Chapter 2731: Heavenly Tribulation Ten Stage (1)

“He has always been the strongest practitioner and the most outstanding genius. So there’s nothing that he can’t do! He will absolutely not die in the process of advancing to the tenth stage realm!”

Huang Yueli sounded extremely firm.

She wasn’t just trying to convince Cang Po Jun by saying that. She really had confidence in Li Moying, right from the bottom of her heart.

No one was clearer than her on how outstanding he was, or how much determination he had!

She knew that Li Moying’s future would be extremely astonishing. Breaking through to the tenth stage realm was just a small obstacle on his path ahead!

The tribulation cloud in the sky congealed for a short moment.

Everyone realized that there would be a short intermission after every three stages in the nine stage tribulation.

So one, two, and three stage heavenly tribulation kept raining down together, but there was a relatively long period of delay between three and four stage heavenly tribulation. It seemed as though it was conserving sufficient energy for the later tribulation.

After the energy gathered successfully, a more terrifying and merciless attack would be waiting for the practitioner!

A quarter of an hour passed by.

In this short quarter of an hour, Huang Yueli and the surrounding practitioners felt that time was passing by slowly.

Li Moying totally did not waste any time. The Profound Energy in his body kept flowing and the energy lost in the thunder domain was replenished at an astonishing speed.

The space barrier had been torn and that made the heavenly tribulation might be brought to the extreme. At the same time, it allowed Li Moying to attract even more Heaven and Earth Profound Qi!

Even when the Heaven and Earth Profound Qi was scarce in Soaring Heavens Continent, he had sufficient innate talent to construct the mighty thunder domain. Now that the Profound Qi intensity was lifted tenfold, the amount of energy he could use had also increased!

The tribulation cloud’s energy field that enveloped it had finally completed the energy gathering process.

A bolt of penetrative electric current came crashing down towards Li Moying’s head at lightning speed!

This bolt of electric current appeared too fast and too sudden. There weren’t any pre-emptive signs at all!

Even Huang Yueli and the others were shocked. Luckily they had already made use of the short quarter of an hour to set up a simple defensive array, allowing them to barely block off the remnant power of the heavenly tribulation.

Everyone looked at Li Moying after the blinding light disappeared.

They saw his original straight figure sway a little. He was still holding the Amethyst Light Sword tightly in his right hand, but he was also showing signs of a slight tremble.

Everyone sucked in a breath of cold air when they saw him!

— Li Moying was injured!

Although he managed to persist until seven stage heavenly tribulation and only suffered a slight injury, this was a shocking achievement that the other practitioners found hard to imagine.

But following that, he still had to take on two more bolts of heavenly tribulation!

Even though he suffered a small injury, it would become a huge obstacle for the next few tribulations that he had to take...

Everyone was feeling extremely nervous.

However, before they could even talk about it, brightness and darkness overcame Heaven and Earth in a flash!

Eight stage heavenly tribulation!

There was a slight pause of three breaths and eight stage heavenly tribulation came crashing down soon after!

Three breaths were not even enough to pant, not to mention working up the recuperation work! In fact, Li Moying might not react in time, with no way to fight against the heavenly tribulation's might!

Chapter 2732: Heavenly Tribulation Tenth Stage (2)

Everyone's mind went blank.

While they were perplexed, the eight stage heavenly tribulation crashed onto Li Moying's head!

“Rumble~~”

A loud ear-splitting sound that seemed to split the entire continent apart kept ringing.

Huang Yueli felt her eardrums about to rupture. It took a long moment before there was another short moment of peace.

She hurriedly opened her eyes to look at Li Moying.

His condition looked much worse than before. His waist was half bent, his hand clutching his chest and blood was slowly trickling down the corner of his lips.

Evidently, his injury had worsened. This time, it even injured his internal organs and meridians!

The nine stage heavenly tribulation... was going to be stronger by tenfold than what he had just taken on!

Even when Li Moying was at his peak, he might not be able to withstand it. What more about now?

Huang Yueli felt her heart pounding so fast that it was about to stop!

No matter how steady her character was, or how much confidence she had in Li Moying's ability, she absolutely could not maintain her cool when seeing her husband facing a life and death test!

However, she had no idea what to do.

The nine stage heavenly tribulation came faster than the eight!

It merely took a breath's time when Heaven and Earth have recharged with rampant energy once again!

This time, Huang Yueli and the others deeply felt what was known as the destructive power!

The sky instantly darkened and all the brightness seemed to have disappeared. Strong impact came spiraling out from all directions!

Their defensive array collapsed completely at first instant and all of them were thrown onto the ground by this burst of energy!

Explosion, banging sounds and the wind intertwined and reverberated through the skies.

Not knowing how much time had passed, everything returned to its usual silence.

Huang Yueli awoke to discover that she had been covered by a thick layer of snow and frost. Apparently, the rampant energy attracted by the nine stage heavenly tribulation caused the surrounding existence to turn into ashes!

She anxiously used Profound Energy to push away the layer of snow on her head and climb out. Ignoring the pain in her body, she ran swiftly towards the freezing zone where Li Moying was last seen!

At this moment, the entire freezing had turned into flattened grounds.

When the blood moon descended previously, although Snow Phoenix Palace was damaged, there were still some rubbles and remains left. But now, these had completely disappeared. All that was left were black ash and crystal clear snow, which became extremely dirty mud.

On the ground, multiple deep cracks which resembled spider webs extended from far.

Amid these cracks was the energy which the nine stage heavenly tribulation carried earlier.

Huang Yueli worked up all the Profound Energy and using body movements and Profound Skills, she ran forward at full speed.

She only had one thought in mind, "Li Moying, you cannot die. Don't let anything happen to you!!"

Finally, when she was approaching the original position where Snow Phoenix Palace was, she saw a blurry figure appearing on the plane.

Li Moying half knelt on the snowy ground, his entire body covered in blood.

But he did not totally fall. He used his left hand to prop himself up, hoping to stand up on the snowy ground again.

His other hand that gripped the Amethyst Light Sword tightly had turned extremely fragile. It was full of cracks.

Chapter 2733: Heavenly Tribulation Tenth Stage (3)

Li Moying used the sword to support his body, hoping to borrow strength from it to stand up. Whoever knew that the Amethyst Light Sword suddenly gave off a “cracking” sound. In an instant, it turned into a pile of scrap metal.

He went into a short blank as he looked at his right hand.

This Amethyst Light Sword was the proof of he and Huang Yueli’s renewed relationship, and also the first gift that he received from her.

He did not expect it to be completely damaged after so soon...

He was still shaking when he suddenly heard the young lady burst into tears.

“Moying! Moying! Are you alright? You’re still alive, that’s great! That’s really great!”

Hurried footsteps rang and not too long later, the young lady’s petite body hugged his muscular back. She also buried her face into his neck as she kept rubbing it.

“Moying, you scared me to death!! Luckily, I know that you’re the most awesome. Even the nine stage heavenly tribulation cannot stop you!”

The little fox’s sweet, melodious voice rang, making Li Moying feel tenderness in his heart.

Huang Yueli wasn’t hugging him very tightly, but he could still feel the pain from the wound on his back from heavenly thunder. But even so, he didn’t push her aside. Instead, his lips curled slightly as he enjoyed the young lady getting close to him.

After sometime later, the Profound energy in his body resumed a little and he lifted his hand, placing it on Huang Yueli’s little hand which was on his waist.

“Li’er, I’m fine. The heavenly tribulation has already ended so you don’t need to worry... cough cough!”

He opened his mouth to discover that his voice was hoarse. It seemed as though his internal organs had been injured so when he talked, his chest hurt.

On hearing his voice, Huang Yueli quickly reacted and loosened her hug. She turned to face him and did not dare to touch him recklessly. Instead, she squatted next to him and carefully checked on his wounds.

There were several deep wounds on his body that had been caused by the heavenly tribulation.

Although these were superficial injuries, they looked extremely malicious. Huang Yueli’s heart was aching for him.

“Moying, is it painful? I’ll apply some medication for you, so bear with it...”

She took out the last remaining bit of wound medication and treated his injuries with care.

At this moment, Bai Liufeng and the others had already walked over. Although Li Moying's injury was rather serious, it wasn't very life-threatening. Moreover, his consciousness was very clear and every one revealed a joyous expression.

"Sovereign, you're really... too incredible! It was such a powerful nine stage heavenly tribulation and you got through it! From today onwards, your ability will have a major improvement. This Subordinate will first congratulate Sovereign!" Cang Po Jun said happily.

Even Bai Liufeng nodded his head and said, "Li Moying, your innate talent is indeed outstanding! After you've passed through this stage, you will have a bright future ahead of you!"

Liu Buyan didn't say anything. Instead, he walked up and started to treat Li Moying's injuries along with Huang Yueli.

Only Huang Siluo kept observing their surroundings. Then she suddenly frowned as she stood at a distance away.

Bai Liufeng looked up and saw her half-dazed look. He asked in surprise, "Siluo, what's the matter? Why aren't you saying anything? Were you injured by the remnant impact of the heavenly tribulation?"

She shook her head and hesitated a little, then said, "Something feels off. The nine stage heavenly tribulation is already over so Li Moying should have broken through to the tenth stage realm. But... why hasn't he ascended yet?"

Chapter 2734: Heavenly Tribulation Tenth Stage (4)

Hearing Huang Siluo's words, everyone was stunned.

All of them were so concerned about Li Moying's safety that none of them thought of this at all

Moreover, it had been ten thousand years since the practitioners in Soaring Heavens Continent broke through the tenth stage realm. No one had the experience so they subconsciously neglected the most crucial problem.

It was only until this moment when everyone realized that— after breaking through to the tenth stage realm, none of the practitioners would be able to stay in the lower realm. They had to ascend to the God Realm!

Those who had realized that all looked at Li Moying in shock.

Huang Yueli's heart started pounding wildly once again...

Ascend to God Realm!

That was right. After Li Moying advanced into the tenth stage realm, he naturally had to ascend to the God Realm.

For so many years, she and Li Moying had worked hard to cultivate. They kept looking for opportunities trying to break through, all for only one motive!

To climb to the peak of the cultivation, they had to head to God Realm, in a more spacious land so that they could display their ability and attain even higher achievement!

But... this meant that she and Li Moying... had to separate!

Amid the daze, Huang Yueli's mind flashed past this thought. But somehow it felt like a distant matter. Never in her wildest dream did she expect this day to come so swiftly and so suddenly!

They got married not too long ago, and they had only consummated barely two weeks ago...

Moreover, even during the days after they got married, they spent most of their time cultivating in order to save Huang Siluo. So they didn't have much time together at all.

Huang Yueli stared blankly at Li Moying as multiple thoughts flashed past her mind.

But she didn't say a thing.

Ascending to God Realm was something that the both of them had to do, and it was necessary to take this step!

She would not allow her own selfishness to impend Li Moying's future development!

This wasn't anyone's fault. If she had to blame someone, it would be herself for not having enough ability. Her cultivation speed wasn't fast enough and she could not accompany Li Moying to ascend together!

Although that was the truth, Huang Yueli's eyes flashed past a hint of sorrow.

Li Moying's gaze was fixed on her face so he naturally saw the minute expression that she made.

He squeezed her hand gently and said softly, "Li'er, don't worry. I don't feel as though I'm about to ascend anytime. In fact..." he suddenly stopped and frowned, as though he couldn't comprehend the situation.

Huang Siluo asked relentlessly, "Don't you have the feeling of ascending? How is that possible? A low-level plane could not possibly accommodate tenth stage realm practitioners, and this is common knowledge within Heaven and Earth! Numerous planes in virtual space had verified this point, so you can't be an exception! What on earth had gone wrong? How do you feel?"

Li Moying furrowed his brows as he allowed his Profound Energy to go one entire round through his meridians. Then he replied, "It shouldn't be my misperception. I somehow feel that... I haven't broken through the realm? My current cultivation has indeed been raised, but as compared to the ancient manuals recorded in the tenth stage realm, there seems to be a huge difference..."

As he said that, he started to work up his Profound Energy and somehow, he had this feeling that something wasn't quite right.

The others kept looking at Li Moying and they felt something was off as well.

Although everyone did not know much about breaking through to the tenth stage realm, at the very least they knew that tenth stage realm practitioners had to ascend!

Li Moying's current situation was indeed very strange.

Chapter 2735: Heavenly Tribulation Tenth Stage (5)

Huang Yueli said worriedly, "Moying, why don't you let me take your pulse? Could it be that you were seriously injured earlier when you were trying to cross the heavenly tribulation, causing too much damage to your meridians? Hence this resulted in you being unable to advance?"

She stretched out her slender fingers and placed them on Li Moying's pulse.

His strong pulse was felt through the tips of her fingers.

"...strange. Other than a slight deficit in his blood essence, Moying's body is perfectly fine. The damage on his meridians isn't very serious and it is continuing to auto-recuperate... what exactly is the problem? Senior Brother, why don't you..."

Before she could finish her sentence, she heard Huang Siluo gasp as she interrupted.

"Quickly over there quickly! What is that??"

Everyone was shocked and quickly lifted their chins, as their eyes moved to the direction where she was pointing to!

In the sky, an overcast shadow was slowly drifting over from a corner and it was now right about their heads!

Originally after the nine stage heavenly tribulation was over, the tribulation clouds which hovered over the Northern Ice Fields had already disappeared. The sky was blue without any clouds in the vicinity.

As the space barrier which enveloped Soaring Heavens Continent's skies was already torn apart, it continued to peel off from the outside. So the sky looked clearer than before!

It seemed like a clear sky after the rain.

But now, when everyone was focused on Li Moying, another tribulation cloud appeared above them! Moreover, no one knew when this tribulation cloud appeared!

By the time they discovered that, the energy around them had started to turn rampant again. The raging wind caused an ear-piercing sound, as though gold stones were being cut open. One's heart quivered upon hearing those noises.

"This... what is going on?" Liu Buyan raised his head and looked at the sky. He discovered that his voice was trembling when he spoke.

Even though this tribulation cloud was still rather far away, but the enormous energy which formed a pressurizing feel was enough to make ninth stage realm peak practitioners tremble with fright!

This tribulation cloud wasn't as huge as the nine stage heavenly tribulation earlier. It was just a small piece, but it was sufficient to cover the small area above their heads.

However, the energy it gathered was far more than that huge tribulation cloud!

Moreover, exactly because this tribulation cloud was compressed, the amount of rampant energy that was being suppressed, collected, and gathered formed a strange energy field. The energy contained in it was not only coagulated and pure, but it also carried an indescribable pressure!

The small tribulation cloud congealed from the void space, and slowly descended upon them.

Following its slow descent, everyone could feel the pressure increasing. Shortly after, Huang Siluo and Cang Po Jun who had slightly weaker cultivations had already turned pale. They felt a dull feeling in their chests and their legs turned soft. It was difficult to stand firm.

Bai Liufeng hurriedly held on to his beloved wife's waist, allowing her to lean next to him. At the same time, he shouted, "It's too dangerous here, we can't continue to stay here, quick! Everyone follow me and leave this place right now!"

Liu Buyan and the others had the same idea in mind, hence they quickly followed Bai Liufeng and his wife's footsteps.

However, they had just taken a few steps when they realized that their team was short of two people.

Huang Yueli and Li Moying did not follow them!

Chapter 2736: Heavenly Tribulation Tenth Stage (6)

Bai Liufeng was alarmed and hurriedly turned around to see Huang Yueli holding onto Li Moying's waist tightly, refusing to let go.

Li Moying's brows creased tightly as he tried to push her away.

But Huang Yueli used Profound Energy in her hands and she hugged him very tightly. If he forcibly wrestled her hands away, he would definitely hurt her badly. To this, Li Moying was totally at his wits' end.

"Li'er, what are you doing? Quickly go with Father-in-law and the others to leave this place! It's really very dangerous here!"

Huang Yueli bit her lip and said, "Then why aren't you leaving? I can tell that you're not prepared to leave. You're intending to stay here alone?"

Li Moying's gaze dimmed, as his expression turned grim and determined.

"That's right, I want to remain here! But don't you start letting your thoughts run wild. It's not because I want to protect you all or whatever, but because... this tribulation cloud was attracted because of me! No matter where I go, I cannot avoid it. Moreover, I need to pass its test, because..."

Li Moying paused for a moment and lifted his chin as he looked at the horizon, "The Profound Energy in my body has been controlled by this tribulation cloud and every inch of my meridians are crying out! I finally realized the reason why I am unable to ascend even after passing through the nine stage heavenly tribulation. Because I've been waiting... for the last round of the tribulation!"

"The last round?"

Hearing that, even Huang Siluo's eyes widened as she stood on the spot in a daze.

Liu Buyan and the others were tongue-tied with a dazed look on their faces. "Wait... Wait, what's called the last round of heavenly tribulation? Earlier wasn't that already the nine stage heavenly tribulation? Hasn't everything ended? Why is there still one more round? Don't tell me that there is the ten stage heavenly tribulation??"

Li Moying pursed his lips and did not answer her.

Even he doesn't know why this was happening.

In all the ancient manuals that he read, it only recorded nine stage heavenly tribulation and more stages of heavenly tribulation were totally unheard of!

What ten stage heavenly tribulation, he had never heard of such a thing!

But even though the cloud with so much energy above his head might look a little smaller, it was genuine and it might be even stronger than the previous cloud!

He knew clearly that to truly breakthrough to the tenth stage realm, he must take on this test!

Huang Siluo fell into Bai Liufeng's arms, as though she had suffered extreme shock. She kept muttering irresolutely, "Ten stage heavenly tribulation... ten stage heavenly tribulation... could it really exist?"

Her voice might be soft, but everyone there was a first rate practitioner. Even though they couldn't understand the logic, but when they heard what she said, all of them started to ask relentlessly.

"Madam Bai, do you know what's going on? Could it be that there's really the ten stage heavenly tribulation?"

Huang Siluo sighed deeply and shook her head. "I don't know as well... it's just that I had once taken a glance at a tattered, incomplete ancient record. It said that even in God Realm, only those geniuses in every few ten thousand years would experience the ten stage heavenly tribulation... moreover there was only one ancient record with this content. In the past, I used to think that it was just a legend. Today, I've finally witnessed it with my own eyes..."

She lifted her head and looked at Li Moying in the distance, and her emotions started to become complicated.

Her son-in-law, Li Moying, had been handpicked by her daughter, Huang Yueli.

Originally she was a little worried, not knowing how good Huang Yueli's foresight was.

Whoever knew that her foresight was ridiculously accurate!

Chapter 2737: Heavenly Tribulation Tenth Stage (7)

She picked casually and chose such an unsurpassable, excellent genius as her husband!

Moreover, he happened to be from the Cloudy Qilin Clan...

Everyone looked at Li Moying, feeling a mixture of emotions. Shock, admiration, worship, praise...

His power was practically out of everyone's expectations.

Every single time everyone assumed that he had reached his limit, he would reflect an even stronger side of him, which made everyone unable to believe in their own eyes!

They stayed in a daze for a short moment but regained their senses shortly after.

Because the small tribulation cloud in the sky continued to descend. Although the speed wasn't very fast, every single time it descended, it would absorb the surrounding Heaven and Earth Profound Qi, containing it into its energy field.

Hence, the energy field's energy kept on increasing and it was also becoming brighter and brighter. Like a burning ball of shooting stars, fleeing across the horizon...

Huang Siluo and the others weren't able to take on this suppression and out of no choice, they could only choose to leave instantly!

Before they left, Bai Liufeng did not forget to turn back and beckon to Huang Yueli, "Lass Li, why are you still there? Quickly come along with us and leave this place! If you're slightly slower, it will be too late!"

Huang Yueli didn't say a word and hugged Li Moying's waist tightly. She even buried her face into his arms.

When Bai Liufeng saw that he grew anxious and said, "Lass Li, what on earth are you doing? You heard it for yourself, this is Li Moying's heavenly tribulation! If he wants to breakthrough to the tenth stage realm, he must go through this stage! This is a test that he must face alone! You can't help him at all!"

Li Moying grabbed her shoulders and tried to push her away. His voice was filled with anxiety and frustration.

"Li'er, quickly go! You're only in the ninth stage realm, you really can't help me! Don't worry, your husband isn't that weak. It's just a test to breakthrough to the tenth stage realm, I will definitely be able to do it safely! Alright, you'd better leave quickly. I really can't stay calm with you here!"

He swiftly said and didn't loosen his grip on her. He tried using the carrot and the stick, hoping that he could push Huang Yueli out of the energy field's boundary!

But Huang Yueli spoke in a whisper, "Don't think that I don't know. You've suffered such a serious injury earlier and the only half God relic that you have is also damaged. Based on your current state, are you intending to advance to the tenth stage realm? Just one bolt of heavenly thunder and it is enough to strike you to death! You want me to watch you die?"

Li Moying's breathing took a pause!

He didn't expect Huang Yueli to be so sensitive, to be able to tell his genuine situation just by looking at him!

He had obviously... acted very naturally. He didn't give himself away at all, did he?

How on earth could she tell?

In reality, it was just like what Huang Yueli had said. He didn't have the certainty that he could pass through the tenth stage realm. Or to be precise, he had no assurance at all!

Even though he didn't see it with his own eyes, but just thinking about it, he knew that it was a major thing for God Realm's geniuses to attract ten stage heavenly tribulation. They should be the peerless geniuses which the large powerhouses sought to nurture. To help them pass through the toughest test, there would be numerous god relics, medicinal pills, and other resources. There would also be many guardians and they would never allow the genius to take on the challenge alone.

But Li Moying's situation was on the extreme end of the extreme.

Based on his current state, it would be a miracle if he could pass through the ten stage heavenly tribulation!

Chapter 2738: Heavenly Tribulation Tenth Stage (8)

Li Moying's eyelids drooped as he gazed at the young lady in his arms. His adam's apple slid up and down, finding it hard to open his mouth.

"Li'er, I... I have my way! You'd better leave this place as soon as possible! Based on your current cultivation, you totally can't help me and you will distract me instead..."

Hearing that, Huang Yueli bit her lips and showed an obvious upset look.

Li Moying felt sour but he didn't know if he could pass through this tribulation. Perhaps he might be separated from Huang Yueli once again. Originally, he didn't want to disappoint her in this kind of moment, but...

If she still won't leave, she wouldn't be able to live!

Just as the both of them were tangled, the tribulation cloud in the sky was descending faster now. The distance between it and their heads was only a few thousand meters away.

Under such a short distance, the surrounding air had already turned into a rampant energy vortex. Moreover, it was taking in more and more energy. This kind of energy was already enough to make a ninth stage realm peak practitioner throw up blood and die immediately!

Even Bai Liufeng was unable to block it off. He forcibly carried Huang Siluo who was unwilling to leave, bringing her far, far away.

Huang Yueli's body had been strengthened by a great deal after she merged with the Sky Phoenix Ring. She was even more robust than many tenth stage realm practitioners in God Realm. Otherwise, she would have exploded long ago!

Even so, her complexion turned pale and her chest kept heaving up and down, as though she couldn't take it any longer!

The situation was grim and Li Moying felt extremely anxious. "Li'er, listen to me, quickly leave!"

He had no other choice now. For Huang Yueli's safety, he couldn't care about anything else. His hands locked onto Huang Yueli's slender waist and were prepared to push her away with brute force!

Even if he accidentally hurt her, it would be better than letting her die in this place!

But when he was just about to make his move, a sharp cry appeared from the sky!

This sound seemed to tear the air apart, making everyone's eardrums rupture!

At the same time, the suppression that they were feeling instantly increased multiple times!

The small tribulation cloud in the sky suddenly descended. Like a bolt of lightning, it crashed right onto their heads!

Li Moying was caught off guard and he could only use his instinct to expand the thunder domain!

Intense thunder attributed energy kept expanding swiftly, forming a light screen that was made out of energy. It crashed right into the impending powerful energy!

Even though they were pressed for time, Li Moying was able to control his Profound Energy at will. He quickly worked it up and unleashed the remaining energy that he could muster!

To protect the young lady in his arms, he had already used up all his ace which he had accumulated over the two lifetimes!

Millions of energy exploded around him.

“Rumble—!!”

A deafening ear-splitting explosion was heard!

Li Moying's thunder attributed energy and the tribulation cloud collided, giving off continuous explosions. Under the immense energy clashes, the entire Northern Ice Field went from light to dark several times. Rampant energy wrecked the place, making it like a living hell!

Li Moying had barely blocked off the first wave of energy from the tribulation cloud, not allowing it to crash down on them immediately!

But two bursts of energy were in a stalemate. The tribulation cloud's energy was endless, as though there was no limit to it. It kept on charging downwards!

Li Moying had to try his best to keep blocking the impact from the sky. If he were to relax slightly, the tribulation cloud would immediately drop on the ground, wrapping him and Huang Yueli in it and tearing them apart...

Chapter 2739: I will be waiting for you (1)

But Li Moying's Profound Energy wasn't abundant.

The previous nine stage heavenly tribulations had already exhausted a great deal of his physical strength and Profound Energy. He was even injured seriously. If not for his strong determination, he might already have fallen.

Moreover, he didn't have so many medicinal pills like those God Realm geniuses to replenish his physical strength. The only pills he had were given by Liu Buyan and it had all been eaten long ago!

Under such circumstances, he would not last for more than 20 breaths!

This short amount of time was not enough to protect the young lady in his arms, not to mention that crossing this heavenly tribulation!

Not long after, Li Moying sensed his energy depleted completely. His spine started to bend over as though it was about to break!

His eyes flashed past a gloomy look and suddenly raised his hand and slid past his forehead.

His fingertips broke the skin between his eyebrows. In an instant, blood started to flow down towards his erect nose bridge!

Li Moying... was burning his inherent fated blood essence!

When an ancient god clan's blood essence was exposed to air, it would immediately turn into an icy blue color. Moreover, it burned fervently, agitating him so much as though his entire brain was about to explode!

Following that, a "buzz" sound was heard!

In everyone's mind, it seemed like a heavy hammer that came crashing down on them. It made all of them feel a wave of dizziness!

As for Li Moying's Profound Energy fluctuations, it grew several times in an instance!

His thunder domain expanded and swiftly absorbed thunder attributed energy from the surrounding hundred miles.

Right behind Li Moying was a ten feet tall Qilin manifestation that floated in mid-air!

Bai Liufeng and the others looked at this scene in astonishment!

Originally they assumed that Li Moying would not be able to hang on. No one knew what they should do at that moment. Whoever knew that based on a few drops of inherent fated blood essence, Li Moying actually displayed such great power!

Huang Siluo gasped in astonishment, "This is... the Qilin manifestation! It really is the Qilin manifestation! Oh my god, Li Moying is a long-lost descendant of the Cloudy Qilin Clan!"

It wasn't surprising if she was previously suspicious of what Huang Yueli had said, or perhaps she felt that Li Moying was only an ordinary bloodline of the Cloudy Qilin Clan. But now that the truth was right in front of her, it totally changed all her previous perceptions!

To be able to call out the Qilin manifestation, this was the same as Huang Yueli being able to call out the Sacred Phoenix Reflection!

Li Moying's ancestors should be a very important figures in the Cloudy Qilin Clan. Only those with the most powerful bloodline will be able to display this!

The Qilin manifestation slowly congealed and practically turned similar to a real body.

Immediately following that, it bared its fangs and dashed into the clouds towards that tribulation cloud!

More explosions rang consecutively.

The Qilin manifestation's attack was ferocious and it was entwined with electric currents. Under its pressurizing steps, the tribulation cloud's energy was blocked in mid-air, totally unable to drop down further.

"Sovereign is really... really too awesome! He indeed has the bloodline of the ancient Cloudy Qilin Clan!" Cang Po Yu gasped in admiration.

Liu Buyan also clenched his fist tightly, "Quickly, muster the spurt of energy and strike the tribulation cloud!"

"That's right, stinky brat. Isn't the Cloudy Qilin Clan very powerful? Quickly pass through this heavenly tribulation and protect Lass Li properly!" Bai Liufeng didn't even dare to blink, as he watched the Qilin manifestation scuttling among the clouds, hoping that it would splat the tribulation cloud with one claw!

Chapter 2740: I will be waiting for you (2)

Even though everyone prayed, the reality was different from what they anticipated.

Although the Qilin's manifestation kept charging at the tribulation cloud, the cloud was like a black hole that kept absorbing the void space's energy. Every single time the Qilin's manifestation used up a part of the energy, it would be recharged in a short amount of time.

The tribulation cloud's energy was boundless whereas Li Moying's inherent fated blood essence was limited.

After persisting for a quarter of an hour, the blood essence in him was about to burn out and he wasn't able to support the energy which the manifestation needed.

The Qilin's manifestation became fainter and translucent as time passed...

Everyone could tell that the Qilin's manifestation was swiftly depleting.

Li Moying's forehead was full of sweat. His exhaustion had already reached an extreme but he was still fighting hard to hold on!

Even if he had to burn up all his life force, he would protect his Li'er!

For that one instance, he even considered to self explode his primordial spirit.

But just as he was about to do so, he felt the young lady in his arms loosening her grip.

He felt her leaving his arms and lowered his head to check on her. Then he saw her raising her hand and made a slit in between her brows as well!

She was burning her inherent fated blood essence as well!

Li Moying's pupils contracted rapidly and cried out in alarm. "Li'er, you... have you gone mad?"

She had just advanced into the ninth stage realm and the intensity of her inherent fated blood essence naturally couldn't be compared with Li Moying's. Under this kind of pressure, the amount of time her blood essence could last would be extremely short. Moreover, the price for this... if she was lucky, it

would just affect her future cultivation. If she was unlucky, it may cause her to fall into a life-threatening situation!

Li Moying wanted to stop her badly but most of his energy was spent on trying to ward off the tribulation cloud's might. Hence he did not have the time to check on what Huang Yueli was doing. By the time he realized what she had been doing, it was already too late!

A burst of powerful fire attributed energy exploded from her body!

On the icy surface of the Northern Ice Fields, the flat grounds spewed out multiple flames forming an intense fiery domain!

Fire and thunder domain superimposed and fused together, displaying a much stronger might!

A huge phoenix with ten feet long wings appeared behind Huang Yueli. It also cried and soared into the skies!

With the Sacred Phoenix Reflection's aid, the tribulation cloud's descent was instantly restrained. Following its elegant moves, the flames on the phoenix's wings turned the entire sky into a red hot color.

Li Moying was momentarily stunned, not knowing how he should react.

His Li'er was always like this. Every single time he met with danger or was in a difficult situation, she would always ignore her safety to protect him. Even though... her ability was weaker than him, but Li'er had never felt that she was any weaker!

Sacred Phoenix Reflection's impact might be powerful, but it didn't take long before the tribulation cloud's energy was replenished. Very soon, the huge phoenix was suppressed as well.

Li Moying knew that every single second that the Sacred Phoenix Reflection lasted, it was burning Huang Yueli's inherent fated blood essence as the price. It made him extremely anxious and his heart ached.

"Li'er, that's enough! You cannot continue any longer!"
