Chapter 2711: What Kind of Luck is That (2)

Huang Yueli nodded. "The matter is like this, but Lord Zhan had already guessed that the Sky Phoenix Ring was in my hands. When Moying and I first entered the Snow Phoenix Palace, it was Lord Zhan who intentionally lured us over so that we will hand over the Sky Phoenix Ring."

Liu Buyan and the others then realized what had happened.

Back then when Lord Zhan set up the foolproof trap to capture Huang Yueli and Li Moying, they couldn't understand the reason for it at all. With Huang Yueli's explanation now, it finally made sense.

However, Huang Siluo had a shocked and bewildered look on her face.

As a member of the Sacred Phoenix Race, the understanding she had towards the Sky Phoenix Ring was much more than others. Hence she felt even more bewildered than other people.

"But, how did the Sky Phoenix Ring... how is that possible..." She kept muttering to herself.

Bai Liufeng saw her dazed look and hurriedly hugged her as he asked, "Siluo, what's the matter with you? Don't be agitated, let's talk things through slowly..."

Huang Siluo then took a deep breath and slowly calmed down.

She held Huang Yueli's hands and said, "Lass Li, I heard your father and Senior Brother talk about you and Sovereign Mu's affairs in your past life. I have something to ask you, in your past life... were you born in the Sacred Phoenix Clan?"

Huang Yueli was stunned when she heard that, apparently not expecting her to ask about this.

"Past life? This... I was an orphan in my past life, and I heard that I was still in my swaddling clothes when my Master found me..."

Huang Siluo's brows creased together and asked, "Then, where did your Master find you?"

Huang Yueli recounted her thoughts and suddenly opened her eyes, "I think... I think it was in the Northern Ice Fields?"

Huang Siluo nodded her head and said, "That's right! Looks like you should be a part of the Sacred Phoenix Race in your past life... in the past ten thousand years, Sacred Phoenix Race had been trying to search for a way to break through the space barrier, hence we explored plenty of ancient mystic regions. Our clansmen were either seriously injured or dead and some of them died outside. Back then, some children were just born and were missing. I'm afraid that you should be one of them."

Seeing Huang Yueli's puzzled look, she added, "Sky Phoenix Ring is Sacred Phoenix Race's crown treasure. If you don't have Sacred Phoenix Race's bloodline, even if you self-explode your primordial spirit, it is impossible to make the Sky Phoenix Ring acknowledge you as its Master, neither will you be able to reincarnate and be reborn."

Huang Yueli blinked and finally came around the situation. At the same time, she felt rather melancholic.

“So, it’s like this...”

Liu Buyan couldn’t help but butt in, “No wonder. In the past, Junior Sister’s innate talent was shockingly strong. From the looks of it, she must have Sacred Phoenix Race’s bloodline! Sacred Phoenix Race is indeed an ancient God clan, all the clansmen have such outstanding innate talents...”

Hearing that, Huang Siluo’s gaze dimmed and sighed, “But no matter how powerful one’s innate talent was, it is unable to offset one’s desires... now... only Lass Li and I are left in the Sacred Phoenix Palace...”

As she said that, she turned around to look at the surroundings. In the rubbles, a piercing cold wind grazed past, and pieces of snowflakes swirled in desolation.

Because of Lord Zhan’s one-sided motive, Sacred Phoenix Race’s clansmen who were left in Soaring Heavens Continents were dragged into this calamity.

An arduous night passed and everything returned to silence.

Although Lord Zhan had already paid the price for his actions, so many of Sacred Phoenix clansmen were implicated by him and lost their lives...

Huang Siluo was different from Huang Yueli. She grew up in Sacred Phoenix Race, and she had feelings towards the clansmen.

Chapter 2712: What Kind of Luck is That (3)

Thinking of the clansmen who were still around yesterday, but had already turned into ashes today, she was feeling extremely upset.

Bai Liufeng didn’t know what he should say to comfort Huang Siluo, so he could only choose to hug her silently.

Luckily, Huang Siluo knew that now wasn’t the time to feel sentimental. She remained silent for a moment and then turned her gaze back onto Huang Yueli.

“Lass Li, earlier it’s my fault. I shouldn’t have interrupted you. Continue to tell us, what happened between you and Moying?”

“Ah? Oh... after that, I thought of many ways to escape from the blood pool, but I wasn’t certain that I could do it. Seeing the Sky Phoenix Ring about to be shattered and I still had no idea on what to do, I saw the remnant pages of the <<Drifting Cloud Scroll>>...”

Huang Yueli regained her senses and briefly went through the situation back then. At the same time, she kept emphasizing, “All of you shouldn’t blame Moying, I’m the one who coerced him! I know that after his primordial spirit merges, he would definitely be able to break out from the array, so I hope that he could help me save my friends and relatives. He... he did it all because of me...”

After Huang Yueli was done, everyone went silent.

Actually, all of them had roughly guessed the situation when Li Moying chose to die earlier.

Now that the words came from Huang Yueli, even though the words she used were very calm and the description she said was very brief, but everyone could imagine how pressing the situation was then, and how shocking and frightening it was!

Huang Siluo and Bai Liufeng heaved a long sigh of relief after hearing what she said.

Li Moying did not do anything to betray Huang Yueli so that left them rather assured. Now that Li Moying had successfully advanced, Huang Yueli was safe as well, so this was the best ending.

But recounting the abnormality in the sky earlier, Huang Siluo was still feeling puzzled.

“According to what you say, after Li Moying’s primordial spirit had merged, the Sky Phoenix Ring could not stand his Profound Energy pressure and completely shattered. Then... how did you manage to survive? Is it related to the True Phoenix Fire and Sky Phoenix Ring that we saw?”

To this, Huang Yueli herself was extremely puzzled.

Her brows creased together for a moment and she spoke, “Moying told me earlier that when the blood moon dropped down, the Sky Phoenix Ring appeared in mid-air. Under the refinement of the True Phoenix Fire, it fused the three shattered pieces. In my recollection, I seem to really see three fragments...”

“What? You really saw the Sky Phoenix Ring’s shattered pieces? These... where did these come from? I know that the Sky Phoenix Ring was with you, but when Huang Zhanxiao fell into the blood pool, he was holding on to one shattered piece. The remaining two had been missing for a long time. Could it be that... it’s also in your hands?” Huang Siluo was extremely shocked!

Huang Yueli thought for a moment and nodded, “You can say that. But those two other pieces were accidentally obtained. We didn’t know what use it had, and until today, I only discovered that they were the shattered pieces of the Sky Phoenix Ring!”

Hearing her explanation, all of them were totally speechless.

This... what kind of luck was that?

The entire Sky Phoenix Race had spent tens of thousands of years searching through the entire Soaring Heavens Continent, but none of them could find the Sky Phoenix Ring or the shattered pieces. But yet she managed to find it so easily!

If Lord Zhan were to find out about it, he would probably be so angry that he would come back to life!

Huang Silu’s eyes suddenly lit up and she grabbed Huang Yueli’s hand tightly. Her voice started to shake as she spoke.

Chapter 2713: What Kind of Luck is That (4)

“Lass Li, your luck is really very good! Everything is explanatory in this way!”

“The Sky Phoenix Ring shattered and your primordial spirit returned to Li Moying. Originally you should be dead for sure, but you just happened to have three shattered pieces of the Sky Phoenix Ring!”

“You might not know that it’s extremely difficult to refine an ancient god relic. Although the Sky Phoenix Ring isn’t complete, it is an ancient god relic after all. Based on Soaring Heavens Continent’s armament refining standard, how would it be damaged so easily? Li Moying happened to advance in the Sky Phoenix Ring’s space and the outside world was being suppressed by the Blood Moon Great Array. Under both internal and external exchange of pressure, it happened to shatter the Sky Phoenix Ring! If it wasn’t like this, even if you manage to collect three shattered pieces, it would be impossible to refine it again!”

Hearing Huang Siluo’s words, Huang Yueli was stunned momentarily.

But after thinking through it carefully, the matter was indeed like what Huang Siluo said.

She was an extremely skilled Armament Master. So no one was clearer than her about the difficulty of refining a god relic!

Especially for a top rated god relic like the Sky Phoenix Ring. The difficulty in re-refining it was no different from refining a new piece of god relic.

Or it could be said that it was by sheer luck that she managed to complete this successfully. Otherwise, based on her idea, she might spend more than one or two decades and still not be able to settle it.

Huang Siluo paused and said, “After the Sky Phoenix Ring cracked, if it doesn’t get fused within a short amount of time, it would really become shattered dregs. Moreover, the energy required to fuse it was even more than shattering it! Whenever a piece of ancient god relic was being formed, one must borrow the energy from Heaven and Earth, and it isn’t something that a pure human’s energy could complete! Where do these energies come from? Back then when we saw the Sacred Phoenix Reflection, it was simply more powerful than God Realm’s real True Phoenix Fire!”

Huang Yueli had totally understood the entire situation now and she squinted her eyes.

“It should be... the blood moon...”

She said these few words softly and every one revealed an enlightened look.

“Right, that’s right, it should be the blood moon!”

“Lord Zhan makes use of the Blood Moon Great Array to suck away so many practitioners’ blood essence, and all of these are contained in the blood moon! This energy that was used to re-refine the Sky Phoenix Ring should be more than sufficient!”

“That’s right! When the blood moon dropped onto the Snow Phoenix Palace, I thought that we were going to be dead! But when it exploded, the energy which was emitted wasn’t as powerful as I thought. Immediately following that, the Sky Phoenix Ring appeared...”

Everyone started to add their views and roughly guessed the situation.

The situation back then was extremely dangerous and extremely pressed for time. But it was also a rare opportunity that came once in a blue moon!

The blood moon dropped from the sky and carried shockingly powerful energy, which blasted in the middle of the blood pool!

Little Wang Cai's spiritual body was originally floating in the air. When it was about to disintegrate, it suddenly sensed powerful energy and its body instantly expanded into an adult state. Moreover, it totally could not control the energy within its body and fly up into the sky!

As for the main body of the Sky Phoenix Ring and the three pieces of stones in Huang Yueli's hands, it was forcibly merged under such a powerful force of energy!

The remaining blood moon's energy was spurted out from the large Phoenix mouth, turning into the True Phoenix Fire, which burned the Sky Phoenix Ring's bundle inside.

Chapter 2714: What Kind of Luck is That (5)

Under this coincidental stroke of luck, the Sky Phoenix Ring was able to gain sufficient energy and congeal its shape in the blazing flames...

Lord Zhan used a few decades to accumulate all the blood essence energy, just to complete an impossible miracle for Huang Yueli!

"In such scarce Profound Energy in an ordinary plane like Soaring Heavens Continent, a genuine top rated god relic was actually refined... this really could be described as a miracle! Even if it was in god realm, only Life Profound Realm Armament Masters were able to achieve it. Moreover, they require the entire clan's energy as support..."

Huang Siluo recounted the contents that she read in an ancient manual and felt extremely stunned by this!

Amid the shock, everyone was extremely envious of Huang Yueli's good luck.

Luck, or perhaps fate, was a part of the practitioners' ability.

Any practitioner who attained extreme accomplishments was all because of their own fate, which could turn misfortunes into fortunes, and turn peril into safety.

Huang Yueli and Li Moying were people who were destined to reach their peak. Their innate talents and fate were something that ordinary practitioners could never attain!

Huang Yueli recounted her situation earlier and felt extremely fortunate.

Even she made the mental preparation to die in the situation back then. In the end, she and Li Moying escaped unscathed. Moreover, they obtained so many benefits so this was totally out of her imagination.

"But..." Huang Siluo racked her brains for a little while and shot a puzzled gaze at Huang Yueli again. "Lass Li, earlier the energy fluctuations were so powerful so the Sky Phoenix Ring should have been refined successfully right? Then... where is the Sky Phoenix Ring now? Could it have been left behind in Snow Phoenix Palace's ruins?"

Huang Yueli blinked, "Sky Phoenix Ring..."

A thought suddenly surfaced in her mind and suddenly, she saw a ray of golden light flashed past her eyes.

A phoenix-shaped imprint appeared between her brows.

Following that, this imprint flew out from her brows and slowly materialized. Moreover, it started to grow and lastly, it turned into a phoenix-shaped jade.

Huang Yueli stretched out her palm facing upward, and his Sky Phoenix Ring gently landed on her hand.

“Sky Phoenix Ring—!”

“So, this is the legendary ancient god relic Sky Phoenix Ring!”

When they saw that, all of them cried out in shock and surrounded Huang Yueli. They stretched their necks and wanted to study it in detail.

Although all of them were Soaring Heavens Continent’s top rated practitioners, none of them had ever seen an ancient god relic!

From the earth-shattering scene when the Sky Phoenix Ring was re-refined, this god relic’s might was imaginable.

The Sky Phoenix Ring was originally a piece of sheep-fat white jade with red-colored patterns but after the re-refining from the True Phoenix Fire which merged all three pieces of shattered pieces from ancient times, its color changed entirely and turned transparent.

Under the ray of the sunlight, it reflected a different luster from different angles like a rainbow. The flowing lights were shining brilliantly.

“It’s so incredible, indeed the Sacred Phoenix Race’s crown treasure! Just looking at the appearance and one can tell that it’s a piece of incredible god relic.”

“But we just don’t know what’s the use of this Sky Phoenix Ring?”

Huang Siluo explained softly, “Sky Phoenix Ring requires the Sacred Phoenix Race’s bloodline to be activated. I heard that when it was in the hands of the former clan leader, but it could display immense magical powers. But Lass Li’s cultivation isn’t sufficient, so she would probably not be able to display the Sky Phoenix Ring’s power.”

Chapter 2715: What Kind of Luck is That (6)

Translator: Misty Cloud Translations Editor: Misty Cloud Translations

“But at least with the Sky Phoenix Ring, her speed of absorption of the fire attributed Profound Energy is much faster than the same leveled geniuses!”

The crowd was speechless.

Everyone knew how high Huang Yueli’s innate talent was. A mere genius word wasn’t enough to describe her!

And now, Huang Siluo even said that her cultivation speed was much faster than other same leveled geniuses!

Th... th... This... wasn’t that ridiculously powerful? What would happen to all the other practitioners?

Just as everyone was feeling envious, Huang Yueli didn't seem to be very happy. On the contrary, she frowned and showed a worried look.

Li Moying's gaze was fixed on her and he immediately discovered that something wasn't right with her. He walked over and asked softly, "Li'er, what's the matter? Are you feeling unwell?"

Huang Yueli was stunned and lifted her head to take a look at him. Then she shook her head, "No, I'm fine. But..."

"But what?"

Huang Yueli sighed and said, "Earlier under the impact of the Blood Moon's energy, Little Wang Cai had apparently grown into a matured phoenix and he even exhausted a large amount of True Phoenix Fire. Although it helped to restore the Sky Phoenix Ring successfully, it had depleted its energy and now it has gone into deep sleep."

Huang Yueli used her consciousness to communicate with Little Phoenix for a pretty long time but wasn't able to get any response from it. Hence she used her soul trace to check on the Sky Phoenix Ring's space.

The current space seemed to have changed and the area had grown larger by multiple times than its original size.

But Huang Yueli didn't have the mood to check that. She immediately tried to sense Little Phoenix's weak presence.

It had already turned back into an infant body, lying weakly by the Saint Spring in deep sleep.

Hearing that, Li Moying stretched out his hand and held her little palm as he comforted, "A spirit artifact is a spiritual body. As long as the god relic itself isn't damaged, it would not disappear. Now that the Sky Phoenix Ring has been restored successfully, it's just like the mid-day sun. Little Wang Cai should be fine, but it might need to rest a little longer. So don't worry about it."

Huang Yueli nodded her head, "I know, but... I'm just a little worried. He's just a little phoenix! Yet it tried to save our lives so many times!"

Little Wang Cai usually only kept eating, but in times of crisis, it would always be of help.

Although Huang Yueli usually argued with Little Phoenix, both of them actually valued each other very much.

Moreover, Huang Yueli kept feeling a sense of guilt towards Little Wang Cai.

Rearing an ancient spiritual beast required a lot of resources. Moreover, a large portion of the resources could not be found in Soaring Heavens Continent. That was what led to Little Wang Cai's slow development.

Huang Yueli was rather helpless over this. The only way was to work hard and cultivate, hoping to be able to ascend to God Realm earlier. Then she could come out with more ideas then.

Li Moying touched her face and comforted softly, "Don't worry, it will be fine."

Liu Buyan and the others heard their conversation and realized what was going on.

“Wh... What? Wait, you’re saying... Wang Cai! That’s Junior Sister’s fat chicken pet! It... It’s actually a phoenix??”

Liu Buyan couldn’t help exclaiming.

He wasn’t the only one who was surprised. Cang Po Jun and Cang Po Yu were as well.

They were rather familiar with Little Wang Cai.. Huang Yueli would often roast chicken drumsticks for Little Phoenix when she was in Levitation Sword Palace.

Chapter 2716: Advance, and advance again (1)

Huang Yueli’s culinary skills were top-notch. Every single time she cooked in the courtyard, the fragrance would whiff around and make everyone in Levitation Sword Palace salivate.

In the end, it was all made for a fat chicken!

Living people like them didn’t have a chance to eat at all!

When they thought of that, all of them felt like crying.

What was called couldn’t be compared to a chicken? That was a living example!

It was now that they discovered that this fat little baby chicken was a high almighty ancient spiritual beast, a great phoenix which would be extremely powerful after it grew up!

No wonder Huang Yueli would roast chicken drumsticks for it...

Thinking along that trail, everyone felt rather appeased.

“This... so this phoenix’s infant stage is actually... cough cough, it’s rather cute.” Cang Po Yu commented in an extremely restrained manner.

Cang Po Jun gave an awkward smile, “Plump children who eat more are healthy...”

Huang Yueli was originally rather hurt. Upon hearing these, her lips twitched, and almost burst up laughing.

Little Phoenix was indeed courageous, but being too fat was unhealthy. However, Soaring Heavens Continent didn’t have a phoenix’s favorite Jasper Parasol Leaf so she could only just let it eat whatever it wanted.

“When it wakes up, it’s time to go on a diet!” Li Moying’s lips curled upwards as he said with a profound look.

Huang Siluo was listening to them and simply felt that something was amiss. An ancient spiritual beast Phoenix eating chicken drumsticks every day? What was that?

She couldn’t help but interrupted, “Lass Li, you shouldn’t be rearing a phoenix in that way! Mother has a few rearing manuals for ancient spiritual beasts which were left from ancient times. When we have reached a safe place, Mother will impart it all of those to you.”

Her mother had already spoken so Huang Yueli could only nod her head obediently.

The poor little phoenix was going into a rough period under the watchful eyes of Li Moying and Huang Siluo's supervision...

Everyone started to joke and laugh for a bit more before they started to enter the main topic, which was to discuss the next course of action.

Bai Liufeng muttered, "The entire Northern Ice Fields had been impacted by the energy from the Blood Moon Great Array's explosion. Practically everyone was destroyed. The cave dwelling that I had stayed in previously is probably in ruins. We don't have any place to stay. Moreover, Blue Profound Sect has a lot of sect affairs waiting for you to handle. By right, we should leave the Northern Ice Fields as soon as possible, but..."

He appeared rather hesitant when he was saying that.

Huang Yueli urged, "Father, just speak your mind!"

Bai Liufeng nodded and said, "Alright, then I shall be frank! I don't know if you have sensed this. After the blood moon exploded, a portion of the energy was used to restore the Sky Phoenix Ring. But quite a lot of energy remains in the Northern Ice Field's sky. There is a high density of Heaven and Earth Profound Qi around. This is a treasured place that is very suitable for cultivation. No spiritual artery could attain such an effect here..."

Hearing him say that, everyone started nodding their heads.

"That's right, it indeed is so. If we can cultivate here, our efforts will be reduced!"

"Now that Lord Zhan is dead, this should be a safe place and is indeed a good place for cultivating."

"But the environment..."

Northern Ice Fields was originally a place with vile weather. Now after experiencing several explosions, the environment was terrible. The entire ground was filled with various shattered stones and icicles. There were various kinds of energy flow in the air. Combined with the rampaging snowstorm, it would occasionally give a charred smell.

Chapter 2717: Advance, and advance again (2)

This environment simply made one feel uncomfortable.

But to a practitioner, in order to raise one's cultivation, braving different kinds of situations was normal so this small difficulty would naturally not put any one of them off!

Everyone immediately expressed that they were willing to stay in the Northern Ice Fields to cultivate for some time.

Other than Huang Yueli and Li Moying, everyone else sustained a heavy injury. Even though Huang Yueli and Liu Buyan had already shared their medicinal pills, but that was administering treatment for external injuries. Their real injuries could only be completely healed through one's cultivation.

As for Huang Yueli and Li Moying, they weren't injured but they had just taken a huge leap in advancement over a short duration. The promotion of cultivation was due to some special reason hence their foundation was extremely unstable. Only through cultivation over a period would they be able to stabilize it.

So everyone had a short discussion and decided to stay in the Northern Ice Fields to cultivate for the next three months. After that, they would start on their journey back to Sky Emperor City.

Although the environment was rather tough, Huang Yueli was an Armament Master and she had so many ninth stage realm peak practitioners' help.

It only took two days and she had already built some simple rooms near the Snow Phoenix Palace's ruins. She also set up some arrays and mechanisms to prevent those disoriented airflows from invading their space.

She and Li Moying entered adjoining rooms and started to cultivate on their own.

Huang Yueli sat cross-legged and worked up the <<Nine Phoenix Transformation>> mind skill and let it flow around her meridians for one cycle.

She quickly settled down and focused on cultivation totally.

A Sky Phoenix Ring's mark appeared in between her brows. Moreover, as the Profound Energy flowed in her body, this mark appeared deeper and clearer!

The Sky Phoenix Ring, a large amount of blood essence energy and fused it with Huang Yueli's meridians.

These blood essence energies were those which were released when the blood moon dropped from the sky and had been absorbed by the Sky Phoenix Ring.

Moreover, Huang Yueli's soul trace had completely merged with the Sky Phoenix Ring, hence this blood essence energy completely became Huang Yueli's energy. Unfortunately, her cultivation wasn't high enough so if she were to abruptly take in so much energy, her body would not be able to take it and explode!

So the Sky Phoenix Ring would store these energies on its own. Whenever Huang Yueli cultivated, it would be slowly released.

Huang Yueli had experienced the True Phoenix Fire burns and the intensity of her flesh body was raised by several levels. Even if it was God Realm's tenth stage realm practitioners, they might not be able to be compared to her!

Moreover now, under the double effect of fire attributed Heaven and Earth Profound Energy and blood essence energy, the energy in her meridians swiftly raised!

She had barely sat down for less than half a quarter of an hour and her entire body emitted waves of Profound Energy fluctuations!

Eighth stage realm second level!

She didn't even need to lift a finger and Huang Yueli had already advanced by a small realm!

Eighth stage realm and above are considered as top rate practitioners in Soaring Heavens Continent. Every single time a small realm was raised, it would take up several years of effort, and also with a large number of medicinal pills to supplement.

However, to Huang Yueli, it seemed as easy as lifting a finger!

After advancing by a small realm, Huang Yueli's Profound Energy did not stop revolving. Instead, it grew faster and accumulated even more...

Eighth stage realm third level!

Eighth stage realm fourth level!

Eighth stage realm fifth level!

...

Every time she broke through a small realm, everything fell into place easily and smoothly. Huang Yueli didn't feel any pressure and her body was in an extremely comfortable state, as she easily advanced by another realm.

Chapter 2718: Advance, and advance again (3)

Moreover, to her, this was just the beginning.

Huang Yueli's Profound Energy from her body kept flowing, and the Sky Phoenix Ring's mark in between her eyebrows was becoming darker...

Surging Profound Energy flowed rapidly in her meridians, like a vast ocean which had no limits...

Eighth stage realm six level!

Eighth stage realm seven level!

Eighth stage realm eight level!

Sky Phoenix Ring's mark turned blood red and was shown prominently in between her brows. That phoenix totem seemed to have a life of its own, as though it would spread its wings and fly at any moment!

Huang Yueli's fair little face suddenly flushed red and the blood essence energy mixed with fire attributed Profound Energy formed a ball of red glow that enveloped her entirely in the middle.

Northern Ice Fields' upper skies Heaven and Earth Profound Qi also gushed towards where she was seated, gathering rampantly!

Huang Yueli's eyes were shut tightly and a harsh bitter glint flashed past her eyes—

Eighth stage realm... ninth level!

The Profound Energy in Huang Yueli's body started to ease a little after it charged all the way to eighth stage realm peak cultivation.

Ninth stage realm, to any practitioner in Soaring Heavens Continent, was like a moat that was difficult to step across. Each side of the moat represented a different fate for the practitioner!

If it was just to breakthrough to the ninth stage realm, then in order to become the Continent's real strong practitioner, one's physique and meridians would be strengthened to a large extent. From then on, a practitioner would be able to gain a few thousand years of lifespan. Moreover, the body would not age along with age. Only when one's lifespan was almost up would one instantly age and die.

Moreover, if one had no way to break through this step, that practitioner would only gain two to three hundred years of lifespan. The ability as compared to a ninth stage realm practitioner was totally different!

Many practitioners spent a few hundred years of hard work, just so that they could reach the ninth stage realm.

Now, Huang Yueli had already touched the door leading to the peak and she... wasn't even seventeen years old yet!

The entire freezing zone's upper sky was enveloped by a fire attribute energy.

Above Huang Yueli's head was a huge phoenix reflection that slowly ascended into the sky.

The energy fluctuations which she attracted were overly strong. Bai Liufeng and the others were originally cultivating but at this moment, all of them had awoken from the shock.

Everyone started to run out of their rooms. When they came to the empty land in front of the Snow Phoenix Palace ruins, they lifted their heads and looked at the rose-tinted skies and light rays.

When Huang Yueli broke through to the eighth stage realm, she had once transformed the Phoenix's reflection. Back then, it attracted Lord Zhan's attention and he tried various methods to search and capture the person.

Sacred Phoenix Race clansmen were shocked by her Sacred Phoenix Reflection!

Whereas now, the Sacred Phoenix Reflection that appeared in front of everyone's eyes was much more powerful and magnificent than the previous, which left them in awe!

Sacred Phoenix Reflection slowly congealed and became large and realistic. The surrounding energies formed a large vortex, pulling Huang Yueli into it.

It extended to several feet large before the Sacred Phoenix Reflection stopped increasing.

The phoenix spread its wings and flapped it gently. In an instance, it covered the blazing sun and sky above their heads.

Immediately following that, the phoenix raised its head and gave off a long and loud shrill!

This shrill seemed to contain powerful energy in Heaven and Earth that instilled fear in the practitioners' hearts. All of them shuffled back at the same time and stopped after a distance.

Liu Buyan looked at this scene and was extremely astonished!

“This... Junior Sister she... she’s about to advance?”

Chapter 2719: Advance, and advance again (4)

Translator: Misty Cloud Translations Editor: Misty Cloud Translations

Bai Liufeng looked confused as well. After some time, he nodded, “... That’s right! From the looks of this, Lass Li is about to advance!”

Liu Buyan’s lower jaw almost dropped onto the ground in surprise. “W..Wh...What do you mean? Junior Sister is really going to... going to advance?? Is she about to break through to the ninth stage realm?!”

He was so astonished that he couldn’t even speak properly. He felt like he had been struck by lightning, in a dumbfounded state.

Although the others weren’t as exaggerated as he was, everyone was extremely astonished as well.

Each of them was Soaring Heavens Continent’s top experts so they naturally knew how difficult it was to advance into the ninth stage realm!

These people were all famous peerless geniuses then. But they only advanced into the ninth stage realm after thirty years old.

Whereas now, Huang Yueli was only seventeen and she was just about to step across this step!

This... what kind of innate talent was this?

Even if she had the ancient god clan’s bloodline, wasn’t this a little too ridiculous?

Even Huang Siluo who had the pure Sacred Phoenix Race’s bloodline was also so shocked that she became incoherent. “Lass Li this.... Sacred Phoenix Reflection., this is the Sacred Phoenix Reflection!”

The others had already seen the Sacred Phoenix Reflection when Huang Yueli advanced previously so they weren’t as shocked as Huang Siluo was.

But they went nearer to Huang Siluo and asked curiously, “Madam Bai, you said this was the Sacred Phoenix Reflection? What’s that?”

Huang Siluo still hadn’t regained her senses from the shock so she took several deep breaths and said, “You don’t understand. In God Realm, geniuses are segregated into several levels. From top to bottom, they are distributed into the following grades respectively. God grade, heaven grade, earth grade, human grade, and ordinary grade. Among them, ordinary grade geniuses are equivalent to Soaring Heavens Continent’s eighth grade talent.”

Hearing that, Cang Po Jun and Cang Po Yu’s complexion turned pale.

The reason was that Cang Po Yu was an eighth grade talent whereas Cang Po Jun wasn’t even eighth grade In God Realm, they were at the lowest rank of the ordinary grades.

They had not expected that the peerless genius with eighth grade talent in Soaring Heavens Continent was the lowest leveled ordinary grade in God Realm...

Huang Siluo didn't detect their abnormality and hurriedly explained, "In Sacred Phoenix Race, ordinary grade practitioners with impure bloodline in our branches would appear. As for the direct descendent clansmen, the lowest would be human grade and for slightly nobler bloodlines, they would reach earth grade. But only geniuses of heaven grade and above would reveal the Sacred Phoenix Reflection during advancement!"

Hearing that, the group all sucked in the cold air as they weren't able to regain their senses after a long time.

Much later, Liu Buyan opened his mouth and asked softly, "So, Junior Sister is considered as a heaven grade genius in God Realm?"

The few of them weren't even fit to be ranked in God Realm and they were nobodies in ordinary grade. But Huang Yueli actually possessed such a high innate talent!

As compared to this, it made them realize just how minute they were...

But when Huang Siluo heard their words, she merely shook her head and spoke subtly, "It's not like this..."

Everyone heaved a sigh of relief. Luckily, their gap wasn't as wide as they imagined. They indeed should not scare themselves...

"Although heaven grade geniuses can transform the Sacred Phoenix Reflection during advancement, it would just be a faint visual image. None of them would be called out by such a large and lively Sacred Phoenix Reflection spirit like Lass Li, which is a few meters long!"

Chapter 2720: Advance, and advance again (5)

Before they could even finish exhaling, they sucked in another mouthful of cold air upon hearing this.

Two bursts of airflow crashed against each other and were stuck around their chest, suffocating them.

Momentarily, they started to cough. Liu Buyan and the others had a suffused deep red color and looked as though they were going to choke to death.

It took great effort for Liu Buyan to finish coughing. He found his voice and said, "Madam Bai, next time when you're going to say something, can I trouble you to finish talking about it in one go? I wonder what innate talent does my Junior Sister have? Could it be that she's a god grade genius?"

Huang Siluo swept him a glance and shrugged, "I don't know as well."

Liu Buyan was dumbfounded, "Don't know? What do you mean?"

Huang Siluo's lips curled into a smile, "What I said earlier were things which I read from the ancient manuals which Sacred Phoenix Race collected. But how exactly they are being differentiated, I have never witnessed it personally so I cannot confirm what innate talent grade does Lass Li belong to. But at least there's one point. Lass Li's innate talent is extremely outstanding. Even during ancient times, it was rare for Sacred Phoenix Race to have a genius who could make this Sacred Phoenix Reflection appear."

As a mother who had such a talented daughter, she naturally felt extremely proud.

Huang Siluo put her hand around the smiling Bai Liufeng's arm and both of them looked at the sky.

Everyone also suppressed the shock in their hearts and lifted their heads to take a look.

At this moment, Huang Yueli's advancement had already reached the last stage.

The Sacred Phoenix Reflection had congealed into shape and it looked no different from the genuine phoenix's spiritual body that appeared when the Sky Phoenix Ring was restored.

Sacred Phoenix's wings flapped gently and a fire attributed energy of a thousand miles was invoked. It formed a scorching wave and radiated around the surroundings.

The sweat on Huang Yueli's forehead kept dripping and the Sky Phoenix Ring's mark in between her brows seemed to be engraved by a sharp knife, reflecting a horrifying blood-red colour!

Although it seemed like an urgent situation, Huang Yueli's Profound Energy flow did not meet with any obstructions and was very smooth right from the start.

However, the Heaven and Earth Profound Qi that she attracted was just too much. It instantly gushed into her body and she almost couldn't contain it all, which could cause her to explode!

Luckily she had the Sky Phoenix Ring and her body was refined by the True Phoenix Fire and she wasn't any weaker than any ordinary low leveled god relic. Hence she could take on such a powerful Profound Qi impact!

She breathed slowly and deeply. Her heart was as still as water, slowly directing these Profound Qi into her dantian accordingly, as she spiked towards the ninth stage realm checkpoint!

It took a long time when the Sacred Phoenix spirit gave off another ear-piercing cry!

At the same time, its body also started to shrink at a visible speed...

Fire attributed energy was being absorbed into Huang Yueli's body at an astonishing speed. When it reached a limit, it suddenly broke through that step!

Ninth stage realm!

Sacred Phoenix Reflection slowly faded away and the surrounding's scorching temperature started to decline. The great fluctuations also started to ease down.

The group who had been anxiously waiting for Huang Yueli to advance finally heaved a sigh of relief.

"Looks like Junior Sister has successfully advanced!" Liu Buyan said joyously.

Huang Siluo nodded her head, her eyes filled with joy. She appeared extremely excited, "That's great, Lass Li had advanced successfully! Her innate talent is actually so outstanding!"
