

## Weaponsmith 2371

### Chapter 2371: Someone's still alive? (1)

"Finally settled... this enormous scorpion only looks very incredible but in actual fact, it isn't as horrifying as what I had imagined.... It's all because of Divine Doctor Liu who made it sound so mysterious and naggy over it, almost scaring me to death!" Cang Po Hun wiped the sweat off his forehead and finally had the mood to crack a joke.

Liu Buyan gave him an angry glower, "I read this from an ancient record, and not just made it up, and definitely not scaring you! If it wasn't for the fact that Junior Sister has such a powerful ace like the True Phoenix Fire, this scorpion wouldn't be so easy to deal with!"

Huang Yueli heard them starting to bicker as he hastily said, "Enough, don't be naggy, there's not much time left! Guardian Hun, come over and look after Moying, I need to prepare to decode the mechanism."

When Cang Po Hun heard that, he immediately responded and changed positions with Huang Yueli.

Huang Yueli slowly walked closer and when she was just mere meters away from the blood pool, she stopped and her willowy slender brows creased ever so slightly.

"The smell of this blood pool... seems even worse now?" She couldn't help but cover her nose.

Liu Buyan said, "Perhaps it's because that Demonic Soul Red Scorpion's blood had also mixed into the blood pool so the smell is really unbearable. Junior Sister, I have a Water Eschew Pill and it can cut off breathing for a short period of time, so the sensitivity of your smell will also decrease to a large degree, have a pill and try it out?"

Huang Yueli shook her hands and rejected it, "No need, for safety's sake, it's better that I don't eat all these things in case any accidents happen and I'm unable to respond in time..."

She stood by the water and observed for a moment more before she continued to walk up ahead.

Liu Buyan and Cang Po Jun followed behind her and helped her clear the surrounding little scorpions.

Huang Yueli took a deep breath and said, "Alright, I'm going down now. It's best that you don't follow me otherwise if any accident happens, none of us will be able to escape!"

Liu Buyan was originally feeling extremely anxious and upon hearing this, he felt even uneasier

"Junior Sister, I feel that this poll is really very unsafe, you.... must be very careful!" He instructed once more.

If it was possible, he really wanted to stop Huang Yueli or perhaps helped her enter the blood pool.

But Liu Buyan also knew that now since everyone was trapped in this place, their lives were hanging by the thread and the only way out was in the blood pool below. Moreover Huang Yueli was the only Armament Master who could possibly decode this mechanism to open up the road.

Now there wasn't any chance to consider anything else, so Huang Yueli must absolutely take this risk!

Huang Yueli nodded her head, "Senior Brother, don't worry, I will be careful."

Saying that, her right hand formed a hand seal and a burst of True Phoenix Fire shot out towards the blood pool!

The penetrative and rich fire attributed Profound Energy seemed as though it was like cutting a tofu as it directly split the bloody water in the blood pool into two halves!

The Weeping Soul Red Scorpions in the blood pool had all turned into crisp black corpses under this full attack of hers!

The water split up onto two sides, revealing the stone platform at the bottom of the blood pool!

Even though it was just an instant, it was enough for Huang Yueli and the others to see the densely packed pattern arrays on the stone platform, and there were many other complicated arrays set up around it.

When Huang Yueli saw that, she didn't hesitate any longer and used the True Phoenix Fire to envelop her entire body as she immediately jumped down into the blood pool.

"Splash splosh" and the pool water which was separated had once again joined together above her head.

"Junior Sister!"

"Grandmaster Huang!"

Liu Buyan and Cang Po Jun immediately ran towards the side of the pool as they gazed intently at the centre of the blood pool.

### **Chapter 2372: Someone's still alive? (2)**

Unfortunately, no matter how they looked, they had no way to see through the thick bloody water, and all they could see was just ten meters deep.

They could only see small little bubbles that kept popping up from beneath the pool and it were fragmentary Weeping Soul Red Scorpions which caused a ruckus on the surface of the water.

Initially, they were still able to remember with reverence on Huang Yueli's instruction and maintain their cool, as they waited for her to activate the mechanism and surface on the water.

But after they waited for more than one hour, the two of them started to turn anxious and were finding it difficult to sit or stand.

Although it was said that to high levelled practitioners, not to mention holding their breath for one hour, even if it was to hold their breaths for an entire day, they would not drown to death but this after all wasn't an ordinary pool, but that extremely evil blood pool! Even if Huang Yueli was protected by the True Phoenix Flame, but that still made them unable to put their hearts completely at ease.

After a moment later, the water bubbles which were surfacing from beneath the water started to increase.

When Cang Po Jun saw that, he was slightly surprised with joy, "Divine Doctor Liu, looks like Grandmaster Huang is preparing to come up! I wonder if she has found any useful leads?"

However, Liu Buyan's face was filled with a grave expression, "... No good! Quick, quickly go save her!"

"What's the matter??.... Heavens!"

Before Cang Po Jun could ask him in time, the scene that unfolded in front of his eyes left him completely shocked!

...

Bottom of the blood pool.

Huang Yueli slowly sunk downwards and in the process of descending, she put on 120% of her concentration as she paid careful attention to the surrounding situation, occasionally eliminating those scattered red scorpions which swam over.

It took a considerable long period of time before she successfully descended onto the base of the water.

The blood pool's water was not only reeking with pungency and moreover it was extremely murky and dim, totally unable to use one's naked eye to see the situation below clearly.

But luckily, her senses were rather strong and she was able to use her concentration and touch to sense the surrounding situation.

When Huang Yueli entered the water, she had already put on her silver thread gloves and the moment her feet touched the base of the pool, she started to follow the centre's stone platform's surroundings and instantly started feeling her way about.

She didn't have much time and although the surrounding Weeping Soul Red Scorpions had already been pushed back by her, but they might still possibly gather and attack her and by then, it was necessary for her to retreat. So she could only grasp this free time to thoroughly check out the situation at the bottom of the blood pool.

Huang Yueli soon got things straightened out. The position under her feet was a round shaped huge large stone platform, which was exactly the same as what she saw when she was by the side of the blood pool earlier.

This round shaped stone platform was around two meters wide and the sides were surrounded by a circle of railing carved out from Crimson Blood Soul Jade and on the railing were various kinds of array pattern.

Huang Yueli walked upwards and touched the railing as she felt a sticky sensation immediately.

Right now at this moment, Huang Yueli felt extremely fortunate that she had put on her gloves before she came!

One just needed to think and they would know that this sticky fluid was probably practitioners' blood which had crystallised after being filtered and coagulated and perhaps it might even be mixed with those red scorpion's waste and that was really, really disgusting.

Huang Yueli endured the feeling of throwing up as she carefully touched the carved array patterns on the railing, as her mind kept on deducing and analysing these array patterns shape and positions, while reconstructing it at the same time.

These array patterns and mechanisms were all left behind from the ancient times and in terms of complexity, it was almost the same as when she was restoring the ancient mechanism in Ice Serpent Valley.

Huang Yueli instantly judged that she would not be able to entirely decode it in a short period of time.

But luckily, her aim was to activate the transportation array only.

### **Chapter 2373: Someone's still alive? (3)**

In order to attain this aim, she only needed to decode a little part of the array, as the difficulty dropped drastically.

Although she very much wanted to save all the Blue Profound Sect's disciples from the blood pool, but now that they weren't even able to save their own skins, there was no way for her to dabble too much in other matters hence she could only focus on thinking of a way to escape this place first. As for the others, they could only wait for Li Moying's illness to recover and after he regained his ability would he then be able to return to save them.

After Huang Yueli set her mind on this, the actions on her hands became even faster.

Not too long later, she had already touched the entire railing one round and at the same time, she already had a preliminary idea on how to activate the transportation array.

Her memory was very good and right now, she had already memorised all the array patterns in her mind.

Huang Yueli had more or less found out everything as she prepared to surface up the water to discuss with Liu Buyan and the others on their next course of action.

However, just as her leg kicked off and was preparing to float upwards.....

There was a sudden surge of powerful Profound Energy fluctuation coming from the water in the blood pool. The waters shook vigorously and the impact crashed against Huang Yueli's chest, almost causing her to lose her footing.

At the same time, she could distinctively sense that there was something in the water, and it was pressing near her at an alarming speed!

Alarm bells in Huang Yueli's heart instantly rang and her bodily reflexes were even faster than her brain as she immediately kicked off and swam upwards in her fastest speed ever!

However, a gigantic pincer came crashing down towards the top of her head!

Huang Yueli turned her head to one side to avoid the sharp, gigantic pincer's front and at the same time, instantly unleashed an explosive True Phoenix Fire in her body, enveloping herself and turning herself into a burning fire ball!

The thing which attacked her was apparently afraid of this extremely powerful deviant flame as its action took a halt!

Water could curb fire and the raging fire could not last for long in the icy cold pool water hence the full power of the True Phoenix Fire only lasted for three breaths before it extinguished completely.

But Huang Yueli had already grabbed hold of the chance, to try her best to surface out of the water.

Her head popped out to hear Liu Buyan crying out with all his might, "Junior Sister!! You... Quickly swim towards the right side and leave the blood pool immediately!"

Huang Yueli was still a little blurry but she subconsciously listened to Liu Buyan's instruction as she swam towards the right side!

As she swam, she used strength to flick away the bloody water which was stuck onto her face, bearing with the intense pain to keep her eyes open only to discover that... there were two gigantic Demonic Soul Red Scorpions which were pursuing after her relentlessly! Two!

These two Demonic Soul Red Scorpions seemed even larger than the one which they joined hands to kill earlier, as they brandished their huge pincers, as though it was two large axes, giving off a thud thud sound in the air!

This sound made Huang Yueli's head go numb as she only needed to use her toenails to think that if she was brushed by those pincers, it was enough to crush her head into a bloody mess.

What was worse of all was when she recalled what Liu Buyan said earlier. This kind of legendary gigantic scorpion was still able to suck away a practitioner's spiritual root...

She shuddered bitterly in the water and used up every ounce of her energy to swim forward furiously.

The only fortunate thing was that after she surfaced out of the water, the True Phoenix Fire didn't extinguish that easily.

Huang Yueli attacked the Demonic Soul Red Scorpions behind her with True Phoenix Fire as she swam in the water.

Liu Buyan and Cang Po Jun had no longer cared as they dashed forward and attacked the red scorpions with full power, hoping to divert their attention.

#### **Chapter 2374: Someone's still alive? (4)**

However, these two Demonic Soul Red Scorpions seemed as though there was an unspeakable stubbornness about them as they totally ignored both ninth stage realm peak practitioner's attacks, as they just worked themselves up to stick behind Huang Yueli's back. No matter how Liu Buyan and Cang Po Jun tried to provoke them, they totally didn't even turn their heads back to take a second look.

Liu Buyan was so anxious that he almost jumped up and howled, "Damn it! You retarded scorpions, quickly look over here! We are in ninth stage realm and our blood and qi's energy are definitely more flourishing than that young lass, do you know how to look for food or not? I'm definitely much more delicious than her?"

He was so infuriated that he spoke out nonsensically.

If it wasn't for the fact that the occasion wasn't right, Huang Yueli almost burst out laughing.

Actually, she knew clearly that these two Demonic Soul Red Scorpions weren't silly in following after her, and that's because her innate talent was much higher than Liu Buyan and the others!

If the contents of what Liu Buyan had read in the ancient records was true, the Demonic Soul Red Scorpions were not after a practitioner's blood, but the legendary spiritual root! It was imaginable that her spiritual root, to those red scorpions, should be extremely delicious...

But with Liu Buyan and others' disruptions, at least, the speed of the Demonic Soul Red Scorpions decreased slightly.

Huang Yueli expended her full effort to swim forward and she had a rough gauge in her mind, feeling that she should still have a chance to swim onshore before she was caught and eaten up.

Even though the situation was extremely anxious, but Huang Yueli was still able to maintain her composure while moving and battling at the same time, totally not disoriented at all.

On seeing that she was just a short distance away from the shore, Huang Yueli worked up all her hard work to move her two arms as her speed increased, hoping to reach the shore at one go!

However, at this moment...

She heard a splashing sound and a water screen suddenly rose up in front of Huang Yueli!

At the same time, a wave of strong Profound Energy fluctuations came surging over!

Huang Yueli's eyes were blurry and immediately following that, she saw a gigantic sized Demonic Soul Red Scorpion surfacing abruptly from the water!

The third Demonic Soul Red Scorpion!

This Demonic Soul Red Scorpion, although much smaller than the other two, but was at least four to five meters tall and its two huge and sharp pincers were dancing around as its strong and powerful tail kept swaying to and fro.

A pair of tiny eyes protruded out as it was gleaming with brutally cold light, as it stared at Huang Yueli intently.

Huang Yueli almost died of fright because this Demonic Soul Red Scorpion was simply too close to her! If it wasn't for the fact that her reaction was fast enough, by this moment she would have long dashed under the pincers of the third Demonic Soul Red Scorpion, to become a delicacy who had offered herself.

Luckily, her reaction was shockingly swift and she was able to stop in the nick of time.

But even so, the danger that she was facing totally didn't lessen at all!

Because now there were two Demonic Soul Red Scorpions chasing after her and the distancing was shortening whereas right in front of her was a brand new Demonic Soul Red Scorpion blocking her way!

Under the blockages from the front and the back, she had no more way out!

It would only take two breaths for those Demonic Soul Red Scorpions to chase up to her!

Even though she turned towards the left or the right, she would only be able to swim for ten over meters and the Demonic Soul Red Scorpions's huge pincer only needed to brandish and it would be game over for her!

Even if Huang Yueli was extremely knowledgeable and had rich experience where she had faced various kinds of fatal crisis, she felt a thorough bitter coldness that cut right into her bones right now!

"Damn it! Why would there be a third Demonic Soul Red Scorpion? Just how many big scorpions are there in this pool??"

"Dumbass, retard, look over here! Junior Sister that skinny bone, wouldn't taste good at all!"

### **Chapter 2375: Someone's still alive? (5)**

Liu Buyan was so anxious that he kept fidgeting, wishing that he could put himself on a plate, add some sauce and deliver himself to the mouths of those Demonic Soul Red Scorpions.

However, they were just uninterested in him.

Liu Buyan and Cang Po Jun directly jumped into the blood pool and unleashed their most powerful Profound skill, as they did not hold back while unleashing their attacks on those Demonic Soul Red Scorpions!

But that was only able to stop them for a couple of breaths!

"Cre~ack... Cre~ack....."

The Demonic Soul Red Scorpions tough shells started to surface cracks under the two ninth stage realm peak practitioners' attacks!

Red scorpions body swayed a little as they lifted up their pincers and turned towards Liu Buyan and Cang Po Jun.

Liu Buyan's heart leapt with joy as he hurriedly provoked the other party, "Quickly come, look this way! We're the two who injured you, quickly come over!"

For that one moment, the Demonic Soul Red Scorpions seemed as though they were about to pounce towards them but however, they merely hesitated for a short duration of time before they turned right back!

"Damn it!"

Liu Buyan cursed irritably but they weren't able to stop those scorpions from charging towards Huang Yueli once again!

Luckily, he managed to snatch some time for Huang Yueli, which allowed her to come out with a swift judgement to open up the Sky Phoenix Ring's space and prepared to let Little Phoenix out!

Now that it had come to this, she couldn't be bothered to consider if she would expose her own secret, at least she ought to continue living before she could consider the future!

However, just as Huang Yueli was about to unleash her last ace.....

A wave of Profound Energy fluctuation suddenly came from the middle of the blood pool and following that, a ray of golden light flashed past.

A figure dressed in white clothes suddenly appeared above the blood pool.

Immediately following that, they heard the white robed man making a surprised sound as he spoke out astonishedly, "What's going on? Someone's still alive..... in this Blood Moon Great Array?"

Cang Po Jun and the others' attentions were all concentrated on Huang Yueli as they unleashed their full strength to attack the Demonic Soul Red Scorpions with no spare concentration to care about other things.

Even if they noticed the golden light which flashed past from the centre of the blood pool, they had no time to take a careful look.

It was right until the white robed man's mild and tranquil voice rang before they abruptly got a shock, and realised that... someone actually came inside to this array!

"Who... who is that!"

To be able to enter the centre of the Blood Moon Great Array without a trace, this absolutely wasn't an ordinary person!

Alarms in Liu Buyan's heart instantly started clanging loudly!

However, before he could say anything else, the white robed man's figure suddenly flashed and at the next moment, he already appeared in thin air, above Huang Yueli's head!

Even top rated exponents like Liu Buyan and Cang Po Jun weren't able to see his action clearly!

Just as Liu Buyan lost the colour in his face, the white robed man had already flicked the sleeve of his robe and a hurricane was swung out following his action and the two brandishing Demonic Soul Red Scorpions instantly flew up into the sky under one move of his, as they crashed heavily outside the blood pool!

He turned around and met with the third Demonic Soul Red Scorpion in front of Huang Yueli as he prepared to make a move. Just then he saw that red scorpion shiver and it actually didn't dare to attack him, but instead it slowly retreated backwards to a distance away before it submerged itself into the water and vanished without a trace.

Those two Demonic Soul Red Scorpions which were swung out of the blood pool didn't sustain heavy injuries, and flipped around to crawl up from the ground.

But they didn't dare to climb back but silently snuck back to the bottom of the water from the other end of the blood pool.

All these happened too quickly and those four present totally had not managed to recover their senses, as all of them looked with their eyes popping out and mouth agape, at the white robed man.

### **Chapter 2376: Someone's still alive? (6)**

The white robed man turned his head back as he grabbed Huang Yueli's collar and pulled her up from the bloody water, leaving her on shore.

After that he slowly landed onto the ground.

Even though earlier he was in the blood pool, brazenly took action to push back those three ninth tiered Demonic Soul Red Scorpions in an overbearing manner, but his clothes were not stained with a single bit of the bloody water and his entire white robe was still spotless and clean.

He put his hands behind his back and looked at the group as he asked, "Who are the few of you? Have you all been captured by that Lord Zhan to feed the scorpions?"

Upon hearing his question, Huang Yueli went into a daze as she lifted her head to look towards him.

The white robed man was wearing a hoodie and a majority of his face was covered under it hence she wasn't able to see his looks clearly, only managing to see that pair of warm yet resolute eyes, his gaze was filled with substance as it brushed past everyone.

Not knowing why, she somehow felt as though... she had met this white robed man somewhere, and somehow felt a sense of familiarity for no apparent reason towards him.....

But this kind of peerless and powerful strong exponent... where could she possibly have met him before?

Speaking of that it was rather strange. In the past she had always assumed that Mu Chengying was Soaring Heavens Continent's Number One Top Expert and moreover he had been reigning Soaring Heavens Continent for ten over years and he indeed had an overwhelming advantage in terms of ability in front of anyone!

However, after her rebirth, she had already met with two strong exponents who had the same kind of ability as Mu Chengying in his past life.

One was Lord Zhan, the other was this white robed man.....

What on earth was going on?

Huang Yueli's expression was puzzled and her brows creased slightly. Liu Buyan immediately took a step forward to block her behind him.

He was slightly defensive as he looked at that white robed man and brushed past the important details as he dwelled on the trivialities, "We are disciples from Blue Profound Sect and we have formed a group to come to Northern Ice Fields on an experience learning trip but whoever knew that we were captured by that Lord Zhan and he even threw us to this goddamn place! Who is your distinguished self?"

White robed man could tell that he was telling half of the truth but he didn't bother to continue asking and only raised his brows.

“Me? I’m....” He paused for a moment as though he was thinking of what to say and after a short pause, he shook his head and smiled, “Forget it, I’m just a nobody and even if I tell you my name, you don’t know me anyway!”

Liu Buyan and the others looked at each other in dismay, not knowing what else to say.

A peerlessly strong exponent with such ability, no matter what, he couldn’t be a nobody in the entire Soaring Heavens Continent, unless.... He and Lord Zhan had the same motive in mind?

This was because ever since they entered the Snow Phoenix Palace, they had been advancing gradually and entrenching themselves at every single step as they met with countless dangers and it was these which made them filled with security towards every single thing that appeared in this underground palace.

Liu Buyan replied, “Since your distinguished self is not willing to reveal your name, then let’s forget about it. But I still need to ask your distinguished self, what relationship do you have with that Lord Zhan? And why have you appeared in the Blood Moon Great Array?”

The white robed man met with his eyes and laughed, “You’re worried that I will harm you all? To tell you the truth, these Demonic Soul Red Scorpions are all reared by Lord Zhan here, his motive is to draw out the practitioner’s spiritual root to refine into pills. The few of you have outstanding innate talent and are all good ingredients for refining pills! If I’m one of Lord Zhan’s men, then I wouldn’t have bothered to save you all earlier! Feeding you to those red scorpions, wouldn’t that save me the trouble of explaining?”

Hearing this, Liu Buyan’s face was filled with a slight hint of embarrassment.

### **Chapter 2377: Bai Liufeng appears (1)**

What that white robed man said was right, if he wanted to harm them, he just simply didn’t need to help and that would do.

Speaking of that, he was considered as their saviour!

Liu Buyan kept on interrogating this person like this, it was simply an extremely disrespectful thing.

But now they were stuck in this evil goddamn place where the Blood Moon Great Array was, and whereas he needed to protect his Junior Sister and Li Moying behind him, he had no choice but to choose to act prudently.

“This... what your distinguished self said is right! Many thanks to your distinguished self for lending a helping hand. We will definitely return the grace that you have shown us today, in future!”

White robed man seemed as though he didn’t recognise Liu Buyan so naturally he didn’t know just how valuable this Number One Divine Doctor’s favour was worth.

He shook his head indifferently, “Just merely lending a hand, no need to take it to heart. This place is set up with the Blood Moon Great Array and it would not stop absorbing a practitioner’s Profound Energy so I’d better bring you guys out of this place first!”

“Leave this place??” Hearing that, everyone gave an astonished look!

Earlier they tried to think of all the ways and Huang Yueli even risked entering the blood pool, almost being bitten to death by those Demonic Soul Red Scorpions and even if it was that, they were still unable to find a way out.

Whereas this white robed man, actually just casually spoke out to say that he would bring them out?

Thinking of how the white robed man suddenly teleported to the water above the blood pool, that relaxed look, it seemed as though this was his turf which he could enter or leave at ease anytime...

Thinking of this, the few of them present all felt that it was rather fascinating and earlier, they had already erased a little bit of their security and now the alarms were ringing once again.

Liu Buyan spoke out, "Your distinguished self can really bring us out of this place? We have an extremely outstanding Armament Master among us but yet we weren't able to find a way to leave this place! Moreover if your distinguished self is not on Lord Zhan's side, then you must have something important to do since you're taking the risk to enter the Blood Moon Great Array? If you bring us out of this place now, will it delay your matters?"

White robed man took a look at him with a smile which didn't quite look like a smile, evidently seeing through his defensive heart.

However, he wasn't angry as he merely gestured towards Li Moying's direction and said, "I really do want to do something first before bringing you out, but you have a comrade who is injured, isn't it? If you keep on staying in this array, even if he isn't bitten by those red scorpions, it would also result in a huge injury on his blood and qi and if time dragged on, even the best Pill Master will not be able to save him!"

When Liu Buyan heard that, his face flushed red once again.

Hearing the meaning from these words, he seemed as though he was being kind hearted. He could tell that Li Moying was almost dying hence he put his own matters aside to help them, but was still being suspected by them in this manner.

"This... then we'll have to trouble your distinguished self..."

Liu Buyan turned his head back to take a look at Huang Yueli and on seeing her nodding her head, he didn't hesitate any longer as he agreed to it.

The white robed man nodded his head and without saying anything else, his figure swayed and appeared right above the blood pool again.

His right hand raised up and the blood pool's serene and muddy water split into two sides, his actions were light and easy, as though it didn't take any effort at all.

This scene was recorded into Huang Yueli's mind, as her heart was blushing with shame.

Earlier she literally used up all her strength to make the bloody water split open for a second and moreover, it was all relying on the heaven defying deviant flame True Phoenix Fire.

Whereas this white robed man used a wind attributed Profound Skill and she didn't know if he had concealed his ability or if he indeed was a wind attributed practitioner....

Wind attribute towards Demonic Soul Red Scorpions couldn't curb them much and to be able to create this kind of effect, it could only be due to his profound skills.

### **Chapter 2378: Bai Liufeng appears (2)**

The white robed man split up the bloody water to reveal the stone platform on the bottom of the blood pool, and after that, he slowly descended onto the stone platform.

On seeing his hands forming a gesture to strike out a certain number of hand gestures, following that the outer boundary of the stone platform's array pattern seemed to light up one after another, and lastly when the last bolt of golden ray ascended, it enveloped the entire stone platform in the middle.

These few hand gestures were almost the same as what Huang Yueli had previously researched on earlier.

She could tell that white robed man should be a powerful Array Master with great abilities and his array skills mastery might possibly be higher than Cang Po Yu, who was known as the Continent's Number One Array Master.

Not only so, in the process when the white robed man activated the array, the blood pool's water started to be obstructed by the wind attributed Profound Energy to a certain distance away.

Huang Yueli and the others were all dumbstruck from seeing this.

The white robed man urged, "What are you all looking at? The array is going to be activated immediately, if you still don't head over, then you won't be able to leave!"

The few of them seemed as though they had woken up from their dream and Huang Yueli carried Li Moying to enter the array first, followed by the others who were lined up behind her closely.

The moment they all stepped into the array, the golden light expanded and completely blocked their sight.

Not knowing how long it had been, by the time the crowd regained their vision and opened their eyes, they discovered that they had already stood on the snowy grounds again, and in front of them was a vast and boundless land of white snowfield and ice mountains.

"Ah, we're out! We're finally out! We've really left that goddamn place!" Cang Po Jun almost jumped up in excitement.

They entered the Snow Phoenix Palace only for a total of two days but they had experienced numerous life and death crisis in the Underground Palace and even trapped in the Blood Moon Great Array, so they almost thought that they wouldn't be able to leave this place!

After experiencing these matters, to be able to see this ordinary, desolated snow scenery, it made them all feel extremely touched.

The white robed man put his hands behind his back and said, "Alright, this is the foot of Lone Sky Summit. I believe you should know your way to leave the Northern Ice Fields. I still have something important to handle so I won't be seeing you off!"

When Cang Po Jun heard that, he immediately stood up to bow, showing his respect to that white robed man as he voiced out his gratitude from the depths of his heart, "Many thanks to your distinguished self for your help. We cannot thank you more for the grace that you've shown us. If Senior needs anything in future, just come over to Blue Profound Sect..."

"Wait!" Cang Po Jun had not even finished his words when he was interrupted by Liu Buyan.

Liu Buyan walked in front of the white robed man and first hesitated for a moment, apparently feeling a little difficult but in the end he still clenched his teeth and spilled out the words in his mouth.

"This... Senior, many thanks to your distinguished self for helping us. Actually... we shouldn't give you any more trouble but... as you can see, we have a comrade who is seriously injured and to tell you the truth, if you're unable to refine the medicinal pill within six days to save him, he would most probably be crippled! We don't have much time left and by the time we leave the Northern Ice Fields to save him, it will be too late! Your distinguished self should be extremely familiar with the Northern Ice Fields, do I wonder if you can tell us if there's any place which is slightly more secure and would not be disrupted? We need a place that we can stay for a few days to help our comrade treat his injuries first."

The white robed man jolted when he heard that and his brows creased slightly, apparently feeling like he was put in a tight spot.

Liu Buyan finished his words and didn't say a single word more, just waiting for the other party to reply.

Actually he also knew that the request that he stated, made things a little too difficult for him.

The white robed man's identity was a mystery and he had such powerful ability, but yet he refused to tell his own name so apparently he must have something secretive that he needed to do.

### **Chapter 2379: Bai Liufeng appears (3)**

Under this kind of situation where they came together by chance, that person was able to draw time out to take the risk to save them from the Blood Moon Great Array and that itself was a huge favour.

Now, he even asked him for help to find a safe place for treating injuries...

Thinking of this, it really was asking for a foot when they had gotten an inch.

If it was usual timed, Liu Buyan would never be so indiscreet even if it took his life, but now Li Moying's life was on the brink and as compared to past life best buddy's life, being embarrassed was considered as nothing so he had to grab on to any chances he had to give it a try.

The white robed man hesitated for a while and still shook his head, "Gentlemen... it's not that I'm not willing to help you. The truth is... The Sacred Phoenix Race and I have been enemies for many years and Lord Zhan views me as a thorn in his flesh so I'm not considered safe in the Northern Ice Fields, nor do I have any way to help you!"

Everyone could tell the reluctance in white robed man's words.

But this was human nature and no one was able to criticize him for this.

Liu Buyan didn't know what he should say momentarily and at this moment, Huang Yueli handed Li Moying over to Cang Po Hun, as she stood out.

"Senior, I don't know why you are enemies with Lord Zhan but since you've taken the risk to enter Snow Phoenix Palace, then this junior boldly deduces that you should be searching for something in the Underground Palace?"

The white robed man heard her opening her mouth to speak and his body jolted vigorously, as he immediately turned his head towards her.

Huang Yueli thought that it was the contents that she had touched that attracted his attention hence she started speaking even more confidently, "Senior, allow me to introduce myself. I am a seventh ranked Armament Master and although my ability isn't very high, but I believe I have enough experience and absolutely not lesser than the other Armament Masters. I can tell that Senior's mastery in array skills is very high but slightly weakening in terms of mechanisms. No matter what you plan to do when you enter Snow Phoenix Palace, if you cooperate with me, it will definitely be much more convenient."

"As long as Senior is willing to help, to find us a nearby place which is safe and concealed, I will try my best to help..."

Huang Yueli's words were not completed when she suddenly opened her mouth wide, and all the remaining words were all stuck at the back of her throat.

The white robed man suddenly turned around and walked towards her in a few big strides, his pair of eyes looking straight at her, that gaze carried hints of urgency and excitement.

"Sen... Senior?" Huang Yueli frowned, instinctively feeling something was not quite right and she subconsciously took a step backwards.

Whoever knew that white robed man also followed suit and took a step forward, moreover as though he was afraid of her escaping, he held on to her chin and lifted up her face, looking closely without blinking at all.

His actions were very sudden hence right from the start, Liu Buyan and the others were not able to respond in time.

By the time he restrained Huang Yueli, the few of them were then alarmed and the Profound Armaments in their hands were all unsheathed, as they surrounded the white robed man in the centre.

"Your distinguished self... what are you trying to do? Quickly let go of my Junior Sister!" Liu Buyan held the Ossein Fan in his hands rightly, as he stared hard at the white robed man's hand.

Taking action towards a lady without any prior indications, what was this considered as? Could it be that he was smitten by Huang Yueli's beauty?

To think that he had previously assumed that white robed man was a good person! He actually... actually was so dirty-minded?

Liu Buyan was worried that he would injure Huang Yueli hence he didn't dare to act recklessly.

Cang Po Jun's brows were also tightly knitted, "Your distinguished self, what are you trying to do to Young Miss Bai? She's only sixteen this year and moreover, she's already engaged to our Young Sect Master!"

#### **Chapter 2380: Bai Liufeng appears (4)**

Cang Po Jun emphasized the later part of the sentence.

From the white robed man's looks, it didn't seem as though he wanted to harm Huang Yueli's life then the most possible likelihood of such aggression towards her, apparently was because he had some evil intentions.

This kind of refined scum, was really not rare among practitioners.

But usually such people were mostly lowly hedonistic disciples whose cultivations were mediocre, and they would long have been swatted to death by one slap from Huang Yueli.

Whereas this white robed man's cultivation was unfathomable!

He had also taken the initiative to strike out, restraining Huang Yueli so in this kind of situation, everyone couldn't find a way to fight back momentarily.

However, the white robed man seemed as though he didn't notice the "engagement" part which Cang Po Jun was talking about, as he only heard the first part of the sentence.

He stared at Huang Yueli for a while more when he suddenly lifted his hand to touch her face.

Huang Yueli's eyes grew wide, thinking that she would feel very disgusted but however, when the white robed man's hand really touched her skin, she didn't feel unbearable but on the contrary, there was an indescribable familiar feeling of closeness.....

Originally she had already retrieved her set of sword array from her realm ring, preparing to take action but right now, she couldn't help but voluntarily stopped...

Cang Po Jun and Liu Buyan were extremely tense as they already couldn't take it and struck out.

"Stop it, release Junior Sister!"

The two men struck out towards the white robed man simultaneously but however, they weren't even able to touch the corner of his sleeve when they were directly thrown back from the surrounding Profound Energy which the white robed man had unleashed, causing them to fly off.

Luckily, the white robed man didn't use too much of his ability hence the two of them weren't really hurt, only landing on their butts on the ground, cutting an extremely sorry state.

But at this moment, they weren't able to care about these as they immediately got back up on their feet.

When they came near, the two of them realised that the white robed man's action was totally different from what they had imagined.

He stretched out his hand and brushed it gently past Huang Yueli's face, but it didn't seem like he was taking advantage of her. Instead he used his perfectly white sleeve to clean her blood stained face which she was tainted with in the blood pool, revealing her originally gorgeous little face.

"You....." On seeing Huang Yueli's looks, the white robed man sucked in a breath of cold air!

He instantly asked in a low voice, "Earlier they said you're sixteen this year? Where are you from?"

Huang Yueli was stunned and at the same time, she shuffled one step back but this time the white robed man didn't stop her and he even put his hand down.

Huang Yueli's gaze landed on the white robed man's blood stained sleeve as she subconsciously replied, "I am a direct disciple from Blue Profound Sect....."

"No, I'm not asking about this!" White robed man interrupted her, "What I meant is... before you joined Blue Profound Sect, which kingdom did you come from? Who are your parents?"

Huang Yueli blinked and suddenly as though she seemed to have understood something, she stretched out her hand to lift the white robed man's hood!

An eminent and kindly face was revealed under the sunlight.

Huang Yueli met with that pair of extremely similar eyes and her heart stirred with excitement.

She took a deep breath and after calming herself down, she answered, "I am called Bai Ruoli and I am from South Yue Kingdom located in the Southern Sky Continent. My father is Marquis Valiant Martial Bai Liufeng but when I was very young, he had already gone missing....."

Before she could even finish her words, she was hugged by the white robed man.

He hugged her very tightly and moreover, his body was trembling non-stop.

"You... you're indeed Li'er.... Li'er, I'm your father!"
