

## **Weaponsmith 2641**

### **Chapter 2641: The most evil of all (3)**

“The Blood Moon Great Array’s eye is below the blood pool. As long as the array eye is damaged, the Blood Moon Great Array’s energy would be interrupted, and by then, the Sacrificial Ceremony will not be able to proceed! Moreover, Lord Zhan will suffer a backlash from the failure of the execution of this demonic art. By then, we don’t even need to do anything and he would have to bear the consequences!” Huang Yueli remembered the information that Bai Liufeng showed them and briefly analyzed it.

Saying that she moved and dashed into the Blood Moon Great Array.

Li Moying grabbed her wrist, “Be careful. This array is really powerful. We have already experienced it previously! You must act with caution!”

If time allowed, he would definitely not let Huang Yueli barge into the Blood Moon Great Array in such a manner.

But now, they were pressed for time so they must try their best to destroy the array. If they were to drag this out, Bai Liufeng and Huang Siluo might have died in Lord Zhan’s hands!

Huang Yueli nodded her head prudently, “Don’t worry, I will be careful.”

Li Moying looked at the confident young lady in front of him, so he should be assured. After all, he had total trust in Li’er’s ability.

But strangely, he felt a strong sense of uneasiness this time and was unable to suppress this feeling no matter how he tried.

When Huang Yueli saw him standing still and not letting go of her hand, she couldn’t help but feel a little anxious.

She kept shaking her hand and urged softly, “Moying, why are you in a daze? Hurry, my Father and Mother are waiting for us!”

Li Moying held her wrist and suddenly pulled her tightly into his arms, as his handsome face suddenly pressed down on her.

“Mm Mmm mmph!”

Huang Yueli was caught off guard and was kissed on the lips by him.

At such an anxious timing, why was this man suddenly doing such a thing!

Huang Yueli was shocked and anxious. She was just about to struggle free but when Li Moying suddenly let her go.

“Let’s go, follow behind me!” After Li Moying gave her a hard kiss, he forced himself to stop his thoughts from running wild.

He pulled her behind his back and led the way into the Blood Moon Great Array.

In the array's surroundings were a huge number of Sacred Phoenix Race's practitioners. All of them were like sculptors who were immovable.

Most of them had their blood essence drawn away and were already unconscious. But a small portion of the top exports maintained a sliver of consciousness. All of them widened their eyes in shock, at the young couple who suddenly appeared before them.

No one had expected that someone would infiltrate such a heavily guarded place like Snow Phoenix Palace and during such a sacred Sacrificial Ceremony.

Sacred Phoenix Race's practitioners were extremely horrified but none of them could move. So naturally, they weren't able to stop these two people at all.

Li Moying brought Huang Yueli across the group of people without any obstructions. Very soon, they reached the bottom of the Blood Moon.

Under their feet, just one step away was a huge round opening. Below it was where the blood pool of the Blood Moon Great Array was.

At this moment, the blood pool was continuously sucking in Sacred Phoenix Race practitioner's blood essence. At the same time, these blood essence turned into a blood mist and it floated to where the Blood Moon was and gathered around it. It made that eerie ball-shaped moon grow larger!

"Wu—!" Huang Yueli suddenly gave a dull moan!

#### **Chapter 2642: The most evil of all (4)**

Li Moying jumped up in shock and hurriedly turned around. He saw Huang Yueli clutching her mouth and her face was extremely pale. But in between her fingers was a trickle of blood.

"Li'er!" He hurriedly clasped Huang Yueli's slender waist and let her lean against herself. At the same time, he anxiously checked on her.

Huang Yueli coughed a couple of times, feeling that her body became rather heavy. She also felt lethargic.

"Li'er, what's the matter?" Li Moying frowned and his gaze swept across the surroundings. He suddenly understood what happened. "The Blood Moon Great Array also affects you greatly right?"

Huang Yueli took out a medicinal bottle from her realm ring. When Li Moying saw that, he immediately took a pill out and put it into her mouth.

Luckily, Huang Yueli's symptoms weren't as serious as Huang Siluo's. She managed to regain a little bit of energy after taking the pill.

"Moying, don't worry..." She touched Li Moying's tightly creased brows and attempted to pacify him. "I am after all a mixed-blood so there is a limited effect on me. Earlier when we were outside the array, I was still feeling ok. Perhaps... perhaps it's because we are going to enter the center of the blood pool soon. That's why I suddenly feel so unwell..."

“Looks like we are too hasty in executing this plan! It’s my fault for not being comprehensive enough. If I had thought of this earlier, I wouldn’t have brought you along!” Li Moying held Huang Yueli’s hand and was extremely sullen.

He stood upright and said, “No way, we have to think of other ideas and not barge in like this. Let’s leave this place first!”

Saying that he wrapped his hands around Huang Yueli’s waist and tried to carry her.

However, Huang Yueli pushed him and tried to escape from his embrace.

“No way, we don’t have any time to waste! Don’t worry, I’m really fine. I will be alright momentarily, but we just need to be quick!: They were already here so Huang Yueli wasn’t willing to leave like this.

Moreover, time had passed by quite a fair bit. She wasn’t sure if Lord Zhan had done anything to Bai Liufeng and the others.

Perhaps he had already captured them and might be on his way back.

If they missed the chance for a sneak attack, there might not be a second chance later.

She immediately made a decision and said swiftly, “Alright. Moying, I have so many pills from my Senior Brother with me, and if I eat all of these, it will be able to replenish six hours of the blood essence that I had wasted. I’ll just go for a short while, so it would be alright!”

Huang Yueli was so persistent. Adding on to the fact that she did look better after taking the pills, Li Moying did not dissuade her again.

“Alright, then follow me tightly. Tell me immediately if you don’t feel well. Do you understand me?” Li Moying kept repeating himself as he turned around and was prepared to jump down.

“Ah, Moying, wait a minute!” Huang Yueli cried out to stop him.

Li Moying was stunned, “What’s the matter?”

Huang Yueli said, “I will go down alone and you stay up here to keep guard! Later if I were to break the array eye, the entire Blood Moon Great Array will crumble in an instant. By then, a large amount of blood essence will fall back into the blood pool. If we’re not careful, we might drown in the pool. So if you stay outside, you can keep track of the timing and pull me out!”

Hearing that, Li Moying’s expression was even more ghastly.

“What? You knew about these long ago but didn’t tell me that damaging the Blood Moon Great Array is such a risky thing to do!”

### **Chapter 2643: The most evil of all (5)**

If he had known, he would never have agreed to let Huang Yueli do this!

Alas, it was all too late to say anything now.

Huang Yueli blinked and gave an innocent reply, “There’s indeed a bit of danger. But I’ve done my calculations. The Blood Moon has already ascended to such a height and it will take a long time for it to

drop. As long as your reaction is fast enough, there will be sufficient time for you to pull me out. I believe that you have this ability, right!"

Huang Yueli naturally knew Li Moying's thinking hence she intentionally hid this fact from him.

This plan was riskier, but the success rate was rather high. Rather than making this man worried for nothing, it was better to take the initiative and make her move first!

Although Huang Yueli seemed as pure and innocent as a little rabbit, Li Moying knew what this little fox was thinking about!

Now that things have come to such a pass, he could only choose to coordinate with her.

"Then you... have to be extra careful!" He could only stifle this sentence out.

Huang Yueli looked at his handsome-looking face and nodded. Then she jumped down into the blood pool below.

This quiet and gloomy blood pool had accumulated many practitioners' blood essence. The blood stench was extremely thick and when one went near, the smell could make one faint!

But as this was not Huang Yueli's first time entering the blood pool, she had more or less prepared herself mentally.

She used her secret arts to hold her breathing and tried hard to screen out her sense of smell before she jumped in.

Li Moying had been paying attention to her actions and just when Huang Yueli's body was about to drop into the blood pool, he also took action.

The strong Profound Energy struck down into the blood pool and split the bloody water into half. That action revealed the mechanism and array eye at the bottom of the pool.

Huang Yueli hurriedly squatted down and firmly landed onto the ground.

She did not have any time to waste, and hurriedly started the process to decode the array.

Toward this Blood Moon Great Array, she had spent a huge amount of effort along with Bai Liufeng, and Cang Po Yu, to devise a perfect proposal to destroy it.

However, this was after all an array that had been left behind since ancient times. Moreover, it was a demon tribe's array. It was on a different route as the array system which was imparted within Soaring Heavens Continent. The few of them racked their brains but were still not able to guarantee that they were able to decode it totally.

That was why they chose to route past the Blood Moon Great Array when they first infiltrated the Snow Phoenix Palace.

Due to unforeseen circumstances, they had to disrupt the Sacrificial Ceremony. Hence Huang Yueli could only bite the bullet and give it a try.

She recalled the conclusions that the three of them discussed. On one hand, she used the array board and started calculating swiftly. The other hand kept striking out hand gestures, in an attempt to interrupt the Blood Moon Great Array's operation.

Her hard work seemed to work slightly and the speed of the absorption rate of the Blood Moon Great Array seemed to decrease slightly.

However, the speed of the decrease was extremely weak. It was not possible to affect the process of the Sacrificial Ceremony.

Huang Yueli struck out dozens of hand gestures, but the result did not yield many changes.

It wasn't only that. Her blood essence was also triggered by the array, and it almost caused her to fall again.

"Damn it! This array is too evil! What other ways should I use to decode it?"

Huang Yueli cursed softly and hurriedly took out her medicinal bottle. She stuffed two pills into her mouth and barely regained a little strength.

Immediately following that, she started to put in tireless efforts again.

As her hand gestures changed, the surrounding blood mist started to turn fainter.

#### **Chapter 2644: The most evil of all (6)**

But the process of the change was still very slow.

Time passed bit by bit and the pressure that Huang Yueli increased. The sweat on her forehead started to drip.

Li Moying was by the side of the blood pool. He was controlling the bloody water in the blood pool and also carefully checking on the changes in the surroundings.

When he saw Huang Yueli racking her brains, he was more anxious and worried than anyone else. But there was nothing that he could offer to help.

Especially when he saw her face turning pale, and had no choice but to take the pills. It pained him so much that he wished he could take her place!

Luckily, Huang Yueli's perseverance finally paid off.

In the end, the Blood Moon Great Array's speed of absorbing blood essence was lowered by a level.

"Rumble— Rumble—"

A vigorous movement could be felt from the deep underground!

The entire Snow Phoenix Palace started to shake violently.

Based on Huang Yueli's cultivation, she might not be able to damage the Blood Moon Great Array. But at least, it had already disrupted the normal procession of the Sacrificial Ceremony. Even the blood moon above them looked as though it was about to fall.

Li Moying instantly made a decision and jumped into the blood pool.

Huang Yueli had spent too much energy when she was trying to decode the array. Plus the fact that he had been wasting her blood essence, her face was totally pale and she was on the verge of fainting.

Li Moying wrapped his arms around her waist and carried her up.

“Let’s go, we must quickly leave this place!”

Huang Yueli obediently hugged Li Moying’s neck so that he could hold her firmly. At the same time, she said softly, “Let’s go by the tunnel on the right...”

Li Moying leaped upwards and jumped out of the blood pool’s boundary, reaching the upper level where the Sacrificial Ceremony was held.

He was just about to run toward the direction where Huang Yueli pointed to.

Suddenly, he just appeared and a figure blocked his path.

“You... who are you people! You actually... actually dare to barge into Snow Phoenix Palace, and... and even interrupt the Sacrificial Ceremony!” The person’s face was full of blood and he looked extremely malevolent.

Li Moying’s brows creased. He suddenly realized that following the weakening of the Blood Moon Great Array by Huang Yueli, those Sacred Phoenix Race practitioners whose blood essence had been drawn out and was on the verge of death had picked up an advantage and were saved.

Actually, the stronger ones had regained their consciousness.

They were not too clear on what was happening. But when they saw two strangers intruding into their place, the first reaction they had was to stop them.

A cold glint flashed past Li Moying’s eyes.

He hugged Huang Yueli in one hand while the other drew out his Amethyst Light Sword. The sword body turned into lightning and struck those Sacred Phoenix Race practitioners who blocked their way!

Li Moying was a top-rated cultivation genius. No matter if it was in terms of his cultivation or eyesight, few people could match up to him. These Sacred Phoenix Race practitioners had noble bloodlines and had been cultivating god-grade cultivation methods since young. But in terms of actual combat experience, they couldn’t be compared to Li Moying at all.

Moreover, Li Moying’s bloodline was also from an ancient god clan, totally not weaker than them in any way!

Whereas for Sacred Phoenix Race practitioners, they were seriously injured because of the loss of blood essence so their abilities took a severe discount.

In comparison, Li Moying had much stronger power.

His sword waved and multiple electric currents joined together. The swift lightning surged and in a second, many Sacred Phoenix Race practitioners were flung away!

These few people fell on the ground and weren't able to climb back on their feet. The gazes they cast on Li Moying were full of shock and surprise.

Who... was this person!

### **Chapter 2645: The most evil of all (7)**

Li Moying's sword was extremely sharp, and it bore an indomitable aura. The sword qi practically sliced up wherever it was pointing to.

Sacred Phoenix Race practitioners tried to stop him but none of them were his opponents. They all started to fall back under his Amethyst Light Sword!

However, their obstructions indeed delayed Li Moying's movement.

After he managed to force those practitioners back, he was just about to jump up and leave when a cold voice suddenly rang from an unknown corner!

"Bai Ruoli! Li Moying! It's indeed the both of you who are spoiling This Seat's matters! You're simply too bold! Do you have a death wish!"

Lord Zhan sensed the weakening of the Blood Moon Great Array and he was so furious that his voice also carried Profound Energy suppression!

Many of the Sacred Phoenix Race practitioners were originally very weak. Under such immense pressure, quite a number of them started to throw up blood.

Li Moying also felt his chest suffocating but he forcibly suppressed his discomfort. His right hand held on to the Amethyst Light Sword and he stood upright. His eyes were cold and calm, like an unbending long sword.

Lord Zhan simply came too quickly!

He originally wanted to escape with Huang Yueli from this place. At least make use of Snow Phoenix Palace's complicated topography and conceal themselves before they sneaked out.

Whoever knew that these Sacred Phoenix Race practitioners suddenly regained consciousness and blocked their way. Hence they weren't able to leave the Sacrificial Ceremony boundary in time and were stuck at this place.

With Lord Zhan blocking their way in front, it seemed impossible for the two of them to escape.

Huang Yueli had already recovered some energy. She lifted her head and said coldly, "Lord Zhan, as Sacred Phoenix Race's leader, you sucked away Sacred Phoenix Race's clansmen's blood essence for your use! You are so deranged but you still have the cheek to say that you are doing this for Sacred Phoenix Race?"

"What? Lord Zhan actually..."

"That's right. Earlier I felt my blood essence being drawn out by some unknown energy!"

"Yes, I suddenly lose consciousness! Could it be that..."

Hearing that, all the Sacred Phoenix Race practitioners all revealed a shocked expression.

Now that they have regained their consciousness, they recalled the scenario when Lord Zhan drove the array. They also realized that Lord Zhan was plotting to take their lives!

For a moment, everyone's heart tumbled.

Many of them looked at Lord Zhan with a guarded and terrified look.

Lord Zhan knew that things were going awry and he simply couldn't wait to tear Huang Yueli into pieces on the spot!

"Shut up! This Seat absorbed the blood essence because I'm hoping the Sacrificial Ceremony to be successful! If it wasn't for the fact that sneaky thieves like you had infiltrated into Snow Phoenix Palace and disrupted the Sacrificial Ceremony, would This Seat even have to resort to this? Enough, stop wasting time! This Seat will not let you off today!"

Saying that he could no longer suppress the anger in his heart. He congealed his Profound Energy and attacked both of them!

Huang Yueli knew that things were bad!

She had said so much earlier that it was indeed like what Lord Zhan had mentioned. She wanted to stall for time.

It would be great if she could sow discord between the Sacred Phoenix Race practitioners. But if it didn't work, at least they might be able to wait till Cang Po Jun and the others came to assist them. In that way, they would have more chances of winning.

Unfortunately, Lord Zhan did not fall for it and was insistent on catching them.

Luckily, Li Moying had been fully alert right from the start. Facing Lord Zhan's attack, he was calm. He pushed Huang Yueli aside and drew his sword to face Lord Zhan!

### **Chapter 2646: The most evil of all (8)**

He suddenly shoved Huang Yueli to the side and she fell onto the ground.

She hurriedly got up and turned her head towards Li Moying's direction.

The Amethyst Light Sword was showing rays of glaring purple electric currents and sword qi. Apparently, it had been unsealed and was displaying the greatest might it had!

In a blink of an eye, Li Moying and Lord Zhan had already exchanged more than ten blows!

Li Moying had gained knowledge and experience from both lifetimes, and Bai Liufeng had given him a lot of collections. So in terms of cultivation method or Profound Skill, he could match up to Lord Zhan, or perhaps slightly better than him.

But the damage to his primordial spirit was the reason for his cultivation to come to a standstill, remaining at ninth stage realm eighth level.

This became his fatal weakness when he faced a peerless expert like Lord Zhan!

Lord Zhan also knew about this point and had no intention to drag the battle out. Hence he used all his power right from the start, hoping to use his cultivation to suppress and kill Li Moying!

Under the suppression of absolute pressure, even though Li Moying used all the methods he had on hand, he still inevitably fell into a disadvantage.

He took a step back and his gaze dimmed.

His left hand lightly brushed past the middle of his eyebrows and a fingernail-sized blood print was drawn there!

Huang Yueli was stunned, “Moying—! You—!”

Following the blood that was left in the middle of his brows, Li Moying’s cultivation abruptly raised!

This was one of the ancient secret techniques that Blue Profound Sect had collected. One could raise their cultivation temporarily through burning one’s blood essence!

This cabana was extremely dangerous. After one used this, one would sap one’s vitality, or even experience a drop in cultivation level!

To Li Moying, the risk he had to undertake was much bigger. Because the damage caused by the secret technique towards primordial spirits was even greater!

The last time in Snow Phoenix Palace, Li Moying also used this secret technique. It ended up with him falling into a critical condition. If it wasn’t Liu Buyan who managed to refine the pill on time, he would have been dead for several months by now!

As for now, he used the same secret technique in the same situation as previous times. They were in the same Snow Phoenix Palace and facing the same enemy, Lord Zhan!

Even if his Soul Detachment Illness was already basically cured, but Liu Buyan had repeatedly warned him not to overdraft his cultivation like this. Otherwise, his life would be in danger!

Huang Yueli screamed in shock.

But she quickly shut her mouth again.

They were in a life and death crisis now, so Li Moying had no choice but to do this!

In order not to let Li Moying’s efforts go to waste, they must succeed in this one move!

Huang Yueli’s thoughts swiftly raced past her mind. A half god relic Night Rainbow Zither appeared in her hands and she moved behind Lord Zhan’s back.

Li Moying was successful in executing his secret technique and his blood essence kept burning. His ability rose rapidly and after he broke through the ninth stage realm peak, it continued rising! Very soon, he was in the same realm as Bai Liufeng!

But this kind of condition could not last long. So Li Moying did not dare to take a break and immediately gathered electric currents as he attacked Lord Zhan once again!

Lord Zhan's eyes were filled with ridicule. "What? A lowly human race actually assumed that burning your blood essence will enable you to win This Seat? Simply day-dreaming! Dealing with you is merely just lifting a finger for me!"

He laughed coldly and congealed all his Profound Energy, preparing to give Li Moying a heavy blow.

It would be best if he could kill this young practitioner who had been repeatedly provoking him!

Profound Energy gushed out wildly from his surroundings!

But just at this moment—

"Zing- Zing- Zing Zing—!"

### **Chapter 2647: The most evil of all (9)**

A melodious zither sound pierced through the Profound Energy's aggressive bumps and vibrations into his ears.

For a moment, Lord Zhan was caught in a trance.

Because this melody was simply too amazing! Simply like a sound of nature which made one unable to forget once they heard it.

But at the next moment, he suddenly realized that his body could not move, as though it had been frozen!

There was a problem— with this zither music!

Lord Zhan abruptly regained consciousness but alas, it was too late!

Although Huang Yueli's zither music could only trap him for three breaths, when genuine top exponents crossed hands, it was a fatal flaw!

Li Moying and Huang Yueli's coordination was flawless. From his peripheral view, when he saw Li'er moved, he had already made plans to strike.

Right now, he had already used up all his Profound Energy.

Numerous electrical currents came crashing down through the crack on Snow Phoenix Palace's ceiling and landed into Li Moying Amethyst Light Sword.

All the thunder attributed energy was congealed in the long sword. It started to give off a blaring glint, which was so bright that it could blind everyone's eyes.

He made his move!

At the same time, Huang Yueli also combined different deviant flames and threw an attack from Lord Zhan's back!

This was also Huang Yueli's best shot. She congealed all the Profound Energy within her and in an instance, it caused the energy to explode.

On her back, a Sacred Phoenix's virtual image slowly ascended. Its huge pair of wings seemed to have enveloped her!

The two of them attacked from and back, and their timing was perfect.

By the time Lord Zhan came back to his senses, there was no way for him to evade them so he could only forcefully use his body to take on both parties' attacks!

"Rumble—!"

Under the intense explosions that rang beside Lord Zhan, a ray of light dashed into the sky!

Sacred Phoenix Race practitioners were all dazed as no one had ever expected, their invincible and unsurpassable Lord Zhan to be pushed to such an end by these two young practitioners!

The instantaneous explosive power that came from their combined attacks was simply too powerful.

Lord Zhan could not evade in time and took on this blow directly. He would probably be seriously injured or dead!

Huang Yueli and Li Moying's hearts beat as one. After they succeeded, they did not interact using words and scurried towards the same direction at the same time!

Lord Zhan was after all a top-rated peerless top exponent. In terms of ability, no one in Soaring Heavens Continent could match up to him.

Even if they managed to hit him, the possibility of him dying immediately was very low.

They had to grab this opportunity to escape. Otherwise when Lord Zhan recovered, the. Both of them would be goners, for sure!

After the blaring light diminished, Lord Zhan's figure appeared from behind the pillar.

His entire body was filled with wounds and blood kept spurting out. There was even a scorched sign of injury on his face.

"Cough cough! Cough cough!"

Lord Zhan coughed and spat out a mouthful of blood. The coldness in his eyes could turn anyone into ice immediately!

He turned his head around and suddenly widened his eyes, "This... This— This is the Sacred Phoenix Reflection??"

When Huang Yueli struck out with all her might, the virtual image of the Sacred Phoenix formed behind her back and had not diminished. Hence Lord Zhan had a chance to see this!

After Lord Zhan's momentarily shock, he quickly came around it. "So.... so the Sacred Phoenix Reflection that appeared in the freezing zone that day was summoned by this wretched lass!"

**Chapter 2648: The most evil of all (10)**

“That’s right, why haven’t I thought of this? Although a part of her blood comes from the lowly human race, she is Holy Maiden’s daughter after all. She has our Sacred Phoenix Race’s blood!”

As Lord Zhan started thinking, a strange, sinister smile appeared on his face.

“No wonder, the prediction back then said today is the glorious day for Sacred Phoenix Race! The wretched lass created such a big problem, and I thought the prediction was wrong. What a surprise! This wretched lass is the crux for the Sacrificial Ceremony!”

“Heaven is indeed helping me—!”

Lord Zhan raised his head and laughed crazily~

When Sacred Phoenix Race practitioners saw Lord Zhan seriously injured, they trembled as they walked nearer to him. Whoever knew, Lord Zhan suddenly burst out into such a terrifying laughter, and that made everyone had a shock. All of them hesitated to continue walking.

Lord Zhan saw their movements and stopped laughing. He tugged the corners of his lips and showed them a smile.

He tried to lower his voice and said, “Come over here! This Seat has something to convey to all of you.”

He assumed that his tone was already very amiable. But in the eyes of the clansmen, his smile was exceptionally strange and his voice made one feel an intense sense of uneasiness.

Everyone exchanged a hesitant look, not daring to walk up.

A cold glint flashed past Lord Zhan’s eyes but his tone became softer. “Come over. Today’s ceremony’s failure isn’t your fault, so This Seat will not blame you for it.”

Hearing that, the clansmen heaved a sigh of relief.

Lord Zhan was a temperamental person. But he had always kept his words and would not go back on it easily.

Since he promised that he wouldn’t blame anyone for it, then... there shouldn’t be a problem?

Asking them to go over was probably because he wanted to brief them on the next course of action.

Sacred Phoenix Race practitioners did not doubt him and started to crowd around.

“Lord Zhan, just now...”

When the majority of people were less than ten meters away from him, Lord Zhan’s slightly closed eyes suddenly opened wide!

Two rays of cold light shot out from his eyes!

At the same time, he put his hands together and swiftly chanted a long chain of mantras!

The entire Snow Phoenix Palace’s grounds started to shake along with his benediction!

As for those practitioners around him, they seemed to have been struck by lightning. All of them turned stiff as they could not even move their fingers!

At the bottom of the Blood Moon Great Array, the blood pool set off rough waves once again!

Sacred Phoenix Race practitioners' blood essence started to flow out from their seven orifices. Their blood gathered into the Blood Moon Great Array and turned into blood mist. However, the blood mist did not integrate into the blood moon this time, but it shrouded around Lord Zhan instead.

The speed of the absorption of the Blood Moon Great Array was much faster than the previous time when it was activated.

Moreover, the speed was becoming faster and faster!

The current Lord Zhan no longer had any misgivings, nor hesitate in drawing his clansmen's blood!

Very soon, one after another clansmen fell beside his feet. They went soft like a lump of mud and stopped breathing.

But Lord Zhan's speed of absorbing blood essence did not show signs of slowing down at all!

All these happened too quickly!

It took just a finger snap and a large group of practitioners had their blood essence completely drawn out. Lord Zhan's blood and qi lingered around his body, and his ability was raised to another level once again!

#### **Chapter 2649: It's my turn to haunt you (1)**

After he completed the upgrade, he did not hesitate and immediately pursued Huang Yueli and Li Moying!

...

Huang Yueli and Li Moying ran all the way and they had already left the Blood Moon Great Array's boundary.

The both of them kept running and turning back to check on the situation. They were prepared for a large number of Sacred Phoenix Race practitioners to chase after them.

However, they had already run for a distance, and unexpectedly, no one followed behind them at all.

The two of them ran through a long corridor and finally stopped in front of a mechanism door.

"Strange, no one chased after us at all. Could it be that... Lord Zhan has given up? He doesn't seem like this kind of person!" Huang Yueli said as she frowned.

Li Moying stood behind her and looked alertly at the surroundings. "He must be up to some schemes. We must hurry and make our escape first!"

"En, you're right!" Huang Yueli nodded her head in agreement. At the same time, her fingers were swiftly operating the mechanism, trying to open the door in front of them.

The mechanism door bounced open, revealing a side seam.

The two of them couldn't wait for the mechanism door to open completely and they scurried out of the door at the same time. They started to run towards the pre-agreed gathering point to meet up with Cang Po Jun and the others.

However, just as they were running swiftly, a gloomy cold aura suddenly hung above their heads.

The both of them shivered and turned around.

Lord Zhan had silently come from behind them, with a body full of blood stench aura. His face was covered by a layer of red mist, and they were unable to see his expression.

Li Moying instantly sensed a strong wave of crisis!

This terrifying premonition before one's death was much clearer and more distinct than any moment in his entire life.

Lord Zhan started to emit a powerful suppression. As compared with the previous times that they had exchanged blows, there was an evident increase in power!

Although Li Moying and Huang Yueli did not witness the terrifying sight whereby Lord Zhan drew out his clansmen's blood essence, they somehow had already understood what had happened earlier.

Li Moying also knew clearly that he had already used his secret technique earlier, and joined forces with Huang Yueli to escape from Lord Zhan earlier. But now, facing an even powerful Lord Zhan who was now raging with madness, the success rate for him and Huang Yueli was practically zero!

Li Moying made a decision immediately. At the end of the corridor, he saw the second door mechanism from the corner of his eye which was not too far away from them.

He decisively gave Huang Yueli a hard shove on her back, pushing her towards that door.

"Li'er, quickly leave! Don't turn back!"

Huang Yueli was caught off guard and immediately got pushed out by him!

"Moying—! You—!" She cried out in shock as her body had already flown upwards.

Lord Zhan smiled coldly when he saw her leave, and was just about to go up and chase after her.

But Li Moying suddenly ran out with the Amethyst Light Sword in his hand. He stood firmly in front of him.

"Li Moying, did you think... that based on your current cultivation, you can stop This Seat?" Lord Zhan looked at him disdainfully.

Li Moying did not answer him. Instead, he raised his sword and the dazzling Amethyst Light Sword split apart the blood mist, stabbing towards Lord Zhan!

He knew that he was absolutely not Lord Zhan's match. Moreover, he had already used the secret technique to raise his cultivation earlier. It would only last for a maximum of two hours. So he had to make use of the time while he was still able to maintain his strength, to obstruct Lord Zhan's movements as much as possible.

## Chapter 2650: It's my turn to haunt you (2)

As long as Huang Yueli was able to escape in time and reunite with her parents, then his death would absolutely be worth the price!

Lord Zhan could naturally tell what Li Moying had in mind.

But he totally could not be bothered about Li Moying at all.

Lord Zhan had already absorbed the Sacred Phoenix Race clansmen's blood essence twice. Under the support of this powerful strength, even if Bai Liufeng was around, he would not be able to take one strike at all! Not to mention Li Moying, who had not even reached ninth stage realm peak cultivation yet!

Lord Zhan's right hand waved and a gust of thick blood mist wrapped around Li Moying's body!

The blood essence energy refined using evil arts was not only powerful, but it also carried a kind of corrosive nature. It could swallow all the Profound Energy nearby and corrode the practitioner's body.

The Amethyst Light Sword in Li Moying's hands was shrouded in the blood mist and it instantly gave off a miserable sword cry!

Li Moying's thunder attributed Profound Energy was being pushed back by the coercion of the blood mist. After the Amethyst Light Sword gave off a "buzzing" sound, it started to vibrate violently and broke into half from the middle!

Following the disintegration of the Amethyst Light Sword, Li Moying's body was thrown out by the impact and he landed on the ground with a loud crash.

"Lowly human race, how dare you challenge This Seat's authority!" Lord Zhan's eyes had already turned into a horrifying red color, and he cast a look at Li Moying from the corner of his eyes.

"Your innate talent isn't too bad, much better than those human race's trash. Since you've sent yourself to my door, it's just nice! You can offer your blood essence and spiritual root, along with my niece, for the Blood Moon Great Array!"

Anyway, no matter how fast Huang Yueli ran, she wouldn't be able to leave Snow Phoenix Palace's boundary within such a short amount of time.

Li Moying's blood essence and innate talent should not be wasted. After capturing Li Moying, there should be more than enough time for him to chase after Huang Yueli.

Lord Zhan walked forward complacently, as he wanted to drag Li Moying away.

At this point, Li Moying could feel that most of the meridians in his internal organs had shattered. The intense pain shot through every inch of his body!

His head also started to feel dizzy and painful once again. He was just too familiar with this feeling. It was the exact feeling that he had in the past. Every single time he fought with someone, his Soul Detachment Illness would act up.

It seemed that his actions of forcefully using the secret technique to raise his ability had still caused damage to his primordial spirit...

He had severe injuries and his primordial spirit was so weak. So if he wanted to obstruct Lord Zhan's movements, then he could only...

Li Moying endured the pain and squinted his eyes. He kept a close watch on Lord Zhan's movements as the latter walked near him. At the same time, his hands started to clench tightly...

Ten steps, nine steps, eight steps...

Just when Lord Zhan was just three steps away from him, Li Moying suddenly jumped up from the ground!

His hands raised and he was about to strike out at Lord Zhan—

"Moying! No! I won't allow you to self-explode! I will rather die than let your soul and spirit disperse! Huang Yueli's terrified and desperate cries were heard coming from his back.

Immediately following that, Li Moying felt Huang Yueli pouncing onto his back. She hugged his back tightly and stopped his actions!

Li Moying's body stiffened. Never had he expected Huang Yueli to not follow according to his wishes. She did not grab the chance to escape, and she even saw through his motive of self-exploding his primordial spirit just to stop Lord Zhan. She even ran out to stop him!

He shouted exasperatedly, "Li'er, what are you doing back here for? Quickly leave!"
