### Chapter 2581: Last chance (3)

He no longer could trust anyone to keep guard on Huang Siluo, but instead brought her along by his side every single day.

So although Bai Liufeng relied on the mechanism distribution map to successfully infiltrate the underground level and found the place where Huang Siluo was confined, but he and Huang Siluo had not even managed to say a word, and he was discovered by Lord Zhan. After that, a fierce battle ensued.

If it wasn't for Huang Yueli and Li Moying's timely arrival, he might already have turned into one of the dried corpses in the Blood Moon Great Array.

Seeing Bai Liufeng's hemming and hawing, Huang Yueli's anger arose out of nowhere.

"Father, how can you do this! I know that you didn't tell me because you're afraid of me getting worried. But have you ever considered how strong Sacred Phoenix Race is? Just based on you alone, even if you have exceedingly high ability, so what about it? With us helping you, the chances of saving Mother would increase drastically!"

Bai Liufeng was berated by his dainty little girl and his face turned black as he lost his face.

"Lass Li, how can you blame Father? Father is doing this for your good! From young, Father had never really taken care of you, hence causing you to be bullied for so many years. Father had already done you wrong for that! Now, you've finally managed to cultivate to your current level, and even found a husband whom you love dearly. How can Father ask you to risk your life for your mother? Moreover speaking, your mother wouldn't be willing to let you risk your life for her. She would definitely prefer you to lead a happy life!"

Initially, Bai Liufeng was still feeling a little guilty.

But when he spoke to the end, he started to feel that he was in the right and became self-confident.

He and Huang Siluo only had that one precious daughter. He wasn't able to see her grow up when she was young and it was already something that he regretted deeply.

Now, he was able to witness her in a traditional Chinese wedding dress, getting married to the man of her dreams, it gave Bai Liufeng some comfort.

He really didn't wish for Huang Yueli's lifestyle to be affected by an irresponsible father like him.

Thinking of this, Bai Liufeng decided to bring out a father's pride. He gave a loud cough, "Anyway, you cannot get involved in this matter! You've already found out about the truth and Father has already given you an explanation. So hurry on and head back to Sky Emperor City!"

He rarely showed a face to Huang Yueli, and he felt that he was fierce enough.

But Huang Yueli was someone who had been through great storms. So how could she possibly be frightened by his pretense of harshness?

She ignored what Bai Liufeng said and turned around to talk to Liu Buyan, "Senior Brother, it looks like we need to come out with a proper plan to save my Mother. May I trouble you to go get Guardian Jun and Guardian Yu over, so that we can discuss this together?"

Liu Buyan nodded his head and turned around to leave.

Bai Liufeng was exasperated when he heard what she said and shouted, "Divine Doctor Liu, come back here! This is my matter, I don't need you guys to be busybodies!"

However, Liu Buyan's footsteps took a short pause as he said, "Apologies Marquis Bai, I only take instructions from my Junior Sister."

Bai Liufeng immediately turned his gaze back onto Huang Yueli, "Lass Li, you don't listen to your Father's words any longer? Father said that you don't need to get involved in this matter. Can't you be obedient and listen to me?"

Huang Yueli blinked her big eyes and nudged a little towards Li Moying and hugged his arm.

"I'm sorry, Father, but I'm already married! I will listen to my Father when I'm still single, but after marriage, I will listen to my husband."

Bai Liufeng almost fainted from anger as he shot an angry look at Li Moying, "Stinky brat, what do you say?"

#### **Chapter 2582: Last chance (4)**

Li Moying felt rather helpless when he faced his truculent Father-in-law, "This... actually, I also feel that this is too dangerous. It's no problem for me to bring them along with Father-in-law to Snow Phoenix Palace, but it's best for Li'er to not go..."

Before he could finish his words, a sharp pain was lodged on his arm.

Li Moying turned his head around and saw Huang Yueli staring at him with her widened eyes, filled with the meaning of threat.

Moreover, she immediately pinched Li Moying's arm hard, once again.

He gave a bitter smile and said, "Father-in-law, you've also seen this for yourself. How would I dare to go against Li'er? I want to support you badly, but.... since Li'er wants to go with you, I can only listen to her."

Hearing that, Huang Yueli's expression transformed from overcast to cloudy weather. She gave a harrumph and let go of his pitiful arm.

Bai Liufeng's brows were tightly knitted as he spoke out in an unfriendly tone, "Li Moying, look at you. You're really outrageous. A grown man like you, can't even handle your wife? A hen-pecked man like you has simply thrown a man's pride away!"

He was feeling melancholic. He spoke with reason, but why didn't anyone stand on his side?

Huang Yueli refused to listen to him, but he also couldn't bear to scold her. But towards Li Moying, he wasn't that modest at all.

These words seemed to be casting the blame onto Li Moying entirely.

Li Moying's expression remained unchanged as he spoke in a composed tone, "Father-in-law, you've overpraised me. You're willing to let Li'er marry me, isn't that because you knew that I was a shameless hen-pecked man?"

"You..." Bai Liufeng choked on his words.

That was right. Back then, the point that he valued Li Moying most, was that this fellow was especially obedient towards what Huang Yueli said, and he would listen to all her instructions.

But now, at this moment, Bai Liufeng felt that Li Moying was spineless in front of Huang Yueli, and the latter was intentionally putting himself against him, his Father-in-law!

"Anyway, no matter what you guys say, I will definitely not agree for Lass Li to go along!" Bai Liufeng couldn't out-talk them so he just stopped talking reason, and started to play rogue.

Li Moying shook his head in amusement, as he discovered that this Father-in-law of his, really loved his daughter very much...

Actually, he was even more unwilling for Huang Yueli to head over to Snow Phoenix Palace.

Because only he and Huang Yueli knew that the main body of the Sky Phoenix Ring, had not been combusted because of her self-explosion. Instead, it was right inside Huang Yueli's body.

Lord Zhan also know about this, and he had been searching for the Sky Phoenix Ring...

For Huang Yueli to enter Snow Phoenix Palace was actually an extremely dangerous thing.

But Li Moying understood Huang Yueli's thinking very well. He knew that for a girl like her to see her father risking his life on his own, while she stayed hidden in a safe place, was something that she was not able to do!

Helpless, he could only choose to stand on Huang Yueli's side.

She looked at Bai Liufeng and shrugged, "Father, don't be mistaken. I don't need your consent to enter Snow Phoenix Palace!" Saying that she pointed to her head, "Anyway I've already remembered the entire mechanism distribution map, and I can go in anytime I want to. If you don't want to work with us, then we'll just split up into two separate routes."

"You... why are you so disobedient!" Bai Liufeng totally couldn't do anything to her.

It was until now that he realized, that having an intelligent and incredible daughter, was actually a flaw.

### **Chapter 2583: Last chance (5)**

When there was deviation between them, Huang Yueli would not give way easily.

Just as the both of them were in a stalemate, a shuffle of footsteps was heard from the corridor.

Liu Buyan brought Cang Po Jun and Cang Po Yu into the room.

“Junior Sister, I’ve brought them here.” Liu Buyan indicated for the both of them to sit down and turned around to tell Huang Yueli, “On our way here, I’ve roughly briefed them on the situation. We can discuss the plan next. Junior Sister, what plans do you have in mind?”

Huang Yueli’s eyes lit up and she walked over immediately. The few of them sat around a small side table.

“Since everyone’s here, let’s discuss this properly! Everyone has already seen the situation in Snow Phoenix Palace’s situation yesterday. There are many mechanisms and plenty of strong practitioners. If we’re not careful, we might possibly end up being trapped inside. Moreover, we don’t have a lot of manpower.”

Her expression was stern as she spoke frankly with assurance.

Li Moying who was seated next to her was listening to her attentively while pouring tea and passing the teacup to her.

Huang Yueli took it from him, sipped on the tea, and continued, “Although the path which we entered the underground level yesterday is the shortest, but there are several checkpoints which are guarded. If we try to infiltrate in again, taking back the same route would increase the chances of us being discovered...”

“Grandmaster Huang is right. Since this is the case, why don’t we try to take this route...” Cang Po Yu thought over this for a while and laid out the mechanism distribution map on the table as he pointed to a part, “Everyone come and take a look.....”

The five people present sat down and got into the mood quickly as they started to discuss this attentively.

Blue Profound Sect’s practitioners would often assist each other to complete difficult missions, or to explore dangerous mystic regions. So to them, this kind of situation was very common.

Although this was the first time that they were fighting against an ancient God clan, which was powerful and mysterious, this had not affected their determination to gain victory.

After all, this mission was personally led by their most revered Sovereign and the resourceful and black-bellied Grandmaster Huang!

Bai Liufeng who was standing by the side was feeling stifled by the minute when he saw them!

These people practically ignored his views, and started to discuss this directly!

What was wrong with them? He was the most important person in this entire matter, wasn’t he?

He had already objected violently to Huang Yueli’s joining of this mission. But these people just totally ignored all his objections!

Bai Liufeng held his anger in, hence he sat on a bench by the side, drinking his tea. He refused to join in the intense discussion between those five people.

At the same time, he kept mulling over ideas that could stop his Lass Li from having thoughts of entering Snow Phoenix Palace with him.

Ask his son-in-law to work harder, to impregnate Lass Li?

No way, she was only sixteen years old! How could she give birth at such a young age?

But what other ideas were there, to stop Lass Li? This young lady had inherited all the stubbornness from her mother.

“Father, Father... what are you thinking of? Father!!”

Bai Liufeng was in a trance when he suddenly heard someone calling him loudly. Moreover, that person had called out to him consecutively.

He turned around and gave a slight frown, “What’s the matter? Do you still know that I’m your father?”

### **Chapter 2584: Last chance (6)**

Huang Yueli put on an expression of arrogance, as she felt amused but didn’t dare to reflect it out.

Her lips curled into a sweet smile with a pliable voice, “Father, what are you saying? I like Father the most, how can I not know who you are?”

“Hng, stop trying to bewitch me! You practically disregarded the things that I said! If you really like your father, why won’t you listen to my views?” Bai Liufeng replied petulantly.

Huang Yueli chuckled and said, “Father, don’t be angry. It’s my fault! It’s impossible for us to not listen to you. See, haven’t I come over to ask you?”

Bai Liufeng swept her a glance as he didn’t really believe in her, “Oh, really?”

Huang Yueli put on an innocent look and furiously shook her head, “That’s right. Father, what do you think of the plan that we suggested earlier? Is there anything that you want to add on?”

Hearing that, Bai Liufeng went into a blank, “What plan?”

He was immersed in his own emotions earlier, so he wasn’t listening to what they were saying.

Seeing that, Huang Yueli wasn’t surprised at all. She opened her mouth once, telling him about the contents that they had discussed earlier.

“Father, we’ve analyzed this earlier. You have entered Snow Phoenix Palace many times but still aren’t able to find the location of where my mother is being detained. Now, Lord Zhan even brings my mother around everywhere. Under this circumstance, even if we managed to infiltrate Snow Phoenix Palace’s underground level, I don’t know how much time will be wasted to find my mother. We must also kill Lord Zhan before we can rescue her.”

As she said that, she sized up everyone present, “The few of us, are Soaring Heavens Continent’s first rated top exponents, but Sacred Phoenix Race’s background is very deep, so we don’t know how many top exponents are there in the clan. Moreover, they have that evil pill which they used the young practitioners’ blood essence and spiritual roots to refine. That pill can increase their battle power

drastically and in addition to Lord Zhan's astounding ability..... If we were to forcefully barge in to save her, the success rate isn't very high."

She did a great job in analysis, and Bai Liufeng agreed with her point of view.

But his expression didn't reveal his emotions. He only said in disbelief, "The success rate isn't high, but we still have to save her. Anyway, we can't just give up on him, right?"

Huang Yueli said, "Our motive is just to save my mother, and giving up is not an option. But we must choose the most suitable chance to infiltrate Snow Phoenix Palace. A... moment when Lord Zhan and the other Sacred Phoenix Palace's clansmen, would ease off their alertness!"

Bai Liufeng frowned, as he didn't quite understand what she meant.

But he quickly revealed an enlightened look, as he stared at Huang Yueli in astonishment, "You... your meaning is... surely not... you're choosing to infiltrate during the sacrificial ceremony?"

Huang Yueli's lips curled as she nodded, "Indeed my Father, we share the same thinking! According to what Father said earlier, Lord Zhan had killed so many people and made so many years of preparation. His ultimate aim is all for this sacrificial ceremony. Then, when it's time for the sacrificial ceremony, all his attention will be placed on the ceremony. As for the other matters, his alertness will more or less be loosened up. Moreover, by then, he will have to preside the ceremony and he would not have any time to guard my mother. At the same time, the entire Snow Phoenix Palace's guards will also be reduced."

#### **Chapter 2585: Last chance (7)**

"So, although this day seems to be the most dangerous, but in reality, it is instead the safest day. We can choose to infiltrate on this day, and our success rate will be the highest."

Saying that, Huang Yueli turned around and looked at Bai Liufeng, "Father, what do you think?"

Bai Liufeng had to admit that what she said was correct.

He muttered irresolutely for a moment and said, "I've considered the same things that you said before. But I'm worried that on the day of the sacrificial ceremony, time would be overly constrained and we might be obstructed by Lord Zhan during the process of infiltration. It might cause a delay in timing. If your mother had unfortunately been harmed by Lord Zhan due to this timing, it will be too late for regrets by then!"

Huang Yueli also delved into deep thoughts when she heard that, "Father, what you say makes sense... if we really wait until the day of the sacrificial ceremony, we will only have six to eight hours to take action. It indeed... is a little pressed for us to locate where my mother is detained, and also to disrupt the ceremony to save her."

Li Moying listened to the father and daughter's conversation by the side.

He waited till this moment to caress Huang Yueli's smooth and long black hair on her back, as he spoke out unhurriedly, "Father-in-law, you don't have to worry. In the past, you were alone and it indeed is difficult to complete so many things in one day. But now there are six of us, and we can split into two or three teams, to complete the missions separately. In this way, it can save a large amount of time."

Hearing that, Bai Liufeng's brows suddenly eased, "If you put it in this way, it makes sense too. But I'm still worried... After all, this is my last chance with Siluo..."

Li Moying played with Huang Yueli's hair as he said in a deep voice, "Father-in-law, everything we do involves risks and since matters have already come to such a step if we don't stake everything in this, the ending would be even unacceptable. Moreover, our infiltration into Snow Phoenix Palace this time would only allow Lord Zhan to clearly understand our plan and ability. So he will be even more guarded against us. Why not we let him loosen up a little, to let him assume that you are already dead. In this way, on the day of the sacrificial ceremony, our sudden attack would attain the peak effect."

Li Moying shut his mouth after he was done with his analysis.

He held onto Huang Yueil's little hand and sat there. He didn't do any unnecessarily urging and waited patiently for Bai Liufeng to make a decision.

Bai Liufeng was a peerless top exponent who had experienced lots of big waves as well. So his scope wasn't low. Earlier his indecisiveness was all because his concern messed up his thinking.

He was very concerned about Huang Siluo's safety, hence he was stuck in between a rock and a hard place, not knowing what he should do

But since Li Moying had already put it in this manner, Bai Liufeng was an intelligent person. Neither did he wanted to lose face in front of his son-in-law, so he naturally made the best option.

Indeed, Bai Liufeng frowned for a moment and finally nodded his head, "Alright, we'll listen to your plans. We'll first preserve and nurture our spirits and come out with a plan, then take action on the day of the sacrificial ceremony."

Huang Yueli was overjoyed and she couldn't stop smiling.

However, she hadn't smiled for too long when she heard Bai Liufeng saying, "But, I still don't agree with Lass Li taking action together with us!"

Huang Yueli's expression stiffened slightly, "Father, can you don't act in this manner? I also want to save Mother personally! Moreover, many of Snow Phoenix Palace's mechanisms require the clansmen blood to be activated."

### **Chapter 2586: Last chance (8)**

"Without me, there are many paths which you won't be able to take! And by then, you will be discovered easily. The possibility of saving Mother would greatly decrease as well!" Huang Yue tried hard to emphasize her own use.

What she said was right on the dot.

Bai Liufeng's brows creased as he was unwilling but yet, he had no choice but to admit that what Huang Yueli said was correct.

Although he managed to enter the underground level in his last infiltration into Snow Phoenix Palace, that was due to the lack of security.

After his infiltration yesterday, the security in the palace would definitely increase greatly.

Under this circumstance, if he wanted to enter the underground level, they could only take those few secluded paths.

Whereas these paths, all without exception, required the use of Sacred Phoenix Race's clansmen blood to activate some of the mechanisms. Some even required the blood to be of certain purity. Ordinary clansmen's blood might not necessarily activate it successfully.

If they were to leave Huang Yueli, who had the purest Holy Maiden's bloodline, then they would find it difficult to move about in Snow Phoenix Palace.

Bai Liufeng thought over this for a long time but was still unable to find a way to rebut her suggestion.

When Huang Yueli saw that, she smiled and said, "Alright, we'll fix this as it is! With me joining the team, there will be three of us who are responsible for activating the mechanisms. I, Father, and Guardian Yu can all lead the team to act separately, and that will greatly increase our chances of success."

Saying that she was just about to get up when Li Moying suddenly pulled her, causing her to fall into his arms.

"Moying, what's the matter?" She lifted her head and looked at her husband in astonishment.

Li Moying gazed into her eyes for a moment and spoke out softly, "Li'er, actually I'm also worried about letting you go into Snow Phoenix Palace. But for matters related to your mother, I also know that I cannot stop you.... But, I have a condition."

Huang Yueli blinked, "What condition?"

Li Moying said, "You're only now at seventh stage realm peak so you're at a huge disadvantage when you face Sacred Phoenix Race's ninth stage realm practitioners. I cannot allow you to take the risk in this state. So in this period, you must work hard to cultivate, at least to advance into eighth stage realm, before I can be assured."

Huang Yueli gazed into the man's deep eyes which were laced with worry, and she started to feel a little guilty.

Her innate talent was actually very powerful, but as she needed to learn pill and armament refining skills, she would normally be disrupted often. So although her cultivation speed was faster than ordinary practitioners, as compared to Li Moying this abnormal pervert, her speed was lacking by quite a bit.

In the past few months, she had been worried about way too many things. So her cultivation time had greatly decreased and that led to her delay to progress into eighth stage realm.

Hearing Li Moying's words, she instantly comprehended and said, "I understand. Don't worry, I will not leave my room in this period, and work hard to cultivate! Actually, I've recently sensed that my Profound Energy is slowly becoming abundant and I'm on the verge of breaking through. Northern Ice Fields's Heaven and Earth Profound Qi is extremely thick so cultivating here for some time will allow me to advance."

Bai Liufeng also said, "What Li Moying said is correct. Lass Li, you have the lowest cultivation among the few of us, and during this period, I will personally supervise you to cultivate. You must do your utmost best, to raise your ability."

Huang Yueli naturally had no objections as she agreed to it straightforwardly.

The next day, she devoted herself totally to cultivation.

### **Chapter 2587: Sacred Phoenix Reflection (1)**

Once Huang Yueli became serious, her cultivation speed was extremely astonishing.

She would cultivate early in the morning in Bai Liufeng's courtyard. She did not only train with <<Nine Phoenix Transformations>> but also many other Profound Skills that Bai Liufeng had imparted.

In this way, she spent the entire day in his courtyard, and sometimes even spent the night cultivating there, not returning to her courtyard at all.

Seeing her working so hard, Bai Liufeng was comforted and also a little delighted.

This time, his Lass Li's attention had finally shifted away from that stinky brat, so he wanted to see how smug would that stinky brat be!

Li Moying could more or less guess what was on Bai Liufeng's mind, but he still coordinated with them well.

Although he wanted to stick with Huang Yueli badly, he knew what was more important when it came to matters related to her cultivation and ability.

Moreover, he had to grab this last chance as well, to cultivate hard. Hopefully, he could raise his ability within this limited time.

Li Moying cultivated for the same amount of time as Huang Yueli, who went into closed door cultivation.

But as time went by, he realized one problem. The matter which Liu Buyan had warned him before was totally accurate. Although he kept on absorbing Profound Qi into his meridians and his ability did increase, but he was still unable to advance to ninth stage realm peak.

It seemed as though there was an invisible hand, which was suppressing his cultivation.

Li Moying's character was aggressive and overbearing, so he naturally wasn't willing to give in to fate so easily. He came up with different ideas and attempted to learn different cultivation methods but this invisible barrier just started to extend horizontally. It couldn't be seen, nor could it be felt, and it made one felt powerless.

"Does this mean that my ability is now at its limit?" Li Moying asked in a low voice after Liu Buyan took his pulse.

Liu Buyan retracted his hand and sighed, "That's right. Your primordial spirit's intensity is limited so the amount of Profound Energy you can absorb is also limited by that. In terms of cultivation, no matter how hard you try, it would practically not bulge. But cultivation does not necessarily equate to battle power. You can consider cultivating some higher leveled Profound Skills to raise your battle power so that you

can surpass the rank to defeat the opponent during actual combat. Didn't your Father-in-law give you several God grade ancient records?"

Li Moying felt rather disappointed from what he heard. Although he already knew about this a few months ago, before he met with the unbreakable bottleneck, there was still a slight hope in his mind.

But now, whatever little hope he had, was completely shattered.

However, he didn't reflect any expression on his face as he nodded, "I understand. I have one more request, and that is to help me keep this secret."

Liu Buyan nodded his head, "No problem. I don't wish for Junior Sister to worry as well."

He stood up and kept away his golden needles and medicinal pills and was just about to leave when he stopped and took at Li Moying again.

Liu Buyan hesitated for a moment and said, "I'm starting to admire you now. I did not expect that you to endure for such a long time. You had not consummated with Junior Sister, allowing her to misunderstand that you are impotent, and you willingly accepted it all. You're even.... even willing to maintain the current state, to never be able to return to the position of Number One Top Expert. Other than you, very few people would be so harsh on themselves!"

To a practitioner, a drop in ability was much more unbearable than death.

## **Chapter 2588: Sacred Phoenix Reflection (2)**

Translator: Misty Cloud Translations Editor: Misty Cloud Translations

Especially for Li Moying, who was once the Continent's unsurpassed Number One Top Expert. Having no way to mount that arrogant and unyielding peak, the gap in his heart was something that ordinary people would not be able to imagine.

However, Li Moying seemed as though he didn't feel anything. Not only did he expressed composure in front of Huang Yueli, but he didn't reveal any fluctuations in his emotions in front of other people as well.

Taking a step back to think in his shoes, Liu Buyan felt that if he was the one in this situation, he would definitely not be so unruffled.

Even if he didn't regret his decision, but he would probably feel disappointed.

Li Moying took a look at him, "Even if I am no longer the Number One Top Expert, but I can always be the Number One Top Husband.."

Liu Buyan went into a short daze but instantly understood what he meant.

After Huang Yueli's rebirth, her outstanding innate talent in this lifetime was much stronger by several times, as compared to her past! She had even obtained Sacred Phoenix Race's ancient inheritance.

Based on this ability, surpassing everyone to ascend to the position of the Number One Top Expert, was something that was bound to happen sooner or later.

Huang Yueli was not even seventeen yet, but she was about to break through to eighth stage realm.

Even if it was Li Moying, he did not have this kind of ability at that age.

Liu Buyan looked at him and burst out laughing while shaking his head. "This is the first time I saw anyone speak so righteously about being a kept man!"

Li Moying didn't even bat an eyelid from hearing his mockery.

"Being a kept man isn't something that everyone could do. But I'm the only one who managed to do it. You can't help but look up to me!"

"You..." Liu Buyan's lips twitched as he felt rather speechless to that.

That was right. He indeed wanted to woo Huang Yueli and he didn't manage to do so. But did Li Moying needed to act so smugly in front of him? Acting so gloriously for being a kept man!

Liu Buyan took a frustrated look at him, "Alright, as long as you're happy..."

Before he could finish his sentence, he suddenly heard a loud "BOOM" outside the room.

Immediately following that, the entire ice mountain's frame started to shake. Then all the surrounding Heaven and Earth Profound Qi all gushed madly towards one direction.

Liu Buyan was stunned as he turned around to see the equally shocked Li Moying.

"This... could it be... Junior Sister..."

Liu Buyan hadn't finished his sentence when he saw Li Moying sprinting away like a bolt of lightning, scurrying out of the room in an instance.

He hurriedly followed after him.

On the vacant ground in front of the courtyard, Bai Liufeng, Cang Po Jun, and Cang Po Yu had already run out. All of them looked towards Huang Yueli's courtyard and their eyes were filled with astonishment.

This cave dwelling which was inside an ice mountain had several powerful spirit gathering arrays supporting it. Hence, the density of the Heaven and Earth Qi was much higher inside the cave.

At this particular moment, all the Profound Qi were gathered above Huang Yueli's room, as it formed a huge Profound Qi vortex.

As the speed of her absorbing the Profound Qi was too fast, all the spirit gathering arrays by the side of the cave were revolving at their greatest intensity.

A huge amount of Profound Qi in the surrounding ice fields was forcibly gathered.

The vortex above her head was also growing bigger and deeper by the minute....

"Wh... What powerful Profound Qi vortex! When practitioners advance into eighth stage realm, they would draw out large quantities of Profound Qi as energy, but this is my first time seeing with such strong absorption speed!" Cang Po Jun couldn't help but exclaim in shock.

### Chapter 2589: Sacred Phoenix Reflection (3)

Cang Po Yu said with a frown, "The Profound Energy in my meridians is losing control. If my cultivation isn't stable enough, even the Profound Energy within my body would be taken away by Grandmaster Huang as well! We ought to feel lucky, that everyone here is ninth stage realm peak practitioners..."

However, Bai Liufeng's reaction was different from theirs.

He looked at the abnormality in mid-air with shining eyes and he kept muttering to himself.

"Lass Li indeed has Sacred Phoenix Race's bloodline. She has totally inherited her mother's astounding innate talent.... I heard Siluo mention this before. Even if it was thousands of years ago, among the ancient God clan practitioners, rarely was there anyone who would gather this ten feet Profound Energy vortex when they advanced into eighth stage realm..."

"Siluo, our daughter is very much like you, very outstanding..."

Li Moying, who was standing beside Bai Liufeng, heard what he said.

There was a proud smile on his face.

His Li'er was indeed an irreplaceable peerless genius!

To be able to see her become so incredible, the pressure of losing his cultivation and strength seemed insignificant...

While they were exclaiming in surprise, the Profound Qi in mid-air continued to grow, as it expanded towards the outside.

Shortly after, a huge vortex had already occupied all the space in the cave. Even Bai Liufeng and the others were all squeezed into one corner.

"This.... what's the situation now? Junior Sister has absorbed so much Heaven and Earth Profound Qi. Will this cave be unable to take the pressure, then explode on the spot? Marquis Bai, do you think... that we should teleport out to take shelter?" Liu Buyan felt a little frightened amid his shock.

Huang Yueli was simply too incredible wasn't she!

All of them were all Soaring Heavens Continent's first rated top exponents, but they were now cornered by his Junior Sister's Profound Qi vortex until there was no more space to stand!

They felt like a small boat in a rampaging storm, which would capsize any moment in time.

Bai Liufeng frowned as he felt a little indecisive.

"Logically speaking, the cave dwelling which Sage Yu Xu left behind, is enough to resist against tenth stage realm practitioners' attack. Lass Li is just breaking through to eighth stage realm, so it shouldn't be a problem. But... from the current looks of this, it indeed is a little terrifying. Perhaps.... we should move out first."

Bai Liufeng made a decision and turned around to lead them outside.

At this moment, Cang Po Yu suddenly let out an expression of surprise as he pointed with a trembling finger above everyone's heads, "Everyone, quickly take a look! What is that?"

Hearing that, everyone lifted their heads and looked into the sky.

The vortex that Huang Yueli had gathered finally stopped expanding when it touched the roof of the cave and started to gather.

Following the shrinkage of the vortex, the intensity of the Profound Energy within kept increasing as it gathered into a mist. The colour of it grew darker.

After another hour, the thirty feet tall vortex slowly condensed into a Profound Qi ball that was about 3 metres in radius.

As Huang Yueli majored in fire attribute cultivation skills, her Profound Energy reflected a crimson red color, as though a scorching and blazing inferno which spread out over her head.

Everyone present didn't even have the time to gasp when the ball of Profound Energy took an abrupt change!

The fiery red thick mist slowly dissipated in mid-air and slowly changed its shape. Finally, it took on the shape of a phoenix!

#### **Chapter 2590: Sacred Phoenix Reflection (4)**

This reflection started as a hazy shape. But as time went by, the image turned clearer and was getting more realistic!

The phoenix spread its wings and as it flapped, a wave of heat assaulted their faces.

Even for a top exponent like Bai Liufeng, he had the disillusion that he was about to melt.

Liu Buyan was so shocked that he couldn't even utter a word, "Heavens, this... what on earth is... is going on?? I've never heard of anyone causing a vortex during advancement, or even manifesting into any forms! Junior Sister is....."

In comparison, Li Moying was much more composed.

The first few times when Huang Yueli advanced, it caused a huge impact so he had more or less gotten used to it.

He also understood that for such a scene to happen, it should be related to her bloodline with the ancient God Clan.

"Is it necessary to kick up such a big a fuss?" He swept a glance at Liu Buyan, "My Li'er bears the bloodline of the Sacred Phoenix Race so it's only natural that a manifestation would occur during her advancement."

By this moment, Bai Liufeng had also regained his senses from shock. But from his expression, he was still a little dazed.

“That’s right. Lass Li’s Sacred Phoenix Race’s bloodline is extremely pure. Ancient God clan’s geniuses, who are above Heaven Grade, will see the spiritual beast’s reflection during their advancement. That year when Lass Li’s mother was in her advancement, I was by her side and I saw the phoenix’s reflection then.”

“I see.” Cang Po Jun and the others nodded their heads with an enlightened look.

Bai Liufeng paused for a moment and continued, “But...”

His sentence made Li Moying turned anxious as he quickly asked, “But what?”

Bai Liufeng sighed, “But when Siluo advanced, there was just a hazy reflection above her head. It is totally different from Lass Li’s reflection which is so clear. Moreover, that phoenix is only one meter tall and the size is much smaller. Siluo also said that this phoenix’s size is related to the purity of their bloodline!”

Everyone had just calmed down but when they heard this, they were shocked once again.

As Sacred Phoenix Race’s Holy Maiden, Huang Siluo’s innate talent and bloodline was definitely one of the highest. Otherwise, Lord Zhan also wouldn’t firmly believe that using her blood essence for the sacrificial ceremony may give them a chance to break through Soaring Heavens Continent’s space barrier.

Huang Yueli’s innate talent was much stronger than Huang Siluo’s!

Wouldn’t that mean that she was considered as a genuine unparalleled genius among the ancient God clan?

Even though everyone present knew that Huang Yueli’s innate talent was very strong, but this news gave them such a huge shock that they were dazed for a very long time.

Liu Buyan suddenly recalled the things that Li Moying told him some time ago, and he couldn’t help but turned around to take a look at him.

It seemed that Li Moying would be living the life as a kept man...

He wondered if he should envy him, or sympathize with him?

But seeing Li Moying’s complacent look, it didn’t look as though he had any psychological burden at all. He acted like it was an honor?

Just as everyone was stunned, the phoenix reflection in mid-sky started to dim a little. At the same time, everyone could feel the Profound Qi that was gathering in the air, suddenly gushing towards that room!

This meant that Huang Yueli’s advancement was already entering the last stage. She was about to absorb those Profound Qi into her meridians, to break through the last stage of bottleneck!

Everyone didn’t dare to make a sound and just waited silently.
