

Weaponsmith 2351

Chapter 2351: Intention revealed (5)

Moreover, after Li Moying had lost his battle power, the two of them would land into Lord Zhan's hands.

By then, what awaited for them would be an ending which was a hundred times worse than death...

So she must pick herself up, and she must find a way to help Li Moying, to defeat Lord Zhan!

However, it looked to be a daunting task that was almost impossible ...

Huang Yueli used her strength and bit the tip of her tongue.

An intense pain spread and at the same time, the taste of blood instantly filled her entire mouth.

This kind of strange taste, instead made her sober up a little.

Huang Yueli managed to focus and tried hard to think of the next step to find a way out.....

Since she didn't have enough ability to cut into Li Moying and Lord Zhan's battle, then she shall exhibit her advantage of an Armament Master!

In the battle, Li Moying and Lord Zhan had already exchanged more than a hundred over moves in just a brief moment.

Li Moying's dark coloured long robe and his pressing handsome looking face was cold and emotionless but his moves were fast as lightning, totally not at a disadvantage.

After Lord Zhan had recovered from his initial shock, he was slowly getting accustomed to Li Moying's attack rhythm and he cackled several laughs coldly.

"Ha ha, you almost gave This Seat a shock, I thought that Sovereign Mu had regained your past life's potential! Looks like you must have used some secret technique to raise your cultivation eh? You really don't want your life! Based on your current illness, this... are you preparing to die?"

Li Moying didn't reply to him but spent all his effort in attacking, as he congealed the Profound Energy from his entire body and a powerful energy, as though it was going to topple the mountains and overturn the seas came surging outwards!

Ever since his rebirth, he had not experienced such powerful strength for many years!

Actually, in the abyss of his inner heart, he missed this feeling fondly!

Ever since the moment he executed this secret technique, actually he was already prepared to die!

Only thing was in the last moment of his life, to be able to resume his past life's potential, to disregard everything recklessly yet at the same time being able to save his beloved woman.... This filled his heart with a feeling of satisfaction...

Thunder attributed energy was originally the most invasive kind of attribute and Li Moying was carrying a determined heart to die as he charged ahead.

Under his full onslaught, Lord Zhan who had been most confident in his defensive skills had turned exceptionally brittle.

Not too long later, he was beaten up into a sorry state, and there were several times when he was not able to evade in time, as he was injured by Li Moying's electric currents!

"Damn it!" Having once again been struck by Li Moying's attack, after he almost lost his right leg, Lord Zhan's expression turned extremely horrifying and sinister, "Damn it! It has been ten over years and no one had been able to injure This Seat! Mu Chengying, you're indeed great!"

"But the more delighted you are now, later on you'd be the most miserable. This Seat wants to see just how long are you able to persist on? After your Profound Energy has been exhausted, sooner or later you will fall into This Seat's hands and by then I want to play around with your woman in front of you, to make you suffer a fate worse than death!"

"Looking for death!"

Li Moying's eyes flashed past a bitter cold glint as his moves became even sharper than before.

Lord Zhan was forced backwards and he finally could no longer endure as he clenched his teeth, "Alright, you forced This Seat to do this!"

Saying that, his attacks came to a halt and suddenly he skipped a step and flashed as he extended his body movements and charged towards Huang Yueli who was standing by the corner of the wall!

When Li Moying saw that, he was extremely shocked and immediately chased right behind him!

However, Lord Zhan's speed was extremely swift and Huang Yueli's back was facing them, as though she was totally defenceless.

Chapter 2352: Intention revealed (6)

On seeing that Lord Zhan had already stretched out his right hand, stretching out towards Huang Yueli's back to catch her, Li Moying's heart almost stopped!

Suddenly, just as Lord Zhan's pale white fingers were about to touch Huang Yueli, she suddenly took a side step and nudged towards the side.

Not knowing if it was coincidental or intentional, anyway she had just nicely avoided Lord Zhan's Profound Skill.

This simply was out of Lord Zhan's expectations as he couldn't help but blank out momentarily, although it was only just less than a breath's time.

However, it was exactly this short duration when he suddenly sensed the wall above his head shook.

Alarm bells kept ringing in his mind!

Lord Zhan subconsciously felt something was amiss and immediately wanted to retreat.

But it was already too late. The wall above his head abruptly broke apart and a shower of bitter cold sharp arrow tips shot out towards him!

The speed of these arrows were extremely swift and the tip of the arrow was even shimmering with a bluish green glint, apparently laced with poison and moreover, the quantity was simply too much!

Even for someone with Lord Zhan's ninth stage realm peak ability, he was also caught off guard.

Lord Zhan hurriedly escaped to his left and right and at the same time used his Profound Energy to deflect the flying arrows!

Continuously deflecting the arrows, it took a total of twenty breaths before it finally stopped.

Lord Zhan was indeed a top rated peerless top exponent in Soaring Heavens Continent. Under such a pressing situation, he was still able to successfully deflect away a large majority of arrows to successfully escape his predicament and other than a few abrasions, he didn't suffer any serious injuries.

However, right before he had time to take a breather, there was another mechanical sound emitted from behind him.

Lord Zhan subconsciously moved and saw a huge cage descending from the top through his peripheral vision, dropping down towards his head.

His reaction was extremely swift and instantly moved aside to evade it but he forgot that his opponent was not only Huang Yueli, Li Moying was also eyeing him, on the sidelines.

Just as Lord Zhan swiftly evaded sideways, Li Moying struck out a burst of Profound Energy, striking him right on his chest.

Lord Zhan's defence was extremely high and this kind of attack totally was of no danger to him, and the possibility of injuring him was not high as well so it was impossible to cause him any serious injury.

But he was still pushed backwards by several steps via Li Moying's vigorous Profound Energy.

These few mere steps, if it was usual times, would be of no effect towards him but right now, it exactly made him fall into the range of the iron cage.

A loud "clang" was heard and the iron cage dropped onto the ground and just nicely trapped Lord Zhan right in the middle.

For one instance, Lord Zhan hadn't regained his senses in time as everything happened too suddenly and he simply could not believe what exactly had happened.

After a few breaths, he then jumped up with a rude shock, "Damn it! Huang Yueli, you crafty and sinister little slut! You actually.... Actually used such a sinister method to use the mechanism and trap This Seat!"

Huang Yueli actually was profusing badly as well, as the back of her dress was totally drenched in sweat.

The situation earlier was simply too pressing and it was not even enough to describe it as hanging on thin thread.

If her reaction was slightly slower, as long as she took a wrong step by a little, the current her would probably have landed into Lord Zhan's demonic claws by now, moaning miserably under his torturous moves.

Huang Yueli took a deep breath and the expression on her face did not reflect the flusteredness she experienced earlier.

On the contrary, she slowly dug her ear with a finger, "I'm an Armament Master so of course I must use Armament Masters' ways, how is this considered as sinister? Moreover speaking, you snuck an attack on a frail lady like me, aren't you considered sinister?"

Chapter 2353: Obtained the Bipolar Black Orchid (1)

"Huang Yueli, you... how dare you! Did you think that you will be able to trap me with this sort of mechanism?? Let This Seat out immediately otherwise when This Seat manages to leave this cage, I will definitely debone and skin you alive then crush your primordial spirit bit by bit!"

Lord Zhan was so infuriated that he knocked hard against the iron cage's bars but those bars were made out of the ninth tiered material Eclipse Steel Cast and was extremely solid but going up against this kind of peerless top exponent like Lord Zhan, it gave off bursts of sounds of impact and started to vibrate.

The resounding banging noises were extremely ear piercing and adding on to Lord Zhan's chilly threats, it made one tremble right from the heart.

Li Moying's expression sank and his sleeve moved slightly as he hurled a burst of electric current towards Lord Zhan.

A loud "whoosh" was heard and a streak of lightning exploded right in front of the iron cage as Profound Energy shot around the surroundings and sparks burst forth!

Li Moying brows creased suddenly and he wrapped his hand around Huang Yueli's waist as he led her backwards.

"This iron cage, actually.... rebounded my attack??" Li Moying simply had not imagined that this sort of thing had happened. If he had reacted a little slower, perhaps his Li'er might have been injured by the rebounded thunder attributed Profound Energy.

Huang Yueli, however, remained composed, "You don't know, this iron cage is made out of Eclipse Steel Cast and not only is it solid, it can also isolate Profound Energy attacks, mainly to prevent the strong practitioners who are trapped in the cage from attacking people outside..."

Her underlying meaning was that, people like Li Moying, who did the reverse to stand outside and attack the person in the iron cage, was simply too rarely seen.

Li Moying was rendered speechless as his sword brows creased together, "In this case, we still haven't got any way to deal with this fellow?"

Lord Zhan had been trapped inside the iron cage and kept on crashing against the bars and powerful Profound Energy hitting against the cage made loud crashing sounds!

Under this kind of attack, even if it was a mechanism made out of Eclipse Steel Iron, it looked as though it wasn't very stable...

Based in Li Moying's judgement, the iron cage could only trap Lord Zhan for the time moment and he feared that not too long later, he would be able to escape from there! So, they could only take this opportunity to get rid of him, which would be the safest option!

However, they had unfortunately met with this difficult problem...

Huang Yueli shook her head and said, "This is very hard to do. If you forcibly attack the iron cage, it will only make the eclipse steel cast be damaged even sooner, and that would instead aid Lord Zhan to escape earlier! The only thing we can do now is to quickly find a way to leave the Snow Phoenix Palace, and leave her immediately!"

Li Moying nodded his head, "What you say is right, what should we do now?"

Huang Yueli said, "The mechanisms here are a little complicated and I've roughly run through them earlier and have a little idea but these mechanisms require powerful Profound Energy before it can be activated so you must help me."

Li Moying naturally had no objections as he quickly followed his own fiancée and started to follow her instructions to inject his Profound Energy to activate the mechanisms.

However, this secret room's mechanisms were simply too complex and even if it was Huang Yueli who took action, she attempted several times and still had not succeeded.

In the corner of the room, Lord Zhan's crashing impact against the iron cage grew louder and louder, and more and more vigorous!

Perhaps it was because being trapped in this small cubic sized iron prison which invigorated Lord Zhan's rampaging characteristics, he reached an almost insane state of unleashing his Profound Energy.

Even if there was such a solid eclipse steel cast between them, Huang Yueli was still able to sense that scorching hot fire-attributed energy which was close to the point of explosion!

Chapter 2354: Obtained the Bipolar Black Orchid (2)

"Let me out, let me out this minute! Wretched lass, just you wait and see! I will immediately leave this place and will absolutely not let you off!"

Lord Zhan's arrogant cries rang intermittently.

Li Moying stood near the iron cage and was on high alert as he prepared to receive Lord Zhan's attack any moment.

Under such a precarious situation, Huang Yueli was still able to maintain her cool as she stood in the middle of the room and after a moment of wrinkling her brows, her eyes suddenly lit up and she made a loud snap.

"Got it! So, I had not noticed the fine details earlier..."

Saying that, she turned towards Li Moying as she waved, "Moying, come over for a second. These two mechanisms over here need to be activated at the same time. Place your left hand over here and your

right hand.... Then later inject your Profound Energy together at the same time and it must be equal, both sides must be the same..."

Huang Yueli lowered her voice as she instructed, her pair of watery big eyes totally didn't blink as she carefully observed Li Moying's actions, fully prepared to correct his mistake.

On seeing that the iron cage would not last much longer, Huang Yueli knew her chances were not much and they must activate the mechanism successfully this time round!

Luckily, Li Moying understood Huang Yueli's instructions easily and totally followed what she said without any mistake.

Huang Yueli's face revealed a smile, "Right, right, right, exactly like this. That's great, move over there a little, I'll open up this lock and we will be able to..."

Just at this moment, in the corner where the iron cage was, a sudden "cling clang" rang and a deafening explosion rang!

The ground also started to shake vigorously.

Their faces changed at the same time, "Not good!"

Wasn't that iron cage a little unreliable, being scrapped so quickly under Lord Zhan's attacks!

Huang Yueli hastened the actions and exhausted all her energy in bid to decode the last mechanism.

Li Moying turned to his side and blocked Huang Yueli's back.

Just at the moment when he turned around, Lord Zhan who had finally escaped howled furiously and an extremely scorching heated flame attacked towards them.

"Prepare to die! This Seat wants to see where else can the both of you escape to!"

Li Moying gave a cold harrumph as the Profound Energy worked up and he went up ahead to meet with Lord Zhan!

Two bursts of pure overbearing Profound Energy crashed against each other and caused an earth shattering quake!

Huang Yueli was shaken so much that she practically was unable to stabilise herself. Moreover, two bursts of Profound Energy's remnant waves also flushed towards her back!

Huang Yueli stood there without moving as she allowed the remnant Profound Energy waves to hit against her back, causing a wave of intense pain in her internal organs, almost spitting out blood on the spot!

However, her hand was exceptionally stable as she totally did not shake, nor was there any moment of pauses as she kept on controlling the mechanism.

She knew what was most important right now and even if she had to risk getting seriously injured, she must activate the underground palace's path at the very first moment because this was their only chance to escape!

Whereas Lord Zhan was originally filled with confidence and assumed that this sudden attack would cause Huang Yueli and Li Moying to be seriously injured.

Whoever knew that Li Moying's reaction was actually that swift!

Not only had he taken on his 100% strongest strike, moreover it even made him retreat back by ten over steps!

Lord Zhan finally managed to steady his heel and his expression turned even more horrendous, "Good, good! Indeed the Number One Top Exponent Mu Chengying in Soaring Heavens Continent and even until now, you are still able to fight evenly with This Seat! Since you're so incredible, take on this move from This Seat once more!"

Chapter 2355: Obtained the Bipolar Black Orchid (3)

Lord Zhan's figure shifted sideways as the Profound Energy that was routed earlier had once again congealed into a ray of fire dragon.

This time, the surging Profound Energy was much purer and thicker than before!

Li Moying stood on his original spot and he could even sense the energy in the air which had gathered towards that ray of fire dragon!

His senses instantly became grave and every inch of his body was accumulating power just waiting to be unleashed!

He knew very clearly that this Snow Phoenix Palace was after all Lord Zhan's territory and being engaged in a battle at a place like this was an absolute disadvantage to himself!

Even if the both of them had equal ability, Lord Zhan would still easily gain the advantage, as though he was executing some sort of cabala, condensing his energy.

Li Moying knew that things weren't going well and he knew that he could not allow him to continue accumulating his power to his peak form so he must grab the opportunity first and strike out!

His figure moved and a faint purple blinding electric current surfaced in front of him...

Just at this moment, a wave of dizziness flashed in his mind...

This feeling was just too familiar and Li Moying's heart jumped, as he knew that he was about to reach his limit after using the secret technique to forcibly raise his battle prowess.

He could not stop at his moment, otherwise he might really die...

However, he already had no other choice and right now at this moment, how could he possibly take a step back?

Li Moying bit the tip of his tongue and suppressed the dizziness in his head as he took another step forward and prepared to strike!

But his mind suddenly buzzed and immediately, bouts of pain attacked his mind which made him unable to control the Profound Energy in his body...

“Damn it!” Li Moying cursed softly as he forcibly coagulated a little of his Profound Energy as he struck out towards Lord Zhan!

But this bit of strength was evidently not enough to go up against Lord Zhan.

Lord Zhan gave a cold scoff, “What? Just this bit of endurance? Are you trying to scratch This Seat’s itch? Take this!”

The fire sparks rose dramatically!

Li Moying shut his eyes as his heart seemed to have fallen into despair!

The only choice left... was to do what Huang Yueli did in her past life, to self-explode his primordial spirit!

Based on his powerfully strong soul, he should be able to kill Lord Zhan directly on the spot and if Huang Yueli had good luck, she should be able to escape from this place...

He only wished that she would not be silly and insisted on dying with him...

Li Moying’s thoughts took a turn and he made preparations to die.

Just at this moment...

Lord Zhan’s fire dragon in his hand detonated in an instance and suddenly turned dim.

Li Moying was dazed as he lifted his eye and took a look and heard Lord Zhan’s body swaying and after that, spitting out a mouthful of blood!

He howled hysterically, “Who is that? Get.... out.... this instant!!”

However, no one answered him but from not too far away, there was an indiscernible explosion of Profound Energy sound being heard and the fluctuations of the Profound Energy in the air also became a little strange.

When Li Moying saw that, his spirit perked up and suddenly thought of something, “Could it be that.... they’ve already succeeded??”

He didn’t have time to think in detail and could only make a judgement in the split second as he used up all his determination to suppress the splitting pain in his mind to readjust the remaining Profound Energy in his body, as he struck towards Lord Zhan’s acupoint!

“Break!”

Just at the moment when Li Moying struck, behind Lord Zhan also roared out in rage!

Following that were numerous bursts of strong Profound Energy attacks!

Chapter 2356: Obtained the Bipolar Black Orchid (4)

Lord Zhan was assaulted from both frontal and rear sides and his expression changed abruptly in an instant!

However, he was already injured from the sneak attack earlier and right now, his abdomen and back were filled with enemies hence he was simply unable to guard both sides.

Numerous ninth stage realm peak practitioner's Profound Energy struck out at the same time and his body shook violently as blood started to spurt out!

Immediately following that, his eyes widened and he clutched his chest and looked towards his rear.

He saw the entrance of a mechanism opening behind him and out walked three tall figures.

"You all... it's actually the three of you! How could this be? Haven't you three already fallen into the mechanism? How can you suddenly pop out like this??" Lord Zhan's eyes stared at the three of them in disbelief as his body shook slightly, the shock on his face exhibited his feelings in his speech!

Liu Buyan took a step up and looked at Lord Zhan and then looked at Li Moying with a smile which wasn't quite like a smile, "Tsk tsk, our Number One Top Exponent in Soaring Heavens Continent Sovereign Mu really does not live up to his name! If it wasn't for the fact that This Divine Doctor had arrived in a timely manner, you are going to be in bad shape!"

Behind Liu Buyan, Cang Po Jun and Cang Po Hun walked up as well as they bowed respectfully towards Li Moying.

"Sovereign, Your Subordinates have arrived late, will Sovereign please forgive us."

When Huang Yueli heard their voices, the action on her hands took a pause and she turned around in extreme joy, "Senior Brother, Guardian Jun, Guardian Hun! You're finally here!"

Liu Buyan smiled joyfully, "What's the matter? Senior Brother I, have appeared at a timely fashion right? Am I suave enough? Incisive enough? If it wasn't for me, just relying on this young lad Li Moying, tsk tsk, he simply is unable to protect you alright?"

Li Moying's face turned black as he gave Liu Buyan a hard stare and spoke out in an unhappy tone, "Timely? You call this timely? How do you have the cheek to say that? If it wasn't for your dragging and had not arrived for such a long time, will I and Li'er need to go through such a thrilling experience? If you came slightly later and Li'er is heavily injured after she lands in this fellow's hands, your life is simply not enough to pay for it."

Liu Buyan gave a tsk and turned his head to look at him.

"I'm draggy? Disdain me for spending too much time? Have you got things wrong or what? Do you know how big this Underground Palace is? Although there's the map which Junior Sister gave, but she circled out so many stored and we needed to look for it one after another to verify just where the item is hidden in! Moreover, there are so many guards at the places where the treasures are being kept and the three of us experienced a huge battle before we managed to snatch the Bipolar Black Orchid, did you think that we went for a stroll? You're speaking about it so lightly!"

Upon hearing Liu Buyan's words, Huang Yueli's joy was reflected on her face as she couldn't be bothered to go open the mechanism and immediately ran towards Liu Buyan.

"Senior Brother, you've found the Bipolar Black Orchid? Really? Is the medicinal effect preserved completely? Is it enough to refine into medicinal pills?"

Liu Buyan replied lazily, "Of course we've gotten it! With me, your Senior Brother around, what problem could there possibly be? Moreover, This Divine Doctor had not imagined that these fellows actually spent so much effort to lure you and Li Moying that they collected all the Bipolar Black Orchid in the market, and there are ten over stalks of it! No matter what medicinal pills we refine, there's still a huge pile left!"

Saying that, Liu Buyan retrieved a huge medicinal box from his realm ring and brought it in front of Huang Yueli and lifted up the lid to show her.

A dense medicinal fragrance slowly dissipated out.

Huang Yueli's lips curled upwards and kept on praising Liu Buyan, "Senior Brother, you're simply incredible!"

Chapter 2357: Obtained the Bipolar Black Orchid (5)

However, this scene in Lord Zhan's eye made his eyeballs almost pop out from staring at them too hard.

"This...this... how is it possible?? How are you guys able to obtain the Bipolar Black Orchid! This Seat had obviously hidden them in the most secretive secret room of all! Not right, where did you trio pop out from? Aren't you already dead??"

Cang Po Hun heard that and looked at Lord Zhan whose face was as pale as paper and a smile of ridicule curled up around the edges of his lips.

"Lord Zhan, did you really thought that Grandmaster Huang and Sovereign would be so silly, to be coaxed by that dumba*s Meng Wan'er and just step into your trap? They agreed to meet you here, not to make you ease up on your alert but to delay the time!"

When Lord Zhan heard that, he first went into a blank then subsequently he seemed to have thought of something as he revealed a thoroughly shocked expression!

"You are saying... you mean to say... no... how is that possible?"

"Why is it not possible?" Cang Po Hun jeered, "You only know that Grandmaster had once entered this Underground Palace and I believe you don't know that after she mistakenly entered the secret room today, she coincidentally received a map of this Snow Phoenix Palace right? Hence she secretly passed the map over to Divine Doctor Liu and even indicated the most possible locations of the stores which could hide the Bipolar Black Orchids and later on created a farce to pretend that we were trapped from accidentally triggering a mechanism but in actual fact, we had already escaped your line of sight, to secretly go seek for the Bipolar Black Orchid!"

Lord Zhan's eyes popped out while he was still muttering "impossible" on his lips.

But in his heart, he had faintly understood that what Cang Po Hun said was true!

No wonder back then, when Liu Buyan and the others had absurdly disappeared after triggering the mechanism, he wasn't able to find them at all!

Back then, Lord Zhan only felt that it was a little strange but as he was in a hurry to control Huang Yueli and Li Moying, he didn't have any time to go bother about these stooges.

Anyway, from what Lord Zhan thought, he originally needed to worry about these few people's battle power but now that they had disappeared from stepping into one of the mechanisms, it was like a god-sent gift to help him clear the obstacles!

Snow Phoenix Palace was filled with mechanisms and there wasn't any high levelled Armament Master amongst them so even if he didn't bother about them, they would step on the pathway to death sooner or later!

How could he possibly have imagined that these people had actually gotten an internal map of the Snow Phoenix Palace and even secretly went off to seek the Bipolar Black Orchid!

Now the trio not only managed to obtain the medicinal herb, they even managed to appear in time to join hands with Li Moying to defeat him!

After clearing his thoughts on the cause and effects, Lord Zhan's face was totally twisted and he was so infuriated that he kept shaking.

"Damn it! Huang Yueli, you little slut, you're simply too sinister and sly! You actually resorted to such an unscrupulous method! Do you know how to write the words 'righteous'?"

Huang Yueli folded her arms and raised her brows as she replied dimly, "Lord Zhan's words have really overpraised me. You're simply too humble, sinister and sly are words which I do not dare to take on, it should be offered to you instead! Anyway, today we ought to thank you for allowing us to obtain so many stalks of Bipolar Black Orchid today. We've really struck a small fortune! But we still have pressing matters and we don't have the time to show our gratitude so we'll make a move first!"

Saying that, Huang Yueli shot a gaze to Liu Buyan and the others, indicating for them to defeat Lord Zhan then leave!

But just at this moment, the man beside her suddenly staggered.

Chapter 2358: Obtained the Bipolar Black Orchid (6)

Huang Yueli's heart thumped hard and hurriedly turned her head back, just in time to see Li Moying slowly falling onto the ground.

She quickly pounced over to hold onto him, "Moying, Moying!! You... what's the matter with you??"

Li Moying's face was ghastly pale and his eyes were tightly shut without any response.

Huang Yueli's fingers shakingly stretched to the front of his nostrils only to realise that although his breathing is very weak, but was still regulated and she heaved a sigh of relief.

Liu Buyan walked over in quick steps as he bent down in front of Li Moying to take his pulse.

Not too long later, his brows creased tightly, "Damn it, how did this happen! His Soul Detachment Illness has acted up again and moreover, it's even more dangerous than the last time! This time, we can't use the golden needles to suppress it any longer and if we aren't able to cure him within seven days, even if he doesn't die, he will also become an idiot! By then no one will be able to save him!"

"What??" Huang Yueli's face flushed a shade of white.

Cang Po Jun cried out in shock as well, "How did this happen? Divine Doctor Liu, are you certain you didn't diagnose wrongly? Last time you said that after Sovereign took your medicinal pill, his illness will not act up within a short period of time and moreover, he even has the Claret Bracelet on him..."

"Pills and Profound Armaments are not invincible!" Liu Buyan replied gruffly, cutting him off, "But Li Moying he had forcibly used the secret technique to raise his cultivation, I believe it is to cross hands with that whatever Lord Zhan! Back then when he was in peak condition, after he used this secret technique, his cultivation dropped but now with this kind of condition.... He's really lucky that the Claret Bracelet is of use since he didn't die on the spot!"

Saying that, he stood up, "No way, we can't drag on any longer! Luckily we have already gotten the Bipolar Black Orchid. Let's quickly leave this place, I have to immediately find a place to refine the Purified Pill..."

"Alright! I'll go activate the mechanism!"

Huang Yueli stuffed Li Moying into Liu Buyan's arms and sprung up from the floor.

Just at the moment she stood up, the ground started shaking violently.

Following that, the original tidy ground started to split into two parts and those few standing right in the centre were not prepared as they all descended downwards!

"What the, what's the situation now??" Liu Buyan couldn't help but shouted out loudly.

In response to him was Lord Zhan's arrogant mad laughs, from above his head.

"Hahaha, you few... did you really think that you could leave the Snow Phoenix Palace with the Bipolar Black Orchid? Simply daydreaming! This is This Seat's place so how can I allow you to come and go as you wish? So what if you have gotten the Bipolar Black Orchid? You all can forget about leaving this place! All turn into fertilisers for this Blood Moon Spell! Ninth stage realm peak fertilisers... This Seat is using this for the very first time, I'm sure it will inject a lot of energy for the spell? Hahahaha!"

Amid his sharp and strange long laugh, the group had already fallen into the bottom later of the ground.

The upper layer's ground slowly closed up which isolated Lord Zhan's laughs on the outside.

Not knowing why, this level of the ground was very soft and the few of them were practically unhurt.

The minute they landed onto the ground, Cang Po Hun immediately knelt down and asked for forgiveness from Huang Yueli with an ashamed look on his face, "Grandmaster Huang, it's all This Subordinate's negligence, assuming that fellow had totally lost the ability to resist against us and had not kept a tight watch on him hence allowing him to have the chance to activate the mechanism....."

Huang Yueli bit her lips and shook her head, "Get up, we are all responsible. There's no point saying all these now, let's first think of a way to get out of here."

Chapter 2359: Blood Moon Great Array (1)

Earlier, everyone present placed their attention on Li Moying who had suddenly fainted.

Although everyone knew that they must defend against Lord Zhan, but Lord Zhan was seriously injured back then and even if it was a sneak attack, it was not possible to injure Liu Buyan and the other top exponents so everyone had not placed too much emphasis on defence.

Whoever knew that the other party still had this move, to snatch the chance first to activate the next layer's mechanism, to trap them in this place.

Cang Po Hun refused to get up and was still kneeling on the ground when Cang Po Jun pulled him up and spoke out in a gloomy voice, "Alright, now is not the time to beg for forgiveness. Listen to Grandmaster Huang and let's think of a way out first before considering other things, Sovereign's illness cannot be delayed!"

Cang Po Hun despondently nodded his head as he stood up.

Cang Po Jun was after all the oldest and he had even stood in for Sovereign for Blue Profound Sect for many years so his character was much more steady.

He thought over for a moment when his eyes lit up and spoke out, "Right, Divine Doctor Liu, where's the map that Grandmaster Huang gave us earlier? Is it still with you? Let's take it out quickly and study it, to see how we should leave this place!"

Liu Buyan heard that and immediately lit up a few balls of fire as it illuminated the surroundings.

Following that, he took out a map which was made out of a single horn rhinoceros's skin.

After a while, Liu Buyan frowned and said, "This... could it be that I'm seeing this wrongly? Why do I feel that this map totally doesn't indicate the room which we are currently in?"

Cang Po Jun too revealed a puzzled expression, "That's right, earlier we fell down from the secret room above our heads so it should be this room but there is totally no indication of any space below that secret room.... the place we are now in, shouldn't exist at all right?"

Huang Yueli originally was hugging Li Moying as she transmitted Profound Energy into his body to help stabilise his primordial spirit, hence she didn't join the trio's discussion.

On hearing this, she couldn't help but stood up as she walked over and asked, "What's the matter?"

Liu Buyan sighed and passed the map to her, "Junior Sister, take a look for yourself? The place that we are now in is totally not on the map at all! What on earth is going on? Could it be that this map that you have is not complete?"

Huang Yueli heard that and took the map from him as she spread it out on the ground and checked on it in extreme detail from head to toe.

She had entered the Snow Phoenix Palace twice and researched the Underground Palace's various mechanisms in detail and was the one who understood the Snow Phoenix Palace the most and when paired with this map, by rights, she should easily find the way out.

But this time round, she looked left and right at the map and after looking at it for a long while, she had no choice but to admit that what Liu Buyan said was right.

The position where they were currently in, totally was not marked out at all!

“This... is really strange! This map is something that I had retrieved from the secret room where I found the Remote Transient Secret Fire and had conveniently brought it along. It was stored in such a seclusive room so the authenticity of this map is absolutely no issue... but it actually isn't complete...”

Huang Yueli's elegant brows creased slightly as her heart was feeling puzzled.

A room that popped out of nowhere which wasn't marked on a Snow Phoenix Palace's topography map.... what on earth was this used for?

Just as she was extremely bewildered, Liu Buyan's expression suddenly turned solemn as he stood upright.

“Not right..... the air here isn't right! Do you smell the blood stench?”

Chapter 2360: Blood Moon Great Array (2)

“The stench of blood?”

When the group heard that, they looked at each other in dismay but immediately following that, their expressions underwent a change.

They took a whiff carefully, suddenly realising that what Liu Buyan said was right and there indeed was a rather thick stench of blood wafting in the air.

Only thing was when the group dropped down earlier, they were slightly panic-stricken hence they didn't notice this earlier.

Huang Yueli's expression was grave, “The stench of blood here is very thick! Earlier, when Moying and I were in the secret room upstairs, we could indistinctly smell a faint stench of blood and now that I think back, it should have come from this place?”

“What?” The group's expressions all changed.

Although everyone present were all strong practitioners and were used to seeing blood, but right now under this circumstance, to be trapped in such a dark room which was filled with stench of blood, no matter how one thought, it just made them feel uneasy.

Liu Buyan looked pensive as he spoke out, “Then.... The stench of blood, where did it come from?”

Huang Yueli took a deep breath, “Perhaps... just behind you?” She pointed towards Liu Buyan's back.

Liu Buyan almost jumped up in shock as he hurriedly turned around and the others all started to look over towards the direction where Huang Yueli's finger was pointing towards.

Behind the group, they could faintly see a ball of faint light which glowed on and off in the darkness.

Whereas the thick stench of blood smell seemed to come from the same direction along with the wind.

Liu Buyan frowned as his expression was filled with worries, “This... this situation doesn't seem very wise, what place is this? Somehow it feels extremely dangerous?”

Huang Yueli was much more composed as she replied, "Everyone let's head over and take a look."

Cang Po Jun hurriedly persuaded her not to do so when he heard that, "Grandmaster Huang, don't! You'd better stay here and look after Sovereign! We will head over with Divine Doctor Liu to scout the way and if there's nothing major then we'd come back to pick you up. This place is simply too strange and there might possibly be danger in front so it's better for the both of you to not act recklessly..."

Huang Yueli raised up one hand to cut him off, "Guardian Jun, I appreciate your kind intentions. But the place that we are standing at now is really not very safe..."

Saying that, her right hand suddenly pointed at the ground and a burst of fiery flame shot out from her fingertip!

A shrill cry was heard and the crowd lowered their heads to see an entirely blood red scorpion burnt to death on the ground by Huang Yueli.

Moreover, this scorpion was split into two halves by her Profound Energy and the portion where the body had split up, a large amount of blood actually splattered out!

In an instance, the stench of blood filled everyone's nostrils.

Cang Po Hun covered his nose and took a step back in disdain, "This... what is this?? Red Scorpion? How come it seems a little... a little disgusting?"

Liu Buyan replied gruffly, "This is a mutated species of the Red Scorpion, the Weeping Soul Red Scorpion and is extremely rarely seen. It is rumoured that it specially sucks human's blood and moreover, it specially sucks blood from the living and once it sets its sight on a target, either it will suck up all the blood from the living person or the Red Scorpion's body will explode from being unable to accommodate so much blood. Other than that, you can forget about getting it off from you."

"What the, this is terrifying! Luckily Grandmaster Huang's eyes are sharp enough and had spotted it in time otherwise if we were bitten by this thing, wouldn't we be finished?" Cang Po Jun shuddered as he looked at the ground in high alert, scanning everywhere as he was deeply afraid of the second Weeping Soul Red Scorpion appearing.
