

Weaponsmith 2741

Chapter 2741: I will be waiting for you (3)

Huang Yueli grabbed his collar and before he opened his mouth again, she suddenly tipped her toes and put her arms around his neck. Leaning forward, she planted her lips over his.

Li Moying had not expected her to do this and for a second, he forgot to react!

When their lips touched, Li Moying suddenly sensed his primordial spirit resonated. Following that, his entire body was filled with a soothing feeling as though he was soaked in warm water. It seemed as though he had returned to the time before he was born, soaked in a nothingness.

The young lady in his arms seemed to burn up and immediately stuck close to him.

This mysterious sense of belonging for both of them seemed to be linked through the breath in between their lips. It was so in sync and it kept spiraling...

Their energy zones kept on strengthening and Profound Energy fluctuations were rising rapidly.

Bai Liufeng and the others who were standing a distance away looked at the two who were locked in an embrace, feeling extremely stunned!

“What is... going on?” Liu Buyan frowned and asked.

Bai Liufeng wanted to give the stinky brat who took advantage of his daughter a good beating, but there was nothing he could do. Gritting his teeth, he said, “They used to share primordial spirits, and later on, they did dual cultivation to let their primordial spirits merge as one. So when their auras are fused, both parties would gain a great increase in their strength...”

“Dual cultivation, doesn’t that mean...” Cang Po Jun seemed to have thought of something and almost said it out loud. But very quickly, he realized that something was wrong and immediately changed his tone. “Cough cough, their current situation, wouldn’t it be the strongest state?”

Bai Liufeng naturally understood Cang Po Jun’s meaning and his lips twitched.

“That’s right. Although there is a reason to do so, I will kill that stinky brag if he really does that. I don’t give a damn if he’s a tenth stage realm god clan genius or whatsoever!”

Cang Po Jun’s meaning was obvious. Since this was double cultivation, the might displayed would be the strongest because it had to go through intercourse. This was easiest to imagine.

As compared to that kind of situation, kissing or whatever were just chicken feet. The power they display would also be limited.

After a reminder from Cang Po Jun, Bai Liufeng’s heart was suspended and he felt extremely complex.

Of course, he didn’t wish for his daughter to not have enough strength and be heavily injured or even die because of the heavenly tribulation. But his daughter was being taken advantage of by his son-in-law. This... he simply couldn’t stand it.

Luckily, Bai Liufeng’s worries did not materialize.

Huang Yueli and Li Moying's aura fused and very soon, they achieved a small consummate state.

A phoenix imprint appeared in between Huang Yueli's eyebrows!

This phoenix imprint became extremely clear in a short period of time. Later on, it flew out from her eyebrows and swiftly grew bigger when enveloped by the raging flames!

"Sky Phoenix Ring! That's the Sky Phoenix Ring!" Liu Buyan cried out in alarm.

Huang Siluo was originally worried about her daughter and she didn't even dare to pant loudly. But now upon seeing the Sky Phoenix Ring, she started to heave a sigh of relief.

"That's right, Lass Li still has the God Relic, Sky Phoenix Ring as her ace! Sky Phoenix Ring was something that a Life Profound Realm practitioner used. Using it to block the heavenly tribulation means nothing at all. But I didn't expect Lass Li to be able to control such a high tier God Relic when she only has ninth stage realm cultivation?"

Chapter 2742: I will be waiting for you (4)

Based on the Sky Phoenix Ring's grade, even if Huang Yueli had broken through to the tenth stage realm, it was very difficult for her to control it.

In the past when the Sky Phoenix Ring was still incomplete, she was unable to use it for attack or defense. She could only use a part of the space. But now that the Sky Phoenix Ring had already been restored by chance. So the difficulty in using it would increase greatly!

So, Huang Siluo didn't consider the possibility of using the Sky Phoenix Ring to pass through the ten stage heavenly tribulation!

Now, Huang Yueli activated the Sky Phoenix Ring and this was simply out of her expectations!

At the same time, she was slightly afraid. Based on ninth stage realm cultivation to drive an ancient God Relic, that was like a child lifting a big hammer and waving it around. If one was not careful, one would be injured!

In actual fact, Huang Yueli who was now in the center of the pressure was facing a huge crisis right now.

She knew clearly that based on her energy, there was no way to control the Sky Phoenix Ring. Hence she made use of the fusion of their aura through the double cultivation method which she read some time ago from the <<Drifting Cloud Scroll>> to summon the Sky Phoenix Ring!

When their primordial spirit fused, Li Moying's Profound Energy and hers influenced each other and exploded with a great amount of energy that had surpassed their Profound Energies!

Obtaining Li Moying's Profound Energy, Huang Yueli finally made the Sky Phoenix Ring materialize successfully.

But she instantly felt the strong suction coming from the Sky Phoenix Ring, which kept drawing energy from her!

If it wasn't for Li Moying's support, she would have lost all her strength within one breath!

Luckily, their auras were interconnected and formed a new energy field which slowly restored its balance.

The fire and thunder domains kept interweaving and a dazzling light screen gushed right into the sky!

The Sky Phoenix Ring was pushed up by the light screen!

In the process of ascension, a small little piece of jade started to grow bigger, resembling a phoenix being reborn as it gave off an intense glow!

Whereas for Sacred Phoenix Reflection and Qilin virtual image, it stood on both sides of the Sky Phoenix Ring.

In the end, the Sky Phoenix Ring and the tribulation cloud clashed heavily in the sky!

Earth-shattering crashing sound which emitted throughout the entire Northern Ice Fields!

Huang Yueli and Li Moying's Profound Energy were rapidly drawn by the Sky Phoenix Ring. When it crashed, their Profound Energies were instantly sucked dry!

Both of them fell lethargically as their eyes saw black and almost fainted.

Huang Yueli bit her lips hard as she was extremely anxious. If... if the Sky Phoenix Ring was unable to deal with the ten stage heavenly tribulation's tribulation cloud, then she and Li Moying would probably die here today!

Luckily, her worries did not come true.

As the sky was about to turn dark, in the next moment where there were no stars in the dim sky, a ray of sunlight suddenly appeared.

That ray of sunlight seemed to shine through the fog and stubbornly rained down. It made everyone in Northern Ice Fields feel a slight stroke of warmth.

Very soon, more rays of sunlight fell.

Huang Yueli squinted her eyes and lifted her head to look into the horizon.

The tribulation cloud had a huge impact on the Sky Phoenix Ring. As though it could not fight against this ancient God Relic's power, it was thrown back into mid-sky again.

Sky Phoenix Ring was originally floating above the tribulation cloud and it gave off a gentle and stable ray. Like the morning sun, it gave rise to an unforgettable scenery.

Chapter 2743: I will be waiting for you (5)

The tribulation cloud's energy was dispersed and it seemed to turn smaller.

It shrank in mid-air for a while and started to absorb Heaven and Earth Profound Qi again.

With the Sky Phoenix Ring in the way, every single time it absorbed a little, the energy would be intercepted by the ring.

The Sky Phoenix Ring was of excellent grade and it had a natural gravitation towards Heaven and Earth Profound Qi. The Profound Qi formed a ball-like faint glow around the Sky Phoenix Ring, wrapping it in the middle.

As the tribulation cloud was unable to replenish its power, it started to grow dimmer and dimmer and the outer energy was starting to disperse in the void space.

Around a quarter of an hour later, the tribulation cloud started to split from the center into bits and pieces of floating cloud, slowly merging as one with the sky.

The gloomy dark clouds were gone.

Northern Ice Field's skies resumed back to their usual brightness as the warm bright sun shone on everyone's heads.

Sky Phoenix Ring originally relied on Huang Yueli and Li Moying's Profound Energy as support. By this moment, all the energy had been depleted and with a plop, it started to descend from the sky.

"Heavens!"

"Be careful!"

Everyone started to cry out in shock, deeply worried that the Sky Phoenix Ring would shatter into pieces when it fell onto the ground.

But this worry was unfounded. The Sky Phoenix Ring descended in front of Huang Yueli and stopped. Then making a little turn, it started to shrink and plastered itself onto Huang Yueli's forehead and fused into her body.

However, before everyone could heave a sigh of relief, they saw her face turning pale as she started to fall backward.

Driving the Sky Phoenix Ring required simply too much energy!

Even though she obtained a huge amount of Profound Energy from Li Moying, but the side effect from having her energy drawn by the Sky Phoenix Ring was evenly spread out between the two of them.

The difference between her ability and Li Moying's was rather huge, hence the damage she suffered was naturally more serious.

At this moment, she had already reached her limit. Upon seeing him passing through the heavenly tribulation, the anxiety in her was finally eased and she instantly fell.

"Li'er!"

Li Moying's expression abruptly changed and he took a step up, hoping to hold onto her.

But before his outstretched hand had touched Huang Yueli, he suddenly felt his body turning light. His feet had left the ground and he was floating in the air!

He went into a daze and tried to use the last remaining amount of energy in him to push himself onto the ground.

But this repulsion force came from the entire Soaring Heavens Continent. It wasn't something that he could fight against alone. No matter how powerful he was, he simply could not fight against the heavenly law's force!

So no matter how Li Moying struggled, he could only see himself getting further and further from the ground and leaving his beloved Li'er...

"Li'er! Li'er!!" He started to cry out anxiously in the sky.

Huang Yueli was still unconscious. She went into a coma to help him pass the heavenly tribulation. So how could he possibly be assured and ascend to God Realm on his own?

But he had no way to make himself stop...

Luckily, Bai Liufeng and the others immediately dashed over after the tribulation cloud was dispersed. Liu Buyan bent down and did a simple check on Huang Yueli's pulse. Then he took out all his valuable ninth level medicinal pills and stuffed them into her mouth.

She wasn't seriously injured. The main reason for her coma was because she had over-exhausted her Profound Energy.

After swallowing the best medicinal pills, she regained consciousness soon after.

Huang Yueli slowly opened her dazed eyes. Her vision was still slightly blurry, and she started to search for Li Moying among the crowd.

Chapter 2744: I will be waiting for you (6)

"Li'er—!! Li'er—!!"

Huang Yueli was still a little dazed, but on hearing Li Moying's voice, she immediately regained consciousness. She propped herself up and lifted her chin to look into the horizon.

Li Moying was almost disappearing into the void space.

Her body shivered and she looked at him in the eye.

The both of them gazed at each other from afar. Even though they were separated by such a great distance, they were able to see the unwillingness and worry in each other's eyes.

They really did not expect their separation to come so quickly and so suddenly...

But this moment was unavoidable in pursuit of the peak in the art of cultivation.

No matter how uncomfortable or how unbearable, they had no choice but to let go. Let the other party pursue their dreams in a broader world.

Li Moying felt the Heaven and Earth Profound Qi around him getting denser and denser. But the void space's energy fluctuation was also becoming more and more rampant.

He knew that he would be warped completely into the void space soon.

He tried to open his eyes wide, to see Huang Yueli for one last time. At the same time, he shouted, "Li'er, I'll be waiting for you in God Realm. You must... must come and look for me!"

Huang Yueli held back her tears and nodded furiously. "Don't worry, I will definitely go and look for you! You... if you dare to look for a vixen in God Realm, I will not let you off by then!"

Li Moying didn't expect her to say this and he almost burst into laughter in a daze.

If he was ever smitten by any vixen, it would be her, the little fox vixen. Other than her, it was impossible for him to have any interest in any other woman...

Thoughts kept racing in his mind. He had a lot of things to say, but his time was up.

Li Moying left the boundary of Soaring Heavens Continent and was sucked into void space. The void space airflow held him instantly, sending him into the dangerous space tunnel.

In the instance the void space's entrance opened up, rampant energy started to seep out. Even though it was just a sliver of it, that was enough to make those at the bottom feel a dull sensation around their chests!

After the discomfort disappeared, everyone exchanged glances with worried looks on their faces.

"Heavens, was that the void space's energy? How could it be... so strong?" Cang Po Jun couldn't help but frown. "Sovereign is stuck inside so he must be facing an extremely dangerous situation. I wonder after he ascends, what kind of scenario would he meet..."

Thousands of years ago, those practitioners in Soaring Heavens Continents who ascended to God Realm were basically from large families or large Sects.

These large powerhouses got together and after every few hundred years, they had practitioners ascending. Moreover, there would be corresponding powerhouses in God Realm to take in their disciples.

So when the practitioner ascended, there might be a little danger but in conclusion, the situation was still controllable.

However, Li Moying's situation was totally different.

Soaring Heavens Continent had been shut off for thousands of years by the demonic qi. All ancient times inheritances were basically shut off. Ninth stage realm practitioners were not able to ascend and they would die when they were around one thousand years old. Those who had witnessed practitioners ascend had all died.

Li Moying had no seniors he could refer to so he was totally clueless towards the God Realm.

Under these circumstances, no one could be sure of what was going to happen to him after his ascension.

Cang Po Jun realized that he said the wrong thing and immediately shut his mouth. At the same time, he carefully looked at Huang Yueli who was still seated on the ground.

Chapter 2745: I will be waiting for you (7)

Li Moying's ascension already made Huang Yueli, who was still in Soaring Heavens Continent, worried. Cang Po Jun felt that what he said would only provoke her further.

With that thinking in mind, he hurriedly changed his words. "Grandmaster Huang, don't worry, although... this God Realm's situation is unknown, but Sovereign's innate talent is so high. No matter which powerhouse it is, they would all try to win him over. Moreover speaking, he's a disciple of the Cloudy Qilin Clan, an ancient God Realm clan, so his status should be very high..."

Huang Yueli didn't say a word and merely shot a glance at him. Then she stood up from the floor.

Everyone present was worried about her. On seeing her about to walk away, they immediately followed suit.

Bai Liufeng asked carefully in hushed tones, "Lass Li, how is your condition? Do you need to rest a little more?"

Although he doesn't see Li Moying eye to eye, he could not help but admit that his daughter and Li Moying had deep feelings for each other. After the stinky brat had ascended, he wondered if his Lass Li would be overly depressed.

Liu Buyan also said, "Yes, Junior Sister. You're still very weak so it's best not to walk about everywhere. Moreover, you... where are you going?"

Huang Yueli stopped walking and turned around to face them. "This place is about to become ruins so why are we staying here for? Don't tell me you guys like to stay in such a dirty and messy place?"

"Ughh? Ah?"

Everyone was stunned to hear her say that.

They assumed that Huang Yueli was feeling very upset so she kept walking forward with her head lowered, not knowing where they should go.

No one expected her to say such logical stuff at all!

It was so logical that none of them could rebuke!

It made the few of them seem very dumb instead.

Huang Yueli lifted her head and looked into the sky. Her lips curled and she urged, "Looks like it's not early anymore. Northern Ice Field's night falls earlier. If we don't leave here and find another place, we will have to sleep here today!"

"Ughh, right, right. We have to grab hold of time!"

Everyone seemed as though they were awoken from their dreams and hurriedly chased up to Huang Yueli.

After the freezing zone was wrecked by the Blood Moon and Li Moying's heavenly tribulation, the ice mountain had already been flattened. In the past, there were several high grade magical beasts living in the freezing zone. But now they have gone missing. Their entire journey out of the place, as compared

to several months ago when they tried to enter here, was much easier. As long as they pinpointed the sun's direction and headed south, that would do.

By the time the sun was setting, they had already reached the freezing zone's boundary. From afar, they could see Blue Profound Sect's Snow Cloud Sky Ship hovering in mid-air.

There were continuous changes in the freezing zone and the disciples in the Snow Cloud Sky Ship were worried about the Sovereign's safety. They wanted to scout the situation but were unable to break through the snowstorm's barrier. Hence they could only fly in the exterior.

Everyone heaved a sigh of relief when they saw the Snow Cloud Sky Ship. They quickened their pace and ran towards the flying ship.

After such a long period of suspense, it was a great enjoyment to be able to enjoy a hot meal on the Snow Cloud Sky Ship peacefully and have a hot shower.

Huang Yueli waved her hand when everyone had returned to the flying ship. "Alright, let's rest earlier today. Tomorrow morning, we'll set off to Sky Emperor City!"

After she finished talking, she realized that everyone was staring at her. But none of them went back to their rooms.

Huang Yueli was stunned. "What's the matter? Why are you looking at me? Li Moying has ascended, so shouldn't everyone listen to me, the Sovereigness?"

Chapter 2746: I will be waiting for you (8)

Hearing that, everyone's gazes seemed even stranger.

What Huang Yueli said wasn't wrong, but at this juncture, she still had the mood to say such things?

They exchanged looks and finally, Huang Siluo stood up. She carefully checked her daughter's expression and said, "Lass Li, don't worry. Moying's innate talent is outstanding. So even if it was in God Realm, he would be safe."

Huang Yueli blinked and said, "Mother, are you thinking too much? I'm not worried about Moying at all..."

Her mother was stunned, and continued to say, "Ughh, then... then are you worried that you will be separated from Moying for too long, so you're not sure when you two can reunite? Don't worry, your innate talent isn't any weaker than Moying's. Now that the space barrier has been cleared, the intensity of Soaring Heavens Continent's Profound Qi has been raised. You will definitely be able to cultivate quickly. It wouldn't take any time before you head to God Realm to look for him!"

Huang Yueli blinked, then she revealed a smile. "Mother, I understand all these that you are saying. You're really thinking too much. I'm not unhappy so there's nothing to worry about. Moying has gone to God Realm and does the things that he always wanted to do. This is a good thing so of course, I will support him. Moreover, I also believe that I will be going to God Realm very soon as well! On the other hand, all of you must cultivate properly. Otherwise, after Moying and I have ascended, no one will be left to take care of you!"

Bai Liufeng was originally very worried for his daughter.

But seeing her in this easy-going state and she even teased them about this, he couldn't help but heave a sigh of relief. At the same time, he couldn't help but snort.

"Young lass, are you looking down on your parents? We are ninth stage realm peak practitioners whereas you've just been newly promoted into ninth stage realm. Our cultivation disparity is so huge but you seem rather confident that you'd be the first to ascend to God Realm?"

Huang Yueli giggled, "That is hard to say! In order to be able to see my Moying sooner, I will work extremely hard!"

His daughter had so much innate talent and was so hardworking. This originally was something that made everyone happy. But she kept putting Li Moying, that stinky brat, in the first place. This made Bai Liufeng feel sour once again.

No wonder the elderly always say daughters would side with outsiders. As a father, he kept feeling that he had lost favor.

Huang Yueli finished her explanation, then she turned around and walked back into her bedroom.

Bai Liufeng looked at her back, feeling a little despondent.

When Huang Siluo saw his reaction, she was amused. "Alright, our daughter is already married. It's a good thing that the couple's relationship is so cordial. Why do you always look as though you're jealous?"

Bai Liufeng said begrudgingly, "I only... only feel that I've let Lass Li down. When she was young, I wasn't able to stay by her side and made her suffer so much. Now, we have finally reunited but she's already married. Moreover, she doesn't need me to protect her."

Huang Siluo shook her head in amusement and said, "No matter if she's married or not, she's still our daughter! Based on Lass Li's innate talent, she's destined to soar in God Realm's skies. Having this daughter is our fortune!"

"Of course I know this, but..." Bai Liufeng tugged his lips.

Who could understand a father's misery?

His wife laughed and grabbed his arm. "Alright, just let Lass Li do whatever she wants. We only need to worry about ourselves and that will do!"

Chapter 2747: Never Learnt Their Lesson (1)

Over the next two weeks, the Snow Cloud Sky Ship flew steadily in the sky. They didn't make any stops and directly flew towards the Sky Emperor City.

Huang Yueli was in a rush to return to Blue Profound Sect. On one hand, it was because they had left for too long. On the other hand, the space barrier had been opened up and Soaring Heavens Continent's Profound Qi's intensity had been raised. Such a major change would definitely cause a wave in Soaring Heavens Continent!

Under this abnormality, it would be chaotic.

By then, the entire Soaring Heavens Continent would be affected.

If no one could suppress the situation in Blue Profound Sect now, perhaps they might be at a disadvantage during the change.

In actual fact, Huang Yueli's worries were not unfounded.

The Snow Cloud Sky Ship moved steadily and fifteen days later, they entered Sky Emperor City's boundary.

Arriving at Blue Profound Sect's skies, Huang Yueli could see a pile of people gathering at the mountain's entrance. It looked extremely disorderly.

Everyone on the Snow Cloud Sky Ship had a change of expression when they saw this scene.

"What's going on? Why are there so many people? Liu Buyan asked in astonishment.

Frowning, Cang Po Yu looked downwards and identified those groups. "These people look like they're from Mythical Flame Palace! Those two are Cloud Ocean Sect's Grand Elders and it was said that they had gone into seclusion for many years, not bothering about what was happening in the world... And those people there, that's the previous Palace Lord from the Seven Stars Palace. Tsk tsk, these are all peerless super experts from various Sects! They brought a huge gang of disciples to Blue Profound Sect, whatever are they trying to do?"

Cang Po Jun couldn't help but sneer, "What else? They're definitely here to look for trouble! They must think that we don't have any top experts in the Sect..."

Huang Yueli naturally understood this and frowned.

She had thought about this long ago. Blue Profound Sect might be in a crisis when they were in the Northern Ice Field.

But she did not expect various powerhouses' top experts to gather here together.

This time, various powerhouses present are all Grand Elders level. These people have much stronger abilities as compared to the current Sect Masters of Elders. All of them are almost reaching the limit of a thousand years and their strength is unfathomable.

To tell the truth, if not for Soaring Heavens Continent's space barrier, a few of them might already have ascended.

Thinking of this, a cold glint flashed past Huang Yueli's eyes.

She finally understood the reason for these people's appearance.

A cold smile curled and she said, "These people indeed haven't learned their lesson. We've just left for a few months and they're up to no good again! Men, let's stop the flying ship in front of them. I want to see how bold they are!"

The flying ship's disciples heard her command and immediately made the Snow Cloud Sky Ship descend steadily.

At this moment, a large gathering of top experts from various large powerhouses had already seen the Snow Cloud Sky Ship in the air and all of them revealed a joyous look!

They had their motives to come to Blue Profound Sect.

Previously at Li Moying and Huang Yueli's wedding, various Sect's top experts were present, wanting to show Li Moying who's the boss. But in the end, not only were they not able to teach him a lesson, these top experts were locked up and until now, their predicaments were still unknown.

Some of them included the Palace Lord Chi Xiao Jiu!

With so many top experts locked up, various powerhouses were severely impacted.

Chapter 2748: Never Learnt Their Lesson (2)

The losses in power were secondary. The crucial thing was various powerhouses' reputations were severely trampled by Blue Profound Sect.

In this period, Six Sacred Lands kept provoking Li Moying and they were harshly dealt with. This news had already spread all over the entire Soaring Heavens Continent.

This time around, all Soaring Heavens Continent's practitioners only knew that Blue Profound Sect was a top rate powerhouse. The usually arrogant Six Sacred Lands had been turned into a laughing stock. Even practitioners from the four sky regions dare to mock the disciples from the Six Sacred Lands!

This situation was naturally something that the Six Sacred Lands practitioners could not accept.

They wanted to earn their reputation back. At the very least, they had to save their Sect Masters and Elders who were locked up. But when Li Moying was in Blue Profound Sect, no one dared to challenge them. So they could only remain as cowards.

But now, Li Moying left and they instantly felt that their chance had come!

Various Sacred Land and Sky Emperor City's powerhouses were secretly in contact with Lord Zhan. They already received news that Li Moying and the others had left Blue Profound Sect for Northern Ice Fields. There were only ordinary Elders standing guard now so their power was greatly reduced.

Of course, they didn't dare to go to them at the beginning.

After all, Li Moying had only temporarily left. If he suddenly came back, no one would be able to take on his furious revenge!

But later on, the Northern Ice Fields had an astonishing change!

First, the Blood Moon ascended to the sky, and back then, it wasn't just Northern Ice Fields that was affected. The entire Soaring Heavens Continent's skies had turned into a blood-red color. At the same time, Heaven and Earth's Profound Qi were led towards the north.

As Soaring Heavens Continent's top experts, they were sensitive towards the Profound Qi's movement. They immediately knew that something had happened in the freezing zone.

After one entire day, the blood moon's cloud finally disappeared. Heaven and Earth resumed back to their normal peace.

Various powerhouses started to send their disciples to Northern Ice Fields, hoping to investigate the truth. However, before they could get any findings, the second abnormality struck!

The entire Soaring Heavens Continent was stirred up. Heaven and Earth Profound Qi had once again gathered towards the north!

Moreover, this time around, a genuine miracle appeared right in front of them! There was no need to probe at all!

The space barrier which enveloped Soaring Heavens Continent for thousands of years... shattered!

The entire sky was filled with spider-web-like cracks and later it started to collapse and disappear... the thick Heaven and Earth Profound Qi had once again descended onto Soaring Heavens Continent!

All the practitioners who bathed in the Profound Qi almost shed happy tears!

From then on, Soaring Heavens Continent would no longer be their cage!

To various large powerhouses, the unparalleled old people, the disappearance of the space barrier was great news for them.

Among many of them, they had been trapped in ninth stage realm peak for years and were unable to ascend. Seeing their lifespan depleting, they were prepared to die.

Now that the space barrier had disappeared, it gave them new hopes. Moreover, Heaven and Earth's Profound Qi had swiftly been raised. Many of their cultivations had been raised within a short span of ten over days, and they had an evident rise of a small realm!

The upgrade of their power gave them a misperception of self-confidence.

In order for Lord Zhan draw these old fogies' loyalty, he revealed to them that he was going to hold a sacrificial ceremony to break through the Soaring Heavens Continent's space barrier!

Chapter 2749: Never Learnt Their Lesson (3)

It was exactly because of this which made them verify that the space barrier had disappeared because Lord Zhan's sacrificial ceremony had succeeded!

The entire continent would belong to Lord Zhan from then on!

Since that was so, they didn't have to worry about a mere Li Moying.

He was so bold to seek trouble with Lord Zhan in the Northern Ice Fields. Wasn't that inviting trouble for himself? Now there was a 99% chance that he was dead!

So those experts from the Six Sacred Lands and some large powerhouses gathered again, hoping to claim back the leadership.

Unfortunately, by the time they rushed to the mountain entrance, they discovered that Blue Profound Sect had already activated their Mountain Protection Array.

Cang Po Hun was exceptionally alert. Adding on to Cang Po Yu's previous experience, he immediately summoned a large number of disciples after the space barrier shattered. After that, he made a firm decision to protect himself.

The truth showed that his decision could not be more correct than ever.

Although various powerhouses' Grand Elders had extraordinary power, they were only in ninth stage realm peak practitioners. Moreover, none of them were versed in array skills. A bunch of them spent many days but still weren't able to find a chance to break through.

"What should we do now?" Blue Profound Sect's Mountain Protection Array was said to be left from ancient times which is extremely strong! Could it be that we can only stand at the door and look?" A wrinkled woman said furiously, striking her crutches on the ground.

She was a Grand Elder from Celestial Heavens Gate and she was Ling Qing Yu's biological grandaunt who pampered Ling Qing Yu since young.

That year when Ling Qing Yu schemed against Huang Yueli, she had a part in inciting her niece. Hence the minute they obtained the Sky Phoenix Ring from Huang Yueli, that was equivalent to establishing great merit. She received several longevity medicinal pills and the entire Celestial Heavens Gate also benefited from it.

She did not expect Huang Yueli to make a comeback after so many years. She also captured her beloved niece, not knowing how Ling Qing Yu was tortured!

Another black-robed Guardian from the Sky Devil Sect sneered. "Old Madam Ling, don't be so anxious! No matter how powerful this Mountain Protection Array was, doesn't it rely on spirit jades and magical beast core to supply the energy? We should just keep attacking continuously and I want to see how many resources Blue Profound Sect has. Surely they can't be cowards and hide in the tortoise shell forever right?"

Hearing that, all the practitioners started to laugh.

"Lord Yan is right! Aren't they all cowards?"

"Tsk tsk, Blue Profound Sect's scums, aren't they very arrogant and conceited? Why are they hiding in their tortoise shells now?"

"They're really a bunch of rubbish! They don't even dare to fight! What cheek do they have to claim that they're the Number One Sacred Land! Bah! I'm really about to die from laughter!"

Everyone laughed wilfully and commanded their disciples to keep attacking the array.

"Focus everyone! After we enter Blue Profound Sect, you can kill all those disciples who always trample on you! By then, we will split up the treasures in Blue Profound Sect's treasury, including all those cultivation methods and inheritances..."

Hearing that, the disciples attacked with even more vigor!

Although they claim to be saving those top experts from their sects, everyone knew that even if these people were saved, they would most likely become tortured beyond recognition. They were definitely crippled!

They were merely using this excuse as a cover-up. More importantly, they were interested in Blue Profound Sect's inheritances...

Chapter 2750: Never Learnt Their Lesson (4)

Blue Profound Sect was able to become the Number One Sacred Land and nurture batches of awe-inspiring top rated experts in Soaring Heavens Continent because they relied on many ancient cultivation methods, manuscripts and resources...

Everyone felt excited just from thinking about these.

It was as if these inheritances were already theirs.

But no one expected Blue Profound Sect's Mountain Protection Array to be so solid. Everyone busied themselves for several days and the entire team had practically used up all their strength. However, they weren't able to shake the array at all. It remained still and rigid, as though it was ridiculing these attackers for overestimating themselves!

"Damn it, what on earth is going on?"

"Are Blue Profound Sect's cowards really intending not to come out?"

Just as everyone was at a loss, someone unintentionally lifted their heads and saw the Snow Cloud Sky Ship coming close. That person couldn't help but scream.

"Old Madam... Old Madam Ling, qui...quickly... look... at... at that..."

"Why are you stammering?" Old Madam Ling hit her crutches on the ground and berated angrily, "What did you see? What's there to make a fuss about?"

As she spoke, she raised her head and took a look. Then her eyes widened and revealed an extremely shocked look.

"Snow Cloud Sky Ship! That's Blue Profound Sect's Snow Cloud Sky Ship! Could it be that... that Li Moying is back??"

On hearing the name "Li Moying", every practitioner jolted with shock!

Their faces revealed an extremely shocked look!

Earlier, all of them spoke so arrogantly as though they looked down on Li Moying. But in actual fact, that was just a façade. Who in the entire continent did not fear him?

When they heard that Li Moying was back, just seeing his ship alone was enough to scare everyone stiff.

In an instant, all of them turned from a ferocious tiger into a trembling little kitten.

“H...H...How is this possible? Li Moying he... how could he possibly appear at this place!” Earlier that Lord Yan who cursed Blue Profound Sect’s disciples as cowards felt his legs turning into jelly when he saw the crystal white flying ship and almost fell on the ground.

“Could it be that even... even Lord Zhan can’t do anything to him?”

“Finished, we’re done for this time! We besieged Blue Profound Sect and he even caught us right in the act. I wonder what he will do to us?”

“No way, we Seven Stars Palace will back out of this deal. Li Moying is back so before the flying ship lands, we’d better leave quickly...”

A state of chaos left the crowd in shock. All they had in mind was to slip away.

Just at this moment, Old Madam Ling coughed hard and spoke loudly, “Everyone, don’t be in a hurry to leave! Li Moying might be terrifying, but Lord Zhan’s power is something that everyone has witnessed! He has much more power than Li Moying! After all, he’s no longer Mu Chengying from twenty years ago! His power is limited and everyone has to think through this carefully. Based on his current ability, how could he possibly escape from Lord Zhan’s clutches?”

When they heard what she said, they all stopped and realized what the old lady said was reasonable.

But some of them were still terrified. “Old Madam Ling, don’t get us into trouble! Only Sovereign Li can command the use of the Snow Cloud Sky Ship! Now that it’s already appeared, could Li Moying possibly not be on the ship?”
