

## **Weaponsmith 2771**

### **Chapter 2771: Towards the Inheritance Tower (6)**

Although the preparation time was a little too short, the Number One Sacred Lands' position was right there. Cang Po Jun's appointment ceremony was rather grand.

Various large powerhouses presidents attended the ceremony, offering generous gifts which they had specially selected.

At the appointment ceremony, Cang Po Jun fondly recalled the days when he was under Li Moying and also expressed that Blue Profound Sect's Sovereign position was just a term. All the Guardians would still treat Huang Yueli as their Mistress.

Huang Yueli merely smiled and didn't say a word.

On the contrary, the other powerhouses' practitioners were exceptionally surprised.

When they heard that Blue Profound Sect's newly appointed Sovereign was not Huang Yueli but Cang Po Jun, many of them were secretly guessing that the both of them had conflicts. Cang Po Jun made use of his prestige in Blue Profound Sect to gain victory over Huang Yueli, hence ascending to the position of Sovereign!

There were quite a number of people who were itching to do something. They felt that they might be able to take advantage of the internal strife within Blue Profound Sect.

However, when everyone saw this, they realized that things weren't as they had thought!

Huang Yueli and Cang Po Jun's relationship was still very good.

Then why did she give up the position of Sovereign to him? Could it be that... she also wanted to aim for the tenth stage realm?

But, she's only seventeen??

Many practitioners just started to surface this idea but denied it immediately after!

A seventeen-year-old aiming for the tenth stage realm was something impossible. Even in God Realm, such a peerless talent did not exist!

No matter how other people guessed, Blue Profound Sect did not give any explanation.

As for Huang Yueli, she was prepared to leave after the appointment ceremony.

Toward her departure, Bai Liufeng and Huang Siluo were extremely ill at ease. The two of them went to visit Huang Yueli every single day.

They had just acknowledged this intelligent and adorable daughter of theirs. Especially for Huang Siluo, she had just spent time with her for only two months and they were going to separate again. Hence she felt exceptionally reluctant.

Huang Yueli didn't hide anything from them, and directly told them where she was heading to – the Sacred Phoenix Race's Inheritance Tower!

That year, when she was still in the South Sky Region, she obtained the map of the inheritance tower from the mechanism that Bai Liufeng left for her. Coincidentally, she managed to enter the inheritance tower and also obtained a large number of resources and phoenix blood.

Back then, the tower spirit guardian once told her that after she breakthroughs to the ninth stage realm, she can go into the inheritance tower again. The tower had refinement trials for ninth stage realm practitioners. If they passed, there was a ninety-nine percent chance of ascending!

An ancient god clan's inheritance was not something that ordinary sects or powerhouses could compare with.

Huang Yueli wanted to break through to the tenth stage realm as soon as possible, so the first thing she thought of was to go to the inheritance tower to take part in the last refinement.

Bai Liufeng kept holding back and finally, he couldn't endure it any longer. "Lass Li, don't go to such a dangerous place for an experience journey! Based on your innate talent, you will be able to break through the tenth stage realm even if you cultivate in Blue Profound Sect! Why must you go there within a year? Let that stinky brat Li survive on his own in God Realm. If he dares to do anything to betray you, I will find a better man for you!"

Huang Yueli didn't know if she should laugh or cry. Her father usually looked normal but whenever something had to do with her, he would immediately turn very childish.

#### **Chapter 2772: Towards the Inheritance Tower (7)**

She could only try her best to pacify Bai Liufeng. "Father, don't worry. I believe that Moying would never have a change of heart! I want to break through earlier, not only because I want to look for him, but also for myself! A practitioner's highest potential only lasts a few decades. If I can ascend earlier, it will be very good for my future achievements!"

How would Bai Liufeng not know what Huang Yueli was saying?

But he just couldn't bear for his daughter to part with him so soon.

Huang Yueli told them that she was going to Sacred Phoenix Race's inheritance tower. Entering such a dangerous place like the inheritance tower, no one knew what would happen. There was a risk that her life might be in danger, so how was he going to set his mind at ease?

Huang Siluo shook her head upon seeing this and touched his furrowed brows, easing the tense lines on his forehead.

She opened her mouth and said, "Oh Liufeng, Lass Li is already grown up and she has her thinking! So why don't you let her do as she wish? Moreover, Soaring Heavens Continent's Heaven and Earth Profound Qi is getting scarcer. In the past thousand years, the inheritance tower rarely appeared. Even if it does, the location would always change and it's very difficult to find it. Even my brother wasn't able to enter the inheritance tower! Lass Li was able to enter by mistake so that proves that she has exceptional genius' luck!"

Bai Liufeng didn't dare to go against his wife and only snorted. However, he did not rebuke anymore.

“This kind of chance doesn’t come by so easily so she should go! But the inheritance tower is very difficult to find. Are you certain that you will be able to find it this time?”

Huang Yueli smiled when she heard that. “Mother, there’s something that you don’t know. The inheritance tower shifts according to a certain array regulation and I roughly have an idea in my heart. Moreover, the space barrier in Soaring Heavens Continent is already broken so the energy in the inheritance tower should be replenished. Perhaps, it wouldn’t move that often now.”

Huang Siluo was suddenly enlightened, “That’s right! The current Soaring Heavens Continent is no longer the same as before!”

The current Heaven and Earth Profound Qi were abundant and all the powerhouses were thriving. But several people still weren’t able to come around it.

“In this case, I can relax...” Huang Siluo nodded.

She continued to ask for detailed information related to the inheritance tower before she barely eased her worries. She and Bai Liufeng took out a lot of treasures and medicinal pills which they had been saving and passed everything to Huang Yueli for protection purposes.

Initially, she didn’t want to take it. But upon thinking that when she was going to break through to tenth stage realm, there was a chance that she might not be in Blue Profound Sect. So by then if she wanted to get past the Heavenly tribulation peacefully, the more treasures and medicinal pills she had, the better. So she kept all of it.

She wanted to ask Huang Siluo to go along to the inheritance tower for refinement but the tower spirit Huang Zixiao once mentioned that only younger generation geniuses between fifteen to twenty years old could take part in. Huang Siluo had already passed the age hence she could only give up this idea.

The next morning, Huang Yueli left Blue Profound Sect from the rear mountain.

She didn’t want everyone to send her off but those people who were concerned about her silently gathered at a tall area in the rear mountains, sending her off with their watchful eyes.

“Sigh, I wonder when will I ever meet Junior Sister after this departure...” Liu Buyan felt despondent.

Huang Siluo shot him a gaze, “Perhaps, we can only meet in the God Realm!”

### **Chapter 2773: Towards the Inheritance Tower (8)**

Hearing that, everyone was stunned.

“What? What God Realm?”

Bai Liufeng was the first to come around it. His face darkened and said, “What do you mean? Could it be that after Lass Li ascends, she will no longer be able to return?”

Huang Siluo nodded and she looked a little sad. “Only those heaven grade and above geniuses who have perfectly passed through the second stage refinement will be able to enter the third stage of the inheritance tower! I heard that the third stage is extremely dangerous. But once they passed, they would be able to ascend immediately. So...”

She paused, but her underlying meaning was obvious.

Bai Liufeng immediately jumped up. “What?? Siluo, such an important matter, you... you actually hid it from me! If I were to know that Lass Li would never return, I will... I will never allow her to go! No way, I must get her back!”

Bai Liufeng got up and wanted to chase after her. But Huang Siluo pulled him from the back.

She rolled her eyes at him and said, “I knew you would say that, that’s why I didn’t tell you! I’m warning you, you’re not allowed to go disturb Lass Li’s cultivation! Her innate talent is so good, I’m sure she will become the Sacred Phoenix Race’s top rated expert in the future. Don’t you dare obstruct her!”

“But... Lass Li is still so young! Moreover, we haven’t spent much time with her. Are you willing to part with her?” Bai Liufeng said with a bitter expression.

Huang Siluo sighed, “Of course I can’t bear to. But when a phoenix in the embryo is going to soar, it will spread its wings and fly into the skies! We... can’t stop her! All of us should work hard at cultivation and acquire the chance to ascend to God Realm as soon as possible. In this way, we will be able to reunite as a family!”

Hearing that, everyone fell silent.

Liu Buyan clenched his fist and he put on a determined expression. “That’s right, even Junior Sister is going to ascend, how can we be so far off?”

Cang Po Jun and the others all set their minds secretly that when they ascend in the future, they would continue to stay by Li Moying’s side.

...

On the other hand, Huang Yueli rose on a ninth tier Violent Cloud Thunderflame Colt and sped towards South Sky Region alone.

She had left South Sky Region for around two years.

That year in Celestial Light Sect, she met Luo Jiyun, Mo Yi, Mo Er, and the others. Now all of them had joined Blue Profound Sect. Even the slaves like Su Qingyue, Yu Xinyang, and the others who she took in, had all came to Blue Profound Sect one after another and became Blue Profound Sect’s outer disciples.

As for the remaining Celestial Light Sect’s disciples, most of them were incapable so she didn’t want to interact with them.

So even though the inheritance tower was near Celestial Light Sect, Huang Yueli didn’t stop by and directly headed to the plains to look for the tower.

Based on her experience and the deduction based on her past memories, she quickly set her sight on a piece of land.

But she went one big round and didn’t manage to see the inheritance tower.

Huang Yueli wasn’t very anxious so she set a small tent near the tower and started to cultivate.

The last time when she came into the inheritance tower, she had once heard Huang Zixiao mention that the inheritance tower would only be activated every 49 days.

But now that the intensity of the Heaven and Earth Profound Qi has changed, so no one could tell what exactly would happen.

She started to work up her cultivation method. Very quickly, she entered a state of anatta and silently cultivated.

Little Phoenix was feeling bored and flew around to seek food. At the same time, it also acted as Huang Yueli's cover.

Twenty days later, on a dark and windy night, the little phoenix which had just filled its tummy was dozing off when it suddenly shivered and woke up.

Chapter 2774: Depends on the ability (1)

Translator: Misty Cloud Translations Editor: Misty Cloud Translations

In the dark night, a cold glint shone dimly.

The tall peak appeared indistinctly and gave off a powerful yet mysterious aura.

Little Wang Cai's eyes shone and it started to flap its wings, "Female Devil, quickly wake up! Wake up! The inheritance tower has appeared!"

Huang Yueli had already sensed it and woke up from her meditation.

When she saw that familiar tower again, she let out a smile and jumped up!

"Let's go!"

This time, Huang Yueli was very clear of the inheritance's exterior array. Hence she didn't waste any time and directly let out blood from her finger. It flowed down onto the ground and she followed it to the center.

Standing at the inheritance tower's tightly shut door, she pressed her bloody finger on the door and it suddenly started to open.

Huang Yueli stumbled and almost fell.

"Eh? Strange? Why did the door open up so quickly?" Her eyes opened wide in astonishment.

She remembered the last time she came, she almost let out all her blood before the door opened up. But now... she seemed to just stain a few drops of blood on the door?

Just as she was feeling puzzled, a familiar voice was heard above her head.

"Welcome back to the inheritance tower, Huang Yueli. The tower's arrays stored the memories of your blood, so that's why you're able to come in so easily."

She lifted her head and took a look to see the inheritance tower spirit Huang Zixiao who was stepping on empty air. He was floating in the center of the inheritance tower.

She couldn't help but smile, "Senior, it's been a long time since we last met!"

"Long?" Huang Zixiao gave a strange expression. "It has only been two years since your departure! This bit of time is simply too short... I didn't expect you to return to the inheritance tower so quickly. Speak, what purpose have you come back for?"

Huang Yueli was originally very anxious so she just told him frankly, "Senior Huang, I remember that when I was here on experience learning previously, you once mentioned that those heaven grade geniuses who had passed through the second stage perfectly will be able to advance into third stage after we ascend to ninth stage realm. Am I right?"

Huang Zixiao was stunned and nodded, "That's right. But... why are you asking this?" He frowned slightly and stared at her for a moment. Suddenly he shook and said in disbelief, "Could it be... could it be... you've already..."

Huang Zixiao was simply too stunned that he couldn't even complete his sentence. He could only point his trembling finger at her.

Her eyes opened wide and she spoke with a calm and innocent expression, "Senior Huang, I've already advanced into the ninth stage realm two months ago! Recently my cultivation had stabilized but I still feel that my cultivation speed is too slow. So I'm thinking of taking part in the third stage..."

"You... you... you really broke through to the ninth stage realm!" Huang Yueli was interrupted by the agitated spirit guardian.

She nodded and said, "Ughh, yes, so can I..."

Before she could finish her sentence, she was interrupted again!

"This... how can this be possible! The last time you passed through the second stage refinement, you were just in the third stage realm! Later on, you merely broke through to fourth stage realm after soaking in the Phoenix Blood Bath..."

### **Chapter 2775: Depends on the ability (2)**

"It's only been two years and you're telling me that you've already surpassed five big realms, reaching the ninth stage realm?" Huang Zixiao had a 'you're kidding me' expression on his face.

Huang Yueli said helplessly, "Senior Huang, based on your cultivation and experience, surely you'd be able to tell what cultivation I have right? Moreover, why should I lie to you? Have you got nothing better to do? I also know that my advancement speed is a little fast, but... surely you needn't be this surprised, right?"

It was until now that Huang Zixiao finally calmed down. He stared at Huang Yueli and shook his head.

"You really broke through to the ninth stage realm. Do you exactly know what kind of speed this is?"

Huang Yueli asked curiously, "What kind of speed?"

Huang Zixiao continued, "The last time you came to the inheritance tower, wasn't the first stage to test your innate talent grade? Back then, the highest grade that the inheritance tower could assess was

heaven grade! But heaven grade genius wouldn't have such cultivation speed like yours. Only god grade geniuses could attain such speed!"

Huang Yueli smiled when she heard that. "No wonder. Even my mother says that my innate talent is at god grade genius' standard."

"Your mother? You found your mother?" Huang Zixiao asked in amazement.

He remembered that when Huang Yueli first came to the inheritance tower, she didn't know anything at all. Evidently, she had been separated from her clansmen from a very young age.

That was why when he wanted to find out more about the current situation of the descendants of the Sacred Phoenix Race in Soaring Heavens Continent, but wasn't able to get any answers.

This time, Huang Yueli nodded, "That's right. I've already found my mother and also went to the Snow Phoenix Palace in Northern Ice Fields. But..."

When she recalled the shocking and tragic scenes in the Northern Ice Fields, Huang Yueli couldn't help but go silent.

Huang Zixiao realized that something was amiss and hurriedly asked, "Only what?"

Huang Yueli lifted her head and took a look at him. She hesitated for a moment and told him everything about the events and what Lord Zhan did.

Huang Zixiao kept listening and initially he was rather stunned. But by the time she finished her story, he had already regained his usual calmness.

"From what you said, that Huang Zixiao is at least a heaven grade genius standard. Based on his innate talent, he was trapped in this barren Soaring Heavens Continent, so his cultivation could not take any step forward. In the end, he succumbed to insanity but that isn't any strange thing... Only thing was, it was a pity for our Sacred Phoenix Race Holy Maiden's division. Since ancient times, there had been multiple heaven grade geniuses, but now... it seemed that everyone had died because of that sacrificial ceremony..."

He sighed for a moment more and later shifted his gaze onto Huang Yueli. "But luckily, a god grade genius like you is still alive! You're the treasure of the entire Holy Maiden's division! Now that the space barrier has already opened up, you will only need to pass the third stage of refinement and you should be able to return to God Realm's Sacred Phoenix Race."

She looked at Huang Zixiao's calm attitude and first went into a blank, but subsequently understood what had happened.

As the tower spirit guardian, he had existed for several centuries, at least eighty thousand years. He had also experienced Sacred Phoenix Race's most flourishing times.

A genius like Lord Zhan was forced into insanity because there was no hope for advancement. To Huang Yueli and the others, he might seem very perverted and there were very few people like him. But to Huang Zixiao, he might have seen many cases like him previously.

**Chapter 2776: Depends on the ability (3)**

As expected, after Huang Zixiao listened to the story, he didn't think much about it. Instead, his brows lifted in excitement.

"Since... you've already acknowledged your mother and know that you're a god grade genius, then have you already ditched your useless fiancé?"

Huang Yueli didn't expect him to ask this and was stunned. "Ughh, ahh? What? What fiancé?"

Huang Zixiao noticed her hesitation and assumed that they had already broken up. He said indifferently, "Two years ago when you came, didn't you mention that you're already engaged with a man? Now, do you know that he's not worthy of you? Your mother must have lectured you and told you to cancel the engagement, right? I've told you this long ago. There will be plenty of talented disciples in God Realm who will be vying to woo a genius like you. You'd definitely regret finding a useless husband in the lower realm!"

Saying that his face revealed a conceited look, as though he had great foresight.

Huang Yueli blinked and opened her mouth to speak, "But... But I've already got married to Moying!"

Huang Zixiao was stunned for a moment as though he was trying to digest the meaning of her words. He started to stutter, "Y... Yo... You... What did you say? You got married to that lower realm man! How can this be possible?? How about your father and mother? No one stopped you from doing that?"

Huang Yueli thought about Li Moying and her face naturally surfaced a blissful smile.

"My father and mother know that we're already married. Moreover, they like my husband very much. Senior Huang, I respect you very much but if you are going to talk bad about my husband again, I am going to get angry! He's not useless trash like what you say, but a top-rated genius!"

Huang Zixiao's eyes opened wide as though he didn't believe her. Sacred Phoenix Race's clansmen could actually accept a lower realm practitioner, someone who was the clan's god grade genius!

In actual fact, Huang Yueli and Li Moying's marriage indeed had not gotten the clansmen's blessings. But she had never treated Lord Zhan and the others as her clansmen so as long as her mother appreciated Li Moying, she felt that it was perfect.

Huang Zixiao stared at her as though his expectations had been let down. "Y... Yo... You... you little lass! Do you know how important is the use of a practitioner's dual cultivation partner in the art of cultivation? God Realm has several god grade dual cultivation manuals. So finding a partner with equivalent innate talent will allow both of you to shorten your cultivations! Especially for the first partner, he is extremely important! You simply got married so casually in Soaring Heavens Continent and it will affect your chances of remarrying in the future! No matter what, you will no longer be able to replenish this!"

Huang Yueli instantly showed an unhappy look as her tone also turned cold.

"Senior Huang, I've already said this earlier. Please don't bad-mouth my husband! I will absolutely not remarry! Also, my husband really isn't some trash. He also has god grade genius innate talent!"

Before she could finish her sentence, Huang Zixiao already snorted. "God grade genius? What joke are you cracking? Do you know what is the concept of a god grade genius? In the entire God Realm, if you

add up all the various large families, there might not even be one within one thousand years! Soaring Heavens Continent itself has very scarce Profound Qi. It is already a miracle to have one like you, but you're still dreaming that there are two?"

Huang Yueli explained in dissatisfaction, "Even when my mother met him, she also said that his innate talent is no lesser than mine! Moreover, he had already broken through to the tenth stage realm some time ago and had already ascended to the God Realm!"

#### **Chapter 2777: Depends on the ability (4)**

Hearing that, Huang Zixiao was truly stunned.

"What? Ascended to the God Realm? The space barrier in Soaring Heavens Continent has just been opened and he has already ascended?"

Huang Yueli nodded and said, "In reality, when Lord Zhan used the Blood Moon Great Array as a sacrificial ceremony, it only created cracks in the space barrier. The real reason for it to shatter was that my husband advanced into the tenth stage realm and attracted the tenth stage heavenly tribulation. Its power was too huge hence it completely shattered the space barrier into pieces..."

"Tenth stage heavenly tribulation!!!" Huang Zixiao's body trembled and almost fell from the sky.

"Are you sure you saw that clearly? Is it really the tenth stage heavenly tribulation?? Have you seen it wrong? Even for God grade geniuses, not everyone could attract tenth stage heavenly tribulation!"

Huang Yueli shrugged and said, "Of course I saw it clearly! So as I was saying, my husband is a genius and he might be more powerful than me! But even if he's more powerful than me, I will not allow him to flirt around."

Huang Zixiao totally didn't hear what she said and kept mumbling to himself, "Tenth stage heavenly tribulation... Tenth stage heavenly tribulation..."

Apparently, hearing the tenth stage heavenly tribulation gave him a big blow and he was not able to regain his senses even after some time.

Initially, Huang Yueli waited for him patiently. But after a while, seeing that he was still in a trance, she could only step up and give him a reminder.

"Cough cough, I say, Senior Huang. I've already told you all the things you wanted to know, so is there anything else that you want to ask? If there's none, can you hurry up and bring me to take part in the third stage trial?"

Huang Zixiao regained his senses and said, "Young lass, you're still so young, so can you have some patience? What will happen if you wait for another two hours or so?"

Huang Yueli rolled her eyes at him. "You've already heard what I said, my husband is someone who could attract the tenth stage heavenly tribulation god grade genius! He ascended to God Realm alone and I'm really not assured! I have to break through to the tenth stage realm as soon as possible, and reunite with him in God Realm!"

Hearing that, Huang Zixiao showed an enlightened look. "That's right, you're absolutely right! You must use marriage to tie this kind of top-rated genius to Sacred Phoenix Race! You're right, we have to grab hold of time quickly. Come over with me now. You must cultivate properly and quickly pass through the third stage trial!"

Saying that he impatiently got up and beckoned to her. "Come with me!"

Huang Yueli saw his swift and decisive reaction and was rendered speechless....

Wasn't he the one who said there was no rush? Didn't he ask her to ditch Li Moying?

Why was it that after he heard about his overpowering innate talent, he was in such a hurry to make her hold onto him?

Looks like as compared to Soaring Heavens Continent, God Realm was indeed a place where they looked at abilities. Only the strong would be able to gain respect from others!

Huang Yueli hastily followed Huang Zixiao and they passed by a light screen to a well-hidden secret room.

When she reached there, Huang Yueli immediately sensed the dense Profound Qi inside. It was much higher than outside. The Heaven and Earth Profound Qi had already condensed into a substance and there was a mist inside the entire secret room.

In the middle of the room was an exquisite drawing.

Even though the surroundings were misty, Huang Yueli's sight was instantly attracted by the drawing.

A huge phoenix was depicted right in the middle of the scroll. It looked lively, and every single feather, each veined pattern could be seen clearly.

The huge phoenix spread its wings and raised its neck into the sky to cry, as it's surroundings were blazing with flames!

### **Chapter 2778: Into the drawing (1)**

Huang Yueli stood in front of the drawing and could already sense the powerful fire attributed energy coming from it as it dispelled out...

Her eyes revealed a sense of astonishment. She had not expected the third stage refinement location to have a drawing like this.

One should know that drawings and calligraphies like these were different from normal array patterns. Theoretically speaking, it shouldn't attract the outer world's Profound Qi, nor could it attract Profound Energy fluctuation.

But now, the Profound Qi in this secret room evidently revolved around the drawing to form a Profound Energy vortex.

This strange scene made Huang Yueli remain stunned on the spot.

Moreover, she could sense a scorching warm feeling in between her brows.

As though the Sky Phoenix Ring in her body had formed a resonance with the drawing, both seemed to be responding to each other.

Huang Yueli spent a great amount of effort to quieten the Sky Phoenix Ring. At the same time, she felt extremely shocked!

This drawing could create resonance with a God Relic like the Sky Phoenix Ring, it must be something extraordinary. She wondered what was the background of this drawing?

Just at this moment, Huang Zixiao's voice rang from her back. "You see this <<Mythical Nine Skies Phoenix Drawing>>? This is the contents of your third stage trial."

"<<Mythical Nine Skies Phoenix Drawing>>? What's that?" Huang Yueli blinked and asked.

Huang Zixiao knew that she didn't grow up in Sacred Phoenix Race so she did not know much. Hence he didn't waste any time and simply started explaining.

"I don't know if you heard of this. Several thousands of years ago, there was once when the Sacred Phoenix Race had a peerless strong practitioner. Even in a place like God Realm where the experts there are plentiful, he was able to crush all twelve families and push Sacred Phoenix Race to the peak. This clansman not only refined the Sacred Phoenix Race's crown treasure, the Sky Phoenix Ring. Moreover, in terms of his full-blown ability, he also created this <<Mythical Nine Skies Phoenix Painting>>, fusing all the fire attributed conceptualization and principles that he had comprehended into this."

Huang Yueli finally understood what was going on. So, this <<Mythical Nine Skies Phoenix Painting>> was actually born from the same person. No wonder the two items could sense each other.

Hearing his words, she went into a blank and asked, "Conceptualization? Principles? What are those?"

Huang Zixiao looked at her in surprise and asked, "You... don't even know what conceptualization and principles are?" He sighed and continued, "No wonder. This originally is something that only practitioners of tenth stage and above could grasp. After Soaring Heavens Continents had been isolated by the space barrier, practitioners could no longer ascend to God Realm. Hence this slowly became lost... That's such a pity. If you were to be born when Sacred Phoenix Race was in full blossom, you might have reached an even higher cultivation path, and it might be much higher than now."

He thought for a moment and explained, "To put it simply, practitioners can display destructive energy mainly because they had communicated with the Heaven and Earth's Profound Qi and utilized these energies. To ordinary entry-level practitioners, absorbing Heaven and Earth Profound Qi to turn into their own Profound Qi was the most basic thing. To high levelled practitioners, they could use their Profound Qi to influence the surrounding Profound Qi, thereby pulling out even more power and form their own domain!"

Huang Zixiao looked at Huang Yueli and said, "You've already advanced into the ninth stage realm, and your innate talent is so high. I believe that you've already comprehended your own fire domain?"

Huang Yueli nodded upon hearing that.

### **Chapter 2779: Into the drawing (2)**

Forming a domain in Soaring Heavens Continent wasn't a scarce thing.

When Li Moying was in the sixth stage realm, he had already formed his own thunder domain. Although Huang Yueli wasn't as incredible as him, she also formed her fire domain after advancing to the seventh stage realm.

For ordinary practitioners, as long as they break through the ninth stage realm, they would only form their domains.

Huang Zixiao indicated, "Unleash your fire domain and show me."

She nodded and her right hand started drawing up a hand gesture. In an instance, the secret room's fire attributed Profound Qi was all pulled by her, corresponding to the fire-attributed Profound Energy in her body into a huge fire domain. The entire secret room was scorching hot with blazing flames, as though it was about to swallow the both of them.

Huang Zixiao was totally not affected by the blazing flames.

He took a look at it and asked for her to retract her fire domain. At the same time, he gave an approving look. "Not bad, no matter in terms of fire-attributed energy's saturation degree or explosiveness, it's all first rated. Your comprehension toward the fire domain is rather perfect."

He paused for a moment and said, "Then do you know that in terms of domain, there are even higher leveled domains. That is the fire attributed conceptualization and principle!"

Huang Yueli blinked and delved into her thoughts. "An even higher level comprehension..."

Actually, when Huang Zixiao was talking about these, she already had a faint guess in her mind.

Toward the use of the fire domain, she was already very experienced in it. Both lifetime's battle experience was sufficient for her to control her fire domain.

But when the fire domain's might reached a limit, she started to wonder if there was any other stronger energy to replace it.

In the past, she had discussed this question with Li Moying.

"My husband once said that the fire domain can only control the surrounding existing fire attributed energy. The power depends on the surrounding Profound Qi's intensity. Moreover, the boundary is only limited to the perimeter of one's surroundings. If one increases their comprehension of the fire attributes, does that mean that we will be able to create energy? Furthermore, the power and boundary could also be widened... could this be the conceptualization and principle that you are talking about?"

Huang Zixiao was stunned to hear her say this. "This is what your husband said? No wonder you said he is a genius! As a lower realm practitioner who had never touched with conceptualizations and principles to have this kind of comprehension. It could be said that the distance to forming his own conceptualization is only a step away! The thing he talked about is conceptualization. If a tenth stage realm practitioner can comprehend conceptualization, then among the same leveled practitioners, one would already not lose. But the principle is a stronger kind of energy. So basically, as long as you break through to the Life Profound Realm, you will be able to comprehend it."

Huang Yueli had basically understood what was going on, so her face revealed a joyous look.

“So to speak, as long as I can comprehend the fire attributed conceptualization, my ability will take a huge step forward, right? Then what should I do?”

He smiled and nodded his head, then said, “That’s right. Actually, the third stage trial in the inheritance tower is for you to comprehend your fire attributed conceptualization! To tell you the truth, even if it is in God Realm, it’s practically impossible for those practitioners who had newly ascended into the tenth stage realm to comprehend the conceptualizations. But starting to comprehend it earlier is an advantage. Even if there’s no way to complete the conceptualization, at least it will raise your ability by quite a bit.”

### **Chapter 2780: Into the drawing (3)**

Saying that Huang Zixiao pointed at the <<Mythical Nine Skies Phoenix Painting>> in the center of the secret room.

In this <<Mythical Nine Skies Phoenix Painting>>, that powerful former clan leader’s entire life’s conceptualization and principles are recorded inside. So this third stage refinement is to enter the drawing and accept the conception’s inheritance! Of course, although the former clan leader had recorded his conceptualization inside, it’s really up to you to see how much you can comprehend.”

She hurriedly nodded and said, “I understand this!”

No matter what, the drawing that the former clan leader left behind was meant as a way to give pointers to the juniors. Taking the path of a senior would result in them going in a roundabout way!

Otherwise, based on one’s own comprehension, Huang Yueli didn’t know how much time she had to spend on it.

Moreover, in God Realm, various large clans would have their own inheritances. She had to rely on her comprehension so it would cause her to be left behind by a huge notch!

Luckily, there was a Sacred Phoenix Race’s inheritance tower in Soaring Heavens Continent which gave her the chance to comprehend conceptualization.

She thought over it for a moment and asked, “Then, what should I do now?”

Huang Zixiao said, “You only need to sit in front of the <<Mythical Nine Skies Phoenix Painting>> and try to establish a spiritual connection with the drawing. Once the connection is successful, you will be able to feel the conceptualization of this painting.”

Huang Yueli said in an enlightened manner, “I see!”

Seeing her jubilant face which looked as though she was itching to have a good at it, Huang Zixiao hurriedly added, “But I have to remind you beforehand. Comprehending the conception is much more dangerous than your second stage refinement! After you enter the drawing, the conceptualization that is shown to you will increase in difficulty. If you are not able to comprehend it, it might cause a huge impact on your soul trace. So the minute you realize that you are no longer able to comprehend after a long time, or you’re suffering from too much stress, you must immediately retreat out. Otherwise, your soul trace might suffer a serious impact!”

Hearing that, Huang Yueli frowned and asked, "Then if I retreat from the painting, will I still have a chance to continue comprehending?"

Huang Zixiao said, "Impossible. Everyone only has one chance to comprehend. If you retreat from it, there is no way to enter again."

"Oh, it's like this..." Huang Yueli muttered.

Huang Zixiao could tell what she was thinking and he immediately said strictly, "Huang Yueli, you'd better not disregard my words! Even in God Realm where there are Elders to guard against this, there would be many practitioners every year who were seriously injured when they were comprehending the conceptualization! Those with lesser injuries would result in their cultivations dropping. As for those serious cases, they might become retards! So don't you ever take your future as a joke just because you wanted to try comprehending a little more!"

Huang Yueli knew that he was saying these out of good intentions so she hurriedly nodded, "Yes, thank you Senior Huang for your pointers! But I'm just merely asking."

Huang Zixiao started to relax and pointed out to her to sit cross-legged in front of the <<Mythical Nine Skies Phoenix Painting>>.

"Now, shut your eyes and congeal your senses. Release your mental power and attempt to establish a connection with the drawing..."

While he said that, he stared at Huang Yueli's side view, observing and examining her.

He didn't tell Huang Yueli that in God Realm, the speed of the connection between the practitioner and the <<Mythical Nine Skies Phoenix Painting>> was an important standard of the practitioner's comprehension assessment.

The higher comprehension a practitioner had, the faster they would enter the painting. The weaker the comprehension, the longer they might have to sit in front of the painting.
