

## Weaponsmith 2461

### Chapter 2461: Blue Profound Sect's change (6)

But now, because of Wei Zongguang's betrayal, Elder Chen and the others had directly jumped over the seven bolts of the mountain protection array and invaded right in, into the more important core area of the entire Sect — Levitation Sword Palace!

Whereas within Levitation Sword Palace, although it had the strongest sword array, but that required the Sovereign to activate it personally.

Even if Cang Po Yu was the Number One Array Master in the Continent, it was not possible for him to casually use these ancient arrays!

If Elder Chen and the others' motives were really to occupy Blue Profound Sect, the possibility of him stopping them from doing so... was practically equivalent to zero!

Cang Po Yu's mind started racing swiftly but his feet didn't back down at all.

He spoke out coldly, "Hall Master Wei, aren't you asking the obvious? Three months ago, Young Sect Master and Young Miss Bai left the Sect together in the Snow Cloud Sky Ship and you were also present while respectfully sending them off so you should know that they haven't returned at all! Where do you want me to find them?"

Wei Zongguang still had a proud smug on him as he spoke out immodestly, "That's right, I didn't see Young Sect Master Li entering from the main entrance but he had offended everyone from the Six Sacred Lands at one shot and if I were him, I wouldn't dare to use the main entrance when I return as well right? Moreover speaking, even if Young Sect Master really isn't around, if such a huge thing happened, Guardian Yu will surely have to inform Sovereign Mu right? Let Sovereign come out personally to settle this, which is the most appropriate action to do."

When Elder Chen and the others heard this, they instantly echoed in agreement.

"Isn't that right? Invite Sovereign Mu to personally come out!"

"Li Moying is his only direct disciple and if we can't find Li Moying, finding Sovereign Mu is the same!"

"If Sovereign Mu is able to give us an explanation, that's not impossible as well. Invite him out to meet all of us!"

"This matter isn't something that a Guardian like you can make decision on, we want to meet Sovereign Mu!"

The crowd all started speaking out and casted the target towards Mu Chengying!

Cang Po Yu's gaze was icy cold as he had already understood what was going on. The matter was directed towards what he had guessed in the worst possible scenario — they were really directed at the entire Blue Profound Sect!

Moreover, they probably already knew the truth that Mu Chengying had not come out from his "closed door"!

Cang Po Yu laughed coldly, "Sovereign is currently cultivating so what identities do you bear, to even have the qualification to invite him out to meet you? I'd advise you not to continue hooting, Levitation Sword Palace isn't a place where you can behave atrociously and if you don't scam from this place, the minute you alarm Sovereign, beware that your lives cannot be saved!"

He was still carrying his last hope, to use Mu Chengying's name to scare them off so that they would not dare to continue being rash.

But alas, Wei Zongguang quickly dashed his hopeful thinking.

"Guardian Yu, everyone here are intelligent people so don't use these words to fool us! I've long wanted to say that you and Guardian Jun had always been saying that Sovereign is already out of close door and moreover his ability had increased greatly! But other than you guys, who else has seen Sovereign Mu himself? Instead it is this Li Moying the so-called Sovereign's direct disciple who had been self-assuming the identity of Young Sect Master, who even dares to order us old timers around!"

"To tell you the truth, I've already sent someone to keep watch on Levitation Sword Palace for many days now and this place totally doesn't have Sovereign's aura, and there isn't anyone who can verify that Sovereign is really still alive! This makes me suspect that the so-called Sovereign coming out from 'closed door', is only a scam which you few Guardians had come out with together, with the aim to let Li Moying that fellow to get into the position of Young Sect Master!"

#### **Chapter 2462: Blue Profound Sect's change (7)**

Wei Zongguang looked at Cang Po Yu's unconcealable astonished expression as his face was filled with a delighted smile.

"Guardian Yu, I'm very clear on the scheme that you guys are planning! Li Moying is young and immature and you few Guardians are able to nurture him into your puppet to use the authority for your own use! This is really a good scheme to plan!"

Saying that, he pointed at those Sky Chart top exponents who were eyeing them just behind him.

"Your despicable action is something that I simply can't stand and today I've invited Elder Chen and the others here to help uphold justice! Either you get Sovereign Mu over clearly and let everyone be a witness, otherwise..... I will represent the entire Blue Profound Sect to get rid of you and Cang Po Jun, these two vermin!"

When Cang Po Yu heard him mentioning Cang Po Jun's name, he suddenly felt terrified, "Big Brother?? What have you done to my Big Brother? Hadn't he gone to the Northern Ice Fields?"

Hearing that, the few Elders all started to laugh as they said, this is just too coincidental. The few of us were having a major discussion and it just happened that Guardian Jun bumped into us. He heard that we wanted to expose his scheme and his embarrassment turned into anger as he wanted to strike out at us! But no matter how overbearing his ability is, he still isn't Sovereign Mu, that kind of peerless top exponent, so how is he able to deal with all eight of us?"

"You all... you all actually..." Cang Po Yu's face instantly turned gloomy.

Wei Zongguang hurriedly said, “Guardian Yu don’t worry, we didn’t wanted Guardian Jun’s life and as long as you’re willing to coordinate with us to hand over Sovereign’s seal, then pledge your allegiance towards us, I will naturally let you two brothers reunite. How about this? This business isn’t a loss right? We know that since you’ve been brought up by Guardian Jun since young and you’re indebted towards him so now all you need to do is to just move your fingers and you will be able to save his life. If you’re not willing to do so, then aren’t you being too ungrateful?”

When Cang Po Yu heard that Cang Po Jun was still alive, he silently heaved a sigh of relief.

He stared coldly at Wei Zongguang, as he gritted his teeth and said, “So you want to be Blue Profound Sect’s Sovereign! Just you... are you even fit? Don’t waste your time, it’s not possible for me to hand over Sovereign’s seal to you!”

Hearing that, Wei Zongguang’s smile slowly disappeared.

“I’ve already given you a chance and since Guardian Yu doesn’t know what’s good for you, then don’t blame us for being discourteous!”

His words had just landed and the few Elders all took a step forward, as they surrounded Cang Po Yu.

From what they thought, no matter how powerful Cang Po Yu was, he was just a little better than them. This bit of disparity, under the special circumstance where the number of people had outweighed him, no longer posed any threat at all.

As long as they slightly spent some effort, they would be able to injure Cang Po Yu seriously.

Cang Po Yu took a step backwards as he swiftly congealed the Profound Energy in his body and his imposing aura gradually rose up!

Wei Zongguang’s pupils contracted as he cried out sharply, “We can’t allow him to succeed accumulating his power, everyone let’s strike together and first take down Cang Po Yu!”

Elder Chen and the others responded and took action in unison!

But just at this moment, Cang Po Yu had already completed the process of accumulating his power and his right hand rose up but he didn’t attack Elder Chen or the others, but instead patted his own chest.

Following his action, a stream of blood was spurted out from his mouth as it sprayed it out towards the skies of Levitation Sword Palace!

A loud “buzz” reverberated!

Ten thousand swords in the skies howled!

A portion of Levitation Sword Palace’s sword array was forcefully activated under the drive of his inherent fated blood essence!

### **Chapter 2463: Blue Profound Sect’s change (8)**

In the skies came the crashing and vibration sound from the sword array and following that was a burst of extremely powerful Profound Energy windstorm, as it instantly swept across the entire main hall!

Everyone standing in the main hall weren't able to take on such a vigorous impact and were instantly sent flying out!

Whereas for Cang Po Yu himself, his face had instantly turned white like a sheet of paper, as though all his vitality had been sucked dry in that instance.

At the same time when the sword array was activated, his body started to turn limp as he fell down towards the back slowly.....

Cang Po Yu had clearly sensed that the energy in his body was swiftly depleting.....

Based on his array skills cultivation, and adding on to the many years of research on Levitation Sword Array, he indeed was able to use his inherent fated blood essence to forcefully activate the sword array but the price to be paid was extremely heavy!

For example a huge amount of inherent fated blood essence exhausted his body's vitality and he would probably die here today.....

Cang Po Yu only felt his consciousness slowly disappearing.

But just at this moment, his ears suddenly echoed a burst of terrified crying, "Second Brother!!!"

Immediately following that, Cang Po Hun suddenly pounced towards his body and held on to him, "Second Brother, Second Brother, you... what's wrong with you? Why have you turned out like this!! Second Brother, wake up, please wake up!"

He had lost his head out of fear and was shaking Cang Po Yu's body hard.

Liu Buyan was just a step away from him as he chased up, "Guardian Hun, calm yourself down! Stop shaking Guardian Yu like this, otherwise he will really be dead! Quickly, lay him down flat!"

Cang Po Hun then put him down in a fluster and anxiously said, "Divine Doctor Liu, you must save my Second Brother!"

Liu Buyan took out a medicinal pill and fed it to Cang Po Yu.

"Don't be anxious, with me around, I will definitely be able to reclaim his life, but first of all, you must not shout again!"

Whereas on the other end, Wei Zongguang, Elder Chen and party had all been sent flying out from the sudden explosive sword array!

Although Cang Po Yu tried all his best, but he was only able to display ten percent of the sword array's energy, but this wasn't something that Wei Zongguang and party could take.

The few of them landed on the ground and all of them suffered heavy injuries. Not only had their bones shattered into several parts, moreover their meridians were all seriously damaged.

Four of them with slightly weaker abilities had fainted on the spot and they gave out more air than taking it in, apparently they were most probably not able to stay alive!

As for the remaining four living people, they also panted for half a day and all started to take out their life preserving medicinal pill as they just swallowed it without a care before they could barely move.

“Wei.... Hall Master Wei, what should we do now! Cang Po Yu that fellow, actually has a way to activate Levitation Sword Palace’s Thousand Sword Array!” Elder Chen’s eyes turned black.

Wei Zongguang’s eyes flashed past with a cold glint, “I’ve heard that the sword array that he cultivates uses inherent fated blood essence to drive all the arrays but that’s only his last fight! Now even if he’s not dead, he’s probably almost there! We must grab this opportunity to enter Levitation Sword Palace once again to kill him, then search for the Sovereign’s seal!”

Seeing Elder Chen still in a shocked look, he persuaded again, “Hurry on and get up! We must use Li Moying’s incident to seize the Sovereign’s authority! Once this chance has passed, there will not be a second chance anymore!”

However, Elder Chen suddenly stared towards the back of Wei Zongguang, revealing an extremely terrified expression!

“What’s the matter?” Wei Zongguang asked puzzledly.

Just at this moment, he heard a mellow and familiar voice coming from his back.

“Hall Master Wei, I heard that you wanted to criticise This Seat?”

#### **Chapter 2464: I have never betrayed you (1)**

Wei Zongguang’s entire body shook, as his brain buzzed and for that one instant, he thought that he had heard wrongly!

His entire body turned icy cold as he turned around.

Under the impact of the Thousand Sword Array, the entire Levitation Sword palace had suffered a sizable amount of damage and the entire ground’s dust flew upwards. The wall had grains of sand as it had not been totally settled by the Profound Energy hurricane, as it continued to swirl in mid-air.

Smoke and dust slowly subsided and a blurry figure walked out slowly from the direction of Levitation Sword Palace.

Wei Zongguang’s eyes widened as he stared in disbelief at the incoming person, “Li... Young Sect Master?”

Li Moying’s eyes were gleaming with a cold and harsh bitter gaze and his expression was icy cold as he looked down at those few people who had not managed to climb up.

“Aren’t you all trying to confront This Seat? Don’t you need This Seat to give you an explanation? Now that This Seat is back, you can now ask whatever you wanted to ask!”

However, at this moment, who dared to speak up in front of him.

Wei Zongguang, Elder Chen and the others were seriously injured and were half kneeling on the ground. Under Li Moying’s overbearing and imposing manner, they felt a burst of bitter coldness from head to toe, as it ran through their entire bodies.

Seeing Li Moying's pair of dignified peach blossom eyes, everyone's hearts were suddenly distracted, thinking that the person they had seen was not Blue Profound Sect's Young Sect Master but... Mu Chengying himself!

Li Moying laughed coldly, "What's the matter? Nothing to convey? Since there's nothing to say, then don't blame This Seat for not giving you a chance to appeal... Men, drag them all down!"

Behind him, Li Moying's guards had all responded by replying vehemently with a "Yes" and they all started to walk up to pull them away.

Wei Zongguang had long heard that Li Moying's methods were much harsher than that year's Mu Chengying and he knew that if he really was caught by Li Moying, his outcome would be incomparably miserable.

He immediately grabbed a cultivation raising hardcore medication as he stuffed it into his mouth.

In a moment, the Profound Energy in his body started to burn at a self-destruction speed and his surrounding imposing manner also raised swiftly!

Under this kind of medication's agitation, he was already unable to feel the pain on his body and at the same time, he was able to sense his own ability doubling in an instant!

This medication could double his battle power but the side effects were too scary. In just two hours, his cultivation would at least drop by three levels! To most practitioners, this was a price which they could not accept!

But Wei Zongguang was now doing this to save his life, hence he naturally could not be bothered about other matters.

Wei Zongguang stood up in an instant and he glowered with a fierce stare, as he gave a cold smile at Li Moying, "Li Moying... I've not expect that you would really dare to appear right here! If I were you, I'd have tucked my tail and escaped long ago! Although Cang Po Yu used his inherent fated blood essence to activate the Thousand Sword Array, but he's almost about to die now! Although the few of us are seriously injured, but we are all top exponents on the Sky Chart! Just based on your cultivation, you still dare to come and throw your life away?"

Li Moying swept him a cold glance as he spoke out in disdain, "Just based on you... think that you can kill me?"

Wei Zongguang gave off a hoarse and terrible laughter from his throat, "Hahahaha, young lad who doesn't know how high the heavens are or how thick the earth is, did you really think that you are Mu Chengying? Let This Hall Master teach you, what's called a genuine Sky Chart top exponent!"

Saying that, he didn't waste any time as he directly accumulated power in his palm and a burst of powerful Profound Energy swept across towards Li Moying's chest!

Although Wei Zongguang spoke out exaggeratedly, but he didn't dare to slight his actions as he directly used one hundred percent of his power!

**Chapter 2465: I have never betrayed you (2)**

“Everyone don’t hesitate, hurry and let’s all attack him together! Let’s capture Li Moying!”

Wei Zongguang was making his move as he cried out loudly.

He knew that Li Moying had returned to Blue Profound Sect and just based on those few people under his Blue Cloud Hall, he totally couldn’t fight against the real deal Young Sect Master Li Moying at all.

Moreover, Li Moying had most likely obtained Mu Chengying’s inheritance and he was able to control Levitation Sword Palace and Blue Profound Sect’s outer mountains seven blocks of mountain protection array.

Based on Wei Zongguang’s ability, he could not break through this heavy obstacle and successfully escape.

So his once lifeline was to heavily injure Li Moying at the first moment then hold him captive.

As long as he had Young Sect Master this important hostage in his hands, the other people totally wouldn’t dare to injure him!

Wei Zongguang’s heart was planning this scheme, assuming that he was a ninth stage realm peak practitioner and his ability was originally much higher than Li Moying and now under the invigoration of the potential pill, he had more than enough power to crush Li Moying!

Under his full power, Li Moying would definitely be heavily injured and throw up blood on the spot!

However, at the next moment, he suddenly felt that something was amiss.

Li Moying’s body swayed slightly in front of him and immediately following that, he disappeared without a trace.

Wei Zongguang’s pupils contracted abruptly and he knew that something was amiss as he hurriedly wanted to retract his Profound Energy to turn around but however, it was all too late.

A burst of huge impact attacked on his back and Wei Zongguang totally could not control his body as he flew out entirely and at the next moment, he crashed onto the ground heavily. His body felt as though he had been crushed by an elephant and not only was it abnormally in pain, moreover he totally could not move as he laid on the ground like a lump of mud, but unfortunately, his consciousness was extremely clear minded!

After Wei Zongguang landed on the ground, he heard several loud consecutive “pong pong pong” sounds and a few more figures fell beside him on the ground, who were exactly those three Elders who were still alive.

Earlier under Wei Zongguang’s encouragement, they knew that catching Li Moying was their only way out so they also worked up the remaining Profound Energy in their bodies, coordinating with Wei Zongguang to strike out.

In the end, their ending were exactly like Wei Zongguang. They weren’t even able to see Li Moying’s action or figure clearly when they were sent flying in one move!

After that, three more lumps of mud appeared on the ground.

Wei Zongguang was in so much pain that he was seeing stars and he wanted to turn his head around to see those few people next to him, only to discover that he wasn't even able to move his pinky.

From afar, Li Moying icy cold voice was heard, "Drag these four people to Ten Thousand Serpent Hole. Be a little more careful, their injuries aren't light so don't accidentally kill them... This Seat will head over in a little while to interrogate them!"

Ten Thousand Serpent Hole!

Hearing this name, Wei Zongguang's entire body turned icy cold as he was so scared that his heart almost stopped beating.

He was one of the older people in Blue Profound Sect so of course he was clear on what place the Ten Thousand Serpent Hole was!

That was a part of Blue Profound Sect's mountain protection array and numerous lethal spiritual snakes were reared there. Usually there would be exclusive disciples who fed and reared the snakes in there but once a traitor of the Sect was caught, they would be thrown into the Ten Thousand Serpent Hole as feed.

Moreover, the manager of the Ten Thousand Serpent Hole would control the spiritual snakes, to let the spiritual snakes slowly nibble on the flesh and skin of those who were thrown into the hole, but not allow them to die easily.

Thinking of himself about to be bitten into a skeleton by tens of thousands of spiritual snakes, Wei Zongguang couldn't wish more than to bang himself to death on the wall!

However, he was totally unable to move right now and even if he wanted to die, it was not possible to materialise this.

### **Chapter 2466: I have never betrayed you (3)**

Wei Zongguang shivered as he felt extremely remorseful on why he was so obsessed and had dared to strike against Li Moying!

In actual fact, until now he still hadn't understood why, why was it that he had already taken the pill to invigorate his power but why was he still being regulated by Li Moying when they met face to face?

Wasn't Li Moying only at ninth stage realm fourth level before he set off to Northern Ice Fields?

Even if he had a breakthrough when he was in experience learning, it wasn't possible for him to advance to ninth stage realm peak directly nor could he be compared to those established Sky Chart top exponents!

But the truth was, four top experts who were ranked top twenty on the Sky Chart, were actually unable to take one strike of his!

Li Moying.... how could he possibly be this powerful!

Simply even more overbearing than that year's Mu Chengying, and even more perverted!

Li Moying looked at those four people being dragged away as he turned around with a cold and indifferent expression on his face, as he returned back to the Levitation Sword Palace's front hall.

In actual fact, taking care of these few clowns didn't require too much effort from him.

After his Soul Detachment illness was cured, Li Moying's ability practically soared as it grew, and it took just one day to level up one level. Even though Liu Buyan said that there was no way that he could return to the peak state, but his ability was definitely not something that ordinary ninth stage realm peak practitioners could hope to resist against.

In the front hall, the sword qi had already dissipated by a large half and the dust and ashes in the air were starting to settle down.

Cang Po Yu's face was as white as paper, as he laid on the ground without moving. Only his brows were twitching intermittently, which proved that he was still alive.

Liu Buyan squatted beside him, as he held on to a golden needle, as he pierced one after another into his body.

Whereas Cang Po Hun and Huang Yueli were standing by the side, looking worriedly at Cang Po Yu. Huang Yueli occasionally helped Liu Buyan with a hand.

Li Moying walked over quickly as he stretched out his hand and placed it around Huang Yueli's slender waist while he spoke out softly, "Li'er, we've been rushing back for so many days, you must be tired right? Quickly go back and rest, I'll take care of things here."

Huang Yueli shook her head as her little face was filled with solemnity, "Senior Brother said that Guardian Yu used a secret technique to force his own inherent fated blood essence out, so his situation is extremely critical and he must be treated immediately! He might need some help so it's better for me to stay around and watch over a little!"

Li Moying's brows creased slightly but he didn't say anything much.

Cang Po Hun looked at Li Moying as he bowed to pay his respect and asked in a soft voice, "Sovereign, has that shameless traitor Wei Zongguang been caught?"

Li Moying nodded his head and said, "Earlier those eight fellows, four were directly killed by the tremor from the Thousand Sword Array while the remaining four have been thrown into the Ten Thousand Serpent Hole. I specially spared their lives to prepare for a detailed interrogation because these fellows probably has a mastermind behind them."

Cang Po Hun clenched his teeth and said, "Sovereign, This Subordinate requests to personally interrogate these few fellows! They caused Second Brother to turn out into this state and if I don't personally torture them, I am not able to resolve the hatred in my heart! And Big Brother has also been caught by them, but we don't know where he is right now, so I must go and interrogate them clearly!"

Huang Yueli couldn't help but interrupt, "Guardian Hun, Wei Zongguang and the others were conspiring to seize the position of Sovereign and this kind of top secret must be done in an extremely low key manner. So before they take action, they would definitely not dare to risk shifting him away. Moreover

they also need to use Guardian Jun to threaten Guardian Yu, so Guardian Jun is most likely still locked up inside Blue Cloud Hall!”

#### **Chapter 2467: I have never betrayed you (4)**

When Cang Po Hun heard that, he was enlightened as he said, “I see, many thanks to Grandmaster Huang for your enlightenment! This Subordinate will now head over to Blue Cloud Hall to save him!”

Cang Po Hun turned around and was about to leave when Li Moying called upon him again, “Wait, This Sovereign has no objections to how you wish to deal with those few people but you absolutely cannot let them die. These few people... will probably come into use in future!”

Cang Po Hun bowed as he cupped his fists, “Sovereign please be assured, This Subordinate understands!”

After Cang Po Hun left, Li Moying also stood by the side for a while as he looked at Liu Buyan using the golden needle acupuncture on Cang Po Yu’s body.

Liu Buyan was fully concentrated as he had nothing to worry about, even if Li Moying was speaking to Cang Po Hun by his side, it totally didn’t affect his speed of piercing the needles.

Not too long later, he finished his consultation as he pulled out the golden needles one after another.

Li Moying valued this subordinate’s life very much and instantly asked, “Liu Buyan, how’s his condition?”

Liu Buyan was keeping the golden needles as he said, “With This Divine Doctor around, what’s there to worry about? Although forcing out his inherent fated blood essence is an extremely dangerous matter, luckily the treatment was administered in time and adding on to the fact that this Divine Doctor’s medical skills are outstanding, so his life is currently not in any danger. But he had after all injured his fundamentals so if he wants to recover totally, it will probably take a long period of time. This Divine Doctor still had to administer acupuncture consecutively for half a month before deciding on the next course of treatment to take.”

Huang Yueli heaved a sigh of relief, “Luckily, all thanks to the fact that Senior Brother is around, otherwise.... Guardian Yu’s life would probably really end right here and we will regret this for life!”

Liu Buyan lamented, “Isn’t that so? No one would ever expect that Guardian Yu usually looked like such a refined and gentle man but when it came to a crucial moment, his temperament is actually so unyielding! Facing Six Sacred Lands’s Elders siege, he actually didn’t hesitate at all to take on such an intense method, preparing to perish with them together!”

When he said that, Huang Yueli and Li Moying both turned silent.

In actual fact, before Wei Zongguang appeared in Levitation Sword Palace’s front hall, the few of them had already reached Levitation Sword Palace.

But they didn’t choose to take action immediately, but wanted to hear what their motive was so that they were able to find out who the mastermind was hence they had been hiding behind the screen, and didn’t show themselves immediately.

Originally according to everyone's prediction, Cang Po Yu's ability was very strong and he was also the Continent's Number One Array Master, so even if he wasn't able to fight off so many Sky Chart's top experts, if he chose to escape for his life, persisting for a joss stick of time was absolutely no problem at all.

So when Wei Zongguang and the others were about to tear their faces apart to take action, everyone would then rush in to save him and there wouldn't be any problem at all.

But no one had expected that the moment Cang Po Yu took action, he was actually so resolute!

Li Moying and the others realised that something was amiss and instantly rushed right into the front hall but they were not able to stop Cang Po Yu from exploding his inherent fated blood essence in time. In fact, Cang Po Hun was initially thrown out by the Thousand Sword Array and if it wasn't for Li Moying who grasped onto him in time, he would probably be seriously injured as well!

Just as they remained silent, a young direct disciple ran in hastily.

"Sovereign, Guardian Hun asked This Disciple to come report that Guardian Jun has already been rescued. Other than a little external injury and meridians being restrained, he is alright."

Li Moying heard that and stood up, "I'll go take a look at Po Jun."

He turned around and was prepared to step out when he felt his clothes becoming taut, as his lower hem was pulled onto by someone.

#### **Chapter 2468: I have never betrayed you (5)**

Li Moying lowered his head and took a look, to discover that the person who held onto him was actually Cang Po Yu.

Cang Po Yu had been unconscious since earlier and Liu Buyan had instructed that before he regained consciousness, they absolutely should not move him hence he had been laying flat on the floor.

When Li Moying and the others rushed into the front hall, as Cang Po Yu had lost a large amount of his inherent fated blood essence, he practically had lost his consciousness so even when Cang Po Hun shook his furiously with all his might, it was not able to make him regain any consciousness.

Hence, whatever happened later in the front hall, he totally knew nothing about it.

When Cang Po Hun regained consciousness, his mind was still dizzy and his entire body was extremely frail to the extreme.

Liu Buyan's golden needle and medicinal pills could only hang on to his life but his lack of blood essence still required him to replenish through his own cultivation so Cang Po Yu was still icy cold all over as his chest felt suffocated while his entire back was sweating profusely. This kind of terrible feeling seemed as though he would die at the very next moment.

His vision was slightly blurry as he seemed to see Li Moying's figure.

Cang Po Yu didn't expect Li Moying and the others to rush back today, so he thought that what he saw was a hallucination before his death.

On seeing Li Moying about to leave, his first reaction was to use his remaining bit of energy to pull onto the other party's lower hem.

Li Moying was stunned and his footsteps took a pause as he turned around.

"Sov... Sovereign....." Cang Po Yu's breath was like gossamer, as he spat out this blurry word lethargically.

Li Moying replied, "Don't talk first, you are heavily injured, so it's best to first..."

However, Cang Po Yu totally didn't hear what he was saying, as he continued to utter on, "Sovereign, This Sub... Subordinate has something to... to tell you....."

Li Moying frowned as he didn't know how to stop Cang Po Yu.

What he wanted to say was most likely related to the happenings earlier in Levitation Sword Palace and everyone had already witnessed it with their own eyes so they didn't need him to say anything more right now.

Moreover Cang Po Yu's current condition was simply too weak and he wasn't suited to talk at all. The best would be for him to lie down quietly.

Li Moying looked at Liu Buyan, hoping that Liu Buyan would think of a way.

But just at this moment, Cang Po Yu said, "Sovereign, actually... This Subordinate knows, that you and Grandmaster Huang had always suspected... that it is This Subordinate who betrayed the Sect, it's This Subordinate... who leaked... leaked out Levitation Sword Palace's matters..."

Hearing this, the trio present were all stunned, as they gazed at each other with an inexplicable guilt.

Because what Cang Po Yu said, was actually what they had once silently guessed.

Back then, everyone was trying to collect the Bipolar Black Orchid but once and again, Lord Zhan had snatched it first so they couldn't help but suspect that there was a traitor in the Sect. Moreover, those who were able to find out such top secret, there was a ninety nine percent chance that it was someone beside Li Moying.

Levitation Sword Palace's men practically were all indebted to Li Moying and all of them swore their allegiance towards him, so it was not possible to betray him so no matter who they suspected, it was practically impossible to let it pass.

Hence, among so many people, Cang Po Yu became the most possible suspect.

Because his fiancée Cang Ning Yue had died because of Huang Yueli!

Everyone in Sky Emperor City knew that Blue Profound Sect's two Guardians Cang Po Yu and Cang Ning Yue, were once a couple whom everyone envied a lot. Although Cang Po Yu's character was cold and he was neither warm nor heated, but he was the one who initiated to ask Mu Chengying for permission to marry Cang Ning Yue.

He had already followed Mu Chengying since he was only in his teens.

## Chapter 2469: I have never betrayed you (6)

For so many years, the only request that he raised was to ask to marry Cang Ning Yue.

So from what everyone thought, Cang Po Yu should like Cang Ning Yue a lot.

But the woman whom he liked for so many years, had been personally disposed off because she had offended Li Moying's fiancé!

Asking oneself honestly, if they met with such a matter, who would be able to do their best towards this kind of Master?

At that moment, even Cang Po Hun and Cang Po Jun were extremely worried that Cang Po Yu would instantly back out from Blue Profound Sect to establish his own Sect!

However, the situation that happened later one was totally out of everyone's expectations. Cang Po Yu seemed as though he had no feelings at all towards Cang Ning Yue's death as he still followed next to Li Moying to help him deal with his stuff in a cautious and conscientious manner meticulously without making any mistakes at all.

This kind of situation was simply a little too strange. If Cang Po Yu created a huge din, perhaps other people might still say that he was a tough man!

But he was totally indifferent towards his fiancée's death...

If it was said that Cang Po Yu was pressurised by Li Moying's might, it probably wasn't so because based on Cang Po Yu's Number One Array Master's status, even without Blue Profound Sect's backing, he was still able to do well.

Whereas Li Moying felt guilty towards him hence he would not force him to continue staying in the Sect.

This matter was something that everyone could not understand why hence, in this way, Cang Po Yu became extremely suspicious.

The crowd would easily link to the fact that he restrained himself to stay beside Li Moying because of other ulterior motives, perhaps he had already secretly betrayed him hence he would endure the humiliation as part of the important mission, just to wait for a chance to give Li Moying a fatal blow!

Although Li Moying didn't want to suspect his own capable subordinate who had followed him for so many years, but after all, he knew what was called to guard against those who tried to hurt you.

From that day onwards, he intentionally didn't let Cang Po Yu take part alone in overly secretive matters, so that he wouldn't give the latter any chance to betray himself.

Li Moying looked at Cang Po Yu's pale face as he spoke out softly, "Po Yu, I don't mean in that way, don't think too much..."

"No... cough cough.... Sovereign, you don't need... don't need to lie to me, I know it... this time.. cough cough... that you brought so many people to Northern Ice Fields, but you didn't bring me... I... cough cough.... understood...." Cang Po Yu's chest felt more and more suffocated as he kept coughing but still tried his best to continue speaking on.

Li Moying didn't know how to rebuke him momentarily and only replied to him after some time, "Po Yu, I don't mean it in this way. If all the top exponents in the Sect have all left, that will certainly not do and someone has to stay behind. I only feel that your character is the most stable hence....."

In actual fact, these words weren't a lie.

Blue Profound Sect definitely required someone under Li Moying with ninth stage realm peak cultivation to keep vigil and this candidate, Li Moying had practically subconsciously chosen Cang Po Yu, as he didn't even consider anyone else at all.

This was because his consciousness realised that the matter of going to Northern Ice Fields was just too important, and he needed to leave the person with the most possible capability to stay back in Sky Emperor City, just in case.

But this kind of top secret, originally was not to be exposed.

Even if the others also had such guesses, they knew this clearly but who would say such things in front of their faces?

But, Cang Po Yu thought that he was about to die and Li Moying and Huang Yueli in front of him were all his hallucination hence he just voiced out every single thing that he had stuffed inside his heart for the longest time yet.

#### **Chapter 2470: I have never betrayed you (7)**

"Sovereign, you don't need to lie to me.... cough cough, I know that all of you suspect me, feel that I'm too cold blooded... Cang Ning Yue died but I had no reaction at all... cough cough... this kind of person, either his innate tendency is cold blooded and abnormal, or... cough cough.... his heart is set on taking revenge. You all suspect me, I have nothing to say to that... cough cough....."

Cang Po Yu's cough grew worse and worse.

Li Moying couldn't bear to listen more as he swiftly said, "Enough, stop talking! Don't treat your life as nothing! I already know that you are absolutely not a traitor so there's no need to talk anymore!"

Cang Po Yu did not hesitate in forcing his inherent fated blood essence out today, sacrificing his own life to protect the entire Blue Profound Sect and this action had already explained itself clearly.

Moreover, in actual fact, even if the incident had not happened in Levitation Sword Palace's front hall today, Li Moying and the others no longer suspected Cang Po Yu anymore.

Because when they met with Lord Zhan in the Northern Ice Fields, they had already found out the truth behind the scenes from the other party.

Lord Zhan had his eye on them long ago and he also had the ancient manual <<Drifting Cloud Scroll>> in his hand so that was why he was able to guess their plan. It wasn't because they managed to obtain intelligence from Levitation Sword Palace so in this way, this matter naturally had nothing to do with Cang Po Yu.

But Cang Po Yu himself didn't know what happened in the Northern Ice Fields hence he tried his best to prove his own innocence.

Li Moying hurriedly winked at Liu Buyan, hoping that he could directly make Cang Po Yu faint instead.

Liu Buyan nodded his head in reciprocation and took a few golden needles out from his realm ring.

But before he could even administer the needles, Cang Po Yu's cough stopped as he continued speaking.

"Sovereign, you definitely don't know why I requested to marry Cang Ning Yue from you.... it wasn't because that I admired her greatly, but because... because.. cough cough, because she had already started admiring Sovereign since twenty over years ago, and had caused a misunderstanding between you and Grandmaster Huang.... I'm worried that she would hurt Grandmaster Huang and also worried that if something happened, without a Sky Chart top exponent like her, Blue Profound Sect's ability would henceforth be weakened.... So I thought over this and the only... cough cough... only way was for me to marry her..."

When Cang Po Yu said that, those three present were totally dazed on the spot and they weren't able to regain their senses for a period of time.

Liu Buyan's golden needles which were pinched in between his fingers seemed to be unable to pierce down as he was simply overly shocked!

Cang Po Yu started on another round of consecutive coughing and after a while later, he finally stopped.

When he opened his mouth once more, his voice had apparently turned even weaker.

"Sovereign, This Subordinate... This Subordinate is guilty, I shouldn't admire... Grandmaster Huang but This Subordinate definitely doesn't have any improper ideas, only wishing that you and Grandmaster Huang can....can become husband and wife sooner... cough cough... This Subordinate had never... never betrayed you..."

His voice grew softer and softer and in the end, as though he had exhausted all of his energy, slowly there wasn't any more noise.

Whereas for those three present, until now, they still weren't able to respond as they looked at him in shock.

Never in their wildest dream had they expected that Cang Po Yu had secretly liked Huang Yueli and moreover, he managed to conceal it so well. Several decades had passed by and he had never once revealed any traces of it.

Moreover, in order to help Huang Yueli, he spared no effort in getting engaged to Cang Ning Yue.
