

Weaponsmith 2291

Chapter 2291: Quickly kill them all and let's eat (3)

She was considered to be very lucky to have escaped the calamity earlier!

If she continued to stay here, she would lose her life sooner or later!

Luckily, those two beasts were now chasing that little slut and couldn't be bothered about her so this was a rare opportunity!

If she didn't choose to run now, then when?

As for Huang Yueli, she was facing two eager Snowfield Great Wolves hence she didn't have any spare time to bother about Meng Wan'er's reaction.

Her whole body's senses were taut as she gripped onto her Icy Jade Zither tightly while the other hand's fingers were placed on the zither strings lightly, waiting to take action!

The two Snowfield Great Wolves exchanged glances and suddenly leaped up high into the sky at the same time as they charged towards Huang Yueli!

Huang Yueli's fingers loosened as she swiftly brushed the zither strings.

A crisp sound reverberated!

Obviously a crisp and melodious zither tone but it sounded like a powerful army which shook one's eardrums into piercing pain!

Two heads of Snowfield Great Wolves weren't able to evade this kind of penetrable demonic tune which entered their brains as their brains felt a dull pain while they couldn't help but kept shaking their heads as they howled towards the skies!

Huang Yueli hit the bullseye and immediately drew out a dagger below the zither as she threw it out with Profound Energy!

The dagger's speed was extremely swift and the surroundings were enveloped with fire-attributed Profound Energy and when it flew against the wind, it gave off a crackling sound like a red coloured shooting star, racing forward!

A stab was heard!

Dagger's sharp blade pierced right into one Snowfield Great Wolf's heart and penetrated through its chest!

A stream of blood splattered and splashed onto the ground. The Great Wolf's body shook and fell onto the ground with a loud bang.

Huang Yueli cried out vexly, “Ugghhh my gosh! I ruined the skin of the Great Wolf that I killed!”

Before she could even finish her words, she heard Li Moying’s roar from behind, “LI’ER, BE CAREFUL!!!”

Huang Yueli already sensed a warning sign before she heard Li Moying’s reminder and she hurriedly hugged her Icy Jade Zither as she rolled onto the icy ground.

One head of the Snowfield Great Wolf which attacked her earlier, had unknowingly crept behind her and was pouncing towards her from her back.

Huang Yueli was rolling on the ground as her fingers kept strumming in the zither.

An intimidating demonic sound kept ringing and the Great Wolf’s body started twitching and finally, it could not stand the head splitting pain as it started to lie low on the ground while howling, as it scratched its sharp claws on the slippery icy surface, tearing out streaks of deep scratches.

Huang Yueli got up and patted the ice off her body as she returned back to the front of the Great Wolf, thinking of how to kill it but yet not harm it’s skin.

Her Profound Energy wasn’t as ferocious as Li Moying’s thunder attributed Profound Energy and plus the fact that her cultivation was slightly weaker, if she really wanted to learn from him to kill the Great Wolf with one palm strike, it was impossible.

“So it’s rather difficult to retain an entire piece of perfect skin! I have really blamed Guardian Jun wrongly!” She pondered over this.

Just as she was in a daze, steady and strong steps were heard coming from her back.

Following that, a man’s deep voice which reflected some signs of anger rang, “What are you doing? Facing a Snowfield Great Wolf while in a daze, don’t you want to live any longer?”

Saying that, a burst of Profound Energy flew out beside Huang Yueli and hit right smack on the head of the rolling Great Wolf.

With a “Boom” the Great Wolf which was hit immediately fell straight down after its head slated to one side.

Huang Yueli turned her head back and took a look to find that Li Moying and the others had already settled all the remaining Snowfield Great Wolves.

Cang Po Jun and the others were already working on handling the dead Great Wolves corpses.

Chapter 2292: Quickly kill them all and let’s eat (4)

Li Moying walked towards her alone and his tall statue was reflected against the sunset, appearing extremely powerful and strong.

Even though earlier he had just experienced a fierce fight, but his clothes were totally not messy at all and his posture while walking over was composed and at ease, totally filled with a pure man’s powerful strength.

Huang Yueli stared at his imperious handsome face for a while and proactively ran towards him as she threw herself into the man's arms.

"Moying, you're still the awesome one, I really like you so very much!" She lifted her head and planted a kiss on that man's steadfast and stylist lower jaw.

Li Moying's brows rose as his arm slid downwards, holding her waist and lifting her upwards, carrying her into his arms.

His deep sexy voice brushed her ears, "What's the matter? Know your own mistake hence intending to act coquettish to smuggle through this?"

Huang Yueli blinked her large eyes and looked at him in astonishment as though she couldn't understand, "Know my mistake? Where did I do wrong?"

Li Moying gave a humph as he patted her perky little butt a hard slap which gave a resounding "slap".

"You still have the cheek to ask where you're wrong! Don't think that I didn't see it, earlier those two Snowfield Great Wolves pounced towards that female surnamed Meng right? Why did you save her for no reason? Just let herself face the perilous situation! Moreover, to be attacked by the two Great Wolves at the same time yet you still don't call out for help, but go up against it alone?"

Huang Yueli was caught unaware as her butt was slapped by him.

Her little face flushed red and she kicked Li Moying hard on his leg and while taking the chance when he loosened his grip, she flusteredly jumped right out of his arms while covering her butt as she accused him indignantly, "You, you, you... how could you hit others at that area!"

Li Moying totally didn't feel that he did anything wrong as he gave a cold harrump, "Because you need to be taught a lesson! What did you promise me earlier? Haven't I told you to pay attention to your own safety?"

Huang Yueli stared at him angrily and argued strongly for what she thought was right, "When did I not pay attention to my own safety? I'm not that kind of weak young lady who can only just hide behind a man's back to be protected. It's just two Snowfield Great Wolves, I know that I can handle them which is why I struck out! If there were five to six of those Great Wolves around, of course I will run!"

When Li Moying heard her say that, his complexion turned slightly better but he still stared at her, "You should also run even if there's two!"

Huang Yueli couldn't help but rolled her eyes at him, "Can't be bothered to talk to you, simply forcing others to a corner! If I really hide behind you all the time, sooner or later I'd become a waste! Moreover speaking, Meng Wan'er is considered as an important chess piece of ours so if we can let her stay alive, of course it will be better to let her stay alive, anyway killing these two Great Wolves is just a small matter...."

Speaking of this, she suddenly realised that she hadn't seen Meng Wan'er for quite a while as she couldn't help but was stunned momentarily.

"Strange, where did that Meng Wan'er go to? Has she run off to somewhere to hide?"

Just as she was puzzled, she suddenly heard a miserable faint cry emitting from the back of a block of ice mountain.

“Help! Help! Someone come save me quickly! Ah—! So painful!”

This miserable cry obviously belonged to Meng Wan’er’s voice.

Those present all exchanged glances as they were rather astonished.

Li Moying frowned as he said, “Po Jun, go bring her back!”

Cang Po Jun nodded his head and with a point of his toes, he ran towards the direction where the miserable cries were coming from.

A series of fighting sounds, combined with Great Wolves cries were heard,

Not too long later, Cang Po Jun returned back as he carried the unconscious Meng Wan’er in his hands.

Chapter 2293: Quickly kill them all and let’s eat (5)

He placed Meng Wan’er onto the ground and the others immediately crowded over.

Meng Wan’er’s entire body was covered in wounds and the clothes on her were soaked through entirely in blood.

There were light and deep scars everywhere over her four limbs, one after another and even her face bore the signs of being scratched by wolf claws.

But fortunately, she had on a piece of diamond lock armour which protected her body well, hence her internal organs weren’t hurt at all.

Otherwise, from her current situation, she would probably have ended up as a dead corpse.

When Huang Yueli saw this, she couldn’t help but creased her brows, “What’s going on? Why did she run about for no good reason for?”

Li Moying knew what happened the minute he saw her and sneered, “Meng Wan’er definitely assumed that we would all be killed by those Snowfield Great Wolves hence she thought of different ways to escape but unfortunately she didn’t expected that a head of Snowfield Great Wolf had not came out in time and was still hiding behind the ice mountain so if she ran towards there, wouldn’t she become the sacrificial lamb walking right into the tiger’s mouth?”

Huang Yueli shook her head as she sighed, “This really is.... outsmarting herself! But doesn’t she like you? At this crucial moment, she actually left you behind and ran away?”

When Li Moying heard that, he took a look at her with a smile as he tugged her little hand, gently playing with her fingers.

“Husband and wife are birds of the same forest but they fly separately when disaster strikes. The only person who is willing to live or die together with me, is only you alone...”

However, Huang Yueli wasn’t as touched as what he had imagined but instead he spoke out concernedly, “Stop telling me these sweet nothings, don’t think that you can just coax me with a few

words and that would conceal the fact that you attract those bees and butterflies? Alright, quickly go on and skin those wolves, then leave the spines behind. These are valuable medicinal ingredients and it can all be refined into many different medicinal pills. The wolf claws can be refined into an Armament Weapon and that can be kept as well. Another thing is cut some meat for me, we can have a barbecue tonight for dinner.”

In a few mere words, she had already arranged jobs for everyone.

Cang Po Jun and the others all nodded their heads consecutively as they went on to their tasks.

Huang Yueli thought over it for a while and called out to Liu Buyan, “Right, Senior Brother, quickly come over and help Meng Wan’er take a look, don’t let her die!”

Liu Buyan dragged his feet as he walked over, and from the expression on his face, it was apparent that he wasn’t willing at all.

“This woman is always looking for death so what’s there to save, just let her die cleanly! Then it will save her the hassle of creating trouble! I think she doesn’t know much about the freezing zone as well, so it might as well be better for us to feel our way out!”

Huang Yueli’s hands joined together as she put on a sincere and pleading posture as she said, “Aiya, Senior Brother, just help out please! I am still hoping to find out the ghost mask man’s scheme from her! Meng Wan’er still can’t die right now! Your medical skills are so high, isn’t just treating these external wounds as easy as lifting your finger?”

Liu Buyan looked at her pair of sparkling large eyes as his heart pounded and was unable to say out any words of rejection.

He could only helplessly say, “Sigh, know how much this Divine Doctor’s consultation? Know how much I sell one piece of medicinal pill for? You’re really a wastrel!”

Although he said that, he still grabbed Meng Wan’er’s wrist and casually spent a breath of time to take her pulse.

“Nothing much, just external injury and she’s recover after taking some medicinal pills and resting for a few days.” Liu Buyan casually took out a bottle of medicinal pills after he finished speaking and poured out one pill as he stuffed it into Meng Wan’er’s mouth, “Alright, This Divine Doctor has already done my obligations so later you’ll have to roast a few more pieces of wolf meat for me!”

Chapter 2294: Quickly kill them all and let’s eat (6)

Liu Buyan felt that he had sacrificed a lot and grabbed the opportunity to raise this request to Huang Yueli.

Before Huang Yueli could even reply, Li Moying’s sneer was heard from behind her back.

“You have your own hands and feet, don’t you even know how to roast your own meat? If you don’t, then go find a wife to roast for you. The meat that my wife roasts, is all for me!”

After Li Moying's arrogant and overbearing announcement, he stretched out his hand and wrapped it around his own wife, "Li'er, in this pack of Snowfield Great Wolves, there's one wolf which is an eighth tier magical beast. Earlier I dug out its magical beast core, see if you like it or not?"

He opened up his palms to reveal a sparkling bright magical beast core, sending it to Huang Yueli's face.

"Wow, ice attribute eighth tier magical beast core!" Huang Yueli was indeed attracted by his gift as her pair of big eyes were sparkling with light, "That's great, this is something that we can hope but not wish for! The mechanism that I was working on in Levitation Sword Palace the last time is just short of one piece of ice attribute eighth tiered magical beast core as the energy source! That's really great, Moying you're the best!"

"Mmm hmm, of course I'm the one who treats you the best, isn't it?" Li Moying boasted shamelessly and at the same time, shot a provocative gaze towards Liu Buyan.

Huang Yueli's heart was feeling elated as she didn't notice his little action and obediently nodded her head, "That's of course! Moying, let's hurry and find a place to pitch our camp. The day is not early and Meng Wan'er is still half dead, so hopefully she doesn't die in the middle of the road. We have to rest earlier and continue on our journey earlier tomorrow."

Of course Li Moying didn't have any objections and when the others had all settled the Snowfield Great Wolves' corpses, they all gathered around and set off together.

Meng Wan'er as the tour guide was still unconscious even though she had taken Liu Buyan's medicinal pill.

But when the crowd set off in the morning, they had already made markings on the map along the road which they rested and pitched their camps in case any accidents occurred.

So although they didn't have Meng Wan'er to guide the way, they were still able to search towards the first campsite, only thing was they had to be slightly more careful along the way.

Luckily their luck wasn't too bad and they hadn't met with any troubles on the way so they quickly reached their destination.

This campsite was a place where Ice Serpent Valley supplied to their disciples as a replenishment point, hence not only was it safe, moreover there were quite a number of living facilities around, and also some food and seasoning. For example, fine salt and honey for roasting meat.

When Huang Yueli stuffed Meng Wan'er into the tent, she immediately set up the fire and roasted the fresh wolf meat.

Huang Yueli's culinary skills had always been outstanding, and in her past life, this belonged to Li Moying exclusively.

But now, everyone was in the team and Huang Yueli didn't want to go for special treatment hence she roasted one wolf leg for each and every one of them.

Li Moying flew into a jealous rage and attempted to safeguard his own sovereignty, "Li'er, you... how could you be like this? Aren't you cooking just for me alone?"

Looking at the usually cool and collected man revealing such a childish expression, Huang Yueli couldn't help but burst out laughing as she stretched out her hand and patted his handsome face.

"Can you stop being so childish, when have I ever said this kind of thing? Moreover speaking, this isn't considered cooking, just merely roasting the meat and since we're outside, let's not haggle over this so much! When we return to Levitation Sword Palace, I'll make tastier food for you, and not for them!"

Li Moying was then satisfied as he generously gave up on those wolf meat which he, the Young Master, couldn't finish.

This was the first time Cang Po Jun and Cang Po Hun tasted Huang Yueli's culinary skills and after taking a bite out of the wolf leg, they were so touched that their tears were dripping down.

Chapter 2295: Still want your face? (1)

"This... isn't this a little too delicious? This is my first time eating such delicious roasted meat and the skin is crispy while the meat is soft and tender. Moreover I've eaten wolf meat in the past and there was always an evident foul smell and the quality of the meat was always gruff so to tell the truth, it's a little difficult to swallow. But the wolf meat that Grandmaster Huang roasted totally doesn't have any of these problems at all. How did you do it?" Cang Po Hun was full of praise for it.

He originally was a foodie so when he praised Huang Yueli, it could be said to be right on the dot.

This kind of fawning, naturally, was extremely effective towards Huang Yueli.

She giggled and said, "This... of course there's a secret to it but the most important point is I'm a fire-attributed practitioner! To tell the truth about culinary skills, it's a kind of fire control skill, but just merely using the flame to heat up the food, and not to refine ingredients for weapons or pills! In comparison, cooking is much simpler!"

"So it's like this!" Cang Po Hun nodded his head and immediately, he had new questions, "In this way, all the Armament Masters and Pill Masters should all have not bad culinary skills? Then why is it...."

He said this halfway and took a look at Liu Buyan then stopped.

But his meaning was rather obvious because everyone knew that he was asking why Liu Buyan didn't know how to cook!

Liu Buyan was pointed out by Cang Po Hun but his expression remained unchanged as he used a few fake coughs.

"Cough cough, what's so strange about that? We Pill Masters are craftsmen and most of the time we have few desires and pay more attention to maintaining good health so there aren't many of us who love delicacies. Look at my Master, he usually only eats vegetables or fruits and never takes magical beasts' meat so no matter what delicacies you tell him about, it's all like playing music to a cow!"

Huang Yueli burst out laughing, "You lay Master out like this, be careful that when we return, I will complain to him!"

After finishing the barbecued meat, they snuck into the tents which had already been pitched and prepared to rest.

As Huang Yueli set up an invisible array on the exterior boundary of the campsite, so they didn't feel any disturbances for the entire night.

The very next morning, when the sky was slightly bright, the group got up and prepared to continue on their journey.

This day, the rampaging snowstorm had stopped and there were faint rays of sunshine in the skies of the Ice Fields.

Huang Yueli stretched and said, "It's almost time for us to set off, I wonder if Meng Wan'er is already awake and if her injuries had worsened?"

Liu Buyan immediately spoke out, "Junior Sister doesn't trust my medical skills? Don't worry, she won't die and until now, she should have recovered by a large half."

His words had just ended when Meng Wan'er's tent's curtain door was opened from the inside.

Meng Wan'er walked out with a wane and sallow expression on her face.

When she saw the few people in the campsite, she didn't appear too surprised but merely blinked her eyes then pursed her lips as she appeared bashful for some time followed by tears following down from her eyes.

"Sniff sniff... many thanks... many thanks to Young Master Li for saving my life! Yesterday... yesterday I was dragged by that Snowfield Great Wolf to the rear mountain and thought that.... I wouldn't be able to stay alive, but I've not expected to still be alive! Young Master Li, towards your favour and kindness, I really... can't repay it even if my body is torn and my bones are crushed."

As she was saying that, she suddenly knelt onto the ground as she started crying out loudly and even shuffled upwards on her knees, trying to hug Li Moying's thigh.

Li Moying was shocked as he hurriedly shifted backwards all the way until he hid behind Huang Yueli's back.

His good looking straight brows creased together as his expression remained rather cold and strict, "Young Miss Meng please don't misunderstand. I'm not the one who saved you, it's this Young Master Cang here who did."

Chapter 2296: Still want your face? (2)

Saying that, Li Moying pointed towards Cang Po Jun's direction.

Cang Po Jun was still holding on to the dried food as he chewed on it and he had not expected that without any warning, his own Master actually threw a pan over, scaring so much that he almost choked to death.

"Cough cough, cough cough, Young Miss Meng, it's not me..." He wanted to deny but when he met with Li Moying's icy cold gaze, he could only flusteredly change his words, "This.... saving you took very slight effort so you don't need to mind it too much..."

However, Meng Wan'er seemed as though she didn't hear what he said and lifted her head up as her gaze shot towards Li Moying sentimentally.

"Young Master Li, you're really one of noble character and unquestionable integrity, actually rejecting the credit after you've saved someone! How would I not understand, if Guardian Jun didn't listen to your orders, how would he possibly save me? Young Master Li, please accept this lady's bow!"

Saying that, she really bowed down as her posture seemed extremely sincere.

When Meng Wan'er lifted her head, she continued, "Young Master Li, I will definitely repay you and no matter what request you have, just go ahead and tell me!"

Li Moying's brows were deeply knotted as he took a look at Huang Yueli beside him.

To tell the truth, although since young he had always been the object of pursuit from many young ladies from various Sects, and the number of ladies who preferred to stick to him instead were aplenty, but he had really not met many of those who were as shameless as Meng Wan'er.

If it wasn't for Huang Yueli who insisted on keeping her alive, he would have taken action to kill her long ago!

However, Meng Wan'er didn't know that she had just taken a walkabout from the door of hell and yet still thinking highly of herself while doing her calculations.

Yesterday, after she was dragged to the rear mountain by the Snowfield Great Wolf, she thought that she was a goner for sure but whoever knew that today when she awoke, she realised that she was still well alive and not only that, she was lying in the temporarily campsite which Ice Serpent Valley had prepared and her injuries had recovered by a large half!

Initially Meng Wan'er didn't dare to believe but very quickly, she quickly realised and knew that she must have been saved by Li Moying and the rest!

To tell the truth, if it wasn't for the fact that she had experienced it personally, Meng Wan'er really didn't dare to believe that someone was really able to survive from such a large herd of Snowfield Great Wolves attack.

Whereas for Li Moying's group of people, not only had they done it, moreover from their looks, they practically weren't injured at all, apparently they had a crushing advantage.

This proved that this group of people's abilities had surpassed what she had initially predicted!

Li Moying was actually able to lead such a powerful group of practitioners and with his innate talent and ability, it was obvious that the kind of status he had in Sky Emperor City was way beyond what she had imagined!

Thinking of this, Meng Wan'er deeply regretted her blind moves for attempting to escape!

If she had known earlier, she should have put on a chaste and ardent look yesterday, saying that she would vow to die together with Li Moying and hug on tightly onto a thick thigh like Li Moying so that in future, she would be able to shine!

She didn't know if Li Moying had already seen through that she was the one who initiated the escape yesterday but Meng Wan'er's brain raced swiftly knowing that she should mend the pen after the sheep were lost immediately.

Hence she put on a pathetic young wife's look, hoping to gain Li Moying's sympathy and make use of this opportunity to devote her life to him!

Huang Yueli's lips curled into a cold smile as she lowered her voice, "Young Miss Meng, you really don't need to stand on ceremony. Everyone is a team and saving you is just on the way, didn't I also save you conveniently too? Whoever knew that after I saved you, you actually escaped!"

Chapter 2297: Still want your face? (3)

Meng Wan'er's heart thumped hard, as she finally recalled the truth of her ingratitude and did nothing to save Huang Yueli who was in danger.

But she quickly reacted as her tears started rolling down while crying.

"Young Miss Bai, you... you've mistaken me. Yesterday I wanted to go ask for help hence I ran off first but I've not expect that I'd just taken a few steps away and you were snuck on by an attack by the Snowfield Great Wolves and I totally wasn't able to save you in time... Young Miss Bai, I really didn't intentionally leave you behind to leave first..."

Huang Yueli's brows rose slightly as she spoke out calmly, "Oh? Is it really like this? But yesterday I remember that Guardian Jun had headed towards the northwest direction to save you and in that direction, there was no one there so who are you trying to ask to save us? Could it be that you're planning to run all the way back to Ice Serpent Valley to ask for help?"

Meng Wan'er was stuffed right back once again and her expression instantly turned extremely ugly.

She really hadn't imagined that Huang Yueli's train of thoughts was actually that clear. No matter how she tried to tangle or mess it up, secretly trying to change the concept but the other party actually just doesn't get tricked at all!

The scene instantly became awkward and Cang Po Jun and the others seemed to look at the pale faced Meng Wan'er, not exposing her but just watching her put up a performance.

Meng Wan'er kept thinking and hence she hardened her heart and then knelt down in front of Huang Yueli once again.

A crisp "pa" was heard as she lifted her hand and gave herself a tight slap on her own face!

"Young Miss Bai, it's all my fault. I'm the one who lacked experience training and was stunned momentarily hence I just flusteredly chose a direction to run in, I'm the one who caused harm to you! I'm sorry, please forgive me! Please let me follow Yuong Master Li and I'll serve the both of you well!"

Her tear-stained face looked extremely pitiful.

This face, if anyone else who didn't know what was going on, might really make others think that she was really sincere and was extremely worth pitying.

If she met with a flirtatious man who had tender, protective feelings for the fairer sex, most of them would not be able to resist this kind of temptation and even if their fiancée was beside them, they would most probably take her as concubine.

But alas, she was facing Li Moying.

Not only did Li Moying not feel that Meng Wan'er was pitiful, instead his veins were popping out on his forehead as he almost couldn't control his fury!

His Li'er saved this woman but she actually abandoned Li'er and escaped. This kind of ungrateful white-eyed wolf, killing her ten thousand times would still not remove the hatred! Still say that she wanted to serve him? Why didn't she look at her own reflection, she's not even fit to be his maid!

Huang Yueli was just standing by his side and on seeing her own fiancé almost about to fly into a rage, she hurriedly stretched out her arms as she pinched him on his firm waist.

Li Moying turned back and gave her an angry stare.

Huang Yueli palacated him as she smiled and mouthed her words, "It's almost done, don't be angry."

Li Moying pursed his thin lips coldly, not saying a single word.

Huang Yueli took a step up and put out her hands as she lifted Meng Wan'er up.

Meng Wan'er originally was intent on kneeling but following Huang Yueli's action was a huge burst of powerful Profound Energy which wrapped around her body, making her unable to resist against it and had no way to continue kneeling as she could only stand up.

"Young... Young Miss Bai?" She spoke out apprehensively.

Huang Yueli casted an eye at her as she spoke out coldly, "Young Miss Meng, as to what happened yesterday, everyone is clear on it and there's no need for you to act pitiful to gain sympathy. We still require you to be our guide and moreover, on account of Valley Master Meng's face, so we won't do anything to you. Hurry on and pack up, we'll need to hurry on our journey."

Chapter 2298: Still want your face? (4)

Speaking till here, Huang Yueli paused, "But Moying and I really don't need you to serve us and we never bring along any maids when we leave the house! As the eldest disciple of Ice Serpent Valley, surely you don't need to kneel down to anyone so easily right? If your Master were to find out, where would her face be placed?"

Huang Yueli finished her words without any restraint as she pulled Li Moying along and turned around to leave.

If she continued staying here, she would probably throw up in disgust by Meng Wan'er!

"Moying, there's still some wolf meat left over from yesterday and I've specially left the best ribs for you, I'll roast some for you to eat!" She pulled Li Moying and realised that she couldn't pull him away as she hastily threw out a bait.

Li Moying sensed her little fiancée pulling his arm and that familiar sweet smell closing nearby which made his face eased a little as he nodded, "Alright then."

Meng Wan'er looked at their two departing figures blankly as the jealousy flame in her heart was totally unable to be extinguished!

Li Moying's eyes, from the start till the end, was only filled with his little fiancée. He wasn't even willing to turn his head back to take a look at her at all!

Why? She had already bowed and bent her knee to such a step, just short of directly stripping off all her clothes and climbing onto Li Moying's bed!

She was also a beauty with gorgeous looks, her innate talent was also outstanding and she was devoted to Li Moying, even telling them that she was willing to be a maid to serve him!

But Li Moying still remained unmoved!

Was that wretched lass Bai Ruoli really that good? Could it be that, she really needed to turn that lass into a dead person before she, Meng Wan'er, could have a chance?

Meng Wan'er's eyes flashed past an icy cold murderous intent once again.

...

Huang Yueli and the others all started on their journey once again.

After the first day of thrilling events, everyone turned even more cautious and had been carefully observing the surrounding situation along the way.

So the following three days of journey went on smoothly, with practically no accidents happening at all.

On the fifth day, this group of theirs had already penetrated deep into the centre of the Northern Ice Field's freezing zone and gazing afar, they were able to see the entire state of Lone Sky Summit.

Huang Yueli put her hand around Li Moying's arm as she tipped her toes, gazing towards the direction of Lone Sky Summit as her mind flashed past many complicated thoughts.

In her past life, she was at the foot of Lone Sky Summit and met with a group assault combined from those from the Six Sacred Lands. She wasn't their match hence she could only choose to self-explode helplessly.

That year's vestige had long been covered by the years of ice and snow.

Huang Yueli gave a sigh and Li Moying heard it, as he held her hand and squeezed it, "Li'er, what are you thinking about?"

Huang Yueli shook her head, "Nothing..."

Li Moying's footsteps took a halt as he turned around and his large palm locked onto her shoulder tightly bringing her into an embrace, "No matter what you're worried about, you must remember that this time, the both of us are together!"

Huang Yueli went into a momentarily blank but after hearing his words clearly, a sweet smile appeared on her face as she nodded her head hard.

“Mn, what you said is right, we.... are together!”

Chapter 2299: Still want your face? (5)

As long as this man was by her side, no matter what they were about to face or how difficult the situation was, she would not feel afraid.

After all, the worse result was just to die together with Li Moying in this place.

In her past life, when she self-exploded in this place back then, she made a wish and that was if she had another life, she would share a common life and death with Li Moying! If she really died here, then she didn't have much regrets.

Moreover, she somehow had a premonition that her rebirth wasn't by chance.

Her meeting with Li Moying wasn't an occurrence as well and everything couldn't just end here so simply.

The two of them exchanged glances for quite a while and saw from each other's eyes, the gentle sentiments that they hoped for the most.

Unknowingly, they got closer and closer...

Just as their lips were just less than one inch apart, Liu Buyan's cries were suddenly heard from a distance away.

“Hey, what are you two doing? Already told you many times, follow the group tightly! Don't drop off the group!”

Huang Yueli's body turned stiff instantly as she pushed Li Moying's chest, “Alright, we.... we'd better hurry and chase up to them!”

Li Moying had a vexed expression as he was pushed by Huang Yueli several times but his body still remained erect like a mountain as it didn't even sway.

Huang Yueli urges, “Be a little faster, we're almost about to reach Lone Sky Summit and this is the most crucial moment! Don't you think that's nonsense!”

“What have I been thinking of?” Li Moying put on an innocent look, “Li'er, your thoughts are not pure but you're trying to push it onto me?”

“!...” Huang Yueli's eyes opened wide as her little mouth turned into an O shape, thoroughly defeated by his shamelessness.

Li Moying looked at her adorable dazed look as he couldn't help but lift his lips and lower his head to leave a light peck on her lips.

“We'll just owe those things that you want me to do for later! After we get the Bipolar Black Orchid and successfully treat my Soul Detachment Illness, I'll then return it to you bit by bit!”

Saying that, he held up Huang Yueli's hands once again as he held her to chase up to the group.

Huang Yueli had almost been spun dizzily by him as she gave him an angry stare.

This man... how could he just hit a target just like this? He was obviously the one who wanted to do bad stuff but he had to push it onto her! Simply too sinister and sly!

At the foot of Lone Sky Summit, the others had all stopped and were just waiting for the both of them.

On seeing the both of them returning, Cang Po Jun and the others all revealed an understanding smile.

But Meng Wan'er's sight landed onto Huang Yueli and Li Moying's held hands as her feelings started wavering once again.

These few days after spending days and nights together, she was able to see Li Moying every day. Meng Wan'er finally knew what was known as a man who pampered his wife as though she was his life!

Seeing Li Moying showing Huang Yueli such meticulous care every day, besides feeling jealous, Meng Wan'er was even more resolute in her conviction to get this man!

Luckily, these kinds of days were about to end and very soon... this slut Bai Ruoli would become a dead woman!

Meng Wan'er's lips curled up as she couldn't help but laughed coldly silently.

She took a few steps forward and urged, "Everyone hurry on and chase up, we're about to reach our destination soon! Lone Sky Summit is a very important spiritual artery in the ancient times and now it had already been damaged by a large half. But there are many other early historical remains around so if you're not careful, it is possible to be hit by it."

Hearing this, everyone all started to take quick steps up.

Liu Buyan rubbed his chin as he kept on gazing around.

Chapter 2300: Still want your face? (6)

"So, there are actually many early historical remains near Lone Sky Summit? Isn't this just great? After we're done with our official business, why don't we stay back for some time and check it out to see if we are able to get any opportunities." Liu Buyan looked pensive as he said that.

Huang Yueli's brows rose when she heard that, "If you're able to cure Moying's illness, then staying behind for a duration of time isn't a problem at all. But don't blame me for not reminding you on this! There are more dangers lurking around Lone Sky Summit than opportunities! The last time I came, I saw quite a number of powerful practitioners' corpses and there were even ancient times' tenth stage realm practitioner's dead bodies...."

"What? There's such a thing?" Liu Buyan revealed an astonished expression.

When he took another look at Lone Sky Summit, his gaze had less desire and more of precaution.

Meng Wan'er was listening by the side when she suddenly felt a little strange.

From this wretched lass's tone, she seemed to have come to Lone Sky Summit previously? She wasn't Ice Serpent Valley's disciples and she's still so young so generally speaking it's not possible for her to come to such a dangerous place like Northern Ice Field's freezing zone for experience learning?

Meng Wan'er's heart was filled with even more important matters hence these distracting thoughts had merely flashed past, without giving it any detailed thoughts.

Just as the group was trudging through the snow, after almost one hour had passed, they slowly got nearer to the foot of Lone Sky Summit.

Meng Wan'er suddenly stopped in her tracks as her eyes opened wide and pointed to the front not too far away as she cried out in astonishment, "Quickly look, what's that?"

The group followed the direction of her finger as they looked over.

Underneath the tall mountain which was stretched into the clouds, an icy region on a region had melted slightly and they could faintly see that under the thin layer of ice, there seemed to be some traces of stone sculptured, and some stone sculptures were already exposed as it laid bare in the air.

Cang Po Jun and the others' eyes all lit up.

"Could it be that this is an early historical remains?"

"It's highly possible. Previously Young Miss Meng and Master Bai have already said that there are many early historical remains near Lone Sky Summit and I did not expect that we've just seen one earlier!"

"Looks like our luck isn't too bad!"

The few of them were slightly excited as they started to discuss in a low voice and when they didn't notice it, Meng Wan'er had already started running towards those stone sculptures.

When Li Moying saw that, he frowned as he shouted out sharply, "Meng Wan'er, what are you trying to do? Get back here right now! We have official business to work on this time round and now is not the time to go look at these early historical remains!"

However, when he spoke out, Meng Wan'er was already like a sharp arrow which had left its bow and scuttered a long distance away, directly running to the side of the stone sculptures.

Just from the speed, Huang Yueli also started suspecting if she had extended all the body movements Profound Skills that she had!

Hearing Li Moying's sharp bark, Meng Wan'er seemed as though she had a fright and stopped in her tracks, turning her head back.

"Ah? Young Master Li, you... what did you say? The wind's too big, I... I can't hear clearly...."

Li Moying frowned as his voice became even colder and harsher, "Don't pretend and scam back here right now, otherwise..."

Meng Wan'er was so frightened that she shuddered from hearing his gloomy tone.

Although Li Moying always had a powerful presence, but when he was with Huang Yueli, he would intentionally suppress his aura hence this was the first time Meng Wan'er had deeply felt what a terror he was.

Even though the both of them were apart by a thousand meters and above, but after being swept by that sharp gaze, Meng Wan'er felt as though her body was about to freeze into ice.
