

## **Weaponsmith 2311**

### **Chapter 2311: Worked hard to put up a good show (3)**

Moreover, although Li Moying had already taken the simplified version of the Purified Pill and also put on the claret bracelet, he looked different from an ordinary person on the surface.

But no one could really tell how long this medicinal effect would last.

As long as they hadn't obtained the Bipolar Black Orchid to refine the Purified Pill, his soul detachment illness would not be cured completely and the secret ailment will always remain within so who knew when it would suddenly relapse.

Thinking of this, everyone's heart was extremely anxious.

Even Huang Yueli appeared extremely despondent and she leaned against Li Moying with a ghastly pale face, muttering to herself.

"What should we do now? What exactly should we do? Just how much longer are we going to be trapped in this underground palace? If.... If we really can't leave this place, what should we do? Even if we do leave this place, we will definitely not be able to make it in time! We're really finished! Moying, how? What should we do?"

She tugged Li Moying's collar and leaned against his chest, as though she felt that she was about to faint the very next moment.

Liu Buyan saw her acting like this and had a rude shock as his heart was feeling out of sorts.

In his impression, this Junior Sister of his would always remain calm and composed at any moment in time. No matter what kind of precarious situation she was in, even if everyone had already given up hope, she was still able to remain composed, to find the most effective and safest way out.

Why had she turned so frail in such a short duration today?

Could it be that it was really because of Li Moying's matter which made her unable to calm down?

Liu Buyan was feeling suspicious but he immediately voiced out to console her, "Junior Sister, don't be anxious, let's think of some other ways! Everyone let's come out with some ideas! Don't worry Junior Sister, even if we have to open up every single door and try it out, we might still make it in time. Perhaps this underground Palace is very small, so we might be able to find an exit in just a few steps."

However, Huang Yueli remained having a desperate look as she shook her head weakly.

"No, impossible.... We are definitely a goner this time for sure.... This underground Palace definitely takes up a vast plot of land, you don't need to console me..."

"But..." Liu Buyan was tongue tied as this was the first time he discovered that his own Junior Sister was just like any ordinary young lady, suddenly turning unreasonable.

Just at this moment, an unexpected voice suddenly rang in front of the crowd.

"Young Master Li, don't you all worry, I have a way to bring you all out!"

Everyone was stunned thinking that they had heard it wrongly.

When they hurriedly turned around, they realised that the person who spoke earlier was actually the completely forgotten Wan'er!

At this moment, Meng Wan'er strode forward with determined footsteps and walked out from the crowd. Not knowing what kind of ointment had she applied on her face, the pig-headed swollen face seemed to show signs of having swelled down.

Moreover at this moment, her face was filled with a smile and she had ample confidence in her tone while speaking.

"Young Master Li, rest assured. I have some understanding towards this underground palace's situation and I know exactly how we should leave this place, just follow me and that will do!"

Li Moying's gaze was profound as he turned towards Meng Wan'er and spoke in a deep voice, "You have a way to lead us out?"

Those starry profound black pupils of his were fixated on Meng Wan'er and her heart was pounding wildly to the limit, so agitated that she almost jumped up.

This was the first time that Li Moying had looked at her in the eye and moreover, using such an attentive gaze!

#### **Chapter 2312: Worked hard to put up a good show (4)**

Meng Wan'er was extremely excited as she puffed out her chest to reveal a sweet smile.

"Young Master Li, you didn't hear me wrong! You don't need to worry about being trapped in this place because with me around, I will bring you out!"

She self-assumed that she had given an extremely beautiful smile but in actual fact, when paired with that blue-blackish face, not only did it contain any aesthetic value, it even made one feel extremely uncomfortable.

Li Moying couldn't help but frowned and almost couldn't maintain the expression on his face.

When Huang Yueli saw that, she hurriedly pinched Li Moying and even transmitted a secret message to warn him to endure it, and he absolutely cannot spoil her plan!

Li Moying felt that he was mentally tortured and was feeling indignant as he couldn't help but stare at the little fox in his arms.

Huang Yueli hurriedly palacated him through secret transmission, "Moying, just sacrifice a little of your looks, anyway you won't lose any piece of meat! Meng Wan'er had finally gotten hooked so let's see where she is going to lead us to exactly!"

If Li Moying didn't manage to endure it and the plan fell through where he really punched Meng Wan'er, then the act that she had put on earlier was really wasted!

She had not worked hard to put on such a good show for many years, not to mention acting so weak and frail, as though she totally couldn't bear to suffer any blows at all.

Earlier when Liu Buyan revealed the terrified expression, she almost wanted to end up laughing!

Luckily Meng Wan'er jumped in on time and moreover, even unsuspectingly revealed her ace up her sleeve, which made Huang Yueli heaved a sigh of relief.

If Meng Wan'er really hadn't expressed anything, and even didn't have any action when the crowd were already extremely despondent from not being able to find the way out, then Huang Yueli really had to worry about what Meng Wan'er was really scheming on.

But now, since Meng Wan'er already said she wanted to lead the way, then her motive was already out in the open by a large half.

It looked like everyone's guess wasn't wrong at all. Meng Wan'er had indeed intentionally triggered the mechanism at the foot of Lone Sky Summit, making them fall into this underground palace.

Moreover, there was a ninety nine percent chance that this was related to the ghost mask man. After all, he was the one who invited Li Moying and her to Lone Sky Summit.

At the present moment, the only thing which they were unclear of was, where was Meng Wan'er intending to bring them to? The ghost masked man tried ways and means to lure them to this ghostly place, what was his intention?

Huang Yueli's thoughts kept on roving and although her face maintained an expression which looked as though she was about to faint, grabbing on tightly to Li Moying's sleeve as she refused to let go.

Meng Wan'er's sight landed on Huang Yueli's ghastly white face and a sliver of ridicule flashed past her eyes.

Wasn't this wretched lass usually very awesome and very arrogant, very capable? Who would have known that when she really came to the early historical remains and met with danger, she was actually scared stiff in a few mere moments till she was totally helpless!

From her looks, if it wasn't for Li Moying who stayed by her side to protect her, she would probably have lost her life long ago?

This kind of useless flower vase, could actually gain the affection of a fine man like Li Moying?

Meng Wan'er laughed coldly in her heart as she was even more determined to make use of this chance to perform well, to show Li Moying her, Meng Wan'er prowess, thus planting love from the bottom of his heart.

In this way, after Bai Ruoli that wretched lass had died, she would be able to replace her immediately.

Thinking of this, Meng Wan'er's smile grew even more self-confident, "Young Master Li, please follow me. Don't you have an urgent matter to settle at Lone Sky Summit? If we continue to delay, who knows how much time we are going to waste."

Saying that, she casted a flirtatious gaze at Li Moying as she turned around and walked towards one of the doors.

**Chapter 2313: Worked hard to put up a good show (5)**

“Wait!”

Before Li Moying had even spoken, Liu Buyan couldn't endure it any further as he burst out.

His gaze was filled with suspicions as he looked closely at Meng Wan'er, “Young Miss Meng, how did you suddenly recognise the roads in the underground palace? Earlier when we were in the storage room, didn't you say that you don't know anything yourself, and you're not sure how to leave this place? Just how long has passed and you suddenly recognise the road already?”

Not only him, Cang Po Jun also frowned as he spoke out, “That's right, what's going on? Isn't your change a little too swift?”

Meng Wan'er's smile froze but quickly resumed back to normal as she smiled and said, “Earlier when we were in the storage room, I hadn't reacted over but later on when we came to this huge hall, I then discovered that this underground palace seemed to be recorded in one of Ice Serpent Valley's ancient records. This is one of the bases of God Realm's Sacred Phoenix Race and a large quantity of treasures are hidden in here. Moreover, coincidentally, that ancient manual even recorded the entrance and exit paths for this underground palace.”

Liu Buyan still didn't quite believe her, “Really? Since it's a God Realm's turf, such an important historical remains actually has an unofficial biography divulged to outsiders?”

Actually Meng Wan'er didn't know what kind of clan was the Sacred Phoenix Race and she had merely heard the ghost masked man speak of this hence she just repeated what she heard.

Now on hearing Liu Buyan's queries, she started to skim on the details, “This.. how would I know? Anyway we Ice Serpent Valley has this manual and it had already been around for many years so I also don't know where they got this from back then. But we Ice Serpent Valley's inheritance had been around for tens of thousands of years and we might possibly have some dealings with this Sacred Phoenix Race in the ancient times?”

She explained it in this way and wasn't totally unacceptable.

After all, the old stuff that had happened tens of thousands of years ago couldn't be explained clearly and there was no way to verify it as well so wasn't it just up to her to make it up?

Liu Buyan's suspicions were not lessened but he didn't know what else to say.

He turned around and took a look at Huang Yueli as he asked, “Junior Sister, how do you feel? Should we let Young Miss Meng try and lead the way?”

Whereas for Huang Yueli now, her mind had already wandered off somewhere.

On hearing Meng Wan'er mentioning the three words “Sacred Phoenix Race”, she and Li Moying both jolted as they secretly exchanged a glance.

Only the two of them knew that Huang Yueli's current life's body was possibly flowing with Sacred Phoenix Race's blood.

And that Huang Yueli had once entered Sacred Phoenix Race's inheritance tower, passing through the assessment and obtained a large amount of phoenix blood as a reward.

But now, according to Meng Wan'er's statement, the underground palace which they stepped foot into was Sacred Phoenix Race's turf...

Huang Yueli's feelings were a little complicated. In her past life she had also entered this underground palace but had never once thought that it would be so deeply related to her...

Just that she didn't know if what Meng Wan'er said was true or not?

"Junior Sister, Junior Sister? What's the matter with you?" Liu Buyan saw her not speaking as he called out to her a few more times.

Huang Yueli then regained her senses and said, "Senior Brother, I'm fine."

Liu Buyan frowned slightly, "Your complexion is simply too terrible, do you need to take a rest? Don't be too worried, when the boat gets to the pier-head, it will go straight with the current and we will definitely be able to leave this place."

Huang Yueli nodded her head, "En, Senior Brother, relax, I know."

Meng Wan'er kept sniggering in silent by the side.

Had this wretched lass so scared that her senses were unclear? Could it be that she had the premonition that she would die at this place?

#### **Chapter 2314: Worked hard to put up a good show (6)**

Meng Wan'er took a step forward as she totally ignored Huang Yueli. Right from the start, only Li Moying's perfectly suave and cold countenance entered her pair of big eyes.

"Young Master Li, what do you guys intend to do?"

Li Moying felt a wave of disgust sweeping over him once again and only after Huang Yueli poked him again did he unwillingly opened his mouth.

"Since..... Young Miss Meng you have so much confidence, then we will trouble you to lead the way for us!"

Meng Wan'er thought that she had finally won Li Moying's attention as joy spread over her face and she replied quickly, "Alright, Young Master Li, just watch what I've got!"

Finishing her sentence, she didn't forget to shoot a provocative gaze at Huang Yueli as she walked towards the third door from the left.

Meng Wan'er recalled the key which the ghost masked man had taught her as she stretched out her hand and pressed several times along the frame of the door.

A soft "clack" sound was heard and that huge door slowly opened up.

The moment the room door opened up, everyone perked up their senses as they put on a defensive stance that they possibly might need to deal with the traps that could appear.

However, no accidents happened at all.

The room door opened up quietly to reveal a long corridor behind it.

When Meng Wan'er opened the door, she herself was on tenterhooks as she was worried that the ghost mask man might not have stated it clearly enough or perhaps she might have understood wrongly. As long as there was a slight mistake, to her, that meant a disaster which might result in the loss of her life!

Fortunately everything went smoothly.

Meng Wan'er felt that victory was already beckoning to her and she felt extremely delighted as she puffed out her chest and turned her head back to say, "Alright, we will leave from this path and that will do. Everyone quickly follow up because there are a lot of mechanisms here so if anyone falls behind the group and any accidents happen, I will not be able to save you!"

Cang Po Jun showed an astonished expression, "What the, what situation is this now? Meng Wan'er actually managed to open the door successfully and not trigger any mechanism? Could she really know how to leave this place?"

Liu Buyan's brows were tightly creased right from the start, "Isn't this a little too abnormal? This matter..... There's definitely something fishy going on!"

Whereas at this moment, Huang Yueli and Li Moying had already walked right next to their sides.

Huang Yueli took a look at the both of them and said, "Alright, stop your wild guesses. Let's follow up first and we can talk about all these later on."

Right now, she had already regained her usual composed and steady look, whereas that frail and weak image that she portrayed earlier was gone with the wind!

Liu Buyan took a look at the expression on her face and instantly understood what happened as he said, "Junior Sister, could it be that earlier you..."

"Hush!" Huang Yueli raised one finger next to her lips and made a silence sign, "Meng Wan'er is already looking at us, let's hurry over!"

The few of them also reacted as they instantly put their hearts at ease while following behind Huang Yueli and Li Moying, as they entered the corridor.

This underground palace's corridor was extremely long and the group followed behind Meng Wan'er for almost one hour before they saw another door appearing in front of their eyes.

Meng Wan'er managed to open the door with ease as she led them to yet another large hall.

Looking at the large hall's scenario, the crowd were all dumbstruck.

Because this large hall was exactly the same as the previous one, which was also constructed with the Tenro Star Rocks and the large hall was filled with thick Heaven and Earth Profound Qi. Even the surroundings were evenly distributed with eight doors which was exactly the same as earlier.

If it wasn't for the fact that the wall's paintings weren't the same, all of them might assume that they had just gone one big round, only to come back to the starting point.

## **Chapter 2315: Remote Transient Secret Fire (1)**

As they walked into the second large hall, Huang Yueli's footsteps paused for a moment as her vision landed on the four walls.

She pondered and said, "Looks like this place indeed is Sacred Phoenix Race's ruins..."

Li Moying followed her line of vision when he heard that.

He realised that on the walls of the large hall, the intricate wall murals, especially above their heads, was depicted with a picture of a phoenix which looked especially real!

This phoenix was extremely beautiful and looked vividly realistic. The feathers on it were extremely detailed as every single piece of it was distinctly shown.

Its head was raised as it was crying to the skies and both wings were flapping so even if they knew that it was just a painting, it made one develop an illusion as though it would tear itself out from the walls at any moment in time!

When they met with the phoenix's eyes, there was even a feeling that the surrounding air had turned even hotter than before.

Seeing Huang Yueli and Li Moying stopping in their tracks, Liu Buyan and the others were surprised, hence they also lifted up their heads and looked at the murals.

"Heavens, this...this is a phoenix? One of the ancient spiritual beasts?" Liu Buyan exclaimed with shock, "So, this kind of ancient spiritual beast really exists under this heavens!"

Cang Po Jun and the others also tsked in curiosity, "So beautiful, so the phoenix looks like this. I heard that the ancient God clans have overbearing abilities and their innate talents are so outstanding that its clansmen were even able to rear ancient spiritual beasts, I wonder if its true or not?"

Huang Yueli's lips curled when she heard their little discussion.

It's true, of course it's true!

Moreover, Liu Buyan, Cang Po Jun and some others had actually seen her Wang Cai with their own eyes. Only thing was Huang Yueli had been lying to them that it was just a mutated rosefinch.

Rosefinches were ninth tiered magical beasts and the various species of mutation was naturally even stronger. Liu Buyan and the rest had never seen other phoenixes so they trusted Huang Yueli very much.

Moreover speaking, Little Wang Cai was so fat and as compared to the cool huge phoenix, they really couldn't tell that it was the same species...

She wondered how shocked would Liu Buyan and the rest be when they find out the truth in future?

As Huang Yueli was thinking about Little Wang Cai, suddenly she heard Little Wang Cai's voice in her mind.

"Female Devil, let me out, I want to go out!!"

Huang Yueli was a little surprised by cause Little Wang Cai was fire attributed and ice and fire were naturally contradictory so ever since they entered the Northern Ice Fields, Wang Cai wasn't accustomed

to this extreme cold weather and air which was filled with ice attributed energy so it had been hiding inside the Sky Phoenix Ring, totally unwilling to come out.

Huang Yueli also didn't want to release it because after all, a dubious intended outsider Meng Wan'er was around and if she saw through any flaws, they would easily meet with trouble.

Thinking of this, Huang Yueli hurriedly pacified it, "You'd better not come down first and properly stay inside the Sky Phoenix Ring and cultivate. Elder Sister needs to deal with some important matters for now. When we leave the Northern Ice Fields, it's up to you to play wherever you want, and I'll personally roast chicken drumsticks for you to eat!"

However, Little Wang Cai still wanted to come out, not even caring about its favourite roasted chicken drumsticks.

"Don't want, Female Devil, I must come out, let me out!"

When Huang Yueli heard that this snotty brat actually started running a dye house when she gave him some leeway and instantly changed her tone.

"No way, you can't come out! You'd better listen obediently and if you make any more noise, don't blame me for spanking your butt later!"

Little Wang Cai was indeed a coward who was afraid of the strong and bullied the weak so when he heard this threat, he immediately stopped a little.

### **Chapter 2316: Remote Transient Secret Fire (2)**

However, it remained silent for a mere moment when it started crying out in irreconciliation once again.

"Female.....Female Devil, don't you think.... Don't you even think about applying domestic violence on This Lord, be careful that This Lord runs away from home!"

Huang Yueli spoke chillingly, "Mn, sure, if you have the ability to leave this home then go on ahead, I guarantee that I will not stop you!"

As Huang Yueli's spiritual artifact, Little Wang Cai totally had no way to leave its spiritual weapon too far apart and even if it wanted to run away, it was impossible so Huang Yueli had no fear at all.

Little Wang Cai was so angry that it kept grinding its teeth, but yet it could not do anything to its female master.

After a while later, it weakly opened its mouth once again, "Female Devil, never mind if you don't let me out but I sensed that there's a very, very, very important treasure here so you must get it for me! Otherwise I will keep making noise until you have no way to sleep at night!"

Hearing that, Huang Yueli's brows rose up. This stinky brat totally didn't didn't learn to be obedient at all, it didn't even forget to threaten its master?

She wanted to teach him some love education but instantly changed her mind when she heard the word "treasure".

After all, Little Wang Cai was an ancient spiritual beast and ordinary treasure, even if it was a ninth tiered Profound Armament, it was no different from a broken piece of junk in its eyes.

But now, Little Wang Cai actually said that there was a treasure in the underground Palace!

Moreover, it even said three consecutive “very” to describe this treasure!

This went to show that no matter what this underground Palace was hiding, it was definitely something very valuable a seven possibly a rare grade treasure even in God Realm!

This kind of treasure, since it’s already right under their eyelids, if she didn’t manage to obtain it, it simply would make her feel uncomfortable everywhere.

But considering their current predicament which they were facing right now, Huang Yueli silently questioned in her heart, “What treasure do you think this is? How far is it from us right now?”

Little Wang Cai flapped its wings and said anxiously, “I also can’t tell what it is, only sensing that it’s extremely valuable and extremely attractive so I must get it! Moreover it’s already very close to us right now and it’s just..... Behind the door to your right hand side! I have a feeling that once we open that door, we will be able to see it!”

“Oh, really?” Huang Yueli was tempted as she turned her head and looked towards the right side.

To tell the truth, she really couldn’t tell what was so unusual about the door on the right.

In actual fact, the eight doors in this large hall all looked the same from the exterior and there was simply no difference to speak of.

But Little Wang Cai’s words would absolutely not be a mistake.

Huang Yueli thought for a while and stopped in her tracks, and at the same time, tugged Li Moying.

Whereas at this moment, Meng Wan’er had already stopped on the second door from the left.

Realising that the both of them didn’t follow along, Meng Wan’er turned her head around and stared at Huang Yueli with a slightly impatient gaze.

“Young Miss Bai, why are you walking so slowly? Haven’t I said this earlier? You must follow me properly! If you don’t wish to leave, then will you please stay on your own and not drag Young Master Li down with you!”

Meng Wan’er shot disdainful gaze at Huang Yueli.

If it was possible, she would rather Huang Yueli not be able to chase up with the group or perhaps trigger some mechanism accidentally to be left behind.

But Li Moying was constantly by Huang Yueli’s side and if Huang Yueli didn’t follow along, Li Moying would definitely also go missing.

### **Chapter 2317: Remote Transient Secret Fire (3)**

Hence Meng Wan’er had no choice but to call out for them to chase up.

Whoever knew that Huang Yueli seemed as though she didn't hear what the latter said as she just pulled Li Moying's sleeve and swayed his hands, "Moying, I want to take a look at that side, accompany me there for a while!"

She pointed to the door on the right.

Li Moying lowered his head and seeing his little fox's big eyes with an anticipative look, his heart jumped and immediately nodded his head as he said, "Alright."

Huang Yueli showed a smile and pulled Li Moying's hand as they walked over to the right side.

Meng Wan'er immediately shouted out when she saw this, "Stop there!"

Huang Yueli ignored her and continued walking towards the door on the right.

Meng Wan'er immediately ran over and blocked the both of them.

She casted a vicious gaze at Huang Yueli and spoke out in an exasperated manner, "Bai Ruoli, what are you trying to do? Didn't I tell you all to follow me? How can you not listen to my instructions and run about on your own?? Don't you know how dangerous the underground Palace is?"

Meng Wan'er added one more sentence in her heart: Forget it if you run about on your own, why must you drag my Male God along?

Huang Yueli took a look at her and spoke in neither a warm nor cold tone, "Sorry Young Miss Meng, I really meant to open up that door and take a look right now and I'd be done real quickly so can I trouble you to wait a while for me. Of course, if anyone can't wait, you can also leave with Young Miss Meng first, Moying and I will chase up to you shortly."

Huang Yueli's words were out across rather politely because she indeed didn't require anyone to stay and wait for her.

In actual fact, she felt that it was best if Meng Wan'er could leave first in case later on when she retrieves the treasure, Meng Wan'er would see it.

However, the others present were all on Huang Yueli's side and although they didn't know what she wanted to do, they all stood by her side unconditionally and all expressed their willingness to stay behind and wait for her.

When Meng Wan'er heard that, she was simply infuriated!

"All of you.... What do you mean by this?. Do you know or not just how many mechanisms and arrays are there in this underground Palace? Even if I know how to leave this place, I cannot guarantee that no accidents will happen along the entire journey! You all. Actually still want to wander around? Did you really think that this was your home's rear garden? What should we do if you open that door and some mechanism is triggered?"

Huang Yueli remained composed, "Many thanks to Young Miss Meng for your concern but I myself is an Armament Master so I'm very good at decoding various mechanisms. I will take care of this small issue myself so I will not trouble you. Earlier I've also said that if you feel that it's unsafe here, or if you can't wait, then go ahead and leave first."

“You...” Meng Wan’er was stuffed back by her words and didn’t know what else to say.

Whereas for Liu Buyan and the rest, they all expressed, “No matter, Young Miss Bai go on and do whatever you need to do, we’ll wait here for you!”

Meng Wan’er simply wanted to throw up a mouthful of old blood!

She had tirelessly led the way and thought that she had already expressed her importance in this team, making everyone see her in a new light and listen to her totally!

Whoever knew that, they still only had Huang Yueli in their eyes!

Even if they knew that Huang Yueli was evidently going to create trouble, all of them just let her be and insisted on standing on her side!

On what basis!

However, no matter how irreconcilable Meng Wan’er was, there wasn’t much use as all the others had already stopped, as their feet didn’t move at all.

What was the use of her leaving on her own?

#### **Chapter 2318: Remote Transient Secret Fire (4)**

As she had no choice, Meng Wan’er could only stay on.

Looking at Huang Yueli walking towards that tightly shut door on the right, Meng Wan’er couldn’t help but cursed silently: This ignorant woman, don’t even think about where she was and dared to go about recklessly opening the doors!

She really wished that an incredible mechanism would pop out later, best if it was that kind which Liu Buyan had met with earlier, directly shooting this wretched lass to death!

Alas, no matter how begrudging Meng Wan’er was, her curses didn’t take any effect at all.

Huang Yueli was truly a ninth ranked Armament Master who could even restore such a complex ancient mechanism in Ice Serpent Valley so how was it even possible for her to be defeated by a mere door?

She stood in front of the door and observed it in great detail before she raised her right hand the shot out seven to right hand gestures.

The array patterns which were carved on the sides of the door slowly lit up and gradually diminished.

Following that, she pressed a few rocks on the sides of the door before she pushed down the handle and gently opened the door.

The room door was slowly activated and there weren’t any arrows or daggers of any kind which shot out.

Originally on high alert standing beside Huang Yueli’s side, Li Moying finally heaved a sigh of relief.

When the room door was almost opened fully, Huang Yueli took a step forward and walked right in.

But just at the instance when her left foot was about to cross over the threshold, suddenly, a loud “BOOM” sound was heard coming from inside of the room!

Immediately following that, a blinding red glint scuttled out from the room abruptly and pounced onto Huang Yueli!

The change in this instance happened simply too quickly, as though it was just in a blink of an eye, the originally normal looking door had turned into a bundle of extremely strong flame and moreover, it rapidly turned into a sea of fire, enveloping Huang Yueli’s entire body into it.

“Li’er—!”

Li Moying’s expression changed abruptly and he stretched out his hand hoping to help her block it off but however, it was already too late.

Huang Yueli’s body was wrapped in intense flames as she fell head first towards the room door.

Li Moying and Liu Buyan rushed over at the same time, hoping to pull Huang Yueli out but just at the instance when Huang Yueli fell in, the room door also shut tightly behind her.

A crisp “pong” sound was heard, as it knocked right into everyone’s heart!

“No—! Li’er—!”

Li Moying pounced towards the door with inconsolable appellation, as he could no longer be bothered if there was any mechanism and directly pushed the room door’s handle, hoping to open the room door once again.

However, the room that Huang Yueli had easily opened earlier, even though it was being brutally savaged by him right now, it totally didn’t budge at all.

No matter how he smashed it, or how he knocked, there was no response at all.

...

On the other end of the door.

Huang Yueli immediately felt something was amiss the minute she crossed the threshold.

Only when she stood at the entrance of the room did she realise that the fire attributed energy behind this door was simply too dense.

Even though the large hall was constructed out of Tenro Star Rocks, the intensity of the Heaven and Earth Profound Qi was already very high but the Profound Qi from the other side of the room was much higher by several times!

Just as she felt that something was wrong and wanted to retreat backwards, a ball of extremely scorching intense flame suddenly scuttled out, enveloping her entire body.

Moreover, the room seemed to be filled with a mysterious pulling force as it wrested her forward.

She totally could not fight against such a strong strength and in an instance, she was pulled behind the door.

The scorching flame started to burn every single inch of her body.

### **Chapter 2319: Remote Transient Secret Fire (5)**

But she didn't feel uncomfortable at all and on the contrary, it felt rather comfortable.

She realised at the first moment that the ball of flame which enveloped around her was a kind of deviant flame.

To ordinary practitioners, facing this scorching deviant flame would cause them to burn into a crisp within a second.

But as a god grade fire attributed practitioner, to be enveloped by such a thick and pure fire-attributed energy made Huang Yueli feel comfortable from head to toe.

She stretched out her right hand in mid-air and silently chanted the mnemonic chant from << Nine Phoenix Transformations>> and cried out lowly, "Keep!"

The originally arrogant and wantonly burning deviant flame, under the control of her hand gestures started to shake, as though it was afraid of the powerful innate talent coming from her!

The flames around her slowly extinguished and immediately following that, a small ball of deviant flame spark appeared in her palm.

That ball of spark was slightly dim, and there was even a hint of black qi puffing out indistinctively. Although it had already been controlled by Huang Yueli, but it still scattered around flamboyantly.

Huang Yueli blinked her eyes and a hint of joy surfaced on her watery pupils.

"That's great! This deviant flame contains thick dark attributed energy! Could this be.... the Remote Transient Secret Fire?"

She saw that there was no one around and with a chant in her mind, she released Little Wang Cai out.

Little Wang Cai had grown quite a lot by now and although it was already the size of a mother hen, it was still round and the action of flapping its wings was rather strenuous, which made one worry about the fact that it was so heavy so was it even able to fly at all? Would it fly in the sky and then land head first onto the ground while in the middle of flying?

Little Wang Cai blinked and instantly turned into a bun faced little Shota as his pair of sparkly eyes shone, while he stared at the deviant flame in Huang Yueli's palm.

"What you said is right, this is the Remote Transient Secret Fire! In God Realm's deviant flame chart, this deviant flame spark is ranked Number Two!"

Huang Yueli's heart was jubilant.

The Remote Transient Secret Fire, just second to True Phoenix Fire, and moreover it was the one and only dark attributed deviant flame on the deviant flame chart.

Dark attribute characteristic was originally a rare attribute and moreover it was extremely difficult to fuse with fire attributed energy hence it was extremely unstable. Only under an especially harsh

underlying condition and through coincidence would it be able to fuse into the Remote Transient Secret Fire.

In terms of rarity, the Remote Transient Secret Fire was considered as the rarest deviant flame.

Huang Yueli satisfactorily kept this Remote Transient Secret Fire into her body and patted Little Wang Cai's furry head, "It's all thanks to you little fellow! When we return, I'll reward you with roasted drumsticks, no matter how much you want, you can have them all!"

Ancient spiritual beasts' senses were indeed very sensitive, to be able to sense even the deviant flame hidden behind the mechanism.

If it wasn't for Little Phoenix's reminder, she would have brushed past the Remote Transient Secret Fire.

Saying that, she stood up and turned around as she wanted to return back on the original route.

Whoever knew that she had just taken a step out when she was tugged on hard by Little Wang Cai who was behind her.

"Wait, wait! Female Devil, don't leave!"

Huang Yueli lowered her head and carried him up, "Alright, stop making a din and obediently return to the Sky Phoenix Ring! Now if not the time for you to come out and have fun so just endure for a few more days! We have to hurry back now, otherwise Moying and the rest would definitely go mad from anxiety!"

She was enveloped by the Remote Transient Secret Flame earlier and disappeared behind the door so Li Moying and the rest definitely thought that she had met with danger.

However, Wang Cai refused to do as she said as it kicked it's little short legs.

"Let me down, let me down! How can you tear the bridge after you cross the river!"

### **Chapter 2320: All the advantages have been taken by her (1)**

Little Wang Cai's big round eyes were filled with an accusative glare as it fixated onto Huang Yueli.

Huang Yueli's brows creased slightly, "What crossing the river and tearing down the bridge?"

Little Wang Cai put one hand on its hip and the other finger pointed at Huang Yueli's nose as it spoke out angrily, "Don't act blur, I'm talking about you! You took away the deviant flame spark and just left me alone? Want to leave just like this? I haven't even gotten my treasure yet!"

Huang Yueli was dazed for a moment before she realised what was going on.

She instantly got excited as she couldn't even be bothered to haggle over the fact that Little Wang Cai pointed its finger at her as she spoke out in joy, "What? Could it be that you mean... the treasure that you're talking about is actually not the Remote Transient Secret Fire? There's something more valuable than the Remote Transient Secret Fire, and it's just nearby??"

Little Wang Cai raised its chin and spoke out in an extremely tsundere tone, "that's of course! Although the Remote Transient Secret Fire is rarely seen, but it cannot be compared to This Lord's True Phoenix

Fire so how can it be considered as an important treasure? Just a little too common..... you're belittling This Lord's foresight!"

This little thing was extremely smug and if it was usual times, Huang Yueli would usually say some sarcastic things about him.

But now, all she had in her mind was the treasure as she immediately let Little Wang Cai down while saying, "What is the treasure that you're talking about? Where is it? Quickly bring me over!"

Little Wang Cai nodded its head and when its feet landed onto the ground, it dashed forward to the front.

Huang Yueli quickly chased up to its pace.

It was until now that she had the free time to observe the place where she was located.

The back of this door was not an ordinary corridor but a rather luxurious room as its décor was extremely soft. There was a huge bed with netting around it and also a dressing table...

Looked like it was the room of an aristocratic young lady.

The surrounding of this room was set up with extremely complicated mechanisms and arrays and earlier the Remote Transient Secret Fire that attacked her was part of the mechanism.

Luckily it was her, if it was anyone else who didn't had such a high dire attributed innate talent like her, that person would probably had been captured by the Remote Transient Secret Fire in an instance, burning so badly that their entire body had turned into ash, so even if they didn't died, they would also be left with half a life left!

Just as Huang Yueli was gazing around, Little Wang Cai had already ran towards the big cabinet in one corner of the room.

"It's inside this cabinet, Female Devil, open it quickly and take a look!"

There was an extremely large mechanism lock hanging on the handle of the cabinet and just from the appearance of the engraved array patterns on the surface, one knew that it was extremely difficult to open it.

If not for so, Little Wang Cai would have already pounced and made a grab for it, so would it even bother about Huang Yueli who was behind?

Under Little Wang Cai's "extremely hungry" attentive gaze, Huang Yueli walked in quick steps and turned her head sideways to observe the mechanism lock in front of her.

After a while later, her face revealed a smile.

"This mechanism lock... is rather interesting!"

Little Wang Cai didn't bother about her intention and on seeing her smiling, it immediately stomped its feet from anxiety, "Ughh, can you open it or not! Aren't you a ninth ranked Armament Master? Can't even settle this small thing? Quickly quickly!"

He held onto Huang Yueil's thigh as he refused to let go.

Huang Yeuli was still unhurried, "This is a god grade mechanism lock and the workmanship is complicated so even if I have the ability, I cannot just decode it forcibly..."

Seeing Little Wang Cai becoming so anxious that its feathers were all ruffled, she then laughed as she continued, "But there's no need for me to decode it because... I have the bloodline of the Sacred Phoenix Race!"
