

Weaponsmith 2251

Chapter 2251: Jumped into the pit that she dug herself (8)

“Young Miss Bai, you’re so young yet your armament refining standard is already so high, your future is limitless!”

Rounds of praises kept on coming as the crowd couldn’t wait to push Huang Yueli into the position of Soaring Heavens Continent’s Number One Genius!

At this very moment, the crowd were filled with gratitude as they simply felt that she was an angel who was sent down from Heavens to help Ice Serpent Valley.

Everyone revolved around Huang Yueli as they had long thrown Meng Wan’er, whose meridians had shattered and were full of broken bones, behind their minds.

Huang Yueli waved her hand as she put on a humble look, “Overpraised, you’ve all overpraised me! The most incredible thing is the blueprint which Palace Lord Huang had left behind, I merely just followed according to it!”

“Although you can put it in that way, Young Miss Bai your armament refining standard has to be high enough before you can restore it perfectly!”

“That’s right, that’s right. Palace Lord Huang indeed has powerful ability but Young Miss Bai’s innate talent is so outstanding so surpassing Palace Lord Huang is only a matter of sooner or later!”

“Young Miss Bai is indeed too humble. Your armament refining standard is so high and yet you’re such a humble Armament Master, this is really something that cannot be found!”

The crowd was filled with praises towards her character when they heard her humble words.

Li Moying and the others didn’t squeeze into the crowd but stood not too far away which was enough to allow him to hear their conversation clearly.

Cang Po Jun and the others were all dumbstruck as they totally had not imagined that Huang Yueli was actually so incredible. She actually only said a few mere words and had already managed to dupe Ice Serpent Valley’s people till they didn’t know which direction was north.

Liu Buyan couldn’t help but lowered his head as he chuckled softly, “Junior Sister really is.... saying Palace Lord Huang’s blueprint is incredible, isn’t she self-praising? In the end, she was still said to be humble and prudent...”

Li Moying’s eyes also reflected a smile, his Li’er was really getting more and more mischievous...

Just at this moment, everyone heard a muffled moan amid the crowd.

“Ah, Junior Sister Wan’er! You’re awake!”

Haering Meng Wan’er’s painful moaning, the crowd seemed as though they had awoken from the dream, as they finally recalled that the heavily injured Meng Wan’er was still lying in the cold snowy ground, with her life and death still unknown!

The crowd hurried over to check on her condition.

Meng Wan'er expended all her energy to open her eyes, only to feel a bone piercing pain shooting all over her entire body as her four limbs seemed to have been frozen, rendering her totally immovable with only a pair of eyeballs which were still able to roam around.

She stared at Huang Yueli tenaciously as she gritted her teeth and used all the energy from her body to hiss out the few words from the slits of her teeth, "Bai.... Bai.... Ruo.... Li... you... you.... cough cough cough..."

A burst of bloody breath shot up from her chest as Meng Wan'er couldn't even finish one sentence and coughed vigorously as the corners of her lips seeped out blood.

Huang Yueli squatted down on the ground with a guilty look, "Young Miss Meng, you.... are you alright? I'm sorry, it's all my fault. If I'd known earlier, I shouldn't have made this decision to add in the new function into the defensive mechanism! I thought it would help Ice Serpent Valley, but I've not thought, ai..."

"Testing mechanism is an extremely dangerous matter and if there's any negligence, it could easily lead to an injury! If I'd known that you're so careless, I shouldn't have agreed for you to do the testing! Sigh, it's all my fault!"

Huang Yueli lowered her head in "guilt" as she was saying that, putting on an extremely remorseful look which blamed herself.

In this way, the others totally couldn't bear to see this any longer as they all started to stand out to persuade her.

"Young Miss Bai, don't blame yourself, how could this be your fault?"

"That's right, you helped Ice Serpent Valley to remodel the mechanism and is our Ice Serpent Valley's saviour! What wrong could you have?"

Chapter 2252: No choice but to lower their heads (1)

"If you must blame someone, then you can only blame Junior Sister Wan'er for her carelessness!"

Meng Wan'er struggled to stay awake, originally hoping to see Ice Serpent Valley's disciples exacting revenge on Huang Yueli for injuring her seriously, making that wretched lass regret for her wrongdoings.

In the end, whoever knew that the moment she opened her eyes, what she saw was the entire group of disciples holding Huang Yueli in high regards, almost lifting her to the sky!

There was even no one who helped Meng Wan'er speak out, thinking that she deserved her injury!

Meng Wan'er was so angry that she almost fainted once again as the blood was swirling around her chest area and she threw up several mouthfuls of blood again.

Luckily, Meng Hongye had been staying beside her and kept on injecting Profound Energy into her body, helping her to stabilise her blood flow while restoring her meridians.

After a moment later, Meng Wan'er slightly recovered a bit of strength.

She couldn't care about the others and started screaming at Huang Yueli, "You... it's you this slut, who caused me to turn out so miserably! It's all your fault, if it wasn't for you, how would I possibly... possibly....."

Right in the middle of her berating, she couldn't catch her breath again and started coughing repeatedly.

Huang Yueli put on a concerned face as she walked over and spoke out in self-blame, "Young Miss Meng, this.... Really sorry about it. I really didn't expect that your accuracy to be so bad when you struck out... if I'd known earlier, I would absolutely not dare to let you do the testing for the mechanism....."

Meng Wan'er had finally managed to stop coughing and on hearing these words, she started coughing once again.

On the surface, Huang Yueli seemed to be apologizing to her but what would the other people think when they heard that? They definitely thought that her ability was just too lousy! Against a totally non-living giant mechanism, but yet still miss the target!

Meng Wan'er clenched her teeth as she said, "You... you still have the cheek to say that! You've obviously done that on purpose! Why is it that I attacked the mechanism so many times earlier but nothing happened yet at the very last strike, I was rebounded by it? You've obviously done something fishy in the dark!"

Huang Yueli showed a frightened look and explained in an aggrieved manner, "This... I can explain this. This mechanism is just this big so not all the positions would result in rebound and harm, only if someone attacked that small piece of position in the centre would result in the rebound. But when one attacked the other positions, those Profound Energy would be stored within the mechanism and if anyone attacked the centre position, then all the stored Profound Energy within the mechanism would all be unleashed, causing a serious impact towards that attacker..."

Hearing that, those present finally understood why this happened.

Earlier, everyone was still curious on the reason why Meng Wan'er was only rebounded and injured during the last attack whereas she was perfectly alright on previous attempts. Could it be that there was a frequency for the rebound and moreover the frequency was extremely low?

Now, hearing Huang Yueli's explanation, everyone finally understood it clearly.

So whether the mechanism would rebound and injury or not, mainly it would depend on the position of the attack and had nothing to do with the frequency.

Meng Wan'er almost couldn't breathe, "You... you.... why didn't you say so earlier?? Or you intentionally didn't mention this??"

Meng Wan'er felt that she was like an idiot as that last strike was exactly aiming at the centre position.

She was simply sending herself to the doorstep for a beating!

Moreover, she even used up all her Profound Energy for that one move!

From the impact of that rebound, just the thought alone made one shudder.

She hadn't been flung to her death alive earlier, she was really considered lucky!

Chapter 2253: No choice but to lower their heads (2)

Hearing Meng Wan'er's hoarse allegations, Huang Yueli's expression became even more ashamed.

She seemed as though she was shocked as she explained in a small voice, "This... Young Miss Meng, you can blame me for this because I indeed didn't explain clearly. Back then, ughh, I wanted to tell you about this but your actions were simply too fast and I didn't even have enough time to talk about it, only able to remind you not to attack the centre position... sigh, if only I had mentioned this clearly back then!"

Huang Yueli had an expression of extreme self-blame on her face as she kept shaking her head in frustration.

She had a petite and slim stature, coupled with her pure and graceful face, she looked like a beautiful yet simple and nice young lady.

In addition to the guilt-stricken look that she intentionally made out, it made her appear even more pitiful, as it garnered sympathy from the masses.

When the surrounding people saw her look, their sympathetic hearts immediately flourished as they all couldn't bear to excoriate her.

Moreover, everyone tried to recall and felt that Huang Yueli really shouldn't be blamed for this matter.

"Young Miss Meng, how could you blame Young Miss Bai, it's obviously your own fault for not being careful enough!"

"That's right, Junior Sister Wan'er, earlier I've heard it all. Young Miss Bai had already reminded you to try your best to attack the surrounding's boundary's positions and not to attack the centre position! Your aim is too lousy and actually mis-aimed, this... could you even blame Young Miss Bai for this?"

"Right, right, right, I heard that too! Earlier Young Miss Bai had already tried her best to remind Young Miss Meng, but Young Miss Meng was anxious to strike hence she seemed as though she didn't listen to her words at all!"

"No wonder, Junior Sister Wan'er is overly confident, hence resulting in carelessness!"

The crowd were all adding in a piece of their memories as they managed to re-enacted the scene to around seventy to eighty percent of the original situation.

Moreover, every single one of them were standing on Huang Yueli's side, saying that the fault was all on Meng Wan'er, just short of saying that she deserved being heavily injured!

Meng Wan'er totally did not expect this to be the outcome!

Usually as Ice Serpent Valley's Number One Beauty, she was also the Number One genius hence she had been held in high regard and protected by all the disciples and had never once met with such a matter like this, that no one stood by her side at all!

Obviously... she had obviously not told any lies, it was that little slut surnamed Bai who intentionally harmed her!

Meng Wan'er was extremely clear that Huang Yueli had intentionally said it in this way, making use of her impetuous attitude.

Back then, Meng Wan'er was only thinking about finding Huang Yueli's weak point hence when she heard her telling her not to attack the centre position, she self-assumed that the mechanism's weakest point was that position so she was being led to attack the centre position.

All these... had been premeditated!

Meng Wan'er unknowingly fell into her trap, hence she was feeling extremely aggrieved.

What was even more melancholic was there was no way that she could say this thinking out, because on the minute she said it, it would reveal the devious thoughts that she had in mind to scheme against Huang Yueli first.

This was really moving the stone to smash her own feet!

When Meng Wan'er heard the crowd's discussion, she got even angrier as her chest was stuffed to the point of being flustered. Plus the fact that her entire body was seriously injured, she finally could no longer hold on as her eyes rolled back and she fainted once again!

Huang Yueli's eyes widened, "Young Miss Meng, Young Miss Meng! You... oh no, what's wrong? Quickly wake up!"

Ice Serpent Valley's disciples then realised the seriousness of Meng Wan'er's injury hence they were all at a loss on what to do.

Meng Hongye was slightly skilled in medical skills and she hurried over while placing her fingers on Meng Wan'er's pulse. After roughly taking her pulse, a grave expression was shown on her face.

Chapter 2254: No choice but to lower their heads (3)

"Oh no, Wan'er's injury is simply too serious..." Meng Hongye's brows creased tightly, "If she can't be cured in time, it would result in her being unable to recover for the rest of her life, and affect her cultivation... Sigh! What should I do!"

Her heart was burning anxiously because after all, this was the only direct disciple whom she had taken in.

Although she was pampered badly by her, and had a bad temper, her innate talent was extremely outstanding as her cultivation speed was also hard to come by.

If she was heavily injured right here now and affected her future, then... she really couldn't bear it!

Just at this moment, Huang Yueli joined her and spoke out softly, "Valley Master Meng, don't worry. My Senior Brother is a Pill Master, let him render treatment to Young Miss Meng!"

Meng Hongye shook her head, "It's no use. I myself am a fifth ranked Pill Master and I roughly know the situation. Wan'er's injury is too serious and ordinary doctors simply can't cure her! I have to bring her back to Ice Serpent Valley quickly and let the valley's seventh ranked Pill Masters treat her, only, it would probably.... sigh!"

Meng Hongye gave a long sigh and said, “Young Miss Bai, my disciple got injured mainly because she was overly rash and has nothing to do with you, please don’t blame yourself for that. But please forgive This Valley Master for not being able to receive you today, and also I have no time to properly show my gratitude. Will you please stay behind in Ice Serpent Valley, I need to bring Wan’er back to seek treatment right now.....”

Saying that, she carried Meng Wan’er and was about to get up and leave.

Huang Yueli hurriedly pulled her sleeve, “Wait, Valley Master Meng, my Senior Brother’s medical skills are famous throughout the entire Soaring Heavens Continent and his potential is above seventh ranked Pill Master! Why do you need to seek help from afar? Do let him take a look first!”

Meng Hongye was stunned, “Potential is above seventh ranked Pill Master? Really?”

Seeing that Meng Hongye didn’t believe her, Huang Yueli didn’t bother explaining any further but directly waved to Liu Buyan, beckoning for him to come over.

Liu Buyan swaggered over, obviously extremely unwilling as he spoke out lazily, “Why? Want me to render treatment to this young lady? What’s wrong with you, am I someone who will casually help anyone do a consultation?”

Huang Yueli knew he did it intentionally as she coordinated with him, “Senior Brother, don’t be like this! Can’t you tell that if you still don’t help, this Young Miss Meng will really not be able to cultivate in future any longer!”

Liu Buyan shrugged as he said, “What does it have to do with me?”

“Saving one’s life is greater than building a seventh storey pagoda...”

“It’s no use even if one hundred stories are built!” Liu Buyan’s lazy and casual expression retracted as he revealed a cold smile, “My Junior Sister’s heart is so kind, giving face to Meng Wan’er hence she didn’t put things across so uglily but I’m not someone with a good temper! Don’t think that I can’t tell, earlier Meng Wan’er obviously wanted to scheme against my Junior Sister hence she intentionally refused to listen to Junior Sister’s words and went on to attack the centre position of the mechanism. There’s totally no ‘mis-aim’, or ‘coincidence’!”

“This... this.....” When Meng Hongye heard that, she was apparently embarrassed, “This Divine Doctor, this is definitely a misunderstanding, misunderstanding...”

Liu Buyan shrugged, “If you say it’s a misunderstanding, then let it be a misunderstanding. But your disciple’s injury is indeed not light! If I didn’t see wrongly, among the eighteen meridians, sixteen are already broken and the other ten have broken into segments so if she doesn’t receive treatment to join it up, three days later, she will become a handicap!”

Chapter 2255: No choice but to lower their heads (4)

Meng Hongye’s expression changed!

If it was said that earlier she was still in doubt, not knowing just how Liu Buyan’s medical skills were, if he was just blowing his own trumpet or if he really had some standard.

But upon hearing his words now, Meng Hongye understood that Liu Buyan was definitely a Divine Doctor with extremely outstanding medical skills!

Because he could actually rely on roughly observing her complexion without taking her pulse and precisely telling Meng Wan'er's injured condition, down to the exact point of how many meridians were broken and the severity of it was also clearly stated!

Even Ice Serpent Valley's seventh ranked Pill Masters who were held in high regard didn't have this kind of ability!

With this thinking in mind, Meng Hongye's attitude immediately became respectful, "This... Divine Doctor, I haven't asked you for your name?"

Liu Buyan swept a glance at her but didn't open his mouth, apparently not intending to respond to Meng Hongye.

Meng Hongye was put on a difficult position and if it was usual times, she would forget about it but now that her beloved disciple's life and future was hanging by a thin thread, at this very moment she couldn't be bothered about any other stuff as she could only swallow this anger while speaking even more modestly than before, "This Divine Doctor, the matter earlier is indeed my disciple's fault, I apologize to Young Miss Bai on her behalf!"

She nodded her head at Huang Yueli and immediately turned towards Liu Buyan, "This Divine Doctor..."

Liu Buyan raised his chin, "Don't look at me, I only listen to my Junior Sister! Your apology towards my Junior Sister is so insincere, yet you're still expecting me to treat Meng Wan'er?"

His intention was just too obvious, she just intentionally wanted to put Meng Hongye on the spot.

Meng Hongye's face instantly surfaced a pink shade of embarrassment, as she felt so aggrieved in her heart!

No matter what, she was the leader of a top rated large powerhouse like Ice Serpent Valley, and her status was extremely high up.

From what she thought, for her to say "sorry" to a young lass like Huang Yueli, it was already giving her more than enough face!

Could it be that he wanted her to bow or kneel down to beg this young lass for forgiveness?

However, Liu Buyan's attitude was extremely firm and after he finished his words, he didn't even take another look at Meng Hongye.

Meng Hongye was helpless as she could only turn towards Huang Yueli, "Young Miss Bai, this.... this..."

Meeting with Meng Hongye's hesitant gaze, her heart sighed with feeling. She knew that Liu Buyan was feeling upset over her being put in a difficult position and suspected hence he specially wanted to stand up for her. But she didn't have any ill feelings towards Meng Hongye hence she didn't want to make things difficult for her.

She thought for a moment and said, "Valley Master Meng, I can ask my Senior Brother to help but you'd definitely have to pay him a satisfactory price for it..."

Meng Hongye nodded her head consecutively, "This I understand, tomorrow I'll get someone to bring the reward over to this Divine Doctor's room and also Young Miss Bai's reward for restoring the mechanism today, I will also pass it over together, so don't worry about it!"

Huang Yueli smiled and turned her head as she said, "Senior Brother, you'd better help Young Miss Meng take a look. Later when we need to enter the frozen zone, we'd still need to rely on Ice Serpent Valley's disciples for help. If you offend them now, what shall we do then?"

Liu Buyan's expression didn't change but he strode over in a few big steps.

"Since Junior Sister you've already said so, what other things can I say? Valley Master Meng, put her down and let her lie flat on the snowy ground. Carrying her like that around will make the originally curable injury become even more serious!"

"Oh, ok, ok!" Meng Hongye hurriedly placed Meng Hongye back on a piece of flat icy ground.

Chapter 2256: No choice but to lower their heads (5)

Liu Buyan stooped down as he started to diagnose in detail.

Meng Hongye saw Liu Buyan bringing out his golden needles and without any thought, he started to place his needles down, in an accurate and swift motion so after a while of observation, she slowly started to ease her heart.

She was a Pill Master as well so naturally she knew clearly that a genuine top expert did like what Liu Buyan did!

This Pill Master's standard was really first rated in Soaring Heavens Continent, so he should be able to save Meng Wan'er.

Meng Hongye was watching him as her gaze slowly started to land onto Huang Yueli once again, her heart became even more puzzled.

The first time she met Li Moying and the entire group of people, she originally thought that and relied on her fiancé's face before she could join the powerful group out on experience learning.

But within the short span of one day and night, she realised that she was completely wrong!

This young lass, since when was she a vase? Rather, it could be said that she was the person with the most vocal authority within the entire group!

Not only did she have heaven defying armament refining ability, to be able to easily restore a ninth levelled mechanism, she could even take a further step to advance it.

More importantly, she was able to make Li Moying, the peerless genius and Liu Buyan, the Divine Doctor listen to her totally!

This was definitely not an easy task! Ordinary people totally couldn't achieve this at all.

Just as Meng Hongye was secretly observing Huang Yueli, at the same time, Liu Buyan's golden needles acupuncture had already entered into the last stage.

He used an exclusive method as his fingers were swiftly flying while he continuously retracted all the ten over needles which were pierced into Meng Wan'er's body.

Following that, he stretched out his hand as he patted Meng Wan'er's chest hard, injecting his own Profound Energy into the young lady's body, later clearing the blockages in her meridians.

Meng Wan'er's body shook and following that, she gave a muffled moan as she slowly opened her eyes.

The minute she opened her eyes, she happened to see Huang Yueli who was standing in front of her, as she asked with a smiling face, "Young Miss Meng, are you alright now? Earlier you actually fainted, it really gave all of us a bad scare!

Meng Wan'er's eyes widened instantly as she kept on scolding and wanted to beat Huang Yueli.

Meng Hongye simply could not stand seeing this any longer as she berated her in a barking voice, "WAN'ER! You're This Valley Master's direct disciple, how can your actions be so vulgar? Young Miss Bai had kindly asked her Senior Brother to save you, but now you're repaying kindness with ingratitude? If you act so recklessly without any restraint again, don't blame This Valley Master for not treating you nicely!"

In Meng Hongye's eyes, the current Huang Yueli was not only someone with innate talent, she also bore a noble character!

Obviously it was Meng Wan'er who offended her first, but yet she still did not dwell on the past as she asked her Senior Brother to help cure Meng Wan'er, just how magnanimous and her bearing! This simply couldn't help but make one want to worship her!

When Meng Wan'er heard that even her Master spoke about her in this way, and she even... even said Bai Ruoli was kind-hearted??

She didn't manage to catch her breath as she fainted once again.

"Wan'er, Wan'er? What's the matter with you??"

After another flurry of turmoil and chaos, Liu Buyan came over and pretended to diagnose her as he spoke with an unsmiling smile, "Mn, will Valley Master Meng please be assured. There's no big issue with Young Miss Meng, merely losing too much blood after her injury plus her mind isn't very good hence she fainted once again. She'd be fine after having a good sleep!"

He brushed over this topic so easily hence Meng Hongye was assured and after showing her gratitude towards him, she then carried Meng Wan'er back.

...

Huang Yueli and the others returned to the guest room in Ice Serpent Valley once again.

Chapter 2257: No choice but to lower their heads (6)

After the happenings that occurred this morning during the restoration, Ice Serpent Valley's disciples totally changed their attitudes towards Huang Yueli and the others.

Yesterday, the attendants were merely courteous towards them on the surface when they really were rather resistant towards those people from Sky Emperor City.

But today, when every single disciple met them, they were all courteous.

Especially when they met Huang Yueli, they all used a revered gaze on her, as their attitudes were exceptionally respectful.

That night, Meng Hongye personally set up a banquet as different delicacies were put out to welcome them warmly.

The main lead of the banquet, without any doubt was Huang Yueli.

A large group of Ice Serpent Valley's Elders and disciples all crowded around her, as they tried their best to fawn on her.

Huang Yueli had never liked to interact with strangers and was feeling extremely frustrated by those people as her mood suddenly turned unhappy.

Just as she was about to grimace with displeasure and walked away, suddenly her wrist tightened and she was tugged into someone's arms from the back.

"Everyone, my Li'er has depleted a major portion of her Profound Energy and spirit during today's restoration of the mechanism and is slightly tired so may I ask for everyone to not disturb her rest." Li Moying's arm wrapped around her waist as he put on a possessor look, entirely embedding that petite young lass's body into his arms.

He lightly stroked Huang Yueli's soft and black long hair, as he issued a marching order to the various Elders.

The elders exchanged glances at each other as they responded in embarrassment, "Right, what Young Master Li said is right. Young Miss Bai please have a good rest, we won't disturb you any further."

Not knowing why, this handsome and tall man was obviously very young, but the aura from him was extremely overbearing and so much that even their Valley Master Meng Hongye who had been established for many years as a ninth stage realm peak top exponent, also landed on a disadvantage in front of Li Moying...

Whereas his fiancée was an Armament Master with such abnormal innate talent and potential....

They even brought along a Pill Master who was at least eighth ranked and a large group of ninth stage realm bodyguards...

This group, what on earth was their background! Could not offend, really could not afford to offend them!

When the Elders left, Li Moying brought Huang Yueli to sit on by one side, as she stuffed a crystal plate into her hands.

“This is White Jade Osmanthus Cake, your favourite, have a little.”

“White Jade Osmanthus Cake!”

Huang Yueli’s eyes lit up as she immediately stretched out her little hand and grabbed a piece, popping it inside her mouth to have a taste as her eyes were smiling so much that it squinted together into one line, “It’s sooo delicious! The White Jade Osmanthus Cake here seems different from what I make at home, it even has snow lotus mixed inside! It really tastes special!”

Saying that, she picked up a piece of White Jade Osmanthus Cake and put it next to Li Moying’s mouth, “Moying, have a taste as well? If you feel that it’s delicious, then before we leave the Northern Ice Fields, let’s bring some snow lotus back and I can make it for you?”

Li Moying leaned closer and opened his mouth as he took a bite on the Osmanthus cake.

That perfectly shaped lips opened slightly and after taking a bite, he even stuck out his tongue and licked his lips. That long lashes drooped slightly with an unfathomable gaze in his eyes.

Huang Yueli stared at his mouth and momentarily, she was slightly dazed.

“What are you looking at?” Li Moying suddenly opened his mouth.

Huang Yueli almost jumped up, “Ah? Huh? What? What did you say? I... I wasn’t looking at anything ah?”

Li Moying looked at her slightly flushed little face as his lips curled upwards and spoke mellowly, “Little gluttonous kitten, look at your drooling look, did you want to taste the Osmanthus cake, or did you want to taste.... Me?”

Chapter 2258: No choice but to lower their heads (7)

Huang Yueli was stunned as she totally did not expect this man to actually say such a thing.

In an instance, the atmosphere between them became ambiguous.

Huang Yueli met with that pair of eyes which seemed mysterious and profound as her heart started to race uncontrollably...

Li Moying pinched her little chin as he leaned downwards and started to kiss her.

That kiss wasn’t very deep, nor did it carry any colours of desire but was gentle and lingering which made Huang Yueli forget about everything in the surroundings as her heart and eyes were only filled with this man.

Li Moying kissed every single corner of her mouth before slightly moving back.

But the distance between the two of them was still no shorter than one inch.

Li Moying sized up the young lady in his arms as he looked satisfactorily at Huang Yueli with her large eyes, with an obedient and cute look. Evidently she still hadn’t recollected her senses from the earlier kiss.

He couldn't help but lower his head as he kissed her on the lips again while laughing out in a low chuckle, "What's the matter? Now that you've tasted the Osmanthus Cake and also tasted me, which one is more delicious?"

This moment made Huang Yueli finally react as she pushed him away, "You, you.... you...."

"What about me?" Li Moying lifted her brows, as he gave an indifferent slight smile.

Huang Yueli was almost smitten by that devilish smile as she hurriedly shook her head, shaking away all the distracting thoughts in her mind, "We are still at the banquet in Ice Serpent Valley! How can you casually kiss me!"

Li Moying pinched her face, "Don't be shy, we are already engaged as fiancé and fiancée and we are a perfect couple so everyone can only envy us!"

His words were extremely frank and Huang Yueli was totally speechless when she heard that.

This man's words were really narcissistic!

Huang Yueli turned and looked at the surroundings and no one was staring at them but she also knew that the others didn't dare to look at them, not because they didn't see it.

Her embarrassment turned into anger as she turned her head back and stared at Li Moying, conveniently grabbing his palm as she bit his finger hard.

"Ahh! Little fox, your teeth are really sharp!"

Li Moying exaggeratedly moaned but didn't avoid as he allowed Huang Yueli to leave a fresh teeth mark on his slender beautiful fingers.

Huang Yueli gave a humph, "It's all your fault, told you a few hundred times already that when there's outsiders, you're not allowed to kiss me casually!"

"Then when there are no outsiders, I can casually kiss?" Li Moying put on an obedient baby's expression as he humbly asked to be taught.

Huang Yueli stared at him and struck a pose as though she was about to bite him again.

This time, Li Moying reacted swiftly by retracting his hand, "Don't, don't, don't... my skin is tough and thick, if it breaks my little fox's teeth after you bite on it, I will feel heartache. If you're hungry, it's better to eat a few more pieces of Osmanthus cake!"

Li Moying hurriedly lifted up the plate as he personally picked up a White Jade Osmanthus Cake, feeding it to Huang Yueli.

Huang Yueli originally wasn't full and earlier she had just eaten halfway when she was snuck an attack and interrupted by this man.

At this point of time, smelling the fragrance from the Osmanthus Cake, she was instantly distracted as she obediently opened her mouth and ate the cake which Li Moying fed her.

Li Moying hurriedly fed her a second piece and saw that she was really like a real little fox, pouting her lips as she slowly chewed, obediently waiting for him to feed her.

Li Moying's lips uncontrollably rose upwards, as he really wanted to lean over and kiss her again.

Chapter 2259: Seventy percent certainty (1)

But considering the fact that he had just received Huang Yueli's warning, he decided to first endure it for the moment.

If he ruffled the little fox, then he wouldn't be able to gain any advantage at all.

It was best to first feed her full before he brought her back into his nest to slowly chew it.

By then, he could just chew however he wanted to!

Hence Li Moying was even more motivated in serving her tea and feeding her snacks, and after successfully feeding his little fiancée full, he couldn't wait as he carried her back to the room.

...

An unspeakable night.....

Early morning on the second day, Meng Hongye personally led some men over, bringing along the gratitude gifts for Huang Yueli and the others.

Yesterday night at the banquet, Meng Hongye already found out that the person who helped to treat Meng Wan'er was the famous Number One Divine Doctor Liu Buyan.

Although she resided in the desolated Northern Ice Fields, but she had also once heard of Liu Buyan's name and she also knew just how difficult it was for him to lend a helping hand so naturally she was filled with gratitude.

"Young Miss Bai, Divine Doctor Liu, really thank you so much yesterday! I've specially prepared some meagre gifts to show my appreciation, I hope you will like it!"

Saying that, Meng Hongye asked the guards who had followed her along to bring the boxes over, as she opened up box after box.

Although she said it was meagre gifts, but Meng Hongye knew that the person that she needed to thank was not someone ordinary so naturally she wouldn't use items which were of little value to make up the numbers, otherwise it would be Ice Serpent Valley whose reputation was thrown away!

For people like them with such cultivations and abilities, ordinary gold and silver weren't of much use and or even the same for spiritual jades hence Meng Hongye prepared mostly rare and valuable medicinal herbs and armament refining materials.

These materials, although weren't all high levelled materials but were all specialities of Northern Ice Fields and were very difficult to get in the Four Skies Continents and Sky Emperor City.

Huang Yueli and Liu Buyan were extremely satisfied upon one look.

Meng Hongye thought this matter was already settled when she saw the both of them smiling as she hurriedly spoke out, “Men, quickly bring these materials in for our valuable guests...”

“Wait!” Huang Yueli suddenly opened her mouth to interrupt her words, “Valley Master Meng, I cannot accept these things.”

Meng Hongye was stunned as she spoke out in surprise, “Young Miss Bai, you this.... This is a little token of appreciation from Ice Serpent Valley so please don’t reject it. Or could it be that there’s something you’re not satisfied with, please feel free to state it out!”

Huang Yueli shook her head and said, “Valley Master Meng, I’m not doubting that your sincerity isn’t enough, but.... when we first met a few days ago, I’ve already told you that the item that I want is your distinguished Valley’s treasured item – Claret Crystal Bracelet!”

When Meng Hongye heard that, she frowned, “This... Young Miss Bai, This Valley Master can satisfy all other things that you want, but the Claret Crystal Bracelet, this is a treasure which Ice Serpent Valley had inherited for thousands of years and I believe that you must know that it is a half-god relic! If it is made known, it would definitely attract the attention of the entire Soaring Heavens Continent and cause a carnage! Forgive me for not being able to satisfy your request.”

Huang Yueli had long expected that she would reject hence she wasn’t so surprised but continued speaking.

“Valley Master Meng, are you going back on your words now? Do you still remember that a few days ago, you obviously mentioned that if I am able to finish restoring the ancient mechanism in Ice Serpent Valley, you will give me the Claret Crystal Bracelet. Could it be that, you’ve forgotten about it so quickly? Or was it to say that it has only been two days and you’re already planning to renege on your debt?”

Meng Hongye was stuffed by her allegations until she could not speak and it was only now when she remembered that she was agitated by Huang Yueli that day and in a moment of rashness, she indeed said such a thing.

Chapter 2260: Seventy percent certainty (2)

But.....

Meng Hongye recalled the scenario back then and her expression slowly calmed down.

“Young Miss Bai, I think you must have remembered wrongly? That time when I said that if you are able to restore the ancient mechanism, then I’d give the Claret Crystal Bracelet to you but I didn’t mean restoring the mechanism built by Palace Lord Huang! That condition, you haven’t achieved it yet right?”

Huang Yueli nodded when she heard that, “That’s right, so I intend to restore Ice Serpent Valley’s ancient mechanism today so I’d like to verify it with you once again and may I also ask Valley Master Meng to retrieve the Claret Crystal Bracelet to take a look. If the Claret Crystal Bracelet is spoiled while in Ice Serpent Valley’s possession, and the effect isn’t as I had anticipated, then wouldn’t I be working for nothing?”

Meng Hongye was stunned again and by the time she understood Huang Yueli’s meaning, her mouth opened agape and was unable to close it for some time, using her shock to express her words.

“Bai... Young Miss Bai, you... you’re not kidding me right? You really... really can restore the ancient mechanism?”

Huang Yueli smiled and said, “Valley Master Meng, do you think that I’m joking?”

Meng Hongye stared at her for a moment and to tell the truth, she also knew that since Huang Yueli had brought this matter out, then she definitely had a certain amount of certainty and would absolutely not take this kind of matter for a joke.

But no matter how she thought, she still felt that it was unbelievable.

Ice Serpent Valley’s ancient mechanism was left behind several thousands of years ago!

That time, Soaring Heavens Continents still had abundant Heaven and Earth Profound Qi and strong practitioners were practically everywhere within the Continent!

Many strong practitioners moved about unhindered as they disdained others, and had left behind numerous close to miracle historical remains.

This mechanism had long already been damaged since some thousand years ago and Ice Serpent Valley’s past ten over Valley Masters had thought of many ideas to restore these mechanisms and arrays, but so many years had passed and they still had not come out with any ways.....

Among those Armament Masters who attempted to restore those mechanisms included various ninth ranked Armament Masters but all of them were helpless.

Now, Huang Yueli was only a sixteen to seventeen year old young lass but she actually spoke such conceited nonsense that she was able to restore the ancient mechanism??

How could this possibly be real?

Meng Hongye stared deadly at Huang Yueli, “Young Miss Bai, do you know what you’re saying or not? I’m afraid that you still don’t know about this, that year when Palace Lord Huang made a trip to the Northern Ice Fields, I had once asked for her help to restore the ancient mechanism but she tried several times and ended in failure. Exactly because there was no way for her to restore the ancient mechanism, so she suggested another way which was to help Ice Serpent Valley to set up a set of new mechanisms...”

“A unique king of armament refining genius like her also had no way to solve this problem... based on what reasoning did you think that you’re able to achieve what Palace Lord Huang was unable to do?”

Saying to this point, Meng Hongye seemed to have detected that her tone was slightly harsh as she immediately soothed her tone and added, “Young Miss Bai, it’s not as though I’m belittling you and I also know that your armament refining innate talent is extremely outstanding and in future you will become a ninth ranked Armament Master like Palace Lord Huang! But you’re still young right now, isn’t it? The ninth levelled mechanism that Palace Lord Huang set up and the ancient god levelled mechanism is after all, not on the same tier. I’m worried, do you know the difficulty of this task!”

Huang Yueli had been smiling all the way and upon hearing Meng Hongye’s persuasion, she didn’t interrupt her at all.

It was until Meng Hongye finished everything she had to say before she slowly opened her mouth to speak.
