

## Weaponsmith 2721

### Chapter 2721: Nine Stage Heavenly Tribulation (1)

“Just based on this innate talent, even if she wasn’t a god grade genius, she would become a somebody in God Realm!” Huang Siluo muttered and following that, she seemed to have thought of something and got excited. “No wonder they came up with this prophecy during that year’s Sacred Phoenix Race’s ceremony! So it’s really true! With an exceptional peerless genius like Lass Li, the Sky Phoenix Ring had been restored successfully! Surely it wouldn’t be long before our clan resumes back to the past glorious days?”

She was feeling excited but not too long later, her emotions started to fluctuate and dropped.

Because of the results from a prediction, their entire branch in Soaring Heavens Continents had mostly died. No matter what, the price of this was just too high...

Everyone waited outside excitedly for a moment and saw Huang Yueli walking out slowly from her room.

Although she was full of sweat and the clothes on her were stained with dust, it totally did not affect her temperament.

After she broke through to the ninth stage realm, her ability soared and the aura around her changed.

The current Huang Yueli was much more elegant and intangible than before. It seemed as though there was a faint hint of glow around her, which gave off a strong practitioner’s presence!

All of them walked up to her and started to give their congratulations for successfully advancing.

Huang Yueli seemed rather tired but her face was full of smiles.

Although it wasn’t the first time she had advanced to ninth stage realm, it still made her jubilant that she was able to reach such a standard in such a short period within this lifetime.

According to this kind of cultivation speed, she would not need to take long before she could reach her former cultivation in her past life. Furthermore, she would build on the foundation and improve further, spiking towards the tenth stage realm which she had not been able to attain in the past!

Huang Siluo looked at her bloodshot eyes and said worriedly, “Lass Li, you must have exhausted a lot of energy after advancing so many realms. Do take a shower and have a good rest. I have some ingredients in my interspatial ring and I’ll make some food for you to eat.”

Huang Siluo’s culinary skills were extremely great and it was much better than Huang Yueli’s. Even Liu Buyan also claimed that Huang Yueli’s culinary skills should be inherited by her mother.

Huang Yueli smiled and nodded her head. She hugged her mother’s arm, saying sweetly, “Thank you, Mother. Then I’ll first...”

Before she could finish her sentence, suddenly, a silver-blue glint flashed past her eyes!

That ray of light flashed extremely swiftly but it was very eye-piercing. In an instance, it made everyone lose their visions, leaving only a piercing white image in their eyes!

Following that, a penetrative and overbearing power descended from the sky with a horrifying aura!

Everyone felt a sense of crisis instantly!

But there was already no chance to react!

“Boom—!”

A deafening explosion rang!

At the same time, a tremendous impact swept towards them, sending all of them flying!

This burst of energy was simply too powerful. Even those top rated practitioners in Soaring Heavens Continent who had powerful abilities had no way to resist this ability at all!

Their bodies were like kites where the strings were cut loose and fell far far away!

Huang Yueli wasn't spared as well. She originally had just advanced and the Profound Energy in her body had yet to stabilize when she suffered such an intense impact of energy!

At the same time, there was a dull feeling in her chest. Her blood and qi were totally disrupted, and she even spat out a mouthful of blood in mid-air!

### **Chapter 2722: Nine Stage Heavenly Tribulation (2)**

With a “bang”, Huang Yueli's body crashed heavily onto the ground.

Luckily, the nearest layer of ice in the Northern Ice Fields had already melted, and everywhere was full of soft snow and mud, so her injury wasn't very serious.

But when she landed, it created a great snowflake and a human-sized pit appeared on the snowy land.

“Cough cough, cough cough!”

Huang Yueli climbed out from the snowy land and coughed several times, as she tried to cough out the snow which she had accidentally eaten while falling. Then she looked around anxiously to search for Huang Siluo and the others.

Luckily, not too long later, she saw them standing up consecutively and hurriedly ran to them.

“This... what is the situation? Why did we suddenly...” Bai Liufeng frowned.

“I don't know. We were standing there and not doing anything when this burst of energy suddenly came crashing on us...”

“Speaking of them, was Grandmaster Huang advancing just now? Could it be that Grandmaster Huang's innate talent was too high, so it caused some abnormality in the Heavens and Earth?” Cang Po Yu guessed.

Everyone turned and looked at Huang Yueli.

Indeed, she was the most suspicious person among them. Everyone was merely just looking by the side, and they didn't have the ability to cause any abnormality at all.

Huang Yueli pointed to herself and asked astonishedly, "You're saying... me? But, I don't have... wait!"

Saying that she suddenly froze and a horrified look appeared on her face!

Everyone was shocked by her reaction and they quickly asked, "Grandmaster Huang, have you thought of something?"

She frowned and said hastily, "Moying... Where is Moying? Did any of you see him??"

When she said that, everyone was stunned!

Huang Yueli suddenly advanced. Not only did she advance by a large realm, she even transformed that shocking Sacred Phoenix Reflection! Everyone's attention was naturally placed on her, and no one noticed that someone was missing!

It was until now that everyone then realized that Li Moying had not appeared once from the start of Huang Yueli's advancement!

Cang Po Jun, who was stunned suddenly, regained his senses. "Right, Sovereign had been in closed door cultivation since some time ago! When Grandmaster Huang was advancing, he didn't come out at all. This... could it be that he had met with some trouble?"

His expression was slightly grave.

Whoever knew that in Li Moying's heart, the most important person was Huang Yueli!

Under normal circumstances, when Huang Yueli was advancing, no matter which point of cultivation he was in, he would definitely come out to stand guard for her.

But now, no one saw him or even his shadow at all...

That was only one explanation: Li Moying had encountered an exceptionally dangerous situation which he was cultivating!

Hearing Cang Po Jun's words, everyone immediately understood and appeared rather surprised.

Huang Yueli instantly raced towards Li Moying's room!

The room which Li Moying was cultivating was not too far from her room. But earlier, that mysterious electric current threw all of them a distance away, and they could not see the situation for the moment.

The few of them moved quickly, following behind Huang Yueli, and only took a couple of breaths before they came near to Li Moying's room.

### **Chapter 2723: Nine Stage Heavenly Tribulation (3)**

From far away, Huang Yueli could see the ruins on the ground. The little hut that she built with great effort had been struck by lightning into shambles.

Li Moying was missing, as though he was buried in the ruins.

"Moying, Moying!! How are you?? Don't scare me!"

Huang Yueli couldn't help but suck in a mouthful of cold air, as she speedily ran towards the little hut!

The power of that lightning was something that everyone had experienced for themselves.

Everyone was ninth stage realm peak exponents but they didn't have any chance to escape at all, as they were all sent flying.

Moreover, they were standing rather far from the center of the explosion, about three to five miles away. Even though they were standing so far away, they could feel the powerful might. What more for Li Moying who was standing right in the middle of the explosive site?

Even though she was rather confident of Li Moying's ability, meeting such a situation still made her feel a chill running through her body, as she was filled with worry and fear.

Huang Yueli dashed up without a care for her own wellbeing.

Whoever knew that just at this moment, Bai Liufeng and Liu Buyan shouted out at the same time.

"Lass Li, you can't go over!"

"Junior Sister, come back quickly, it's dangerous!"

The both of them shouted and stepped forward at the same time. Holding her on each side, they grabbed Huang Yueli's arm and pulled her back immediately!

"Wait, let go of me first, Moying he..." Huang Yueli looked anxious and wanted to struggle free from them.

But they were after all experienced ninth stage realm peak practitioners. Under their full strength, she wasn't able to struggle free easily.

Huang Yueli was dragged back helplessly.

"Father, you..."

She had just opened her mouth when a bolt of blue lightning struck down, towards that shabby hut where Li Moying was!

"MOYING—!!"

Huang Yueli gave a sharp cry, but before she could take any action, another strong flaring reflection took away her vision once again! Everything turned dark!

At the same time, a gust of powerful Heaven and Earth Profound Qi came gushing towards everyone!

This time, the strength of the ray of electric current was much stronger than the previous bolt by several folds!

Even if Bai Liufeng and the others were already prepared and hastily retreated backward, they were still unable to take on such a heavy impact. All of them started to fall onto the ground.

Moreover, this time around, the bright light had a much greater impact on them. Huang Yueli could barely see the situation before her after a temporary loss of vision. Her eyes kept tearing, and it was no different from a little bunny with bloodshot eyes.

Even so, she still tried her best to open her eyes. She got up at the first instance and ran towards Li Moying.

She only took a few steps and was shocked, as she stopped in a daze.

She saw a ball of bluish-purple glow slowly rising from the little hut.

In the center of the glow was a tall and powerful figure.

—That person was Li Moying!

His perfect, handsome face was as cold as ice and his eyes were slightly shut. His thin lips pursed, and he was holding the Amethyst Light Sword tightly in his hands while being enveloped by rays of bluish-purple electric currents!

Behind him was a pair of thunder wings which had been formed from pure thunder attributed Profound Energy!

This pair of thunder wings slowly extended and it spread out to a few hundred feet long. It resembled two bolts of heavenly thunder which pierced through Heaven and Earth!

#### **Chapter 2724: Nine Stage Heavenly Tribulation (4)**

Rampaging thunder attributed Profound Energy was enveloped within the radius of ten miles of his body.

Bolts after bolts of electric currents formed a net to become an impenetrable thunder zone.

That kind of overpowering invasive energy was sufficient to make any practitioner's scalp go numb. Whoever wanted to go nearer would be turned into ashes under the impact of the electric current.

Huang Yueli's eyes widened and she sucked in a breath of cold air, looking blankly at the scene in front of her.

The others also saw this alarming scene and immediately felt that their bodies had turned stiff, rendering them immovable.

All of them immediately gathered next to Huang Yueli after they finally regained their senses.

"Heavens, this... this is too horrifying! That stinky brat Li, what... what kind of ability is this? Is he still a human?" Bai Liufeng was dumbstruck, not daring to believe in his own eyes.

Speaking of this, he was one of the more knowledgeable people in their group. He obtained Sage Yu Xu's manuscript which recorded many God Realm's talented people.

But in comparison, none of them could be compared with his Lass Li.

Bai Liufeng witnessed Huang Yueli's advancement and thought that nothing could possibly alarm him any longer. Whoever knew that it was just a short moment later and he was given a tight slap on the face!

Li Moying's momentum had already surpassed Huang Yueli by a huge notch.

Huang Yueli blinked. She knew that Li Moying was actually not an ordinary human race, and he was from the Cloudy Qilin Clan. However, she was not in the mood to explain further.

“Moying he... could it be that he is about to advance? But when his primordial spirit merged, he was already at ninth stage realm peak. Yet he’s about to advance now. Doesn’t that mean...” The more Huang Yueli thought, the more horrified she got as she started talking intermittently.

Cang Po Jun continued in alarm, “Grandmaster Huang, you mean to say... Sovereign is going to advance to the tenth stage realm! This... how is this possible?”

Huang Yueli spoke with a grave expression, “I also felt that it was unbelievable. By right, our Soaring Heavens Continents and God Realm aren’t connected, and with such scarce Heaven and Earth Profound Qi, it’s impossible to allow any practitioners to breakthrough to the tenth stage realm... How could Moying possibly...”

She was in the middle of her sentence when Huang Siluo suddenly cried out in alarm, interrupting her.

“Lass Li, quickly take a look! That side of the sky! This... what is this?!”

Huang Siluo’s voice was shaking and it made it difficult to tell what she was saying. It proved to show that she was feeling extremely terrified!

Huang Yueli and the others hurriedly looked in the direction where she pointed and they were instantly dazed.

“This... what is going on?”

In the sky above the Northern Ice Fields, in the boundless vast sky, a piercing icy blue light split open the sky.

This light was like a scar that extended across the sky, and it resembled a crack on an eggshell.

Moreover, this crack kept on expanding towards both ends of the sky. It seemed like a destructible force that expended pressure from the outside, as though it was trying to break the sky into half!

Whereas in this slit, the energy kept on gathering to form a huge force field suspended in the middle of the sky.

Even though the crowd was standing so far away, they were able to tell how horrifying the crack was!

Moreover, it was just a small portion of energy that seeped through the crack!

### **Chapter 2725: Nine Stage Heavenly Tribulation (5)**

It was hard to imagine the astonishing amount of energy and how much power had gathered within that slit in the sky!

Perhaps it might be sufficient to flatten the entire North Sky Region, turning Soaring Heavens Continent into a barren land!

However, what terrified Huang Yueli more was that this slit was right above Li Moying’s head and it was facing the thunder region around Li Moying.

The energy that radiated from this slit was directed at Li Moying.

Moreover, the two explosions earlier might probably be caused by the energy which hit the ground.

“This... this...”

Everyone stared blankly at this astonishing and strange scene, and no one could say a word at all.

But Huang Siluo’s eyes suddenly widened and she mumbled to herself, “Li Moying, he... he’s really going to breakthrough to the tenth stage realm! This... is the heavenly tribulation descending!”

“Heavenly tribulation??”

“Madam Bai, what did you say? This is the heavenly tribulation??”

“Sovereign is really going to advance? But... this... how is this possible?”

Hearing Huang Siluo’s words, everyone regained their senses and started to scream, as each person was extremely shocked.

Most of them were ninth stage realm peak practitioners, so they had more or less heard of the heavenly tribulation.

It was said that during ancient times, when practitioners were about to advance into the tenth stage realm, they would cause an abnormality around the Heaven and Earth Profound Qi to form a heavenly tribulation! As long as they managed to pass the tests from the heavenly tribulation, they would be able to shed their mortal body and undergo transformation. The Profound Energy in their bodies would become more substantive and turn into azoth.

When it came to that stage, the Lower Realm couldn’t accommodate such a powerful existence so those tenth stage realm practitioners would be expelled from the Lower Realm’s plane and ascend to God Realm.

Although everyone heard of this matter, none of them had witnessed it for themselves.

Soaring Heavens Continents had been enveloped by a demonic qi for more than ten thousand years and there was no way for them to communicate with God Realm.

In the past tens of thousands of years, not a single practitioner had been able to break through the restrain of the space barrier, to reach the legendary tenth stage realm!

Now, could Li Moying possibly be... could he be the first tenth stage realm top expert in these ten thousand years?

How did Li Moying manage to do it?

When Lord Zhan was at his peak, his ability was already very powerful. Moreover, he exhausted all his efforts and did so many bloody atrocities such as gathering so many talented practitioners’ blood essence. But even so, all his efforts came to naught, and he wasn’t able to ascend successfully!

Li Moying... could he do it?

Huang Siluo's gaze stopped on that crack which did not cease to stop expanding. Even though her eyes were bloodshot from staring at that piercing blinding electric currents, she didn't shift her gaze away at all.

"I don't know what's going on... but, this electric current... should mean Soaring Heavens Continent's space barrier has already appeared a crack. The outer world's Heaven and Earth Profound Qi keep gushing in through that slit!"

"Slit?? But didn't Lord Zhan say that Soaring Heavens Continent's space barrier was extremely solid and just based on a practitioner's Profound Energy, it was impossible to breakthrough? Even his Blood Moon Great Array wasn't able to blast this demonic qi's barrier!" Bai Liufeng looked puzzled.

Huang Siluo spoke in a low voice. "That's only something that I'm guessing. It looks like Huang Zhanxiao tried to use the blood moon to impact the space barrier. Although he didn't manage to break through it directly, it did cause serious damage to the space barrier so the slit should be there. But now, Li Moying's cultivation underwent a great improvement, and he's already at the breaking point of the tenth stage realm. His aura emitted out of the slit and attracted the heavenly tribulation!"

#### **Chapter 2726: Nine Stage Heavenly Tribulation (6)**

"The heavenly tribulation was blocked on the outside and had no way to enter Soaring Heavens Continent, so it could only squeeze the space barrier. That causes the original faint slit to crack even further. It's like someone squeezing an egg that already has a crack. It wouldn't take long to crack the shell."

Hearing Huang Siluo's explanation, everyone went silent for a moment, as all of them agreed with her saying.

Indeed, this was the only way to explain this.

But immediately after, they thought further about this and their expressions started to change.

"In that way, that two bolts of terrifying energy is... the heavenly tribulation? Even with the space barrier in the way, it could still strike?" Huang Yueli's brows furrowed as she asked.

From the current situation, the person who was most concerned and worried was her!

Although Li Moying's primordial spirit had merged into one, under such a critical situation whereby he was forced to break through and raise his cultivation was actually not stable at all.

Moreover, his meridians and physical body were injured during the battle with Lord Zhan and he might not have totally recovered.

Originally, everyone assumed that Soaring Heavens Continent's space barrier was still intact. So if Li Moying wanted to breakthrough to the tenth stage realm, it wouldn't be that easy. He just needed to cultivate a few years and when Huang Yueli was almost at the ninth stage realm peak's bottleneck, the two of them would slowly find a way to break through the space barrier. There was more than enough time to do so.

By then, Li Moying's injury would definitely have recovered.

No one expected such an unexpected incident to happen...

The space barrier was actually damaged and the Profound Qi fluctuations that Li Moying gave off during cultivating attracted the heavenly tribulation!

In this way, Li Moying had no choice but to breakthrough to the tenth stage realm!

Huang Yueli had read from some ancient manuals in the past. She knew that when practitioners were trying to break through to the tenth stage realm, it was a major event and an extremely difficult task, even if it was in God Realm!

Ancient god clan's bloodline was much stronger and since birth, they were able to cultivate to the ninth stage realm easily without any risks. The difference in innate talents only affected the cultivation speed. But no matter what the innate talent was, there was no risk during advancement. And that was the main reason why Li Moying and Huang Yueli had such a simple time advancing through the realms.

But it was different when it came to the tenth stage realm. This was the first checkpoint that god clan practitioners faced.

Numerous god clan practitioners smoothly cultivated until ninth stage realm peak but when they were advancing into tenth stage realm, they would meet with the biggest hurdle in their entire life!

It was fine if they just couldn't break through it.

The worst was that they were already right at the doorstep of the tenth stage realm, but they weren't able to go through because of the heavenly tribulation!

Many god clan practitioners sustained serious injuries when they tried to pass through the heavenly tribulation. Some lost consciousness and were not able to recover even after thousands of years, whereas others simply died on the spot!

So to the large families in God Realm, whenever there were disciples in the clan who were advancing to the tenth stage realm, it was a major event. So they would prepare loads of god relics and medicinal pills for supplementary use. They would also assign the clan's Elders to protect them. Through various measures, they were able to guarantee the clan's talents to advance smoothly.

But now, Li Moying was in Soaring Heavens Continent. So it was impossible to get the clan's Elders to stand guard and protect him.

Moreover, he only had an Amethyst Light Sword with him. The other ninth tier Profound Armaments had already been melted by the Blood Moon Great Array during the intense battle with Lord Zhan.

### **Chapter 2727: Nine Stage Heavenly Tribulation (7)**

Moreover, even if those ninth tier Profound Armaments were still around, it probably would be of much use when facing the heavenly tribulation.

Adding on to the condition of Li Moying right now...

Huang Yueli was feeling apprehensive.

Bai Liufeng felt a little jealous when he saw his obedient daughter getting so worried about that stink brat. But above all, he was feeling sorry for her.

They had finally gotten rid of Lord Zhan and relieved the hidden dangers. It had just been a few days of peace when this sort of situation happened again.

Bai Liufeng walked up and hugged Huang Yueli. He spoke softly, "Lass Li, don't worry. I can tell that the brat's innate talent is extremely high. Moreover, he has a rich battle experience where he can remain calm even during crucial moments. He is a true top expert. Although this happened so suddenly, I'm sure he will be able to get through it safely."

Hearing that, not only was she comforted, her expression turned into worries.

Even if she was confident in Li Moying, but that was after all a heavenly tribulation!

He blinked and pushed Bai Liufeng aside. Then she turned to Huang Siluo as she humbly pleaded for help. "Mother, what do you... think Moying's situation is right now? How much possibility does he hold, to be able to pass through this heavenly tribulation safely?"

Without a doubt, Huang Siluo had the most understanding of the God Realm among everyone present.

She had never been to God Realm, but as Sacred Phoenix Race's Holy Maiden, she had read numerous ancient manuals. Compared to her, even Huang Yueli was like a bumpkin.

Huang Siluo could tell that her daughter was worried so she wanted to comfort her. "Lass Li, don't you believe in your husband? I can tell that Moying has exceptional innate talent and luck. He is outstanding in every way and will have great achievements when he is God Realm. He's merely advancing into the tenth stage realm now so there shouldn't be any problem. Moreover, I've seen his recent cultivation situation and somehow I feel that... he doesn't seem to be an ordinary human race, right?"

Huang Yueli nodded and said, "I suspect Moying might have the Cloudy Qilin clan's bloodline. We had once entered the Cloudy Qilin Mystic Region and almost died inside. Later on..."

She narrated the situation back then when she and Li Moying were in the mystic region.

Huang Siluo's eyes widened as she said astonishedly, "You say.... Moying is a part of the Cloudy Qilin clan??"

Huang Yueli nodded. "It should be so." She noticed that Huang Siluo didn't look very well and asked anxiously, "Mother, is something wrong?"

Huang Siluo paused and after a while, she continued, "Nothing, I am only a little surprised. I did not expect the Cloudy Qilin Clan to have bloodlines in Soaring Heavens Continent as well."

What Huang Siluo was thinking about was something else.

Cloudy Qilin Clan and Sacred Phoenix Race had been mortal foes in God Realm. Although they were not at the point where they would kill each other when they met, they did not interact at all. As for intermarriages, that was unheard of...

If Li Moying was really from the Cloudy Qilin Clan, then when Huang Yueli went to God Realm with him, there might be grave trouble...

But that thought merely flashed past Huang Siluo's mind. She did not say much about it.

After all, Soaring Heavens Continent and God Realm were cut off for at least more than ten thousand years.

Perhaps after such a long time, Cloudy Qilin Clan and Sacred Phoenix Rave might have already reconciled? Then there was no need to add more worries for Lass Li.

Huang Yueli's mind was focused totally on Li Moying so she could not tell that Huang Siluo's tone sounded weird.

She stared fixedly at Li Moying who was in mid-air, hands clenched into fists.

### **Chapter 2728: Nine Stage Heavenly Tribulation (8)**

The crack in the sky became longer and thicker. Moreover, it also started to split into several tiny cracks which formed cracks that resembled a spider web.

The amount of Heaven and Earth Profound Qi that leaked through increased and was becoming denser!

A huge amount of energy is suspended above the freezing zone's skies!

From the energy field radiated a huge amount of energy. It was extremely powerful so even if Huang Yueli and the others stood a distance away, they were starting to feel the immense pressure. Sweat started to fill their foreheads.

It was imaginable how much pressure Li Moying, who was directly standing under that energy field, was taking on!

But his expression remained unchanged from the start to the end. He stood tall and unsheathed his sharp blade!

Li Moying was holding on to the Amethyst Light Sword, awaiting the next heavenly tribulation to descend!

In the energy field, several bolts of electric currents kept shining. Suddenly the energy seeped out and the entire energy field contracted toward the outside!

Huang Siluo's gaze sparkled and she called out sharply, "Everyone, quickly retreat! We're still too near!"

Everyone heard that and moved swiftly. They started to retreat to a distance far away from the energy field! Bai Liufeng did not forget to carry his dumbstruck daughter away.

At the same time, the energy field collapsed!

The huge amount of energy contained in it started to spurt out like surging waves!

Li Moying's thunder zone might be powerful but under such intense electric currents, he seemed slightly fragile. It seemed like a little boat in a storm that might collapse at any moment!

Huang Yueli's heart was pounding wildly!

However, the man in the thunder zone did not express any changes. He merely raised the long sword in his hand and with that, his figure flashed. He charged directly towards the heavenly thunder!

“Clang—”

Two bursts of thunder attributed energies crashed in mid-air, giving off a deafening metal striking sound!

At the same time, the huge amount of energy that was unleashed from the crash turned into a blinding ray of light, which repossessed everyone's sight once again.

Luckily, everyone was slightly prepared. Although all of them were cutting a sorry sight, they managed to evade the remnant impact from the heavenly tribulation and did not suffer many injuries.

After the light disappeared, everyone looked in Li Moying's direction.

Momentarily, they were all stunned.

“What the, it's not true right? Li Moying that fellow... is he still human?” Liu Buyan exclaimed as he rubbed his eyes.

Bai Liufeng said in surprise, “That Li brat is actually so powerful? He can take on the heavenly thunder? Was an ancient god clan's bloodline that powerful?”

Even though Li Moying had retracted his long sword, he remained vigilant.

But there wasn't any injury on him at all. Even that thunder zone which seemed as though it was about to be crushed was also in one piece.

Evidently, the heavenly tribulation which he took on didn't pose any difficulty to him at all. In fact, he did it with ease.

Seeing this, Huang Yueli finally eased her anxious heart.

Cang Po Jun and Cang Po Yu were elated. “I did not expect Sovereign's ability to reach this standard! It's as though the heavenly tribulation could do nothing to him! Looks like he will be able to advance into tenth stage realm today!”

They had just finished speaking and their lingering sound was still reverberating when a loud noise was heard from the sky. It resembled the sound of metal shattering in unbroken succession!

Everyone turned and looked towards the direction of the sound and instantly revealed a shocked look!

The spider-web-like cracks were swiftly extending, and at the same time, they started to disappear in large pieces...

### **Chapter 2729: Nine Stage Heavenly Tribulation (9)**

Soaring Heavens Continent's space barrier finally could not take on the outer world's pressure. It looked as though it was about to shatter completely...

Not long after, a huge hole appeared above the Northern Ice Fields.

The outer world's Heaven and Earth Profound Qi started to surge in from the hole, as it spread across the surroundings!

To a practitioner, such pure Profound Qi was a kind of nourishing enjoyment. To be enveloped in such thick Heavenly and Earth Profound Qi was something that all practitioners hoped to obtain.

Huang Yueli and the others had been injured by the heavenly tribulations' remnant impact but when the Heavenly and Earth Profound Qi flowed in, they felt the injuries on them lessening.

"Soaring Heavens Continent's space barrier... is really broken..." Huang Siluo looked up in the sky and muttered to herself.

Sacred Phoenix Race's thousands of years of pursuit had finally materialized...

Alas, there were only two people in Sacred Phoenix Race who reaped the benefits from this.

But without the space barrier's obstruction, Soaring Heavens Continent's practitioners could see the benefits clearly as their cultivation speeds were raised greatly!

So, Liu Buyan and the others were relatively excited. Looks like they were not far from ascending!

Huang Yueli was not influenced by their excitement. Her gaze remained fixed on Li Moying alone, as she paid close attention to his advancement situation.

After the space barrier was shattered, the obstruction on the horizon disappeared and the original space barrier which blocked out the tribulation clouds appeared right in front of her again.

This tribulation cloud was really out of everyone's expectations.

The crack in the space barrier was already ten feet long and it continued to expand. But it was still impossible to reveal the true look of the tribulation cloud.

Whereas for the bolts of energy that were attached to the tribulation cloud, there was not only thunder attributed energy alone. It was also mixed with other attributed energies. The fusion of those energies instantly formed an energy field, which was a hundred times stronger than the one that seeped in through the crack earlier!

"This... this is too terrifying!"

After Cang Po Jun and the others calmed down, they jolted to see the tribulation cloud in the sky.

"How many stages are there in this heavenly tribulation? How strong would it be? If the energy in the tribulation cloud all comes crashing down together..."

Everyone's faces flushed white. Although they knew that Li Moying was Soaring Heavens Continent's Number One Expert, seeing this terrifying tribulation cloud still made everyone's heart pound. No one dared to say that Li Moying would be able to take it on.

Moreover, everyone had another worry.

If the heavenly tribulation that advanced into the tenth stage realm was that terrifying, then other than Li Moying, who else would be able to take it?

It would definitely spell death for the rest of them!

No wonder it was said that it was a hole for the god clan's geniuses who were advancing to the tenth stage realm!

Huang Siluo's expression was extremely grave as she spoke gravely, "There's no certain number to how many bolts of heavenly tribulation there are, and it's related to the practitioner's innate talent and potential! The stronger a practitioner's potential is, the more tribulations one would have to face! Ordinary practitioners would at most go through four or five stage heavenly tribulations whereas, for god clan's god grade geniuses, they would definitely face the nine stage heavenly tribulations! Every stage of these heavenly tribulations would be stronger by tenfold for every additional stage!"

"Of course. The heavenly tribulation might be dangerous but if one could withstand so many stages, then the more heavenly tribulations they had to go through, the faster their ability would increase in the future! Ancient god clan's geniuses all hope that they could face the nine stage heavenly tribulation."

Huang Siluo paused and looked at the sky. "If I didn't guess wrongly, Li Moying's heavenly tribulation should be nine stage!"

Actually, it was needless for Huang Siluo to say this because everyone had already expected it.

Based on Li Moying's abnormal innate talent and ability, the heavenly tribulation he needed to face was the highest stage, without a doubt.

However, when they heard Huang Siluo say it, everyone's heart thumped hard!

Earlier that two stage heavenly tribulation's might was that everyone witnessed was horrifying strong!

There were seven more stages and every stage would be stronger by tenfold more than the last...

Based on this, it made everyone feel a chill run down their backs!

Li Moying might be strong, but... such terrifying heavenly tribulation raining down on him consecutively, could he really... pull it through?

Just as everyone was feeling bewildered and uneasy, the four stage heavenly tribulation had already descended!

Without the obstruction of the space barrier, when the heavenly thunder descended, the aura was much stronger by several times. All the energy in Heaven and Earth seemed to be enveloped within and in a second, the sky turned dark with no light passing through!

"Rumble—"

The heavenly tribulation descended on Li Moying again!

He remained the same as in previous times. Drawing out his sword, the thunder zone instantly exploded with energy, forming a thunder attributed curtain that linked Heaven and Earth!

The heavenly tribulation was split in the middle by that curtain!

Rampaging Heaven and Earth Profound Qi was isolated and instantly routed, becoming a surging Profound Qi shock wave in the surroundings.

Huang Yueli and the rest of them have been forced to move a distance away.

After the bright light vanished, Huang Yueli hurriedly looked in the direction where Li Moying was. She realized that Li Moying was standing perfectly fine in the middle of the thunder zone.

As they were standing too far away, they could not see Li Moying's expression. But based on the energy fluctuations on the outer boundary of the thunder zone and Li Moying's position, they could tell that his situation wasn't too bad. At least there's no evident injury on him yet.

From his looks, it shouldn't be a problem for him to withstand a few more rounds of the heavenly thunder attacks.

Everyone held their breaths as they waited for the last few heavenly tribulations to descend.

The tribulation cloud in the sky grew darker and darker, as the energy gathered grew stronger and stronger.

Not long later, five and six stage heavenly tribulation ensued as well.

A deafening explosion resounded. Huang Yueli and the others were trying so hard to protect themselves that they couldn't spare any time to see how Li Moying resisted the heavenly tribulation.

Fortunately, his power was far more incredible than what they had imagined. He held the Amethyst Light Sword and faced the heavenly tribulation calmly. His figure stood tall and did not falter at all, as though he would never be defeated!

In a blink of an eye, six stage heavenly tribulation had passed.

Meanwhile, the hole in the space barrier kept increasing and now, it had already enveloped the entire Northern Ice Fields.

It was until now that everyone could finally see the entire tribulation cloud.

A pitch dark tribulation cloud entangled with various kinds of attributed Heaven and Earth Profound Qi which floated in the air. It blocked out the sun and covered the sky, the size was as large as the entire Northern Ice Fields!

The amount of energy that was contained and gathered in this huge energy field was unimaginable!

Everyone's hearts jumped to their throats again.

"Sovereign has already passed six stage heavenly tribulation. But... there are another three.... Can he really... do it?" Cang Po Jun asked worriedly in a whisper.

Huang Yueli nodded firmly. "Moying will definitely be able to do it!"
