

Weaponsmith 2671

Chapter 2671: Do you want me? (1)

Li Moying went into a daze. When he saw Huang Yueli about to cry, he became flustered.

Luckily, Huang Yueli was agitated and forgot to use the Sky Phoenix Ring's might to restrain his movements.

So when Li Moying realized that he could move, he immediately held Huang Yueli into her arms and caressed her black and shiny hair. Then he comforted her softly, "Li'er, don't let your thoughts run wild. There's really nothing wrong with me! It's just that my potential could not match up to the past. What's important is that we can be together and that matters more than anything else!"

She hugged his waist tightly, very tightly. It was so tight that it pained the injured Li Moying so much that he felt that he almost could not breathe.

However, he didn't say a word or try to struggle free. Instead, he hugged her tightly and said, "Li'er, it's my fault. I shouldn't have kept this from you. But I really don't mind it at all! Anyway, don't I still have you? Then you can protect me!"

Huang Yueli buried her face into his chest, as she felt that she could not control her tears and it was about to flow.

Don't mind his lack of ability?

No genuine genius practitioner would not mind their lack of ability.

To a peerless genius like Li Moying, that was even more so!

Li Moying had placed a lot of emphasis on his cultivational ability in his past life. Other than spending time with her, he spent the rest of his time cultivating and was one of the strongest practitioners in Soaring Heavens Continent.

This kind of man... actually said that he did not mind the lack in his ability!

How was that possible?

He wasn't the kind of person who did not mind his ability, but... he cared more about her!

Huang Yueli's heart was moved but she was also full of guilt. She rubbed against Li Moying's chest and suddenly made a decision.

Using her hand to support herself against the ground, she sat up and looked at Li Moying. Then she smoothed her hair and said softly, "Moying, you... do you want me?"

Li Moying was stunned as he looked at the young lady who straddled on his waist. That pair of alluring eyes kept twinkling. Her palm sized face was fair and exquisite, and her skin seemed as shiny as porcelain.

His adam's apple slid up and down and he felt his voice turning a little hoarse. "Li... Li'er, what are you... talking about?"

Huang Yueli repeated herself once again, "Moying, do you want me or not?" This time, her tone was much firmer.

"You... what joke are you cracking!" Li Moying jumped up after he understood what she said, "Do you know what you are saying!"

Huang Yueli pouted and said, "Of course I know. We've already been married for so long but had not consummated our marriage. Moreover, you're not impotent. Then... don't you want me? Or could it be that I'm not attractive to you at all?"

Li Moying heard his beloved little fox's sweet voice and he felt a little ticklish as though a little kitten was scratching his heart.

A flame scuttered inside his body and he spent a great deal of effort to suppress it.

"Li... Li'er, don't... don't joke around with me! It's already this kind of timing, you... can we don't talk about this?"

Huang Yueli's hand slowly moved up to his chest and asked, "Why can't we talk about this?"

Li Moying gulped and attempted to talk logic to her. "You... you also saw from the remnant pages that if we were to consummate, it would be too dangerous for you. I., I can't afford to take this risk."

Chapter 2672: Do you want me? (2)

"Moreover, we... we're still in such a dangerous place now. It's better... better for us to think about how to escape first. We can wait... until we leave the place."

Li Moying suppressed the little unregulated claws on his chest, not allowing her to move about randomly.

Huang Yueli's action took a pause but very quickly, she leaned close to him again. This time, she even stuck close to Li Moying's chest.

"Moying, do you really believe that... we have a chance to escape?" Huang Yueli's face rubbed against his neck and blew a puff of warm breath against his chest. It was extremely ambiguous.

But the things she said made Li Moying's heart jolt!

His fists clenched tightly and loosened. Then he spoke in an extremely peaceful tone, "Of course we can. We will definitely find a way. I don't believe that we will die in this place."

Huang Yueli kept shaking her head and whispered, "No, you don't need to say these to comfort me. I know clearly that it's impossible for us to leave this place safely. Now there's still slightly over an hour before you will be thrown out of Sky Phoenix Ring whereas I can stay here a little longer. But I can't go anywhere else. The result would be to return to the blood pool. Even though I have found a few pieces of Profound Armament in the Sky Phoenix Ring, but just relying on these things would merely allow us to die a little slower, and not truly escape..."

Li Moying's hand trembled and his complexion turned extremely pale.

How would he not know all these? He only did not want to make Huang Yueli worried.

But as long as there was a chance of life, he would do his best to allow her to live a little longer. He would use his entire life to protect the young lady!

“You.. don’t let your thoughts run wild... there’s, after all, a little bit of time left. Let’s think of a way together...”

Li Moying attempted to persuade her but Huang Yueli shook her head and interrupted him.

“There is a way. Moreover, it’s the only way. You know it too, don’t you?”

Li Moying felt his heart thumping wildly, as an ominous premonition arose!

Please don’t let Li’er think of what he was thinking, absolutely don’t let it happen! Don’t...

But the next thing that Huang Yueli said, totally shattered his imagination.

“Moying, it’s impossible for the both of us to escape unscathed. If it was like now, we can only choose to die in the blood pool together and even our corpses will be missing! But if one of us sacrifices, then there’s a high chance that the other will be able to survive, isn’t that so? Isn’t this deal very simple? Just one person dying is better than both!”

Huang Yueli said that serenely.

Her voice was very soft and her tone was very peaceful. But Li Moying was appalled to hear that. The blood in his body started to freeze.

“Li’er, you... what are you talking about? Who said that one person dying was better? That would depend if the other person is willing to continue living! Without you, I... what’s the point of me staying alive? Li’er, don’t... don’t do anything silly, I will not allow that!”

Li Moying struggled to get up so that he could stop Huang Yueli’s following actions.

But he realized in terror that Huang Yueli had once again used the control over Sky Phoenix Ring to restrain his meridians, rendering him immobile.

“Li... Li’er, let go of me! Listen to me, let me go!” Li Moying shouted exasperatedly.

Chapter 2673: Primordial Spirit Unites (1)

However, she had already made up her mind, so she was unfazed. No matter how much Li Moying shouted, or how much assurance he gave, she did not release the restraint on him.

Li Moying was both angry and anxious and he shouted, “Li’er, what is the point for you to do this? Even if... even if you return the primordial spirit to me, I might not necessarily escape. Perhaps I might still die. Your sacrifice has no meaning at all!”

“Moying...”

Huang Yueli shook her head and was about to say something.

Just at this moment, the ground suddenly emitted another tremor. Moreover this time, the tremor was much more vigorous than the previous and it lasted longer as well.

The soft mud on the ground shook so much that it jumped up and dropped down.

Huang Yueli didn't sit properly and she lost balance. Then she fell right on top of Li Moying.

After some time, the tremors started to subside and the space regained its usual peace.

However, a deep and long crack appeared on the medicinal farm and it split into two. Many medicinal herbs on the farm were uprooted!

"Li'er, are you alright?" Li Moying looked worriedly at Huang Yueli.

She propped herself up and patted the mud off her body.

"I'm fine, but from the looks of it, the Blood Moon Great Array's might has already surpassed our imagination. Perhaps it wouldn't even take more than two hours before this place would completely collapse... we have to grab hold of time!"

Huang Yueli whooshed up from the ground.

Li Moying lifted his head and looked at her.

Huang Yueli stretched her hand into her collar and undid the disc buckles on her chest, one after another.

Very soon, she removed the dirty outer clothing, and immediately, she started to take off the inner clothing.

A moment later, she was only left with a faint yellow tight-fitting undergarment.

Li Moying's eyes widened and the young lady's curvy figure appeared right in front of him in a half-concealed form. That alluring curves and her fair and tender skin were enough to make any man go insane in a second!

But above all, Li Moying was feeling terrified and furious!

"Li'er, you... you're not allowed to do that. Quickly dress up! A lady taking off her clothes in front of a man casually, you... whatever next!"

Huang Yueli looked at him and was not affected by his words. On the contrary, her lips curled into a mesmerizing smile. "I'm not taking off my clothes casually in front of any man, but in front of my husband... shouldn't you be happy to have such a passionate wife?"

"..." Li Moying couldn't say any words of rebuttal!

Happy? If he could be together with Huang Yueli, he would never sacrifice her life for it. If they weren't in such a dangerous situation that might cost their lives right now, he would be more than willing to do so now.

But now, he really could not be happy at all!

Huang Yueli used her hand and slashed some saint spring water on her face to wash away the mud. Then she turned and walked towards Li Moying.

Her figure was very nice and she walked in an extremely graceful and elegant manner which was mixed with innocence and sexiness.

Li Moying kept warning himself multiple times that he should not fall for Huang Yueli's honey trap. Although his mind was thinking of that, his eyes did not listen to his brain and he kept ogling at Huang Yueli's chest.

It was until Huang Yueli bent down and pressed herself against him when Li Moying finally woke up from his daze.

Chapter 2674: Primordial Spirit Unites (2)

"No, no way. Li'er, get off me! Get off me right now! We really can't..." Li Moying was still resisting.

He could sense the young lady sticking close to his body and the sweet fragrance had occupied his breathing...

If it wasn't for the fact that his determination was strong enough, he would have lost his rationality long ago.

Huang Yueli's slender fingers undid his disc buckles to reveal that perfectly sculpted muscular line. She couldn't help but touch him a few more times.

Her eyes were wide open and she kept caressing his skin with a curious and amazing look. Li Moying couldn't help but shout.

"Li'er, please, I beg you to stop! We really can't do that... other than this, I will promise you whatever you want..." He started to sweat profusely, and his handsome face flushed a deep shade of red.

Huang Yueli's finger slid down and she couldn't help but pinch him.

"Can you stop screaming like a young lady who is being molested! Those who aren't sure of the situation would think that I'm bullying you!"

Li Moying did not feel pain from being pinched. Instead, he felt very warm, so warm that he was about to burn.

"You... aren't you coercing me in this way? I already said... no!"

"Even if you say no, we will still proceed!" Huang Yueli barked and put on a straight face.

Li Moying was shocked by her fierce words.

This stance, it seemed that he and Huang Yueli's roles were reversed?

He had only heard of those perverts coercing young ladies and this was the first time he ever heard of a man being... molested...

Just that moment of hesitation left his shirt being torn off by Huang Yueli. His upper body was completely exposed.

Li Moying looked horrendously at that pair of white, small, and beautiful "beast claws". It kept pinching and poking around which left his entire body in pain.

Just as Huang Yueli's little hand was moving downwards, Li Moying's brain suddenly exploded and his entire body seemed to be burning.

He used his last bit of consciousness to bite hard on his tongue!

The intense pain and bloody taste in his mouth allowed him to gain back a little bit of rationality.

"Li'er, stop fooling around. Take it that I'm begging you... Even if you return me that part of my primordial spirit, I will not live alone! If you die, there's nothing left for me to live for! I only want to accompany you in death!"

Huang Yueli stopped her actions and lifted her head to look at him in an extremely earnest expression. "Why is there no meaning? Moying, have you forgotten? Fourteen years ago, when we first met, I asked you what was your greatest wish then? You said that you wanted to climb the art of cultivation's peak to become a genuine peerless strong exponent. You will devote your entire life to pursuing even higher cultivation and have no regrets to do so! Originally, I was the one who dragged you down..."

She lifted her hand and started to caress him starting from his jaw and her eyes were filled with tenderness.

"Moying, even without me, don't you have your cultivation? Although I will not be able to stay by your side in the future, my primordial spirit will be inside you! When you regain your ability to become Soaring Heavens Continent's strongest top exponent, you will break through the tenth stage realm and the space barrier to ascend to God Realm. I will always be in your consciousness, staying by your side... So you can't die, and you won't die. You need to help me finish my unfinished path of cultivation..."

Chapter 2675: Primordial Spirit Unites (3)

When Li Moying heard her words, it was akin to a sharp blade slashing on his heart. It seemed to be slicing it into pieces and it kept bleeding.

He clenched his teeth and furiously shook his head, "No, impossible! Keep dreaming! Why should I listen to you, why should I finish your unfinished dream! Do you think you know me very well? Forty years ago, I was lying to you! That time I wanted to woo you and wanted to cultivate together with you. That's why I came up with that lie to deceive you! I thought that you wanted to hasten your cultivation and would choose me to be your dual cultivation partner!"

He spilled out his dark little secret and Huang Yueli's eyes opened wide in surprise. But she instantly gave a bright smile.

"So it's like this... No wonder that day, you showed me the god grade dual cultivation manual. I thought that you were wooing me because of cultivation, and asking for dual cultivation. I was wrong..."

That year, when Huang Yueli just got to know Li Moying, she had once been attracted by his peerlessly handsome outlook and incomparable innate talent. But not too long later, Mu Chengying showed her a god grade dual cultivation manual and also told her that he wanted to become Soaring Heavens Continent's Number One Top Expert.

Huang Yueli was extremely furious then because she assumed that Mu Chengying was trying to find a dual cultivation partner with great innate talent, and that was why he wooed her.

This impression lasted for many years and it was until her reincarnation when she completely changed her perspective.

She had not imagined that the truth behind this was actually like this...

The powerful, aloof and unsurpassed Sovereign Mu was once shy when he was young. Hence he did not dare to speak out his avid affection for her directly...

Moreover, it was Huang Yueli who said she only had cultivation on her mind and did not have any interest in love. Hence Mu Chengying said that to gain her good books but in the end, it made things worse.

Thinking of this, the smile on Huang Yueli's lips grew deeper. She lowered her head, kissed the side of Li Moying's lips, and said, "I was wrong. We wasted so many years and now we can finally double cultivate! Although the environment here isn't the best, at least we can finish up your wish from forty years ago."

"Go away! Who wants to double cultivate with you! I will absolutely not listen to you, do you hear me! If you die, I will go to Sacred Phoenix Race to kill every single person, then commit suicide to accompany you! I will still die, and I will die immediately! Do you hear me!"

Li Moying kept hooting with all his might, hoping to conceal the huge terror that was overcoming his heart!

He knew that Huang Yueli was serious. Once she decided on something, no one could stop her!

Whereas under Li'er's charm, he practically had no resistance at all!

In order to let Huang Yueli come back to life, he had spent so much hard work and had long disregarded his own life and death! His only wish is for his Li'er to live happily!

But now, Huang Yueli wanted to let him see her soul and spirit dispersed and scattered once again!

Moreover... it was to save his life!

Li Moying felt that he was about to go crazy. His heart was in so much pain that he could not breathe. He wished that he could die immediately!

At least, he would die in front of Huang Yueli.

She slowly walked in front of him, and before he had even reacted, she blew something on his nose and mouth.

A strong fragrance instantly mixed into his breathing.

Li Moying was stunned, but it was too late!

A strange fiery sensation arose in his body!

Chapter 2676: Primordial Spirit Unites (4)

The impulse came exceptionally vigorously and in an instant, it swept away the last of his rationality.

“Li’er, you... you actually... did that to me...??”

Li Moying looked at her in disbelief.

Huang Yueli didn’t say a word because she knew that it was impossible to convince Li Moying. Moreover, this man’s determination was extremely astonishing. Just based on her trying to seduce him, she might not be able to waver his determination. But she had her determination and resolution. She wanted Li Moying to live on, regardless of the price!

Huang Yueli had a bewitching smile on her lips and her fingers caressed his chest.

This time with her adding oil to the fire, it made Li Moying’s blood go rampant.

He raised his head and panted heavily, hoping to control himself slightly. Even if it meant allowing him to find a slight hint of rationality, that would be good.

However, no matter how hard he tried, all he could feel was his consciousness becoming dizzier and his brain was blurry. He could only see the young lady in front of him as she gave off a faint scent...

“Li’er... Li’er! You’re so beautiful...”

Huang Yueli blinked and discovered Li Moying’s eyes were blurred.

She tried to probe by loosening his restraint and at the next moment, Li Moying suddenly flipped around...

Huang Yueli was hurt by his subconscious movement and gave off a dull moan.

When Li Moying heard that, his body stiffened and his actions halted.

Even under such strong medicinal effects, his subconscious did not allow him to hurt Huang Yueli.

However, she misunderstood that his withdrawal was an attempt to escape.

She instantly wrapped his hands around Li Moying’s neck and leaned close to him as she whispered in the man’s ear, “Moying, don’t go... Hug me... I won’t cry in pain again...”

This sticky-sweet voice paired with that soft posture and outstanding countenance...

Li Moying could not resist this young lady in his arms any longer.

...

There were several intense impacts on Sky Phoenix Ring in the past one hour and the ground kept shaking vigorously.

But that pair of the young couple, who were in a tight embrace, was totally unaware of the changes in the outside world.

They had waited for too long and experienced too many obstacles before they were truly together.

Perhaps, they were able to hug each other tightly for this short duration. Or perhaps, it wouldn’t take long before the two of them would die horribly in the blood pool.

But at least, at this moment, they could clearly sense each other's deep love.

"Damn it, damn it this Big Demon Lord! Let go of my Master! Her consciousness is getting weaker... let go of her! You super-duper ultra big pervert! You lecher!"

As Sky Phoenix Ring's spirit artifact, Little Wang Cai could sense Huang Yueli's control over Sky Phoenix Ring was getting weaker as the both of them united. This meant to say that her primordial spirit was continuously weakening, and her consciousness was disappearing!

Little Wang Cai was extremely anxious, and he kept scratching at the door. He wanted to dash in from the room to pull the two of them apart!

However, Huang Yueli was determined to protect Li Moying's life, so she had already made preparations in advance. She locked Little Phoenix in the hall and shut the room door tightly so that he could not come out and disturb them.

Chapter 2677: Primordial Spirit Unites (5)

Little Wang Cai's voice was hoarse but with the door as a divider, his voice was just like a mosquito to the man who was consumed with desire.

Li Moying held Huang Yueli's slender waist tightly and he kissed her with dense and impatient kisses, sliding down from her neck to her chest...

At this moment, he truly realized what was the ultimate pleasure.

This pleasure was not only in the physical sense. It was more of a spiritual pleasure that came from deep within.

This kind of intoxicated feeling was even more pleasurable than being drunk, and even more magical.

Li Moying felt his Profound Energy swiftly flowing in his meridians. Every single time it went through a cycle, it would become stronger. Various complicated images flashed past his mind. Every scene seemed to replenish the gap in the deepest part of his consciousness.

He felt his energy turning stronger and all those obstructions and obscureness that he had once encountered during cultivation seemed to be evened out.

The Profound Energy in his body seemed endless with a never-ending flow to it...

It seemed like... a dream...

In comparison, Huang Yueli's complexion was getting paler and paler. She began to sweat profusely.

Li Moying tightly clasped onto her and she was still indulged in the man's hug. Other than looking paler, she was considered normal.

But in the instance when Li Moying let go of her, she seemed like a puddle of water that had melted on the ground. Her eyes were tightly shut and she did not move at all. It was as though she was dead.

"Female Devil, Female Devil!!!" Little Phoenix screamed and he pounded his little fists furiously on the door.

With a “bam”, the door was broken in by him!

Little Wang Cai went into a blank, as though he could not cope with the sudden changes. But it merely took him a short moment of silence when he started to scream horrendously. “Female Devil, you cannot die! Wooo woo woooo, although your temper isn’t good and you always like to bully me, I can’t find another Master like you who is so good at roasting chicken drumsticks! Woowoo woo...”

He sobbed and pounded on Huang Yueli, as tears kept rolling down his cheeks.

Although the two of them had only got along for over a year, and they would often bicker, but he could sense that Huang Yueli treated him like her own biological younger brother, unlike those god realm’s top exponents who treated him like a spirit artifact and only commanded him around like a slave.

He managed to break through Huang Yueli’s restrain and ran out from the room, not because he had become powerful. It was because Huang Yueli’s control over the Sky Phoenix Ring was getting weaker...

Her consciousness was disappearing and the link with the god relic was also disappearing...

Little Phoenix cried for a while when he suddenly recalled the reason for his Master to fall into this state. It was because of this man beside her!

Hence Little Wang Cai leaped up and pounced towards Li Moying.

“It’s all because of you! It’s all your fault! You scum, you gigolo! Female Devil died because of you! Return my sister to me!!!”

Little Phoenix used its innate bloodline’s god skills and his body suddenly grew bigger. He charged towards Li Moying, hoping to punch him to vent his anger!

However, Little Phoenix had just stepped within a radius of around ten steps when Li Moying’s body suddenly appeared a blinding gold light. A gust of powerful Profound Energy spiraled out from the surroundings!

Chapter 2678: Primordial Spirit Unites (6)

Little Wang Cai was already a matured body, but he had no way to resist such a powerful force. Hence he was sent flying by it.

Li Moying sat cross-legged, and his eyes were tightly shut. Sweat started to profuse on his forehead.

His Profound Energy might keep increasing, and increasing, and increasing!

Little Phoenix’s full force strike did not seem to affect him at all.

He was currently in a harmonized state. Heaven and Earth Profound Qi were gathered beside him continuously as it merged with him. Whereas for him, he sat in the same position and did not move. Every single time he breathed, his strength would increase evidently!

Very soon, Li Moying had already broken through to the ninth stage realm peak!

If he wasn’t advancing in Sky Phoenix Ring, it would probably be an exceptionally shocking moment in the entire Northern Ice Fields. Everyone would be awe-struck by his heaven-gushing Profound Energy!

Even for this little god relic space, a huge Qilin's virtual image appeared in Li Moying's surroundings.

This Qilin's virtual image was layered with his body and enveloped him within.

Following Li Moying's increase in strength, the Qilin's virtual image also grew bigger and even more realistic...

A vigorous tremor happened in the Sky Phoenix Ring once again. But this time, the tremor did not come from outside, but within the space!

Li Moying's absorption of the Heaven and Earth Profound Qi was simply too much. Even if it was the Profound Qi that the Sky Phoenix Ring had stored for years also couldn't withstand his exhaustion rate. After all the Profound Qi was drawn away, the originally firm God Relic became extremely fragile. Under Li Moying's Profound Energy impact, it was on the verge of collapse!

"No—No—How can this happen!!" Little Phoenix was horrified when he saw this!

If this man destroyed the Sky Phoenix Ring, then he would become a wisp of spirit and disappear from the face of this earth!

However, at this moment, nothing could stop Li Moying from advancing!

After he broke through the bottleneck of ninth stage realm peak, his Profound Energy continued to spar. Moreover, it rose at lightning speed!

Finally, following a loud "boom", the Sky Phoenix Ring could no longer sustain Li Moying's rampaging Profound Energy and shattered apart!

...

Blood Moon Great Array.

Lord Zhan chanted the Sacrificial Ceremony's benediction while watching the Blood Moon rise steadily under his control.

His eyes revealed a satisfied look.

"Those two brat's innate talents are indeed outstanding. After absorbing their blood essence, the Blood Moon Great Array gained so much energy. It's even more than the energy gained from killing those forty over Sacred Phoenix Race's practitioners' energy! Indeed.... peerless geniuses! But no matter how talented you are, it's useless. Your innate talents are just a stepping stone for This Seat!"

"Sacred Phoenix Race's prediction is indeed true!"

"Today will be the day when I, Huang Zhanxiao ascend to God Realm. Today will be the day when I become Sacred Phoenix Race's most revered hero!"

Blood essence was steadily drawn out, and that alluring and mysterious blood moon slowly rose to the sky.

"Rumble"!

A vigorous impact was heard!

The entire ground started to shake!

In the freezing zone, the ice mountain, which had never melted, was all shattered into pieces of varying sizes. The howling wind enveloped these shattered ice and lashed into a violent storm.

Chapter 2679: The Real Strong Practitioner (1)

Even the exterior of Snow Phoenix Palace was shaking because of the impact of those shattered ice. The sound of the impact was deafening, which seemed as though this ancient clan's palace would collapse at any moment!

Bai Liufeng and the others outside the Blood Moon Great Array were alarmed when they heard the commotion.

But Lord Zhan, who was inside the Great Array, wasn't alarmed at all.

He smiled faintly and raised his right hand.

"Following this will be the final step..."

A crystal stone around the size of a fist appeared in his palm.

This piece of crystal stone had an uneven exterior and was greyish. It looked no different from the ordinary stones which were picked from the roadside.

But when Huang Siluo saw this stone, she cried out in alarm, "Sky Phoenix Ring's shattered fragment! That's... a fragment of the Sky Phoenix Ring!"

"What? A fragment of the Sky Phoenix Ring? You... are you sure you didn't see wrongly?"

"How can this possibly be a fragment of the Sky Phoenix Ring?"

"This... it looks a little too... too ordinary!"

Everyone looked at Lord Zhan and their hearts were astonished.

To be frank, a dozen pieces of this piece of stone could be found on the streets. How could it be a shattered piece of the legendary god relic? Even though no one had seen the genuine god relic's shattered piece, but a powerful eighth or ninth tier Profound Armament had an outstanding exterior! But when the Sacred Phoenix Race's blood was spilled on top, these shattered pieces will regain the former dazzling look from several thousands of years ago!"

Huang Siluo was still in the middle of explaining when Lord Zhan took out a dagger and cut a slit on his palm!

Blood started to pour out from his palm.

Lord Zhan clenched his fingers and held the fragment of the Sky Phoenix Ring in his hand, allowing the blood to soak the entire piece of stone.

Immediately following that, a ray of light shot out from his fingers and he pointed at the blood moon in the sky!

Lord Zhan used one hand to refine the shattered piece while the other hand pointed downwards with an everchanging hand gesture, controlling the Blood Moon Great Array.

“For Sacred Phoenix Race’s to resume the former glory from thousands of years ago, using this clan’s strongest god relic as a guide, using the purest bloodline as sacrifice—”

“Blood Moon—Ascends—”

Lord Zhan’s tattooed face was filled with blood and under the blood colored rays of the blood moon, he looked like an evil spirit.

It was now at the last moment. As long as the Sacrificial Ceremony could succeed, he would be able to ascend to God Realm. He would get his return of investment for the past forty years!

Lord Zhan did not dare to have any reservations and used up all his strength He exhausted all his energy and controlled the operation of the Blood Moon Great Array.

In the short span of a few minutes, he had completely drained Huang Yueli’s blood essence and spiritual root. He used all of her blood essence and fused it into the fragment of the Sky Phoenix Ring!

“Power of blood essence—! Retract—!”

Lord Zhan had a grasping gesture, assuming that he would be able to draw a large amount of blood essence energy.

Whoever knew that he grasped a wisp of air instead!

The Blood Moon Great Array’s energy suddenly seemed as though it was frozen and it quietened down, not listening to his command.

“What’s going on? Could it be that my hand gesture wasn’t correct?”

Chapter 2680: A Real Strong Practitioner (2)

Lord Zhan frowned but he did not notice what had just happened.

The Blood Moon Great Array was operating as per usual whereas Huang Yueli and Li Moying had already fallen in for more than one hour. They should probably be on their last breath by now.

Everything proceeded smoothly and success was practically right in front of his eyes.

Lord Zhan did not suspect anything and did his hand gesture again as he shouted, “Retract—!”

However, he still did not receive any blood essence energy this time. The blood pool beneath his feet which was still surging with waves earlier suddenly quieted down like a pool of dead water. There were no movements, not even a ripple.

Lord Zhan suddenly had a bad premonition and became slightly flustered.

“What’s going on? Why did the Blood Moon Great Array suddenly lose its effectiveness at this crucial moment? What on earth had gone wrong?”

He racked his brains swiftly but could not think of what had gone wrong.

Lord Zhan's hands joined together and kept doing various hand gestures at the blood pool. At the same time, he shouted loudly and anxiously, "Retract—! Retract—! Retract—!"

"Retract Retract Retract Retract —! Quickly retract!!"

"Damnit! What's going on! Why can't I retract any blood essence energy!"

Lord Zhan was truly flustered. Everything seemed extremely strange and it was totally different from what he had expected!

"Damn it, damn it, damn it! Why did this happen? The Blood Moon Great Array's energy is finished up again? How is this possible? These are two god grade unsurpassed geniuses, and even in God Realm, they are rare talents. That wretched lass has the god clan's bloodline. How could their blood essence and spiritual root draw out such little energy? Impossible!"

The power of a practitioner's blood essence mainly depended on his innate talent.

That was why when Lord Zhan captured Huang Yueli and Li Moying, he was so excited!

He originally thought that with the two of them, everything would be solved. In the end... this incident happened once again!

Moreover, the blood essence energy suddenly decreased and even disappeared.

The Blood Moon which had already ascended to the top of the sky seemed as though it could not sustain the current height. It started to shake, as though it was about to drop.

Detecting this, Lord Zhan became even more anxious.

He was now as taut as an arrow on the bow, and there was no way to hold back!

If the Blood Moon dropped, it was not as simple as his dream of ascending to God Realm turning into bubbles. The more serious problem would be the amount of blood essence which were contained in the Blood Moon. The minute it dropped, it would instantly cause an explosion!

This energy was extremely powerful, and it could be compared with the self-exploding force of tenth stage realm practitioners in God Realm!

Under this might, the entire Northern Ice Fields would instantly be wiped out!

Although Snow Phoenix Palace was a palace built by an ancient god clan, it could not fight against this kind of energy and would be shattered into pieces immediately.

Whereas for him, Huang Zhanxiao, he would be reduced into ashes!

Lord Zhan's sweat kept sprouting and he was terrified and flustered. He kept repeating the words "Retract, retract, retract"!

But all this proved to be a futile attempt.

The blood pool's water rippled slightly, but no energy was released. Instead, it formed into a faint vortex and started to absorb the energy from outside.

Lord Zhan simply could not believe his own eyes.

“Impossible! Impossible! How could the Blood Moon Great Array still absorb energy?”
