anyway now that my illness has already stabilised, these few hours doesn’t really matter. I’ve already informed them that we’ll set off in the afternoon.”

Huang Yueli’s eyes grew wide, “What? This isn’t very good isn’t it? We’ve already agreed.....”

She was saying that when she saw Li Moying’s handsome looking face being magnified in front of her eyes, and at the same time a gentle touch landed on her lips, cutting off her unspoken words.

After Li Moying snuck a kiss, he licked his lips as though he hadn’t got enough of it.

“Yesterday night you haven’t eaten much so now you should be hungry right? I’ve got them to prepare lunch so let’s eat first and then we’ll meet up.”

Saying that, he walked to the clothes rack beside the bed and took up the clothes which had already been prepared as he passed it over to Huang Yueli.

This was a set of mixed weaved ice silk flowing dress and not only did it have a strong defense, it was also extremely beautiful.

Under the sunlight, it reflected various different colours.

Chapter 2212: Return to Northern Ice Fields (4)

Huang Yueli took her clothes and was just preparing to change into it when she realised that Li Moying didn’t have any intention of leaving at all as he stood in front of her, eyes staring straight at her without blinking at all.

Huang Yueli’s lips pouted as she stared at him, “What are you looking at? Quickly get out! This virtuous lady is changing clothes, how can you be sneaking a peek by the side?”

Li Moying’s lips curled in an apparent devilish manner which made his perfectly proportioned features become even more bewitching.

“Firstly, I am looking openly and uprightly, not sneaking a peek. Secondly, you are my woman, not anyone else’s. Thirdly.... Since you are asking me to get out, I will purposely not do so!”

Huang Yueli was so infuriated by that. Ever since the time when the both of them had got together officially, he realised that this man totally did not have the same kind of cool and emotionless look, but on the contrary, he was getting more and more shameless by the day, totally as if he had no skin or face at all!

She wanted to punch someone so she subconsciously struck out a palm strike.

However, at the instance when her fair palm touched Li Moying’s chest, she suddenly recalled that this man wasn’t the same powerful peerless strong exponent in their past lives, but a patient who could not utilise his Profound Energy....

Huang Yueli instantly could not hit down on him as she hastily retracted her Profound Energy but her palm was still pasted on Li Moying's body.

Li Moying was attacked by his little fox but he didn't show any trace of fluster at all, still with a languid look as he stretched out his hand and placed it on top of Huang Yueli's little hand.

"Li'er, this is... you're trying to take advantage of me? Feel free to do so, I'm not as petty as you so however you want to do it, just go ahead. But remember to take responsibility after taking advantage!"

"Take... Ugh! Get out right now!"

Huang Yueli regained her senses as she pushed him out with a flushed face and locked the door to ensure that no one barged in before she hurriedly changed.

After that, she hastily washed up before running out in a hurry.

...

It was until 1pm when everyone gathered back again and boarded the Snow Cloud Sky Ship as they set off officially towards the Northern Ice Fields.

"As everyone knows, due to the dramatic change over ten thousand years ago in God Realm, the link between Soaring Heavens Continent and God Realm had been cut off. Not only the entire Continent's Heaven and Earth's Profound Qi had turned totally thin, moreover it also made the continent's humans suffer from a great impact. Most of them died or suffered heavy casualties and a vast area of land around the Continent's exterior had all turned vile. Only the Continent's centre area's Four Sky Regions and Sky Emperor City allowed ordinary people to live in."

"Besides the areas in the Four Skies Region, the other areas are all restricted zones where men were rarely found."

"The Northern Ice Field is situated in the most northern side of Soaring Heavens Continent and is North Sky Continent's extensive zone. It is not possible for ordinary people to survive there but for practitioners, it is an excellent place to go on experience training because there are innumerable chances there. As long as one has enough ability and luck, you will be able to get it. Of course, if one's ability is not enough, one would also easily be buried there."

Huang Yueli leaned comfortably against a soft cushioned chaise lounge and sitting beside Li Moying the Number One Handsome Male in the Continent, like a man slave, he kept pouring tea and feeding her snacks. That posture was simply like an extravagant indulgent Queen.

Because he couldn't bear for his Li'er to suffer while on this rushed trip, hence Li Moying had recently made a lot of preparations.

On the Snow Cloud Sky Ship, there were practically everything there which was as comfortable as in Levitation Sword Palace.

This time the candidates who went along with them to the Northern Ice Fields included Mo Yi and some shadow guards who were all from the South Sky Region and this was their first time heading towards the Northern Ice Fields.

Chapter 2213: Return to Northern Ice Fields (5)

Since Huang Yueli had nothing to do, hence she explained the situation to them.

Mo Yi's reaction was the fastest as he immediately responded, "This Subordinate understands now. Northern Ice Fields is just like South Sky Region's Dark Moon Forest, both are locations for practitioners to do experience learning?"

Huang Yueli nodded her head and said, "To put it in simple terms, that's exactly so. But there's still something different about Northern Ice Fields than Dark Moon Forest."

"Oh? Grandmaster Huang please advise us." Mo Yi said.

Huang Yueli continued, "It was rumoured that thousands of years ago, among the entire Soaring Heavens Continent's Heaven & Earth Profound Qi, the most condensed region was along the North side hence there were many God Realm's great clans' branches which had built their headquarters along the northern area, which is the current Northern Ice Field's primary inner region. Hence Northern Ice Fields was originally one of the four restricted zones and had the most number early historical remains, as well as the most number of chances among all the regions."

Seeing that Mo Yi and the others tempted to have a go, Huang Yueli added, "But chances and danger co-exists and the Northern Ice Fields are much more dangerous than Dark Moon Forest so don't make any rash decisions. When we arrive at the destination, you must listen to my commands, do you understand?"

The Shadow Guards immediately nodded their heads.

Liu Buyan was drinking tea as he chipped in an unhurried manner, "That's right, the area of Northern Ice Fields is vast and moreover it's extremely mysterious. In the past there were legends that in the Northern Ice Fields, there are descendants of the ancient God clans hidden within. But these few years I've been over to the Northern Ice Fields several times but had never encountered the so called descendants of God Clans so I believe that it's just a rumour. But everyone had better be careful as a precaution."

Li Moying didn't say anything, merely paying attention to Huang Yueli who was by his side, as he accompanied her.

From Sky Emperor City to Northern Ice Fields, the distance was around ten thousand miles, extremely far away.

Even with Snow Cloud Sky Ship as a conveyance, they took nearly a month's time.

In this period, a large number of people on the flying ship were trying their best to cultivate, hoping that they would be able to exhibit their best state when they were engaged in the oncoming battle.

Initially, Huang Yueli was able to cultivate along with everyone with a concentrated frame of mind.

But as the destination got closer and closer, her cultivation time became lesser and lesser and most of the time, she stood alone on the deck, leaning against the railing as she gazed afar.

This night, she appeared out alone on the deck again.

Suddenly she heard familiar footsteps coming from her back and immediately following that, a warm and thick Snow Fox skin cape was draped around her shoulders.

“It’s already so late but yet you came out wearing so little clothes? Aren’t you afraid of catching a cold?”

Li Moying’s voice contained slight hints of anger as his slender fingers stretched towards the front of Huang Yueli as he tied the ribbon on the clock properly before he held both her and the clock into his broad and robust chest.

Huang Yueli raised her head as she looked at him and murmured, “I’m not a weak young lady, I’m a seventh stage realm practitioner! How is it possible that I will catch a cold?”

Li Moying lowered his head and saw the young lady’s palm size little face wrapped in the middle of the Snow Fox’s fur in his arms which appeared even more fair and petite, and the pouting lips were extremely cute and adorable.

His heart jumped as he couldn’t help but lowered his head, planting his lips onto that pink set of lips.

“Mmmph...”

Huang Yueli gave a dull moan but she didn’t struggle, merely shrinking into the man’s embrace obediently, allowing him to kiss as much as he wanted.

Chapter 2214: Return to Northern Ice Fields (6)

After some time, Li Moying then raised his head but he still didn’t let her go.

The two of them remained in a tight embrace.

Li Moying touched Huang Yueli’s face as he spoke out softly, “Be obedient, we will be entering Northern Ice Field’s frozen zone within these two days and it’s getting colder up ahead. You just put on a dress and walk out like this, you’d catch a cold easily and at this juncture, surely you won’t want to fall ill suddenly right?”

Meeting with the man’s concerned gaze, Huang Yueli nodded her head obediently, “Alright, I’ll take note.”

Li Moying didn’t say anything more, only holding the young lady tightly in his arms and the both of them lifted their hearts as they gazed into the skies far away.

Soaring Heavens Continent’s stars were always distributed towards the north side.

As they were already very near the Northern Ice Fields, so when they looked over, the sky was filled with sparkling stars as the milky way seemed to spread across the sky.

Under the illumination of the stars, the area which had been covered by ice and snow reflected a clear and sparkling lustre as though it was fairyland.

Huang Yueli leaned against Li Moying’s chest and after a long time, she spoke out softly, “Moying, do you feel that our trip to Northern Ice Fields this time round would be successful?”

When Li Moying heard that, the arm which he held her waist tightened unobtrusively as he spoke out softly, "Why are you saying this? With me around, everything will be smooth. Have you forgotten? Every time we go on experience learning, no matter what kind of dangers we meet, I am always able to bring you back safely, isn't it?"

Huang Yueli started to recall many incidents in the past when she heard that and a smile was revealed on her lips.

"That's right, back then you were extremely overbearing and you actually don't allow me to group up with other people! Please, I was bringing ten over disciples from Mythical Flame Palace to go on experience learning but you actually abducted the leader away, what do you want the others to do?"

Li Moying pinched her slender waist as he gritted his teeth, "Little heartless one! Haven't I met with a good chance that time or perhaps saw that it was some armament refining material that you liked the most, hence I specially brought you along? Forget it if you don't thank me, you still have the cheek to complain?"

Huang Yueli realised that he was acting all fierce and giggled, "Alright, alright, alright, I admit that you are very incredible! Following you around, every single time I will be the one who will gain the advantages. The only time I didn't go with you, was to the Northern Ice Fields and in the end..."

Huang Yueli turned sullen.

These few days, as the distance to Northern Ice Fields was shortening, in her mind, she could already clearly see the scene which happened in her past life when she self-exploded.

Those memories to her was extremely painful hence she intentionally tried to downplay it, to forget about it.

Having gone through rebirth for almost two years, she thought that she had already digested quite a fair bit but when she got near to the accident place, she uncontrollably recalled this again and again.

Li Moying's body jolted slightly.

The scene of Huang Yueli self-exploding in Lone Sky Summit had been his greatest nightmare for so many years and the minute he thought about it, his heart would be so pained that it hurt all his organs!

He strove and controlled his emotions as he locked Huang Yueli even tightly into his arms, feeling her physical presence and only through this manner could he pacify his terrified heart, and to convince himself that everyone was already over...

"Let's not think about the sad things any longer. It's enough that we are still able to be together now..."

Huang Yueli sensed his feelings as she stretched out her arm and hugged him back tightly.

After some time, she spoke out, "Moying, actually I have always had this feeling that it was destined that I have to return back to Northern Ice Fields once again."

Chapter 2215: Return to Northern Ice Fields (7)

Li Moying jumped as he looked at her in astonishment for a little while and the expression on his face turned slightly grave.

“Li’er, haven’t I said this before? Don’t try to recall the things that had happened in the past... I know that towards that you are still brooding over whatever happened in your past life in Northern Ice Fields but thinking too much does nothing to the situation. Those fellows who took part in the siege to attack you back then, I’ve already killed all off them and now it’s only Ling Qing Yu, Chi Xiao Jiu and a few others and this time after I get the Bipolar Black Orchid and have the Soul Detachment Illness cured, I will go with you to Celestial Light Gate and Mythical Flame Palace to settle the debt with these two wretched people!”

Huang Yueli lifted up her head to see that exquisitely perfect suave face surfacing anxiety and rage.

Her fair finger pressed between Li Moying’s eyebrows as she lightly smoothed out his wrinkled brows.

“Moying, you’re mistaken, I’m not thinking back about the past. I’m already someone who had gone through rebirth so no matter how sad I was back then, it’s all already passed by now. I said I have a special feeling and that’s exactly what the words mean.”

Li Moying’s brows creased as he totally couldn’t comprehend, “What the words mean? What do you mean?”

Huang Yueli blinked and hesitated for moments, seemingly not knowing how to express this clearly.

This... actually I also can’t tell clearly. Only thing is I have recently had this thought of making a trip to the Northern Ice Fields once and I myself don’t know why I have this urge to do so. There seems to be this feeling deep down in my heart, as though it’s been summoned by something. This time the ghost mask man’s invitation could be said to have hit the spot. Especially now that we’re approaching Northern Ice Fields, my heart is becoming more unsettled, as though... something is waiting for me straight ahead...”

Huang Yueli’s gaze shot far ahead, as her dainty exquisite face revealed a puzzled expression.

Under the surrounding snow rays, she seemed to be a lost fairy who had accidentally fallen onto the mortal world.

Li Moying subconsciously grabbed her hand tightly and for that one second, he suddenly felt a wave of intense terror, as though if he loosened his hand, Huang Yueli would fly away from his arms!

“Li’er, you’re mine! Don’t think astray, anyway our trip this time round is to obtain the Bipolar Black Orchid. As long as we get the Bipolar Black Orchid, we’ll return immediately to Sky Emperor City, treat my illness and later hold our wedding so we must remain together forever. As for the rest, you’re not allowed to think so much, do you hear me?”

Huang Yueli could hear the shivering tone in the man’s voice as she was stunned for a moment and couldn’t help but laugh out.

“Moying, aren’t you overly anxious? I’m just casually speaking! I’m guessing that I have this premonition, possibly because I have the Sky Phoenix Ring on me and in my past life, I’ve heard that there is a

fragment of the Sky Phoenix Ring in the Northern Ice Fields, but too bad I didn't managed to find it and something happened to me... perhaps...."

"No way!" Before she could complete her sentence, she was already interrupted by Li Moying.

"Northern Ice Fields is originally an extremely dangerous place and in my past life, I've tried to enter the Northern Ice Fields several times alone and met with danger, sometimes almost unable to leave..." He paused for a moment, seemingly recalling something, "Anyway, this is a mysterious and dangerous place so we must be careful in everything we do. If you want to look for the fragments, you have to wait till I recover and I'll bring you over so this time round, you can't act recklessly!"

Huang Yueli rolled her eyes at him as she spoke out exasperatedly, "Do I need you to tell me that, of course I know! I'm not a child! Moreover speaking, I still have something more important to do!"

Chapter 2216: Return to Northern Ice Fields (8)

She stretched out her finger and drew circles on Li Moying's chest, "After you recover from your illness, we'll first head over to Celestial Light Sect and ask that ungrateful Ling Qing Yu on why she betrayed me! Then go over to Mythical Flame Palace, Chi Xiao Jiu he..."

Saying till this point, her voice abruptly stopped.

Li Moying brushed her long hair with one hand and while playing with it between his fingers as he listened quietly to her talk.

Seeing that she had stopped, he couldn't help but lower his face, "What's the matter with Chi Xiao Jiu?"

Huang Yueli suddenly grabbed his shirt by his chest as she asked agitatedly, "I... I seem to know something! Do you still remember that group of black robed men who snatched away the Bipolar Black Orchid? One of them sounded really familiar and it's the person who crossed hands with Senior Brother, the one who almost got killed! Now that I think of it, that voice sounded really like Chi Xiao Jiu! Moreover, he seemed to be a fire attributed practitioner!"

Li Moying was stunned as he immediately frowned, "Are you for real? Could you have gotten any facts wrong?"

Huang Yueli shook her head as she said, "This... actually I can't be certain as well, only feeling that it sounds really familiar. But although his voice is the same, it's still hard to tell if it's the same person! Right, haven't you crossed hands with Chi Xiao Jiu some days ago during the auction? Do you feel that based on his skills, is he similar to the black robed man?"

Li Moying congealed his senses and he recalled back but was still uncertain.

"This..... Chi Xiao Jiu has apparently not improved in these few years and he's not even high ranking in the Sky Chart. As the presiding owner of one of the Seven Sacred Lands, his ability is simply too weak! As for those black robed men, their abilities totally aren't worth mentioning! That leader, although he's in ninth stage realm peak, but he can't even take a blow from me so towards this ordinary kind of ability, I really don't have much impression..."

"You..." Huang Yueli couldn't help but rolled her eyes!

Her fiancé's ability was overpowering hence his foresight was extraordinarily high as well. In Li Moying's eyes, Chi Xiao Jiu's ability did not have enough qualifications to become his opponent hence Li Moying can't even be bothered to look him straight in the eye.

Usually it was nothing but now, wouldn't it be delaying her matters?

Huang Yeuli could only shake her head, "Alright, anyway Senior Brother and Guardian Jun seemed to have crossed hands with him as well so I'll find some time to verify this with them!"

Li Moying said disapprovingly, "You can try to go ask but I feel that your instincts wouldn't be wrong. Every single time your guesses seem like it doesn't have any basis but in the end you're always able to prove that it matches exactly with the truth. This time shouldn't be an exception as well. I only find it strange that no matter how weak Chi Xiao Jiu is, he is at least a Palace Lord of Mythical Flame Palace, someone helming a large powerhouse among the Seven Sacred Lands! Just based on this fact alone, he actually is willing to be that ghost mask man's lackey?"

Huang Yueli also frowned, "Right, just what background does this ghost mask man have, to even be able to subdue Chi Xiao Jiu under his hands! Those black robed men who took part in snatching away the Bipolar Black Orchid, could they also be Mythical Flame Palace's disciples?"

Li Moying shook his head, "That might not be so. Those people are not all just fire attributed practitioners but from the way they strike and from their abilities, they're mostly Sky Emperor City's large powerhouses' disciples, or perhaps, they might even come from the Six Sacred Lands!"

"What?" Huang Yueli let out an exclamation, "You mean to say that the ghost mask man not only controlled Chi Xiao Jiu, he might also possibly have controlled the other presiding leaders from the other Sacred Lands?"

Chapter 2217: Secluded Sect (1)

Li Moying spoke out slowly, "This isn't considered strange right? That ghost mask man's ability is so strong, you can also tell that if he really has the heart to control various Sacred Lands, it's not as though he doesn't have the ability to do so. Moreover, he's already taken control of Chi Xiao Jiu and Mythical Flame Palace, then to subdue the other few families, it doesn't seem to be a difficult task at all."

Huang Yueli thought about it as her expression sunk while nodding her head.

"What you say is right! In this way, we will be facing extremely harsh challenges on this trip to Northern Ice Fields!"

"Moreover, what's worse of all is that until now, I still don't understand what this ghost mask man's motive is? Even if Blue Profound Sect has a traitor and exposed our identities, but I haven't appeared in Soaring Heavens Continent for the past sixteen years so logically speaking, whatever grudges we have should already have become bygones! The other party keeps chasing after us relentlessly, aiming at us, what exactly... is he thinking of doing?"

Li Moying didn't say a word, only silently pulling the young lady in her arms even tighter.

His deep eyes, under the moonlight sparkled with a bewitching shine, and that looked more and more unfathomable.

The instance Huang Yueli raised her head and met with that pair of eyes, she seemed to be sucked into it, totally unable to move away.

After some time, Li Moying lowered his head as he kissed her on her cheek, "Don't worry, I've already got a plan. This time, even though the enemy is in the dark and we're in the light, that means that we can only take the enemy by ruse, and not by strength..."

Huang Yueli blinked, "Your thinking is exactly the same as mine! I also have a plan, let's discuss this!"

She excitedly grabbed Li Moying's shirt by his chest and this sort of telepathic connection where their minds move at the same pace felt really wonderful! Indeed the man who she had chosen!

However, Li Moying didn't agree according to her wishes as he shook his head instead.

Huang Yueli was still in a state of terror when she suddenly felt her body lightened as she discovered that she had been carried horizontally by her man.

"Hey, what are you doing??" Huang Yueli lost her balance and almost fell hence she could only hold onto Li Moying's shoulder.

Li Moying turned his head around and he snuck a kiss by her ear, "We can discuss the plan with everyone tomorrow, tonight.... I'm to accompany my wife to appreciate the moonlight, don't spoil the mood!"

"Let me down, I'm discussing proper matters with you! I don't want to appreciate the moonlight!" Huang Yueli attempted to reason with this man.

Li Moying turned his head back as his lips curled up, giving off a frivolous smile.

"Alright, since you don't wish to appreciate the moonlight, that's just as well.. then come help This Husband warm up my bed!"

"What? I'm not doing that! Li Moying, you lecher!"

"Cry out louder a little and everyone on the flying ship will wake up, the moreover they will all know that you're helping me warm up my bed today o~" Li Moying gave an evil smile.

Huang Yueli was totally defeated by this man's shamelessness as she had tears but could not cry, while she was carried back into the room by him.

...

Two days later.

The Snow Cloud Sky Ship landed on a plot of snowy land in the Northern Ice Fields, as it gradually descended.

The ship's staircase slowly opened up and other than the disciples who were flying the ship, all the other accompanying members started to descend the boat.

Can Po Hun looked everywhere around the surroundings to find that it was all white everywhere. Anywhere that his sight laid on, it was all covered by the snowy blanket all around.

He took out the map which he had pre-prepared from his realm ring and wanted to compare against it but on one look, he was dazed.

“This... the surroundings are exactly the same so we totally can’t tell where we are! What shall we do? How will we move from here? Where on earth is Lone Sky Summit?”

Huang Yueli however was totally calm and unperturbed.

Chapter 2218: Secluded Sect (2)

She pointed to the front on the right and said, “This direction is exactly straight north and if we walk towards this direction straight up ahead, we will reach Lone One Summit in about five days’ time.”

When she said that, other than Li Moying, all of them looked at her with astonishment.

“Grandmaster Huang, how are you able to tell the direction in such a vile environment?”

Huang Yueli shrugged her shoulders as she replied in an indifferent manner, “I also don’t know, probably a kind of feeling! Don’t worry, I won’t point the wrong direction!”

Cang Po Hun and the others looked at each other in dismay, as they all had an unspeakable feeling in their hearts.

Indeed, people with abnormal innate talents were abnormal everywhere! They were even able to recognise the roads which others couldn’t, was there still any heaven’s law left?

Cang Po Hun replied, “We actually still need five days, that far away! Doesn’t it seem a little too early to get off the boat now? Walking through the Ice Fields is very dangerous, let’s hurry back on the Snow Cloud Sky Ship to continue on our journey, and we should be able to reach in about a day’s time.”

However, Huang Yueli shook her head, “Can’t do. We’ve already entered the frozen zone of the Northern Ice Fields and we could run into snowstorm at any time and any place and not only could it possibly damage the Snow Cloud Sky Ship, more important, those Snow Condors which pulls the ship would possibly be frozen to death in mid-air, and by then we will all drop down and die!”

“That serious?!” Cang Po Hun then realised that his thinking was just too simple.

Huang Yueli nodded her head and said, “That’s right, so from now on, we have to travel by foot. Alright, following this, everyone follow me!”

Saying that, Huang Yueli took the first step and walked right in front of the pack to lead the road.

Li Moying naturally let his little Li’er be his Master and didn’t hesitate as he followed upwards, as though he was afraid of being separated so he held on to her hand tightly, clasping all ten fingers together.

But the others were a little hesitant as they looked at each other mutually before Cang Po Jun asked carefully, “That... Grandmaster Huang, are you sure this route is right? Haven’t you said this earlier, that Lone One Summit is... in that direction?”

Cang Po Jun pointed hesitantly towards the right in the front.

Huang Yueli was walking towards the left side in the front, acting in a way that defeats one’s purpose!

The one saying that was Cang Po Jun, but everyone's thought was exactly the same as his.

At this very moment, it made everyone unable to suspect if Huang Yueli actually didn't know the way but was purely making wild guesses? Otherwise how was it possible for her to lead the way carelessly?

The usually smart and sharp Sovereign totally could not be relied on as he was actually seduced by Grandmaster Huang's beauty, as he simply just ran off with her!

At this goddamn forsaken place, following two Masters who weren't reliable, just thinking about it made one feel that their future was bleak!

Hearing that, Huang Yueli slowed down her footsteps as she turned around, "What are you guys guessing about? Since when have I said that we are heading to Lone One Summit immediately?"

Everyone was stunned momentarily.

"Ah? Not going to Lone One Summit? Then where are we going?"

Huang Yueli smiled and explained, "Northern Ice Fields are filled with dangers and even if it's me, I am not able to guarantee that we will remain safe on our journey so we need to find someone experienced to lead the road."

"Someone experienced?" Cang Po Hun asked curiously, "Who? Who would possibly be more familiar with Northern Ice Fields than you?"

Huang Yueli didn't reply to that question and instead she pulled Li Moying's hand as she walked straight towards the front.

Everyone followed her for around one hour or so and faintly saw a large plot of housing in the front.

Chapter 2219: Secluded Sect (3)

These houses were all made out of huge blocks of ice and one after another block formed pavilions as the buildings were richly ornamented, magnificent with superb craftsmanship.

But when they were still far away, all the scenery in the snowy land bore the same colour, there was practically no way to notice that just ten over miles away, there were actually so many houses.

Everyone was staring at the sight in front of their eyes and were all stunned.

"Grandmaster Huang, this..... what is this?" Cang Po Jun cried out in shock.

Huang Yueli cast him a gaze dimly, "Houses? Don't you even know this?"

This tone was filled with extreme despise.

Cang Po Hun almost threw up blood after being said in such a way by Huang Yueli, making him appear like an idiot! But heavens knew that he didn't mean this at all!

Cang Po Hun replied, "Grandmaster Huang, earlier This Subordinate shouldn't have doubted your judgment, This Subordinate is wrong so please give me. Will you please tell me where this place is? They all say that the mirage that appears in the desert are in fact not existent so these houses here, surely it can't be an illusion as well right?"

Huang Yueli took a look at him as she shook her head, "You're thinking a little too much isn't it? This isn't an illusion but a real large Sect! See that ice sculpture over there?"

Everyone's eyes followed the direction where she pointed to.

They only saw in the forefront of those buildings where the ice sculptors were, there was a huge block of transparent sculptor and it was entirely constructed out of solid ice blocks, forming the image of a huge serpent.

This block of huge serpent was a total of thirty meters tall and if this was built in Sky Emperor City, it would be a magnificent structure which dazzled everyone's eyes.

Whereas in the vast expanse of white mist in Northern Ice Fields, it looked especially spectacular, which made one stunned beyond words.

The crowd were looking at this huge serpent sculptor and had not recollected their senses when suddenly, on the ice surface, a flurry of hurried footsteps could be heard.

Following that, the sound of swords unsheathed and spears drawn could be heard as an adult man's deep voice was heard.

"Who is there? How bold, how dare you barge into Ice Serpent Valley??"

The few of them turned back and on first sight, they saw a team of guards formed by ten over practitioners charging out from the inside of the building.

This group of practitioners were all around twenty to thirty years old and were all young and well built. Their cultivations were all seventh stage realm and above and the Profound Armaments in their hands were well manufactured and although the Profound Armour worn on their bodies looked very thin, but under such cold weather, these practitioners were all cool and collected as though they can't feel the bitter coldness around the snowy lands.

Cang Po Jun took a step forward, originally wanting to head up to negotiate.

However, Huang Yueli stretched out an arm to stop him, then taking a few steps forward, she went up to the guards and cupped her fist in her hand in greeting.

"Brothers, I'm sorry to have come abruptly and disturbed you. My fiancé and I have come from Sky Emperor City and we would like to ask to meet Valley Master Meng."

When the leader of the guards heard that, he was apparently stunned for a moment, "How do you know that our Valley Master's surname is Meng?"

Huang Yueli smiled slightly as she replied, "The Elders in my family and Valley Master Meng are old friends and I've come on my Elders orders to pay a visit, so I'm hoping for your help to convey the message."

The guards used their eyes as they mutually communicated for a while, apparently not believing them as they kept sizing this group of people up.

“Is Valley Master Meng someone whom you can meet just because you wish to? What proof do you have, to verify that you are Valley Master Meng’s old friend?”

Huang Yueli thought for a moment and drew out an old zither from her interspatial ring.

Chapter 2220: Secluded Sect (4)

“Everyone, this zither is something which Valley Master Meng had gave to a friend twenty years ago and if you hand this over to her, she will meet with us.” She explained as she gave a smile.

This zither was one of the top ten ancient zithers Disheartened Zither, twenty years ago, she first discovered it inside the Ice Serpent Valley and met Valley Master Meng when she entered the valley.

Huang Yueli’s eye had caught sight of the Disheartened Zither which Valley Master Meng had collected hence she suggested to help set up the defensive array outside the valley in exchange for this zither.

When she returned back to Sky Emperor City, she conveniently left the Disheartened Zither in Levitation Sword Palace.

This time round coming back to the Northern Ice Fields, she specially got it out from the storeroom and brought it along with her, in a possible period of need.

The guards took another look at her.

Perhaps it was because Huang Yueli was very young and she looked both nice and harmless, hence they still nodded their heads eventually as they received the zither and walked back into the valley.

Huang Yueli and the others waited outside for a long period of time but still didn’t see the guards returning.

This was a drafty place as it was where the air intake was and the north wind was biting cold, while snow kept on falling from the sky.

About two hours went by and the few of them felt too cold hence they all stomped their feet as they walked about, thinking to exercise so that they were able to warm themselves off from the cold.

Cang Po Hun couldn’t help but grumbled, “What on earth is going on? They just left us to chill here like this? Those few guards are simply making a fool out of us! From what I see, instead of waiting here sillily, why not just go in directly to find that whoever Valley Master Meng or something?”

Huang Yueli still had a composed look on her as she totally appeared not flustered at all.

“Guardian Hun, don’t you belittle this Ice Serpent Valley. Although the valley that we’re standing at now does not have walls, but the surroundings are filled with formless and traceless arrays and mechanisms. If you were to barge in abruptly, even for a Sky Chart top exponent like you, you’d probably suffer from a huge impact as well!”

Cang Po Hun went into a daze as he instantly cried out in surprise, “You’re saying there are arrays and mechanisms around the surroundings here? There’s such an incredible array mechanism! But I totally can’t tell at all! The person who set up these mechanisms must be an extremely powerful Armament Master right?”

Huang Yueli smiled as she nodded her head, as she put on an expression as though this child is teachable, "That's right, indeed very incredible! I'm the one who set all of these up twenty years ago!"

"Ughh, ah?" Cang Po Hun was stunned and immediately reacted in time.

Right, in the entire Soaring Heavens Continent, the most outstanding armament master was Huang Yueli and moreover, she had apparently headed over to Northern Ice Fields many times, so to help this Ice Serpent Valley's people set up the mechanisms was something very normal.

"But Grandmaster Huang, since you have such a relationship with the Valley Master here and you've already brought out the keepsake token, why are those guards still so guarded against us. That gaze is simply no different from guarding against thieves!"

Thinking of the gazes which the guards casted upon them before they left, Cang Po Hun just felt his fury arise out of nowhere.

As Blue Profound Sect's Guardian, no matter if it was in Sky Emperor City or Four Skies Region, every single place he went to, he was always conferred as the most distinguished VIP so since when had he ever met with such cold treatment?

Huang Yueli smiled and said, "Ice Serpent Valley is one of the secluded places in the Northern Ice Fields and very few outsiders would come here. You probably hadn't noticed that around the surroundings of this Ice Serpent Valley, there are actually a few huge invisible arrays and I'm the one who brought you guys to pass through those arrays before reaching the valley entrance. To those guards, we are outsiders who have appeared out of nowhere, so would that be extremely suspicious?"
